VOLUME 38

EAST JORDAN, MICHIGAN, FRIDAY, MAY 22, 1931.

NUMBER 21

Poultry Meet At Charlevoix

THURSDAY NIGHT, MAY 22. DR. L. E. HEASLEY TO SPEAK.

All Charlevoix County poultry raisers are cordially urged and invited to attend the poultry meeting to be held in Charlevoix Court House on Thursday night, May 28th. Dr. L. E. Heasley, one of the foremost authorities in the United States will speak on the subject—"What profits may we expect from poultry in 1931 and 1932."

Other subjects to be discussed are raising the Baby Chicks successfully, how to keep the growing flock healthy, how to properly cull the present laying flock, what to do with the egg production drops, latest information on correct feeding practices, a clinic on deceased birds (anyone is welcome to bring deceased specimens) and an open discussion with questions and answers on any subjects affecting poultry.

This is a rare opportunity for you to hear poultry discussed from A to Z by a man, who is one of the largest poultry raisers in Michigan and one of our most successful. This meeting has been possible through the co-operation of the Argo Milling Co., of Charlevoix, no matter where you live be sure to mark the date on the calendar and be present at the Charlevoix Court House on Thursday night, May 28th, bring any specimen of sick birds you may have.

B. C. MELLENCAMP,
Co. Agr'l Agent.

Dairy Profits Conference Successful

41 DELEGATES PRESENT; 44 DISTRICTS SURVEYED.

The recent Dairy Profits Conference held at Boyne City on May 12th, was by far the most valuable dairy meeting held for some time. A feature of the program was the fine way in which the delegates discussed the various dairy factors and their willingness to give the group the benefit of their dairy experience. A. C. Baltzer, Dairy Specialist of the Michigan State College was present and led the discussion.

During the morning session Mr. Baltzer gave the delegation an accurate sketch of what the dairy situation is today and the factors that enter in. Promptly at 12:00 o'clock a very fine luncheon was provided for the group in the High School Gymnasium by the Domestic Science class. This meal was made possible through the splendid generosity of the Charlevoix County Banks.

At the very beginning of the afternoon session Mr. Meggison of Charlevoix proposed the following resolution, which was adopted, "That a rising vote of thanks be extended to the Bankers of Charlevoix County for their kindness in furnishing the noon-luncheon."

The next few minutes was devoted to a discussion of whether or not Charlevoix County was adaptable for dairying. After a great deal of discussion in which Welsheimer, Struthers, Meggison and Wickersham of Charlevoix, Kent of Clarion, Lumley and Smith of Boyne City, and Woodward of Vanderbilt, gave their opinions, the following motion made by Niece of East Jordan, seconded by Wangeman of East Jordan was carried, "That inasmuch as Charlevoix County has many natural advantages such as good climate, ample water supplies, sweet soil, abundant pasture and high quality roughage, we favor an efficient dairy program."

Another subject taken up was that feeds suitable for dairy production. The delegates made the following rules: one, grow your own feeds; two, proper crop rotation; three, furnish one acre of alfalfa, one and three-tenths acres of clover, one and one-half acres of timothy, one acre of oats and one acre of barley, per cow. It was then moved by Meggison, and seconded by Welsheimer that "alfalfa for hay, sweet clover for pastures, oats, barley and wheat for grain and silage or roots for succulance," should be the dairyman's motto.

More discussion hinged around the subject of better bulls than any other dairy problem. The following recommendations were made for all dairy men in the County to follow: one, use a purebred bull from a dam producing not less than 400 pounds of butterfat per year, in a Cow-test Association, or 550 pounds if an official record. Second, to keep records on cows, to assist in proving bulls in culling and in developing a

STEPHEN SHEPARD COUNTY RESIDENT FOR FIFTY YEARS

Stephen Shepard passed away at his farm home near East Jordan, Sunday afternoon, May 17th, 1931, following a week's illness from hardening of the arteries and a paralytic stroke.

Mr. Shepard was born at Dunnville Canada, Dec. 13, 1860, his parents being Thomas and Esther Shepard. When nine years of age he came with his parents to Charlevoix, later on locating in Wilson township, and for the past forty years he has resided on his farm north of East Jordan in South Arm Township.

On Dec. 11th, 1885, he was united in marriage to Bertha Votruba. To this union were born seven children of whom, together with his wife, five sons and one daughter survive, viz: Claude, Frank, William, and Heston Shepard, and Mrs. Fred Vogel, all of East Jordan, and Arthur Shepard of Midland, Mich. He is also survived by two brothers, Thomas Shepard of Wilson Township, and John Shepard of Parish, Wis.

Funeral services were held from his late home Wednesday afternoon, conducted by Rev. James Leitch, pastor of the M. E. Church. Interment at Sunset Hill.

more efficient dairy program. Three, to encourage the organization of a Cow-Test Association to make the above possible. Four, to organize bull associations in as many districts as possible. Five, to secure the use of the "Better Bull" truck for demonstrational work in the County this fall. The above factors were put together in one motion and carried, motion being made by Meggison, and seconded by Bennett of East Jordan.

In regard to quality, which is of vital importance, Stevens of Walloon Lake brought up the point that before a general attempt would be made by Charlevoix County dairymen to produce high quality cream, it was necessary that a premium should be paid to those producing the better quality product. Dhaseler of Charlevoix made the suggestion that County Agent Melencamp hold several meetings to discuss quality. Murphy of East Jordan mentioned the influence that the new Co-operative Creamery would have in furnishing the farmer a premium for high quality cream, and stated that good quality was necessary for a successful creamery. Smith of Boyne City made a motion, seconded by Saunders of Charlevoix that the Quality Milk Truck operated by the Michigan State College be scheduled for Charlevoix County as soon as possible to show dairymen how simple a matter it is to produce quality cream. Motion carried.

Never before have so many dairymen in Charlevoix County discussed their situation as freely and to the minutest details as was the case at this conference. Every dairyman should read all the recommendations very carefully, as a more efficient dairy program will be carried on throughout the county if this is done. Space does not permit giving any more details, but this is a real program for you to follow and represents the opinion of not one man, but forty-one official delegates.

TO BUILD EXERCISING LOT FOR DAIRY BULL

Lack of adequate facilities for managing the dairy bull is one of the greatest handicaps to permanent dairy herd improvement. Under present conditions, many good young bulls are slaughtered before their value as a sire is proved. In this way hundreds of bulls worth thousands of dollars from the standpoint of breeding are lost each year to dairymen of the county.

A demonstration exercising pen and safety breeding chute will be built in this county on May 26th, through the co-operation of the County Agricultural Agent and the Dairy and Agricultural Engineering Departments of Michigan State College. This pen will be built on the farm of John Struthers, Charlevoix, located on M-31, about five miles east of Charlevoix. The construction work will take all day, but at 2:00 a short discussion of the features and description of its erection will be conducted.

The construction of an exercising lot and safety breeding chute for the bull will eliminate the chance of the owner or caretaker being injured by the bull. The enclosure may be made with fencing, poles or any material of sufficient strength. By using second-hand lumber the actual cost may not exceed from \$5.00 to \$8.00. Come any time during the afternoon, but especially be present at 2:00 so as to hear about its construction.

May Term of Circuit Court

FOR CHARLEVOIX COUNTY CONVENES NEXT MONDAY.

Following are the Jurors drawn and the docket for the May term of Circuit Court for Charlevoix County which convenes at the County Seat next Monday, May 25th.

E. J. Contractor Dies Suddenly

HENRY C. CLARK DIES ON BUSINESS TRIP AT ST. JOHNS.

Henry C. Clark passed away suddenly at St. Johns, Michigan, Sunday, May 17th, 1931, following an hour's illness from a heart attack. He was at the home of R. V. Gay, Architect, at the time of his death.

Mr. Clark was well-known throughout Michigan as a General Contractor and Builder, being in this business for over twenty-five years.

He was born at Pine Run, Michigan, September 1st, 1875, the only son of George and Mary Jane Ellsworth Clark. At the age of sixteen years he came to East Jordan and has made his home here since then.

On June 21st, 1905 he was united in marriage to Ella E. Carson. To this union was born a son, Donald, and three daughters—Dorothy, Ruth and Marguerite.

He is survived by his wife and children; a sister, Jessie M. Forsyth of Davison, Mich.; an uncle, Charles S. Ellsworth of San Francisco, Calif.; three cousins, Edward Ellsworth of St. Johns, Mich.; Minnie Howard of Rochester, N. Y., and Lucy Simms of Millington.

The remains were brought to his home in East Jordan and funeral services were held there Tuesday afternoon, conducted by Rev. C. W. Sidebotham, pastor of the Presbyterian Church. Mr. Clark was a member of East Jordan Lodge No. 379, F. & A. M., and the services at Sunset Hill were conducted by the fellow-members.

Plaintiff, vs. Henry Gooch, Prin. Defendant First National Bank of Boyne City, Garnishee-Defendants, Garnishment.

Andrew C. Struthers, Plaintiff, vs. Horace S. Newton and Bernard H. Newton, Defendants, Replevin.

General Motors Deleo Light Co.,

OUR CITIZENS ARE URGED TO BUY A POPPY

By the presence of a poppy above our hearts we can each express our veneration for the memory of the World War dead. It will bring remembrance to us of those fine boys who more than a dozen years ago marched bravely to their deaths in defense of us. Its presence on our coats will give us a feeling of thanksgiving and a glow of satisfaction that we too have been given an opportunity to contribute a small mite to broken and shattered boys who came home to fight the "long, long battle."

The Poppies to be sold in East Jordan on May 23rd to May 30th were made by Michigan veterans who are mental patients at the U. S. Veteran Hospital at Camp Custer. The annual sale in East Jordan is under the auspices of Rebec-Sweet Post, American Legion and its Auxiliary.

Legion Convention, Charlevoix

SUNDAY, JUNE 7. TURKEY DINNER AND PROGRAM.

The annual District Convention of the American Legion, when new district officers will be selected, and plans and politics discussed preparatory to the State Convention, will be held at Charlevoix on Sunday, June 7th.

Tentative plans call for the meeting to be convened at 12:00 p. m. (C. S. T.) and a big turkey dinner at 1:30 p. m. Karl W. Detzer, whose stories appeared in the Legion Monthly, will be the speaker at the dinner. This alone is worth the trip, but if Comrade Allick of the Upper Eleven keeps his promise, and is as good as he was at Mackinaw City—well, don't any Legionaire miss it.

PROGRAM
12:00 p. m., (C. S. T.)—Business Meeting.

1:30 p. m.—Banquet. At Charlevoix's leading Hotel. (A \$2.50 roast turkey feed at \$1.00 plate.

3:00 p. m.—Ball Game. Junior teams of St. Ignace and Alpena Posts.

4:00 p. m.—Dedication of new Legion Home.

Both the Traverse City and Cadillac Posts have indicated their intentions of being present and to live things up with their Drum and Bugle Corps.

Please advise Post Adj. Thos. St. Charles, or Oscar Weisler by Saturday, May 23rd, 9:00 p. m., how many of your folks are going, so the Chef will know how many gobblers to prepare.

LOCAL W. C. T. U. ORGANIZATION PERFECTED

A timely and important meeting was held at the Presbyterian Church Tuesday evening when Mrs. Blackwell, one of the State officers from Flint organized a local W. C. T. U. A great deal of interest was manifested and the following officers were elected:

President—Mrs. Alice Joynt.
Vice President—Mrs. May Healey.
Rec. Sec.—Mrs. H. A. Langell.
Treasurer—Mrs. W. P. Porter.
Corres. Sec.—Miss Agnes Porter.

On account of the shortness of the time the organizer was able to be with us, a thorough canvass of the town was not made. Any of the ladies wishing to join may hand their name to any one of the officers.

M. A. Porter,
Corres. Sec'y

UNION MEMORIAL SERVICE, SUNDAY

Following the usual custom there will be a Union Memorial Service next Sunday morning. This year the turn is for the service to be at the Presbyterian Church, and Rev. C. W. Sidebotham will preach the sermon on the theme "Being Dead, Yet Speaketh." The American Legion is in charge of arrangements. Surviving veterans of the Civil War, the Spanish War, the Legion men, and the members of the Women's Auxiliary will be given reserved seats. The time of the service will be 11:00 o'clock eastern standard time.

Do not remove tulips, narcissus, or daffodils until the foliage has turned yellow.

The teachers are bothered by the young people who fail to learn their dates, while the girls are bothered by the boys who fail to keep them.

Meguzee Ass'n Well Attended

MRS. ALICE PALMER OF KALKASKA ELECTED PRESIDENT.

The annual meeting of the Meguzee Association of the Order of Eastern Star in Northwestern Michigan was concluded at Potoskey at noon Thursday after one of the unusually interesting two-day Conventions. Central Lake won the honor of entertaining this large and enthusiastic group of fraternal members in 1932, the invitation of that city being accepted at the business meeting held Thursday forenoon.

Mrs. Alice Palmer of Kalkaska was elected President for 1931-32. Mrs. Amanda Shepard of East Jordan was advanced to First Vice, and Mrs. Gertrude Ellis of Potoskey was elected as Second Vice-President of the Association, and Emil Johnson of Mancelona was made the Third Vice-President. Mrs. Mae Brooks of Mancelona was re-elected as Secretary, and Mrs. Mina Morrison of Acme, re-elected as Treasurer. Mrs. Minnie Bronthron of Charlevoix, retiring President, was elected a member of the executive committee for a term of three years.

Mrs. Palmer will appoint the Chaplain, an office filled by Ann Johnson of Traverse City, this year, and the Marshall and pianist. This year's marshal has been Laura Courier of Charlevoix, and the pianist has been Mrs. DeNice, of Mancelona. She also will name her standing committees for the year at an early date.

The closing function of the 1931 convention was the luncheon Thursday for the visiting members.

The twenty-eighth annual session opened promptly at 2 p. m. Wednesday, Minnie Bronthron, president, of Charlevoix, presiding. The opening ceremony was by Charlevoix chapter, No. 72, the Meguzee officers and the past presidents of the Association. Presentation of the flag was by Elona chapter, No. 330 of Mancelona. The memorial service in honor of those who have joined the grand chapter on high was beautifully given by Charlevoix chapter.

The address of welcome by the worthy patron of Beulah chapter, No. 63, William E. Ellis, was graciously responded to by Gladys Bechtold, of Mark chapter, No. 275, East Jordan.

The Association was honored by a visit from Mary Covell, worthy grand matron; Otto Bush, worthy grand patron; Belle Pike, grand conductress; Nettie Grayson, grand Ruth, of the grand chapter of Michigan, and also seated in the east with the grand officers were many past grand officers and the past presidents of the Meguzee Association.

After the address by the president there was a roll call of chapters.

Mrs. P. J. Hendricks, of Beulah chapter No. 63, rendered two solos in her usual charming manner. The association was also favored by two piano solos and a couple of readings by two charming little misses.

The address by the worthy grand matron was quite informal, being confined to answers to the question box conducted for the benefit of the members.

The presentation of gifts to the grand officers and to the president of the association was made by Mrs. Minnieola Hunt, past matron of Beulah Chapter, No. 63.

After reading of the minutes the meeting was adjourned.

The banquet at 7 p. m., in the Hotel Perry was attended by some 300 members of the order and this was followed by the meeting of the association in the high school gymnasium at 8 p. m.

The setting was most beautiful and the committee spared no pains to add to the attractiveness of this beautiful auditorium.

President Minnie Bronthron called the association to order and after a short musical and literary program, the officers of Beulah Chapter, No. 63 presided over by Worthy Matron Julia Porter, entered. Both the opening and retiring marches were executed in a faultless manner and were roundly applauded.

The Worthy Grand Matron and other grand officers were again presented. The worthy grand matron gave a lengthy address on the ritualistic work of the order, but owing to the lateness of the hour the degrees were not exemplified by the selected corps of officers. Worthy Matron Julia Porter and Worthy Patron, William E. Ellis were both presented with gifts from their chapter and very graciously responded.

Members from the following towns were present: Potoskey, Charlevoix, Boyne City, Kalkaska, Harbor Springs, Traverse City, Ballaer, Central Lake, East Jordan, Elk Rapids, Mancelona, Acme, Northport, Fallston.—Potoskey News.

To the Business Men of East Jordan:

It is requested that all Stores
and other business places in East
remain closed Saturday forenoon,
May 30th, - - MEMORIAL DAY,
until the program at Sunset Hill at
1:00 p. m. is concluded.

WILSON TOWNSHIP
 (Edited by Mrs. C. M. Nowland)

Mr. and Mrs. Will Korhase and family visited relatives in Elk Rapids, Sunday.

Mr. and Mrs. Victor Peck were Sunday visitors of his cousins, Mr. and Mrs. Eldon Reed of South Arm.

Mr. and Mrs. Milo Clute were business callers at Gaylord first of the week.

Mrs. Arvilla Coykendall and son, Royal, Fred Kurtz and son, Walter were business visitors in Charlevoix, Saturday.

Mr. and Mrs. John Martin Sr., and Mr. and Mrs. John Martin Jr., spent the week end with the latter's parents at Cheboygan.

Mr. and Mrs. Charles Nowland and neice, Pauline, spent Sunday with the former's mother, Mrs. Alma Nowland.

Mr. and Mrs. DeWitt Williams moved on a farm near Hillman last Wednesday.

Mr. and Mrs. Fred Benzer of Boyne City were Sunday visitors of her brother, Will Behling and family.

Mr. and Mrs. Lewis Trojanek and sons were Sunday evening visitors of her sister, Mr. and Mrs. S. R. Nowland.

Mr. and Mrs. Harry Behling visited her parents, Mr. and Mrs. Fred Stanke near Ellsworth, Sunday.

Roy Zinck and family of Boyne City moved Monday on their farm in the Deer Lake District.

Mr. and Mrs. Albert Nowland attended a surprise birthday party on their daughter, Mrs. Omer Scott of Boyne City, Saturday evening. Eight tables of progressive pedro were in play. A bountiful lunch was served to 35 guests.

Ben Zimmerman and family have moved on the late Wm. J. Saunders

farm for the season.
 Mrs. Edith Nowland was a Monday afternoon visitor of Mrs. Alice Sheppard.

Mrs. Percy Batterbee and daughter and grandmother were Wednesday visitors of relatives in East Jordan.

Mr. and Mrs. Charles Holt were Sunday dinner guests of their daughter, Mrs. Claud Shepard and family.

Mr. and Mrs. Darius Shaw and daughter of Rock Elm were Sunday visitors of her parents, Mr. and Mrs. A. R. Nowland.

Friday, May 22nd, Mr. and Mrs. Frank A. Behling Sr., celebrate their Golden Wedding anniversary. Plans are being made to entertain their 7 children and families, relatives and old friends.

Mr. and Mrs. Eugene Kurchinski and daughter, Gladys spent Wednesday evening at the home of Mr. and Mrs. Richard Lewis in East Jordan.

AFTON
 Edited by Mrs. Henry Timmer.

Miss Mary Guzniczak was at home from Potoskey, Sunday.

Miss Hilda Cook, who has been staying with her sister, Mrs. Ed. Weldy, has gone to Potoskey where she has employment.

Mr. and Mrs. McCollman and children, Mr. and Mrs. Watson and daughter of Walloon Lake, Mr. and Mrs. Brace and Mrs. Wm. Howard were all guests at Joel Suttons, Sunday.

Miss Juanita Baker is staying at Potoskey this week, driving back and forth to Knop school.

Mrs. Henry Timmer and Mrs. J. L. Sutton spent Wednesday afternoon with Mrs. Herbert Sommerville.

Miss Nellie Raymond and Mrs. L. R. Hardy conveyed a crippled child to the Clinic at Charlevoix Thursday morning.

Mr. and Mrs. Lawrence LaLonde and her brother, Emil Thorsen have moved into the old Thorsen farm.

Mr. and Mrs. Frank Behling Jr., and Mrs. Behling Sr., were callers at Alex Weldys Wednesday evening.

Mr. and Mrs. Pearl Beal and party visited her mother, Mrs. John Smith, Sunday.

Deer Lake Grange initiated in the 3rd and 4th degrees at their hall Saturday evening. About 25 guests were present.

EVELINE
 (Edited by Mrs. Walter Clark)

Mrs. Everett Spidle spent a couple of days last week at Mancelona with her mother.

Everett Spidle spent Wednesday evening at Walter Clarks.

Mrs. Wilber Spidle and the Russell Thomas family attended church at Potoskey Wednesday evening.

Mr. and Mrs. Max Graham and children are here from Detroit visiting his mother, Mrs. Lewis Harnden and other relatives.

Howard Whaling was here from Ann Arbor over the week end at the Walter Clark home. His school will be out the 19th of June.

The Clark girls spent Saturday afternoon with the Quick girls in East Jordan.

The Walker school will close this Thursday with a pot luck dinner and a program in the afternoon.

Mr. and Mrs. Jerry Moblo of the Miles District visited their son, Carl and family, Sunday.

Mr. and Mrs. Ira Bartlett of East Jordan called at John Coopers, Sunday.

WEST SIDE
 (Edited by Mrs. Frank Kiser.)

Mr. and Mrs. Lewis Zgulek spent last Sunday with their daughter and family, Mr. and Mrs. Lawrence Addis.

Mrs. John Addis and daughter, Mary Jane visited Mrs. Pauline LaLonde last Sunday.

Miss Colden and Mrs. Robinson called on Mrs. Peter Bustard last Thursday afternoon.

JORDAN TOWNSHIP
 (Edited by Mrs. A. Stanek)

Mr. and Mrs. Peter Stanek and son Archie were Sunday afternoon visitors at the home of his uncle, Frank Rebec.

Mrs. Lydia Brown is living with her daughter, Mrs. Albert Todd.

Mr. and Mrs. Frank Stanek and family visited relatives in Elmira Sunday afternoon.

The Settlement school has finished its term of school for this season, and the teacher, Donald Wisler treated the children of his school by taking them all to the "Amos 'n' Andy" show. The children all enjoyed it very much. (Many thanks to the teacher.)

Art Moon is now working for A. Todd.

Mrs. Frank Haney Sr., of East Jordan was in the Settlement last week, fixing up her relative's graves in the Pesek cemetery.

ECHO
 (Edited by Mrs. Denzil Wilson)

Mr. and Mrs. Wm. Hebden and children visited at the home of Mr. and Mrs. Elmer Murray, Sunday.

There was an attendance of 35 at Community Meeting, Saturday night.

Mrs. Bolser had a very interesting program. Our next meeting will be June 20th. The Thayer girls have charge of the program, and Gerald Derenzy looks after the eats.

Born to Mr. and Mrs. Herbert Sweet, a daughter, May 14th.

Dora Derenzy, Alice and Reva Wilson spent Sunday with Esther and Mary Umlor.

Ben Bolser visited his brother, Allen Bolser at South Boardman, Sunday.

John Rude and son were callers at Wm. Derenzy's Sunday.

Mr. and Mrs. Merle Thompson of East Jordan were callers at Denzil Wilsons last Friday evening.

Mr. and Mrs. John Carney and son, and Miss Hazel Walker spent Sunday at the home of Mr. and Mrs. Earl Danforth.

Mr. and Mrs. Denzil Wilson with son, Edward, and daughter, Ruth, spent Sunday at the home of his brother, John Wilson and family of Pleasant Valley.

Wm. Hennings was a caller at Elmer Murrays Wednesday morning.

KNOWING HOW TO STOP

By THOMAS ARKLE CLARK
 Dean of Men, University of Illinois.

In old Norse mythology there is the story of a poor man who through bargaining with the devil came into possession of a quern, which is a sort of ancient coffee mill. This quern was capable of grinding out anything that it was told to grind—meat and drink and dainties of all sorts. It would grind lights and cutlery and table-cloths and gold

even if it were told to do so.

The poor man had a rich brother who, when he saw the luxuries with which the once indigent member of the family was now surrounded, became curious and envious.

"Whence in h—l's name have you got all this wealth?" he asked, and so persistent was he in his inquiries that he finally wormed from his brother the secret of the quern. Seeing its possibilities he was not satisfied until he had possessed himself of it, which he did upon the payment of a large sum of money.

It was evening when the rich brother got the quern home, and next morning, it being the time of hay harvest, he sent his wife out into the hay field to turn over the hay which was being cut that it might be more quickly dry, and he agreed to stay at home and get the dinner. When dinner time came he put the quern upon the table and said:

"Grind herrings and broth and grind them good and fast."

The quern began to grind until the table was covered and the kitchen floor, and he was forced to open the door to let the flood of herrings and broth out. He had learned how to start the machine but he had neglected to discover how it could be stopped and the yard and the streets and the fields were in danger of being covered with herrings and broth like a great lava stream. It was only when he rushed frantically to his brother that the quern was stopped.

(© 1931, Western Newspaper Union.)

Old-Timer to Boarding House Frosh: I'll say, old man, I wouldn't touch the rice-pudding. There was a wedding here yesterday.

Our idea of a model wife is the woman who isn't afraid it will strain her eyes to look for the good in her husband, or ruin her voice to sing his praises occasionally.

Adrian—Penalties and interest on delinquent city taxes for 1929 and 1930 will be waived if the taxes are paid before July 1, under a resolution adopted by the Adrian city commission.

Bad Axe—Frank Rottenbacher, 24 years old, of Elkton, charged with throwing an axe at his wife, was sentenced to serve 90 days in the county jail when he was found guilty by Justice George M. Deady. Rottenbacher said he will appeal the decision.

Decatur—The high school orchestra of Decatur, was awarded first honors in the class "C" division of the National School Orchestra contest at Cleveland, Ohio, recently. Evans, Pa., placed second, with Mentor, O., and Greencastle, Pa., third and fourth respectively.

Saginaw—There's one thief in Saginaw who isn't afraid of mud. Joe Deshone reported that his car was stuck in the mud near the Tittabawassee river across from Riverdale Park. He went home to change his clothes and when he returned the car had disappeared, he said.

Monroe—An armed bandit, who held up Joseph Graber, 28 years old, attendant at a gasoline station, late at night, got only one dollar and nine gallons of gasoline for his trouble. He first demanded all Graber's cash, but the latter haggled with him until he hurried away with a single bill.

Monroe—Baxter Johnson, 84 years old, a veteran of the Civil War, died at his home here recently. He had been in ill health several years. He enlisted in the Union forces at 17 and fought in many of the important engagements of the war. He was a Monroe County farmer for many years.

Monroe—Work of dredging the old United States ship canal and a portion of Lake Erie will soon be started here. The canal and the lake are to be deepened to a depth of 18 feet. The work was authorized by the government and is to cost approximately \$28,000. The dredge Iron Dequat, a tug and mud scow were sent from Cleveland for the work.

Niles—Niles police resorted to hacksaws in liberating three Niles residents from an automobile which overturned in a ditch near here. Mary Hanson and Muriel Anderson suffered broken ribs and Bruce Miller cuts and bruises. The trio was imprisoned in the overturned car for some time before the police were able to cut through the metal body and liberate them.

Saginaw—Construction of an addition to the Saginaw Malleable Iron Division of the General Motors Corporation, which will increase its capacity 50 per cent and make it the largest malleable iron foundry in the world was announced by David O. Thomas, manager. The addition will provide increased kiln capacity and work will be started at once, he said.

Detroit—Potato growers from 30 Michigan counties met in convention at Detroit recently to study their products, and methods of competing with farmers in Maine and Idaho. It was revealed by Ross Silkot, crop specialist of the Wabash and Ann Arbor railroads that Michigan potato growers get but 120 bushels to the acre while the yield in the other two states is 200.

Escanaba—The state highway commission has reported to W. H. Prickett of Sidnaw the results of \$1,000 he donated to department to plant flowers along the roadside between L'Anse and the Covington "Y," on M-28. They told Prickett a dozen varieties of blooms would soon be flowering. Prickett said he may donate another \$1,000 to the cause. A bachelor, his hobby is horticulture.

East Lansing—Baby chicks, ducks and turkeys of almost every known color and breed were on display at the recent fourth annual Michigan Baby Chick Show. The show was sponsored by the poultry department of Michigan State College in the interest of better poultry breeding and culture. Officials said entries were more numerous this year than at any previous show, and that the show was the largest of its kind in the world.

Battle Creek—Four children received serious leg injuries as the result of the collapse of a set of six swings in the Jefferson School playgrounds. Two other pupils were bruised. The accident occurred when all six swings were in use. An iron bar, supporting the swings, broke and crashed to the ground, carrying two supporting bars with it. The children were thrown from the swings, and some of them were struck by the falling bars.

Richmond—Herman Huneke's first parachute jump ended in his death, when his parachute failed to open. Huneke, a cook in the 17th Squadron at Selfridge Field, obtained a leave and came here to make a fight with Stewart Weeks, a commercial flier. Weeks said Huneke told him he was experienced in parachute jumping and asked him to go up, but that his actions during the fight indicated he had not jumped before. About 100 spectators saw Huneke jump from an altitude of 2,000 feet.

Port Huron—Robert Brown, 10-year-old son of a farmer near Yale, received severe burns on his hands when he came in contact with an electrically charged fence on the farm of Donald Parker. Parker had run a wire from his house to a barbed wire fence surrounding his chicken yard, in the hope that he could stop the depredations of chicken thieves. The fence crossed a small creek on the property and Robert, while wading in the stream, grasped the fence with one hand, and received painful burns.

PENINSULA
 (Edited by Mrs. B. Hayden)

Lawrence Bennett and family arrived from Flint Monday noon to attend the funeral of his grandfather, Martin J. Staley. They returned that evening.

Ed. Douglas of Cheboygan was on the Peninsula Monday, delivering the last of the many thousand raspberry plants he has sold in this vicinity this spring.

Orval Bennett and F. H. Wageman attended the Dairy Conference at Boyne City, Tuesday.

Mrs. Mercy Woerful and Joe Perry of East Jordan made a pleasant call at Orchard Hill, Tuesday.

Mrs. Alfreda Arnott of Lone Ash farm visited her aunt, Mrs. Elmer Faust at Mountain Ash farm, Tuesday and Wednesday.

Old residents and friends will be interested to hear of the death of Mrs. Ann MacDonald at her home near Lansing, Tuesday, May 12th. Mrs. MacDonald with her family was for many years a resident of Mountain District, and was loved and respected by all who knew her. Funeral services were held at Charlevoix, Thursday forenoon from the home of her daughter, Mrs. Geo. Jardine. Interment at Charlevoix.

Dewey Hosler of East Jordan, the Gleaner man was doing business on the Peninsula, Wednesday.

W. H. Fanning of Boyne Falls was on the Peninsula Wednesday, buying cattle and hogs.

Marion Russell, who was operating a sulky plow for F. H. Wageman, got hit in the stomach with some part of it, Wednesday, and was unable to work Thursday. His brother, Kenneth worked in his place.

Henry Grutsch of near East Jordan spent Thursday night with Robert Hayden at Orchard Hill.

Mrs. Mercy Woerful and daughter, Miss Phyllis, of East Jordan spent Thursday night with the Ray Loomis family at Gravel Hill, north side. Miss Phyllis returned to school Friday morning, but Mrs. Woerful stayed until Friday evening.

Mr. and Mrs. Perry Looze and daughter now occupy the Ernest Loomis home, Maple Lawn farm.

Dr. Pearsall of Deer Lake was called Thursday to attend a sick horse for Daniel Faust.

Orval Bennett reports the first spring colt in this section, born Thursday.

A good many from Peninsula attended the funeral of Mrs. Ann McDonald at Charlevoix, Thursday. Joel Bennett and son of Honey

Slope farm sold a head of cattle, Saturday.

Mr. Vacker, the Michigan Farmer man was on the Peninsula Thursday, writing up Michigan Farmer accident insurance.

Mrs. Beryl Deitz of Muskegon, Miss Opal McDonald of Cadillac, Miss Nita McDonald of Monroe and Miss Dorothy McDonald of Owosso were called home Wednesday to attend the funeral of their grandmother, Mrs. Ann McDonald, Thursday. They all returned to their respective positions Friday.

Mr. and Mrs. A. J. Beers and Mr. and Mrs. F. H. Wageman were Charlevoix visitors Sunday, called there by the death of Mr. Beer's sister, Mrs. Ben Campbell, which occurred Friday. Funeral was held Monday.

Mrs. Joel Bennett of Honey Slope farm and Mrs. Wm. Bogart of Boyne City called on Mr. and Mrs. Ben La-Croix of Advance Sunday afternoon.

Mrs. Orval Bennett is quite ill at her home with a slight attack of flu.

Will Gaunt of Knoll Krest had an attack of flu latter part of last week.

Quite a delegation of Peninsularites attended the Odd Fellow supper at East Jordan Friday evening and report a fine time.

Mrs. Caroline Loomis who has been in Detroit for some time, came to the home of her son, Ray Loomis, Thursday. She was accompanied by her son, Earl of Detroit, and nephew, Glen Hewitt of Saginaw. The men returned Saturday to their respective homes.

Mr. and Mrs. Ira McKee have just received a letter from their daughter, Mrs. Ezra Dean, stating Mr. Dean, who was confined in a hospital at Denver, Colo., for many weeks with a broken back, was now home and able to get around nicely, but had to wear a brace on his back. Also the whole family, all but Mr. Dean, had the mumps.

Mr. and Mrs. Ira McKee of Star Dist., and Mr. and Mrs. Geo. Weaver and family of East Jordan, and Miss Eloise and Master Wm. Gaunt of Knoll Krest were dinner guests Sunday at the home of Mr. and Mrs. David Gaunt and family.

Mr. and Mrs. Geo. Staley and family of Gleaner Corper visited Mr. and Mrs. John Matthews, east of Boyne City, Sunday.

Billy Hamilton came on duty at the Fire Tower Thursday, after being absent several days because of rainy weather.

A slight frost Saturday and Sunday mornings, but not severe enough to hurt the fruit.

Peoples' Wants

MUNNIMAKERS
 Notices of Lost, Wanted, For Sale, For Rent, etc., in this Column is 25 cents for one insertion for 25 words or less. Initials count as one word and compound words count as two words. Above this number of words a charge of one cent a word will be made for the first insertion and one-half cent for subsequent insertions, with a minimum charge of 15 cents. These rates are for cash only. Ten cents extra per insertion if charged.

LOST AND FOUND

FOUND—A Masterlock Co., flat key with 11 stamped in the steel. HERALD OFFICE. 21-1

WANTED

WANTED—Hay and Chickens.—C. J. MALPASS. 40-1f

FOR SALE—REAL ESTATE

FOR SALE—Forty acres of good land with small dwelling, six miles southwest of East Jordan in Echo Township. Taken on lein. Will sell cheap. Write or call FLOYD DAVIS, phone 88, Mancelona. 19x6

FOR SALE—30 acres of good farm land in Cherrysvale. Cheap if taken at once. Write CLYDE G. FULLER, Box 272, Portland, Mich. 18x6

FOR SALE—MISCELLANEOUS

FOR SALE—Second-hand Plow and Double Shovel Cultivator.—W. A. STROEBEL. 21x1

FOR SALE—Dining Room Table, Chairs, Buffet, Davenport, Kitchen Cabinet, Bookcase.—L. G. BALCH, Phone 20. 21-1

FOR SALE—20 bu. Potoskey Russet Seed Potatoes; also a cyclone Washing Machine, nearly new.—EDWARD THORSEN, Phone 166-F22. 21x2

FOR SALE—SEED CORN—Strawberry Dent, large corn that matures; also Early Yellow Dent.—AMOS NASSON, 7 miles from East Jordan, on county road to Charlevoix. 21x3

FOR SALE—Good top buggy for \$10.00; also a good Organ for \$10. MRS. SUPLEY LALONDE, East Jordan. 20x2

HORSES FOR SALE—20 head of good young farm horses. Also a few cheap horses.—M. B. HOOKER & SON, Charlevoix, Mich. 15-1f

REPAIRS for Everything at C. J. MALPASS HDWE. CO. 22-1f

"New Iso-Vis Proved Excellent in BUICK"

Reports A.A.A.

EXCELLENT is hardly the word. Read these facts gathered on the Indianapolis Speedway and certified by the American Automobile Association.

1 New Iso-Vis did not thin out from dilution.

2 During entire 9,000 mile tests, all parts of engine and chassis were lubricated effectively.

3 Only 1 quart of oil—Iso-Vis 50 (Heavy)—was used in 1,000 miles at 30 m. p. h.

4 Carbon formed was only 5.4 grams per cylinder at 30 m. p. h. using Iso-Vis 50 (Heavy).

5 The cylinder wear was too little to measure.

New Iso-Vis stands out on every one of these important qualities. Here are figures for other oils to shoot at.

They give dramatic proof of the protection given by New Iso-Vis—the only motor oil that will not thin out from dilution.

New Iso-Vis proved itself in 12 other cars on the track. No matter what make you drive, your car needs the protection of New Iso-Vis. Change your oil and fill up with New Iso-Vis at once.

New ISO-VIS MOTOR OIL

New Polarine also is refined by our new process—giving it an efficiency which is exceeded only by New Iso-Vis. The price is 25c a quart.

STANDARD OIL COMPANY (Indiana)

Discover New Plan to Dissolve Snow

Trick Is Quite Simple When It Is Known.

(Prepared by the United States Department of Agriculture)—WNU Service.

When "winter, lingering, chills the lap of May," foresters of the United States Department of Agriculture sometimes call into play a trick of the trade that puts an end to the unreasonable loitering. In some years it happens that sites chosen for reforestation by planting are ready for seedlings from the forest nursery while the nursery is still buried in snow. By the time the snow in the nursery has melted and the trees are ready for transplanting the soil in the planting sites may be too dry. The problem in such a case is to melt the snow and advance the working season in the nursery.

The trick is simple—when you know it. It consists in broadcasting fine black soil on the snow over the compartments of the nursery from which planting stock is to be removed first. This soil, because it is black, absorbs considerable heat which would otherwise be reflected from the white snow. This hastens the melting of the snow and enables the workers to get out the planting stock earlier—as much as two weeks earlier in some instances. This practical and simple application of one of the elementary principles of physical science, as adopted by the forest service, may also find other work to do, officials of the department suggest. For example, a similar broadcasting might advance the time when it is possible to work the home garden.

Chopped Alfalfa Useful Supplemental Hog Feed

Pork produced by feeding chopped alfalfa hay as a supplement reached a good marketable weight fully 17 days before the other pigs and was produced at a saving of 41 cents for each 100 pounds according to a recent report by the South Dakota experiment station. Twenty-five pounds of chopped alfalfa hay was used in a mixture with 50 pounds of tankage and 25 pounds of linseed oilmeal as a supplement to yellow corn. There was a saving of 16 pounds of feed for each 100 pounds of gain due to the alfalfa.

Since chopping or grinding alfalfa is resorted to where hay is artificially cured for feeding to dairy cattle, many feel that it should be even more worth while to adopt this practice for all classes of stock where natural curing makes it impossible to secure so high grade a product.

Feed Baby Chicks Soon After They Are Hatched

Experiments at Purdue university this last year have indicated that baby chicks may be fed early after they come from the incubator, even immediately after removal without ill effects, according to Roy E. Roberts, in charge of the test.

The growth of the chicks which were fed early was similar to that of chicks fed at the regular 48 to 72-hour age. The mortality was no greater in the early-fed chicks.

Nothing was gained in feeding the chicks before they were 48 hours old. Professor Roberts states, which enables the owner to hold them in the incubator two days and cuts the brooding period that much. Although strong chicks live long periods without feed it is wise to feed at least by the 48-hour limit.

FARM FACTS

Clean grains for spring sowings in the fanning mill and then reclean it.

If you like greens plant a row of mustard to follow the spinach crop.

Even when the droppings and cleanings are hauled away it is necessary to use forethought and not dump or scatter them on ground where young or growing chickens will be ranged next summer.

The weight of the weed seeds and other foreign material that can readily be separated from wheat, rye and corn is referred to as dockage. Elimination of weeds can prevent dockage losses.

Motor trucks are being used more and more to transport fruits and vegetables from the place of production to market. Products have been carried 600 miles this way, but the average for long trips is 100 miles.

Give the geese their liberty as soon as possible, but shelter should always be easily accessible in case of cold winds or rain when the geese are small. Likewise shade should be provided in the heat of summer.

You can't very often find Savoy cabbages in the market because they are not long keepers. Plant seed and raise some at home. They are the highest quality table cabbages. Their dark green crinkled leaves identify them.

A new strain of alfalfa known as Hardwick has recently been developed in Dawson county, Nebraska. This strain gave yields nearly the same as Orin alfalfa and maintained stands superior to either Orin or common alfalfa.

Way of Growing Beets for Stock

Feeding Value of Tops and Pulp Is Especially Pertinent.

(Prepared by the United States Department of Agriculture)—WNU Service.

Methods found successful in growing sugar beets in the humid states are outlined in a new publication of the United States Department of Agriculture, Farmers' Bulletin 1687-F, Sugar-Beet Culture in the Humid Area of the United States. Where drought has reduced forage supplies seriously as was the case last summer in much of the area to which this bulletin applies, the facts brought out as to feeding value of beet tops and beet pulp are especially pertinent. The bulletin says that five to eight tons of forage may be obtained from an ordinary beet crop.

Designated Area.
The area designated as humid includes Michigan, Ohio, Indiana, Illinois, Wisconsin, Minnesota, Iowa, and part of Nebraska. About 90 per cent of the nation's sugar-beet acreage is in this region. About 60 per cent of the beet acreage is in the Mountain states area and the other 10 per cent in the Pacific coast area.

"An adequate supply of moisture during the growing season, soil of a proper type, and a long, moderately cool growing season are essential to success with sugar beets," the bulletin says. "The adaptability of the sugar beet has permitted its culture on a wide range of soils, but the best yields are generally made on the heavier types."

Intensive Measures Necessary.
In the culture of sugar beets intensive measures are necessary, the bulletin says. Careful preparation of the soil, proper planting practices, liberal use of manure and fertilizers, and frequent cultivation are necessary for success with this crop.

The bulletin discusses diseases and insect enemies of sugar beets, and gives the best methods of control, as determined by experiments of the Department of Agriculture and state experiment stations. Farmers' Bulletin 1687-F may be obtained free from the Office of Information, United States Department of Agriculture, Washington, D. C.

Sanitation Is Woefully Weak in Some Stables

Sanitation in the mangers and drinking cups is woefully weak in some stables. One farmer was heard to complain recently that his cows were not doing well, that they didn't drink as much water as they should and always left a certain amount of meal in the bottom of the mangers and drinking cups will locate the source of such trouble almost every time. The smell of either should indicate what is wrong. The drinking cups become fouled with chaff and spoiled silage and when left for even a day the water is filthy. Naturally cows will not drink such water freely. Anywhere from a quarter to an inch of hard accumulated filth, originally feed, can sometimes be scraped out of the manger, left over from many feedings and seldom cleaned out. It, too, has a stench which makes the animal quit eating long before it has had enough. Drinking bowls and mangers should be kept clean.

Turning Hatching Eggs Made Quite Easy Task

Many poultry raisers who have only small flocks need to save eggs for several days to get enough to set. As they must be turned every day before they are put in the machine, it becomes quite a task. I have simplified this by packing the eggs in the egg cases when they are gathered, says a writer in an exchange. Then the lid is put on and the crate is turned, thus saving the work of handling each egg separately. Even though there are not enough eggs to fill the crate, the fillers may be put in and the crate turned just the same.

Another advantage in this way of caring for the eggs is that it lessens the chance of the eggs being broken, especially if there are children about.

Feed Consumed by Cows of Average Production

A cow will consume about 85 pounds of silage a day and 15 pounds of hay. If her annual yield is 210 pounds of butterfat and her milk averages 3.5 per cent of fat, her milk yield will average 6,000 pounds for 300 days a year, leaving her 65 days for a dry period. This means that her average production would be only 20 pounds of milk a day.

Such a cow will not need a heavy grain ration. If she is fed two pounds of grain a day of a mixture composed of 400 pounds each of ground barley and oats and 100 pounds of linseed meal she should do very well.

Sweet Clover Seed

When left alone sweet clover will form its seed crop in July and die out in August; but if the sweet clover be pastured so as to gradually keep the tips of the branches clipped off, the seed crop may be delayed considerably, and may not be formed until August, and its ability to ripen the seed may be postponed even into September and a little later. There is another strain of sweet clover which forms seed the first season and dies before winter.

FUNDS FOR HOMES SUPPLIED BY BANKS

By ROME C. STEPHENSON
President American Bankers Association

A LARGE portion of the funds required in home building always has been furnished by banks. They have shown constantly a deep interest in the performance of this feature of national development. Upon it rests much of our country's future stability, and any contribution to its advancement redounds to the advantage of all. So banking has never permitted its co-operative attitude toward home building to lessen.

Practically all banks now accept savings deposits which can well be turned to the advantage of the home builders. The construction of individual dwellings requires a large amount of financing and is a thoroughly commendable enterprise. Necessarily, the aid given to home builders is governed by the sound banking rules which have grown out of the years of experience and the constant studies of bank practices.

All of the efforts made to secure broader real estate loan privileges, to adjust resources to make it possible to lend larger sums for long terms, the standardization of mortgage loan formulas, and the actual lending of vast sums on mortgage notes evidence the desire of banks to contribute a full measure of support to the home-building movement. This is true of all classes of banks, but even in a more marked degree of those whose deposits are largely in the form of savings and whose loans are primarily for building or home purchasing purposes.

Both Sides Protected

The process through which bank loans are made on real estate is as simple as the nature of such an important transaction will permit. When money is advanced the lender must know that repayment will be made the specified time. Likewise the borrower wants to be assured that, after he has figured the loan on the basis of his conservatively anticipated ability to pay, he will not be required to do more, that he will not be disturbed in his efforts to work out of his obligations under those terms. Whether his agreement is to repay the entire loan in three or five years, or on a monthly or yearly basis, he wants the assurance that no additional burdens will be imposed upon him. All of this is settled definitely in advance.

There is no mystery about any of the details, and when the negotiations are complete the borrower knows just what he may expect and what he will be required to do to meet his obligations.

Loans made to persons who wish to acquire homes are not necessarily building loans. One may wish to purchase a home already constructed. In this form of transaction bank loans are used very freely because it is the only kind of a real estate loan some classes of banks may make. Others, of course, may lend upon real estate with improvements uncompleted and advance funds as the construction progresses. Different styles in home financing have developed in the various states, and banks have tried to adapt their facilities to the needs. Whatever character of assistance is required in any particular instance usually can be found in some bank in the local community.

Among banks and borrowers for home acquisition purposes a long established and thoroughly tested relationship exists. Banks are not the only agencies through which such funds are available; they do not embody all the spirit of helpfulness which abounds. However, through the years of their co-operation their aid has been of unquestioned value to the home builders whose efforts to establish a permanence for themselves have received constant encouragement. Bankers everywhere are ready to counsel with their customers about their home-building plans and to assist to the extent of their ability. This is being done constantly and the many advantages of it are not without recognition.

Farm Service by a Bank

A farm service department was inaugurated a year ago by a bank in Olympia, Washington, and a farm advisor appointed. Close co-operation has been maintained with the state college extension service. Work in dairying is carried on in conjunction with the Dairy Herd Improvement Association. Also a pasture contest was held in cooperation with the four banks in the county which offered prizes amounting to \$100. Work in poultry was carried on in cooperation with the Co-operative Poultry Association and assistance was given in organizing an economic conference for the benefit of berry growers. The farm advisor of the bank is active in the Agricultural Council of the county composed of farm and other organizations interested in agricultural development, and also in the Farmers' Market. Six hundred farm business analysis blanks were distributed while farm account books and poultry record books were also provided to farmers and have been helpful in starting many farmers in keeping business records.

Old Fertilizers Coming Into Use

Many Less Common Elements Considered Non-essential Find Favor.

(Prepared by the United States Department of Agriculture)—WNU Service.

Although fertilizers have generally been considered complete with only the principal plant food elements, nitrogen, phosphorus, and potash, the United States Department of Agriculture has found that many of the less common elements heretofore considered nonessential or present in the soil in sufficient quantities may deserve a place in the fertilizer bag.

Deficient in Elements.
In large areas in the United States some of the soils are deficient in manganese, sulphur, iron magnesium, and chlorine. Experiments in the greenhouses have shown beneficial plant-growth responses to applications of copper, boron, iodine, zinc, arsenic, barium, nickel, and other less common elements.

The everglades and east coast regions of Florida, where trucking is the chief form of agriculture, have been found deficient in manganese and have been made highly productive by application of about 50 pounds of manganese sulphate an acre. Within the last two years this new fertilizer has come into general use. It has been credited in some cases, with improving the yield of tomatoes by 175 to 450 crates an acre, the yield of beans by 3 1/2 tons an acre, the yield of cabbage by 42,107 pounds an acre, and the yield of potatoes by 180 bushels an acre. It has trebled and quadrupled the size of carrots and beets and doubled the size of cauliflower.

Chlorine Helps.
On light sandy soils in some tobacco-growing regions an application of 20 to 30 pounds of chlorine per acre, in the form of muriate of potash, improves the yield, quality, and drought resistance of the crop.

A large proportion of the light sandy tobacco soils are deficient in magnesium and at least 10 to 20 pounds per acre of this element must be included in the fertilizer if a normal crop is to be obtained. Magnesium deficiency produces characteristic symptoms in the plant and the condition is popularly known as sand drows.

Are the department-store elevators the "shoplifters" we read about?

A swelled-head seldom contains a strong mind.

MICHIGAN BELL TELEPHONE CO.

A Great State to Live in
and
A Great State to Visit

Michigan is great in extent and in scenic beauty . . . great in its natural resources and its industries . . . great in its history, its traditions, and the character and spirit of its citizens.

Consider its mines and forests, its fertile fields and its productive orchards and vineyards. Think of its beautiful lakes and streams, its diversified industries and its splendid educational institutions.

Michigan is a good place to live: Here Nature is kind. We are not visited with flood, drought or other disasters to any degree. Nowhere else can people work more profitably or under better conditions than in Michigan.

And no state has more to offer the tourist, whether from outside or within the state.

Michigan is a great state to live in and a great state to visit!

Vacation in Michigan

"The great war started in 1919."
"You're wrong. The war started in 1914."
"Well, I guess I know the year I was married."
Scattered Dreams.
Suitor—Jimmy, how would you like to earn a quarter?
Jimmy—Fine! How?
Suitor—Get me a lock of your sister's hair.
Jimmy—If you'll give me 50 cents I'll get you the whole wig.

YOUR DOLLAR'S UP AT AUCTION!

YOUR DOLLAR is on the auction block. Perhaps it's a Shoe-dollar or a Food-dollar or a Clothing-dollar. You want to sell it to the highest bidder—to get the most shoes or food or clothing—as easily and quickly as possible . . . How?

Just read the advertisements in these pages. There, the most trustworthy bidders have recorded their bids in black and white. They offer you the fullest finest return for your dollar—commodities that have been tested and proved many times over—that had to be, before they could be advertised.

Choose from among them—and sell your dollars with complete confidence.

Advertisements bring you the best bids for your dollar.

Means—The Monroe board of education has decided not to re-engage the married teachers now employed, and to discharge any teacher as soon as she is married. Heretofore the board has permitted teachers to continue for at least a year after they were married.

Clayton—A lighted cigaret is blamed for an explosion of gasoline in which Sherol Hudson, 18 years old, was injured seriously at his home north of Clayton. He was drawing gasoline for two motorists when one of them entered the room smoking a cigaret and the blast followed.

Rogers City—Aaron Leventhal and his assistant, Lester Gordon, engaged in the fur buying business here and failed to obtain the proper licenses before starting operations. Their activities were halted when they were haled into court by conservation officials and assessed total fines and costs of \$187.45.

Kalamazoo—Charles Nurrie, the landlord, must pay \$400 for injuries suffered by 14-year-old Dorothy Williams when she fell down stairs at her home a year ago. The verdict was returned after the jury visited the Williams home and inspected the rubber matting on the steps and the brass strips that hold it down.

Lansing—Gov. Brucker has signed the Brady-Campbell act, requiring automobile drivers to register every three years, paying a fee of \$1 on each occasion. The money is to be used for the maintenance of a State Police highway patrol and in other activities designed to promote traffic safety. The act was given immediate effect.

Parma—Parma's last Civil War veteran, John Whitehouse, 90 years old, died at his home here following a long illness. He was one of the soldiers stationed as guard for eight days over the body of the martyred President Abraham Lincoln, at Springfield, Ill. Besides the widow, he is survived by two sons, both of whom served in the World War, and two daughters.

Sweet Clover Pastures
of Important Benefit

"All in all the benefits from sweet clover under pasture are largely due to the unclean residues left on the soil, to roots left in the soil, to the general improvement of the physical condition of the soil and to the suppression of weeds by pasturing," states H. L. Walster, in charge of agronomy work at the North Dakota Agricultural college.

"Under pasturing there is a considerable return of nitrogen through both the liquid and the solid manure left in the field by the live stock. The liquid manure, however, is subject to rapid nitrification and leaching so that it is unlikely to be of any material benefit to the succeeding crop, while the solid manure is unevenly distributed and some leaching losses take place in it, also."

Just what are the effects of pasturing as compared to the effects of other treatments upon the soil moisture conditions is not known, Dr. Walster says. It seems likely that a closely pastured sweet clover field does not draw as much water from the soil as when two crops of hay are taken.

Starve the Rats Best
Way to Control Pests

The best way to control rats is to make it "unhealthy and unpopular" for them—and this can be done in a number of different ways, says State Veterinarian Dr. Homer A. Wilson of the Missouri state board of agriculture.

The first and best thing to do is, when building, construct in a rat-proof way. The extra cost amounts to little, and the protection thus obtained will many times pay for the trouble and additional expense.

Rats must have food and shelter, and if the buildings are rat-proof they will be handicapped. This is a year when we should try to starve the rats!

Consumer of Lamb Not
Interested in Weight

The consumer of lamb is not interested in whether a lamb can be made to weigh 100 pounds in 100 days or if it weighs 80 pounds. He is, however, concerned about the size of the various cuts. The quality, flavor and appearance of the meat are matters which do concern him very much. The economy of the feed yard only affects him as it is passed on in the price he must pay for his chops or leg of lamb. The same parallel might be drawn for wool. The consumer knows and cares but little about the breed, but he knows what he wants in wearing apparel and pays accordingly.

Standard Crate

To make a standard potato crate have slats 17 and 14 inches with 12-inch posts, says Prof. E. V. Hardenburg of the New York State College of Agriculture. With 1-inch square posts and 3/4-inch slats, the inside dimensions are 16 1/4 by 14 by 12 inches deep. Such a crate holds a legal bushel of 60 pounds; for estimating bin capacity it occupies 1 1/4 cubic feet.

PROBATE ORDER

State of Michigan. The Probate Court for the County of Charlevoix. At a session of said Court, held at the Probate Office in the City of Charlevoix in said County, on the 1st day of May, A. D. 1931.

Present: Hon. Ervan A. Ruegsegger, Judge of Probate.

In the Matter of the Estate of Almeda Frances Lorraine, Deceased.

Bert L. Lorraine, having filed in said court his final administration account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate, as per the Will of Deceased.

It is Ordered, That the 8th day of June, A. D. 1931, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for examining and allowing said account and hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald a newspaper printed and circulated in said county.

Ervan A. Ruegsegger, Judge of Probate.

STATE OF MICHIGAN

The Probate Court for the County of Charlevoix.

At a session of said court, held at the probate office, in the City of Charlevoix, in said county, on the 8th day of May A. D. 1931.

Present: Hon. Ervan A. Ruegsegger, Judge of Probate.

In the Matter of the Estate of Aldrich Townsend, Deceased.

Arthur J. Clark, grandson, having filed in said court his petition praying that the administration of said estate be granted to Robert A. Campbell, or to some other suitable person.

It is Ordered, That the fifth day of June, A. D. 1931, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is further ordered, that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald a newspaper printed and circulated in said county.

Ervan A. Ruegsegger, Judge of Probate.

"Little Stories
for Bedtime"

Burgess

FARMER BROWN'S BOY

You cannot always surely tell if things be ill or things be well.

WHEN the poor suffering wounded little Bob White crawled under the fence he didn't know it but he had crawled onto the land of Farmer Brown and a sign warned all hunters to keep off—that no shooting would be allowed there. And when that poor little Bob White looked up and saw right in front of him one of those two-legged creatures like the one with the terrible fire-stick, and at once had given up all hope, he had been too sick at heart and suffering too much to recognize Farmer Brown's boy.

But that is just who it was. You see Farmer Brown's boy had been so anxious for fear that some hunter would come over on his father's land in spite of the signs that he had gone down on the Green Meadows just

"Hello!" Exclaimed the Hunter, "I Guess That's My Bird."

as soon as he had eaten his breakfast. He had seen the hunter on the land of Farmer Jones and had heard him shoot. With all his heart Farmer Brown's Boy had hoped that the hunter had missed. Now as he looked down and saw the poor little suffering bird he knew that the hunter had not missed and fierce anger swelled his heart. He quite forgot that he himself used to hunt with a terrible gun before he had learned to know and to love the little people of the Green Meadows and the Green Forest.

He stooped and very tenderly lifted the little Bob White, who closed his eyes and was sure that now all would soon be over.

"You poor little thing. You poor, poor little thing," said Farmer Brown's boy as he looked at the torn and broken wing. Then he looked across at the hunter and growled savagely. Just then the hunter saw him and at

once started toward him. You see the hunter thought that perhaps if he offered Farmer Brown's boy money he would allow him to hunt on Farmer Brown's land. He knew that that was where Bob White, and all his family had flown to. When he reached the fence he saw the little Bob White in the hands of Farmer Brown's boy.

"Hello!" exclaimed the hunter, in surprise. "I guess that's my bird!"

"I guess it's nothing of the sort!" retorted Farmer Brown's boy.

"Oh, yes it is," replied the hunter. "I shot it a little while ago, but it got away from me. I'll thank you to hand it over to me, young man."

"I'll do nothing of the sort," replied Farmer Brown's boy. "It may be the bird you shot, more shame to you. But it isn't yours; it's mine. I found it on our land and it belongs to me if it belongs to any one."

Now the hunter was tempted to reply sharply but remembering that he wanted to get this boy's permission to hunt on Farmer Brown's land he bit the angry reply off short and said instead, "Why don't you wring its neck? If you'll get your father to let me shoot on your land I'll kill another for you and then you will have a fine dinner."

Farmer Brown's boy grew red in the face. "Don't you dare put your foot on this side of the fence," he cried. "I'd have you to know that these Bob Whites are my very best friends. They've worked for me all summer long, and do you suppose I'm going to let any harm come to them now if I can help it? Not much! Look how this poor little thing is suffering. The law lets you hunt them, but it's a bad law. If they did any harm it would be different. But instead of doing harm they work for me all summer long and then when the crops which they have helped us save are harvested we turn around and allow them to be shot! But they can't be shot on this land and the sooner you get away the better I'll like it."

Instead of getting angry the hunter laughed good naturedly. "All right, I'll keep off your land, sonny," said he. "But you needn't get so excited. They're only birds and were made to be shot."

"No more than you were!" retorted Farmer Brown's Boy. "And they've got feelings just as you have. This poor little thing is trembling like a leaf in my hand. I'm not going to wring its neck. I'm going to try to cure it." With this Farmer Brown's boy turned his back on the hunter and started for home. And the poor little Bob White, not understanding, had no more hope than before.

THE WHY of SUPERSTITIONS
By H. IRVING KING

COMPANY ON MONDAY

IF YOU have company on Monday you will have company every day during the week. As perhaps you know, for this superstition is general throughout the United States. It arises from that impulse in man, as old as the race itself, to "seek for a sign" at the beginning of any new enterprise, or the beginning of a new epoch or specified division of time; to "pierce the veil through which we may not see." The savage seeks for a sign from his medicine man before setting out on the warpath, and for this, when the Grecian fleet lay becalmed at Aulis ready to sail for the plains of Troy, did Iphigenia see around her the "stern black-bearded kings, waiting to see her die." And the Roman Augurs sought not only for a sign "when the eagles marched to Rimini" but at stated intervals forecast the welfare of the Roman people.

A new enterprise, a new week, must have a sign at its commencement. Though Sunday is really the first day of the week in practice we regard Monday as the week's beginning; and something innate in us makes us regard a happening at the beginning of anything as a prognostic. If you have company on Monday it is "a sign" that you will have company every day of the week.

In some sections of the country people say that if you have company on Sunday—not Monday—you will have company the rest of the week. These people might be called the "strict constructionists."

GABBY GERTIE

Prosperity appears to be smiling on some members of the so-called submerged races. An official of the Hudson's Bay company reports to Country Home that there are several Eskimo families on its books who make upward of \$40,000 a year from the sale of white fox furs.

Their income is no more remarkable than some of their ways of spending it. Each of these aristocratic Eskimo families, for instance, buys coal at \$300 a ton. They spend equally large amounts for radio equipment and airplane rides.

How It Started
By JEAN NEWTON

"FISHING WITH A GOLDEN HOOK"

TO FISH with a golden hook is to fish for more than mere sport. It is usually fishing with a sinister motive, fishing with the idea of looting a treasury, exploiting a franchise, mauling a citizenry.

So, fishing with a golden hook, which is a euphemism for offering a bribe, has been in our language a long time.

While we find its earliest recorded use in English in Arthur Brook's "Tragic History of Romeus and Juliet" published in 1582, the metaphor originally appeared in the work of the Roman historian, Suetonius, particularly in his De Vita Caesarum; Augustus Octavianus.

2:00 p. m.—Sunday School.
3:00 p. m.—Preaching.
Services are held every Sunday. Everyone is cordially invited to attend.

Just a few shots left of those deals of 7 big bars of toilet soap for 27c. A good one for Saturday night. East Jordan Lumber Co. adv.

Furniture Repairing and Upholstering is our specialty. Phone us and we will call for and deliver your work. Fix It Shop, phone 1, Boyne City. adv.

Mrs. A. Walstad who has spent several months with her son, Harry and family at Charlevoix, returned to her home here Tuesday.

Merle Crowell and Mrs. Gwendolyn Crowell, both of this city, were re-married at their home, the Giles residence on Third St., Wednesday evening, May 20th, by Rev. James Leitch, pastor of the M. E. Church.

Era Barnard, 80 years of age, died at the County Infirmary, May 18th. Funeral services were held from Watson's Funeral Parlors, Sunday afternoon, conducted by Elder Leonard Dudley. Interment at Sunset Hill. A son, Frank Barnard of LaPorte, Ind., was here to attend the funeral.

Briefs of the Week

Victor Heinselman of Kalamazoo is visiting at the home of his aunt, Mrs. Pat. McKinnon.

A nice variety of articles for graduation gifts for boys, at moderate prices, at Bill Hawkins. adv.

Mrs. Frank LaLonde is at Petoskey Hospital this week, where she had her tonsils and adenoids removed Monday.

Mrs. Wm. Anderson and Mrs. Bryon Babcock of Paw Paw visited at the R. P. Maddock home last week.

Mrs. R. O. Bisbee is here from Jackson for a visit with her parents, Mr. and Mrs. W. P. Porter and other relatives.

A W. C. T. U. meeting will be held at the Russell Hotel next Tuesday afternoon at 2:00 o'clock. Everybody invited.

Regardless of the copious rain, we are selling a lot of that good Good-year Wingfoot Hose at the Lumber Co.'s Store. adv.

Mrs. W. F. Worth of Onaway and Mrs. Carl Worth of Moran were guests at the home of Mr. and Mrs. R. P. Maddock the past week.

You can get a ball bearing, self adjusting, four blade Lawn Mower at the Lumber Co.'s Store for only \$7.95, which is just about \$3.00 less than a year ago. adv.

Mr. and Mrs. Anthony Kenny with son, Clement, and daughter, Miss Anna, expect to leave this Sunday for Muskegon, where they will attend the graduation exercises of their daughter, Marie, from Mercy Hospital, May 26th.

Due to the rain last Tuesday evening, the Baseball meeting scheduled for that date, was postponed until Monday evening, May 25th at 7:30 o'clock, rain or shine. In case of rainy weather the meeting will be held in the dining hall at the Tourist Park. If the weather permits, it is planned to lay out a playing field, but if the meeting has to be held indoors, the kind of organization and schedule of games will be decided upon.

Early Monday morning the garage and filling station that was so recently built by the Light Brothers, was destroyed by fire. The Atwoodites sure regret that the place burned, because it was the beauty spot of the town and the Light Bros., had received many comments on the beauty and neatness of the place. A passing motorist gave the alarm through the town and efficient service rendered by fire departments and hosts of neighbors and other folks that answered the general alarm given, saved the town, as a strong wind was blowing and for a time the surrounding buildings were dangerously threatened. We sympathize with the Light boys in their loss as they had put many hours of hard labor into the place to make it what it was.—(From Atwood correspondence in The Ellsworth Tradesman.) The Light Bros., George D., and Oscar of East Jordan, plan to re-build at once. The East Jordan Fire Department responded to the call.

Hudson—Two boys were drowned in a cistern on the Philo Brooks farm, two miles east of Hudson. They were Ross Depp, 8 years old, son of Rex Dopp, of Prattville, and George Osborne, 15, grandson of Mr. Brooks. The boys were playing on a strawstack that had covered the top of the cistern several years, when the wooden cistern top gave way, plunging them into the water. Their bodies were found about two hours after the accident.

Mt. Clemens—Gravel roads in front of homes throughout Macomb county will be sprayed with a light road oil to eliminate the dust nuisance, at least as far as 100,000 gallons of this special light oil will go. The Macomb county road commission has advertised for bids on the oil. A small quantity of the oil was purchased and placed on a road for experimental purposes. It was found satisfactory. The county highway system comprises 180 miles of gravel roads.

Detroit—With the center span of the Ambassador bridge as a setting, a marriage ceremony, believed to be unique throughout the world, was performed here. The principals were Miss Emily Hunt, 31 years old, of Windsor, Ontario, and Reginald A. Crudge, 40, of Detroit. Because of immigration laws the bride is not allowed to enter the United States, the quota under which she is classed being full. The wedding, however, is expected to clear up the legal difficulties.

Lansing—Frank D. Fitzgerald, secretary of state, informed motorists applying for drivers' licenses under the new Brady-Campbell act that any fees above \$1 are for their local units of government and are not contemplated in the act itself. He said: "I am making this statement because I want the public to understand that the secretary of state's office has had nothing to do with the present unjust conditions, under which motorists in some communities get their licenses for \$1 each, while those of other communities are obliged to pay \$1.25.

The Lutheran Ladies Aid will meet with Mrs. Ole Omland, Thursday, May 28th.

Mr. and Mrs. Lyle Persons and family are moving into the residence of Mrs. Samuel Ramsey.

Mr. and Mrs. Percy Weiler and Mrs. Joe Weiler and children were Gaylord visitors, Monday.

Richard Bishaw is at Petoskey Hospital, where he underwent a major operation, Thursday.

Mrs. Mattie Miles who has visited relatives in Arkansas for several months, has returned home.

Saturday will be a good time to get 4 lbs. of nice yellow bananas at the Lumber Co.'s Store. adv.

Elder Byron Doaty of Traverse City will preach at the L. D. S. Church Sunday night, May 24th.

A new line of boy's Shirts, 50c; boy's Blouses, 59c; boy's Bear Brand Hose, 25c, at Bill Hawkins. adv.

James Weiler left Monday for Cleveland, where he will sail on the Str. Penecost Mitchell this season.

Mrs. A. L. Hilliard has returned to her home here, after an extended visit with her daughter at Lansing.

Mr. and Mrs. H. Depeel and family of Kalkaska visited her parents, Mr. and Mrs. Wm. McPherson, Sunday.

Mr. and Mrs. Forsyth and son of Davidson were here this week to attend the funeral of her brother, H. C. Clark.

Mr. and Mrs. Frank McPherson and family of Elberta, Mich., visited his parents, Mr. and Mrs. Wm. McPherson over the week end.

Mr. and Mrs. Arthur Shepard and family of Midland were called here this week by the death of the former's father, Stephen Shepard.

Mr. and Mrs. Frank Votruba with son, Will and wife, of Traverse City were here Wednesday to attend the funeral of the former's brother-in-law, Stephen Shepard.

Junior (to graduating Senior): Well, so long, Jim—have a good vacation.

Detroit—The Village of Inkster will be without lights and police protection for at least two, and perhaps five years. The action was taken as an economy measure by which it is hoped to re-establish the credit standing of the village, which at present is in debt \$30,000 to banks and the Detroit Edison Co. The Detroit Edison Co. is holding village notes for payment of electric lighting for the last six months.

Lansing—Dr. Richard Root Smith, nationally known surgeon of Grand Rapids, was appointed by Governor Wilber M. Brucker as a member of the board of regents of the University of Michigan, to fill the vacancy caused by the recent death of Dr. Walter H. Sawyer, of Hillsdale, who had served for 26 years. Politics were disregarded by Brucker in making the appointment. In that connection Dr. Smith is an unknown.

Novi—Edward F. Dunka, farmer who lived near Wixom, was killed when struck by an automobile while he was walking on Grand River road, near here. The automobile was driven by Miss Catherine Magas, Highland Park. Dunka's truck previously had collided with one driven by Oscar C. Cronk, of Detroit. Neither man was injured in the crash. After the accident Dunka started walking down the center of the road.

Cheboygan—The work of planting 75,000 pine seedlings along State highways in Cheboygan County has been started by Jack MacAlpine, county superintendent of State highway maintenance. To minimize the danger of the trees being stolen by Christmas tree hunters, he plans to have the branches on the side away from the road removed. The roadside beauty will not be impaired, but the trees will not be suitable for Christmas purposes.

Broad Jump, White, BC; Sweet, F; Wilson, S; Sommerville, EJ. Distance, 20 ft., 8½ in.

High Point Man, White, Boyne City, 18.

Children's Fund of Michigan

ANNUAL REPORT OF THOSE IN CHARGE OF THE COUZEN'S FUND.

Two years ago Senator Couzens appropriated ten million dollars to use to promote the health, happiness, welfare and general development of children in Michigan primarily, and elsewhere in the world. This fund was named the Children's Fund of Michigan, and the Trust required that the Secretary give an annual report.

The second annual Secretary's report of the Children's Fund shows the vast amount of work that is being carried on by this organization among the children of Michigan.

During the second year of the Fund's existence (April 30, 1930 to May 1st, 1931) appropriations were made of \$1,166,024.48. The work has centered in four major divisions: Child Health, Child Guidance, Research and Dependency. Of these the Child Health Division under the direction of Dr. Bernard W. Carey has received the greatest emphasis, there now being 103 workers in different sections of Michigan. They examined and directly helped something over 150,000 children during the year and indirectly influenced many more.

Dental Program

The largest volume of work was done in mouth hygiene by the staff of 22 dentists and four oral hygienists administering to the dental needs of the children of 35 counties in Michigan, and two suburban districts in the Detroit metropolitan area. In granting dental services, the requirements have been that there should be a county nurse, or some other nurse, working in the county to assist the dentist, and to follow through his recommendations; that operating space should be provided; and that a committee of responsible people should be found to advise and cooperate with the dentist sent to the county. Going from school to school inspections were made of the children's teeth. Those in need of correction were referred to local dentists, unless they were indigent, in which case the Children's Fund dentist made the needed corrections.

The regular staff made 73,471 examinations, gave prophylaxis to 17,558 children, inserted 42,870 fillings, and made 21,070 extractions.

This work was augmented during the summer months by a special relief program limited entirely to indigent children, in 10 additional counties. 8,845 children received this attention.

County Nursing Program

The county nursing program through which the Children's Fund gives the services of a public health nurse for child health purposes to certain counties hitherto without such services has not changed materially in this second year, except in size and volume of work. Thirty-three nurses are now in the service of the Children's Fund, and at work in 32 counties. County committees of local citizens are an important part of this work. Through their knowledge of child health practices is spreading widely.

While school health still holds the major position in the program, the importance of prenatal instruction and medical supervision, as well as of the proper feeding and care of infants and preschool children, is being recognized.

Inspections given school children have numbered 40,439. Visits numbering 16,006 have been made in the interest of infants, preschool and school children.

Consolidated County Health Units

Two consolidated county health units have been added to the two established last year. Unit No. 3 consists of the counties of Emmet, Charlevoix, Antrim and Osego. Unit No. 4 consists of the counties of Cheboygan, Presque Isle, Montmorency and Alpena.

The purpose of the Consolidated County Health Unit is to show that it is practicable for counties with limited taxable resources to unite in a health district for the welfare of their children. Supervisors of each co-operating county vote to join a health district and appoint two or three of their members to a district board of health. The Children's Fund finances a staff composed of a

Health Officer, the needed number of nurses, a dentist, and a sanitary inspector. This staff attacks the problem of child mortality and child morbidity all along the line. Inspection of school children, mouth inspection, improvement in sanitary conditions of schools, of water and milk supplies, control of communicable diseases, and attention to individual needs of individual children are among the things done.

Assistance and support from the district boards of health has been extremely encouraging. Milk ordinances have been under consideration by several communities, and in one instance, has been adopted.

Infant and Prenatal Classes

During the first half of the year the two women physicians engaged in this program, held mother's classes in series of six weeks each including as topics, prenatal care, infant care, the preschool child, food for the family, child management and training, and home hygiene.

In October a new type of program was introduced which combined mothers' classes and health examinations, and lengthened the period of service of the health educationist to three months in a county. The new program has included work in tuberculin testing and in immunization.

The physicians have worked in 12 counties during the year. In addition to reaching directly 3,000 children, they have conducted 865 classes with a total attendance of 5,793.

Program for the Correction of Visual Defects

Finding that many children in the more sparsely settled rural regions have defective vision, not likely to be corrected, which handicaps them in school and in life, the Children's Fund has engaged a staff of ophthalmologists, who go from county to county examining children's eyes, and prescribing the needed corrections. The program has been in operation for about seven months. During that time 1,586 children have been examined, and 1,005 pairs of glasses procured.

Northern Michigan Children's Clinic

During the year now closing the Northern Michigan Children's Clinic Building has been in the process of construction on land leases from St. Luke's Hospital, Marquette. The building is now completed and will begin its services to the children of the Upper Peninsula in May. This project represents a co-operative undertaking involving the University of Michigan Post Graduate Medical Department, St. Luke's Hospital and the Children's Fund. The University will furnish specialists in medical and surgical treatment of children's diseases, who will not only treat sick children brought in from all parts of the peninsula by the county and city nurses, but will also instruct the practitioners of the area in the special skills needed to treat special diseases. The Clinic is designed to bring to the children of remote places the same services that are now available to children in the larger urban centers through the out-patient clinics so well known there.

District Health Unit No. 3, composed of the Counties of Antrim, Charlevoix, Emmet and Osego, was established on November 13, 1930. Since that date services of the staff of the Health Department have reached 185 schools. Over 5,000 health inspections have been given to school children by the nurses. Three thousand seven hundred nine physical examinations have been made by the Health Officer. Four hundred sixty-eight visits were made by nurses in the interest of mothers and children. Two hundred forty-six children have been immunized against diphtheria. The dentist in the district has made 1,539 examinations, inserted 494 fillings, extracted 484 teeth and given prophylactic treatments to 80 children. The sanitary officer has made 176 inspections of school buildings, milk and water supplies, excreta disposals, and other sanitary problems.

Heroine Decorated

Annetta Brenneman, aged nineteen, of Factoryville, Pa., who has been awarded a bronze medal by the Carnegie hero fund committee for risking her life in saving Frank P. Demeck, aged twenty, from drowning in Lake Sheridan. Although Demeck weighed 175 pounds and Annetta weighs but 112, she dove into the lake and brought him ashore after he had lumped his head on the bottom of a canoe when coming up from a dive and sank again.

"Think!"
"What?"
"What a hard time two cross-eyed people would have looking each other in the eye."

COLT BREAKING AND MULTIPLE HITCH DEMONSTRATIONS

Many farmers dread colt breaking more than anything else connected with farming. Often colts are not properly trained and cause much trouble thereafter. Yet it is rather a simple job if a regular colt breaking system is employed.

If you are interested in seeing a colt broken in a very few minutes, and actually pulling a wagon, come to the following demonstration and see H. F. Moxley, Specialist of Michigan State College show you his system.

The colt breaking demonstration

will be conducted at the Beauty Point Farm, next to the Ironton Ferry on Wednesday, May 27th, at 2:00 in the afternoon.

Also, at the above place several multiple hitch demonstrations will be shown, using four, five and six horses. On many farms that are not adapted to the use of tractors, horse power can be used to better advantage by these combinations. Come to this meeting and see the multiple hitch demonstrations and the unbroken colts subdued.

From the Federal Census our horse population has been steadily decreasing from year to year. Very soon there will be a severe shortage of good farm horses to be found. Why not raise one or two colts to replace your older horses? Don't worry about how to break colts, just come

to the demonstration at Beauty Point Farm and see a system that works and one that you can employ.

B. G. MELLENDAMP,
County Agr. Agent.

IN MEMORIAM

In loving memory of our father, Lewis Williams, who passed away May 24, 1929.

When the Comrades have departed, when the Veterans are no more, when the bugle call is sounded on that everlasting shore, when life's weary march is ended, when the Camp-fires slumber long, who will tell the world the Story, when the "Boys in Blue are gone?"
Mrs. S. G. Thompson.

"Mrs. Jones Had On a Wonderful New Dress"

THE Mrs. Jones we're talking about is the sort of woman who, in spite of only moderate means, is always well dressed . . . whose home is furnished with exquisite, though not extravagant, taste . . . whose table is frequently graced with some appetizing new food product . . . whose housekeeping equipment, kitchen requisites, all seem to have been chosen with rare good judgment.

Mrs. Jones is an observant woman. A well-informed woman. A keen judge of values. A careful buyer. She reads the advertisements in her favorite newspaper.

Whatever is new or improved is the realm of merchandise, Mrs. Jones most likely knows all about it. She reads the advertisements.

Whatever store is putting on an unusual sale, Mrs. Jones has probably heard about it. She reads the advertisements.

Are you Mrs. Jones? Or a woman like her?

To get the newest, the best and the most for your money . . . read the advertisements.
