

Charlevoix County Herald.

VOLUME 36

EAST JORDAN, MICHIGAN, FRIDAY, JANUARY 22, 1932.

NUMBER 4

E. Jordan Wins Great Victory

IN AN OVER-TIME GAME AT MANCELONA LAST FRIDAY.

In a spectacular exhibition of Basketball, one of the best games ever played on Mancelona's floor, East Jordan High School Basketball team defeated Mancelona in an over-time game 16-15 last Friday.

The outstanding feature of the East Jordan team was their wonderful exhibition of team work, skillful offensive work of LaLonde and Somerville, aided by the great defensive work of Martin Somerville and Geo. Sherman made it possible for this great victory. Mancelona up to this game was an undefeated team and held bright hopes as serious contenders for the championship of northern Michigan. Just the week before they won the Antrim County championship, easily defeating Elk Rapids and Ellsworth.

The reserves also held up the honors of East Jordan by defeating the Mancelona reserves 21-17. In this game Preston Kenny shows that he deserves serious consideration as a first team man.

In the main game Walter Ellis proved to be a great "pinch hitter" and shows that he merits himself as a valuable man to the squad this year by coming through in the over-time period and sinking two free throws that won the game. With about four minutes to play at the last quarter, the score stood 14-8 in favor of East Jordan and this lead dwindled by the three spectacular long shots of the Mancelona guards. Bill Brown of Mancelona was the most dangerous threat, scoring seven points. An advantage to East Jordan came in the last of the third quarter when Johnson, their star guard went out of the game on personals.

The standings of the "Little Six" League now is that to-night's game between Boyne City and East Jordan will decide the leadership of this League with Boyne City as a great favorite. The East Jordanites have been practicing hard this week and hope to break the winning streak of Boyne City. Boyne has a veteran combination and rank as the strongest team in the North. This will be a great battle of wits between the two star players of Boyne City—H. White and Fox and Howard Somerville and LaLonde of East Jordan. In Tuesday night's game Boyne City defeated Grayling 33-15, and of those 33 points Ham White scored 14 and Fox scored 10.

East Jordan seems to be an "in and out" team up to the present time but now it looks as if they had hit their stride and are clicking together in fine shape.

The game to-night is the greatest game of the year in East Jordan and Boyne City will bring a large delegation to support the team. There will be two preliminary games between the Junior High of the two towns and the reserve teams of the two towns. Doors will open at 6.30. No one in East Jordan should miss this game because the boys surely need your support.

Score at end of half, Mancelona game—East Jordan 7; Mancelona 6. At end of game—East Jordan 16; Mancelona 15. Referee—Walker, of Alba.

MR. & MRS. BEN CLARK CELEBRATED GOLDEN WEDDING, THURSDAY

Mr. and Mrs. Benjamin Clark celebrated their Golden Wedding Anniversary at the home of their son, Mr. and Mrs. Joseph R. Clark of this city on Thursday, Jan. 14th.

Rev. George A. Weaver of Petoskey re-married the couple, using the same ring that was used fifty years ago.

After congratulations and being serenaded by the East Jordan High School Band, they went across the street to the home of Mrs. Joseph Clark's parents, Mr. and Mrs. Grant Hammond, where a wedding dinner was served. Decorations on the wedding cake, a miniature bride and groom, was the same as used 25 years ago. There were 43 old-time neighbors at the dinner, among whom were most of those present at the silver anniversary.

Mr. and Mrs. Clark were married in Monroe County, Michigan, Jan. 14, 1882, and came to Eveline Township, Charlevoix County, 38 years ago and where they still reside.

They have two sons, Joseph R. and Walter Clark, of East Jordan, and seven grandchildren.

She: "Say, Tom, you jest reminds me of an airplane."
He: "Dat so? How I 'minds yo' of an airplane? Is it 'cause I is such a high flier?"
She: "High flier nuthin'; it's 'cause yo' ain't no good on earth."

ODDFELLOWS AND REBEKAHS HOLD JOINT INSTALLATION

Jordan River Lodge No. 360, I. O. O. F., and Jasmine Rebekah Lodge No. 365, held a joint installation of officers at their lodge hall last Friday night. Following the installation an oyster supper was served to 85 members.

ODDFELLOWS INSTALLED
P. N. G.—Clarence Moorehouse.
N. G.—Jim Williams.
V. G.—Rex Hickox.
R. S.—Gilbert Sturgell.
F. S.—I. L. Bowen.
Treasurer—K. Bader.
Chaplain—Cash Hayden.
R. S. N. G.—Richard Lewis.
L. S. N. G.—Pat Foote.
R. S. V. G.—Andrew Sackett.
L. S. V. G.—Will Gaunt.
R. S. S.—Herman Hammond.
L. S. S.—Willard Moorehouse.
W.—Bob Jarman.
C.—Jack Hitchcock.
I. G.—Frank Cook.
O. G.—Robert Proctor.

REBEKAHS INSTALLED
N. G.—Reta Hickox.
V. G.—Jane Foote.
R. S.—Bertha Williams.
F. S.—Hilda Cook.
Treasurer—Etta Jones.
Chaplain—Kate Sackett.
R. S. N. G.—Rose Bartholomew.
L. S. N. G.—Hazel Conway.
R. S. V. G.—May Healey.
L. S. V. G.—Bessie Collins.
W.—Mercy Woerful.
C.—Anna Carr.
I. G.—Sylvia Gaunt.
O. G.—Iva Montroy.
Musician—Reta Bader.

Free School Band Concert

WEDNESDAY NIGHT, FEB. 3 AT H. S. AUDITORIUM.

The people of East Jordan and vicinity have an opportunity to hear our High School Band at a concert on Wednesday, Feb'y 3.

A varied program is in preparation which includes solos, duets and quartettes for almost every instrument in the band. There will also be a quartette for violins and cello.

The concert will be free to all. Watch for a complete program in next week's issue of the Herald.

MRS. A. BLAKE CHURCH MEMBER FOR FIFTY YEARS

The members and friends of the Methodist Episcopal Church gathered at the church Wednesday night, Jan. 20, to honor to one of their members, Mrs. Augusta Blake, who has been a member of the local church for the past fifty years. The large number present sat down to a fine complimentary banquet, the honored guest was presented with gifts of appreciation for such a long unbroken membership. The evening was spent in reminiscences by those present who have been members in the local church for a long term of years.

There are at present sixteen members who have been members of the church here for more than 30 years.

OVER ONE HUNDRED PRESENT AT LEGION RALLY

That there is an increased interest in American Legion activities in Charlevoix County was manifest Tuesday night when over one hundred members of the Charlevoix, Boyne City and East Jordan Posts met at the Oddfellows Hall in this city for their regular monthly get-together meeting.

A mulligan stew prepared by Chef Dr. B. J. Beuker, assisted by Jim Williams, was the main part of the menu. Following a business meeting in which welfare work and other topics were discussed, a program of entertainment was given. Among features were instrumental music by the Hungry Five, songs by Al Warda with E. J. Maynard accompanist, and a fight-skit by Messrs Steenhagen, DeDoe and LaLonde.

The next meeting will be at Charlevoix the third Tuesday in February.

Money Wasted
An old Scot purchased a radio set, and his friends came around a short time afterward to inquire how he liked it.
"Well," said Sandy, "it's alright to listen to, but them bulbs are nae so good to read by."

Brothers Admit Crime In North

TWO TAKEN AT EASTPORT CONFESS BREAKING AND ENTERING JOBS.

Theft of merchandise totalling more than \$2,000 has been cleared up with confessions by Walter Teboe, 25, and Herbert Teboe, 22, brothers, of a long list of breaking and entering cases. They were arrested at Eastport first of this week by Troopers Robert Cook and Merwyn Mitchell.

Among the crimes the Teboe brothers admitted was the looting of the summer home of Mrs. Iva E. Miller of Detroit, six miles from Mancelona, where they took rugs, all the furniture, pictures, bedding, table linen and jewelry. When they left the house was virtually emptied. This was on Dec. 15.

Earlier in December they had broken into the store of Frank Zarembo at Elmira, where they stole 600 lbs. of sugar, 10 sacks of pancake flour, a box of hand soap, case of catsup, 130 pounds of lard, 50 pounds of onions and several pairs of overalls.

At Big Fish Inn in Ellsworth they sawed the lock in to and stole three outboard motors. Near East Jordan they stole a Ford truck and a barrel of oil. From Joe Kemp, near Ironton they stole a cow and sold it.

In an abandoned shack near Elmira the troopers found all of the furniture and many of the groceries. They recovered also the truck and oil. The two men are now in jail at Gaylord.

LIBRARY NOTES

The Committee on Unemployment has placed its official confidence in books to help all of us toward readjustment—commending to people of these States the reading of books of political, social and economic character. Material on these subjects will be found at the Library.

Following is the annual report for the year 1931 of the East Jordan Public Library:

Number of days open	308
Number of visitors	20,976
Number of books loaned	15,888
Average number of visitors a day	68
Average number of books loaned per day	52
Number of books given to library	45
Fines collected	\$48.74

Evolution of Ships

A special exhibition of primitive rafts and canoes was recently held in London. They were designed to illustrate the successive developments by which these primitive craft have given rise to the built boats of modern Europe. About forty models and sixty illuminated photo-transparencies showing native canoes in actual use were placed in the entrance hall of the museum. Items of special interest included a comparison between the method used by the ancient Egyptians in boat-building and that still employed in the almost exactly similar boats of the Ganges; also a suggestion as to the origin of the Chinese sampan as a development from the catamaran of the Madras coast.

"The Sun Drawing Water"

The sun does not draw water. The beams of sunlight appearing as streaks running from the sun toward the horizon are made visible through the illumination of dust and other particles in the atmosphere. Meteorologists call the phenomenon crepuscular rays. A similar phenomenon is produced on a small scale when a beam of sunlight shines into a room in which the air is dusty. But there is some truth in the belief that "the sun drawing water" may be a portent of approaching wet weather, for the phenomenon would not be well defined if it were not for the presence of dense clouds and haze resulting from a considerable amount of moisture in the atmosphere.

Colonial Architecture

When speaking of Colonial buildings, none should be included of a date later than 1776. In New England most of the buildings of Colonial times were of wood and were built by carpenters who were also shipbuilders. These artisans developed a style that had a flavor of its own and differed in many respects as to detail from that done in New York, where the settlers had a Dutch background, which was different from the English background of New England. The Colonial style of Pennsylvania is characterized by sturdiness and solidity. Most of the buildings were of brick or stone, and the detail was not so delicate as that of New England.

Hearing Set For Jan 26

ON PROPOSED ABANDONMENT OF E. J. & S. R. R.

The date of hearing in the matter of the proposed abandonment of the East Jordan & Southern R. R. has been set by the Michigan Public Utilities Commission for Tuesday, Jan. 26th, at 9:30 a. m. in the High School.

Every citizen of East Jordan should be interested in this matter and everyone is urged to be present.

MRS. JOHN PORTER GAVE ADDRESS AT P. T. A. MEETING

The January meeting of the P. T. A. was held in the High School building on Thursday afternoon, Jan. 14.

The roll call was responded to by each one present giving "One essential of a good home."

An interesting dramatization of the poem, "The Old Dutch Clock" was given by a group of children from the fifth grade.

The address of the meeting was given by Mrs. John Porter. She gave the definition of "Education" and the seven principles of Education as adopted by the National P. T. A. "Education" is guided growth." The seven cardinal principles are:

1. Health.
2. Worthy Home Membership.
3. Mastery of the tools, technique and the spirit of learning.
4. Faithful citizenship.
5. Vocational and economical efficiency.
6. Wise use of leisure.
7. Character building.

An extended discussion followed the address in which all who took part agreed that these goals cannot be attained unless school children get more sleep than many of them now do. "Earlier to bed" must be observed if the children are properly to master the "spirit of learning."

It was voted that there should be refreshments served at one evening meeting during the year.

The meetings of the P. T. A. are affording an excellent opportunity to promote co-operation between the school and the home in the attainment of educational ideals.

CHAMBER OF COMMERCE APPRECIATES SERVICES OF A. K. HILL

At the January meeting of the Chamber of Commerce of the City of East Jordan the following action was taken:

The Chamber of Commerce of the City of East Jordan has sustained a loss that its members feel keenly in the death of its President, Arthur K. Hill.

Arthur Hill had lived in East Jordan for many years; his varied interests in civic affairs had brought him in contact with so many people that everybody seemed to know him; his kind heart and genial disposition gave his contacts the glow of friendship. Because of these things Mr. Hill was one of our prominent citizens; he filled a place of usefulness in our community that was unique.

As President of the East Jordan Chamber of Commerce Mr. Hill was rendering a high quality of service. He lived up to the high traditions of the office. His gift of initiative blended finely with his splendid trait of perseverance. He had vision, and he was resourceful in the choice of practical methods in the approach to the goals of his vision. His enthusiasm was contagious and his good nature added joy to the zest of the activities of the Chamber of Commerce.

We appreciated his services while he was with us, and we now desire to make record of that appreciation and to express the deep sense of our loss. We extend our sympathy to the immediate relatives and direct that copies of this action be sent to the widowed wife, to the bereaved mother and to the Charlevoix County Herald.

In behalf of the East Jordan Chamber of Commerce.
C. W. Sidebotham
W. A. Stroebel
J. F. Kenny
Committee

East Jordan, Michigan
January 13, 1932.

The teacher was trying to impress upon her pupils the importance of doing right at all times, and to bring out the answer "Bad habits," she inquired: "What is it we find so easy to get into and so hard to get out of?"
There was a silence for a moment and then one little fellow answered, "Bed."

ANNUAL MEETING OF TOP O' MICH. SHOW NEXT MONDAY

The Annual Meeting of the Top O' Michigan Potato Show Association to be held at Gaylord Court House on Monday, Jan. 25, at 1:30 Eastern Standard Time will be of interest to hundreds of northern Michigan farmers.

Secretary, B. C. Mellencamp of Coyne City, will give a report of last year's Show which should be highly gratifying to all boosters of this great event. Plans and preparations for the 1932 Show will also be discussed.

The annual election of officers and directors will take place, and inasmuch as no organization can ever be successful without the proper guidance, it is hoped that you will be present to assist in their selection.

There is no exhibition in northern Michigan that exceeds the number of exhibitors and the size of territory that is included in the Top O' Michigan Potato Show. Each year seems to be better than the one preceding, so let us all unite in making the 1932 Show the best ever. Remember that all farmers are invited to attend, as well as other individuals who are deeply interested in the agricultural progress in Northern Michigan.
B. C. MELLENCAMP,
Secretary.

ANNOUNCE SPEAKERS FOR FARMERS WEEK

The list of speakers for the general and sectional meetings at Farmers Week to be held at Michigan State College, Feb. 1-5, includes nearly 200 men and women prominent in all fields related to agriculture and home economics.

Governor Wilbur M. Brucker; L. J. Taber, Columbus, Ohio, Master of the National Grange; Dr. C. E. Ladd, Ithaca, New York, Director of Extension work; C. S. Brown, Washington, D. C., representative of the Federal Farm Board; Duncan Marshall, Toronto, former Minister of Agriculture in Canada; Mr. H. Ullsberger, Benton Harbor, manager of Great Lakes Fruit Growers, Inc., and John L. Lovett, Detroit, secretary, Michigan Manufacturers Ass'n, will be speakers on the general programs held in the afternoons and evenings.

Complete sectional programs with several speakers for each day's sessions have been arranged by many of the college departments. These meetings are held from 9:00 a. m., to 2:00 p. m., and are adjourned to permit everyone to attend the general meetings. Many of the sectional programs bring successful men or women direct from their farm homes to tell their methods of meeting present day conditions of producing crops and livestock.

Thirty State-wide organizations which have been leaders in better farming and living practices hold annual meetings during the week and most of them elect officers for next year.

Two programs in which entertainments will divide time with able speakers are scheduled for Wednesday and Thursday nights.

IRONTON GRANGE HOLDS MEETING

Ironton Grange met in regular session, Tuesday, Jan. 12th. There were thirty-nine visiting members from Barnard Grange and fourteen from Marion Center.

Twelve former members of Ironton re-instated in the order and five new members were initiated. Members of Barnard Grange performed the initiation work and later put on a program that was both entertaining and instructive, and clearly demonstrated what a lot of real good a well-organized Grange can do for a rural community.

Mr. Paddock gave a talk on what the Grange had worked for and accomplished and the things it was still working for.

Ironton Grange greatly appreciates the efforts of these neighboring Orders to assist them in building up a Grange that will ever be a help in making better homes, better farms, better social relations and better citizenship throughout the community.

Anna Nasson, Sec'y

Extension of Time For Paying City Taxes

Time for paying, without penalty, Winter Taxes for the City of East Jordan has been extended to March 1st, 1932.

G. E. BOSWELL,
City Treasurer.

Masons-Foundry Now In Front

RIVALS MEET AGAIN NEXT MONDAY NIGHT, JAN. 25.

Last Monday's games left the Masons and the Foundry in a tie for the League lead.

The Legion forfeited the opening game to the Foundry, and the Masons pounded out a 23-13 victory over the Indies.

The Masons, after dropping three of their first four games and finding themselves with their back to the wall, have fought their way back into a tie for the League lead. This is an example of the type of fighting all the teams have had to do this year. In fact, it is doubtful if the championship will be decided before the last night or so and then one error may mean the winning or losing of it.

Monday the Masons pounded the ball hard and fast in the first two innings to take a commanding lead. After the Masons had made eleven runs in the first inning and four more in the second, due to a combination of some hard hitting and a few errors, Jack McKinnon took over the mound for the Indies and held the sluggers pretty well in check except in the eighth when they put over five more runs.

Charlie was touched for fourteen hits in two innings, McKinnon gave out ten hits in six innings and got five strikeouts. Roberts allowed twenty hits in nine innings and was credited with three strikeouts.

Next week the Masons and the Foundry meet in the second game so one team is bound to go home in the lead next Monday night.

Score by innings:

	R	H	E
Indies	3	1	1
Masons	11	4	0
Batteries: Dennis, McKinnon and L. Somerville; Roberts and Cohen.			

Arrangements have been made to change Umpires at the end of the first half of the season. Mr. Leitch and Clarence Halstad will act for the second half of the season.

PETOSKEY DEFEATS EAST JORDAN 19-14

The staging of a six run rally, after two were out in the first of the ninth, brought victory to the Petoskey Independents in the local Gym last Thursday evening by a score of 19-14.

Despite the fact that the game was played on rather short notice a large crowd of fans were on hand. The High School Band was also on deck and kept the crowd and teams pepped up during their pre-game workouts, with a group of lively marches. The League management wishes to take this opportunity to thank the band members for their part of the program.

The game did not drag at any time and there was plenty of excitement to keep the fans alive. Johansen, mid-gut Petoskey shortstop, took a bad fall in the fifth when he took a head-first plunge over the footlights trying to reach a foul fly. However he escaped injury by grabbing the foot-light reflector as he fell.

Floyd Potts, Petoskey's star twinner for the last few years, using all his customary cunningness and psychology, had rather an easy time of it against our fellows, especially the boys who had never faced him before, for the first few innings. But the fellows got after him in the sixth and Conant replaced him at the start of the seventh. After we had pounded Conant for four runs in the seventh, one in the eighth and three in the ninth, Potts returned to the mound to check the rally as the locals threatened to tie the score.

"Squeeze" Green pitched most of the game for the locals, Seiler going in in the ninth.

Covey, with three hits in three times up and Bechtold and Watson with three out of four each led the East Jordan attack.

Potts, with three out of five and Fred Rose, with three out of six led the Petoskey team.

Score by innings:

	R	H	E
Petoskey	2	1	0
E. Jordan	1	0	0
Batteries: Potts, Conant and Fred Rose; Green, Seiler, Cohen, and F. Bennett.			

BASEBALL

DAROL
McLession Robbins

People of the World
The present population of the world is approximately 1,900,000,000. Estimates of world population before 1880 are not very trustworthy. Sir George Knibbs, however, considers that Mitchell's estimate of 1,000,000,000 for 1845 is as well founded a guess as can be made. Accepting this estimate, it can be calculated that between 1845 and 1914 the average annual increase of the world population was 7 per cent. It was, in other words, increasing at a rate which would double the population in less than 100 years.

Stiff, Aching, Sore!
Get quick relief this simple way
Here's the way to relieve painful lumbago without blistering or burning. Rub on good old St. Jacobs Oil. Quickly it draws out inflammation and pain. Wonderful relief comes... in a minute! St. Jacobs Oil is just the remedy for aches and pains of Rheumatism, Neuritis, Lumbago, Backache, Neuralgia and swollen joints. Get a small bottle from your druggist.

Large Incomes
A recent estimate of the number of persons worth \$1,000,000 or more as shown by their paying tax on income of \$50,000 and upward was 14,000. In 1925 it was reported that there were 207 persons paying tax on incomes of \$1,000,000 and more, including seven who paid on incomes of \$5,000,000 or over, nine who paid on incomes between \$3,000,000 and \$4,000,000 and 29 who paid on incomes between \$2,000,000 and \$3,000,000.

Little Girl Cried Out in her sleep
Was irritable, restless, cross and had no appetite. A neighbor suggested worms and recommended Dr. Jayne's Vermifuge. After taking one bottle the little girl was a new child. Only too often children, as well as adults, are subjected to drastic treatments for various ailments when their real trouble is worms. Be alert for the symptoms and treat promptly with Dr. Jayne's Vermifuge at the first suggestion that worms may be present. Your druggist will tell you that many of your neighbors are using this proved remedy. Get a bottle today. DR. D. JAYNE & SON, Philadelphia.
OVER 35 MILLION BOTTLES SOLD

Jayne's Vermifuge
Yes! Please
"Ladies and gentlemen," said the lecturer. "I understand the language of wild animals."
From the back of the hall came a voice: "Well, the next time you see a skunk, ask him what's the big idea."

Nervous, Pains in Her Sides and Back...
"I had pains in my sides and back, and each month my suffering would increase so that I would not be able to do anything for several days," said Mrs. Herman King of 1228 Calumet Ave., "and I would be all dragged-out and weak. I took Dr. Pierce's Favorite Prescription and it restored my nerves, corrected my periodic distress and put me in good condition." All druggists.
For free advice write to Dr. Pierce's Clinic in Buffalo, N. Y., using the symptom blank which is wrapped around each bottle of Dr. Pierce's Prescription
A man may have a good opinion of himself and deserve it.
Self-control often comes from feeble enthusiasms.

Drink Away that heavy, drowsy feeling!
When constipation signals, bring back the flush of health to your face by flushing the bowels thoroughly. A cup or two of Garfield Tea will cleanse away unhealthy, stagnant waste, renew the feeling of energy and pep off the nervous druggist.

A Natural Laxative Drink
W. N. U., DETROIT, NO. 4-1932

DAIRY

BEST TO LET COW FRESHEN IN FALL

Several Excellent Reasons for the Practice.

Usually the cow bred during the latter part of January or in February will freshen in early fall and will produce more butterfat through a twelve-month period than when bred to freshen in the spring.
"The cow that freshens in the fall does not suffer from hot weather and flies during the period of her heaviest milk flow as does the cow that freshens in the spring," suggests A. C. Kimrey of the dairy extension office at the North Carolina State college. "The rush of the summer work is over in the fall, and the owner has more time to care for the cow during this heavy producing period. Then, too, the prices for butterfat are usually better in winter than in summer. December butterfat often sells for 10 to 12 cents a pound more than May and June butterfat."

Mr. Kimrey finds that a majority of the creameries in North Carolina has a surplus of butter during the summer months but a scarcity in winter. This means that much of the product must be consigned to the large central markets at a sacrifice in price. In winter it is hard to supply the local demand. Since the payments made to dairymen for their butterfat are based on the price which the creameries receive for their manufactured butter, it seems only wise to try to sell the most fat when the best prices may be obtained. Mr. Kimrey says.

A little more attention by dairymen to the breeding period of their cows would make possible a greater annual income per cow, he suggests.

Not Hard to Deal With Feed Shortage Problem

Recent feeding inquiries from certain sections of the country indicate a shortage of feed for dairy cattle. Under such conditions as these, owners of dairy cattle are confronted with the problem of buying some feed or of reducing the herd. They are, as a rule, reluctant to reduce the herd. If they can only get the herd through the winter they feel that they can then carry on to better economic advantage. It is not very good business to buy feed, even at low prices, and then turn around and sell it to inherently poor producing cows, says Hoard's Dairyman. The first step in an intelligent solution of this feed shortage problem is to find out whether one has any inherently poor producers and if so which ones they are. The next step is to actually get these cows off the farm—sell them to the butcher. An empty stall or two will make more money than a poor cow or two when one must buy feed. The third step is to make and feed good rations to the remaining good cows even if some of the feed must be purchased.

Butter Consumption

Since the educational work of the dairy council has been under way, butter consumption has steadily increased throughout the United States. At present, government reports of July 1, 1931, based on production and storage holdings, show 24,000,000 pounds more of creamery butter were consumed the first six months of this year than last year. This is three ounces per person throughout the United States. If this increase has been maintained for the last six months of the year, it will be an increase in consumption of 20,000,000 pounds more than the total surplus holdings of 1929, which broke the price of butter 12 cents a pound. Other causes have doubtless helped, but this educational work has been of outstanding value at this time.—Hoard's Dairyman.

Keep Fanning Mill Going

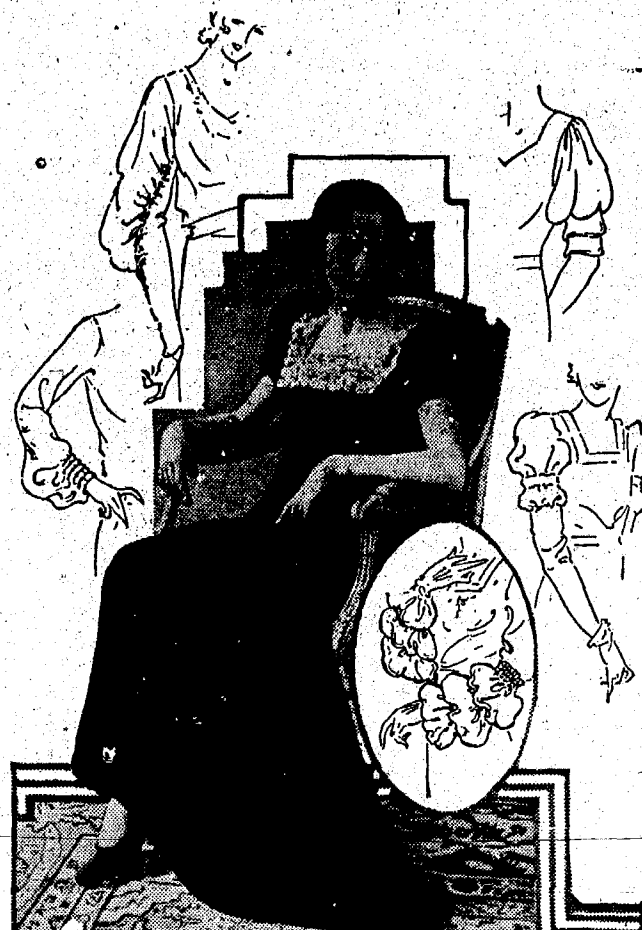

There is a continual fanning mill action going on in all walks of life blowing out the ineffectual and inefficient. Just as you clean the chaff from your seed grain, you take out the cripples from your dairy herd. You must go further, however. There are many cows that look like cows, pretty fair cows, that are fooling you. Only the keeping of individual cow records will show you these cows. They are the "Blue Cows." If your herd is to be as profitable as it can be they must be found. Not only the fanning mill to weed out the chaff, but the sieve of production records such as are furnished by the Dairy Herd Improvement associations and the statewide cow testing association are necessary.—Minnesota Farm Bulletin.

Benefit of Drinking Cups

We understand some tests were made in the Iowa State College of Agriculture and as a result, cows given free access to drinking cups produced about 6 per cent more milk and about 12 per cent more butterfat than cows turned outside to drink at a trough. As near as could be determined the cows drank about 18 per cent more water from the buckets than they did from outdoor troughs. They drank about ten times every 24 hours.—American Agriculturist.

Puff Sleeves in Versatile Mood

By CHERIE NICHOLAS

Puff, puff, puff goes the modern sleeve. Most often the sleeves in the newest party and afternoon frocks make the gesture of a single puff at the top, which is quite early Victorian and ever so quaint and charming according to the lovely gown pictured.

This girlish velvet frock tells a fascinating story of the little puff sleeve. It is an ideal dress for the college girl. It is chic for all informal occasions and may even be worn for evening, as it is quite the latest for party gowns to have tiny puffed sleeves. Thus a gown of sheer velvet, as is the model pictured, has the advantage of doing double duty. It is not only the naive puff sleeves which intrigue for the new square neckline of the dainty lace yoke is likewise beguiling in this frock.

A puff or puffs are apt to locate anywhere on the sleeve, singly, doubly or in numbers as fancy may dictate. The little pen-and-ink sketches, grouped about the attractive velvet gown in the illustration, reveal a versatile fashioning of sleeves which make puffs their feature.

When two little puffs are set at the top of the sleeve, as sketched below to the right, then the effect suggests a Florentine painting of a medieval lady, especially if the gown which it distinguishes be made of royal velvet or handsome brocade—all very formal and picturesque.

However, all sorts of puffed treatments are depicted in the outline drawings herewith, from formal to informal, some showing intricate workmanship. The elaborate sleeve with its series of puffs arranged row and row at the bottom of the sleeve, as delineated in the oval, shows a characteristic trend where self-fabric is ingeniously worked as in the instance of many of the handsomest velvet evening coats which have no other trim-

THREE TYPES OF SLEEVES ON VIEW

There are three types of sleeves on daytime frocks that stand out from the general mass, as it were—the balloon-top sleeves, tight between wrist and elbow or a little higher; the rather loose, straight sleeve which is attached to a wide shoulder yoke that ends midway between shoulder and elbow, and the peasant-puffed sleeve, with the puff over the elbow, and tight above and below this. Coats, of course, don't have puffed sleeves, but they do interesting things with fur just the same. Sometimes the sleeve is fur from wrist to elbow, or else from elbow to shoulder—and the very smartest and newest are entirely fur! And shoulders? These are drop-shoulder effects, given by wide shoulder yokes; kimono style, or raglan. They are roomy and generally square. And though there is an occasional sloping shoulder, it, too, is comfortably roomy.

Velveteen an Effective Complement to Woolens

The vogue of woolens has done much toward stimulating interest in velveteens. The French couture continues to advocate the alliance of velveteen coat or jacket with a woolen dress. One dressmaker is featuring them with wool mesh frocks. Southern resort and cruise fashion showings also indicate a continued sponsorship of this fabric combination, and one finds dark or high colored velveteens accompanying white or pastel lightweight waisted.

Black and Red

This gay color combination is featured in an evening gown which first saw the light of day in Paris. It is of black velvet, long and slinky with inserts of coral red velvet set in under the armholes.

ming save their own material, which has been extravagantly puffed and shirred.

In the latest dresses there is a general tendency to emphasize width at the shoulders. The sleeve with a puff plays an important part in this movement. In this connection even the once popular leg o' mutton sleeve has been revived by certain Paris designers of high standing.

Speaking of sleeves in general, not for years have they been so capricious. Their eccentricities are the more accentuated in that frequently the rest of the gown is severely plain, a highly ornamental note being sounded in the sleeves only. One notes this tendency especially in the simple evening gown of velvet or satin preferably, which has a deep-cut armhole, the short sleeve being of spangled chiffon or some other sheer material, which scintillates with sparkling embroidery.

Sleeves in many a modish afternoon gown call attention unto themselves in that they are made of an entirely different material than that of the dress proper. That is the sleeves may be of lace or richly embroidered effects, or that which is especially favored, sheer metal weaves.

The fur-trimmed sleeve continues to be a theme of interest. The evening or afternoon gown of sheer fabric with a jacket or a bolero usually displays a band of fur on the short or long flowing sleeve as the case may be. Ruches of plumed material also border many sleeves. Sometimes these ruchings are formed of flowers.

Another Abdication

The dethronement of man is the cause of the breakdown of the American home, says some one. You are right; a man said it.—Los Angeles Times.

MANY BUTTONS

By CHERIE NICHOLAS

Ocean pearl buttons of matching color serve as a practical fastening at the same time that they ornament this tailored blouse of Algerian yellow silk. The suit is of brown tweed collared in red fox. The new midwinter and resort collections stress the importance of buttons. Pretty effects are achieved in that many of the new buttons are very colorful and are made to enter into the color scheme of the costume.

Lesson for January 24

JESUS AND THE SAMARITAN WOMAN

LESSON TEXT—John 4:1-42.
GOLDEN TEXT—This is a faithful saying, and worthy of all acceptance, that Christ Jesus came into the world to save sinners; of whom I am chief.
PRIMARY TOPIC—Jesus Helps a Stranger.
JUNIOR TOPIC—Jesus Befriends a Foreigner.
INTERMEDIATE AND SENIOR TOPIC—Jesus Talking with a Samaritan Woman.
YOUNG PEOPLE AND ADULT TOPIC—How Jesus Deals with Sinners.

I. Jesus at Jacob's Well, (vv. 1-9).
The growing popularity of Jesus aroused the envious opposition of the Pharisees which obliged him to leave Judea and go into Samaria. There was another way to reach Galilee, on the eastern side of the Jordan, the one used by many Jews to avoid contact with the despised Samaritans. He "must needs go through Samaria" in order to find this poor sinful woman and the needy citizens of Sychar. The great necessity which was upon him was to seek and to save that which was lost (Luke 19:10).

II. Jesus' Testimony to the Samaritan Woman (vv. 7-20).
1. A favor asked (vv. 7-9). Jesus tactfully made a request which appealed to the woman's sympathy. Not only did the thirst of the weary traveler appeal to her, but the fact that he, being a Jew, asked a favor of her, showed his sympathy for her. In introducing the conversation, he referred to that which was uppermost in her mind; namely, water. This was the divine Teacher's point of contact. He soon passed from earthly water to the water of everlasting life which was in himself.

2. Jesus' tender dealing with this woman (vv. 10-15). He first appealed to her curiosity by declaring, "If thou knewest the gift of God" (v. 10). He knew the deep unrest of the soul of this sinful woman as she went on her way. He knew that if she really knew him, she would believe in him and be saved from her sins. Therefore, he first sought to get her attention. This appeal to her curiosity was followed by a promise which directed her attention to her deepest needs. There is a consciousness of deep need in every soul. In her efforts to satisfy her nature, this poor woman respected neither the law of God nor the rights of men. The deepest need of the soul can only be satisfied by Jesus Christ. The woman's reply, "Sir, give me this water that I thirst not," is the inarticulate cry of every human heart.

3. The woman convicted of her sins (vv. 15-19). Jesus succeeded in arousing her interest, but she did not really understand him. Before she could understand what the water of life is, she must be convicted of her sins. He skillfully gave the command which brought her face to face with the facts of her life that she was unwilling to confess. She did not argue with him, but became a humble inquirer. The soul must be convicted of its sin before there can be conversion.

4. The problem of worship submitted to Christ (vv. 20-24). This she did as soon as she perceived him to be a prophet. This indicates that he was succeeding in bringing her mind to spiritual things. Jesus, knowing the inner life of this woman, told her of the glad time, even then present, when true worshippers could hold intercourse with God anywhere. He showed her that the place of worship is unimportant, that the all-important thing is to have the true conception of God as brought through the Jews. He exposed the folly of a religion of form only, and showed that acceptable worship depends upon the condition of the heart.

5. The woman of Samaria witnessing for Christ (vv. 27-39). When the disciples perceived that Jesus talked with the woman, they marveled, yet they hesitated to ask him for an explanation. The woman left her water pot and went into the city and said, "Come, see a man, which told me all things that ever I did: is not this the Christ?" As soon as she was converted she became an enthusiastic missionary.

III. Jesus Testifying to the Citizens of Sychar (vv. 40, 41).
The woman's testimony brought the request from the Samaritans that Jesus tarry with them. He abode with them two days. Though they heard the woman's testimony, their belief was due to Christ's own word (v. 41).

IV. The Samaritans Witnessing for Christ (v. 42).
They declared, "We know that this is indeed the Christ, the Saviour of the world." They confessed to the woman that their belief was not then due to her testimony, but to having heard him.

Two Bible Keys

Unless a man believe the Bible to be the word of God, containing the truth and nothing but the truth, he cannot understand it in its parts. Unless he believe that Jesus Christ not only has come, but also will yet come again, he cannot understand the Bible as a whole.—Panin.

The Christian's Business

"As the business of the soldier is to fight, so the business of the Christian is to be like Christ."

THE MEN on the DEAD MAN'S CHEST by Clifford Raymond

(WNU Service.)
Copyright, The Bobbs-Merrill Co.

FROM THE BEGINNING

During a frustrated "holdup" at the Dutch Mill, a fashionable Chicago night club, a patron later identified as Dunn Clayton is shot and killed. Lieutenant of Police Stanton, investigating, questions a voluntary witness, calling himself "Buck" Trembly.

CHAPTER I—Continued

"The man I'd known elsewhere," he explained. "He was my reason for coming to Chicago. The women were incidental. They were his suggestion."

Clayton evidently had awaited the coming of only one person. His table was for two. When the three hold-up men took the scene the man who was to become the only victim had been imperturbable.

"I wasn't very nervous myself," said Trembly, "but I thought he was less so."

"I don't know how nervous you'd be, mister," said the lieutenant, "but there wouldn't have been any false starts from Clayton."

"You knew him?"

"A bit of him. He might have taken the three of them in another five minutes if he had not been shot."

"Maybe they knew that."

"Not the faintest chance. Those bums didn't know anything. If they had they'd have known they didn't have a chance from the beginning. They were exposed on all sides. It was so raw that they ought to be given another chance before they're tried. But what happened?"

"The shot. I was looking at Clayton, saw him crumple, looked around and saw the fellow who shot him put his pistol in his overcoat pocket and walk out."

"Have you a gun?"

"Yes."

"You're a competent citizen. You rather say so yourself. And you look like one. Why didn't you crack this killer?"

"I'm not that good, Lieutenant," said Trembly. "Things were happening a bit too fast. You wouldn't count on the fellows you call bums bolting the way they did."

"They would have bolted if some one had dropped a plate or slammed a door."

"Anyway, I sat dumb."

"Could you describe or identify the man?"

"Not a chance," said Trembly. "What I saw of his face was next to nothing, a blur. For the rest of it I could tell you that he was probably five feet eight or nine, one hundred and sixty-five to one hundred and seventy pounds and wore a black overcoat."

"Half the male citizenship of 'the town,'" said the lieutenant. "Where are you staying, Buck?"

"I'm not staying," said Trembly. "I'm leaving at two forty-five for Minneapolis. That is, if you do not need me further. I hope you don't."

"I don't see why I should make you any inconvenience, Buck. You've tried to come in with what you knew. You might not think that a copper would want to keep these poor bums from standing trial for something they didn't do, but I'd rather get the fellow who really did it. Give me the names of the people you were to meet here, will you? I suppose they came about the time the party was breaking for the outside and took themselves out of the picture. Write me their names and addresses, Buck."

"I know only the man's," said Trembly.

"That's all right. A fellow can find a lot of women's names in this place. You stay here just a minute while I talk with the detectives. I should have said dicks, I suppose. Eh, Buck? Lots of us are queer fish. Now, you'd never guess that my hobbies are ants and bees. So probably I say detectives. Anyway, the detective headquarters is on the job. That will end my concern with it. I'll be back in a moment. Just write me the man's name and address on a bit of paper."

As soon as the lieutenant had gone out of the office Trembly took a piece of paper from the desk at his side and after a moment's consideration wrote:

"A. P. Willard
3220 May Place."

Five minutes later the lieutenant came back.

"You've got something under an hour for your train, Buck," he said. "I had them stop a taxi for you. As a formality would you let me see your gun? They ask these d—n fool questions of us. Did you see his gun? No. You knew he had one? Yes. He told you he had? Yes. You didn't see it? No. And you're a copper? A copper, you are! I'm being pretty considerate, don't you think, mister? Let's see the old gat."

"Why not Buck?" Trembly asked, smiling as he drew his pistol.

"Sometimes I feel Buck and sometimes I feel mister. You know how it goes with prima donnas. Now, one time," he broke the pistol and glanced at its chambers, "I might have felt like framing these bums we've got. Tonight I don't. Pistol's all right, Buck. Thank you. Your cab's outside. We'll not bother you any more. You've been a good scout. I told you I was interested in ants and bees? Sure. I just wanted you to think of me as a human being. Many coppers are when you see them at home."

Arthur, or Buck, Trembly was the only son of a Buffalo attorney of reputation and wealth, whose money was made in hydroelectricity. The father was a graduate of the Massachusetts Institute of Technology and of the Harvard Law school. There were six children, but Arthur was the only son. He had gone into Canada and had been a trooper in the Royal Mounted. He had got his man on a number of occasions, but on one the question why had arisen. The man could not answer it because he was dead. There was too much plausibility in Trembly's report for an official inquiry to be indicated or demanded. Nevertheless a question remained. It would have had more insistence if it had been known where the man's bag of gold was, (1) an hour before his death; (2) an hour afterward. Arthur never rejoined his reputable Buffalo family circle.

Trembly had married twice. His first wife had been the daughter of a well-to-do Indianapolis family who inherited one hundred thousand dollars on the death of her father. Mr. and Mrs. Trembly made identical wills, each bequeathing to the other all possessions. Mrs. Trembly died the year following her father's death. Trembly did not marry again until 1927.

CHAPTER II

The Necessary Dame

All aside from what John Law and his tipstaffs might think of it, Dunn Clayton had died nice. He had been much too busy a man to linger weakly and wretchedly in his bed and pick

"Pistol's All Right, Buck."

at his coverlet. Although he had changed his boots for spats it was consistent with his living that his dying should find them on.

He was buried Tuesday, October 2, after the coroner's jury had taken its view. His funeral was a sober and decent affair with American Legion recognition of his good war record. The morning of the burying Lieutenant Stanton came to the station out of uniform.

"Going somewhere?" his captain asked him. "State's attorney wants to see you, Clayton, I suppose."

"I'm going to Clayton's funeral," said the lieutenant.

"You believe the murderers always turn up at the burying?"

"This one won't. I knew a bit of Clayton when he was a square shooter."

"Yes, and when was that?"

"In the latest war. But why me to the state's attorney? I'm not a 'detective.'"

"Corvaleski has asked for you. The squad car will take you down."

At the state's attorney's door the lieutenant had a wait of ten minutes. Then Horde, the first assistant, came out.

"Hullo, Stanton," he said, "glad to have you back on a case. Come on in."

"Don't kid me, man," said the lieutenant. "When did you ever have me on a case? I'm not a detective. I'm an officer of patrolmen. You ought to know the difference."

"Anyway, come in. He wants to see you."

They went inside.

"Back again," said the state's attorney. "You can't help yourself, can you? Always falling into something nice. Red meat. Reputation. Fame. The fang of the law."

"Mr. Corvaleski," said the lieutenant, "you're not the man to kid a lieutenant of police. Fangs of law aren't Lieutenant's at East Chicago Avenue."

"How are the bees and ants? You'll be chief yet?"

"Of the bees and ants? Listen, Mr. Corvaleski, being chief, which I'll never be, won't get me anything. Now, a poultry farm? Or did you ever think of pecans or grapefruit down south?"

"That settles it. You'll be chief. You'll start a couple new police rackets. When you're worth a million dollars you'll be discovered. I'll have to indict you."

"Come, come," said the lieutenant, "is your servant a fish? I'd take you in."

"No, I don't see it that way. You'll hold out on me and it will cost you half your pile to beat the case. What do you know about the Clayton murder? Why are you protecting these four 'hoods'?" (hoodlums).

"They're not 'hoods,' mister," said Stanton. "They're boy scouts gone wrong. I'm not protecting them. Their own foolishness protects them, or should."

"What have you to show it? The case against them seems clear. These men try to take the Dutch Mill. There were the three whom the people saw. There were, of course, others near the door. You assume there weren't, and so you conclude the three were simple-minded. Most of the customers in there were sheep when they were scared, but Clayton wasn't. Can you imagine him taking a stick-up that way? He started to clean out these 'hoods,' and at his first move one of them back of him shot him. Then they all lost their nerve and ran. There's your story. It's not only plausible, it's insistent."

"It's also worthless," said Stanton, smiling. "It doesn't take into account why Clayton was in the Dutch Mill. He was put there to be killed and that wasn't done by the fellows who only wanted the cash and ornaments of the customers."

"How do you know that?"

"It's partly guessing, as usual. A customer named Trembly—Arthur, or Buck, Trembly—had been sitting at a table near Dunn. He volunteered to tell the story. He told it too well. He had seen too much, although he explained that plausibly. My impression was that he had gone there to find Dunn, and that Dunn was astonished to see him. That assumes that they knew each other. I think they did. I think Dunn knew at once that he was in for trouble and was sorry for it not because he had any fear but because it would spoil his respectability. I doubt that he suspected Buck of planting a killer on him. He'd expect Trembly to do his own."

"Oh, wait a minute, Stanton!" the state's attorney interrupted. "Can you honestly think that there's even a semblance of probability or plausibility to that? How do you know they knew each other? Who says they did? Did Trembly say so? How do you know Clayton was planted there? I don't think you're quite reasonable. You say a simple case is no good, and then you produce what really is a fantastic one."

"Isn't it the truth, mister?" said the lieutenant. "But that's the way the police business goes now and then. Why don't you stick to your story? It will get you a few headlines. Leonine Young Prosecutor Promises Swift Justice for Dutch Mill Bandits. State's Attorney Corvaleski Aroused by Outrage. Hanging Horde Demands Rope for Killers."

"Oh, go on with your story," said the state's attorney.

"I'll have to because I've been holding out on you. I'll let you judge in a minute whether Dunn was enticed into the Dutch Mill. Assume he was. I connect that with Trembly. I guess that Buck had some reason for killing Dunn and that he intended to make sure of it by having some other man do it while Dunn thought he had only Buck on his hands. I happened to know Dunn Clayton a little more than by his reputation," said the lieutenant. "I knew him in the war."

"Oh, yes," said the state's attorney. "I forgot. You were in the war."

"Go to h—l," said Stanton. "You weren't. But don't let that worry you. Lots of other politicians weren't, and the ones who were in it kept it from being a really good war. But never mind that. You couldn't help it. The point is, Dunn was a man to have some enemies. Say Buck was one of them. Dunn was smooth and cool and sometimes hard. My guess would be that he and Buck sat looking at each other and knowing that there was murder coming. I don't know much about Buck, never having seen him until Dunn was dead, but I'll guess that Dunn sat there thinking he could beat whatever started. Only he didn't see it start. Now, I said I had been holding out on you. I took a letter off Dunn before they made a search of his pockets. A little quiet exploration sometimes helps. Here's the letter."

He handed it to Corvaleski who read it aloud:

Mayans Good Examples of Downtrodden Males

There was no equality of the sexes among the Mayans, who flourished in Yucatan in prehistoric times, but it was the man who was downtrodden and held in subjection by the woman, according to the investigations by Dr. Franz Blom, a German archeologist. The woman was a heavy drinker, but no man was allowed to drink until he had passed the age of sixty. The favorite drink was a concoction of honey, water and certain wild herbs which had a high alcoholic content. The women drank this regularly, but the man who was caught with even the odor of liquor on his breath was subject to immediate corporal punishment.

Woman at that time was the suitor.

Logical Youngster

My little son, Arthur, aged five, found a wishbone on his plate, and asked me to wish with him.

Arthur won and said that he had wished for a motorcycle.

"You must not tell me your wish," I said.

"Well, if you don't know what I wished for, how will I ever get it?" was the reply.—Chicago Tribune.

"Dunn, Old Dear—I have been in town so short a time that I have just learned you were here. I must leave Monday. It seems impossible to see you and wholly impossible not to. I can be run off with Saturday night by a discreet friend who will understand and who will give me an hour free and be my alibi for it. Be at the Dutch Mill sometime before midnight and, you willing and fate willing, you will see Malsie."

"That was in his pocket," said Stanton. "So I guess that considering he was killed he was planted there to be killed."

"It doesn't follow," said the first assistant. "The girl is doing something clandestine. She is a bit late. The place is held up. Her escort whisks her away."

"Nothing ever follows nothing," said the lieutenant, "unless you're willing to speculate. Now, I've talked to these bums, and they are merely pitiful. Take a diagram of the Dutch Mill, and then see what they tried to do. In five more minutes, before they could have taken more than three watches, two bill rolls and a ring, they would have been shot by some one from the kitchen or the office. The coroner, the cops, the fire department, the insurance patrol and a couple health department inspectors would have been arriving simultaneously."

"Why didn't you hold Trembly?" Corvaleski asked.

"It was just my hunch not to try it. My guess was that we'd do better with him loose than with some lawyer in court to know why we were holding him."

"But this letter; you certainly haven't been concealing it."

"Only from publicity. The detective bureau is looking for Malsie."

"Who is she? Have you any idea?"

"She's beyond my guessing. In fact, my guessing is pretty rotten, but it always comes back to Trembly and the conviction that he knew the note had been sent to Clayton. It may have been that the killer was outside or at another table waiting for Dunn to go. You see we can't tell what the appearance of Trembly meant to Dunn. He shows up, and Malsie doesn't. There's the nub of the matter. To that point it's Trembly's show. We don't know what might have happened because this crazy hold-up explodes on the scene. Whoever shot Clayton certainly rationalized the unexpected just as if it had been made for him. That's what I see. These young fellows we are holding know I'm the only friend they have, and they're telling me the truth. I'm sure of that. You probably can work them off if you want to, but don't think it will be good prosecution. It will be terrible."

"I don't feel murderous," said the state's attorney, "but I can't as yet share your confidence. You let Trembly go. What happened?"

"He gave a fictitious name for the man he said he was to meet in the Dutch Mill. That was expected. He went to Milwaukee instead of Minneapolis, but he did leave town."

"Where is he now?"

"We don't know, but I think he'll be picked up again."

"Who do you guess Malsie to be?" the first assistant asked. "Isn't she the key?"

"You guess," said Stanton. "You might guess that she was an old gal of Dunn's. You might guess that she was married. You might guess that she still liked Dunn, and that Dunn liked her. But if you can guess who and where she is, or why she wrote that come-on letter you outguess me."

"I'd guess that if she wrote it she intended Clayton to be killed. There'd be a story in that. Then I'd guess that she might not have written it. Some one faked her hand."

"You see, mister," said Stanton, "there's just as good guessing in your own office as anywhere else. I'm going to Dunn's funeral, and remember, if you select the bums as victims, give thanks that we don't yet use the electric chair. You couldn't burn them. They are too green and sappy. And so good day to you all. I'm going to the funeral."

"I'll want you in a day or two again," said Corvaleski.

"You've had all you'll need out of me," said the lieutenant as he closed the door behind him.

(TO BE CONTINUED.)

Summing It Up

Half the sting of poverty, or small means, is gone when one keeps house for one's own comfort and not the comment of one's neighbors.

How Old?

He doesn't look a day over fifty. And feels like forty. At the age of 62. That's the happy state of health and pep a man enjoys when he gives his vital organs a little stimulant.

When your system is stagnant and you feel sluggish, headachy, half-alive—don't waste money on "tonics" or "regulators" or similar patent medicines. Stimulate the liver and bowels. Use a famous physician's prescription every drug store keeps. Just ask them for Dr. Caldwell's syrup pepsin.

This appetizing syrup is made from fresh laxative herbs, active senna, and pure pepsin. One dose will clear up almost any case of headache, biliousness, constipation. But if you want to keep in fine shape, feel fit the year 'round, take a spoonful of Dr. Caldwell's syrup pepsin every few days. You'll eat better, sleep better and feel better in every way. You will never need to take another laxative.

Give the children a little of this delicious syrup two or three times a week. A gentle, natural stimulant that makes them eat and keeps the bowels from clogging. And saves them from so many sick spells and colds.

Have a sound stomach, active liver and strong bowel muscles that expel every bit of waste and poison every day! Just keep a bottle of Dr. Caldwell's syrup pepsin on hand; take a stimulating spoonful every now and then. See if you don't feel new vigor in every way. Syrup pepsin isn't expensive.

WILSON TOWNSHIP

(Edited by Mrs. C. M. Nowland)

Stanley Durham and Victor Peck report they plowed on the 14th of January. To date, Jan. 20th there has been no sleighing.

Mr. and Mrs. Max Graham and son Melvin, the former's sister, Hazel and husband were Thursday dinner guests of Mrs. Alma Nowland. They returned to Detroit after a few days visit with the former's parents, Mr. and Mrs. Lou Harnden of Eveline.

Mr. and Mrs. Clyde Strong and daughters, Clarabelle and Betty, and Mr. and Mrs. Charles Shepard were Sunday dinner guests of Mr. and Mrs. Albert Nowland.

Orvie Crowe, who has been working for Clark Colver, migrated recently to Colorado.

Mr. and Mrs. Vere Hawkins and daughter of Petoskey were Sunday visitors of Mr. and Mrs. James Simmons.

Mr. and Mrs. Elmer Scott of Boyne City were Sunday evening visitors of Mr. and Mrs. C. Colver.

Mr. and Mrs. Milo Clute and two children, and Mrs. Frank Schaler and two children spent Thursday afternoon at the Charles Buchin home in East Jordan.

Mrs. Wm. Spencer and children were Sunday afternoon visitors of Mr. and Mrs. Harry Behling.

Mrs. Mattie Miles visited friends in Ellsworth last week.

Mr. and Mrs. H. J. Sutton, and Mr. and Mrs. J. L. Sutton were Monday, Jan. 11 dinner guests of Mr. and Mrs. George Jaquays.

Mr. and Mrs. Max Graham and

sons of Detroit, Mrs. Roland Bowen and children of East Jordan were Tuesday over-night visitors of their grandmother, Mrs. Alma Nowland.

Arthur Cross, an aged man, who lived alone near Ernest Bennett's home, was found dead in bed, Wednesday afternoon, from heart disease. He has been ailing all fall and winter. Smoke was seen from the chimney that morning. Charles Schroeder and Mr. Bennett called and found he had passed away. Relatives were notified and funeral arrangements will be known later.

Miss Helen and Arden Hott of Boyne City, and Mr. and Mrs. Lem Henderson were Sunday visitors at John Hott's.

Mrs. Luella Clute and son, Clyde, and three daughters, Elsie, Ethel and Gladys were Sunday dinner guests of the former's son, Milo Clute and family.

Mr. and Mrs. Carl Bergman were Sunday afternoon visitors of Mr. and Mrs. Will Behling.

Announcements were received Monday of the birth of a son, Thursday, Jan. 14th to Mr. and Mrs. Laurie Adams of the Soo. Mrs. Adams is the only daughter of Mr. and Mrs. Bert Price, formerly of East Jordan. Mrs. Alice Hodgkin, and Mr. and Mrs. Dwyne Willis and daughter of Petoskey were Sunday Jan. 10 visitors of Mr. and Mrs. Clyde Strong.

Henry Sage lost a horse this week. Mr. and Mrs. Clair Brooks, Miss Marian Earl, Victor Howard and Jason Lewis of Boyne City; Mr. and Mrs. Arnold Smith of South Arm, and Will Rebec of Cedar Valley were Sunday dinner guests of Mr. and Mrs. Frank Davis on the Pleasant Valley road.

Rev. Helmuth Schulz of Petoskey held services in the Wilson Church, Sunday. He was dinner guest of Mr. and Mrs. Wm. Behling.

Mrs. Alice Rozell is visiting Mrs. Alice Cox and other friends in Boyne City this week.

Miss Alice Dow is visiting Mr. and Mrs. Floyd Bartleson, and Mr. and Mrs. Burton Brooks of Boyne City this week.

DEER LAKE

(Edited by Mrs. Roy Hardy)

Mr. and Mrs. Merritt Finch were Wednesday afternoon callers at Joel Suttons.

Mrs. Bert Lumley and children, and Miss Sidney Lumley visited Mrs. Maurice Pierce at the home of her parents, Mr. and Mrs. Matthew Hardy Wednesday.

Lester Hardy was pleasantly surprised on his 26th birthday Jan. 14, when relatives and friends walked in with lunch baskets. Progressive pedro was the chief amusement of the evening.

Mr. and Mrs. Albert St. John were callers at L. Hendersons, Friday.

Mr. and Mrs. M. Hardy took their daughter, Mrs. Maurice Pierce back to her home in Petoskey, Sunday.

Mr. and Mrs. DeWitt Williams called at the Eugene Raymond home Sunday evening.

Mrs. John Crosier, Jr., is seriously ill in a hospital at the Soo. Owners of fish houses on Deer Lake are now "fishing fish houses" instead of fish.

Miss Mary Stanek visited Nellie Raymond Sunday afternoon. Miss Stanek is spending the winter at the Lou Marvin home.

Miss Nellie and Ernest Raymond called at the Jack Craig home at Mt. Bliss Thursday evening.

Mr. and Mrs. Laurie Adams of the Soo are the proud parents of a son, born Jan. 14th, and answers to the name of George Robert. Mrs. Adams is the daughter of Mr. and Mrs. Bert Price.

Evelyn Hardy spent Saturday evening and Sunday with Dora Barber. Miss Belle Flewelling, D. C., of Bellaire was a caller at Roy Hardys, Friday.

Mrs. Andrew Fuller is staying with Mrs. Oral Barber, while Mr. Barber is working at Porter's farm.

Mrs. Walter Hunt of Flint is visiting her parents, Mr. and Mrs. M. Anderson. Deer Lake Home Economics Club will meet this week Thursday with Mrs. Earl Saurey. Bring your own sewing. Pot luck lunch at noon.

SOUTH ARM

(Edited by Mrs. Chas. Murphy)

Fifteen ladies attended the Home Furnishing Club meeting which met at the home of Mrs. I. N. Flora, Thursday. A pot luck dinner was served at noon. Several ladies have their rugs well advanced. The afternoon was spent in working and visiting. The next meeting of the Club will be held with Mrs. Chas. Murphy on February 18th.

South Arm Grange will meet with Afton Grange Jan. 28.

Mr. and Mrs. Ollie Moore of Charlevoix were visitors at Ralph Ranney's home Thursday.

Miss Rhea Healey spent Sunday with Frances Ranney.

Mr. and Mrs. Marshall Shepard were week end visitors of her grandmother, Mrs. Clara Liskum.

Mr. and Mrs. Arnold Smith were week end visitors of her parents, Mr. and Mrs. Frank Davis of Boyne City. Orville Davis is a visitor at Roscoe Smith's home this week.

Mrs. Roscoe Smith spent Monday afternoon with her mother, Mrs.

Bashaw. James Canda sold a horse to Roscoe Smith this week.

Mr. and Mrs. Arnold Smith and Miss Leona Smith visited Hiram Engisms Wednesday afternoon and evening.

Mr. and Mrs. Walter Heileman visited at Smiths' Friday evening.

Mr. and Mrs. Marshall Shepard visited at Smiths Saturday evening.

Mrs. Lucy Heileman and daughter Caroline called at Chas. Murphys Friday afternoon.

Mr. and Mrs. Herbert Newman of Charlevoix, and Mr. and Mrs. Arthur Starks of Gaylord were dinner guests of Mr. and Mrs. Wm. Murphy Sunday. Archie Murphy was a business visitor at Charlevoix and Boyne City, Monday.

Mr. and Mrs. Walter Heileman were visitors at Geo. Mayhews, Sunday.

Mrs. James Nice and son, Gardelle visited at Heilemans Sunday evening.

Mrs. I. N. Flora leaves Wednesday for Grand Rapids, where she will spend three weeks visiting her children.

Francis Sullivan who has been working at Candas, left Sunday for a visit with relatives.

Intermediate Lake is not frozen over, so there is no fishing at present.

EVELINE

(Edited by Mrs. Walter Clark)

Miss Omland and some of the girls surprised Emma Jane Clark on the evening of Jan. 12th. It being her 14th birthday. They played games and had a good time. Mrs. Jim Zitka made a nice birthday cake for them.

Mr. and Mrs. Max Graham and son and Mr. and Mrs. Clifford Boyd of Detroit spent a couple of days at Lew Harndens home this week.

Several of the old neighbors attended the golden wedding of Mr. and Mrs. A. B. Clark in East Jordan Thursday.

Mr. and Mrs. Walter Clark spent Friday evening in East Jordan with friends.

Howard Whaling spent Friday evening with the Clark children.

Mrs. Walter Clark called at the Cooper home Friday afternoon, and Mr. and Mrs. Clark called at the Walker home.

George Whaling did not pass the examination at Grand Rapids this time, he expects to try again in the spring.

George Whaling left Sunday to work on the Frank Hyek farm near Susan Lake.

Mrs. Walter Clark called on Mrs. Ed. Clark in East Jordan, Saturday. June Roberts of East Jordan is staying with her sister, Mrs. Carl Moblo at present.

Oleivays Shaffer and his wife were re-married Jan. 6. He was seen plowing in his field on Jan. 13. Something unusual for this time of year.

EVELINE ORCHARDS SCHOOL

We are reviewing for mid semester examinations which will be given this week.

The following pupils received 100 in spelling each day last week: Lillie Anderson, Sherman Thomas, Lyle Walker and Richard Zitka. Those missing just one word during the week were Billy Best, Karl Knudsen, Marjorie Knudsen, Richard Clark and Pauline Zitka.

Harvey Bowen is absent on account of illness. The girls in sewing have completed some articles of clothing, which they have been making for themselves.

The fourth grade Art class are planning a Health poster which will be completed soon. The fifth and sixth grade boys are making a reed waste paper basket.

BOHEMIAN SETTLEMENT

(Edited by F. J. Kubicek)

Mr. and Mrs. George Stanek and daughters were visitors of Mr. and Mrs. F. M. Stanek last Sunday.

Mr. Hunter, the Togstad man was through the Settlement last week. Mrs. Eliza Kotalik and sons were visitors at the home of Mr. and Mrs. Anton Kortan last Thursday.

Mr. and Mrs. F. M. Stanek gave a party last Sunday night which was attended by Mr. and Mrs. Howard Liddle, Mrs. Jennie Nachazel and Mr. and Mrs. Edd. Nemecek. A lunch was served at midnight.

A horse owned by Bohemil Cihak is reported very sick.

Miss Mary Davis of Boyne City and William Rebec were last Saturday evening guests at the John Lundy home.

Edd. Nemecek helped Charles Kotalik butcher last Tuesday.

Grandpa Cihak was a visitor at the home of Albert Chanda last Tuesday. Em. Kratochvil motored to Traverse City on business last Monday.

Mr. and Mrs. Leo LaLonde of East Jordan were callers at the home of Mr. and Mrs. Em. Kratochvil.

Mr. and Mrs. Andrew Dubas visited at the homes of Mr. and Mrs. Walter Janek and Mr. and Mrs. Steve Belzek.

Destiny Golfer: "My boy, do you know what becomes of little boys who use bad language while they are playing marbles?"

Small Boy: "Yes, sir; they grow up and play golf."

PENINSULA

(Edited by Mrs. E. Hayden)

The Leu Bros. purchased a herd of young cattle of A. B. Nicloy of Sunny Slope farm, Monday.

George Block of near Charlevoix was calling on friends of the Peninsula, Tuesday.

Mr. Marvin, the Rawleigh man was on the Peninsula, Tuesday.

Ralph Price, Eveline Twp. Clerk, acting as health officer for Supervisor Wm. Sanderson, was looking over the measles and mumps cases on the Peninsula, Tuesday.

Mrs. Caroline Loomis of Gravel Hill spent the week end with friends in Boyne City.

Miss Alberta Tibbit of Cherry Hill is confined to the house with a severe cold.

Road Commissioner, F. H. Wange-man returned from the good Roads Convention in Detroit, Friday.

Mr. and Mrs. David Gaunt and Mr. and Mrs. Ralph Gaunt and children were Sunday dinner guests of Mr. and Mrs. Ira McKee.

John Looze spent part of last week with Clarence Dewey at his cottage on South Arm lake.

After being frozen over for some time, South Arm lake is again clear of ice, and Lake Charlevoix is not yet frozen over.

Miss Lucy Reich of Lone Ash farm spent Friday night with her cousin, Miss Zepha Faust at Mountain Ash farm.

Howard, Nile and Melvin Gould returned to school the latter part of last week after having had the measles.

To all appearances Mrs. Lyle Wilson continues to improve and expects to be allowed to sit up a little in a few days.

Alfred Crowell of Dave Staley Hill returned to school, Friday, after having the mumps since Jan. 4. Eva started earlier in the week, not having developed the mumps.

About 35 attended the pedro party at the Star schoolhouse Saturday evening and had a fine time and an abundant pot luck lunch.

Among those to attend the pedro party at the Star schoolhouse Saturday evening were Harlow Sweet of Advance, Mr. and Mrs. Gene Immann and daughter, Miss Margaret, and Ira Matthews of Boyne City.

Some from this section attended the Bank meeting at the Gym in Boyne City Saturday evening.

All the Oddfellows and Rebekahs of this section attended the double installation and oyster supper in East Jordan Friday evening.

Elmer Faust of Mountain Ash farm will Gaunt of Knoll Krest, Bob Jarman of Gravel Hill, and Cash Hayden of Orchard Hill took in the Oddfellow chicken supper Saturday evening.

Vera Staley will return to school Monday, after having the mumps for two weeks.

There will be a wood cutting bee on the Charles Arnott farm some afternoon this week to cut wood for the Star schoolhouse, where those popular pedro parties are held every two weeks.

After the ground being just barely covered with snow since Christmas eve and the mercury standing a trifling below freezing most of the time since. The weather developed a temperature Wednesday night and the snow all went off, but we have had a very light fall of the "beautiful" since.

A good many farmers plowed last week, and others have been clearing new land all fall.

Albert Jackson of Breezy Point spent Thursday night with Clayton Healey at Willow Brook farm.

The school bus No. 2 was unable to make Bunker Hill Thursday and Friday mornings, it went around by the good road and came up the Pete Tuttle Hill and picked up the pupils and returned the way it came.

At a meeting of the Directors of the Pine Lake Telephone Co., it was decided to collect at least one-half of all old accounts and all of the present assessment, which is \$6.00, by Jan. 25 or the phones will be removed. If such a demand had been made in the summer when there was a little money stirring, it would not have been so bad, but the chances are now some will likely be without a phone.

German Remedy Stops 30-Year Constipation

"For 30 years I had a bad stomach and constipation. Sourcing food from stomach choked me. Since taking Adlerika I am a new woman. Constipation is thing of the past."—Alice Burns.

Most remedies reach only lower bowel. That is why you must take them often. But this simple German remedy Adlerika washes out BOTH upper and lower bowel. It brings out all gas and rids you of poison you would never believe was in your system. Even the FIRST dose will surprise you.—GIDLEY & MAC, Drug-gists.

Subscribe for the Charlevoix County Herald.

PLEASANT HILL

(Edited by Anson Hayward)

Pleasant Hill Sunday School attendance 19. Prayer meeting was well attended.

John Schroeder is buzzing wood for Mr. Stenke, also cutting out a pile for himself this week. Herbert Sweet and Mr. Stenke as helpers.

Walter Petrie is hauling shingles to the Batterbee place to repair the house in the spring, is also hauling baled hay in return, as he still lives in Pleasant Valley.

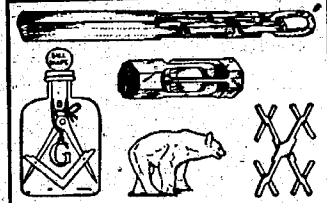

Charles Ruggles is hauling wood for Seth Jubb this winter.

Harlem Hayward and Joe Ruckle were home Sunday from the Lewis Camp.

Pleasant Hill ladies had a bee and cleaned the schoolhouse, Tuesday.

Will VanDeventer had the misfortune to lose a valuable cow one day last week.

Get the habit—tell the Editor of your visitors, of the visits that you make or other items of local interest.

Briefs of the Week

Mrs. H. L. Sangers has been confined to her home with quinsy.

Born to Mr. and Mrs. Floyd Vermillion, a son, Everett James, Jan. 14.

Robert Grant and son, Howard arrived home this week from Flint.

Lutheran Ladies Aid will meet with Mrs. L. P. LaLonde, Friday, Jan. 29.

Mrs. G. W. Kitsman is at Flint for a visit with her daughter, Mrs. C. E. Snyder.

Mrs. R. J. Deitz of Suttons Bay is visiting at the home of Miss Agnes Porter.

Mrs. Ira McWaters of Petoskey is visiting Mr. and Mrs. Archie McArthur.

Born to Mr. and Mrs. Peter Somerville, a son, Richard Elwood, Friday, Jan. 15th.

The Presbyterian Missionary Society will meet with Miss Agnes Porter, Friday, Jan. 29th.

Mr. and Mrs. W. P. Porter left Wednesday for Miami, Florida where they plan to spend a few weeks.

Mrs. Charles Box of Central Lake was a guest at the home of Mr. and Mrs. W. A. Stroebel, Wednesday.

A marriage license has been issued to Leon White, 21, of Bellaire, and Florence Umlor, 19, of East Jordan.

Lewis G. Cornell was at Cheboygan and Indian River over the week end on a combined business and social trip.

Mr. and Mrs. George McArthur of Detroit were here the past week for a visit at the home of the former's brother, Mr. and Mrs. Archie McArthur.

Mr. and Mrs. Leonard Dudley were called to Lansing last week by the death of their granddaughter, Audrey Fischer, aged nine years, who died from pneumonia.

H. A. Goodman sold the past week a dwelling of his on the West Side, across from the Tourist Park, to Dan Painter. Also a dwelling of his on Third St., to Mrs. Kate Lemieux.

Supt. and Mrs. A. J. Duncanson have the heartfelt sympathy of our entire community in the death of their infant daughter, born a few hours previous, at the Petoskey Hospital, Thursday morning, Jan. 21st.

Mr. and Mrs. Mike Gunderson returned home from a two weeks visit at Grand Rapids last week. They were accompanied by their daughter and husband, Mr. and Mrs. George Hanson of Grand Rapids.

An invitation is extended the public to attend the Lecture—"Seeking Divine Approval" at 8:00 p. m. by D. T. Williams, at the Latter Day Saints Church, Tuesday evening, Jan. 26th. Don't fail to hear him.

Married at the M. E. Parsonage, Monday, Jan. 18th, by the Rev. James Leitch, John A. Petrie of Pleasant Valley, and Mrs. Mary Ann Hawley of East Jordan. They will spend their honeymoon visiting relatives and friends in Remus, Mich.

As a token of successful participation in the 1931 tuberculosis Christmas seal campaign, a copy of "The New Healthyland" has been awarded by the Michigan Tuberculosis Ass'n to pupils of Miss Arlene Gibbard of East Jordan.

At the annual Convention of the National Association of Teachers of Speech held in Detroit, Dec. 29-30-31, Arthur E. Secord, Speech Director in the W. S. T. C. Training Unit at Paw Paw, was elected a member of the executive council of the national body. Mr. Secord was the speaker who addressed the secondary school section of the Convention.

Two 18-year-old Boyne City boys, Garrett Haines and Harry Holland, were arraigned at Charlevoix Monday before Justice Robert Withers on charges of robbing the Rovack general store at Boyne City recently. They waived examination and were bound over to circuit court under bond of \$3,500 each, which they were unable to furnish. The Rovack store was robbed of merchandise valued at \$250, a part of which has been recovered.

Approximately 300,000 motorists must obtain new drivers licenses before May 1, 1932. Since the new law requiring re-registration of motor vehicle operators went into effect, about 800,000 have obtained licenses. The new law requires that all licenses issued between January 1st, 1925 and January 1, 1928 expire May 1 and it is estimated that about 300,000 drivers are yet using licenses issued during that period.

Michigan this winter is experiencing the warmest weather in the history of the U. S. weather bureau at East Lansing. The winter of 1889-90 is nearest the equal of the present one. The lowest temperature this year to date has been 12 degrees on Dec. 8. The weather will probably be mild the remainder of the winter, according to D. A. Seeley, meteorologist at the East Lansing station.

The annual Winter Carnival will be held at Petoskey on Feb. 4, 5, 6.

"Forward March," official publication of the Tri-Post American Legion organization in Charlevoix County, has made its initial appearance. The booklet, in addition to being attractive in design and makeup, contains a wealth of information of interest to Legionnaires and the general public. It is published at Charlevoix monthly.

About twenty East Jordan Odd-fellows attended a County get-together meeting at Horton's Bay, last Saturday night. About 75 represented the East Jordan, Charlevoix, Boyne City and Horton's Bay lodges. Fred A. Rogers of Lansing, Grand Secretary of the State I. O. O. F., and his son, John, were present. A bounteous chicken supper was served.

TRANSATLANTIC AIR TRIPS IN FIVE YEARS

Regular Weekly Service Is Predicted by Ace Pilot.

New York.—Weekly transatlantic airplane service within the next five years was predicted recently by Holger Hoiris, pilot of the monoplane Liberty on its recent flight from New York to Copenhagen.

Discussing ocean flying and its possibilities, Hoiris declared the commercial mastery of the ocean which has claimed a score or more of lives since it has been challenged by airmen is within sight of aeronautical progress.

"The route will be by way of Bermuda and the Azores," he said, "large multi-motored flying boats or amphibians, able to land on the water in an emergency, will be used."

The northern route or Lindbergh circle via Harbor Grace and Ireland which he himself took on the recent hop with Otto Hillig, Liberty, N. Y. photographer, will never become the airline for commercial operations, he said.

Northern Season Short.

"Having flown the North Atlantic, I am convinced that it is not the route because of the fog, heavy seas and the absence of ship lanes and also the low temperatures. Furthermore, the season in this latitude is too short for regular service."

"There are really only a few months in which such a crossing can be made with any degree of safety."

"Down below the weather is better and the conditions generally more favorable."

Transatlantic operations, he believes, should develop on a schedule of intermediate stops instead of non-stop flights from one continent to another.

He believes seadromes should be established along the route, cutting down intermediate hops to approximately 600 miles each, permitting the carrying of a pay load and insuring greater safety.

Still Hazard, He Admits.

"Engines will have to be improved and a cruising speed of about 140 or 150 miles an hour developed," he said. "As conditions now stand, it is still quite a hazard."

While Hoiris viewed the possible introduction of stratosphere planes as an important step in the right direction, he declared that high altitude flying will not be a necessity if transoceanic service is flown with intermediate stops.

"On long distance flights high altitude will be preferable, but for 600-mile hops the planes can operate just as efficiently at 2,000 feet," he asserted.

In referring to his Copenhagen flight, Hoiris disclosed that but for a miscalculation of position after the two flyers had crossed the ocean, they would probably have landed at their destination as planned without making intermediate stops.

Billions of Dwellers in the Ocean's Depths

Only 115 kinds of fish were known to the great naturalist and philosopher, Aristotle, whilst Pliny, who lived a good deal later, knew 170, and thought that there could not well be more. Today more than 20,000 kinds of fishes are known, and new species are discovered at the rate of about a hundred every year. We are finding out, too, new facts of the most surprising kind about fish that have been known to man since the earliest ages.

Few realize the teeming population of the seas. Did you know that the Atlantic alone yields every year 400,000,000 cod and 3,000,000,000 herring! This means that the number of herring caught each year is considerably greater than that of the human population of the world. Yet there is no sign that their numbers are decreasing, despite the war waged upon them.

Nor is man the greatest of the herring's foes. He is probably among the least dangerous of their enemies. The herring is a food fish. Its business is to feed upon the minute animals and vegetables that float near the surface of the sea, and, by means of these, to convert its own body into food for larger fish. Salmon, hake, dogfish, and tunny, to mention a few, all live upon herrings, and a single one of such fish may require as many as forty or fifty herrings to provide a day's meals.—London Tit-Bits.

MICHIGAN BELL TELEPHONE CO.

"Yes, sir, Mr. Brown, I'll report tomorrow at eight"

RICHARDS GOT THE JOB BECAUSE HE HAD A TELEPHONE

When an application is made for work, employers are quite likely to ask for a telephone number. For they know that the easiest and quickest way to get into touch with additional help is by telephone.

Your home telephone is an important asset in business and social life. It places you within instant reach of business associates and friends. And, in emergencies, such as fire or sudden sickness, it will summon help immediately.

Of all the things you buy, probably none gives so much for so little as your telephone.

Women Taking Oath to Run an Arkansas Town

Mrs. J. G. (Eva) McLane (fourth from left), the newly-elected mayor of Mount Ida, Ark., being sworn in together with the women members of the city's council. The six women say they were elected to the council without aspiring to office. They announced they would enforce the dry law to the best of their ability. Mount Ida has about 600 population and is located near Hot Springs.

Plane Built to Explore the Stratosphere

Workers in Paris putting the finishing touches on the stratosphere airplane invented by M. Guerchais. It is being constructed not to fly in ordinary aeronautical lanes but in the rarer stratosphere nine miles above the surface of the earth. It is believed that the new plane will be able to attain a speed of 250 miles an hour. A specially built cockpit protects the pilot.

Housewife Who Would Go to Congress

An informal photograph of Mrs. Regina Rambo Benson of Marietta, Ga., made as she was preparing a meal for her family. Mrs. Benson recently announced her candidacy for congress on a one-plank platform, "Submission of the Eighteenth amendment to the people." She seeks to succeed Representative M. C. Tarver.

Where the Columbia Will Be Dammed

A vast area of arid land will be put under cultivation as a result of the two dams which Uncle Sam intends to build across the wild Columbia river, harnessing the tremendous water power that is now going to waste. One of the dams will be at Cascade Rapids (above) and the other will be about 75 miles up the river. The barriers, which will cost about \$700,000,000, will be built from the mountains on the Oregon side to the mountains on the Washington side of the river.

SARAZEN IN HAWAII

Wearing leis, the traditional greeting bestowed on visitors, Gene Sarazen is here shown as he arrived in Honolulu to play in winter exhibitions with Johnny Farrell, who was honeymooning there.

IN A TRYING POST

Rear Admiral Yntes Stirling, Jr., commander of the Fourth naval district, which includes Hawaii where there has been so much disturbance owing to attacks on white women. One of his officers, Lieut. T. H. Massie, together with his mother-in-law, Mrs. Granville Fortescue, and two enlisted men, are accused of killing a Hawaiian who was charged with assaulting Mrs. Massie.

State News in Brief

Flint—Burglars who broke into the Lincoln School and looted the principal's office took \$22. The money was to have been used to buy milk for needy children.

Lansing—Payment of the State gasoline tax on naphtha will be required, it was announced by Frank D. Fitzgerald, secretary of State. Refunds will be made to those using the fluid for cleaning or other similar purposes. According to Fitzgerald, the State law provides for the collection of the 3-cent gasoline tax on all naphtha received by licensed distributors.

West Branch—A resolution sponsored by the Northeastern Michigan Development Bureau urging the State Conservation Commission to set aside 1,240 acres in the Ogemaw State Forest as an archery preserve was adopted by the Ogemaw County Board of Supervisors. The resolution urges this area be open to the killing of wild life by bow and arrow only.

Kalamazoo—Establishment of a Kalamazoo County penal farm was approved in principle by the board of supervisors. Following an appeal by the Rev. Caroline Bertlett Crane, the board unanimously adopted a resolution in favor of a penal farm plan, if practicable. Dr. Crane announced an anonymous donor would offer a 200-acre farm as a site for the penal colony.

Saginaw—Mayor George Phoenix announced a ban on "kene-parties." He said the ban was aimed particularly at women who have been operating keno parties for personal profit. "I am doing it because the women cannot get along together," he said. "It looks to me as though they are making it into a business proposition, rather than simply for amusement. I told them I would stop the game unless they could get along together."

Ypsilanti—Construction of the \$150,000 factory building to be erected here for the Ford Motor Co. has been started by contractors. The building will be 160 by 309 feet. No announcement has been made as to the use to be made of the new structure. A dam also is being constructed for the Ford company across the Huron River three miles southeast of here. It is expected power generated there will be used at the Ypsilanti factory.

Benton Harbor—The Southern Michigan Fruit Association, embracing Michigan's grape belt district of Lawton, Paw Paw, Decatur and Mattawan, has been asked for a bill of accounting and receivership by 31 growers in a case to be heard in the Van Buren County Circuit Court. The plaintiffs charge the association has defrauded the grape growers to a total of \$5,000; has turned the business over to others, and has violated its contract with the growers.

Lansing—A saving of \$105,000 a year in the operating expenses of the State Department, through rent reductions, salary decreases and reduced costs was reported by Frank D. Fitzgerald, secretary of state. Cuts in rent of \$233 a month in Detroit, \$200 a month in Grand Rapids, \$50 a month in Pontiac and \$300 in Lansing have been effected. A graduated reduction in salary will be \$26,000, according to Fitzgerald. The cost of printing will be down \$45,000, he said.

Plymouth—Tree thieves provide the most recent difficulties to be faced by residents and farmers in the vicinity of Plymouth, according to a warning issued by George Springer, Plymouth deputy sheriff. Charles Root, of Ann St., Plymouth, is the latest victim of the tree haulers, according to Springer. A huge walnut tree on property owned by Root was taken by thieves using a truck with a derrick. Several other trees have been removed from Plymouth property, owners have told Mr. Springer.

East Lansing—Michigan State College's poultry scientists recently wrote off an item of \$300 as a total loss. The scientists, hearing of a fowl of great worth, paid \$300 for it, for science must be served. The bird was shipped, but failed to arrive. Tracers showed the chicken arrived at the College, but through an error was sent to the "morgue" where chickens are dissected and their diseases studied. The prize fowl had been dissected, and records show it was in excellent health at time of death.

Ann Arbor—Four thousand new double stars have been discovered by University of Michigan astronomers during the past four years. A double star may be described as a pair of stars revolving about their common center of gravity. The mapping of double stars is being carried on at Bloemfontein, South Africa, in the Lamont-Hussey observatory, by an expedition financed by Robert Patterson Lamont, Secretary of Commerce and a Michigan alumnus. Prof. Richard A. Rossiter is astronomer in charge.

Grand Rapids—More than 700 householders who have subscribed to the city's "Man-a-block" snow shoveling plan to assist unemployed men have found that the joke is on them. Under the plan, groups of residents agreed to pay 50 cents a week toward a fund which would pay a wage to one unemployed man in each block, the man to shovel any snow that should fall. There had been no snow to shovel up until the middle of January, but because of the plan's terms the householders have been paying weekly since Dec. 15.

Cadillac—Probate Judge H. A. Snider offers to perform free the marriage ceremony for any girl who will admit she proposed, a leap year privilege. The offer is good throughout 1932.

Kalamazoo—More than 2,500 pheasant eggs have been received for hatching at the Wolfe Lake Hatchery. More than 5,000,000 brook trout eggs are expected soon.

Jackson—A coyote was killed by an automobile in front of the Jackson police headquarters. The police were unable to determine how the animal came to be at large in downtown Jackson.

Lansing—This city's December welfare bill averaged \$24.30 a person, one of the lowest per-family costs in the State. The Welfare Department had approximately 1,700 families on its relief lists.

Gaylord—Six miles northeast of here is a private game reserve overstocked with deer. In fact, there are so many of the white-tailed fellows that some are to be offered for sale. The reserve is Elford Park, started seven years ago.

Crosswell—Workmen removed portions of the floor and walls of the home of Mrs. Emmaline Wixon in Worth Township to end the nuisance of a swarm of bees which in the last two years had stored 300 pounds of honey in their adopted home.

Ypsilanti—Joseph Walker, of Akron, O., owner of a freight truck operating between Detroit and Minneapolis, paid a fine and costs of \$30.45 when he pleaded guilty to operating without a Michigan Public Utilities Commission permit.

Charlevoix—Spring-like weather has caused buds to appear on trees has brought the first 1932 grasshopper, according to R. C. Koth, a merchant here. Koth is displaying the live grasshopper in his store. He found it hopping about on the farm of Irving Nowland, near Ironton.

Battle Creek—Virginia Hewitt, 17 years old, suffered an arm fracture when she jumped from an automobile in which she was riding home from a dance. Police are looking for the driver. The girl told officers the man, whose name she did not know, refused to let her out of the car.

Charlevoix—Forced down by fog in a pasture four miles west of Levering, "Bud" Hammond, Charlevoix-Beaver Island mail pilot, encountered an angry bull. The bull chased two boys who were attracted by the plane. Hammond took them aboard and flew into another field to escape the animal.

Grand Rapids—Chase Kawka, of this city, crossed his fingers at a bowling alley here, but it didn't do him any good. The last pin on his twelfth rolled ball tottered and remained standing, after he had scored 11 straight strikes, giving him a score of 299, one pin short of a perfect game.

Lansing—Looking Glass River, near here, was sweetened with seven tons of sugar. A truck and two trailers hauling the sugar from Bay City to Grand Rapids went down as an overhead bridge collapsed. The two drivers of the truck, Fred Anderson and Frank Kirby, both of Detroit, accompanied the sugar into the water, but were uninjured.

Ann Arbor—Chris Angures fixes anniversaries in his mind by repetition. On Jan. 11, 1930, he rolled a perfect game on the alleys of the Michigan Recreation here. This year he repeated his 300 performance on two different alleys at the same place. This makes his third perfect game. Angures is one of the best bowlers in this district.

Kalamazoo—Kalamazoo police are looking for the conspirators who attempted to extort \$10,000 from Louis W. Sutherland, president of the Sutherland Paper Co., by sending him a threatening letter. A dozen policemen lay in hiding near the point at which the anonymous letter writer directed Sutherland to leave a package containing \$10,000. No one appeared to claim the parcel.

Ann Arbor—Liver extract, injected intravenously, has been discovered at the Simpson Memorial Institute as a treatment for anemia. It was announced by Drs. Cyrus C. Sturgis and Raphael Isaacs, co-discoverers. Dr. Sturgis is director of the Institute. The new extract is 15 to 30 times more potent than those previously given by mouth. From four to six injections usually restore the condition of patient's blood to normal and injections given at intervals of from four to six weeks then maintain it in that state.

Ann Arbor—University of Michigan will be host to the national collegiate swimmers. It was announced following the awarding of the championship meet March 25-26. The intramural building pool will be the scene of the collegiate classic. Matt Mann, Wolverine coach, expects 30 teams and more than 200 individual stars to compete. Michigan will be defending its national crown won at Chicago last year. Among the teams expected to compete are Rutgers, runner-up to Michigan last year; Northwestern, Stanford and Southern California.

East Lansing—Reuben Dill, the engineering student from Saginaw who was one of the 13 Michigan State College football players to receive the major letter last fall, has been awarded the Spartan gridiron scholarship for the third time in his college career, athletic officials announced. He won the cup with a grade of "A" in each of his six subjects during the fall term. He made the same average on the previous two times he won the award. His college record is one of 48 "As" and 15 "Bs" and two "Cs".

Mercolized Wax Keeps Skin Young

Get an ounce and use as directed. Fine particles of aged skin peel off until all defects such as pimples, liver spots, tan and freckles disappear. Skin is then soft and velvety. Your face looks years younger. Mercolized Wax brings out the hidden beauty of your skin. Remove wrinkles, use one ounce powdered Exfoliate dissolved in one-half pint witch hazel. At drug stores.

Inhaling the Chowder

She (dining)—Seems to me we don't hear so much jazz in the restaurants.

He—No, and as a consequence we hear more soup.—Boston Transcript.

Took Name From Castle

The name "Hohenzollern" is derived from Castle Zollern, the ancestral home of the family. The name, literally interpreted, therefore, means High Zollern.

STOP THAT COLD

DISTRESSING cold in chest or throat—that so often leads to something serious—generally responds to good old Musterole with the first application. Should be more effective if used *once every hour for five hours.* This famous blend of oil of mustard, camphor, menthol and other helpful ingredients brings relief naturally. Musterole gets action because it is a scientific "counter-irritant"—not just a salve—it penetrates and stimulates blood circulation, helps to draw out infection and pain. Used by millions for 20 years. Recommended by doctors and nurses.

To Mothers—Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

More From the Back Seat

"Who taught Mrs. Jones to drive a car, anyhow?"

"Oh, I forget the name of her education teacher."

Harold's Mother Knew Answer

"Yes, sir, I am certainly proud of my little boy," says Mrs. H. M. Smith, 421 Topeka Ave., Topeka, Kansas. "He's five and weighs fifty-seven pounds. He's the picture of health as you can see, and I feel like he'll always be that way as long as I can get California Fig Syrup. I have used it with him ever since he was a year old. I knew what to give him for his colds and his feverish, upset spells because Mother used California Fig Syrup with all of us as children. I have used it freely with my boy and he loves it. It always fixes him up quick."

In many homes, like this, the third and fourth generations are using pure, wholesome California Fig Syrup because it has never failed to do what is expected of it. Nothing so quickly and thoroughly purges a child's system of the souring waste which keeps him cross, feverish, headachy, bilious, half-sick, with coated tongue, bad breath and no appetite or energy as long as it is allowed to remain in the little stomach and bowels. Fig Syrup gives tone and strength to these organs so they continue to act as Nature intends them to do, and helps build up and strengthen weak, pale and underweight children. Over four million bottles used a year shows its popularity. The genuine, endorsed by physicians for 50 years, always bears the word "California."

New Moon

"See the beautiful new moon isn't it lovely, Jamie," said mamma. "Is that it, way up there trimmed round like a toe nail?" asked Jamie.

KILL COLD GERMS

NAVAP

NASAL VAPOR

Clears head instantly. Stops cold spreading. Sprinkle your handkerchief during the day—your pillow at night.

A McJESSON PRODUCT **50¢** AT ALL DRUG STORES

PARKER'S HAIR BALSAM

Removes Dandruff, Stops Hair-Falling, Imparts Color and Beauty to Gray and Faded Hair. 50c and \$1.00 at Drugists.

FLORESTON SHAMPOO—Ideal for use in connection with Parker's Hair Balsam. Makes the hair soft and fluffy. 50 cents by mail or at drug-gists. Hicox Chemical Works, Patchogue, N. Y.

DISTINCTIVE RADIO PROGRAMS

"FRIENDSHIP TOWN"

FRIDAY, 9:00 P. M., E. S. T.
NBC Coast to Coast Network

Vaseline

REG. U. S. PAT. OFF.
PREPARATIONS

Second Educational Series of Radio Lectures Started

Authorities on economics, psychology and other subjects have inaugurated the second series of "Listen and Learn" Lectures under the auspices of the National Advisory Council on Radio in Education, over coast-to-coast networks.

Dr. Robert M. Hutchins, president of the University of Chicago, started the spring series in January when he and representatives of the Council outlined the lecture courses to follow. The programs are heard every Saturday over NBC-WEAF facilities.

The series is scheduled for twenty weeks, closing with a valedictory program the last week in May.

Among the Speakers.

International trade, the tariff and industrial planning are economic subjects to be touched upon by speakers such as James Harvey Rogers of Yale, Ernest M. Patterson of Pennsylvania, F. W. Taussig of Harvard, George Henry Soule, Jr., editor of The New Republic, and Walton H. Hamilton of Yale.

Changes and growth in personalities, animal behavior and psychology in education are topics to be taken up by Fred A. Moss of George Washington University, Henry W. Nissen of Yale, Frank N. Freeman of Chicago, and others.

Public response to the initial ten lectures broadcast in the fall indicated, according to the Council, that they reached listening groups in the home, school, special neighborhood gatherings and even fishermen of Nova Scotia.

PATRIOTIC SONGS

The songs that thrill Americans, patriotic selections written by inspired composers, will be played in the February National 4-H club program of the National Farm and Home Hour by the United States Marine Band.

The concert will be another program in the series by the Marine Band on "Learning to Know American Music."

Beginning with "The Star-Spangled Banner," the renditions will swing through "America," and the lively strains of "Dixie." These will be followed with "Yankee Doodle," "America the Beautiful," "Columbia, the Gem of the Ocean," "Hail Columbia," and a more recent song written when the United States Army was moving to the European battle front, "Over There."

The programs are designed to acquaint and familiarize the \$50,000 4-H club members of the United States with the music which is typical of America.

Each month an additional concert will be provided by the Marine Band. On March 5 America's hymns and religious songs will be featured. The programs are broadcast over a coast-to-coast network.

The series, which promises to be one of the most entertaining features of the National Farm and Home Hour during the winter months, will contain much basic forestry information of interest to both town and country listeners.

Carveth Wells, adventurer, explorer and lecturer, who starts a new series of programs over an NBC network next month under the title "Capeo Adventurers," says that if all the hogs in Texas were rolled into one hog, they, or it, could root out a Panama Canal with ease and dispatch.

In presenting Organ Melodies, Irma Glen has the three-fold job of speaking the verse while she plays the organ with feet and hands, and watches the music, prose, and stop watch.

Harvey Hays, well known to radio listeners for his interpretations of outdoor roles, will play the part of the forest ranger. Wise in the ways of forest uses and protection through long experience in the fields, the character will often find himself in amusing situations with his sub-assistant whose eagerness sometimes overwhelms his better judgment.

Alfred Corn, who plays the part of Sammy in The Goldbergs' NBC daily feature, is nearing his sixteenth birthday, and is a student in high standing at the Art Students' League.

Seppala on the Trail

Seppala and Two of His Huskies

SLED DOGS to COMPETE for OLYMPIC HONORS

Emile St. Godard Winning Quebec Derby

By ELMO SCOTT WATSON

IT IS a far cry from the sub-zero temperatures and the snow-covered hills surrounding Lake Placid in northern New York to sunny California and the great stadium in Los Angeles where the 1932 Olympic games will be held this summer, but there is a connection between the two. Starting in Greece more than 3,000 years ago, Olympic games have been held at more or less regular intervals in many different countries during these 30 centuries, but this year for the first time in history the games will include sled dogs races.

Obviously it would be impossible for the sled dog races to be held at the same time and place as the other branches of Olympic competition. So that is why Lake Placid, N. Y., comes into the Olympic picture. It has one of the finest sled dogs racing courses on this continent and there on February 6 and 7 the teams of "huskies," driven by their fur-clad "mushers" will race 25 miles each day to win Olympic honors for the nations which they represent. Previous to the races at Lake Placid, elimination contests are being held in various parts of the country, notably in New England, to determine the American representatives in the Olympic finals, so these finals will see in the entry lists the names of some of the greatest sled dog drivers and teams in the world, pitting their speed and endurance against each other.

Outstanding among those will be such drivers as Leonard Seppala of Alaska, a native of Norway but now a naturalized American citizen, the man who with his heroic lead dog, Balto, thrilled the world a few years ago when they carried the diphtheria serum to stricken Nome; Emile St. Godard of Le Pas, Manitoba, a young French-Canadian, who has won three world championships; Frank Dupuis, another Canadian; Arthur T. Walden of New Hampshire, experienced Alaskan sourdough musher and dogmaster for Commander Byrd in the Antarctic; Walter Channing of Boston, who has twice defeated teams from both sides of the border in the annual races at Lake Placid; Charlie Lyman, the barber of Laconia, N. H., who has defeated veteran mushers, fur trappers and mail drivers of the Northland; Norman Vaughan, E. Goodale and Fred Crockett, "the three Musketeers of the South pole"; and many others.

Nor is sled dog racing a sport in which only men compete. Although Seppala, if successful in the trials, will represent his adopted country rather than his native land, Norway will probably be represented by a former American, the outstanding woman dog driver of the East. She is Mrs. Kaare Nansen, who before her marriage to the son of the famous Norwegian explorer, was Mrs. E. P. Hleker, Jr., a formidable competition to the men in many an exciting dog race. And a competitor from the West may be Miss Lydia ("Whistlin' Lyd") Hutchinson whose fame is intimately associated with the fame of the annual American Dog derby at Ashton, Idaho.

What horse racing is to the people of the more moderate climates in North America, sled dog racing is to the people of the north where the snows are deep, the winds bite cold and the ice-bound trails defy man and his principal beast of burden, the sled dog, to conquer them. Part timber wolf, part Labrador husky, the fierce shaggy maulmenutes won their place in history during the Klondike gold rush a third of a century ago. But their usefulness by no means ended with the end of the gold rush. Today in the land which lies "north of 53," day in and day out these dogs haul provisions, medicines, freight and supplies. They are an essential part of the fur trade for with their help the trappers patrol their 200-mile trap lines and bring back to civilization the furs which fashion decrees midland must wear.

The sport of sled dog racing is comparatively new but it has grown in favor and in extent more than most people realize. It began back in 1908 when the first of these picturesque sporting events was held over the 408-mile wilderness trail in Alaska from Nome to Candle creek and back. "Man's best friend" had made it possible for the golden riches of Alaska to be obtained, so the first All-Alaskan Sweepstake race was dedicated to the huskies. The plan

"Whistlin' Lyd" Hutchinson

Mrs. Kaare Nansen

was originated by a Nome lawyer, Albert Fink, a dog lover and experienced sourdough musher.

Assisted by a company of friends he raised a fund of \$10,000 to be awarded to the winners and they spread the word of "race of the century" throughout the northland. The result was that Nome was packed with spectators and a long string of famous dogs and experienced mushers ready for the race. It was won by John Hegness, who ran the 408 miles across the bleak wilderness and back, after a steady grind, night and day, in 119 hours and 15 minutes—and most of the way he had to fight one of the most severe Arctic blizzards known in the history of Alaska.

Entered in the second race was a youthful hardware clerk whose name was destined, in later years, to occupy a romantic place in the annals of the northland. Scotty Allen, in odd hours at the store, had managed to assemble a team of dogs of doubtful value as racers. His entry was regarded as a joke; he was asked how he had got up the nerve to list them—but Scotty won the 1909 classic. In 1910 he was defeated by "Iron Man" John Johnson who established a record never duplicated over that 408 miles, thanks to an exceptional team, his rare skill and a good break in weather. Johnson's time was 74 hours and 14 minutes, the fastest ever made in dog racing in the north.

But Scotty Allen was not discouraged. Back he came for another trial in 1911, and cut two hours off his previous record. He is the only man who ran in more than four All-Alaskan Sweepstakes—the first, second, third and eighth and final—and he won the distinction of always finishing a race, irrespective of weather or condition of his dogs. In 1915 Scotty took 440 Alaskan dogs to France; for distinguished service he was decorated by the French government with the Croix de Guerre.

The same world conflict that claimed Allen drew the other men of Alaska—and the ranks of the racers became so depleted that it was impossible to hold the big race. Thus the 1916 event became the last. During that winter a company of sourdoughs met in Le Pas, Man. Dog race talk was revived. It was suggested that Le Pas hold one and the date was set for late that winter, over a 150-mile course from Le Pas to Flin Flon, mushroom mining town, and back.

Few preparations were made; the drivers used ordinary dogs; they themselves were unskilled in the art of racing, and a bitter struggle followed across that trackless snowy waste in quest of the \$500 prize and the title of champion. But it turned out to be a singularly exciting race. The winner had an accident that stayed in two ribs; but he hung on until the finish. From that day to this Le Pas has staged each winter one of the most thrilling races and has developed some of the finest men and teams in the game, most famous of whom is their own boy, St. Godard.

Since that time the growth of the dog derby idea has been rapid until now such races are held in different parts of the United States, Canada and Alaska. Outstanding among them, besides the one at Le Pas already mentioned,

are the annual races at Poland Spring, Maine; Laconia, N. H.; Ashton, Idaho; Prince Albert, Saskatchewan; Quebec, and Fairbanks, Alaska. The American Dog derby at Ashton, Idaho, is run each year on Washington's birthday over a 25-mile course, and attracts a large crowd of spectators from all over the Northwest.

Perhaps the best known of all the dog races is the Eastern International Dog derby held at Quebec during the third week in February each year where "world championships" are awarded the winners. There assemble the winners of the other contests, to race over a course of about 120 miles, run in heats of 40 miles a day. Quebec attracts the best drivers and teams from all parts of America, and rivalry runs high during the three days, attaining a fever heat on the last day of the race. The winner of the world's championship in the first international was Arthur T. Walden, of New Hampshire, experienced Alaskan sourdough musher, who started trailing dogs across the frozen wilderness back in 1896, during the gold rush, and who was dogmaster with Commander Byrd in the Antarctic.

In 1923 the international was won by a French Canadian, Jean Label, of Quebec, much to the chagrin of the Canadians. Earl Brydges, of Le Pas, took the next championship, and into the arena of the 1925 derby stepped young Emile St. Godard, still in his teens to begin his unparalleled record in dog racing. He is now the only man who has won three championships. Frank Dupuis won the 1926 race over St. Godard by a margin so narrow as to make the race one of the most thrilling, and to establish a new time on the trail. St. Godard won the 1927, 1927 and 1928 races. In 1929 Leonard Seppala entered with a string of seven wonderful dogs. This was the third year he had made a determined bid to win the world's championship, and from start to finish, Seppala ran one of the most spectacular races ever seen at Quebec—or anywhere else. Not only did he defeat St. Godard by about an hour, but he broke St. Godard's own world's record, and again put the Americans into the game. Dupuis took second honors and St. Godard came trailing in third. In the opinion of the judges, Seppala's Siberians completed the 123-mile grind fresher than any racers they had ever seen; and they were awarded the condition prize, something unusual in the annals of dog races. Usually this award goes to some driver who trails in later and who has saved his dogs in the mad dash over the snow.

It is such drivers and such dogs as these who will compete in the Olympic contests at Lake Placid within the next few weeks.

The sled dogs are trained for their life work just as soon as they are able to walk; they are tied up and soon acquire the habit of pulling. At about sixty days of age they are given over to the care of boys, who harness them to small sleds or wagnons. The dogs appear to be willing to do this play-acting in the harness, and come to enjoy the pastime.

Any number of dogs may be used in a team, although 15 is about the limit.

RESTFUL SLEEP for FRETFUL, FEVERISH CHILD

— With Castoria's regulation

When your child tosses and cries out in his sleep, it means he is not comfortable. Very often the trouble is that poisonous waste matter is not being carried off as it should be. Bowels need help—mild, gentle help—but effective. Just the kind Castoria gives. Castoria is a pure vegetable preparation made specially for children's ailments. It contains no harsh, harmful drugs, no narcotics. Don't let your child's rest—and your own—be interrupted. A prompt dose of Castoria will urge stubborn little bowels to act. Then relaxed comfort and restful sleep! Genuine Castoria always has the name:

Optimistic Doll
One of the most popular novelties displayed at the Leipzig fair last fall was a fortune-telling doll which announced hopeful prophecies of Germany's future. An ingenious device made it possible for the doll to display cards announcing short but pertinent opinions in a highly optimistic spirit. The doll was named Madame Lenormand, after the famous fortune-teller.

END CHEST COLDS QUICK WITH GOOD RED PEPPER HEAT

Relieves Almost Instantly

When noisy breathing and sharp pains in chest, dry cough, washed out feeling broadcast the presence of a chest cold, just try this safe and sure remedy that relieves chest colds and aches and pains of rheumatism, neuritis and lumbago almost instantly. It is the penetrating, healing heat of red peppers. Now this genuine red peppers' heat is contained in an ointment you simply rub on to get relief in less than 3 minutes. It is **Roxies' Red Pepper Rub**. No blister, nor burn nor harm. It does bring the relief you want. Get a small jar from your druggist.

Bees Delayed Firemen
Bees proved more troublesome than flames to volunteer fire fighters of Silver Springs, D. C. Speeding to a fire the volunteers met a bee swarm. The bees stung, the truck stopped and the firemen fought. When they finally reached the fire they found it under control.

If you fear making a mistake you won't make it. Mistakes are made when you are not thinking of them.

When Rest Is Broken

Act Promptly When Bladder Irregularities Disturb Sleep

Are you bothered with bladder irregularities; burning, scanty or too frequent passage and getting up at night? Heed promptly these symptoms. They may warn of some disordered kidney or bladder condition. Users everywhere rely on **Doan's Pills**. Recommended for 50 years. Sold everywhere.

HOME ECONOMICS

The ninth grade food classes closed
 their study of the luncheon unit with
 family luncheons served this week
 either at noon or after school.

Girls in the group represented
 some member of the family as father,
 mother, son, daughter or guest. The
 serving was family style, in most
 cases, the father doing the major part
 of the serving at the table with the
 mother helping with the beverage and
 dessert. The other members of the
 family cleared the table between
 courses and brought the food from
 the kitchen.

All of the food was prepared as a
 class problem. Perhaps the best pre-
 pared menu consisted of cream of
 potato soup, wafers, chipped beef on
 toast, a combination fruit salad, cook-
 ies and cocoa.
 —Pauline Loomis

GRADES

First Grade—The pupils are mak-
 ing snowmen. They colored some
 posters and the three best got prizes.
 They are Leland Hickox, Ernest
 Stallard and Esther Higby.

Second Grade—Jean Tuin has moved
 to Grand Rapids.

Fourth Grade—They are starting
 a project in Geography.

Those who got A in Arithmetic are
 Keith Rogers, Francis Justice Blanche
 Davis, Genevieve Ellis, Billy Dolezel,
 Eldeva Woodcock and Betty Jean
 Campbell.

Fifth Grade—We are having an
 interesting geography lesson on
 Cotton.

This week we wrote short stories
 from pictures.

Last week Thursday a few of our
 class dramatized the poem, "The
 Duel," by Eugene Field for P. T. A.
 We are beginning the study of
 measurements in Arithmetic.

We have had some very interesting
 book reviews this week. Some of
 them were Robin Hood, Heidi, Robin-
 son Crusoe, Treasure Island and
 Penrod.

For this month we learned the
 poem "January."

The following received 100 in
 Spelling: Budd H; Francis H; Anna
 K; John P; Jane Ellen; Richard S;
 Mary S; Ruth S; Buddy S; Ralph S.

Sixth Grade—They are working on
 semester reviews and quizzes.
 Helen Trojanek is pianist this week.
 They got weighed and everyone
 gained from one-half lb. to 3 lbs.

Six or eight pupils saw an Evening
 Grosbeak. This bird is hardly ever
 seen before March. Someone saw a
 bird which was believed to be the
 Pine Grosbeak.

Those who had A in Spelling are:
 Robert Bigelow, Arthur Engel, Jessie
 McDonald, Anna Jean Sherman.

Those who had A in Arithmetic are
 Carl Beyer, Mary Lilak and Jessie
 McDonald.

Several people ate their lunch out-
 of-doors during January.
 —Marian Kraemer

Loggings for Mules

Hockey players wear shin guards,
 cowboys wear chaps, and in the Trop-
 ics mules wear leather leggings, says
 the United States Department of Ag-
 riculture. The leggings are put on
 mules used to cultivate sisal, one of
 the chief sources of binder twine.
 Sisal leaves have sharp spines and an-
 imals must be protected against them.
 Many of the sisal fields are so rocky
 that hand-cultivation is necessary.
 Tractors are being used in increasing
 numbers for sisal cultivation.

Big Tree

Many states can boast of big trees
 but out in Humboldt county, Califor-
 nia, a forest engineer recently mea-
 sured a redwood that stood 308 feet
 high and was 20 feet in diameter at a
 point 5 feet above the ground. At a
 point 230 feet above the ground the
 tree measured 12 feet in diameter. It
 is estimated that if the tree is sound
 it should yield the astounding total of
 300,000 board feet of salable lumber,
 enough to build 20 average-sized
 homes.

PRETTY BRIDE AND RICH BOY PARTED

Romance of Ozark Mountains
Ended by Court.

Independence, Mo.—The romance of
 a pretty little seventeen-year-old wife
 and a twenty-one-year-old husband
 ended in the Circuit court here when
 Judge C. Jasper Bell annulled their
 marriage in Bentonville, Ark.

Miss Eloise Shearer, sorority girl
 and leader on the University of Mis-
 souri campus last year, was the young
 wife and Charles Sears, son of a
 wealthy Kansas City family, was the
 husband. Both live in Kansas City.

Charles did not appear in court to
 defend himself in the annulment pro-
 ceedings, but he was represented by
 his attorney, who did not contest any
 of the remarks that Eloise made con-
 cerning their marriage and love affair.

Eloise said that they had been mar-
 ried while they were spending a week-
 end in the Missouri Ozarks.

Judge Bell inquired whether they
 were alone on the trip.

"No, no!" she replied. "There was
 another couple—a married couple—
 with us. We all had a few cocktails
 and Charles suggested that we go to
 Bentonville, a sort of Gretna Green,
 and get married. When we got there
 I gave my age as over twenty-one
 years. We were married."

They went on a four-day honeymoon
 trip to Chicago, Miss Shearer said.

Judge Bell restored her maiden
 name as she had asked in her petition.

Mrs. Florence Shearer, the girl's
 mother, was named as next friend for
 the girl, for purposes of the suit. She
 accompanied her daughter in the
 courtroom.

Foreign Legion Is Now

Filled to War Strength

Paris.—The six regiments of the
 French Foreign Legion are filled with
 recruits at more than full war strength,
 so the word has been sent around to
 recruiting stations that no more re-
 cruits will be accepted at present.
 The world depression and unemploy-
 ment are blamed.

At the same time that it put up
 bars temporarily against volunteers,
 the Legion cut from 5,000 to 1,000
 francs the enlistment bonus, which
 was once badly needed to attract re-
 cruits. French colonial regiments still
 offer 5,000 francs enlistment bonus,
 but they will take only French sol-
 diers.

With the rush of recruits, the phys-
 ical and mental examinations were
 made so strict that four out of five
 applicants were refused. Things have
 changed in the Legion and it is now
 as hard to get in as it once was to
 get out.

The five infantry regiments are lo-
 cated in Algeria, Morocco, Syria, and
 Indo-China, the one cavalry regiment
 in Tunisia. Recruits are trained at
 Sidi bel Abbes, at the edge of the
 Sahara, in Algeria.

Cincinnati Has Opened

Campaign on Loco Weed

Cincinnati, Ohio.—Cincinnati officials
 are planning to pass a special ordi-
 nance against "mugglers," cigarettes
 treated with marijuana, which, they
 said, were gaining widespread use here
 among circles of young people.

Federal law does not prohibit sale
 of the weed, which brings an intoxi-
 cated sense of exhilaration. Mari-
 juana has had wide use in Mexico.

Lexy Ford, federal narcotic agent
 here, reported parties of young people
 sit on the floor in "marijuana trains,"
 passing the smokes from mouth to
 mouth. The "train," he said, usually
 ends in an orgy.

Worn Out Land to Be

Used for Reforestation

Battle Creek, Mich.—Farm land,
 abandoned as worn out, will be used
 in a reforestation experiment by Mich-
 igan State college experts.

W. K. Kellogg has given the college
 360 acres of land in Kalamazoo coun-
 ty, which is considered "worked out"
 so far as grain crops are concerned.
 Paul A. Herbert, professor of forestry,
 will try evergreens on the land, de-
 voting eight or nine years to the ex-
 periment.

Seeks Water on Ranch,

Finds Gold, Oil and Gas

Hollister, Calif.—F. Criberi, rancher
 in the Suisun district, in drilling
 400 feet for water on his ranch, struck
 successively a gold bearing quartz vein,
 oil, natural gas, and plenty of water.
 The quartz, from the 300-foot level, as-
 sayed \$97 a ton, considered fairly rich.
 Signs of oil came from the 350-foot
 level and a hot blue flame burns if a
 match is struck over the well cap.
 Criberi is more pleased over the rush
 of water than the other indications.

Man Claims Operation

Made Him Seismograph

Hexham, England.—G. H. Rob-
 son, an ironworker of Acomb,
 mystified local physicians recent-
 ly by offering proof of his claim
 that he is a human seismograph.
 Robson said that, since the
 removal of a muscle from his
 back, his spinal nerves had be-
 come so sensitive that he was
 able to "record" earthquakes in
 Japan, India, New Zealand and
 the South Pacific ocean.

MORTGAGE FORECLOSURE SALE

DEFAULT HAVING BEEN

MADE in the terms and conditions of
 a certain mortgage made and execut-
 ed by Robert Evans and Antonia
 Evans, his wife, she contracting
 separately and in bar of dower, of
 the Township of South Arm, Charle-
 voix County, Michigan, to Mrs. Lena
 Martin, of South Arm Township,
 Charlevoix County, Michigan, which
 said mortgage bears date the 11th
 day of April, 1929, and was recorded
 on the 4th day of May, 1929 in Liber
 sixty-two (62) of Mortgages, on Page
 one hundred fifty-seven (157), in the
 office of the Register of Deeds in and
 for the County of Charlevoix, Michi-
 gan, and that said mortgage is past
 due, and there is claimed to be due
 and unpaid on said mortgage the sum
 of four hundred sixty-two and 90-100
 (\$462.90) Dollars at the date of this
 notice, including principal, interest,
 taxes, and attorney fee as provided
 for by said mortgage; and no suit or
 proceeding at law or in equity having
 been instituted to recover the moneys
 secured by said mortgage or any part
 thereof.

NOW, THEREFORE, by virtue of
 the power of sale in said mortgage
 contained, and of the statute in this
 case made and provided, NOTICE IS
 HEREBY GIVEN that on Wednesday
 the 20th day of April, 1932, at ten
 o'clock in the forenoon, eastern stan-
 dard time, at the east front door of
 the Court House in the City of Char-
 levoix, Michigan, that being the place
 where the Circuit Court for the
 County of Charlevoix is held, the
 said Mrs. Lena Martin will sell at
 public auction to the highest bidder
 the premises described in said mort-
 gage, or so much thereof as may be
 necessary to pay the amount due on
 said mortgage and all legal costs and
 attorney fee.

The premises described in said
 mortgage are as follows, to-wit:

"The northeast quarter (NE 1/4) of
 the northwest quarter (NW 1/4) of
 Section twenty-eight (28), township
 thirty-two (32) north, range seven
 (7) west, and containing forty (40)
 acres of land more or less according
 to the government survey thereof."
 Dated January 22, 1932.

MRS. LENA MARTIN,
Mortgagee.

E. N. CLINK,
Attorney for Mortgagee,
Business address: East Jordan, Mich.

'Twas in a restaurant they met,
 Romeo and Juliet.
 He had no cash to pay the debt,
 So Romeo'd what Juliet.

Big Tree on Stilts

A mountain birch has been found in
 the Great Smoky Mountains National
 park area which apparently stands on
 stilts seven feet high. The explana-
 tion, according to Dr. Herman B. Pe-
 peon, Chicago botanist, is that the
 birch seeds commonly germinate in
 the moss-covered prostrate trunks or
 stumps of decaying hemlocks or chest-
 nuts. The seedling roots penetrate
 the moss covering and go on down
 into the earth. As the log or stump
 decays, the seedling grows stronger
 and stronger. Then when the original
 tree soil has entirely vanished through
 decay, the young tree is left high in
 the air, its roots resembling stilts. The
 greatest elevation of such a birch so
 far observed by Doctor Pepeon is this
 seven-foot one, with eleven roots act-
 ing as stilts.

Let Young Fish Hide

Plants are useful to those who wish
 to raise young fishes. Parents may be
 cannibals and the adults will hunt
 down anything that moves and looks
 like food. So plants which grow in
 dense masses, like crystalwort, small
 bladderwort, and Elodea, make excel-
 lent hiding places for the young fishes.
 If the aquarium is in the dark no plant
 growth takes place, while in the sun
 it beats quickly and the tiny plant
 grows and makes the water green.
 Green water is not harmful but it is
 unpleasant. A northern or eastern ex-
 posure usually gives the best growing
 conditions for the aquarium plants.—

 your visitors, of the visits that you
 make or other items of local interest.

"A STRAIGHT LINE IS THE SHORTEST DISTANCE . . ."

YOU NEED an automobile or a pair of shoes. Some-
 where the automobile or pair of shoes that will
 satisfy both you and your pocketbook is offered for
 sale . . . And advertising is the straight line that
 shows you the shortest distance between the two
 points!

In the advertisements in this newspaper, you'll
 find straight lines drawn direct to the products you
 need. Look for them. Follow them. They'll save
 you hours of aimless wandering, hours of weary
 rummaging, hours of saying to solicitous sales-
 people, "No, thank you, I'm just looking."

And more than time, they'll save you money.
 Advertised products are worthy ones. They MUST
 be. To advertise an inferior product means only
 that more people will find out its flaws. The mer-
 chandise consistently advertised in these pages has
 proved itself by public test. You can buy it with the
 assurance of getting the fullest value for the fairest
 price.
