VOLUME 35

EAST JORDAN, MICHIGAN, FRIDAY, FEBRUARY 20, 1931.

NUMBER 6

## City Basketball League Organized

FIRST GAME THURSDAY, FEB'Y 26, AT 7:00 P. M.

A City Basketball League was organized Thursday night. The league is to be composed of many former High School stars as well as all the basketball players among the business men. There will be teams representing the Foundry, Knights of Pythias, West Side All Stars, and possibly one from the American Legion.

The first game will be played Thursday, Feb'y 26th. Games start at 7:00 p. m. Admission 5c and 10c. This should be an interesting venture for a very few smaller towns have more good basketball material than East Jordan.

Some of the members interested in the organization are: Chris Taylor, Rod Muma, Richard Muma, Marvin Benson, Ted Malpass, Bill Taylor, Harold Lee, Al Freiberg, Abe Cohn, Barney Milstein, Bill Barnett, Carl Shedina, Earl Gee, Clayton Montroy, Arnold DeDoe, Kenneth Blossie, George Palmer, Dr. Brenner and many others who will be on the list later on.

It is possible that two other teams will be added. This will be decided at the meeting Thursday night. More details in next week's Herald. Watch for announcements.

## COUNCIL PROCEEDINGS

Regular meeting of the common council of the City of East Jordan held at the council rooms, Monday evening, Feb. 16, 1931.

Meeting was called to order by the Mayor. Present: Mayor Gidley and Aldermen Maddock, Taylor and Williams. Absent: Aldermen Dudley, Watson and Farmer.

Minutes of the last meeting were read and approved.

The Mayor appointed the following named persons as an Election Board for the Spring Primaries and the regular April Election: C. W. Sidebotham, W. L. Aldrich, W. F. Bashaw, H. A. Goodman and Joseph Trojanek.

Moved by Alderman Williams, supported by Alderman Maddock, that the above appointments be confirmed. Motion carried.

Moved by Alderman Maddock, supported by Alderman Williams, that candidates for nomination to city offices file their petitions with the City Clerk on or before Monday, March 2, 1931, and that the clerk be instructed to give notice to that effect. Motion carried.

Bills were presented for payment as follows:

John Whiteford, digging graves	\$7.50
J. F. Kenny, coal	39.20
Loyal Murray, towing tractor	1.00
Wm. Frause, snow plowing	2.80
Win Nicholls, snow plowing	2.80
Boyer Fire Apparatus Co., mdse	35.00
Northern Auto Co., tractor parts	21.40
State Bank of East Jordan, ins. on fire truck	113.60
Otis J. Smith, copy of reg. books	3.75
E. J. Co-op. Ass'n, coal	8.25
East Jordan Hose Co., fires	73.00
James Gidley, trip to Lansing	78.32
H. C. Liepser & Co., dater and pad	6.54
LeRoy Sherman, labor and mdse	5.49
Bert Lorraine, printing	10.00

Moved by Alderman Taylor, supported by Alderman Williams, that the bills be allowed and paid. Motion carried by an aye and nay vote as follows:

Ayes—Maddock, Taylor, Williams and Gidley.

Nays—None.

On motion by Alderman Maddock, meeting was adjourned.

OTIS J. SMITH, City Clerk

## JORDAN TWP. CAUCUS NOTICE

Notice is hereby given that a Caucus will be held in the Town Hall, in Jordan Township, Antrim County, MONDAY MARCH 2, 1931 at 2:00 p. m., for the purpose of nominating candidates for the several Township Offices to be filled at the coming April General Election, and for such other business as may lawfully come before said Caucus.

Dated Feb. 3, 1931.

EDD. NEMECEK, Township Clerk.

## The new schoolmaster spied the three-legged stool.

"Is this the dunce block?" he asked a pretty little child.

"I guess so," said she with a lisp. "That's where the teacher sits."

"He was painting his house yesterday and fell off the ladder into a barrel of turpentine."

"Was he hurt?"

"Don't know. They haven't caught him yet."

## MASONS AND IRON MEN WIN INDOOR BALL GAMES

In two very interesting games played last Monday night, the Foundry men whipped the Athletics 24-23, and the Masons took the measure of the American Legion 20-15.

As the scores indicate, both games were free hitting affairs and all four teams found it necessary to make frequent substitutions in the pitcher's box.

One of the things that makes these games so interesting is the fact that all four teams are very evenly matched and no one can predict with any certainty which team is going to win. Last Monday night for instance, it was expected that the Athletics would easily beat the Foundry, while the American Legion was a 2 to 1 favorite to win from the Masons. The "dope" was wrong on both.

Don't miss next Monday night's games as the results of that night may go a long way in determining who is the season's winner. At that time the Masons play the Athletics, and the Foundry play the American Legion.

League	Won	Lost	Standing
Masons	3	1	750
Foundry	2	2	500
Athletics	2	2	500
American Legion	1	3	250

## Jordan Valley Co-operative Creamery Members, Attention!

Membership agreement signers who have not yet settled for their stock subscription may do so at the State Bank of East Jordan or the Charlevoix Co-operative Ass'n at any time. It is necessary that this matter be settled at once so the Company can get under way.

ARCHIE M. MURPHY, Sec'y-Treasurer.

adv. 8-2

Lansing—The briefest amendment to any statute to be offered in this legislature bobbled up as the certain source of a row between the house and senate. It is designed to give the secretary of state authority to extend for 60 days after January 1, instead of 30 days, the period during which motorists may procure new license plates if economic conditions justify the delay.

Coldwater—A secret marriage performed last summer was revealed here following the death of Mrs. Eleanor Rupright Elder, 27 years old, instructor of music in the Marshall schools. She died suddenly in Albion. Mrs. Elder, daughter of William E. Rupright, of Coldwater, was the bride of Reginald Elder, of Marshall, last summer. The two had planned to reveal their marriage soon.

Lansing—No claims for the Michigan soldier bonus could be filed after Dec. 31, 1931, and all claims would have to be adjudicated by Jan. 1, 1933, under a bill introduced by Rep. Vincent P. Dacey, of Detroit. The State approved a \$30,000,000 bond issue in 1921 to pay a soldier bonus. In 1923 there was a deficiency appropriation of \$1,500,000 and of this sum there remains in the State treasury about \$500,000.

Lansing—A bill to reduce property taxes by restricting local bond issues was introduced by Senator Claude H. Stevens of Detroit. It provides that no city, county, township or district may issue bonds while 25 per cent or more of the taxes for the preceding year are unpaid, and it limits special assessment bonds to 5 per cent of assessed valuation of the district. Regulation for the sale of bonds and issuance of notes pending their sale also are included in the measure.

Detroit—Eleanor Gangler, 11 years old, strangled herself to death while playing with a roller towel in the kitchen of her parents' home. The girl placed an end of the towel around her neck and then spun around, the towel tightening as she did so. Her 8-year-old sister, Irene, witnessed the tragedy without being aware of what had happened. Irene finally became frightened and ran to her mother, who was in an adjoining room. When Mrs. Gangler reached the kitchen, Eleanor was dead.

Pontiac—A five-story addition to the St. Joseph Mercy hospital will be built at an estimated cost of \$135,000 according to Charles Sullivan, designer. Contracts are to be let at once and the addition will be completed September 1, if present plans are carried out. Primary purpose of the addition will be to provide a nurses' home. Three floors will be given to the nurses and a children's department, medical library, auditorium, and quarters of doctors and internes will occupy the remainder of the space.

Prejudice and intolerance are invariable signs of ignorance.

## Bigger and Better

## COMMUNITY SADDENED BY DEATH OF GLEN KELLER

The second son of Mr. and Mrs. Lyle Keller of this city passed away at the Ann Arbor Hospital, Thursday, Feb'y 12th, 1931.

One of the most popular and best loved High School students passed in the death of Glen Keller. He was one of those retiring, thoughtful boys who made friends with everybody he met. He will be greatly missed by not only his people, but all of his High School associates and especially the boys of his Sunday School class.

The ailment that took Glen was of long duration. Symptoms of his trouble shown as far back as when he was three or four years of age and as near as the doctors could make out it was curvature of the spine. The trouble took a serious turn last year and he was confined to his own home and later at the Ann Arbor Hospital, where he again went in December for treatment, and for a time it looked as though there was a possibility of recovery. But an operation some ten days ago proved too much for his weakened constitution.

Glen was liked best by those who knew him best. He was so conscientious, reliable and cheerful in all of his troubles that many people were very sorrowful to learn of his serious illness and his death.

A few years ago the Presbyterian Sunday School offered a Bible to those who learned three or four of the most important portions of the Bible. Glen Keller being one of the very first to have these passages learned, received a Bible for it. The fact that he took this Bible with him to Ann Arbor and had it immediately at hand shows something of the nature of the boy. Another thing that the Sunday School class, teacher, and Pastor of the church remember was the fact that he attended Sunday School the last day that he was in East Jordan, the very day before he left for Ann Arbor. He was most regular in his attendance to Sunday School when it was physically possible of the High School Band and one of the finest students in the ninth grade and in spite of being handicapped by a weakened constitution, he passed

two grades a year two different times. As it often happens, many boys who are handicapped really appreciate what it means to be able to take part in athletics. A statement from one of his boy friends, reveals the fact that he had a great ambition to go into athletics but on account of his physical condition could not. However, he made the best of every obstacle.

Funeral services were held from the Presbyterian Church, Tuesday afternoon and a beautiful sermon by Rev. C. W. Sidebotham was given and greatly appreciated not only by the members of the immediate family but also by all those who attended the funeral, which included eighteen or twenty boys from his Sunday School class, the entire ninth grade, besides a number of friends from other departments of the High School. The floral offerings were profuse and beautiful. The respect for Glen was shown by the great number in attendance at the funeral.

He leaves to mourn, his mother and father who gave their untiring efforts to bring about if possible his recovery, making four or five trips to Ann Arbor within the past few weeks. Two brothers, Ervin and Boyd, and one sister, Daphny, besides the immediate family, his grandfather, Mr. Keller and many other relatives who were nearly all in attendance at the funeral.

TO THE VOTERS OF SOUTH ARM TWP.

The annual Township Primary Election will be held March 2, 1931, at the Township Hall. The following Township officers will be voted on:

Supervisor, Township Clerk, Treasurer, Commissioner of Highways, Justice of Peace, full term, Justice of Peace, to fill vacancy, and Member Board of Review.

The Candidate receiving the greatest number of votes shall be placed on Ticket No. 1. The Candidate receiving the next highest number of votes shall be placed on Ticket No. 2.

LAWRENCE ADDIS, Township Clerk.

## Garden That Wins First Prize

Mrs. Gus Ehrenberg of Spokane, Wash., in a corner of her beautiful garden which has been awarded first prize in the National Yard and Garden contest for amateurs. Mrs. Ehrenberg says much of the credit for her success is due to her two Boy Scout sons, Elliott, fourteen, and Allen, twelve.

## EAST JORDAN MAN IS ROBBED OF \$119 HE INFORMS POLICE

Edward Sandel of East Jordan received an unenviable welcome to the city early last Wednesday night when, shortly after he arrived here from Detroit, he was held up by two bandits on Weston St., just east of Ionia Ave., and robbed of \$119, it was reported to Detectives Scheiern and Sullivan.

Sandel, who said he came here to visit his brother in Comstock Park, told the Detectives he was walking on Weston St., about 6 p. m., when a short, heavy-set man, who apparently emerged from an alley, shoved a gun into his ribs and ordered him to "stick 'em up!" Meanwhile, he said, another man reached into his pocket and grabbed a wallet.

Sandel, who has been employed as an oiler on Great Lakes boats, said he had spent the last few months in Detroit, where he underwent an operation in the Marine hospital there.—Grand Rapids Herald, Feb. 12th.

## EAST JORDAN MAN'S BLUFF 'CALLED' IN GRAND RAPIDS

Edward Sandels, of East Jordan reported to police in Grand Rapids last week Wednesday evening that he had just been held up by two men and robbed of \$119, after coming into the city by bus from Detroit. Detectives who were put on the case found he had come in on a truck instead of by bus, and found a well-known citizen who was sitting in a car at the street intersection where the robbery was said to have occurred, and had seen nothing. Sandels thereupon confessed the holdup story was a myth, and that he was trying to get sympathy from a brother who lived in the city. Sandels, being ill, was not held by the police for his action.—Mancelona Herald, Feb. 19.

## PRIMARY ELECTION

To the Qualified Electors of the CITY OF EAST JORDAN, State of Michigan:

Notice is hereby given that a General Primary Election will be held in said City on

MONDAY, MARCH 2, 1931

At the places in said City as indicated below, viz.:

First, Second, Third Wards—Library Building.

For the purpose of placing in nomination by all political parties participating therein, candidates for the following office, viz.:

One County Commissioner of Schools.

Suggestions Relative to Voting SEPARATE BALLOTS for each political party will be provided. The elector must name the political party of his choice when asking for a ballot and in marking his ballot must make a cross in the square to the left of the name of each candidate for whom he desires to vote, and can vote for only one candidate except where two or more candidates are to be nominated in which case he should vote for two or the number to be nominated.

After the ballot is prepared it should be folded so that the initials of the inspector below the perforated corner will be on the outside.

Notice Relative to Opening and Closing of the Polls.

Public Acts 1929—No. 306, Chapter VIII

Section 1. On the day of any election the polls shall be opened at seven o'clock in the forenoon, and shall be continued open until six o'clock in the afternoon and no longer: PROVIDED, That in townships the board of inspectors of election may, in its discretion, adjourn the polls at twelve o'clock noon, for one hour, and that the township board in townships and the legislative body in cities and villages may, by resolution, provide that the polls shall be opened at six o'clock in the forenoon and may also provide that the polls shall be kept open not later than eight o'clock in the evening of the same day. Every qualified elector present and in line at the polls at the hour prescribed for the closing thereof shall be allowed to vote.

THE POLLS of said Election will be open at 7:00 o'clock a. m., and will remain open until 6:00 o'clock p. m., official city time, of said day of election.

Where eastern standard time is adopted such time shall govern all elections.

Dated Feb. 2, A. D. 1931.

OTIS J. SMITH, City Clerk.

## CARD OF THANKS

We wish to express our heartfelt thanks to our friends, neighbors, and relatives who so kindly rendered services to us, and for the many beautiful flowers sent us in our sad bereavement.

Mr. and Mrs. Lyle Keller and Family.

## Game Was A Thriller

CHARLEVOIX BASKETEERS WIN CONTEST 20 TO 16.

There is no hiding of the fact that Charlevoix looked for easy picking Friday night against Coach Cohen's basketeers. The surprise of their life was in store for the resort town lads. The dumb-founded expressions on their faces was worth the price of admission while they watched the East Jordan lads go by. No words could ever emphasize the work done by the local boys or either team, in fact, for in the end Charlevoix won the game 20-16. However no one at the game could possibly say anything different than Charlevoix with the greater breaks of luck, and nothing else, won the game.

The whirl wind and speed with which both teams played was a revelation to the crowd. It was almost unbelievable to many that the High School Basketball team had such speed and fight in them as was shown after watching some of the games they have played.

The local lads scored four points so quickly that it took Charlevoix's breath and completely outplayed them the first half. In fact out-played Charlevoix throughout the game and as was hinted above, only the experience and cleverness of the Charlevoix boys in accepting three opportunities and making unusual baskets saved the game. Had East Jordan done anything at the foul line they would have won the game anyway.

Although the locals lost, the crowd was highly elated over the showing of Hegerberg, Dennis, LaLonde and others. For the benefit of those who were not at the game, let it be known that the crowd simply went crazy almost throughout. It is many years since such a thrill was received by East Jordan basketball crowd. Their playing throughout most of the season has been spurted and they had a tendency to hang on to the ball, but the other night the fondest supporters could not believe their eyes at the way the lads let go of that ball. They acted as though it was a hot coal and their fingers hardly touched the ball until it was on the way to the hoop. When it is said that three baskets were made two-thirds way down the floor, far beyond the center, gives everyone an idea of the kind of game that was played Friday night. Such a game couldn't help but madden any red blooded American crowd. If the boys play the kind of ball they did Friday night in the next two games and the Tournament, somebody might get a little chill and feel a shivering sensation.

Arne Hegerberg played a sensational game and the finest he has ever played in his life. He featured East Jordan's offense, while Clifford Dennis did an outstanding piece of defensive work, showing himself to be one of the best guards which northern Michigan can boast. William LaLonde played just a shade behind these two men and as far as that is concerned just a shade less than William Halstad and Howard Somerville. The whole team played a sensational brand of the court game. Three of the boys tossed a basket from beyond the center of the floor. The stars from Charlevoix, as usual, were McCall and Novak. Novak did a good job with real opposition. As good as he is rated, he was out-shown by the blonde Norwegian boy, Hegerberg. Novak was one of the men who realized that he was up against the real thing.

The score by quarters is as follows: This would indicate the closeness of the struggle. Most of the sensational shots were made by the East Jordan team. Charlevoix, by clever playing and a break of luck won the game and congratulated themselves when the game was over in their favor.

We do not in any way intend to belittle the Charlevoix team, for they are one of the best Class C teams in Michigan and any team that beats them is a cracker-jack. They played a fine, clean game and nothing but commendation can be given them as well as the local boys.

Tex Buchen of Boyne City referred an excellent brand of basketball as he always has.

	1	2	3	4
Charlevoix	4	10	18	20
East Jordan	6	11	13	16

Dated Feb. 2, A. D. 1931.

OTIS J. SMITH, City Clerk.

## NOTICE TO CANDIDATES

Nominating petitions for City offices may be filed with the City Clerk any time up to and including Monday, March 2, 1931.

OTIS J. SMITH, City Clerk.

If you are thinking of investing in a going concern—first make sure which way it is going.

Subscription Rate—\$1.50 per year.

Member Michigan Press Association.  
Member National Editorial Ass'n.

Entered at the Postoffice at East Jordan, Michigan, as second class mail matter.

**AFTON**

Edited by Mrs. Henry Timmer.

Mr. and Mrs. L. R. Hardy and children spent Sunday with Miss Ruby Hardy at Petoskey.

Mrs. Merritt Finch and Mrs. Wm. Tate were callers at Herbert Hollands Wednesday afternoon.

Deer Lake Grange Poverty party brought out a crowd of 170 people, most of them in rags and tatters. The prizes for the "neediest" went to John Guzniczak and Mrs. Wm. Newkirk.

Without any notice, a meeting to nominate candidates to the County Convention was called at Wilson Grange Hall Saturday evening. Ed. Nowland, Chas. Shepard, George Jaquays and Jasper Warden were those nominated. As the meeting was held unknown to the chairman, Miss Sidney Lumley, and in defiance of the meeting called by her for Monday evening, it has been declared illegal.

Miss Mary Guzniczak and the Stenkowskie family of Petoskey spent Sunday with her parents.

Mrs. Herbert Sutton was called here by the death of her mother, Mrs. Maybelle Russell.

Deer Lake Grange Glee Club will meet with Mrs. Lester Hardy Wednesday evening, Feb. 25th.

Fred and the Misses Minnie, Virginia and Margaret, Martin, Mrs. Timmer and daughter, Laurel were all guests at the Afton school Valentine party Friday afternoon.

Misses Margaret Knop and Zelma Eggersdorff visited their aunt, Mrs. Schultz, Wednesday.

Miss Juanita Baker spent the week end at Charlevoix.

A Grand Rapids cattle buyer was in the vicinity this week.

Afton Grange will hold a public Masquerade dance this Saturday night.

Albert Todd sold two beef animals to C. C. Schaub the past week.

To inform several inquirers, Albert St. John is able to be about again. His illness was not mumps, but swollen glands and quinsy as reported.

**JORDAN TOWNSHIP**

Mr. and Mrs. Joseph Chanda and family visited her sister, Mr. and Mrs. Fred Haney, Sunday afternoon.

Mr. and Mrs. Peter Stanek and son Archie visited Mr. and Mrs. Frank Rebec Sunday afternoon.

Mr. and Mrs. Frank Haney were Sunday afternoon callers at the home of her brother, James Noyak.

Mr. and Mrs. F. M. Stanek and family were Wednesday evening callers at Peter Stanek's home.

Frank Stanek Jr., of Jordan Twp., shot a white owl the other day. It measured 4 feet and 10 inches across. It set on a roof of a barn when captured, and it is the first white owl seen in this vicinity. It is believed to have crossed over from Canada.

**J. J. LEDSWORTH**  
is conducting services each evening in the  
**LATTER DAY SAINTS CHURCH**  
East Jordan.

He also shows slide pictures at each service. Beginning Friday evening, the pictures will be dealing on the life of Paul. They are very interesting. The people seem to be very much enthused over the pictures and lectures each evening, as there is a full house each night. Come and bring your friends, and join us. Everybody welcome. Services at 7:00 p. m., standard time. Services will continue all next week.

**State News in Brief**

**Grand Rapids**—Mrs. Cornelius Troost, 27 years old, lost nearly all her hair when an oil stove explosion in her home singed her head. Grief-stricken over the loss of her hair, she shot herself. She was taken to St. Mary's hospital, where her condition was reported as not serious.

**Port Huron**—The plant and business of American Citrus Engines, Inc., of Marysville, has been purchased by a group of Chicago business men headed by Lee Hammond. The manufacture of airplane engines will be resumed within a short time, it was announced. The new concern is managed by W. R. Blacklock, treasurer of the old concern.

**Lansing**—The West Michigan Fair at Grand Rapids would become a State fair under a bill introduced by Senator Ernest T. Conlon, of Grand Rapids. For the fair property, said to be worth \$400,000, the State would pay \$150,000, enough to meet the obligations of the Fair Association. The bill calls for an additional appropriation of \$25,000 for improvements and maintenance.

**Lansing**—More than 57,000 noxious fish were removed from Michigan waters during the year 1930 according to a report of the fish division of the department of conservation. The figure is more than double that of 1929 when 27,610 fish were reported taken from lakes and streams. Carp predominated among the species of noxious fish taken. Individuals operating under contract with the state took 34,981 carp during 1930 as compared with 11,841 taken through the same means the previous year.

**Flint**—Mrs. Lumilla Briggs, 29, had enjoyed the state of "single blessedness" for less than 15 minutes after her divorce before marrying again. Mrs. Briggs obtained her divorce and went to the court clerk's office to file it. While there she obtained a marriage license. With her was Elias William Van Schoek, 43. Without delay they went to the office of Judge Vernon W. Dodge of Probate Court. The attorney who aided Mrs. Briggs' divorce suit acted as a witness.

**Flint**—Bruce McGlashan, 18, drove his car to the end of a street, but neglected to turn. As a result, he is in Hurly Hospital with serious injuries and facing a reckless driving charge. McGlashan crashed into the home of R. F. Smith, wrecking his car and demolishing the front of the house. He lost an eye and suffered a fractured skull. Neighbors who heard the crash rushed from their homes, thinking there had been an explosion. A broken bottle was found in the car.

**Lansing**—A state bounty on wolves, coyotes, lynx and wildcats is provided in a bill introduced in the house by Representative John F. Van Brooklin, of Marquette. Any claimant of the bounty must produce the animal or its head, before the county clerk, with statements from the supervisors and township clerk, and make affidavit as to when and where the animal was killed. It is provided. The fees are proposed as follows: Wolf, \$25; wolf whelp, \$4; coyote, \$5; lynx, \$5; wildcat, \$3.

**Lansing**—As a part of Gov. Brucker's economy program, the State Conservation Commission decided against further land purchases for park, game, refuge or forestry purposes. Although Commissioner Phillip Schumacher, of Ann Arbor, told his fellow members that former Gov. Fred W. Green had approved purchase of 53 acres to be added to the Island Lake State Park and that this could be acquired for \$57,000, the commission rejected the proposal.

**Sault Ste. Marie**—Customs officers, watching an ancient, sway-backed horse jog along drawing a cutter, sniffed suspiciously here. Exercising their prerogative of pointed questioning, they asked Michael Lemory, the driver, what he had for a load. Now Michael wishes he had stuck to the accepted automobile as his means of smuggling Canadian whisky across the border. He had 51 quarts, which he had driven across the ice of St. Mary's River. He's in jail and his 18-year-old horse is for sale at United States auction.

**St. Ignace**—St. Ignace voters, at a special election, decided to sell the municipal water and light plant to the American State Public Service Co. of Chicago, owners of the Mackinac Island light plant and former owners of the Soo Edison plant at Sault Ste. Marie. The purchase price is \$185,000, the company assuming \$74,000 of the city's water and light bonds and paying the balance in cash. The purchasers were given a 30-year franchise. The present plant was built in 1923 and represents an investment of about \$140,000.

**Sault Ste. Marie**—Announcement is made by Maj. David McClellan, Jr. U. S. engineer in charge of the Detroit district, that the Government will spend approximately \$5,000,000 on projects in the St. Mary's River in this vicinity. The largest improvement will be the West Neebish rock cut, to cost \$1,500,000. Bids are to be opened March 10 and 500 men to be employed. The cut will be deepened from 22 to 27 feet. Two seasons will be required for the work and navigation on the river will be routed by way of Middle Neebish.

**PENINSULA**

(Edited by Mrs. E. Hayden)

Miss Phyllis Woerful of East Jordan spent Monday night with Miss Pauline Loomis at Gravel Hill.

George Woerful of East Jordan spent Wednesday night with Robert Hayden at Orchard Hill.

Buster Reich of Lone Ash farm started to school Tuesday, after being absent more than two weeks with measles.

Buddy and Vera Staley have returned to school, after being absent nearly three weeks with measles.

The ice harvest in this section is finished. Those to fill their ice houses were Billy Frank, Bill McGregor at Hayden Cottage, Orval Bennett and A. B. Nicloy and D. D. Tibbit. The men clubbed together and were assisted by others who will also share the ice, in all, putting up around 1200 cakes.

Mrs. Nellie Evans of Honey Slope farm went to Boyne City Friday for a few days' visit.

Mr. and Mrs. Orval Bennett called at the Lyle Willson home Sunday afternoon.

Mr. and Mrs. Daniel Faust are both quite poorly at present.

Quite a delegation from Peninsula attended the P. T. A. meeting in East Jordan Thursday evening. All report a fine time.

Mr. and Mrs. Richard Russell and family of Breezy Point visited at the F. D. Russell home Saturday, making the trip unassisted with his Ford.

The worst storm of the season struck this section Thursday night and Friday. The coldest morning so far was Tuesday, Feb. 10th with reports from 4 degree at Orchard Hill, 16 at Lone Ash farm and 20 at Mountain Ash farm. Other places not definitely reported, but there was no dispute about it being the coldest morning.

While enroute home from band practice Thursday evening, Daniel Reich of Lone Ash farm took supper with the Carl Grutsch family and rode home on the bus when it made the trip for the parents from the P. T. A. meeting.

Mrs. F. D. Russell of Ridgeway farm was ill the middle of last week, but is better now.

Mr. and Mrs. Clarence Johnston and family were guests of the David Gaunt family, Sunday.

Mr. and Mrs. Will Gaunt and family of Knoll Krest spent Sunday evening at the David Gaunt home, listening to the radio.

Mr. and Mrs. Charles Healey and

son, Clayton of Willow Brook farm called at the Ray Loomis home, Sunday.

Mr. and Mrs. Gene Inmann and daughter, Margaret were dinner guests of Mr. and Mrs. Ray Loomis and family at Gravel Hill, Sunday.

George Jarman of Gravel Hill was quite ill last week with flu, but is better now.

Mr. and Mrs. Harlow Sweet of Advance made a business trip to Charlevoix Thursday and called on the Ray Loomis family on their way back.

Robert Hayden of Orchard Hill spent Friday night with Geo. Woerful in East Jordan and attended the basketball game.

Mr. and Mrs. T. J. Hitchcock of East Jordan were dinner guests Sunday at Orchard Hill.

F. D. Russell of Ridgeway farms is hauling lumber from Boyne City for Ed. Webb to the Ed. Stollard farm, Pleasant View.

**WILSON TOWNSHIP**

(Edited by Mrs. C. M. Nowland)

Charles Shepard, George Jaquays, Jasper Warden and E. L. Nowland were elected as delegates to the County Convention to be held at Boyne City Wolverine Hotel, Feb. 28.

A very enjoyable time was had Saturday night after the Wilson Grange session, six tables of progressive pedro was played. Mr. DeMaig received the consolation prize. Other prizes were won by George Jaquays, Ed. Shepard and Clarence Kent. Pot luck supper was served. Will Looze and Mrs. Jaquays furnished music for dancing.

Mrs. Eugene Kurchinski visited Mrs. Morine Waddell and infant daughter, Sunday evening.

Ed. Shepard spent the week end with his uncle, Stephen Shepard of East Jordan recently.

Mr. and Mrs. Charles Hott visited their daughter, Mr. and Mrs. Claud Shepard of Peninsula, Monday.

Mrs. Russell, aged 78, passed away Monday, Feb. 16th. She is survived by a daughter, Mrs. Herbert Sutton, and a son, Clark Sullivan.

Miss Arlene Brooks of Boyne City spent the week end with Pauline Kurtz.

The 4-H girls and some of their mothers of the Knop school surprised the teacher, Miss Juanita Baker and pupils by bringing freezers of ice cream and cake, which was served at the Valentine party Friday. Ten ladies were present.

The four children of Mr. and Mrs.

Milo Clute are having the measles. Richard Simmons, Nathan Frost and Miss Sylvia Meech of Flint spent the week end at the home of the former's parents, Mr. and Mrs. James Simmons.

**Presbyterian Church**

C. W. Sidebotham, Pastor.  
C. E. Harper, Foreign Pastor.  
"A Church for Folks."

10:00 a. m.—Morning Worship.  
11:15 a. m.—Sunday School.  
6:00 p. m.—Evening Service.

**First M. E. Church**

James Leitch, Pastor.  
10:00 a. m.—Morning Service.  
11:30 a. m.—Sunday School.  
6:00 p. m.—Epworth League.  
7:00 p. m.—Evening Worship.

**Latter Day Saints Church**

Leonard Dudley, Pastor.  
9:00 a. m.—Sunday School.  
10:15 a. m.—Social Service.  
7:00 p. m.—Evening Service.  
Address by J. J. Ledsworth. Subject: "The Thief on the Cross; Was He a Baptized Believer?"  
7:00 p. m., Wednesday — Prayer Meeting.  
All are welcome to attend these services.

**ANNOUNCEMENT**

To the Voters of Charlevoix County: I am a candidate for nomination to the office of Commissioner of Schools at the primary election on March 2nd. Your assistance and vote will be greatly appreciated.  
7-3 ARCHIE C. BELDING.

One Chauffeur: I get rattled when I see a college woman cross the street.

Second: So do I. They wear so many pins that if you hit one, it's a sure puncture.

Barber: Shall I cut your hair close?

Co-ed: No stand off as far as possible.

**GEORGE WASHINGTON'S**

landed estate, as listed in his will, amounted to more than sixty thousand acres. Much of this land was "worked" by slaves or indentured servants who could be bought and sold. Farming methods differed but little from those of the days of the Egyptian Pharaohs 6000 years ago.

In those days every great estate or plantation had among its slaves carpenters, sawyers, blacksmiths, tanners, curriers, shoemakers, spinners, weavers, knitters and even distillers. Everything was done by hard manual labor and the laborers were not only slaves of drudgery—they were slaves in fact, being the personal property of the owner of the estate.

Today, scarcely more than a century and a half later, the modern estate, plantation or farm has its mechanical slaves—operated by kilowatts of electrical energy. To be of real benefit to the farmer electric power must be used in sufficient quantities to reduce labor expense, increase his income or add to his leisure and that of his family.

The Proper Place To Buy Electrical Supplies.

## GIRL BANDIT BARES DREAM OF HAPPINESS

Confesses Bigamy After Arrest in Pistol Battle.

Detroit.—Mrs. Fern Evans, twenty-one-year-old bigamist and gang leader, was captured in Salem, Ohio, in a running gun battle and has been returned to Detroit to face trial. Police charge that she was the leader of a bandit gang which toured the Middle West and South in stolen automobiles, living on funds obtained from looting homes.

During the gun battle, Walter Evans, husband of Fern, escaped on foot after Salem police forced the Evans car into the ditch. Roy Evans, twenty-eight, Fern's brother-in-law, was captured with her.

Fern Evans' dreams have vanished. Like other girls she had visions of a shimmering gown of ivory satin, the gay laughter of friends, a merry departure, with a send-off of rice and old shoes—then months of glorious travel—these are the dreams of the average girl for her marriage and honeymoon.

Had a Good Job. And these were the dreams that jalled wistful Fern.

"I used to spend hours picturing that wedding day," Fern was saying, with that characteristic dreamy look in her hazel eyes. "Perhaps I would wear a yellow dress, or maybe a smart suit, but I must have that honeymoon. I would travel and see the world with the man I loved."

"Then I had a good job. I was an inspector in the Cleveland exchange when along came a man and I married him. I was seventeen and I thought I had found romance."

The first husband of the girl was Frank Barberic, who now claims that they were never divorced. Fern declares Barberic told her the divorce had been granted.

Long months of marital quarrels, broken by the birth of a baby girl, who is now two years old and resides with her paternal grandparents—such is Fern's story of that first marriage.

The couple separated, and Fern started work as a waitress in Cleveland. Then romance again crossed the girl's path in the person of Walter Evans, blond, handsome and twenty-seven.

"From the start Walter was always good to me," she declared. "He was thoughtful—different from Frank. He seemed to care a lot for me, and finally we began to talk of marriage. Walter had always wanted to travel, and before long we were planning that honeymoon I had always dreamed about."

A Grim Honeymoon. The marriage and honeymoon became a reality, with two exciting months of travel over the United States for the newlyweds; but police annals shadow it with a grim story.

They are charged with a series of robberies which took the honeymooners from Florida and Texas to Ohio. In Muskegon, Okla., the groom is wanted for wounding an officer who pursued him following a holdup.

"It was more than a month before I discovered how he was getting money," Fern went on. "At first I thought I could break him. Then he told me he had served nine years at the reformatory at Mansfield, Ohio, for robbery and I knew it was useless. I made up my mind to leave him as soon as we got back to Cleveland."

But Fern's resolution came too late, and now she is named as a looter of a Dearborn home.

"I didn't commit those robberies, but I was with Walter," she said. "He was good to me and I will stand by him. Whatever happens I'm going to take it smiling."

## Yawning Graves Await

Pauper Dead of City

Cleveland, Ohio.—Six graves always remain open at Highland Park cemetery, waiting to receive the bodies of those consigned to a pauper's burial.

From the charity wards of hospitals and from accidents on city streets potter's field annually draws between 400 and 500 of Cleveland's dead. The frequency of burials makes it necessary for five and six graves always to be in readiness.

The arrangements are unpretentious, the ceremony simple: A pine board box, costing \$18 for adults and \$10 for children, is purchased from an undertaker who receives in addition a small fee for his services. Final rites are paid by the mortician, who reads a brief prayer while a city health officer stands by as a witness.

Louise DeWald, commissioner of city cemeteries and the only woman in the country to hold such a position, supervises maintenance of potter's field.

## Airport Spends \$200,000 on Modern Equipment

St. Louis, Mo.—Aviation improvements totalling \$200,000 have been completed at Lambert-St. Louis field during the last summer, according to officials at the airport. The field is equipped with the most up-to-date flying equipment known to commercial aviation. New boundary lights marking the 379-acre field recently have been added. A public address system for broadcasting weather reports, field announcements and providing entertainment to crowds also has been installed. In the last five months a total of more than 20,000 passengers on regularly scheduled trips passed through the airport.

## LONDON TO KEEP WRIGHT AIRPLANE

Pioneer Machine Is Most Highly Prized Exhibit.

London.—Great Britain may retain forever the Wright brothers' airplane. Two years ago the airplane, considered the most valuable aviation treasure in the world and one for which it is reported Henry Ford would gladly pay \$2,000,000 to own, was placed on display at the Science museum here. The museum has a five-year option on it.

Museum officials said that the box-shaped craft may never leave England. They are extremely anxious to retain it and are making every possible effort to gain absolute possession of the craft.

Wilibur and Orville Wright's airplane hangs suspended from the archway into the aviation exhibit of the museum. The airplane is the prize entry and occupies the most conspicuous position. Hanging above the reach of eager fingers, it appears like an overgrown box kite. Wings seem frail and the body anything but strong. Underneath the machine a printed description relates that the airplane was used on December 17, 1903, at Kitty Hawk, N. C., as the first power-driven man-carrying airplane to make a free, controlled and sustained flight.

The famous picture of the plane taking off on the down-hill, wooden runway also appears. The shovels with a small can of paint or grease with a stick or brush stuck in it, is dug into the sand.

Lilienthal's 1895 glider, Weiss' model glider, a model of Wright's biplane used in the autumn of 1908 at Le Mans, France; Bleriot's 1909-10 type monoplane and Frost's Experimental Ornithopter made in 1902 are but a few of the aviation treasures found in the exhibition.

Models of every type of airplanes used during the war are arranged in numerous cases. The Vickers-Vigyn Rolls-Royce plane, used by Capt. Sir John Alcock and Lieut. Sir Arthur Whitten Brown to make the first transatlantic flight on June 14 and 15, 1919, is fastened to two huge concrete blocks.

One of the most interesting exhibits is Frost's Ornithopter. It resembles a huge eagle without a head. The wings consist of 17 flexible feathers, which are as near to nature as the inventor could make them. Each wing spreads eight feet from the hinge point, and the total area is approximately 54 square feet.

## Big Game Increases in National Forests Shown

Washington.—An increase in most types of big game in the national forests is shown in the latest game census conducted by the forest service of the Department of Agriculture.

In the last five years increases have been shown in antelope, black or brown bears, deer, elk, mountain goats, and mountain sheep. In the same time decreases have been shown in grizzlies and moose, and an 86 per cent drop in caribou.

The large decrease in caribou is laid to the disappearance of one herd in a forest near the Canadian border, and it is assumed the herd has shifted its range to Canada. The lower number of moose is accounted for by more reliable estimates, as the forest service believes the early estimates were too high.

Greater protection for the grizzly bear is demanded by the forest service if the other states do not want to be in the class with California, where the grizzly bear is extinct. The present estimates show that most of the 3,500 existing grizzlies are in Alaska.

Deer are the most numerous of the big game animals, with more than 800,000 listed. California leads with 250,000 and Alaska, Arizona, Idaho, Montana, New Mexico and Oregon have more than 50,000 each.

## Roman Pottery Kiln Found on Isle of Wight

Newton, Isle of Wight.—Accidental discovery of a Roman pottery kiln near here has aroused widespread interest and speculation as to whether the Romans made this island the headquarters for the extensive manufacture and distribution of pottery during their occupation. Excavations are under way to substantiate this theory.

Some crude imitations of Samian wares and some pieces of clay from Osborn were found in the kiln, indicating the Romans obtained at the pit the clay they used for the yellowed pottery found often in the island.

## Beavers Furnish Wood

Hereford, S. D.—The winter's wood supply is half solved for Joe Frazee, who has had to call in the neighborhood to assist him in sawing up the wood in the trees the beavers have felled on his farm.

## Bride Still Has "Carfare Dime"

Boston.—Twenty-five years ago, just after their marriage, Fred Darling handed his bride a shiny ten cent piece, saying: "If you ever want to leave me you can use this for carfare."

The same dime, somewhat worn with age, was exhibited recently when the Darlings celebrated their silver wedding anniversary.

## DAIRY FACTS

CHEMICALS USED TO CLEAN CANS

### Chlorinated Lime Is Good in Killing Bacteria.

Chemicals may be used instead of hot water in sterilizing milk utensils, and many farmers are finding this an easy method of keeping milk cans and other dairy equipment clean and sanitary, says L. H. Burgwald, professor of dairy technology at the Ohio State university.

Chlorinated lime, which may be procured in 12-ounce cans, is commonly used for this purpose. In preparing the chemical for use in sterilizing milk utensils, one 12-ounce can of chlorinated lime is thoroughly dissolved in a gallon of water, the clear solution is syphoned off, stored in a tightly stoppered glass bottle and placed in a cool dark place. In the presence of sunlight the solution rapidly loses its strength.

After milking, Burgwald states, the utensils are immediately rinsed with cold water and then washed with hot water containing a washing powder (not a soap powder). After the milk utensils have been thoroughly washed with the hottest water possible to handle, they are then rinsed with a solution made by adding a half-glass of the chlorine solution to five gallons of water.

The chemical is effective in killing bacteria if the milk cans are clean, but if they are dirty it will do but little good. Cans returned from the milk plants or creameries may be rinsed with the chlorinated lime solution and then drained just before milking time.

### Retaining Proven Bull for Future Is Prudent

Some years ago Mr. W. A. Dryden, one of the leading breeders of Shorthorn cattle in Ontario, made a comment that bears just as directly on dairy cattle improvement as on beef. "We will never make the improvement we should make," said Mr. Dryden, "until we have more proven sires. Plenty of our best sires are sold to the butcher after one or two years use and before we really know just what their progeny will be." At that time Mr. Dryden had a couple of bulls that he had used in his own herd loaned to neighboring breeders. He was watching their offspring and should they prove exceptionally good, the sire was right at hand to be used to his limit for the improvement of the Shorthorn breed. "Dairymen of the Scandinavian countries have long had a system of sire exchange, that enables them to hold sires until their daughters have been tested in production. Good sires are then retained for service as long as they are active and the result has been a remarkably rapid increase in the average milk production per cow in these countries. And we, in Canada, continue with the hit-and-miss plan, or lack of plan, that has always been the rule on this continent, and every year good bulls go to the block."

### Production Record of Show Bull Proved Good

The question is often asked as to whether dairy bulls which win high honors in the show ring are ever much good as sires of high producing daughters. That such bulls do get progeny which make good in milk production is being proved by one of Canada's most famous Holstein bulls.

Johanna Rag Appie Pabst, a black and white bred in the United States and bought by the Mount Victoria farms at Hudson Heights, Que., two or three years ago for the steep price of \$15,000, was never defeated at a major exhibition. Before being retired after last year's Royal Winter fair, he had won 25 grand championships and several times had been named "All-American" grand champion.

## Dairy Facts

The calf can be taught to drink by allowing it to suck the fingers and gradually lowering them into the milk.

One cow often eats the profits made by another. Feed each cow according to her production. A high producing cow needs much more grain than a low producer.

Cows need vacations the same as human beings. A rest period of six to eight weeks before freshening, with plenty of good feed, will put the dairy cow in form for her work.

Many cows must get their water a long way from the barn on cold winter days and often the ice must be removed before they can drink. Under these conditions cows cannot fill up on water as they should, with a resultant decrease in milk.

A cow is so constituted as to handle large amounts of roughage, but even so, a cow's capacity is limited. If she is fed a poor grade of roughage her energy is expended in consuming a class of feeds from which she can not get sufficient nutritive returns.

## Buzz Arlett Is Sold

Russell "Buzz" Arlett, who has been one of the outstanding ball players in the Pacific Coast league for the past 13 seasons, has been sold by Oakland to the Philadelphia club of the National league. Arlett throws right handed, but is a switch hitter.

Jackson—The Consumers Power Co. will spend \$41,000,000 in Michigan during 1931, it was announced by C. W. Tippy, vice-president and general manager. Of this amount, \$18,000,000 will be for construction.

Hillsdale—George Houseknecht, of Moscow Township, killed a 42-pound coyote in a swamp adjacent to his home. This is said to be the first killed in Hillsdale County in 25 years. He was paid a \$25 bounty.

Grand Rapids—Blood poisoning from an infection of the finger several weeks ago caused the death of James F. Eardley, president and manager of the Battles-Fuel Co. He was a former secretary of the Kent County Farm Bureau.

From our experience, "A word to the wise" is resented.

## MICHIGAN BELL TELEPHONE CO.

"Some one of our family always is away"

Said Mrs. Adams to her caller.

"But we manage to keep in close touch by using the telephone. Mr. Adams calls home several times whenever he is away on a business trip. George and Alice both call home weekly from college. And I telephone Mocher quite frequently . . . we enjoy our telephone visits so much."

Daily, more and more people are discovering how easy it is to keep in touch with friends and relatives by telephone; how pleasant "telephone visits" are and how little they actually cost.

For instance, consider the following representative rates for three-minute, Day Station-to-Station Long Distance calls:

Detroit to Grand Rapids	\$.95
Menominee to Sault Ste. Marie	1.10
Lansing to Petoskey	1.15
Saginaw to Benton Harbor	1.00

"Say, what's limburger cheese composed of?"  
"It ain't composed. It's decomposed."

Husbands are a kind of promissory note. One gets tired of meeting them.

Little Bertie: "My dog's got a pedigree."  
Little Bobby: "That's nothing. Mine's got six pups."

She said she would be ready exactly on the hour. She was, but it was the next hour.

# The Type-and-Ink University

NEWSPAPERS are the greatest of all modern educators. They teach history in its making. The exploits of exceptional people, the press of unusual events, the ebb and flow of political expedience—all are made public knowledge within a few hours after their happening. This information is instant and complete.

That is why men and women who are eager to be fully informed read the newspapers—not only the news of the world, but also news of what to buy, where to buy and how to buy.

You cannot be abreast of the times if you overlook the advertisements. For advertisements give you the real news of business. They are the messages of business to you. They tell of the new and wonderful thing created for your convenience and leisure—of merchandise gathered from the myriad markets of the world for you and your family.

Advertising teaches how to get the most in value and enjoyment for the least money. It gives knowledge that pays.

### SOUTHERN PORTS SEEK OCEAN TRADE

Four Cities Spending Big Sums for Facilities.

New Orleans.—The economic battle of ports for commercial supremacy reverberates with the clang of riveting hammers, the snort of burrowing dredges and the thud of pile drivers along the Gulf of Mexico.

While efforts are being made to link all the most important ports of the gulf by means of intracoastal canals, New Orleans, Houston, Mobile, and Corpus Christi have reached out for added commerce through port improvement and enlargement projects.

Aided by the release of a sum estimated at \$1,000,000 a year for financing and enlarging port facilities, the port of New Orleans already has launched dock construction which will cost \$2,500,000. It contemplates the expenditure of \$1,000,000 a year for a ten-year period to add to its state-owned port facilities.

Houston has swung into the competition. Congress has authorized the expenditure of \$954,000 for enlarging the Houston ship channel, and the government at a recent public hearing was asked to permit the use of \$450,000,000 in widening and deepening the channel to the gulf.

Mobile has a congressional appropriation of \$600,000 for extending to Pensacola, Fla., an intracoastal canal which will link it with New Orleans. It has asked congress for appropriations to deepen the channel to Mobile, and widening the inner Mobile harbor.

Nor has the infant port of Corpus Christi been idle. Four years old, it boasts four berths and wharf sheds with a total length of 2,750 feet. During the last year a new coastwise dock was built with a shed 400 feet long and 180 feet wide, and a coastwise ore dock equipped for loading vessels, and with a bin capacity of 7,000 tons.

### To Mark Anniversary of Decimal Money in Canada

Ottawa, Ont.—Canada celebrates another jubilee this year—the sixtieth anniversary of the adoption of decimal currency.

The Canadian parliament established by legislation the use of dollars and cents throughout the Dominion in 1871. Before that upper and lower Canada had kept their accounts by the decimal system.

After the French settlement in eastern Canada trade was conducted solely through barter for many years. Skins, particularly those of the beaver, were used as the basis of value. Beads, blankets and tobacco were substitutes for money. Later, under the French regime, playing cards stamped with a monetary value and redeemable yearly on the receipt of bills of exchange on Paris, came into circulation.

After the capture of Quebec, and the British occupation the English shilling and the Spanish dollar were the principal mediums of exchange. During the war of 1812 paper money was introduced, being issued by the British government in payment for military supplies. The decimal system was adopted after prolonged popular agitation.

Canada's currency ranges from a bronze 1-cent piece to \$50,000 bills. In the main it is in the form of bronze, nickel and silver tokens for fractions of dollars and in paper notes for dollars and multiples thereof. The Canadian dollar, which is on a gold standard, represents 23.22 grains of gold.

### Farmers Told How to Reduce Losses by Fire

Washington.—A reduction of \$50,000,000 would be made in the \$100,000,000 loss suffered annually as a result of farm fires if farmers provided themselves with simple fire fighting apparatus and organized community fire companies, predicts the Department of Agriculture.

Care in construction of buildings, the department says, is another factor which would aid in reducing the great loss.

To be of real value, home fire fighting equipment must be kept in a convenient place and ready for instant use. Ladders may be attached to the building. The farmer should also provide himself with a hand force pump and a piece of hose.

### Census Taker Aids Blind Grandma in Getting Radio

Mineral Wells, Texas.—Because a census enumerator failed to regard as confidential all of the information which she learned in her rounds, Grandma "Hide" Brown, ninety and blind, got an expensive radio set for Christmas. Grandma Brown told the enumerator that she had no radio but wanted one to regain contact with the world which she has not seen in many years. The census taker told the editor of the Mineral Wells Index and a fund was raised to buy the radio.

### Skeletons in Virginia Those of French Troops

Paris.—Official French records identifying skeletons recently discovered at Williamsburg, Va., as those of 45 French soldiers who served under La Fayette and Rochambeau in the American War of Independence were found by Warrington Dawson, special attaché of the American embassy. The records were covered with dust accumulated during 150 years.

### YEARLY WASTE COST IS \$8,000,000,000

Responsibility for a Death Toll of 30,000 Fixed.

Washington.—Profits of American business men each year are lessened by \$8,000,000,000 to \$10,000,000,000 due to waste, Commerce department experts asserted. They also revealed that waste is responsible for an annual toll of more than 80,000 lives.

These facts were made public as the department prepared for another attack on what it regards as one of the most vital problems in American life.

Notable progress toward reducing waste in business has been made since the department started its campaign, but the nation's distribution machinery is still described by Assistant Secretary Julius Klein as "haphazard and antiquated." Failures of many firms in the present depression could have been averted by preventing waste, Klein said.

Study Problem in St. Louis. For the purpose of analyzing retailers' waste problems, a group of experts left recently to study the drug stores of St. Louis. A similar survey of grocery stores already has been made in Louisville, Ky., and a check has shown elimination of much preventable waste, the department said.

Business losses attributable to waste were said by Klein to equal the total value of the United States' foreign trade annually.

Lives lost through motor and industrial accidents which, Klein said, were attributable largely to wasteful methods of handling automobile traffic and machinery total more than 80,000 a year. Another 70,000 or more are injured.

Standard Traffic Code Urged. To solve the traffic problem the department is now urging municipalities to adopt a standard traffic code drafted by a committee appointed by President Hoover.

Utilization of by-products was cited by Klein as a major effort to stop waste. Many millions are being saved also through standardizing machinery and parts. Fire losses also are being vigorously attacked.

Production has largely solved its waste problem and American factories generally are held to be the most efficient in the world. But in the distribution end department experts said they have found appalling examples of duplication and inefficiency.

### Cemetery of Mammoths Yields Another Find

Lille, France.—The cemetery of prehistoric mammoths, after 23 years of unexciting tranquility, has been again disturbed by the discovery of another large mammoth.

Workers recently uncovered, fossilized bones of a prehistoric animal much larger than the largest elephant while digging in the said pits of Du-lobel, in the Pas-de-Calais department. The tusks measured seven feet each. The molar teeth were larger than paving blocks.

The workmen, afraid of spoiling the find, informed the professors of the College of Science of Lille, who are now directing the work. Up to the present time the scientists only have been able to uncover the head and tusks, as the work must progress slowly for fear of breaking the bones into small pieces.

The first mammoth was found near here in 1907.

### Accident at Sea Brings Reunion of 2 Brothers

Boston.—An accident at sea recently led to the first reunion in several years between Skipper Ralph Ogilvie and his brother, Hilton.

The brothers are skippers of the schooners Marjorie Austin and Peace land, respectively, and for years they had been plying the same course between Parrisboro, N. S., and Boston, without ever meeting.

The Marjorie Austin recently damaged her bowsprit and had boom and then ran into fog and storm. This upset her schedule sufficiently to result in the brotherly reunion that enabled Ralph and Hilton to have dinner together in Boston.

### Extensive Air Travel Seen in War Maneuvers

London.—Some idea of how much territory a fleet of airplanes engaged in war will travel was recently given her when the red colony and the blue colony of the British royal air force engaged in a sham battle. Two hundred and fifty planes took part and flew more than 300,000 miles. More than 2,980 men and officers took part in the imaginary combat.

### Girl's Life Is Saved by Brother, Aged 4

La Port City, Iowa.—Four-year-old Clarence Riggle probably saved the life of his two-year-old sister, La Vonna, here. Burning paper fell on La Vonna's head. Clarence, wrapped his arms around her head and extinguished the fire with his hands. La Vonna's hair was burned off. Clarence received badly burned hands.

### Would Eliminate Black Currants

Cultivated Plants Threaten to Destroy White-Pine Forests.

(Prepared by the United States Department of Agriculture.—WNU Service.)

Because of the relatively small value of cultivated black currants in this country and the role of these plants in the spread of white-pine blister rust, a disease which threatens to destroy our white-pine forests, United States Department of Agriculture recommends that farmers and nurserymen and the public generally discontinue growing these currants in regions where white pines grow.

Carriers of Blister Rust. In its fight to save the white-pine forests of the country, the department recognizes other varieties of currants and gooseberries as potential carriers of the blister rust disease, but the cultivated black currant, sometimes known as the English black currant, is by far the most susceptible to the rust. This variety is responsible for spread of the disease over long distances, department specialists declare.

Compared to cultivated black currants, other species of currants and gooseberries are relatively resistant to blister rust, the department says. However, in the course of a season the disease may spread from the original black currant center, to any type of currant or gooseberry. This is caused by successive cycles of the summer stage of the rust.

How Disease Is Spread. Farmers' Bulletin 1398-F, "Currants and Gooseberries: Their Culture and Relation to White Pine Blister Rust," a publication just issued by the department in revised form, tells how to grow these plants and explains how they spread the rust disease. In some sections currants and gooseberries are commercial crops, and the department does not wish to interfere with this industry any more than is necessary to protect the white-pine forests, the bulletin says.

So great is the danger from cultivated black currants, however, that the department is asking state authorities, nurserymen, and farmers to help eliminate this plant entirely in the Pacific, Rocky mountain, Atlantic, Appalachian, Ohio valley, upper Mississippi valley, and Lakes states.

Copies of Farmers' Bulletin 1398-F may be obtained free from the Office of Information, United States Department of Agriculture, Washington, D. C.

### Prune Young Trees for More Profitable Yields

Although butchering young apple trees with the pruning shears is a poor practice, the training of permanent trees so that they will develop into vigorous, strong trees capable of carrying their crops is an essential part of profitable orchard management, declares F. H. Beach, extension specialist in horticulture at Ohio State University.

While the unpruned young tree will grow more rapidly, have the greatest size for its age, and come into bearing earlier than heavily-pruned trees, he says, it does not follow that training the trees with the help of the pruning shears should be overlooked. Light pruning that gets in developed the modified leader type of tree and that prevents splitting from weak crotches is highly desirable.

The modified leader type of tree, Beach points out, is secured by allowing one central branch to continue through the lower part of the tree. Other branches from which the scaffold branches may be developed will grow from the central branches at different heights and positions. In this way it is fairly easy to prevent crowded heads and weak crotches.

### Old Age Fast Removing Many Soils From Service

Old age is fast removing many soils from use in Illinois as nature removes humans, according to E. A. Norton, University of Illinois. Nature and man are both contributors to the aging of soils, says Norton, and man is the greater offender as he has removed the protective covering of sod and allowed the rains to gully the land. Removing crops continually from the land has depleted the fertility and moisture holding capacity.

Good management of soils prevents their aging and as in man it preserves youth. Old age in soils is shown by gray soils, acidity, well-defined surface, subsurface and subsoil and scanty supply of plant foods. These soil characteristics compare with gray hair, lack of activity and conservatism in man.

### Nitrogen for Celery

In Ohio the use of a nitrogen carrier gave a marked increase in the growth of celery. Four hundred pounds per acre of a readily available nitrogen carrier used as a side dressing produced an increase of over 8,000 pounds of celery per acre. All plots in the experiment received a basic treatment of a half ton of a 2-8-16 fertilizer. In comparison to the marked increase from the additional nitrogen, doubling either the potash or superphosphate increased the yields only about one-tenth.

### Mushroom Diseases and Their Control

'Bubbles' and 'Plaster Mold' Cause of Big Loss.

(Prepared by the United States Department of Agriculture.—WNU Service.)

Two diseases of mushrooms, known as "bubbles" and "plaster mold," are responsible for great losses to mushroom growers, say Vera K. Charles and C. H. Popenoe in Circular 27-C, "Some Mushroom Diseases and Their Carriers," recently issued in revised form by the United States Department of Agriculture.

"Bubbles," probably the disease of greatest importance to the industry, deforms the plants from the beginning of growth. It is caused by a fungus which at first covers the plants with a cottony growth and later disappears, after which the mushrooms softer and rot. The fungus works its way into the wood of the mushroom bed and lives there from year to year unless killed by fumigation. For control, the infected manure must be removed, the beds and house must be fumigated with sulphur or formaldehyde, and care and sanitary measures must be exercised to prevent workmen or insects from carrying the fungous spores to an uninfected bed or house.

"Plaster mold" does not attack the mushroom directly, but the disease is caused by a fungus that runs through the manure and prevents or delays development of the spawn. The plaster mold appears on the surface and sides of the bed as white patches which may be seen when the boards are raised.

When mature the fungus is coated with powdery spores that separate and are carried readily to wind or insects. These are likely to spread the disease. Plaster mold has been serious in recent years. It reduces mushroom yields and frequently causes complete failure of the crop. Mushroom flies and other insects common in mushroom houses distribute the disease spores. They can be controlled with pyrethrum nicotine, or hydrocyanic acid gas.

As sanitation measures, infected manure should be moved to a safe distance from the mushroom house and manure used for replacement should come from a place free from contamination. Manure never should be piled close to the mushroom house.

Circular 27-C may be obtained from the office of information, United States Department of Agriculture, Washington, D. C.

### Korean Lespedeza Best Sown in Early Spring

Korean lespedeza is best sown in the spring during late March or early April. It may be sown with oats immediately after the seed grain has been covered, or 10 days to two weeks later, after the grain crop is up. The time of seeding on wheat may well be delayed until April, after the danger of severe freezes is past. Seedlings should be made, however, before the ground has dried out and while the surface soil is alternately freezing by night and thawing by day. If the sowing is later the wheat ground should be harrowed before the lespedeza seed is put in.

Korean lespedeza establishes itself more quickly where the ground is firm and well packed. For that reason it is more likely to succeed and make a larger growth the first season if sown on wheat rather than with oats. The seed is not difficult to sow and may be distributed by a grass-clover seeder, by a wheelbarrow seeder, or by a grass-clover attachment on a grain drill.

### Destroy Scale Insects Very Early in Spring

There are probably to exceed five broods of the San Jose scale per year. It has been estimated that even with four broods, a single female's progeny would number 3,216,980,400 in a season. To figure the progeny in view of a fifth brood would make the figures incomprehensible. Thus it is seen that it is very important to destroy the insects before the breeding season as a plant only slightly attacked in the spring may be covered, as well as the fruit, by fall. With millions of scales with their beaks thrust into the plant, pumping out the sap and poisoning the tissues, a tree will succumb in from one to three years. If the scales are not checked by spraying, natural conditions or parasites.

### Agricultural Notes

Clover or alfalfa sown in the spring should make a cutting of hay by late summer.

The celery cabbages are attractive salad vegetables. They can be grown at home.

Seldom does the cost of an hour of horse labor fall below 12 cents or exceed 30 cents.

The New Jersey State college finds that egg plants on highly acid soils are less likely to be damaged by wilt than on soils containing lime.

Experiments at the Pennsylvania State college reveal that nitrogenous fertilizers should be applied to sod orchards in the spring soon after the tips of the branch buds begin to show gray and before the blossom buds show pink.

### Hoover's Double

Whenever movie picture makers at Hollywood want to put President Hoover in the film they call on Officer Tom Jessen of the Los Angeles police force, whose resemblance to the Chief Magistrate of the nation is quite remarkable.

Incompetent housekeepers usually have incompetent maids.

### Kidney Acids Break Sleep

If Getting Up Nights, Backache, Frequent day calls, Leg Pains, Nervousness, or Burning, due to functional bladder irritation, in acid conditions, makes you feel tired, depressed and discouraged, try the Cystex Test. Works fast, starts circulating through the system in 15 minutes. Praised by thousands for rapid and positive action. Don't give up. Try Cystex (pronounced Cystex) today, under the Iron-Clad Guarantee. Must quickly relieve these conditions, improve restful sleep and energy, or money back. Only 50c at GIDLEY & MAC, Druggists

### Publisher's Notice

Hereafter all Classified and Petty Advertisements MUST be paid for before insertion. This includes Classified Ads, Cards of Thanks, In Memoriams, and local ads—unless the advertiser has an open account with us and to whom we can charge the account.

The Herald does not wish to appear arbitrary in this matter, but the payment of so many small accounts are either neglected or ignored that we are forced to adopt this policy.

May we have your co-operation to eliminate this loss to us.  
C. A. LISK, Publisher.

Temperamentally she was like a rainbow. She'd get green with envy, white with fear and purple with rage. Some things tickled her pink and some happenings made her see red, while in between times she felt quite blue.

"Father, what's that bottle for?"  
"Sickness, my child."  
"It made you pretty sick last night, didn't it, father?"

### PROBATE ORDER

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

At a session of said Court, held at the Probate Office in the City of Charlevoix, in said County, on the 11th day of February A. D. 1931.

Present: Hon. Ervan A. Ruegsegger, Judge of Probate.

In the Matter of the Estate of Andrew E. Alexander, Deceased. Walter G. Cornell having filed in said court his final administration account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is Ordered, That the 16th day of March A. D. 1931, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for examining and allowing said account and hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald a newspaper printed and circulated in said County.

ERVAN A. RUEGSEGGER, Judge of Probate.

### MORTGAGE FORECLOSURE NOTICE

Default having been made in the terms and conditions of a certain mortgage made and executed by Robert D. Cook and Jessie G. Cook, his wife, and David Ruch, a widower, all of East Jordan, Michigan; of the Peoples State Savings Bank, of East Jordan, State of Michigan, a body corporate under the laws of Michigan, which said mortgage bears date the 15th day of March, 1915, and was recorded on the 16th day of March, 1915, in Liber forty (40) of Mortgages, on page two hundred fifty-eight (258), in the office of the Register of Deeds in aid for the County of Charlevoix, Michigan, and that said mortgage is now due, and there is now claimed to be due and unpaid on said mortgage the sum of two thousand four hundred thirty-nine and 45-100 (\$2439.45) dollars at the date of this notice, including principal of \$2000.00, interest of \$310.34, taxes paid by mortgagee of \$94.11, and attorney fee of \$35.00 as provided for by said mortgage, and no suit or proceedings at law or in equity having been instituted to recover the moneys secured by said mortgage or any part thereof;

NOW, THEREFORE, by virtue of the power of sale in said mortgage contained, and of the statute in such case made and provided, NOTICE IS HEREBY GIVEN that on Friday, the 24th day of April, 1931, at ten o'clock in the forenoon, standard time, at the east front door of the court house in the City of Charlevoix, Michigan, that being the place where the Circuit Court for the County of Charlevoix is held, said Peoples State Savings Bank will sell at public auction to the highest bidder the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage and all legal costs and attorney fee.

The premises described in said mortgage are as follows, to-wit: "All of the east one-half of the northwest-quarter (E½ of NW¼) of section number twenty (20), township thirty-two (32) north, range seven (7) west, Michigan, containing eighty (80) acres of land, more or less, according to the Government survey thereof, situated in the township of South Arm, County of Charlevoix and State of Michigan." Dated January 16th, 1931. PEOPLES STATE SAVINGS BANK, Mortgagee. By Walter G. Cornell, Cashier. E. N. CLINK, Attorney for Mortgagee. Business Address: East Jordan, Mich.

## Briefs of the Week

Seymour Burbanks is confined to his bed by illness.

Miss Rebecca Painter visited her sister at Charlevoix this week.

Miss Marguerite Rogers was home from Elk Rapids over the week end.

Mrs. Pete Stanek visited relatives and friends in East Jordan a couple of days this week.

Some good used cedar, pine and hemlock sheathing lumber, and 2x8 plank for sale. C. J. Malpass. adv.

Mrs. Harold Stueck and Mrs. Mabel Secord spent the week end with the former's husband at Lansing.

Any Ribbon in stock, some priced from 50c to 75c, now 9c per yard, at East Jordan Lumber Co. store. adv.

Mrs. John Monroe who has been visiting her son at Muskegon, was here the past week on business, and left Wednesday to visit her daughter at Detroit.

Black and white Silk Hose, 29c. These are the well-known brands—Bobolink, Ring Ling-Tris and Hole-proof. Priced from \$1.00 to \$2.50, now 29c. East Jordan Lumber Co. adv.

A recent letter to The Herald from a place in Western Michigan has the following excerpt: "It is the honest opinion of travelling men I talk with that East Jordan is not as dead as some seem to think it is. The Herald, fortunately, sounds more optimistic than individual citizens do."

"Queen," a dog owned by E. Kratochvil of East Jordan, was the winner in the annual Winter Sports Fox Hunt held at Petoskey, Wednesday, after trailing the fox over snow covered hills, through woods and valleys for an hour and a half. James Milford, former East Jordan resident, was manager of the hunt.

New assortment of Wool Dress Goods, 4 yards \$1.00. Silk assortment 23c, 53c, 73c. East Jordan Lumber Co. store. adv.

Ellsworth and the Christian Reformed Church of that place are to be congratulated on the installation and dedication, Thursday, of a new Wangerin pipe organ in their recently-built church. The organ cost \$3,000 and through efficient management, is entirely paid for. Rev. B. H. Einink is the pastor. Neal Spanning of Grand Rapids presided at the organ during the dedication services. A feature of the program was the offerings of the Choral Society of two numbers by some forty or fifty voices: Revs. M. Dornbush and P. G. Koopman assisted at the services.

\$5.00 per month will buy a beautiful Mendelssohn Piano from Malpass Hdwe. adv.

Mrs. Irene Marvin, a former East Jordan resident and sister of Mrs. Robert Proctor of this city, passed away at Bronstetter's Hospital, Mt. Pleasant, Mich., Saturday, Feb'y 14, following an operation for stomach tuberculosis. She was born August 11, 1881. She leaves a son, Frank Cogsdill of Detroit; a brother, Jesse Marvin of Federal Dam, Minn.; a sister, Mrs. Robert Proctor of East Jordan; and her mother, Mrs. Wm. Porter of Mt. Pleasant. Funeral services were held Tuesday at Mt. Pleasant, and the remains taken to Birmingham for burial in the Greenwood cemetery.

Talcum Powder, 5c at the East Jordan Lumber Co. store. adv.

### Ideal for Street Wear

This red-and-white sports dress, with three-quarter-length coat to match, is ideal for street wear. The hat and bag are in matching colors.

Mrs. A. J. Hite left last week for Lansing to spend a few weeks with her husband there.

The East Jordan Study Club will meet with Mrs. C. F. Snellenberger, Tuesday, Feb'y 24th.

It will soon be sap weather, fellers. Get your sap pans and supplies from C. J. Malpass Hdwe. Co. adv.

Get the habit—tell the Editor of your visitors of the visits that you make or other items of local interest.

Assortment of Dresses, Crepes and Wool Crepes, \$1.49. Our highest grade silks, \$4.98 each. East Jordan Lumber Co. store. adv.

A window in the back of Bulow Bros. store was broken open and someone entered the store Sunday night. As yet nothing has been found missing.

Miss Gladys Cary and W. A. Cary Jr., of Detroit, also F. V. Anderson of Grand Rapids are visiting at the home of Mr. and Mrs. Russell Barnett this week.

Mrs. Robert Proctor, Mr. and Mrs. Floyd Morgan and Mrs. Chas. Blaha were at Mt. Pleasant first of the week to attend the funeral of the former's sister, Mrs. Irene Marvin.

The Cherryvale Hatchery of Al Wafda began operations the past week—two weeks earlier than usual. Mr. Wafda now has probably the largest Hatchery in this part of the State, having a 3,000-egg capacity.

The birthday anniversary of Mrs. George Pringle was delightfully celebrated last Saturday evening when a group of friends assembled at her home and spent the evening with cards, after which a luncheon was served.

A party was given for Mrs. Ira S. Foote last Saturday evening, it being her birthday. About 25 enjoyed progressive "500." Prizes were received by Mrs. Maudé Ellis and Will Shepard, consolation prize went to Henry Clark.

Mrs. Augusta Schildien of River Grove, Ill., is visiting at the home of her sister, Mrs. Kate Gerner. Mrs. Gerner who was injured in a car accident some weeks ago, is reported as getting along nicely at the Petoskey hospital, but will not be able to return home until another month.

The Arnold Office Supply Co., is Traverse City's newest business venture. It is owned by C. L. Arnold, a former East Jordan business man, who, while here, was connected with the East Jordan Cabinet Co. Mrs. Arnold was a former East Jordan girl—Jennie Waterman. Their many friends here wish them success in their new enterprise.

50% off on all used Heaters and 25% off on all new Heaters if you buy now. C. J. Malpass Hdwe. Co. adv.

See the "Fix It Shop" for all kinds of Furniture Repairing. Upholstering our specialty. Sewing machines and Victrolas repaired. Auto trim and bumping, rotted frames and tops replaced; We carry a complete line of Upholstering samples for furniture covering and autos. Will call for and deliver work. All work guaranteed. Call at Goodman's Hardware, East Jordan for particulars.—"Fix It Shop," Boyne City, phone No. 1 for No. 1. service. adv.

We wire houses and do all kinds of electrical jobs. C. J. Malpass Hdwe. Co. adv.

The newly organized Woman's Civic League of the Chamber of Commerce held a social gathering at the Russell Hotel last Thursday afternoon, with about forty people present. Nine tables of Bridge were played and the proceeds amounted to \$11.25. Prizes were donated by the Michigan Public Service Co., R. G. Watson and the East Jordan Lumber Company. Candies were donated by Gidley & Mac, and the A. & P. stores. The League wishes to thank all those who made this party a success.

Ladies' cotton, summer-weight Unionsuits, 23c; Children's Unionsuits, 10c, at East Jordan Lumber Co. store. adv.

Owosso—Funeral services were held here recently for Miss Anna Jelenk, 26-years old, who died at Pontiac from infection resulting from a needle she swallowed.

Lansing—Word has been received here from Rep. Grant M. Hudson that Lansing will be awarded a new \$900, 000 post office if the Senate acts favorably on the pending \$100,000,000 building bill.

Grand Rapids—Police captured a wildcat in the garage of Harold W. Douglas, of this city, after first subduing the animal with monoxide gas fumes from an automobile exhaust. The animal was taken to a park cage.

West Branch—Two days of ice jine fishing on Rifle Lake, east of West Branch, by a party of five Detroit fishermen headed by Paul Shankin, brought 17 great northern pike averaging almost four pounds each. All of the fish were taken on minnows.

# VICTOR RADIO

LEADS AGAIN IN TONE PERFORMANCE.

## R. G. WATSON

PHONE—66

Lansing—The bill which would permit tax delinquent lands within a municipality to revert to the municipality instead of the State Conservation Department was reported out of the House Committee on General Taxation with a recommendation that it pass. Rep. Melvin H. Lee, of Royal Oak, introduced the bill.

Lansing—Voters will be asked in the April election to pass on an amendment to the constitution to permit the state to expend money in developing and improving airports, landing fields and seaport harbors, if a measure proposed in the house by Representative Donald J. Stas, of Midland, is adopted. The proposal has the endorsement of aviation leaders.

Lansing—Elimination of unsightly and traffic endangering billboards from the highways and the raising of revenue by license and tax upon those permitted to be maintained, is the object of a bill introduced in the house by Representative Vernon J. Brown, of Mason. Each county would receive the entire proceeds of the square foot tax proposed after reductions for expense of administration.

Sweet Young Thing: Young man, either remove your arm from around my waist or quit moving it—I'm no banjo!

A new fountain pen called Save-the-Sucker has been invented, which will automatically stop flow of ink the second the point is placed on a dotted line.

## IMPORTANT

We have employed Austin E. Bartlett as distributing agent for our famous Stock Salt and Poultry Conditioner, which every farmer should be interested in. Call at his store and he will explain to you the benefits obtained from its uses.

THE ACME STOCK SALT COMPANY, INC.  
Tiffin, Ohio

## THE POWER TO PASS—THAT'S DIXIE GAS

From Zero Cold to Burning Heat —in 30 Seconds!

It takes a full-bodied, carefully tested oil to stand the gaff of winter. It takes Dixie. Dixie oil is free-flowing at zero—crack proof at any engine heat.

For easy starting and adequate protection this winter, USE DIXIE OIL.

West Side Service Station  
ROY NOWLAND, Manager.

## Growers Can Reduce Loss of Potatoes

### Careful Regulation of Temperature Is Important.

(Prepared by the United States Department of Agriculture.)—WNU Service.

Wastes and losses of potatoes in storage can be prevented in great part if growers and dealers adopt the storage methods which the United States Department of Agriculture recommends. These include careful regulation of the temperature of the storage room, controlled ventilation, and exclusion of light. Dr. William Stuart, potato specialist of the bureau of plant industry, has just revised Farmers' Bulletin 847-F to include information developed since the bulletin was first issued in 1917.

The all-year demand for potatoes has always necessitated storage of considerable quantities of the crop, and many growers and dealers have believed that considerable waste in storage was inevitable. Scientific investigation has demonstrated that much of the loss is preventable. Storage under favorable conditions offers several advantages; it assures a more uniform market supply, preserves table quality, and protects the vitality of seed.

Doctor Stuart emphasizes the value of changing the temperature to suit the storage stages of the potato. "If newly harvested potatoes," he says, "especially those somewhat immature, are subjected to a temperature of about 60 degrees for the first ten days of the storage period in a relatively high humidity, the injured tissues will quickly heal over." After the brief period of storage at 60 degrees, the temperature should be reduced to about 40 degrees, maintained there for two or three months, and then held at about 38 degrees.

Farmers' Bulletin 847-F, "Potato Storage and Storage Houses," gives details of ventilation, temperature regulation, light exclusion, and other factors desirable in potato storage, and gives practical suggestions for construction of storage houses. It may be obtained free by applying to the office of information, United States Department of Agriculture, Washington, D. C.

### Early Plowing Favored for Best Soy Bean Crop

As a general rule, the ground should be plowed for soy beans, according to results of tests by the Ohio agricultural experiment station, cited by the farm crops department of the Ohio State university. "There are a few exceptions to this general rule," says one of the bulletins issued by the experiment station, "as when the soil is naturally loose and when a good seed bed can be prepared by disking."

Experiments at Wooster have yielded 10.58 bushels of grain and 1,335 pounds of straw to the acre on disked corn stubble land, while plowed corn stubble land yielded 15.79 bushels of grain and 2,052 pounds of straw.

Early plowing is recommended as the better practice, since it gives time for the seed bed to settle and opportunity to kill one crop of weeds before the soy beans are planted. Late plowing in a dry season may leave the soil so loose and dry that germination will be poor and the early growth of the soy beans stunted. Many growers prepare the seed bed for soy beans before that for corn, but do not plant the soy beans until the corn is in the ground.

## Check Machinery Before Opening of Season's Work

With the severe conditions under which chains operate on most farm machinery they should be carefully checked before the opening of a new season's work. Proper alignment of sprockets should always be maintained in order to prevent side-pull causing excessive wear on the sides of sprocket teeth. Worn sprockets should be replaced when new chains are placed on drivers to prevent a difference in pitch giving improper chain action and causing excessive strains on chains.

Proper adjustment and oiling are also essential. Too much tension places unnecessary loads on the bearings and chain. Rusty chains should be cleaned with kerosene or light oil. When running they should be lubricated occasionally with a good grade of oil.

## Agricultural Hints

Kale can be picked in the garden all winter. You might try a few plants another year.

Forest trees have just as many insect and fungus enemies as orchard trees and field plants.

Red raspberries are the hardest of the brambles, blackberries being most susceptible to adverse climate.

Look over the garden tools and give them a coating of oil so they won't be dull and rusty when you want them.

To get better pollination in a single variety pear orchard, top-work some trees to Bosc, Kieffer, Anjou, or Clapp Favorite.

In planning next year's work, try a system which will include several of the crops most profitable in the region over a period of years.

## School News and Chatter

### AMERICAN HISTORY

The American History class are now discussing the 'Rise of the West.' The President at that time was Grover Cleveland in the year of 1893. The times then were something similar to conditions that are existing now. The result is that many interesting discussions arise.

—Margaret Bayliss

### HERE AND THERE

**A Close Call.**—We played a game against Charlevoix last Friday and well you know what happened. But that's not saying the boys didn't do their best for they showed some good playing.

**Assembly.**—Assembly was held last Friday. It turned out to be a peppy pep meeting.

**Library Class.**—Library class is not being held this semester. The members of the class have greatly appreciated the help and interest Miss Crofoot has contributed.

—Margaret Bayliss

### ENGLISH

The Freshmen are now reading "Ulysses." They find it a very interesting story of the ancient times. Although we hear some of them say, "Some of those names are kind of hard to pronounce and remember. Here they have willingly presented us with a sample of some of them: Nausicaa, Scylla, Charybdes. We'll agree with them in this instance."

**Papers, Papers**

The Juniors are now reading the "Sir Roger De Coverly papers." This material furnishes the down cast Juniors a chance for a smile. These papers are very amusing and interesting.

**Test, Test**

The Senior class had a test in English, Tuesday. They are now studying the life of Ruskin and Carlyle. The writing and work of the authors are getting more interesting every day for they are getting closer and closer to modern times. It seems the fourth year English class has luck along some lines. They are quite fortunate in finding material that applies to the work they are studying. Miss Perkins also watches for such material and contributes more than her bit.

—Margaret Bayliss

### SENIOR PLAY

Don't miss seeing "Little Poison Ivy" and Mrs. Pete Peterson appearing in "The Absent-Minded Bridegroom" at the High School Auditorium, Wednesday, Feb. 25. A play that is worth broadcasting over the radio is well-worth seeing. This play was broadcasted over the air just recently. Don't forget the date, Feb. 25th at 7:30 standard.

### GRADES

The second grade have made little "Keep Clean" books in which they have copied little rhymes about keeping clean. Many have illustrated their books.

We have been very much interested in the building of a House of Good Foods. So far we have the walls plastered with oatmeal, have the window casing made of raisins and a graham cracker roof.

We wrote stories about Abraham Lincoln.

We also have some flowers on Miss McLaughlin's desk. They are daffodils.

The Third grade are planning a George Washington program for story hour, Friday.

We are also enjoying the story, "The Bobsey Twins" in the "Great City."

For Language we made a study of Lincoln. Finishing our study we wrote a story about Lincoln in booklet form.

Some of the girls made a Valentine box for our room, and another one for the second grade.

We were busy last week getting the room ready for "Open House," which was held Thursday night.

Fifth Grade—In Art we made a Valentine heart man.

Friday afternoon some of the fifth graders gave an entertainment:

LaVera T.—Clog and Poem.  
Galen S.—Song and Clog.  
Edward H.—Poem.  
William H.—Jews-harp.  
Arthur R.—Mouth organ.  
Buddy P.—Zylophone.  
Buddy P., Tommy J., and Galen S., also gave a clever shadow picture, "A Visit to the Dentist."

The following received "A" in Spelling: Kathryn-Kitsman, Anna Jean Sherman, Jean Ströbel, Lyle Weaver, Helen May Trojaneck, Roy Hott, Michael Hitchcock, Beatrice Justice, Billy Dunson, Betty Cook, Carl Beyer, Jean Bartlett, Dorothy Sonnabend, Arthur Rude, Lydia Peters, Frances Lenoskey, Ruth Galmore, Rodney Gibbard.

The following were neither absent nor tardy during January: Jean Bartlett, Marguerite Clark, Kathryn Kitsman, Fred Lewis, Galen Seiler, Robert Schroeder, Dorothy Sonnabend, Frank Strehl, Jean Stroebel, Richard Schwartz, Bryce Vance, Lyle Weaver, Helen Trojaneck, Arthur Sommerville, LaVera Trumppour.

Sixth Grade—Katherine MacDon-

ald, Julius Meeck, Henry Reinhart, and Alfred Dougherty are back to school. We still have several pupils absent.

Jacklyn Cook is pianist this week. Ruth Hott is health officer.

Ruth Hott had 100% in Arithmetic test Monday morning.

School Commissioner, Wm. C. Palmer spoke to the grade Friday afternoon. He told us why we should keep our bodies strong and well.

Virginia Saxton, Ruth Stürgill, Hilda Jackson, Winifred Zoulek, Elva Gould, Anna Mae Donaldson, Clarabelle Strong, June Roberts, Marion Jackson, George Johnston, and Neal Mackey had 100% in spelling every day last week.

Mr. Duncanson talked to us Monday morning about being strong, red-blooded Americans. The strong man takes a hard knock without whining. He does not injure his body by the use of narcotics or any other poison.

—Eloise Davis

## Reply to Mr. Murphy's Communication in The Herald.

Ellsworth, Mich., Feb. 16, 1931

If that letter was written by Mr. M. J. Reutz, we excuse him for he is not acquainted with Banks Township or Antrim County. This movement in Banks Township was not started by any men to gratify their selfish whims, but by the farmers themselves because about 90% did not like the way Charlevoix County or East Jordan did.

FIRST—That Charlevoix County plans to handle their cream through their Co-operative Association. Their County Agent had a piece in the Charlevoix County newspapers a few weeks ago to that effect.

SECOND That if they wanted it to be a two county creamery they should not have picked the location before there was a meeting or started to canvass.

THIRD—That it was not right to have the Organization Committee all East Jordan men.

FOURTH—That they go ahead and set a day with Mr. Howland for the date of organizing and did not consult all the committee men in Antrim County and see if they were through canvassing and that date satisfactory to them.

FIFTH, When we heard that one of the Charlevoix County Committee men got 27 subscribers Saturday after they had been canvassing about three months, it did not sound so good.

SIXTH—The afternoon of the Organization meeting we heard how he got so many. If we understood Mr. Murphy right at the Atwood Hall that they took members if they were only producers of agricultural products, that means that if they only raised a garden. We think they would be poor supporters of a creamery as you need cream for a creamery. When we were around canvassing we did not sign up any farmers that had only a couple of cows. We do not think the other committeemen from Banks did either. We do not think it very nice for some one from East Jordan to tell Mr. Howland that they did not think that Ellsworth could raise the money for a creamery for Mr. Howland said on the organizing day that he doubted that Ellsworth could raise the money. We take it for granted that Mr. Howland does not know that Ellsworth has one of the best if not the best Co-operative Associations in this part of the State as it saves the farmers about six to eight dollars per ton of feed compared with East Jordan Association. Who built it? The farmers, of course. Another remark we did not like on the organization meeting that Mr. Howland made is that it would cost twice as much to build a creamery in Ellsworth than in East Jordan. We did not like it when that railroad question was brought up that it was ruled out of order. We would have liked to have known if it would still be operating 25 years from now. We think if anyone was selfish it was East Jordan for they had picked the location for the two counties and knew they would haul their cream before they had organized, etc.

It looked to us that it was their plan to run the creamery the way they wanted to. We think that if the organization committees of Charlevoix County had listened to everything that Mr. Reutz advised it would be better for their creamery in the future. At the first meeting in East Jordan he advised not to go over 20 miles out and get cream. We are told some were further. Charlevoix County has some townships where they only got about eight farmers signed up. We do not think that is a paying proposition. Antrim County only canvassed three or four townships. We are sorry that it has planned out this way, but we wish them success.

Just a few reasons why we think we can succeed in Banks. We have about as much cream as in Charlevoix County and it would be a shorter haul to get the cream to the Creamery. We think we could haul it a cent cheaper if not more, than if you have it scattered in a big territory.

We would have in Banks about 4,000 lbs. a week, so on the gathering of the cream that would be \$40.00 a week. If we run a creamery on the same plan as they do in Kaleva we can get that made in butter for

about \$50.00 a week. The price they paid the farmers last year has been about 5 cents per pound higher than we have got here. They have not the butterfat we have in Banks, they have been running two years and only owe \$2500.00 on their plant. That looks as if they are making a success and we do not see why we cannot do the same in Banks.

Yours truly,  
HERMAN DeYOUNG  
H. FIELSTRA

"Has the young man who is calling on you given you any encouragement?"

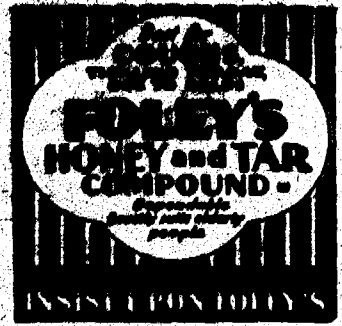

"Oh, yes, Father. Last night he asked me if you and mother were pleasant to live with."

### IN MEMORIAM

In loving memory of our dear husband and father, August B. Leu, who passed away one year ago—Feb'y 20, 1930.

Earth has lost its look of gladness,  
Heaven seems to us more bright  
Since the spirit of our dear one  
Took his happy homeward flight.  
And we long to cross that river,  
Long to rest upon that shore,  
There to see, and know, and love him  
With the Savior, evermore.

Mrs. August B. Leu  
and Family.

It is more blessed to give than to lend, and its cost about the same.

## Who? What? When? Where? Why?

The first rule a newspaper reporter learns is to answer five basic questions in the lead of his story: Who? What? When? Where? Why? It is a rule equally good for all people in buying goods. In the answers to those five questions lie the fundamental facts you should know about every article you purchase.

Who made it? Is he reliable? Is he experienced? Will he be in business if the article needs repair or replacement?

What will the article do for you? Will it improve your appearance? Will it save you time, money, effort? Will it make you more comfortable, more happy?

When was it made? Designed? Packed? Is it fresh? Is it the newest model, or latest development?

Where can you buy it? Does your own store carry it? If not, can you place dependence in the store that does?

Why should you buy it in preference to some similar product? Is it superior in design, materials, workmanship? Will it fit your needs more closely?

The answer to these questions, and others, are contained in the advertisements here. They are set forth by manufacturers and merchants for your convenience and guidance. The advertisements are interestingly and sincerely written. They contain information you want to know, and should know, before you make purchases. You will find it well worth while to follow them.

When you buy advertised goods, you know what you are buying—and why.
