EAST JORDAN, MICHIGAN, FRIDAY, OCTOBER 16, 1931.

NUMBER 42

C. of C. Hold Road Meeting

WORK ON M-66 TO BE STARTED IN NEAR FUTURE.

Perhaps one of the best Chamber of Commerce road meetings ever held in East Jordan took place Wednesday night at the Russell Hotel. Ten or twelve Mancelona road enthusiasts, along with some twenty local Chamber of Commerce members, Herman Meyers of Boyne Falls, and A. L. Burrige, Division Supt. of the Northern Michigan Road District met.

The principle topic of discussion was M-66 which may soon be East Jordan's main outlet. Nothing in the immediate future is more important to East Jordan than that this road be completed. It has necessarily long been delayed. Other roads of Antrim County have received the preference. This may have helped to delay 66 to East Jordan for one county can not get more than its due share of the roads. Antrim County happens to have 131 and 88. It has been difficult for Mr. Burrige and others interested in 66 to put over the proposition at the Capitol. But according to Mr. Burrige Wednesday evening it is expected that construction will be started on 66 in earnest before the first of the year.

With the closing of the Antrim Iron Company and all of its logging camps, L. S. Baldwin, Supt. of the Antrim Iron Co., stated Wednesday night that nearly 800 men were thrown out of employment. Most of them had acted as though they had lost their parents. Therefore it turned out that at the present time Mancelona is vitally interested in immediate construction of 66 in order to relieve the critical labor situation at the latter place. Mr. Burrige was one of the speakers called upon by the acting President of the local Chamber of Commerce and gave a picture of the need of the road for employment reasons. This is directly in keeping with the State road men's plans. Mr. Burrige particularly insisted that as many men be employed as possible even in the face of less efficiency, for the employment situation the next six months is a problem which must be faced.

F. C. Priest of Mancelona also addressed the audience on financial conditions of Antrim County. Sid Medalie, President of the northern Michigan Road Commissioners gave an interesting talk on the question of the State taking over township roads. He said that Antrim County was to receive twenty-one thousand dollars this year to help on the township roads. Charlevoix, eighteen thousand dollars which was only five thousand less than the total amount paid by the County in road taxes. A fund of two million dollars for the purpose of taking over one-fifth of the township roads is to be distributed this year. A week ago between nine and ten thousand dollars was appropriated by the administrative board and borrowed in Detroit by Gov. Brucker and Dillman to carry on a State-wide road construction program the coming year in order to help relieve the unemployment situation and at the same time carry on a very necessary road program. Another interesting fact was that no contractor can pay his men less than 35c an hour. On top of that 75% of all the men employed must be from the County in which the road is being built. It therefore behooves the local Chamber of Commerce to check up on the unemployed men in order that the 25% allowed for 66 beyond Antrim County border may be supplied from East Jordan which necessarily and logically should for the other 25%, with the exception of a few foremen which the contractor may carry with him.

Herman Meyers was the first speaker called upon and as usual gave a mighty interesting talk on the road situation. William Stroebel as an East Jordan representative enthusiast and chairman of the local road comm. of immediate construction on 66.

A. L. Burrige appreciates East Jordan's need and is and has been doing all possible to get 66 constructed. He assured the men that although 66 has been delayed it has been carefully surveyed and will be one of the finest roads ever built in Michigan. He said that East Jordan's greatest asset was her picturesque country. That this was kept in mind in surveying the road. Therefore we can look for an early construction on our much talked of outlet; namely 66.

The local Chamber of Commerce was disappointed that their friends from Charlevoix did not make their appearance.

In the absence of A. K. Hill, Supt. of Schools, A. J. Duncanson took charge of the meeting and called on the above men. Thirty-five men sat down for dinner.

COUNTY COUNCIL OF RELIGIOUS EDUCATION MEET MONDAY

The annual meeting of the Charlevoix County Council of Religious Education will be held at the Methodist Church in Charlevoix, Monday, Oct. 19th, beginning on central standard time.

PROGRAM

2:00—Devotions, Rev. W. W. Hurd
2:30—Address, "Objectives in Religious Education," Rev. C. W. Sidelbotham. Discussion led by Rev. Paul Boadagh.

3:15—Address, "Music in the Sunday School," Mrs. G. Russell Parker. Discussion led by Rev. W. H. Rauch. Special music, Misses Terrill and Gest

4:00—Address, "Needs of our Youth," Supt. A. J. Duncanson. Discussion led by Rev. G. E. Smock.

4:45—Business. Reports of officers and committees. Election of officers, and other business.

5:30—Fellowship Supper. Young Peoples Rally in connection directed by Rev. E. P. Linnell.

Evening Service

7:15—Song Service led by Mr. Harker Kirby. Devotions, Rev. Jas. Leitch. Special Music, Boys' Glee Club, directed by Albert Rider. Address, "Religious Education and American Democracy," Dr. James King, Pres. Olivet College. Offering. Closing Song. Benediction, Rev. Marvin Jewell.

Every Sunday School is urged to send a good delegation. A penant will be presented to the largest delegation of young people present from any Sunday School.

Meeting of PTA Great Success

HARVEST-HOME SUPPER HONORS FACULTY.

Thursday night, Oct. 8th at the High School the first evening meeting of the Parent-Teacher Association took the form of a Harvest-Home supper and provided an excellent opportunity for many parents to meet the new teachers and welcome those who had returned.

Tables were very attractively decorated in keeping with the season and were loaded with good things to eat. Hollow pumpkins were glorified from their common use and served as vases for bouquets of gorgeous fall flowers. Autumn leaves outlined the centers of the tables. Mrs. Ellis, Mrs. Ira Bartlett and Mrs. Vogel were responsible for this effective decoration.

The program for the evening was arranged by Mrs. Kitsman and her committee. Toward the close of the meal John Seiler led the company in the singing of some old-time rounds. The main program then followed with two very enjoyable violin solos by Wm. Webster, accompanied by Miss Irene Bashaw. Mrs. Smatts, as President of the organization gave an address of welcome to the teachers. Mr. Duncanson then introduced the teachers, each of whom spoke briefly. Two other musical numbers were enjoyed, duets by the Misses Kenny and two songs by the Men's Quartet. Mrs. Kitsman delighted her audience as usual with the reading of two of her own poems. Mrs. Mattie Palminter read a poem written especially for the occasion by Mrs. Kitsman. Such a varied program was appreciatively received.

One cannot begin to name the individuals who worked so wholeheartedly to make this evening a success, but to Mrs. John Porter and her refreshment committee should go a lot of praise. The hours of work that went on before and after the event itself were more than repaid by the results they brought forth.

The teachers wish to express their appreciation to Mrs. Smatts and her co-workers. It was estimated that about 200 in all were present, and the spirit of enthusiastic, friendly co-operation was most gratifying.

NOTICE!

EAST JORDAN & SOUTHERN RAILROAD COMPANY, hereby gives notice that on September 25, 1931, it filed with the Interstate Commerce Commission at Washington, D. C., its application for a certificate that the present and future public convenience and necessity permit the abandonment of its railroad which extends from East Jordan to Bellaire, a distance of 18.6 miles, all in Charlevoix and Antrim Counties, Michigan.

EAST JORDAN & SOUTHERN RAILROAD COMPANY

The greatest distress this winter will be among the laborers in the crowded cities. Farmers may be broke, but they at least have something to eat.

Harbor Springs Falls To Fast Going Locals

Bradley or no Bradley, East Jordan Would Be Too Strong For Traverse Bay Outfit.

Continuing the form shown from the beginning of the season, East Jordan easily scalped Harbor Springs. For a time Harbor made it a real football game, but the locals out-classed them in every department of the game and seemed to go stronger as the game progressed. They scored a touchdown in the middle of the first quarter and kept Harbor on the defense nearly all the first half, then they started to steam-roller Coach Quinn's boys from then on. Howard Sommerville on an end run with a couple of passes scored, a long end run by Heinzelman ran across for the third marker in the beginning of the fourth quarter. A little later on in the quarter, Sommerville on the 30 yard line intercepted a pass for the final marker and left East Jordan a top heavy score of 25 to Harbor's nothing. The first score was made after Hignite made a nice return of a punt, East Jordan's passing and end running to the Harbor 10 yard line where LaLonde then plunged the rest of the distance for the touchdown.

The game was marred by an unforeseen incident which might have caused strained relations between Harbor Springs and East Jordan. James Bradley, one of the half backs of Harbor Springs was not allowed to play, due to the fact that Harbor Springs did not apply to the State Athletic Association in time to have his status clear. Thursday, Mr. Duncanson in talking with C. E. Forsythe, Assistant to A. W. Thompson, after inquiring about Bradley's status it was suggested by Mr. Forsythe that East Jordan had no cause to worry about James Bradley, because inasmuch as he was not on the eligibility list and they did not know whether or not he was eligible and were in the process of looking him up, the State Association asked him to be withdrawn until the final disposition of the case. Mr. Duncanson inquired the second time whether Bradley was declared eligible or not, he could not play in the East Jordan game. Mr. Forsythe's statement was, "That is correct." The fact is Harbor Springs sent their eligibility list last year signed by the school authorities which stated that Bradley was playing his fourth season in football. The master list this fall showed that this fall would be his fourth season in football. When this was discovered East Jordan and three or four other schools took the matter up with Mr. Thompson and Forsythe. During this doubtful period Bradley was, of course, out of the game and East Jordan rightly insisted that he was, after the above word from C. E. Forsythe. However Harbor took it very seriously and in the second place made the mistake of having him in a suit on the team for the East Jordan game. The East Jordan school authorities, particularly the one necessarily responsible, Mr. Duncanson, did not allow Bradley to play, and was the butt of many indignities due to no fault of his but on the other hand, a blunder on the part of Harbor Springs. Mr. Duncanson called Mr. Forsythe Monday morning for the understanding he had with him and found that Mr. Forsythe stood exactly where he did the Thursday before. Saying that, "You were absolutely right in your stand." "Further stating that he purposely worded the telegram which Harbor Springs received Friday afternoon so that Harbor Springs would not attempt to use Bradley."

Of course many of the fans at Harbor Springs did not understand the situation and East Jordan in no way, least of all Mr. Duncanson, holds anything against the Harbor people. East Jordan really thinks that the Harbor Springs school may can not be blamed very much under the circumstances, for it would have been very much better had the telegram been withheld until after the game rather than to have had it come at such an inopportune time, to be brought up just before the opening of the game.

It is hoped that the matter is made clear in the Harbor Springs paper for the good of athletic relations between the two schools. Harbor authorities were uncertain about Bradley's status and finding a loop hole in the athletic rule where it states that a boy may have four seasons in each sport it was generally known that Bradley played four seasons in basketball, baseball, and track but not in football. But rather reliable information says he was hurt during the football season and did not make the team, apparently becoming eligible for the balance of the

School Fair Friday, Oct. 23

MUCH INTEREST BEING CREATED. SUPT. BUSCH WILL GIVE ADDRESS.

Certain rooms in the schoolhouse begin to take on the appearance of the exhibition held at a County Fair grounds because of the large number of displays being brought in.

Girls are beginning to rub the dust off the canned fruit they put up last summer, 4-H club members are busy selecting their samples, Agriculture students are wiping out the eyes of their best potatoes, etc., and Manual Arts students are polishing up the furniture they have made.

This is the first school fair we have had for some time, and everyone is more than willing to take part. The date of the Fair is Friday, Oct. 23rd.

The exhibits will all be set up in the Gymnasium. The evening program will be one of the outstanding features because we know you will be much interested in hearing what Gerald Busch, Supt. of Charlevoix Schools has to say to our students and their parents.

The following program has been arranged and we know everyone will find it more than just interesting.

PROGRAM

6:00—8:30—Inspection of Exhibits. Music by High School Orchestra.

8:30—8:45—Girls' Glee Club.

8:45—9:00—Awarding of premiums by the Judges—Supt. W. H. VanPetten, Bellaire; K. Ousterhout, Antrim County Agr'l Agent, Bellaire.

9:00—9:15—"Leave It to The Home Ec's."

9:15—10:00—Address by Supt. of Schools, Gerald Busch, Charlevoix.

season.

As for the game itself, there isn't any question about the strength of the two teams. East Jordan won 25-0 with between seven and nine subs most of the second half. No two men could have changed the results materially. Any number of fans on the side lines from other cities remarked that it would have made perhaps a touchdown difference in the game had Bradley been in, but there was no question about the final results.

East Jordan's work at Harbor Springs was similar to the story of the Charlevoix, Rogers City, and Frankfort game. The locals played an all-round bang up game. Good line plunging, fine end running and superior passing. The whole team worked with machine-like rhythm. The first half was largely a matter of keeping Harbor on the defense and as in other games, a wearing down process until the final punch could be put over. Harbor put up a mighty scrappy battle, at least in the first half and played a good game throughout. Francis was the all-round star of the Harbor team and proved to be a young gentleman of high order by congratulating every boy on the East Jordan team. This also can be said for William Corey.

There are very few teams that will take Harbor Springs into camp even without Bradley. Coach Quinn showed very good sportsmanship and altogether the Harbor Springs team played a fine, clean game as did East Jordan.

Heinzelman was one of the outstanding men in this game, as was also Hignite, Sommerville, LaLonde and the whole East Jordan line. Hignite's backfield running was one of the features. In the third quarter Hignite within a period of five minutes either on returning punts or end runs made a 35, 25 and 20 yard run. This is covering a lot of territory. His usual good judgment was par excellence and the blocking of this man Heinzelman was about as pretty a piece of football work as one will see anywhere.

A large crowd of fans, besides the Band motored to Harbor Springs to support the team. This Friday the stores will close at 3:00 o'clock to attend the Gaylord game which should be the turning point of the local season. Should they win this game, Cohen's men should be well on their way to the championship if the dope does not greatly belie the situation.

Score by quarters:

East Jordan	6	6	7	6—25
Harbor Springs	0	0	0	0—0
Referee, Tex Beuchen, Boyne City.				
Umpire, Karl Wile, Mancelona.				
Headlinesman, Cornell, Harbor Springs.				

Good advertisers know that writing an advertisement is a job that requires care, even if it is going to be inserted in The Charlevoix County Herald where results are almost certain.

Show the town you're alive and young in spirit. Advertise.

STANDARD OIL LAUNCHES BIG AD CAMPAIGN

Standard Oil Company of Indiana announced recently plans to carry out in the remaining months of 1931 the biggest advertising and sales campaign the Company has ever undertaken in so short a period.

Directors have decided that the way to end the trench warfare with depression is to go over the top in something resembling in a business way what a major offensive is in warfare.

Advertising is to lay down the preliminary and prolonged intensive bombardment of gloom and hard times. And as the barrage prepares the way, the foot soldiers of the sales organization are to follow with a determined onslaught to secure new business.

Introducing New Gasoline

The advertising campaign began October 9 and continues until the middle of December. The main ammunition will be introduction of a new gasoline which the Company has been making at refineries for some time and now has at distributing points ready for delivery, but about which the story is not being told in advance of the actual advertising.

Following a series of "teaser" ads the campaign will come out in force today with large announcements in 1,462 newspapers in the thirteen north central States in which Standard of Indiana operates. These newspapers have a circulation of 12,571,677 in a territory of 32,000,000 population where 8,371,750 cars and trucks are operating with a gasoline consumption of nearly five billion gallons a year. Follow-up advertisements will appear regularly in the following two months.

Newspaper Ads Main Reliance

The newspaper advertising which is to be the main reliance of the campaign, will be supplemented by advertising in trade, and class publications and national magazines, by radio announcements in connection with the broadcasting of the season's big middle west football games from WGN, Chicago, and by twice-a-day brief announcements on thirty-one radio stations in the territory served. Radio advertising will be used primarily to direct attention to the more extensive newspaper advertising. Copy will be changed on billboards, direct mail matter will be circulated, motion pictures will be shown, and practically all other usual forms of advertising will be employed in some supplementary way.

The States in which the gasoline advertising will appear and the number of newspapers to be utilized are as follows: Colorado 41; Illinois 228; Indiana 177; Iowa 191; Kansas 196; Michigan 141; Minnesota 146; Missouri 180; Montana 12; North Dakota 26; South Dakota 42; Wisconsin 146; Wyoming 26. On the basis of family coverage of 175 per cent it is estimated that the campaign will represent the equivalent of delivering 121,855,422 messages regarding the Company's products.

The advertising strategists have planned part of the campaign to appeal to women. Women motorists will be told why the new gasoline is a "gasoline for a lady."

"Proved" Motor Oils

While the concentration will be on gasoline advertising, to which the Company has devoted little of its funds previously this year, the extensive campaign on motor oils which has been in progress since last March will also be rounded out. In 130 of the leading newspapers of the territory the story of the "white fleet" of tests cars with which the Company's motor oils were tested this year will be completed, beginning Oct. 18.

A feature of the motor oil advertising will be use of color ads and rotogravure. Eleven of the largest newspapers will be used for this purpose.

"Proved" is to be the catchword of the campaign, and the advertising will tell how the oils were proved in the 120,000 mile continuous driving test on the Indianapolis speedway, in the 280,000 mile road tour of the summer months, which caused the cars to be seen by thousands in 450 towns and cities, and have now finally been proved for winter driving in a series of tests in cold rooms at automobile plants.

Gasoline and motor oil advertising together will appear in 1,594 newspapers with a combined circulation of 20,737,235 and the total number of messages for both campaigns will run in the neighborhood of 154,517,614.

The gasoline advertising is being placed through the Stack-Goble Advertising Agency, the motor oil advertising through the McCann-Erickson Company, and the direct-mail campaign is in the hands of the Dosch-Kircher Company.

One of the strange facts about intelligence is that the more you have the less you think you know.

Ninth Annual Potato Show

FINE PROGRAM ARRANGED FOR GAYLORD EVENT.

The Top O' Michigan Potato Association has arranged a very attractive program for those who attend its ninth annual show at Gaylord during the three days beginning Wednesday, Oct. 28th.

The very first day opens with speakers that everyone should hear. H. A. Berg of the Michigan State College will discuss "Cost Factors in Potato Production." Stanley Johnston, Superintendent of the South Haven Experiment Station will talk about "Small Fruits for Northern Michigan." P. R. Miller of the Michigan State College will discuss "Alfalfa Seed Production."

The women will have a special program on Wednesday, with Miss Mary Iford, club leader in charge. Miss Margaret Harris of Marquette will appear on this program and conduct a potato cooking demonstration. Miss Muriel Dundas of the Michigan State College will talk about "Practical Nutrition."

The certified seed growers will hold their annual luncheon on Wednesday noon with John Tucker of Ottawa, Canada as their main speaker.

On Thursday forenoon the junior program will be held. Speakers on this program include Prof. Glenn Schonhals of Onaway and Prof. E. R. Austin of the Michigan State College. Thursday afternoon the general program will continue with O. B. Price of the New York Central Lines discussing the Agricultural Progress of Northern Michigan.

John Tucker of Ottawa, Canada, will tell the potato growers of this region what the Canadian farmers are doing in potato production. J. J. Bird of the Potato Department, Michigan State College, will talk about "The New Standard for Commercial Potatoes."

On Thursday evening at 6:30 the annual banquet and program will be held with L. S. Baldwin of Mancelona as Toastmaster.

A big time is in store for everyone.

B. C. MELLENCAMP, Secretary.

CAN IMPROVE MARKET PRACTICES ON BEANS

Better sources of market information, a different grading system, and an aggressive effort to recover customers lost to producers of other districts are three of the recommendations for the betterment of market conditions for Michigan beans made by the economics department of Michigan State College.

These findings are the result of an investigation made recently by Prof. W. O. Hedrick, who made study of the business methods employed by all types of Michigan bean elevators, and who states that the number of elevators in some sections in this State is too great to permit efficient marketing practices.

Farmers usually depend upon the person who buys their beans to furnish them with market information, Prof. Hedrick says, and he concludes that it is not always an advantage to the farmer to depend upon such sources for market reports.

Adoption of the federal bean grades in place of the Michigan grades is recommended because these grades would be more acceptable to consumers of Michigan beans, according to the Michigan State economist. The grades in use at present are set by the jobbers who sell beans.

A complete discussion of the Michigan bean marketing system will be contained in Special Bulletin No. 217, written by Professor Hedrick, to be printed in a short time by Michigan State College.

Considerate of Her

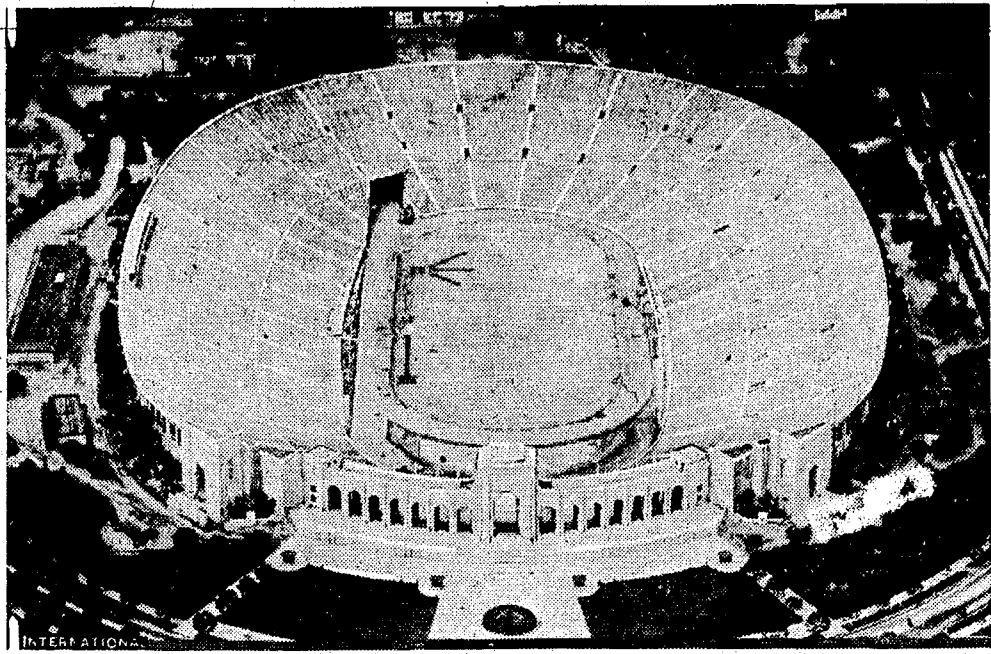

First Chorine—Did you tell anybody of your secret marriage?

Second Ditto—No, I'm waiting for my husband to sober up—I want him to be the first to know.

ONE DOSE GERMAN REMEDY ENDS GAS

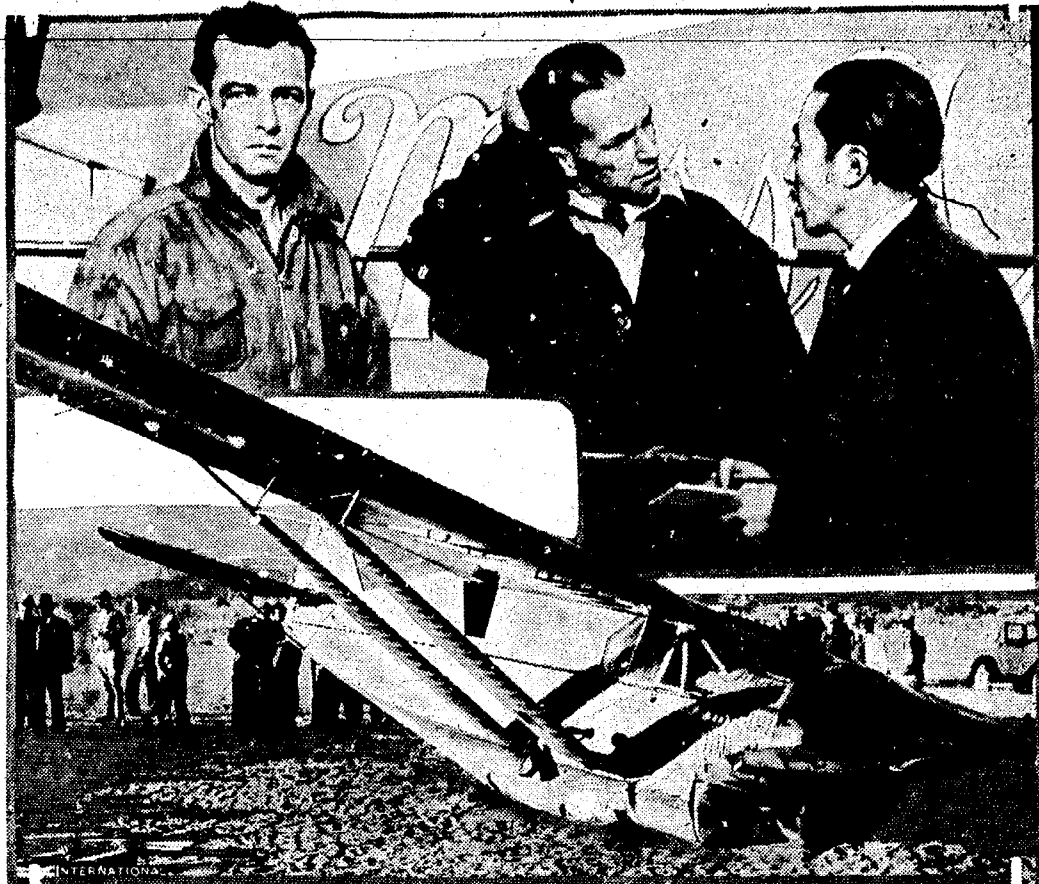

"I was sick and nervous with indigestion and stomach gas. One dose of Adlerika helped. I eat anything now and sleep good."—Henry Dodd. You can't get rid of indigestion or gas by just doctoring the stomach. For gas stays in the UPPER bowel. Adlerika reaches BOTH upper and lower bowel, washing out poisons which cause gas, nervousness and bad sleep. Get Adlerika today; by tomorrow you feel the wonderful effect of this German Doctor's remedy.—GIDLEY & MAC, Druggists.

Stadium Enlarged for the Olympic Games

Here is the first aerial picture of the reconstructed Olympic stadium at Los Angeles, where the athletic events of the Olympic games of 1932 will be held. The changes have raised the reserved seating capacity from 80,000 to 105,000 by adding a complete new rim section to the gigantic bowl. The new wings added to the peristyle, in front of which will be the Presidential box and loges of visiting foreign dignitaries, are also shown in the picture, with the tunnel through which the opening pageant of athletes will enter shown in the left rear of the field.

End of the First Nonstop Transpacific Flight

Below is the plane in which Herndon and Pangborn made the first nonstop flight across the Pacific as it stood at Wenatchee, Wash., battered by its wheelless landing. Above are seen the two intrepid flyers receiving a \$25,000 check from a representative of the Tokyo paper Asahi.

Gold Mine Fable Rudely Shattered

Many Lives Lost in Hunt for "Lost Dutchman."

Phoenix, Ariz.—Iconoclasts of Arizona's arid lands have directed their talent against one of the state's choice legends—that of the "Lost Dutchman" gold mine of Superstition mountain.

Arizonans have believed generally for more than fifty years that the rugged hills of Superstition contained a mine of fabulous value which was found and lost years ago by a Dutchman.

Little interest to the story is an Indian legend of wrathful Apache gods, who got those entering the deep and twisting canyons of the mysterious range of central Arizona.

Iconoclastic prospectors, having searched long and hard this summer for a lost amateur prospector, who sought to find the mine, now insist there isn't and never was a "Lost Dutchman" gold mine.

According to the most popular version of the "Lost Dutchman" story, a Dutch prospector would come from the hills, back in the pioneer days, with gold-laden bags.

"Twenty more where this came from," the Dutchman would say as he tossed a bag of dust on the bar. It

was presumed he referred to a mine. He always had gold, but no one knew where it came from.

Now the doubters are insisting that half of the world's gold seekers would toss their last bag of dust on a bar with the same optimistic remark; that the statement proved nothing.

Came a day when the Dutchman ventured again into the hills, which Apaches say men should not enter, and disappeared forever. That launched the first "Lost Dutchman" mine hunt and it has continued at well-spaced intervals ever since. At least a dozen lives have been lost in seeking the mythical mine.

The last victim was A. Ruth, sixty-five-year-old government employee, of Washington, D. C. From somewhere

—probably a confidence man—he had obtained a map of the mine's alleged location and in it he had faith, although possessed of scant prospecting ability.

Into the hills Ruth ventured, and from them, in keeping with Apache tradition, he never returned.

A reward offered by the man's family stimulated search. The best of mountain men led the hunt. Clues they found, but no definite trace of Ruth's body. Apache gods and the "Lost Dutchman" had claimed another victim.

Despite the minute search, no sign of a gold mine was found. Airplanes flew over the ranges and pictures were taken, but nothing was uncovered to indicate that a mine had ever been worked and abandoned.

Italian Priest Learns to Fix Leaning Towers

Genoa.—Don Piccaro, Italian priest, has developed a side line in which he has no rivals. In his spare moments he is a church tower and belfry straightener. He has just finished bringing the belfries of the parish churches of Monerago and Santo Stefano d'Aveto back into line.

Don Piccaro, assisted by two or three workmen, digs a trench around the base of the tower to be straightened after first securing the top with steel stays or ropes. He drives a number of steel wedges into the sides of the trench and covers them with sand. The priest and his men then hammer the structure back into position.

Convict Gets \$100,000 for Unpickable Lock

San Quentin Prison, Calif.—Harold Marks, robbery convict, who invented an unpickable lock, learned recently that his ingenuity has won him \$100,000.

Marks applied for a patent on the invention, and through a patent attorney was told that an eastern lock firm had placed \$100,000 in escrow for him, pending patent grants.

"I'm going to bring my mother and sister to California," Marks said, "and when my five-year stretch is done I am going into business for myself. Maybe I'll write a book on 'How to Get Rich in Prison.'"

HENRY L. DOHERTY

A fund of \$500,000 has been deposited by Henry L. Doherty, millionaire head of Cities' Service company, for use by the American Society of Mechanical Engineers in a study of methods of alleviating the unemployment situation.

New Machine Will Make Ditch Digging Passe

Canton, Ohio.—An engineering firm here has perfected a boring machine which will drill passageways and install piping underground without an open ditch being dug first.

The machine is fundamentally a horizontal rotary drill, which uses the pipe, or casing, to be installed as the medium for carrying a rotating cutter head. For operation the apparatus is placed in a ditch running at right angles to the embankment to be drilled through. The power unit is set up at the side, and power transmitted to the drill by an adjustable drive shaft. The system of power transmission is understood to be flexible and can be adjusted to all operating conditions.

The practical use of the boring machines has been demonstrated, officials of the engineering firm said.

Turkeys Reported to Be Increasing in Size

Salem, Ore.—Train Oregon turkeys to be halter led. That's the suggestion of Edward Shearer, poultry raiser. "If Oregon turkeys continue to grow," he said, "it will soon be necessary to have them halter-broke and lead them around their stalls like cattle. Many of the Oregon toms are 50 pounds or more. To handle them is not a job for a weakling."

SOLVES OLD RIDDLE.

One of the riddles which has puzzled modern archeologists has been solved by Prof. Martin Sprenghing of the University of Chicago, who has succeeded in deciphering the Sinal inscription, an ancient form of the alphabet. His achievement traced the alphabet to its source and proves that it is of Semitic origin and not Phoenician as scholars have thought. A Beoulun mine foreman, working for the Egyptians, invented the rudimentary alphabet in the half century between 1850-1900 B. C., according to the theory developed by Professor Sprenghing.

American Trains Dogs for European Blind

Tennessee Woman Provides Guides for Sightless.

Paris, France.—A clever and philanthropic American woman from Tennessee, Mrs. Dorothy Harrison Eustis, has made it possible for many blind men and women of Paris to develop an independence they never have known before, and she does it with dogs. At her home in Vevey, Switzerland, Mrs. Eustis has established an organization called the "L'Oeil qui Voit," or the "Seeing Eye," where she trains German shepherd dogs as guides for the blind. She says she conceived this idea after visiting Potsdam, where a similar enterprise has been successful.

Special trainers teach the dogs to be the "eyes" of the blind, and a number of blind people are received into her home where they are kept until they are accustomed to the dog. Assisting Mrs. Eustis are two fel-

low countrymen, Miss Edith Doudge and E. S. Humphrey, whose efforts are concentrated on bringing help and relief for the blind throughout the country, for requests come to them from all parts of the world.

Only two or three dogs are trained at a time, and very close and concentrated attention is given to them until they become proficient in their task. By certain movements the dog is taught to make, he tells his sightless partner when to step up or down, from a curbing and when it is safe to cross a street.

Mrs. Eustis says that she does not allow the animals to be punished so that they have the slightest fear of their trainers.

Robin's Nest Found on Busy Locomotive

Augusta, N. J.—Employees of the Lehigh & New England railroad, which operates on rails with gasoline locomotives between Augusta and Goshen, N. Y., were startled recently to find a robin's nest on the air brake compressor of one of the engines. This engine travels 90 to 100 miles a day.

How long the nest had been there nobody knew, but there were two small, healthy young robins in it. The engineer said he had frequently noticed a big robin fly to the engine with something in its mouth, and he hazarded the guess that the mother keeps her brood fed en route.

Scenes and Persons in the Current News

1—Washington residence of Ambassador Walter E. Edge offered for the use of Premier Laval of France when he visits the Capital. 2—Official graders of the New York Coffee and Sugar exchange classifying the coffee that is being sent by Brazil to the farm board in exchange for wheat. 3—Representative Wright Patman of Texas who says he will try to have Secretary Mellon impeached by the house.

WINNER IN MISSOURI

Robert D. Johnson of Sedalia was elected to represent the Seventh district of Missouri in congress, to fill the place left vacant by the death of Sam C. Major. Mr. Johnson is a Democrat.

Human Cork Finishes Record Swim

Norris Kellam, "human cork," leaving the water after he had finished a 227-mile non-stop swim from Cairo, Ill., to Memphis, Tenn., down the Mississippi river. The time was 95 hours and 45 minutes. Kellam after breaking all known records for the Mississippi arrived in a semi-conscious condition.

CHILE'S NEW ENVOY

A new and especially posed portrait of the newly appointed Chilean ambassador to the United States, Senor Don Miguel Cruceaga Tocornal. He is a career diplomat, having represented his nation at numerous important posts in the past.

First of a Race of Supermen?

If it is true, as scientists say, that a race of supermen is about to make its reappearance, this one-day-old Texas boy may be the first of the species to appear. He weighed at birth 16 pounds 3 ounces and was two feet tall, requiring a full-sized pillow to sleep on. He is the seventh son of Mr. and Mrs. Hillary Roberts of Brady, Texas.

COLUMBUS BEFORE QUEEN ISABELLA ©Underwood & Underwood

By ELMO SCOTT WATSON

Does the old familiar school-boy rhyme about the fact that "In fourteen hundred and ninety-two, Columbus sailed the ocean blue," need revision? Have we been wrong all these years in our annual celebration of October 12 as "Discovery Day"? The answer to both questions is "Yes," if we are to believe the results of researches made by a South American scholar. A short time ago Prof. Luis Ulloa, director of the Peruvian national library at Lima, Peru, made an address before the congress of Americanists in Hamburg, Germany, which stirred up a world-wide discussion among historical scholars. In that address he declared that Christopher Columbus "discovered" America in 1477, that his voyage in 1492 was a second voyage, that this same Columbus was not the son of a Genoese wool weaver, as the world has come to believe him to have been, but that he was a Catalonian corsair and therefore a native of Spain and not of Italy.

"After eight months study among Spanish archives in Madrid, where I found much hitherto unknown, authentic and incontrovertible material, I can definitely assert that Columbus paid his first visit to the New world by way of Ireland, Greenland, Labrador and Newfoundland," said Professor Ulloa. "This was before America's official discovery, indeed before he was in contact with the Spanish king."

"This same Columbus, who later captained Spanish ships to the West Indies for a time, was a comrade of Spanish corsairs with whom, without the aid of Spanish kings, he made the previous discovery of the American continent. Documents which I found further showed that Columbus was not identical with the son of the Genoese wool weaver, Domenico Columbus, but with a Catalonian corsair who rebelled against King Juan II of Aragon. He was also a relative of a corsair named Casanova-Couillon, who was in the services of Louis of France."

All of which is certainly revolutionary enough, and adds further to the confusion that exists among scholars as to the nativity of Columbus. But more interesting to Americans than the question of Columbus's nationality is the question of whether or not the history of this nation, which we have become accustomed to date from 1492, should date from an event 15 years earlier and whether the "landing of Columbus" should be pictured as taking place on a bleak northern shore of the mainland of North America instead of a palm-fringed island in the West Indies. According to the Peruvian scholar, the date should be 1477 and the place Labrador or Newfoundland, depending upon which you prefer to consider as the "shores of America."

In 1825 a certain Fernandez de Navarrete published the text of the capitulations, asserting that he took it from the original document. But in reproducing the text he arbitrarily changed an essential phrase in it for reasons which will be revealed later. The authentic text states that the concessions granted to Columbus were made "in recompense for what he has discovered (ha descubierta) in the seas of the ocean and of the voyage that he is now, with the help of God, to make upon them." Navarrete wrote it "in recompense for what he is to discover (he de descubrir) and of the voyage that he is now, with the help of God, to make upon them." So by inserting the word "de" and changing the letters in another word, the Spanish scholar put in the future what was already in the past, thus profoundly affected the writing of all future history and gave to Americans, as to the rest of the world, the date of 1492 to remember instead of some previous date.

As for the reasons which led Navarrete to make the grammatical alteration Professor Ulloa says: "The old Spanish chroniclers especially the official writers in the pay of the kings, did not try to write the real history of the discovery but rather the apologia of the monarchs Ferdinand and Isabella in the enterprise. The Inquisition contributed in great part to this warding off of criticism. As the Inquisition had been established by these rulers some years before 1492, its analysts and apologists have maintained that the discovery of America was only the recompense given by God to Ferdinand and Isabella for the foundation of this famous tribunal."

"Consequently, the chroniclers and Inquisitors have presumed in general to take merit from Columbus and to add it to the Catholic monarchs, particularly Isabella. In this way it came about that she was made the real inspirer of the discovery and Columbus the instrument which she employed."

"The real history, as I have already shown by documents in my books, is contrary to this exaggerated apologia of the Catholic monarchs, and especially of Isabella, whom the Inquisitors and modern admirers have regarded as a saint and the grand protectress of Columbus. Far from that, Isabella opposed even more than her husband the proposals and demands of Columbus, hending herself rather to win from him the secret he concealed. She did not consent to deal with Columbus until he was about to depart to seek the protection of a foreign king; she made up her mind when, through the intervention of her former confessor, Father Juan Perez (it was he who drew up the convention), she became convinced that the affair was absolutely certain, since the discovery had already been made. The Inquisition and the historians who served it could not make public the truth, which would so far reduce the credit of Isabella."

As for his evidence that Columbus discovered America before 1492 Professor Ulloa goes about it in this way:

After Queen Isabella died a high tribunal was established to adjust the wrongs which had been done to various persons through the failure of the queen to carry out promises she had made to them. Among them was Columbus and he presented a memorial to the tribunal in which he complained that neither Ferdinand nor Isabella had carried out the provisions of his now-famous "capitulations." In his memorial ap-

pears this significant paragraph: "And since from the age of twenty-eight years he (Columbus) had served in the enterprise and the conquest of the said Indies, doing for their Highnesses a so great and noble service without expense to the royal treasury and without danger to their subjects and with so much of profit and usefulness for these kingdoms, as is well known in all the world, and it was in his power to render this service to any other Christian king without burden to his conscience, and they have not carried out with him the said capitulations and they have not kept nor executed the said privileges, graces and commitments as they had promised at the time of according them to him."

"Thus," says Professor Ulloa, "Columbus had begun to discover and even to conquer the Indies—that is, our present-day America—when he was not more than twenty-eight years old. Furthermore, for this enterprise he had no support from the Spanish monarchs, either in money or men. It is evident that these circumstances cannot be related to the expedition of 1492, because it is well known that at this later date Columbus was much more than twenty-eight years old, and also because, by virtue of the capitulations, the monarchs supplied him with money, men and ships."

"When could this conquest of which Columbus speaks in his memorial which we have quoted have had its beginning? We have known for a long time and in a positive manner that his son Diego was born about 1480 and that from this date Columbus had not left Portugal and Spain until August, 1492, when he set out on the official discovery. Consequently, it was before 1480 that the pre-discovery was made, I should add that when he died, in 1506, he was more than sixty years old. Therefore, one must put his age at twenty-eight between 1470 and 1480."

As for the Peruvian scholar's method of fixing 1477 as the date of Columbus's "first discovery" of America he bases it upon a passage in the "Historie," attributed to Don Fernando, the son of Columbus, which was a biography of Columbus. One passage in it, came, according to the book, from Columbus himself and in it Columbus declared that in February, 1477, he sailed as far as Tile (Iceland) and even "one hundred leagues beyond."

"Let us now mark that Columbus says that at this date he went 100 leagues beyond Iceland," says Professor Ulloa. "Those who deny the veracity of the great mariner assume that this 100 leagues should be measured toward the north and that Columbus then would have come near the pole, as far as 78 degrees, which is impossible. But as early as the first year of the Seventeenth century the Italian annalist Casoni correctly interpreted, as I have done, the phrase of Columbus, the true meaning of which places this 100 leagues to the west. Casoni thus understood that it was Greenland which the discoverer had touched."

So the time may come when our schoolbook histories may tell us a different tale of the discovery of America from the one we now know. And perhaps American schoolboys will repeat a couplet different from "In fourteen hundred and ninety-two, Columbus sailed the ocean blue." Will it be "Christopher Columbus, by the grace of heaven, reached North America in fourteen seventy-seven?"

Lesson for October 18 PAUL IN THESSALONICA AND BEREA

GOLDEN TEXT—Open thou mine eyes, that I may behold wondrous things out of thy law.
LESSON TEXT—Acts 17:1-15; I Thess. 2:1-12.
PRIMARY TOPIC—How We Ought to Hear.
JUNIOR TOPIC—Two Kinds of Hearers.
INTERMEDIATE AND SENIOR TOPIC—Two Kinds of Hearers.
YOUNG PEOPLE AND ADULT TOPIC—Winning through Love.

I. Paul Preaching in Thessalonica (17:1-10).

1. His method (vv. 1, 2). He observed the divine order, to the Jew first, and was exceedingly anxious for his kinsmen in the flesh, but when they proved themselves unworthy, he turned to the Gentiles.
2. His message (v. 3). It was that Jesus is the Christ. In order to prove that Jesus is the Christ, he expounded unto them the Scriptures. Concerning Christ he set forth three propositions:
a. That Christ must needs have suffered (v. 3). The suffering Christ was not welcomed by the Jews. They had explained away such positive assertions as are set forth in Isaiah 53. They were looking for a Messiah of a different type. This is common today in our churches and Sunday schools. The cross is an offense.
b. "Risen again from the dead" (v. 3). This he also proved by the Scriptures.
c. "That this Jesus whom I preach unto you is Christ" (v. 3). He declared that the historic Jesus whom he had proclaimed had suffered and risen from the dead. Therefore, he is the predicted Messiah.

3. The attitude of the Jews toward his preaching (vv. 4-10). While some Jews believed and many Greeks, the envy of certain Jews was so aroused at Paul's success that they gathered together the worthless fellows of the town and set on foot a riot. They said, "These have turned the world upside down." It is true that the gospel is revolutionary, but not treason to right government. They turned the preaching of Paul into a specious lie. He preached the kingship of Jesus (v. 7). Jesus is most assuredly coming to reign on this earth.

II. The Character of Paul's Ministry at Thessalonica (I Thess. 2:1-12).

In this section we have exhibited the temper of the apostolic ministry. It becomes an ideal for such as would follow in his wake.

1. It was courageous (vv. 1, 2). In spite of shameful persecution, Paul persisted in his ministry, demonstrating his devotion to the Lord.
2. Honest and guileless (vv. 3, 4). He had no ulterior motive. As one sent of God, he faithfully ministered unto them.
3. Without flattering words (v. 5). Regardless of the difficulty of his positions, the prominence of the persons faced, he never resorted to flattery.
4. Without a cloak of covetousness (v. 5). The impelling force of his life was devotion to God and interest in lost men. Opportunity for personal gain he waived aside.
5. He did not seek glory from man (v. 6). His supreme aim being to honor God.
6. He was gentle and affectionate (vv. 7, 8). So vitally did he enter into the lives of the people that he displayed gentleness, even as a nursing mother with her children.
7. Unselfish (v. 9). In order that his motive be not questioned he labored night and day for his support.
8. Irreproachable and blameless (v. 10). He did not claim to be faultless, but he boldly challenged them as to his blamelessness.
9. His "free" aim (v. 11, 12). It was that they would walk worthy of God in keeping with their high calling.

III. Paul Preaching in Berea (Acts 17:10-15).

1. His method (v. 10). He entered the Jewish synagogue and preached Christ unto them.
2. The reception of the gospel by the Bereans (vv. 11, 12). It was with gladness of heart. The message was just as new to these Jews and just as counter to their way of thinking as it was to the Thessalonian Jews, but they had a more noble disposition. Two things are said of them:

- a. They received the message gladly.
- b. They searched the Scriptures daily for the truthfulness of the message which they had heard.

3. The wicked action of the Jews (vv. 13-15). Wicked Jews from Thessalonica followed the missionaries and stirred up the people against them, making it necessary for them again to flee.

Sin

Sin sprang into life, and I saw myself a dead man. It is remarkable that Christianity is the only religion that produces this effect. There is no word in any non-Christian language for sin as moral evil.—D. M. Panton.

Sticking to the Finish

Character is developed by fighting a plan through to success and triumphing over obstacles. Anyone can start, but only a person with character will stick to the finish.—Watchword.

AFTER 40 bowel trouble

Constipation may very easily become chronic after forty. And any continued constipation at that time of life may bring attacks of piles and a host of other unpleasant disorders.

Watch your bowels at any age. Guard them with particular care after forty. Whenever they need any help, remember a doctor should know what is best for them.

"Dr. Caldwell's Syrup Pepsin" is a doctor's prescription for the bowels. Tested by 47 years' practice, it has been found thoroughly effective in relieving constipation and its ills for men, women and children of all ages. It has proven perfectly safe even for babies. Made from fresh laxative herbs, pure pepsin and other harmless ingredients, it cannot gripe; will not sicken you or weaken you; can be used without harm as often as your breath is bad, or when your tongue is coated; whenever a headachy, bilious, gassy condition warns of constipation.

DR. W. B. CALDWELL'S SYRUP PEPSIN A Doctor's Family Laxative

Works Through the Blood
In the light of modern medical knowledge, it is apparent that the weapons through which nature works are humoral—that is to say, that her messages are transmitted through the blood.

YOU WERE RIGHT ABOUT RINSO, BETTY—I NEVER GOT SUCH SNOWY CLOTHES FROM MY WASHER BEFORE

"And Betty—what suds! So rich and lively..."

"AFTER struggling with fat, lifeless suds—it's a joy to use Rinsol! Really, Betty, I never dreamed there were such suds. They're so thick and creamy, dirt doesn't have a chance! Clothes come from my washer the whitest I ever saw."

Saves time—saves work

Makers of 40 famous washers recommend Rinsol. Great for tub washing, too. Soaks out dirt—saves scrubbing—saves the clothes. Linsens come to white, they don't need to be boiled. Cup for cup, Rinsol gives twice as much suds as lightweight, puffed-up soaps—even in hardest water. Wonderful suds for dish-washing, and for all cleaning. Get the Big Package.

MILLIONS USE RINSOL in tub, washer and dishpan

With Ruffles
Pauline was sent to the grocery for lettuce and mother told her to be sure and get leaf lettuce. "Yes, mother, I know the kind with the ruffles on," she replied.

Miserable with Backache?

It May Warn of Disordered Kidney Function.

A nagging backache, with bladder irritations and a tired, nervous, depressed feeling may warn of disordered kidney function. Thousands recommend Doan's Pills in these conditions. Praised for more than 50 years by grateful users the country over. Sold by dealers everywhere.

Doan's Pills A DIURETIC FOR THE KIDNEYS

REPAIRS for Everything at C. J. MALPASS EDWE. CO. 29-1f

WILSON TOWNSHIP

(Edited by Mrs. C. M. Nowland)

Mrs. Victor Peck and son, Eldon returned home Saturday from Owosso where they were called Monday by the death of her sister, Mrs. Carpenter.

M. B. Wilber and son, Guy of Walloon Lake took supper Friday with the former's daughter, Mrs. Milo Clute and family.

Mrs. Carrie Smith and two granddaughters spent ten days in Detroit visiting relatives.

Henry Savage is home from Detroit for a few weeks, having been laid off from his employment there.

Mrs. Malissa Brooks, aged 71, died Thursday from a heart attack at the home of her daughter, Mrs. Marie Donaldson at Detroit. Funeral services were held from the Presbyterian Church in Boyne City, Saturday at 2 o'clock. Mrs. Brooks was a resident of Wilson Township for many years, moving to Boyne City about 12 years ago.

Born to Mr. and Mrs. John Martin Jr., a son, Allen John, Oct. 13th.

Mrs. Wesley Staley and two sons of Traverse City spent the week end with her father, John Hott.

Mr. and Mrs. Frank Sage of Midland spent the week end with their son, Henry Sage and family at Silver Leaf farm.

The teacher and pupils of the Advance school gave an entertainment Friday evening. The play "That Awful Letter" was the principle number on the program. Miss Alice Dow and Gerald Dunlap furnished the music.

A class of five were confirmed at the Wilson Lutheran Church, Sunday. Leonard L. Schultz, Herman Behling, Curtis Copensich, Bruno Copensich and Bertha Spencer, before a large congregation.

Mr. and Mrs. Frank Stone returned to Grand Rapids, Saturday, after a week's visit with her parents, Mr. and Mrs. Frank A. Behling Sr., and other relatives.

Sunday visitors of Mrs. Alma Nowland were Mr. and Mrs. Roland Bowen, Mr. and Mrs. Earl Batterbee, Mr. and Mrs. Charles Nowland, Mr. and Mrs. Max Graham and sons of East Jordan, and Mr. and Mrs. Don Pank of Detroit.

Mr. and Mrs. Willis Benton and children of Cadillac spent the week end with her parents. Her mother, Mrs. Leonard Dow returned home with them for a week's visit.

There was an attendance of 20 at Wilson Grange Saturday night. After the election of officers there was a short program by the lecturer pro tem Mrs. Tom Shepard. Pot luck lunch, and dancing. Next meeting will be held on the last Saturday in October. Charlevoix County Pomona meets at Peninsula Grange Hall, Oct. 24. All members are urged to be present.

Wilson Grange elected the following officers Saturday night, Oct. 10: Master—Charles Shepard Overseer—Herbert Holland Lecturer—Alice Shepard Steward—Clarence Kent Ass't Steward—Walter Savage Chaplain—Alma Nowland Treasurer—Albert Nowland Secretary—Esther Shepard Gate Keeper—Wm. Tate Ceres—Josephine Warden Pomona—Irene Jaquays Flora—Cecil Nowland Executive Com.—Sam Nowland Mr. and Mrs. Ralph Gaunt and daughter, Annabelle, of Peninsula were Sunday guests of Mr. and Mrs. Ray Nowland.

Mr. and Mrs. Richard Lewis of East Jordan were Friday callers of Mrs. E. G. Kurchinski.

The first killing frost hit this community Monday morning, Oct. 12th.

Mr. and Mrs. Omar Scott of Boyne City had another dancing party at their farm home near Mud Lake, Saturday night.

Mr. and Mrs. Harry Behling and his mother were Wednesday business callers in Petoskey.

Mr. and Mrs. Sidney Thompson and little nephew were Sunday visitors of his uncle, Sam Nowland and wife. Also Mrs. Alma Nowland.

Zell, Walter and Winnifred Savage spent the week end with relatives in Pleasant Valley, Antrim County.

Mrs. Grant Shepard had as week end guests her sister and family of Alma.

Mrs. Arvilla Coykendall assisted a few days last week in the care of L. D. Thompkins of Boyne City, who had pneumonia.

Frank Sanborn worked on the new Postoffice in Boyne City last week.

Mr. and Mrs. Leo Miller spent Tuesday at the farm of her brother, David Spencer near Whiting Park.

Mr. and Mrs. Roy Nowland and daughter, Shirley of East Jordan were Sunday visitors of his parents, Mr. and Mrs. A. R. Nowland, and brother, Ray and wife.

Mr. and Mrs. Ben Bolser returned home last Saturday from their visit at St. Ignace.

We are having potato digging vacation in the Bennett District this week.

Mr. and Mrs. Robert Hauke and little daughter of Muskegon spent Thursday night with Mr. and Mrs. John Carney.

There will be Community meeting at the Bennett Schoolhouse Saturday evening, Oct. 31st.

Mr. and Mrs. Wm. Derenzy and family visited his sister, Mrs. Joseph Kidder and family of Central Lake, Sunday.

Mr. and Mrs. Joseph Rebec were Sunday guests of her sister, Mrs. Thos. Bartholomew.

Rev. and Mrs. Seatt Bartholomew of Ashton visited in this neighborhood a few days last week.

Mr. and Mrs. Volorus Bartholomew were callers at the Denzil Wilson home last Thursday evening.

(Delayed Correspondence)

Rev. and Mrs. Scott Bartholomew of Ashton are here for a short visit with friends and relatives.

Mr. and Mrs. Thos. Bartholomew and niece, Miss Hazel Walker called on Mr. and Mrs. Morris Walker of Intermediate Lake, Sunday.

Mrs. Elmer Murray and Harold Henderson called on her mother, Mrs. John Hennings Sunday afternoon.

Clifford Evans was a caller at Wm. Derenzy's Monday.

Mr. and Mrs. John Carney and son Verlie visited his brother, Mark Carney and family, Sunday.

Mr. and Mrs. Merle Thompson of East Jordan were callers Tuesday evening at Denzil Wilsons.

Wm. Severance and Russell Burns were callers at Elmer Murrays, Sunday.

There was no school last Thursday and Friday on account of Teachers' Institute.

Wm. Murray of South Arm, and Verlie Carney helped Thos. Bartholomew buzz wood, Tuesday.

Mr. and Mrs. Earl Wilson and children of Pleasant Valley were supper guests of Mr. and Mrs. Denzil Wilson, Sunday.

Alice and Reva Wilson and Mary Umlor spent Sunday afternoon with Esther Umlor.

John Carney home Sunday evening.

Sam Lewis and family helped Wm. VanDeventer pull beets a few days this week.

Beet harvesting is finished in this vicinity.

Mrs. Ernest Lanway and daughter, Beatrice, and Glenn Finney of East Jordan, and Miss Isabelle Murray and Nela Olson of South Arm visited their sister, Mrs. John Carney and family, Thursday evening.

Mr. and Mrs. Ben Bolser returned home last Saturday from their visit at St. Ignace.

We are having potato digging vacation in the Bennett District this week.

Mr. and Mrs. Robert Hauke and little daughter of Muskegon spent Thursday night with Mr. and Mrs. John Carney.

There will be Community meeting at the Bennett Schoolhouse Saturday evening, Oct. 31st.

Mr. and Mrs. Wm. Derenzy and family visited his sister, Mrs. Joseph Kidder and family of Central Lake, Sunday.

Mr. and Mrs. Joseph Rebec were Sunday guests of her sister, Mrs. Thos. Bartholomew.

Rev. and Mrs. Seatt Bartholomew of Ashton visited in this neighborhood a few days last week.

Mr. and Mrs. Volorus Bartholomew were callers at the Denzil Wilson home last Thursday evening.

(Delayed Correspondence)

Rev. and Mrs. Scott Bartholomew of Ashton are here for a short visit with friends and relatives.

Mr. and Mrs. Thos. Bartholomew and niece, Miss Hazel Walker called on Mr. and Mrs. Morris Walker of Intermediate Lake, Sunday.

Mrs. Elmer Murray and Harold Henderson called on her mother, Mrs. John Hennings Sunday afternoon.

Clifford Evans was a caller at Wm. Derenzy's Monday.

Mr. and Mrs. John Carney and son Verlie visited his brother, Mark Carney and family, Sunday.

Mr. and Mrs. Merle Thompson of East Jordan were callers Tuesday evening at Denzil Wilsons.

Wm. Severance and Russell Burns were callers at Elmer Murrays, Sunday.

There was no school last Thursday and Friday on account of Teachers' Institute.

Wm. Murray of South Arm, and Verlie Carney helped Thos. Bartholomew buzz wood, Tuesday.

Mr. and Mrs. Earl Wilson and children of Pleasant Valley were supper guests of Mr. and Mrs. Denzil Wilson, Sunday.

Alice and Reva Wilson and Mary Umlor spent Sunday afternoon with Esther Umlor.

PENINSULA

(Edited by Mrs. E. Hayden)

October 11 and everything green as in June.

Miss Lucy Relef of Lone Ash farm was ill and unable to attend school, Friday.

Fall plowing which has been going on for the past two weeks will be quite generally suspended this week for potato digging.

Elmer Murray, President of the Jordan Valley Creamery, and George Winstone, truck driver for the same, were on the Peninsula Tuesday gathering cream and soliciting new trade. The Boyne City Co-op truck which has collected cream for the Jordan Valley Creamery through the summer months, gave up the job.

Ed. Hall of Grand Rapids was on the Peninsula Tuesday soliciting orders for roofing cement and paint for the Lennox Paint Co., of Cleveland, Ohio. He got several orders.

Several from Peninsula attended the funeral of Mose LaLonde in East Jordan last week Tuesday forenoon.

Mrs. F. D. Russell is at her home, Ridgeway farm, after spending a few months in Chaddock Dist., helping to care for her father, Mose LaLonde, who died Oct. 3rd and was buried in East Jordan Oct. 6th.

Mrs. Mose LaLonde of Chaddock Dist., spent the latter part of last week at the F. D. Russell home.

Mr. and Mrs. Harry Sines, and Mr. and Mrs. Jack Newman and two children, who have spent the past ten days with Mr. and Mrs. Daniel Faust, returned home to Flirt, Monday.

Mr. and Mrs. Daniel Faust entertained at dinner Sunday besides their guests, Mr. and Mrs. Harry Sines and Mr. and Mrs. Jack Newman and two children of Flint, Mr. and Mrs. Isaac Flora and Mr. and Mrs. Chas. Murphy and daughter, Anna, of South Arm, and Mr. and Mrs. Elmer Faust and five children of Mountain Ash farm.

Earl Bricker of the old Isaac Flora farm, who had a large force harvesting his certified seed potatoes, finished early last week.

W. P. Porter who had a large crew of men harvesting his certified seed potatoes, finished Saturday.

G. C. Ferris of Detroit spent the week end at his farm.

Mr. and Mrs. Samuel A. Hayden and two children arrived Saturday evening for an indefinite stay at Orchard Hill.

A small, but congenial crowd met for the pedro party at Star schoolhouse, Saturday night.

Several from Peninsula attended the P. T. A. banquet in East Jordan Thursday evening.

Mr. and Mrs. Ray Loomis and son Clare returned home Saturday from

a week's visit at Bridgeport with Geo. Loomis and family.

Quite a delegation from here attended the Oddfellow and Rebekah supper in East Jordan Friday evening.

Mr. and Mrs. Orval Bennett and children of Honey Slope farm visited Mr. and Mrs. Tracy LeCroix of Advance Dist., Sunday.

Mrs. Joel Bennett of Honey Slope farm is still in Boyne City with her daughter, Mrs. Wm. Bogart, who is ill.

Mr. and Mrs. David Gaunt of Three Bells Dist., were guests of Mr. and Mrs. Joe Gaunt at the Meggison farm Sunday.

Mr. and Mrs. Ralph Gaunt and daughter, Annabelle were guests of Mr. and Mrs. Ray Nowland, Sunday.

Mr. and Mrs. Alfred Deitz and son Clare, who have spent ten days with her parents, Mr. and Mrs. Duncan McDonald, returned to Muskegon, Wednesday.

Mr. and Mrs. John Noble and daughters, Ruth and Bernice, of Advance Dist., were dinner guests of Mr. and Mrs. Charles Healey Sunday.

Mrs. Julia Moon of Boyne City who has been ill for some time, came back Saturday to keep house for Geo. Jarman and son, Bob at Gravel Hill.

Highway Comm'r Elmer Faust had a crew of men and teams repairing Bunker Hill several days last week.

DEER LAKE

(Edited by Mrs. Roy Hardy)

Mr. and Mrs. Clarence McGeorge and children were Sunday afternoon visitors of his cousin, Mr. and Mrs. Roy Hardy.

Miss Carrie Korhase left for Grand Rapids, where she expects to be employed for the winter.

Mr. and Mrs. Chas. Hott were Sunday afternoon visitors of their daughter, Mrs. Claude Shepard and family of Peninsula.

Monday night, Oct. 5th, Mr. and Mrs. DeWitt Williams and John Sweet were called to Ann Arbor by the serious condition of Mrs. John Sweet and baby, who had entered the Ann Arbor hospital for treatment a few days before.

Mrs. Eugene Raymond and daughter, Miss Nellie, visited Mrs. Melvin Bricker Sunday afternoon.

Miss Sophia Saliz, Deer Lake school teacher has been driving back and forth to Boyne Falls as her mother is seriously ill.

Mr. and Mrs. Loyal Barber and son, Roscoe, of Porter's farm, and Mr. and Mrs. Lester Hardy and children were Sunday dinner guests of Mr. and Mrs. Oral Barber.

Eugene Kurchinski was a Tuesday visitor of the Afton school.

Miss Arlie Bedell, teacher of the Brown's school in Jordan Twp., spent Monday evening with Miss Nellie Raymond.

All of the large growers of certified seed potatoes finished digging this week.

Don't worry too much about what your rival is doing; give more thought to what you are doing.

One of the strange facts about intelligence is that the more you have the less you think you know.

"More genuine satisfaction than any car I ever owned"

THE FORD is good-looking. It is safe. Comfortable. Speedy. Reliable. Long-lived. Economical. Everything a good car should be.

There is, too, an added something about it that brings enthusiastic comments from every one who has ever driven a Ford . . . the joy it puts in motoring.

"I have been a car owner continuously for nearly 20 years," writes a motorist connected with a leading university. "During this period I have bought eleven new automobiles. Eight of the eleven were in the middle-price field, one cost three thousand dollars, and the last is a Ford I purchased thirteen months ago.

"In the light of this experience I can say in all sincerity that I have derived more genuine satisfaction from the Ford than any car I ever owned. In saying this, I am thinking in terms of comfort, safety, driving pleasure, ease of control and economy. My next car will also be a Ford because it will give me what I want at a price I can afford to pay."

When you get behind the wheel of the Ford and drive it yourself you will know it is a truly remarkable car at a low price. You will like it when you first buy it. You will become more and more enthusiastic the longer you drive it. After thousands of miles of driving you will say "it's a great car." Its economy will save you many dollars.

MICHIGAN BELL TELEPHONE CO.

Protecting your home and family 24 hours a day

A telephone in your home is more than a convenience. It is an ever-ready safeguard to protect your home and family in times of emergency.

In case of fire, for instance, a telephone will enable you to summon aid immediately, without having to run to the next corner. Property and lives have been saved frequently because there was a telephone handy to summon aid.

When sudden sickness or accidents occur in the middle of the night, it is important that medical aid be summoned at once. With a telephone in the house, a doctor can be called immediately.

The cost is low—you can have the protection and convenience of a telephone in your home for only a few cents a day. To place an order, or for information, call or visit the Telephone Business Office. Installations will be made promptly.

Briefs of the Week

Mr. and Mrs. A. K. Hill are visiting friends in Traverse City.

Joe Nemecek was home from Cadillac over the week end.

Bert and Conard Hughes were East Jordan visitors, Tuesday.

Born to Mr. and Mrs. Wm. Archer, a daughter, Margery Sadie, Oct. 5th.

Mr. and Mrs. Wellington Baker of Flint are here this week visiting relatives.

Mr. and Mrs. Howard Porter were at Louisville, Ky., on business this week.

Miss Moreen Bulow was home over the week end from her studies at Big Rapids.

Miss Lucille and Howard Ramsey of Cadillac visited relatives here over the week end.

John Light returned home Tuesday from a visit with his daughter at Kansas City, Mo.

Bake Sale this Saturday, Oct. 17th at A. & P. store by Junior Dep't of L. D. S. Church. adv.

White ware dishes, first grade, open stock, buy one or a hundred, at the Company's Store. adv.

Miss Josie Hammond of Boyne City spent the week end at the home of Mr. and Mrs. W. S. Snyder.

Mr. and Mrs. A. E. Schmadtke of Brighton, Mich., were guests of Mr. and Mrs. T. J. Hitchcock this week.

The Pythian Sisters will hold a Rummage Sale on Friday afternoon and all day Saturday, Oct. 23-24. adv.

Carl Finder and Don Harmen of Detroit spent the week end at the home of Mr. and Mrs. James Gidley.

Rev. C. W. Sidebotham and W. H. Malpass attended the Presbyterian Synod of Michigan at Bay City this week.

\$5.00 Hats selling for \$2.50 to \$2.98. New shipments constantly arriving. New Hat Store, East Jordan. adv.

Mr. and Mrs. Arthur Howard and son of Detroit were here first of last week for a visit with his mother, Mrs. James Howard.

Mr. and Mrs. James Gidley were at Detroit last week, where Mr. Gidley attended the National Convention of Druggists.

Why spill coal around the floor when you can get a galvanized coal bucket for 49c, and a good stove shovel free. The Lbr. Co.'s Store. adv.

Miss Leatha Kent, aged 17 of Bellaire, and Franklin Decker, 21, of East Jordan were married at Bellaire Saturday, Oct. 10th.—Central Lake Torch.

The East Jordan Football team were defeated for the first time this season on the local field Friday afternoon by the Gaylord team. Score 7 to 6.

Mrs. Mae Ward with son, Alvin, and daughter, Mrs. M. M. Caldwell and son of Lansing were here first of the week visiting at the home of Mr. and Mrs. B. Milstein.

William St. Charles of this city passed away at the Charlevoix Hospital, Thursday morning, where he had been taken the day previous for an acute case of hernia. Funeral services will be held from St. Joseph's Catholic Church this Saturday morning at 9:00 o'clock. Further particulars will be published next week.

Charlevoix County Supervisors opened their annual October session at the Charlevoix Court House, Monday morning, and are busily engaged with the mass of business at hand. Economy appears to be the keynote of the present session, with the ultimate result that some drastic cuts in county expense will likely be made before the session comes to a close.

Mike and John Saganek, South Arm township farmers, were arrested Wednesday morning on warrants charging them with theft. The arrests were made by Sheriff Dave Vaughn, Deputy Charles Marshall and State Troopers Barton and Cook of Cheboygan, before the household had arisen in the morning.—Charlevoix Courier.

* Anticipating the coming winter will be a hard one as so many laboring men will have no employment, the American Legion all over Michigan are gathering together food, such as potatoes, beans, apples, etc. A committee, representing East Jordan, attended a meeting at Charlevoix. At that place they have already got a large quantity of potatoes, beans and apples and more in sight. The Co-ops of Charlevoix are storing what they gather free of charge. Now its up to East Jordan to help the Legion here do likewise. Already one farmer near here has offered to help with potatoes. A committee will be appointed to see that the food gets to the proper people. The plan is just starting here, get in touch with the Legion officers for further information.—J. E. Chew.

Harold Gidley was home from Big Rapids over the week end.

Thomas Whiteford is home from Flint for a visit with his family.

Wm. Chaddock of South Arm Twp. is reported seriously ill at his home.

Miss Mary Green returned Monday from a visit with relatives at Detroit.

Mrs. Ben Reid and daughter of Muskegon are here visiting friends and relatives.

Mr. and Mrs. Morgan Lewis are visiting his brother, Bert Lewis, at Atlantic City, N. J.

The Lutheran Young Peoples League will meet with Mrs. Ed. Larson on Saturday, Oct. 24th.

Mrs. Ben Smatts is at Grand Rapids this week as a delegate to the Eastern Star Convention.

Mrs. Blaine Harrington came from Muskegon first of the week to help care for her father, Will Chaddock.

Mr. and Mrs. L. A. Hoyt left Tuesday to spend the winter months at Detroit, Washburn, Wis., and Iola, Kansas.

Put heat where you want it—when you want it, with a Perfection Oil Heater, three styles. Lumber Co.'s Store. adv.

Mrs. Gus Muma and sons, Roderick and Richard were at Lansing first of the week, called there by the death of a relative.

Mr. and Mrs. Morton Handy and son, Foster, of Bellaire spent Tuesday here with his mother, Mrs. Jennie Handy.

Get that extra for Sunday dinner at Bake Sale at A. & P. store this Saturday by Jr. Dep't of L. D. S. Church. adv.

Mrs. Pearl McHale went to Detroit, Monday to visit her daughter, Miss Marjorie, who is at the Ford Hospital for observation.

Mrs. Anna Sundstedt who has spent several months here at her home, will leave this Saturday to visit her sister at Eastlake, Mich.

John Crooks of Gouldsboro, Pa., was here a short time this week to visit his brother, Thomas Crooks. The brothers had not met in 27 years.

Mr. and Mrs. Bert Reid and Mrs. Frances Graff of Muskegon were here this week to visit the latter's brother, Will Chaddock, who is very ill.

The South Arm Home Furnishing Club will meet at the home of Mrs. Clara Liskum, Thursday evening, Oct. 22nd. All interested homemakers are welcome.

Mrs. George Ward visited friends here this week. She has spent the past few months in Ontario, Canada and was enroute to her home at Vermontville, Mich.

Mr. and Mrs. Nicholas Hayes and son, Harold, Mr. and Mrs. C. J. Hufftle and family, and A. J. Hufftle, of Traverse City spent Sunday with Mr. and Mrs. J. E. Hutchins.

E. A. Robinson, County Surveyor, passed away at his home in Boyne City, Tuesday evening, after an illness of several months. He is survived by his widow and two sons.—Boyne Citizen.

The East Jordan Study Club will hold its annual Hallowe'en party at the home of Mrs. Wm. Swoboda, Tuesday evening, Oct. 20th. Each member is to appear in hobo costume to avoid paying a fine. An excellent program is being arranged.

Att'y E. N. Clink, who has been a patient at Lockwood Hospital, Petoskey for several weeks, returned to his home here Thursday, and is on the high road to recovery. During his absence from the office, Henry N. Paulson, who is associated with him in the practice of law, is taking care of business matters.

PLEASANT HILL

(Edited by Anson Hayward)

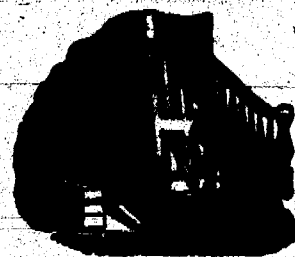

Pleasant Hill Sunday School was well attended as usual. Preaching by Henry VanDeventer. Revival meetings for two weeks, beginning Oct. 12th. Preaching by Harry Batterbee and Henry VanDeventer. All are invited to attend.

Farmers are digging potatoes and husking corn. The bean machine is in the neighborhood, also the grain threshing machine.

Mr. and Mrs. Frank Gaunt were dinner guests of Joe Ruckles Sunday. Mr. and Mrs. Anson Hayward and son attended the Church of God Revivals one evening last week. Mr. and Mrs. Seth Jubb and daughter, and Mr. and Mrs. Charles Ruggles also attended the Church of God Revivals.

AN APOLOGY

I extend a sincere apology to all the pupils who play in the orchestra and to John TerWee that they did not play at the Harvest Supper given by the P. T. A. last Thursday evening. Alice M. Smatts, President.

HELPFUL HINTS

All young children need a daily nap.

Individual pumpkin pies served with plum jam and whipped cream make delicious autumn desserts.

Help the small child to establish good habits by allowing him at least twenty minutes for each meal.

Add variety and vitamins to meals by preserving tomatoes as butter, puree, conserve, ketchup, and pickles.

For successful laundering, thorough rinsing is as important as thorough washing. Soap or soda left in clothes tends to yellow them and makes them scorch more easily in ironing.

The modern kitchen is the house-keeper's office as well as workshop. A small desk built in the wall and equipped with cookbooks, pamphlets, and recipe files, as well as a telephone, is convenient.

Most Sensitive Hands in the World

These are the hands of a group of Angora goat hair sorters at Sanford, Maine. The sense of touch in their fingertips can distinguish as many as fifteen different diameters of hairs, in the thousandths of an inch. If the sorter makes a mistake a fine, luxurious and costly piece of velvet may be ruined later in the weaving. A sorter to hold his job must take better care of himself physically than a football player or prize fighter. If health or a sleepless night will disturb the delicate senses sufficiently to cause errors. No women have ever been able to qualify as hair sorters. Oddly enough the 35 men who sit and match hairs all day long are middle-aged or past. Few of them wear glasses, and few mistakes are made.

Find Treasure of Last Hindu Ruler

Drain Lake to Recover Ancient Indian Relics.

Calcutta.—A secret underground treasure vault used by the ancestors of the maharajah of Alwar, India, has been rediscovered with the aid of Sig. Mancini, an Italian architect. The utmost secrecy surrounds the finding of the treasure, "lost" for so many years near the artificial lake of Saugor. Jewels and gold found in the vault are said to be worth about \$500,000, but they are sacred relics, and the maharajah has not decided whether to ransack the vault or appropriate the treasure. Frequent attempts have been made in the past to discover the jewels and huge sums were spent in searching for them. The maharajah was once told by an astrologer that he would recover the lost fortune, and he destroyed four old palaces and then built new ones in the search.

The famous crown of the Pandava emperors was said to have been found after the vault was opened. To the Hindus the jewels have great mystic value, embodying the ruling principles of kingship among them. The possessor of the jewels, Hindus claim, hold the power to rule India in the future. During the excavation for a huge irrigation reservoir engineers came upon the ruins of an ancient palace. A copper plate was found containing verses in Sanskrit, which indicated that the treasures of the Hindu emperors were carefully stored in vaults near the "lake in the hills."

Sig. Mancini, who has been engaged to supervise the construction of a new palace for the maharajah on Mount Abu was asked to help in the hunt for the hidden cache. The "lake in the hills" was decided to be the beautiful Lake Saugor, and, under the pretext of changing the water, it was drained dry. The lake's bed was cleaned out. In the center was discovered strong masonry work. On examining it an entrance was found behind a huge movable stone. A tunnel under the lake bed led to the vault lying hidden deep in the rocky hills. In the first chamber was found a huge copper vessel. On being opened, the vessel was found to be full of gold. It was one solid mass, apparently having been melted and poured into the vessel before it was placed in the vault. Tracks on the ground led to the corner in the wall where the second entrance to a second vault was located. There the \$500,000,000 in jewels and gold was found.

May Be Speaker

There is renewed talk of the chances of Bertrand H. Snell, congressman from New York, to be elected speaker of the house to succeed the late Nicholas Longworth. Mr. Snell is a Republican and chairman of the powerful rules committee of the house.

"Lucile is the Happiest Girl"

So many mothers nowadays talk about giving their children fruit juices, as if this were a new discovery. As a matter of fact, for over fifty years, mothers have been accomplishing results far surpassing anything you can secure from home prepared fruit juices, by using pure, wholesome California Fig Syrup, which is prepared under the most exacting laboratory supervision from ripe California Figs, richest of all fruits in laxative and nourishing properties.

It's marvelous to see how bilious, weak, feverish, sallow, constipated, under-nourished children respond to its gentle influence; how their breath clears up, color flames in their cheeks, and they become sturdy, playful, energetic again. A Western mother, Mrs. E. J. Stoll, Valley P. O., Nebraska, says: "My little daughter, Roma, Lucile was constipated from babyhood. I became worried about her and decided to give her some California Fig Syrup. It stopped her constipation quick; and the way it improved her color and made her pick up made me realize how run-down she had been. She is so sturdy and well now, and always in such good humor that neighbors say she's the happiest girl in the West."

Like all good things, California Fig Syrup is limited, but you can always get the genuine by looking for the name "California" on the carton.

When your MIND feels SLEEPY

Inactive bowels cause inactive minds. Don't let sluggishness and a heavy, tired feeling get the best of you. Drink that constipated feeling away with a cup of fragrant Garfield Tea. A simple, natural, good old-fashioned remedy. Garfield Tea consists of pure, fragrant, utterly harmless herbs.

At your drugist's

GARFIELD TEA

Fretful and Cross

It's a reason—often it's worms. They are much more common than mothers think. Picking the nose, grinding the teeth, crying in sleep or offensive breath are symptoms that worms are present. Careful mothers take no chances—they treat promptly with Jayne's Vermifuge. This proved preparation will expel round worms and their eggs as nothing else will. Get a bottle of this famous prescription today from your drugist, DR. D. JAYNE & SON, Philadelphia.

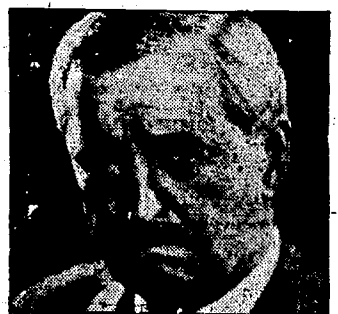

JAYNE'S Vermifuge

ASTHMA

DR. J. D. KELLOGG'S ASTHMA REMEDY for the prompt relief of Asthma and Hay Fever. Ask your drugist for it. 25 cents and one dollar. Write for FREE SAMPLE. Northrop & Lyman Co., Inc., Buffalo, N.Y.

DR. J. D. KELLOGG'S REMEDY

Off the List "After a man has invested in one of your get-rich-quick schemes, do you keep on sending him literature for your new enterprise?" "Certainly not," answered the promoter. "What's the use of wasting postage stamps on a man who is broke?"

Are you too old for your job?

Into the life of every one comes a time when we notice the years slipping by, and we see people we considered youngsters catching up to us in business. This feeling usually goes hand in hand with irritability. Tiredness and lack of "pep" are also symptoms. When you get that feeling, take stock of yourself. You will probably find that the old job is getting you. You need a change. If you can't afford to go away, take the finest of all remedies for that "fagged-out" feeling—Fellows' Syrup. After a few doses of this perfect tonic, the job will again "look good" to you, and you will greet every morning with a smile.

FELLOWS' SYRUP

HAPPY MEMORIES

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

Sarah had never known anything but hard work all her life. Hard work may sometimes be not at all unpleasant and may give one joy and exhilaration in the doing, but Sarah's was not of that sort. Her father and mother had come from Europe when Sarah was a little girl, and had settled in New York. They were without education; they were used to toil, and they had no ambition for their daughter to know or to be more than they, themselves, knew or were.

And so Sarah, when she was old enough, went out to service, and being awkward and unskilful, drifted finally into the work of a scrub woman.

But the unexpected does sometimes happen. When Sarah was fifty, perhaps, a relative across the ocean left her a modest legacy which, if properly invested, would have made a living more comfortable for her, and might have provided a little competence for her old age, when scrubbing would not be so easy nor so possible as it now was.

"It's good luck for Sarah," her thrifty friends were heard to say. "She can put this money by for a rainy day."

But Sarah thought otherwise. During all her fifty years she had had no cessation of toil. "I'm getting old," Sarah said. "I'd like a few happy memories before I die."

And so, foolishly maybe and maybe not, it is not for us to say, Sarah quit her job. She got herself ready, and she went off for a holiday as long

as her money lasted to the country from which her father and mother had come. For a time she was a lady, so far as her limited knowledge gave her to understand what that might mean, and when her legacy had been spent she came back again to the old life of toil. If she ever regretted her foolish action, as it was termed by her practical friends, she never said so. She had the memories for which all her life evidently she had longed, and she was content.

(c. 1931, Western Newspaper Union.)

OF INTEREST TO THE HOUSEWIFE

When preparing fruit salad, sprinkle bananas, peaches, pears and apples with lemon juice and sugar, as soon as they are cut. This helps to prevent discoloration.

A coffee "wake-me-up" is the newest and smartest note in entertaining the over-night or week-end guest. The guest is served a demitasse of black coffee just before arising.

A teaspoonful of sugar added when frying tomatoes brings out their full flavor. In cooking both ham and pork, a small amount of sugar points up the nut-like flavor of the meat.

If your cellar stairs are badly lighted, as most of them are, it is a wise precaution to paint the top and bottom steps white. The white steps will show up in the dark, and go far toward reducing the possibility of a fall.

Private Property Sign Gets Rid of Rail Ties

Gorham, Maine.—A trolley line was scrapped here and company officials left the railroad ties along the right-of-way where people could cart them away for use as fuel.

Days passed and not a tie was touched.

Finally the company erected over the wood piles signs reading: "Private property. Do not molest."

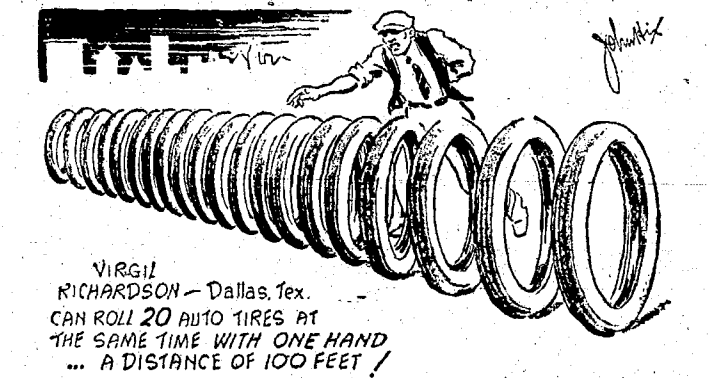

Next day the ties were gone. Also the signs.

POTPOURRI

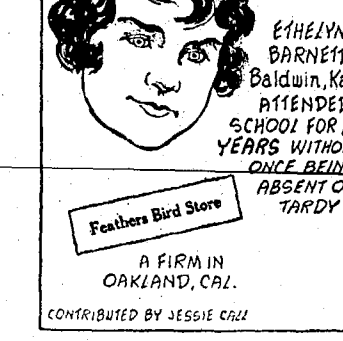

Pheasants
There are some hundred species of pheasants, all native to Asia, and belong to the same domestic fowl family as the peacock. They are named after the river Phasis on the eastern shore of the Black sea. The naturalized American pheasant is a hybrid of the British and so-called ring-necked breed.

(c. 1931, Western Newspaper Union.)

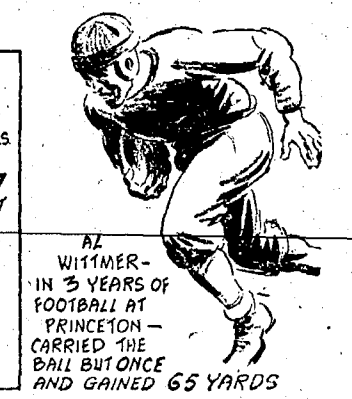

ODD THINGS AND NEW—By Lane Bode

VIRGIL RICHARDSON—Dallas, Tex. CAN ROLL 20 AUTO TIRES AT THE SAME TIME WITH ONE HAND ... A DISTANCE OF 100 FEET!

ETHELYN BARNETT—Baldwin, Kans. ATTENDED SCHOOL FOR 17 YEARS WITHOUT ONCE BEING ABSENT OR TARDY.

AL WITMER—IN 3 YEARS OF FOOTBALL AT PRINCETON—CARRIED THE BALL BUT ONCE AND GAINED 65 YARDS.

20 Families to Be Marooned on Desert Isle

U. S. Employees to Care for New Lighthouse.

Venture, Calif.—Water, water everywhere, not a drop to drink. Just like the Ancient Mariner, 20 government employees and their families will be marooned on a barren island 20 miles off this port when a

new lighthouse station is ready for occupancy this fall. Not a drop of water is to be found on the wind-swept bit of land, narrow and less than two miles in length. The precious fluid must be brought from the mainland in barrels, just as though the workers were living in the heart of the Sahara. Difficulties of erecting the huge lighthouse, radio compass station, power house and foghorn station may be imagined with water so scarce. Sea water was found impractical for use in mixing concrete, so it was necessary to bring it from the mainland, land it on the beach and haul it over a rocky cliff to the building site.

Anacapa Island, most southerly of the Santa Barbara channel islands, is directly in the path of coastwise steamer traffic, and has been lighted previously with only a small flashing light. Despite this, there have been no serious wrecks on its rocky shore. Fate evidently plotted the courses of vessels so that they would pile up on San Miguel Island, most northerly of the group, or on the opposite shore of the channel, at Poinc Arguello.

Although isolated and unconstructed until the arrival of the construction crew, Anacapa Island has for years been a favorite haunt of fishing and pleasure craft.

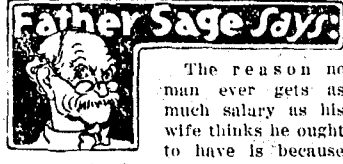

Snakes Recommended to Curb Rabbit Pest

Canberra.—Large snakes of nonpoisonous varieties, like boa constrictors, are suggested as a check on the multitudes of rabbits that infest Australia. Small snakes are already used to combat rats and mice. Boas breed rapidly and swallow a rabbit at a gulp.

3,000 Birds Like His Home; Refuse to Leave

Norwalk, Conn.—Anyone knowing a good way to discourage the atten-

tion of birds should get in touch with Grover Muler. Muler has tried everything—that is, everything he has heard of so far—including roman candles, to get some 3,000 birds to leave the eaves of his house and treetops around it.

Father Sage says: The reason no man ever gets as much salary as his wife thinks he ought to have is because there isn't that much money.

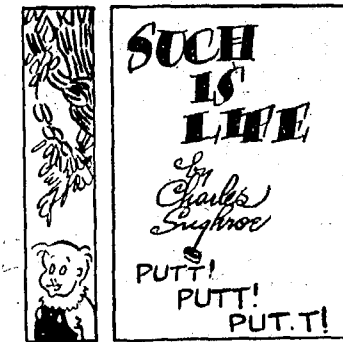

Ancient Bank Notes Offered
Memphis, Tenn.—A Memphis banker recently was asked to cash several \$5 notes on the Farmers and Merchants bank here. The bank failed in 1842.

A learned fool is more foolish than an ignorant fool—Mollere.

GABBY GERTIE

"Putting the chest and trunk forward while in a stooping position is a reducing exercise—it makes one lean."

Mercolized Wax Keeps Skin Young

Get away from the old-fashioned skin cream. Mercolized Wax is the new skin cream. It is made of pure wax and is the only skin cream that keeps the skin young and soft. It is the only skin cream that does not dry the skin. It is the only skin cream that does not irritate the skin. It is the only skin cream that does not clog the pores. It is the only skin cream that does not make the skin greasy. It is the only skin cream that does not make the skin sticky. It is the only skin cream that does not make the skin itchy. It is the only skin cream that does not make the skin red. It is the only skin cream that does not make the skin swollen. It is the only skin cream that does not make the skin sore. It is the only skin cream that does not make the skin burn. It is the only skin cream that does not make the skin blister. It is the only skin cream that does not make the skin peel. It is the only skin cream that does not make the skin crack. It is the only skin cream that does not make the skin bleed. It is the only skin cream that does not make the skin bleed.

PROMOTE HEALING HANFORD'S Balsam of Myrrh

Troubles at Home, Too
"Things are in a mess over in Europe, Joe."
"Yeh, but I'm married now."

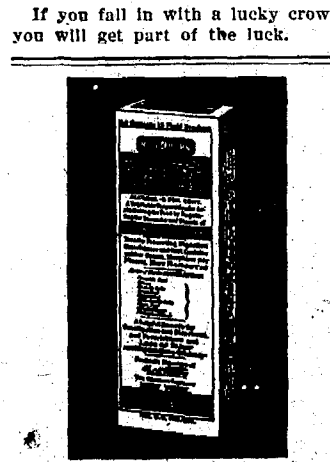

Reduce the Acid

SICK stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless dose neutralizes many times its volume in acid. For 50 years the standard with physicians everywhere. Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go, prove this for your own sake. It may save a great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians in correcting excess acids.

There is one thing about it: When the doctor is sick, he knows what it is.

Now You Need Not Fear Coughs

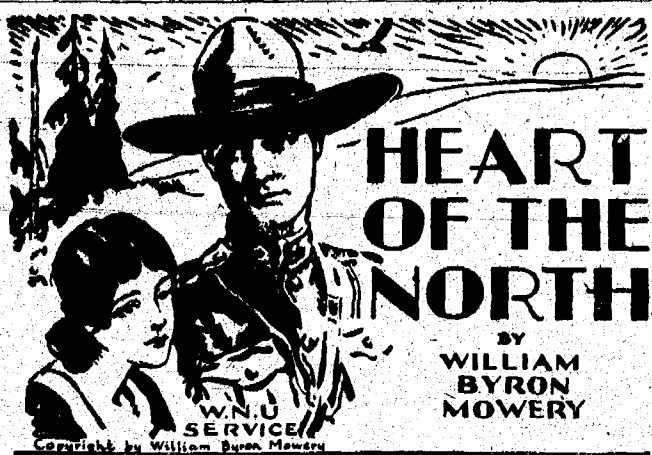

It is always important to get a cough under control as quickly as possible. Too often it may otherwise prove the forerunner of something far more serious. One sure way to banish the fear of coughs and colds is to have in your medicine chest a bottle of B. & M., The Penetrating Germicide. Keep it ready for instant use when anyone in your family develops symptoms of a cold in the chest or a sore throat. Use B. & M. externally, just as you would a mustard plaster. You will find it many times as efficient and it gets quick results. Order from your regular druggist, or send us his name and \$1.25 and we will send a full-size bottle postpaid. Valuable booklet free on request. F. E. Rollins Co., 53 Beverly St., Boston, Mass. (Adv.)

Made specially for BABIES and CHILDREN

Physicians tell us that one condition is nearly always present when a child has a digestive upset, a starting cold or other little ailment. Constipation. The first step towards relief is to rid the body of impure wastes. And for this nothing is better than genuine Castoria! Castoria is a pure vegetable preparation made specially for babies and children. This means it is mild and gentle; that it contains no harsh drugs, no narcotics. Yet it always gets results! You never have to coax children to take Castoria. Real Castoria always bears the name:

W. H. U., DETROIT, NO. 42-1951

HEART OF THE NORTH

BY WILLIAM BYRON MOWERY

THE STORY

Six handits hold up the steamer, Midnight Sun, on the Mackenzie, kill Jimmy Montgomery, and escape with gold dust and furs. At the Mounted Police post at Fort Endurance, Sgt. Alan Baker disputes with his incompetent superior, Inspector Haskell, regarding plans for the capture of the bandits. Baker starts out in the police launch with five men. At the MacMillan trading post, Joyce MacMillan is thrilled at the arrival of the police launch. She had expected to marry Baker, and had been stunned at the news that he was to marry Elizabeth Spaulding. Stolen furs are found on the MacMillan place and evidence points to Joyce's father. Alan leads his expedition up the big Aloska. Compelled by Haskell's foolish orders to divide the party, Alan falls to capture the bandits, and returns to Fort Endurance. Haskell blames him for the failure and Alan is allowed to buy out of the Mounted on condition that he absolve Haskell from blame. Alan starts out of the country in a motor canoe. He meets "Buzzard" Featherfoot, famous aviator, and enlists him in the enterprise. "Slob-ice" Jensen, leader of the bandits, plans to capture Joyce. Haskell suspects Alan's plans, and plots to capture him.

CHAPTER IX—Continued

Looking ahead through the propeller disk, he glimpsed the great blue lake of his rendezvous with Bill. A few minutes later on the northern shore he sighted Goose point reaching out into the sunlit waters of En Traverse. Leaning forward, he pointed out the promontory to Buzzard and shouted into his partner's ear: "That's the place. Glide down and fight, close in as you can. I don't see Bill there, but he probably couldn't get away from duty to wait for us. Our supplies are cached in that red-willow thicket back next to the woods. We'll go ashore and get them." Buzzard cut off ignition. The engine roar stopped. As the plane glided down at a mile-long tangent and swept over Goose Point, Alan leaned out into the slip-stream and looked under keel, searching the flag-and-willow headland for a possible sight of Bill Hardsock. Hardly expecting to meet Bill, he was not surprised when his old partner failed to show up. But as the machine glided silently over the point, his eyes were caught by an object there on the muddy landwash. At a second glance he saw it was a large gasoline drum lying in full view at the very tip of the headland. The sight of the drum startled him. He queried silently: "Why the devil did Bill put that thing out there so glaring? He didn't need to draw my attention; we arranged about the cache."

Beyond the point the plane touched the surface, plowed on through a shower of spray and came to a stop three hundred yards off the landwash. In the scarlet-and-gold police launch, hidden behind a low-sweeping balsam at water edge, Inspector Haskell and Corporal Whipple watched the machine whirr low over the point. As it came down and down, Haskell clutched his rifle a little tighter and watched intently. His heart leaped as the machine touched the wavelets, skimmed on a little distance, and came to a stop. "They're going ashore," he breathed exultantly to Whipple, as though unable to believe his incredible luck. "We'll skim out and ram the plane Get ready!"

Uneasy, Alan stood up in the cockpit and searched the headland with his glasses. Over and over he kept telling himself that it wasn't like Bill, his cautious old patrol partner, to roll that drum of gas out there. While he was searching the point, he felt Buzzard excitedly grasp his arm. "Alan! Look! . . . Lord's sake!—look over there!" Alan whirled and looked where he pointed, at the southern shore of the lake eight miles away.

On a long timbered headland there a sudden sheet of flame had leaped up nearly sixty feet into the air and stood out above the tree tops, with a fiery puff and cloudlet of smoke visible for miles and miles across the open water. A few seconds later the flame died down a little, as though it had been of explosive origin, but a clump of paper birches up which the flame had raced still continued to burn like a gigantic torch.

Focusing on that distant headland, Alan saw nothing except the fire-wrapped birches. As he brought the glasses down, mystified, frowning, his uneasiness swept through him again, sharp and insistent. That suspicious drum of gasoline—Bill surely wouldn't have rolled it out there. That huge burst of fire across the lake—it had some meaning.

"Buzzard, something's wrong here! All wrong! I don't like the idea of going ashore here. If something's wrong, you don't know what we might be walking into."

"Well, what're you going to do? We've got seven gallons of gas in the wing tank and five in the emergency, and we can't get far on that!"

"Maybe so, but I'm not walking into any trap. Somebody's over there where we saw that big gob of fire. I'm suggesting we get into the air again and hop across and have a look-see. That's our best bet. This layout here is all off-color and I know it."

"All right. We'll hop across. But a couple more hops around over this landscape, and we'll be rocking on the wavelets."

From the height of a hundred feet Alan looked ahead through his glasses, scrutinizing that timbered point where the birches were still ablaze.

He started as the glasses picked up a tiny man-figure far away on that headland. Watching, he saw it rush out upon the extreme rock tip. With the plane whirling nearer, he caught the figure in sharper focus—and recognized Bill Hardsock!

Waving his arms, hat and part of a pine tree, Bill was frantically trying to draw their attention.

Alan leaned forward, cupped his hands and shouted to Buzzard: "That's Bill! There on the headland. Light and taxi in. He's waving us down, so it must be safe. We'll soon see what the trouble is."

They angled down on the water and skimmed close in shore. In a canoe Bill came paddling out to meet them.

"I knowed you'd make it, Alan!" he panted, looking with marveling eyes at Buzzard and the plane. "I knowed you'd show up sometime. The gas and oil—that is, most of it—it's right ashore here, ready for you. There's more cached up the Aloska, too. I was scared. . . . When you lit down over there. . . . Lord! I was afraid you were a goner!"

Hastily introducing a new partner to an old one, Alan demanded: "What d'you mean, Bill? What under heaven are you doing over here? What happened? Man, you're all shot!" "Am half-dead," Bill admitted. His voice was thick, he could hardly stand up. With the long strain over, a fearful reaction had set in. He looked ready to fall down dead asleep.

"But what happened?" Alan repeated.

"Alan, that Johnny Jump-up caught onto our trick. He was out to bag this air machine and nail you two. And he came skittish close to doing it. Lemme tell it."

"I had those drums cached over there on Goose point like we arranged, and I was waiting there, never suspecting a thing. One evening. . . . Must've been four or five days ago; I've d—n near lost track of time. . . . Anyway, I was sitting there in the willows slapping mosquitoes and listening to a couple whisky-jacks raise Cain with something back at the timber edge."

"I hadn't nothing much to do, so I sort of moseyed back that way to see what all the fuss was about. When I got up pretty close I all at once smelled tobacco smoke, cigarette smoke. Just a faint whiff, but no mistake about it."

"What the h—l?" says I. "Who's smoking Turkey tobacco around here? It made me leery right away. I followed my nose up-wind and snuck up real careful. There in the first drogue of balsam was a Smoky, that Ogi-To-max, sitting against a tree, lighting one cigarette on the butt of the last. They were that kind of cigarette that Haskell gets clear from Paris, Alan."

"When he finally got wise to some-

body being near, he grabbed for his rifle. But I jumped for him too quick and hit him a couple times, and while he was coming out of it I lopped that gun of his around a tree. Then I collared him and asked him what the condemnation his intentions might be. At first he closed up like an oyster and wouldn't do nothing but grunt and look sour. I was suspicious of him laying low there watching me, so I up and lammed h—l out of him then and there till he did pry open his jaws.

"Haskell had hired him to shadow me and spy out what I was doing. He must have got hep somehow to me taking that gas. And he and that fishworm Whipple were coming there to Goose point in the launch to get me, gas, oil, then lay low and nail you two when you lit down. Two bits to a shirt button they're over there right now!"

As he thought how close he and Buzzard had come to going ashore and being captured, Alan shuddered.

Bill went on: "When the Smoky told me that. . . . Say, did I make some tall tracks? I never got such a wiggle on in my life. With the Smoky helping, I made two trips across the lake and snaked the drums all away—all except one drum which I heard the launch coming and didn't have time to take—"

"It's still over there," Alan interrupted. "They rolled it out in plain sight like a decoy, but instead of that it made me suspicious. They overplayed. But what got you all shot this way, Bill?"

"I've been awake four or five days and nights, that's what! Not a wink! Didn't dare sleep. It made me sweat blood to think of you lighting down over there and getting nailed. I had to draw your attention somehow, when you were over the lake; and it had to be one whopper of a signal, that far away. I got a couple big piles of birch paper ready and had a drum of gas handy to soak it with; and I kept a dry-wood fire going so's I could stand back and throw a blazing chunk at the paper. But it made the signal, all right. It nearly slinged me and I stood thirty feet back."

"Bill, you it made a signal," Buzzard commented. "It looked like the evacuation of Lens."

"I had to stay awake every minute," Bill continued, "for fear you'd come and fly right into the trap. And then I had to guard the Smoky. He's tied up back there; didn't dare turn him loose, or he'd told Haskell where I was. If I'd ever got started dozing, I'd have benten this Rip Winkle fellow for long-distance sleeping. There was times when I got so near overpowered I had to wade out and set on a rock with the water up under my chin, where I didn't dare go to sleep or I'd been drowned."

Merely by looking at Bill, Alan knew that his former partner had left half his story untold. It was only afterwards that he heard all the details of Bill's heroic siege.

"How about Joyce?" he asked.

"You've been to see her, Bill?"

"I ducked aside twice. Last time was a week ago. She's taken in a big raft of peltry. She's closing up the place to go out to Edmonton and be with her dad."

"A week ago," Alan thought. "Anything could have happened in a week." He asked, "Any news at Endurance?"

Just everyday things, Bill reported. Except for Larry. Larry would cry, Bill said, whenever he looked at his shattered leg. Larry, who kept himself as young as men half his age, who prided himself on his wolf-lean body—he was wasted away to a mere shadow of his former self.

Glancing out across En Traverse, Alan suggested: "We'd better be leaving here. Haskell and his stool pigeon over there probably saw us light. They may take a notion to whip across the lake after us. Where's the oil and gas, Bill?"

"Right on by that rock jumble. The Smoky is just this side. I'll go along—"

"You stay here; you're about once in. Buzzard, you turn the plane and make ready for a quick getaway in case that launch shows up. I'll get the drums."

He hurried to the tangle of junipers and granite boulders where he found the precious gas and oil which Bill had sworn to bring to the rendezvous. Taking a load out to the plane, Alan hoisted it up to Buzzard, who began sponging into the wing tank.

(TO BE CONTINUED.)

Stages of Civilization Recorded by Currency

Money, according to Fararn Zerbe, former president of the American Numismatic association, is a historian of the first rank.

Money is a documentary record of the progress of man and the stages of civilization. Coins are imperishable manuscripts in metal, unfolding a concise story of the refinements and energy of the people producing them. The history of money for the past 5,000 years is also a history of mankind.

Coins indicate to what estate has risen the art, architecture and metallurgy of a people; mythology and religion here are graven in imperishable record. Greece in all her glory and Rome before the fall of the empire are portrayed for all to see in the bushels of coins uncovered by modern excavation.

The deterioration which followed the universal tragedy of a dead empire is reflected in the barbarously crude coins of the Middle ages. Money tells a story of conquest and siege, of victory and defeat, of culture and igno-

rance. Money records lost causes, tells of the rise and fall of the affairs of men; it suggests civilizations destroyed and forgotten.

Parade Into Fields

Bulgaria is 5,000 red-roofed villages strewn along streams, scattered in clusters over plains, straggling along the crest of hills, and all the work, order, love and sacrifice, song and prayer that fill them.

On May mornings Bulgaria is a stream of grandparents, parents and children, flocks of sheep, herds of cattle, droves of pigs and geese, all pouring forth from their appointed places. Mother carry babies in tiny hammocks on their backs, and on reaching the fields hang them to the flowering branches of leafy trees or to shaded tripods. If the journey is long, donkeys carry the swaddled infants in saddlebags.

My Word

"Talk is cheap," is a common saying. And language often extravagant

STRENGTHEN their little bodies

Do you know your children will thrive on Scott's Emulsion of Cod Liver Oil. Its rich Vitamin A content will give them resistance against illness. Vitamin D, the "sunshine vitamin," will help build strong, healthy bones. Its calcium salts are helpful for growing young bodies. And it's good for expectant mothers and invalids, as well. Scott's Emulsion is easy to take. Children like its pleasant flavor. Use it regularly.

Listen to the Scott's Emulsion radio hour, every Sunday and Tuesday at 9:30 p.m. (E. S. T.) over the Columbia network.

Scott's Emulsion

OF NORWEGIAN COD LIVER OIL

A Big Loss
"What's this nonsense about Joe Miller's losing \$10,000?" asked Uncle Henry.

"It isn't nonsense," replied Aunt Martha. "Joe wrote a book for that big contest and didn't win the prize."

Very Annoying
"It makes me mad to have my husband talk in his sleep."
"The poor man can't help it."
"Maybe not, but it looks like an intimation that I don't give him a chance while he's awake."

SICK HEADACHE?

It is not necessary to give in to headaches. It is just a bit old-fashioned! The modern woman who feels a headache coming on at any time, takes some tablets of Bayer Aspirin and heads it off.

Keep Bayer Aspirin handy, and keep your engagements. Headaches, systemic pains, come at inconvenient times. So do colds. You can end them before they're fairly started if you'll only remember this handy, harmless form of relief. Carry it in your purse and insure your comfort while shopping; your evening's pleasure at the theatre. Those little nagging aches that bring a case of "nerves" by day are ended in a jiffy. Pains that once kept people home are forgotten half an hour after taking Bayer Aspirin! You'll find these tablets always help. If

you get real aspirin, you'll get real relief. In every package of genuine Bayer tablets are proven directions which cover headaches, colds, sore throat, toothache, neuralgia, neuritis, sciatica, rheumatism, etc.

The tablets stamped Bayer won't fail you, and can't harm you. They don't depress the heart. They don't upset the stomach. So take them whenever you need them, and take enough to end the pain.

HARD TIMES PARTY

The Junior Class held the first dance of the season Oct. 10th. Most everyone came dressed from the rag bag. Those who didn't were taken before the judge and fined a great sum. Miss Merritt and Miss Topfiff surely would have taken the prizes. Dancing was enjoyed by everyone, those who played, those who did the on looking, and those who really did the dancing. Doughnuts and cider were furnished free.

—Phyllis Woerful

HOME ECONOMICS

The ninth grade class is studying main dishes for the luncheon unit. They are making mostly cheese dishes. The tenth grade is studying colors, also which colors suit them best.

—Pauline Loomis

PEP MEETING

Last Friday we had an Assembly on pep meeting in which the band played a few numbers.

Dorothy Best led the yells along with Bobby Joynt. Bob proved himself a little timid at first but after the talk by Mr. Duncanson, Bob was on the stage yelling also.

Mr. Roberts called on James Hignite, Alba Brooks and also Mr. Cohen to give short talks about the game to be held the following day at Harbor Springs.

We sang the school song—"Oh High School We're Loyal," and then while the band played "The Pep Squad Parade" the High School joined in by singing it.

—Eloise Davis

THE HARBOR SPRINGS GAME

The game of the season was played Oct. 10. The champions for two years proved to be only a toy to the undefeated Jordan boys.

Bradley, Harbor's star player was taken out of the team because he was ineligible, although it was thought by everyone that our team could have easily won the game with Bradley in. But why not take him out, if we could, for we had everything to gain and nothing to lose.

With the score 25-0 our team felt satisfied that they had well won the game. James Hignite proved himself to be one of the best quarterbacks in northern Michigan by running the ball back 40-50 yards on Harbor's punts.

—Phyllis Woerful

ENGLISH

The reading table in the English room is being occupied by an interesting array of magazines. Due to the large subscription to Current Literature, a weekly paper used by the English 3 and 4 classes, we are also getting free subscriptions to several of the better magazines such as The Atlantic Monthly, Current History, The Golden Book, The Bookman, World's Work, Scribner's, The Scholastic, The Nature Magazine, The American Girl, Eoys' Life, The Magazine World and Harpers. These magazines, which are for the use of everyone, make a splendid addition to those others subscribed to by the school library. One day each week is set aside in the English 3 and 4 classes for a discussion of the current issue of Current Literature and special reports are also made from these magazines on these days. It is our aim to become well-read and widely informed citizens.

Shakespeare and his period, the Elizabethan Age, are occupying the attention of the English 4 class now. Special reports on the life, manners, customs and people of Shakespeare's day are being given, the material having been obtained by members of the class through research in the form of reading. Fitting in with our work, the October Atlantic Monthly brings us news of a sensational Shakespearean discovery. The tenth grade English class has just completed a study of Whittier, Holmes, Longfellow and Lowell, and are now concerned with the group of historians such as Parkman, Motley and Prescott who also aided in interpreting America.

WEST SIDE

Vail Gee was the only one in the third grade to get all A's in spelling this week.

The dentist found only one boy who could get a pin and have his name on the honor roll without going to the dentists. The lucky boy was Russell Bolser, a first grader.

The second grade are making health books.

The fourth and fifth grades report that they have learned how to add and subtract fractions. What a hard week they must have had.

—Henrietta Russell

Fifth Grade—We know how to add and subtract now. Donald Bussler and Madison

Smith both had 100 all last week. Those who received "A" in spelling last week: Lucinda Moore, Marjorie Huddings, Glenn Gee, Mary Kotovich, Jean Kracker, Basil Morgan, Evelyn Shay, Harold Lundy, John Craig, Ariene Engel. Some of the girls have been using crayolas to make pillow tops and lunch cloths.

The dentist was here last week. None of us got a pin the first day. Donald Walton got his the next day, and was first on the honor roll.

GRADES

First Grade—The first grade have Health posters in their room, also Hallowe'en posters with pictures of witches, black cats, and pumpkins on them. The real pumpkin was put on the teacher's desk and it makes the room have the spirit of Hallowe'en in it.

Third Grade—They have Hallowe'en posters in their room and also a poster of Felix, the cat. They are going to have some new decorations on their curtains. Let's all watch for them. They finished their booklets which was about the project of the butterfly.

Fourth Grade—The two butterflies hatched out which they were very interested in. They are studying about the teeth in Hygiene and are making health posters about their study. Hallowe'en is coming and they are planning on having a party.

Sixth Grade, Section I—This grade had a perfect attendance this last Monday. We are trying for a perfect record.

Galen Seiler brought a section of Georgia sugar cane for Nature study class. Irene Brintnall brought a very large mangel. We have also had many very beautiful and unusual fungus and lichen growths.

We are now studying leaves and plan to make a collection of leaves of this region.

Rodney Gibbard, Mary Lilak, Jessie McDonald, Anna Jean Sherman, Wilma Shepard, Leonard Smith, Helen Trojaneck and Irene Brintnall had 100 in spelling the past week.

William Bennett, Rodney Gibbard, Mary Lilak, Jessie McDonald and Kathryn Kitsman had the best marks in Arithmetic last week.

Our current events class is helping us find important and interesting news and to tell it in a pleasant manner with good clear voices.

As a result of our dental examination we found that Frank Strehl is the only one in our grade who has perfect teeth.

Our new health posters are very attractive. We will try to live up to them.

We are bringing materials, objects of any sort to make our room look like Holland, while we are studying the lowlands of Europe.

Sixth Grade, Section II—We had a picnic lunch Tuesday noon and enjoyed it very much.

This week we are going to study the parts of a newspaper and perhaps we shall attempt editing one of our own after we have made a thorough study of a daily news.

Monday, we all made an airplane flight across the English Channel to Holland, where we made trips down the canals, examined the dykes and old-fashioned windmills.

Last week some of us went to the library and found out some very interesting material concerning the Pope.

—Marian Kraemer

Seventh Grade—The seventh grade is planning to have a weenie roast Friday night after the football game.

In History the class is studying about the first English Colony in America.

In English the students are making a few speeches before the class.

The seventh and eighth grade boys are planning to have a football game after school Thursday afternoon.

—Phyllis Woerful

Eighth Grade English

The students are now studying the uses of adjectives and adverbs. They learn that adjectives supply details which give life and color to descriptions, and that adverbs answer such questions as how, when, where, why and to what degree.

LATIN

Latin I pupils are translating the story, "In a Roman School." We imagine this work would contain quite a few surprising elements of interest about the Roman school.

Latin II pupils are translating the story, "Ulysses and Circe." Circe who was a great sorceress of mythology was able to change men into wild beasts. The visit of Ulysses at the island where Circe dwelt was famous in Ancient Literature.

Do you want to buy, rent, or sell? Do you want employment or give employment? Try a Classified Adv.

A Bladder Physic

Is a medicine that works on the bladder as castor oil on the bowels. Drives out impurities and excess acids that cause irritation which results in getting up nights, frequent desire, burning, leg pains and backache. Get a 25c test box of BURETS. (5 gr. Tablets) the pleasant bladder physic from any druggist. After four days if not relieved go back and get your money. You will feel better after this cleansing and you get your regular sleep.—GIDLEY & MAC DRUG COMPANY.

America's Trust in God Perpetuated on Coins

The religious motto "In God We Trust" first appeared on the coins of the country in 1864. It was the result of the increased religious fervor brought on by the Civil war. The then secretary of the treasury, S. P. Chase, received many appeals from people all over the country urging that the Deity be recognized on the American coins in a like manner as those of foreign nations.

Secretary Chase wrote to the director of the mint at Philadelphia, November 30, 1861, stating that "no nation can be strong except in his strength of God, or safe except in his defense. The trust of our people in God should be declared on our national coins. You will cause a device to be prepared without unnecessary delay with a motto expressing in the fewest words possible this national recognition."

Several forms were suggested. Some of the coins prepared in 1862 bore the motto "God Our Trust" and some coined in 1863 were marked "God and Our Country." The familiar form of the motto was decided upon and the two-cent piece which appeared in 1864 were the first to carry it. The motto is not used on all coins.

Normal Human Instinct for Beauty in Clothes

One reason why clothes, or at least the clothes of men, excite so little interest is that they have become drab, and this drabness is excused on the ground that clothes are meant to be useful and comfortable; and usefulness and comfort have ceased to be associated with beauty in modern life. Neither reason, of course, is true. Clothes are worn to enhance human dignity, and, at bottom, only such comfort is wanted as shall not interfere with the prevailing mode. The women who starved and sliced themselves in order to keep slim, who will cripple their limbs with hobbled skirts when these are the wear, and crucify their feet when pointed toes and high heels are the fashion, display a normal human instinct. Men have suffered much and gladly to wear patent leather shoes at garden parties in the height of summer, and have choked themselves rapturously with tall, stiff collars; and comfort means little to them so long as they remain convinced of the rightness and fitness of both.—Osbert Burdett in the London Saturday Review.

Anatomical Names

In the body, one might find a bunch of grapes, a cuckoo bill, a small pan and a millstone, according to Lloyd Edwin Smith, writing in Hygeia Magazine. Many parts of the body were at first named by the old Romans and the Greeks for the commonplace objects that they seemed to resemble.

The bunch of grapes (or its name means that in Latin) is the red lobe of the palate, the uvula. It hangs down from the soft palate as a bunch of grapes would hang between two leaves. The coccyx (cuckoo bill in Latin) was named because the curvature of these four bones at the end of the vertebral column were thought to look like the bill of a cuckoo.

The patella is the movable bone in the knee. Patella in Latin means a small pan.

Opium in Commerce

Opium is the dried milky juice of the unripe capsules of a poppy which for this product has been cultivated through many centuries. Every species of poppy is capable of yielding it to a greater or less extent. Opium is procured by making incisions in the poppy head or capsule, taking care not to penetrate its cavity. The juice then exudes in drops, and after being allowed to remain for a day upon the edges of the incision it is scraped off—a brownish, jellylike material. As the soft opium accumulates it is molded into roundish lumps or irregular flattened cakes of various sizes and put aside to dry. When of proper consistency it is generally wrapped in leaves and sent to market.

Ancient Roman "Rocket"

Crassus, reputed to have been the richest man of his time, amassed a great fortune by his ingenious operation of a private fire department in old Rome. When a fire would break out, he or one of his agents would rush to the owner and offer to buy the burning structure at a very low figure. The owner usually would sell for almost nothing to get some salvage. Thereupon, Crassus would call up his fire brigade and, in many cases, put out the blaze. In this way he became owner of a great many buildings. It is hinted by early writers that when business was dull his agents may have had a hand in starting an occasional conflagration.

Woman Suffrage in 1797

Why has it never been imagined that the right of election should be extended to women? Why but because by the law of nations and perhaps also by the law of nature, that sex is dependent on ours; and because, therefore, their voice would be governed by the relation in which they stand in society. Therefore it is, sir, that with the exception of companies in which right of voting merely affects property, it has never been in the contemplation of the most absurd theorists to extend the elective franchise to the other sex.—Charles James Fox in Speech on Parliamentary Reform, 1797.

POULTRY MEN SEARCH FOR BETTER METHODS

Recent increases in the prices farmers get for eggs have aroused interest in ways to increase the production of eggs in Michigan flocks, according to the poultry husbandry department at Michigan State College.

The three essentials for good egg harvests mentioned by the College poultry men, are well bred birds, good rations, and proper housing. These basic requirements can be met by the flock owner at only a slight increase in cost above hit and miss methods which result in failure.

Houses need not be elaborate but they must provide protection against sudden weather changes, adequate ventilation, and light. One hundred birds will need 350 to 400 square feet of floor space which should be covered with clean, dry litter.

Laying hens should have access to a good dry mash in a self feeder at all times. Birds in the laying contest at the College are fed a mash mixture made from 150 pounds corn meal, 100 pounds ground oats, 100 pounds standard bran, 100 pounds flour middlings, 50 pounds meat scrap, 50 pounds alfalfa leaf meal, 15 pounds bone meal, and five pounds of fine table salt.

A scratch feed made from equal parts of cracked corn and wheat is

given twice daily, the larger portion being fed at night. The hens also receive green feed, and grit and oyster shell is kept in hoppers before the birds.

HOOK AND LINE FISHING PERMISSIBLE AT POWER DAM

Lansing, Oct. 14—Trout streams and portions of trout streams in which hook and line fishing for species on which there is an open season, at any time through the year, were announced today by the Department of Conservation.

The waters listed were provided for by the 1931 Legislature and are designated to make waters available to hook and line fishing throughout the year in instances when certain parts of "trout" streams were formerly designated as non-trout in order to permit taking of other species after the trout fishing season. Such streams now listed are no longer available to spearing and dipnetting.

The list was based largely on waters recommended for such designations by conservation officers.

The list for Charlevoix County is as follows: Deer Creek, power dam pond only on Sections 29 and 30, T32N, R6W, and Sec. 25, T32N, R7W.

Tell it to us—we'll tell the world.

Sworn to and subscribed before me this 14th day of October, 1931.

AGNES V. KENNY, Notary Public.

My commission expires Jan. 18, 1935.

HITE'S DRUG STORE

HERE is the news you've been waiting for—hoping for—wondering whether you'd hear it this year or next. The news of a NEW GASOLINE—a BETTER GASOLINE. Mark that last phrase! That which is new is not always better. But Standard Red Crown is NEW and BETTER. We introduce it to you as the best all-purpose gasoline ever put on the market. And we've anticipated some of the questions you'll want to ask about this brilliant, sparkling, modern fuel. From now on you'll hear plenty about Standard Red Crown—plenty of praise for a fuel that gives you more for your money—easy starting—more power—more performance—more miles.

Read these questions and answers—and then drive to the nearest STANDARD RED CROWN sign—for your first filling of "The Better Gasoline"

What is Standard Red Crown, the Better Gasoline?

A gasoline in which the fractions are so adjusted to weather conditions as to give a smooth flow of power at any season of the year.

What are fractions in Gasoline?

They're the compounds taken from petroleum each of which vaporizes within definite temperature limits. The skillful merging of these fractions and adjusting the proportions to meet different weather conditions make good gasoline.

What happens if these fractions are not properly adjusted?

The engine may perform satisfactorily under one set of conditions but not all. For example, in winter good gasoline requires large amounts of light ends to give quick starting and satisfactory performance, but in summer too much of these light ends causes vapor lock troubles.

Is Standard Red Crown a natural product?

No. Nature is not concerned with producing an ideal gasoline for automobiles. It must be made by skillful men. Standard Red Crown owes much of its anti-knock value to the use of the improved cracking processes developed by the Standard Oil Company (Indiana).

How is Standard Red Crown made?

Under processes developed in the research laboratories of the Standard Oil Company (Indiana) utilizing the tremendous refining facilities of this organization.

Is Standard Red Crown a NEW Gasoline?

Yes. It has just been put on the market.

Why do you recommend it for winter driving?

Because it starts easily and accelerates smoothly and because it can be depended upon to operate smoothly in the engine and deliver a rhythmic flow of tremendous power.

Why is Standard Red Crown recommended for 1931-32 cars?

Because it is designed to respond to the delicate adjustment of the latest type engines—because it performs better in the older types—because it burns clean at any speed—because it's priced to meet current economic conditions. It gives maximum performance at a moderate price.

Where can I buy Standard Red Crown Gasoline?

Standard Red Crown is sold where the Red Crown emblem is displayed. It is priced for the average pocketbook—but gives maximum performance.
