

Charlevoix County Herald.

VOLUME 40

EAST JORDAN, MICHIGAN, FRIDAY, FEBRUARY 7, 1936.

NUMBER 6

County Fair Dates Set

F. O. BARDEN OF BOYNE CITY ELECTED PRESIDENT OF ASS'N

At a recent meeting of the Board of Directors of the Charlevoix County Agricultural Society, held at the Library Building in East Jordan, nearly all of the Directors were present. Business concerning the closing of the books of the 1935 exhibit was transacted and plans laid for the 1936 exhibit.

This year's Charlevoix County Fair—the Fifty-first annual—will be held on Tuesday, Wednesday, Thursday, Friday—Sept. 15, 16, 17, 18.

Officers elected for ensuing year are—

President—F. O. Barden, Boyne City
Vice Pres.—J. F. Kenny, East Jordan
Secretary—F. H. Crowell, E. Jordan
Treasurer—Geo. Nelson, E. Jordan
Marshal—S. J. Colter, East Jordan

Affairs of the Charlevoix County Agricultural Society are in the best shape they have been in for several years. The 1935 premiums, have all been paid in full, and while there is a small indebtedness left, these bills will be paid in the near future according to Secretary Crowell.

Upon request of the Directors, the Charlevoix County Board of Supervisors, at their October meeting paid a mortgage balance due on the property at East Jordan of some \$1800 leaving the grounds free of indebtedness.

For the Fifty-first Annual Day and Night Fair it is planned to give away One Hundred Dollars in cash prizes to those attending each night of the Fair Exhibit.

Secretary Crowell and Treasurer Nelson are balancing the books for the past year's activity and, as soon as this is done, a financial report will be published in these columns.

Directors For 1936

John Noble, East Jordan	1936
Rev. James Leitch, East Jordan	1936
Harry Behling, Boyne City	1936
L. R. Taft, East Jordan	1936
Joe Foster, Charlevoix	1936
Geo. Meggison, Charlevoix	1936
Earl Danforth, East Jordan	1936
Harry Hooker, Charlevoix	1936
F. O. Barden, Boyne City	1937
Dr. C. J. Winder, Charlevoix	1937
D. Tibbits, Boyne City	1937
Fred Austin, Central Lake	1937
Edd Nemecek, East Jordan	1937
F. H. Crowell, East Jordan	1937
C. W. Bowman, East Jordan	1937
Elmer Murray, East Jordan	1937
Russell Barden, Boyne City	1938
Harley Smith, Bellaire	1938
B. Milstein, East Jordan	1938
George Nelson, East Jordan	1938
James Elzinga, Ellsworth	1938
Sam Coulter, East Jordan	1938
John F. Kenny, East Jordan	1938
Ralph Beckett, Charlevoix	1938
Jess Smith, Charlevoix	1938

Executive Committee

Harry Hooker, James Leitch, Edd Nemecek, Jess Smith, F. O. Barden.

Auto Tag Deadline Delay Widespread

Michigan, rather than being alone with an extended final date for purchase of 1936 automobile license plates, joined many other states when the deadline was recently extended to Feb. 29 by Orville E. Atwood, secretary of state.

Not many states have extended their dates so late as the one effective in Michigan; in some states the normal deadline is earlier than the one provided by law in this state.

While adjoining Indiana granted no extension from its Dec. 31 date, so far as official notification in Lansing is concerned, Ohio's legislature recently moved the final date for plate purchases to April 1. Illinois granted a 30 day extension.

The bordering Canadian province of Ontario extended its deadline 30 days, with Feb. 1 the final date, according to latest official information from there. Several states extended their final plate purchase dates 45 days.

Among states granting periods of grace are Iowa, Kansas and Wisconsin. Louisiana extended its date from Dec. 1 to Feb. 5, a 65 day added period; Maine gave its car owners an actual Christmas present by extending the time from Dec. 25 to March 1.

Minnesota moved its deadline back 90 days, from Dec. 31 to April 1. North Dakota led the parade by extending its deadline from Dec. 31 to May 16, a deferment of about 136 days as compared with Michigan's 60 days. The three Pacific Coast states made no concessions to their car owners, but delays are spotted throughout the nation's map. Wyoming with 60 days and Oklahoma with 90 days being among those where delays were secured.

Michigan residents are warned by Mr. Atwood not to drive outside of the state without their 1936 license plates as it is possible they might encounter some difficulty with the authorities of the other states.

The less a man knows, the longer it takes him to tell it.

The Sixteenth Annual Father & Son Banquet Next Thursday

The sixteenth annual Father & Son Banquet, sponsored by the Fellowship Club of the M. E. Church, will be held at the High School Auditorium on Thursday, Feb. 13th, at 7:00 o'clock P. M.

The speaker will be Rev. Albert H. Kehrens, pastor of the St. Mary's parish at Lake Leelanau.

There will be music by the High School Orchestra and other special numbers.

The tickets will be seventy-five cents as usual and will admit two.

Clair Batterbee and Bob Scott are in charge of the sale of tickets. They may also be purchased of Vern Whiteford, Bill Hawkins or John Cermak.

Everyone is invited to attend and bring a son.

Legion Aids Veterans

The Veterans Administration has asked all veterans to contact their Post Commander, Adjutant or Service Officer in regard to "Bonus" applications. The membership on January 26th was 40,000 ahead of last year, is yours in that?

The National Legionnaire sends out this advice, "Don't be too fast in spending your money (when you get it), hold on to your bonds, because the veteran is now the prey of every conceivable graft. Pay up your taxes and buy things that are necessary for the comforts of you and your family. 1,897,836 veterans are going to pay out \$623,615,793.86 on debts incurred during the depression, 400,000 new homes, 323,922 automobiles, 153,724 farms, 1,003,305 new dresses, will be bought out of the Bonus.

Bring in your discharge and pink slip, the Commander has the blanks and can act same as a notary public.

Club Leaders To Hold Important Conference

An event which promises to be of great value to the club leaders in the county is the annual club leaders conference which will be held in the Marion Center Grange Hall on Wednesday night, February 12. A banquet will be enjoyed at 6:30 and will be served by the ladies of the Marion Center Grange.

The newly organized 4-H Club orchestra will make their first appearance before club leaders in the county at this time. All club leaders of winter club projects, and one club member from each group are invited to enjoy this banquet without cost, and to meet with our club representatives from the Michigan State College. Mr. Orville F. Walker, newly appointed District Club Agent, will take an active part in the development of plans for the club year.

We are glad to announce that at the present time there are 29 4-H club groups actively engaged in project activity, with a membership of close to 300. It certainly looks like a banner club year, as this year's enrollment surpasses any previous year. All club leaders are urged and cordially invited to enjoy this attractive program that will be put on.

B. C. Mellencamp, County Agr'l Agent.

"Wise Guy" an Entertaining Short Fiction Story by William LaVarre, the Famous Explorer, in The American Weekly, the Magazine Distributed with Next Sunday's Chicago Herald and Examiner.

Increasing the horse power doesn't increase the horse sense.

J. T. NACHAZEL
Director of Extension, Prof. of Mathematics, and Civil and Mining Engineer of the Michigan College of Mining and Technology at Houghton, was an East Jordan visitor last week renewing former acquaintances and giving a talk to the E.J.H.S. Junior and Senior boys. Prof. Nachazel is among the many local H. S. graduates who have made good in their chosen profession.

NOMINATIONS BEGIN MONDAY EVENING

"BELLE OF THE BLIZZARD" CHOSEN NEXT WEEK

With the opening of the new State Street skating arena expected soon, nominating will start next Monday evening, February 10, for the "Belle of the Blizzard" or Miss Aurora Borealis, who will rule over the new skating paradise. The nominating will conclude at 10:00 P. M., Tuesday, February 11.

The twelve girls having the most nominations will then enter the contest for "Belle of the Blizzard". The voting will begin Wednesday, February 12 and will close at 10:00 P. M. Tuesday, February 18.

The ballot box will be in the lobby of the Temple. All entrants must come under the following qualifications:—

1. Each entrant must be at least sixteen years of age, and not over twenty years of age. However, any entrant who will be sixteen before the next new moon (Feb. 22) will be eligible to enter.

2. No girl having false teeth, fallen arches, distemper, or hang nails will be eligible.

3. All entrants must have been seen on the mill skating pond at least once this winter, and must be able to keep their balance with the aid of not more than 3 people.

The Blizzard Belle's Ball will be held in the High School Gym, immediately after the Charlevoix - East Jordan basketball game February 28, and will be under the direction of the Junior class of E.J.H.S. Sup't. Wade and Miss Aurora Borealis will lead the Grande Marche at this function.

The committee in charge has already received the following nominations to 'start the ball rolling':—

Virginia Bartlett	Marcella Muma
Ruth Bulow	Phyllis Rogers
Peggy Clark	Mary Seiler
Eva Dennis	Josephine Sommerville
Thelma Looze	Barbara Stroebel
Betty Vogel	

In view of the fact the State Street rink may not be completed right away, the committee is holding the girls of this year's kindergarten class as alternates, thus assuring that a Belle of the correct age will be available when the rink is done.

Don't forget to nominate and ballot for your favorite Belle next week in the theatre lobby.

Survey On Rural Electrification Completed

After two months effort, all of the preliminary work of the Rural Electrification project has been completed. Over 500 numbers have been placed on the map of Charlevoix County, which show the names of those who have signed the survey sheets as being interested in securing the use of electricity.

Up to the present time the communities who have apparently signed up most completely are the U. S. 31,

Marion Center, Barnard Road, Beaver Island and Horton Bay. During Farmers Week this material will be placed in the hands of the committee in charge and it is hoped that in the near future some definite proposal that will be of mutual interest to both the utility company and the prospective customers will be presented.

While nothing definite can be announced at the time, it seems highly possible that some extensions may be made as a result of this activity.

B. C. Mellencamp, County Agr'l Agent.

FREE CONCERT BY EAST JORDAN SCHOOL

Band and Orchestra

UNDER THE DIRECTION OF JOHN TER WEE

Wednesday, Feb. 12, 1936

HIGH SCHOOL AUDITORIUM 7:45 O'CLOCK

Orchestra Program

"MARCH ROMAINE"	Chas Gounod
"SLEEPING BEAUTY" WALTZ	Tschaikowsky
"THE DRUMMER BOY"	Violin Solo
By Glen Trojanek. Piano Accompaniment	Helen Trojanek
"OPERATIC STARS"	Arr. E. DeLamater
"CONTENTMENT"	Trio for three Clarinets
Thelma Hegerberg — Anna Mae Thorsen — John Fray	Carl Busch
"PLANTATION ECHOES" Selection	Arr. E. DeLamater

By Ruth Bulow. Piano accompaniment — Betty Vogel	
"ELENA POLKA" Duet for two Clarinets	W. H. Kiefer
By Virginia Bartlett and William Ellis	
"AMERICAN PATROL"	F. W. Meacham
"DOWN THE STREET" March	Victor Grabel

Pedestrian Killed During Blinding Storm Near Boyne Falls

Joseph Keninska, aged 58, was killed Friday night when struck by an auto while walking along M75 near Boyne Falls. Mr. Keninska accompanied by Mike Scope, was enroute home from the Falls about 7:30 or 8:00 p.m. Owing to the blinding snow storm, Lee E. Bearss, driver of the auto, was unable to see them until too late. Mr. Bearss took the body to Boyne City where a physician pronounced Mr. Keninska dead. Authorities exonerated Mr. Bearss, declaring he was not to blame for the accident. It is said the two pedestrians were in the center of the road and that, upon seeing them, Mr. Bearss swerved his auto to the side of the road but was unable to avoid the accident.

Mr. Keninska is survived by his wife and six children who live on their farm west of Boyne Falls.

Funeral services were held from St. Augustine Catholic Church at Boyne Falls Tuesday forenoon, Feb'y 4th, conducted by the pastor, Rev. Albert Narlock. Burial was at the Boyne Falls Catholic cemetery.

Council Proceedings

Special Meeting of the Common Council, City of East Jordan, held at the Council Rooms January 23, 1936.

Meeting called to order by the Mayor. Roll Call: Present; Aldermen Dudley, Hipp, Maddock, Rogers, Sturgill and Mayor Carson. Absent; Alderman Hathaway.

Meeting called for the purpose of discussing advisability of buying new truck and snow removal equipment.

After studying specifications and prices of several trucks it was moved by Dudley, seconded by Hipp, to purchase a two-ton truck. Ayes — Dudley, Hipp, Maddock and Mayor Carson. Nays — Rogers and Sturgill. After further discussion it was moved by Dudley, seconded by Maddock to reconsider motion to purchase two-ton truck. Carried by an aye vote. Moved by Dudley, seconded by Rogers to purchase ton and one-half Chevrolet truck. Carried by an Aye vote. Moved by Rogers, seconded by Sturgill to purchase snow plow for the truck. Carried by an aye vote.

R. G. WATSON, City Clerk.

Regular meeting of the Common Council, City of East Jordan, held at the Council Rooms, February 3, 1936. Meeting called to order by the Mayor. Roll Call: Present — Aldermen Dudley, Hathaway, Hipp, Maddock, Rogers, Sturgill, and Mayor Carson. Minutes of the previous meeting were read and approved. The following bills were presented for payment:—

Norman Sloop, labor	\$.90
J. F. Kenny, coal	17.00
Harry Simmons, driving truck	32.50
Wm. Decker, labor	.90
Alonso Smith, labor	.90
Glen Pinney, labor	.90
Lewis Ellis, janitor	5.00
Clyde Bigelow, labor	10.80
John Schroeder, labor	10.80
Guy King, labor	13.50
Gerald Dudley, labor	11.70
M. Quinn, express	4.49
Joseph Lilak, sawing lumber	25.00
Clyde Bigelow, labor	4.80
John Schroeder, labor	6.00
Earl Lamerson, labor	5.70
Gerald Dudley, labor	6.90
E. E. Boswell, salary & pstg.	51.75
R. G. Watson, salary	25.00
Henry Scholls, janitor	10.00
Chas. Shedina, labor & materials	2.70
Kahler & Friend, gas	4.66
Chas. Cox, labor & materials	26.50
Healy Sales Co., Chevrolet truck	505.90
Ben. Brown, lens for car	.85
Northern Auto Co., labor	1.50
Roy Sherman, labor & materials	17.53
Northern-Auto Parts, gears	6.58
Standard Oil Co., gas & oil	53.80
East Jordan Lumber Co., lath	.62
Mich. Public Service Co., lights and pumping	243.58
Earl Shay, janitor fire hall	5.00
C. Brown, work on fire whistle and truck	9.00
East Jordan Fire Dept., fires	93.00
Harry Simmons, labor	25.00
Ole Olson, salary	75.00
Salary WPA Supt.	25.00
Car Expense	24.24

Moved by Sturgill, seconded by Rogers, that the bills be allowed and paid. Carried by an aye vote.

Moved by Sturgill, seconded by Rogers, that the Park Comm. be authorized to buy the required amount of two inch galvanized pipe for skating rink. Carried by an aye vote.

Moved by Hathaway, seconded by Hipp that we sell to Albert Blossie 60 feet of land off from the Deer Park between State Street and Mill Street for the consideration of \$100. Carried by an aye vote.

Moved by Maddock to adjourn.

R. G. WATSON, City Clerk.

Won't Wait
Sailor: "Did you keep the date with that dame last night?"
Marine: "Naw I waited two hours for her and she didn't show up, so I stood her up."

Crimson Loses To Harbor

TRAVELS IN BLIZZARD TO DROP 20-16 DECISION

The jinx still holds. Coach Cohn's Crimson Wave lost ground in the little eight conference last Friday evening when Harbor Springs turned them back by a 20 to 16 score, on the Harbor floor.

Not since 1929, when a veteran Orange and Black outfit went thru to the state championship, has the Jordanites been able to defeat Harbor on its own floor. The Redshirts gave the Harbor boys their only defeat of the season that year and they did it on the Harbor floor.

Harbor Springs built up a 9 to 5 lead during the first half Friday and it proved sufficient to give them the victory. The Crimson missed enough dog-shots during the first quarter to put the game on ice, but the ball simply refused to go in the basket.

During the second half, the game was an even toss-up, each team making eleven points. Each team made six baskets during the game but Harbor was more accurate at the free throw line which accounted for the winning margin.

The game with Grayling Tuesday night had to be cancelled on account of the blizzard.

Ten Leading Causes of Death In Charlevoix County In 1935

As in previous years, heart disease again leads the list of causes of death not only in our District but in the United States. Following closely we find apoplexy, cancer, nephritis and violent and accidental deaths next in importance. The majority of these deaths including heart disease, cancer, nephritis and apoplexy occurred in the age group of sixty to eighty-five years. It is during his period of declining years in one's life that the vital processes tend to diminish in power making it necessary for the adult to engage in only the mildest form of activity.

The following table prepared by the District Health Department, composed of the counties of Antrim, Charlevoix, Emmet and Otsego, shows the ten leading causes of death that occurred in Charlevoix County in 1935:—

Heart Disease — 48
Apoplexy — 17
Cancer — 14
Nephritis — 12
Violent & Accidental — 9
Pneumonia — 5
Premature Birth — 5
Other diseases of Circ. system 5
Influenza — 3
Anemias — 3

There were no deaths resulting from scarlet fever, whooping cough, typhoid fever, smallpox, measles or diphtheria in Charlevoix County during 1935. There was one death resulting from infantile paralysis.

Preventive medicine has succeeded in controlling or eliminating such pests as smallpox, tuberculosis, malaria, yellow fever, typhoid and diphtheria, and has so prolonged life that more and more persons are living through the middle age and beyond.

CRAZY IDEAS THAT HAVE SWEPT THE WORLD

Disclosing details about some astonishing schemes that have caught gullible and credulous people in spite of warnings that they were unsound and unworkable. Read the article in The American Weekly with Sunday's Detroit Times.

BEG YOUR PARDON

An error appeared among the signatures of the Card of Thanks published last issue — It should have read "Mr. and Mrs. Albert Vogt" — not Mr. and Mrs. Albert Myers.

Her Clutch Slipped
"So Cora ran her car against a tree when she and Horace were out riding the other night?"

"Yes. It threw her against the steering wheel and hurt her quite badly—and it broke three fingers for Horace."

Government Offers Test For Bang's Disease

The Federal Government offers you an opportunity to have your cattle tested for Bang's Disease (abortion disease) without cost to you, except furnishing of labor to assist in taking blood samples and the proper cleaning of the premises if you have any reacting animals. The Government also pays indemnity upon reactors of not to exceed \$50.00 on pure-bred males or females, and not to exceed \$25.00 on grade females, in addition to the salvage or meat value, in order to aid cattle owners to remove this costly disease from their herds. The indemnity plus the salvage or meat value will not exceed the appraised value of the animal. Bang's Disease causes abortions, retained afterbirths, breeding difficulties, udder disease, and pneumonia and scours in calves. The Bang's bacteria occasionally causes people to have a disease known as undulant fever.

Dr. T. S. Rich, U. S. Inspector in Charge, State Office Building, Lansing, advises that his department is willing to accept supervision of your herd if you fully understand the agreement.

The important points of the agreement are as follows:—

1. The owner agrees to permit the application to each animal in his herd over 6 months of age, of from one to four tests.
2. That after each test he will market for slaughter, under State or Federal supervision, all heifers over six months of age, or cows and bulls which react to the test.
3. Reacting animals are to be kept away from other cattle until marketed or removed.
4. Animals being brought into the herd must come from herds known to be definitely free from Bang's Disease.
5. Non-pregnant animals may be purchased from herds not known to be free from Bang's Disease if they are tested and then placed in quarantine for at least 60 days before being added to the herd.
6. Pregnant animals which are purchased must pass the test and be kept in quarantine after calving for at least sixty days without being rebred at which time they must pass a second test before being added to the herd.

After the herd has been tested and the reactors marketed for slaughter he will continue testing the animals in his herd in accordance with the accredited Bang's Disease herd plan of his state, and he will continue until his herd is eligible for accreditation, (requires passing three semi-annual or two annual tests without reactors). The agreement requires that only herd sires free from infection be used on clean herds.

Cattle owners wishing to take advantage of the opportunity to free their herds of this costly disease should write to Dr. T. S. Rich, U. S. Inspector in Charge of Bang's Disease, or to B. C. Mellencamp, County Agent, or to Dr. Christian G. Jensen, U. S. Bang's Disease Field Inspector, general delivery, East Jordan.

Respectfully,
 Christian G. Jensen,
 U. S. Bang's Disease
 Field Inspector.

Driving is a full-time job in all kinds of weather.

Death says: "I ride beside every driver who relaxes in alertness."

A fixed tag in a traffic court may ultimately be converted into a coroner's certificate.

Another type that went with prohibition was the rounder, who took home any odd-shaped empty to the wife, for a lamp base.

Even if not all the Ethiopian warriors in that army of 400,000 are armed, it is wonderful country for rolling a rock-down a hill.

Menu For Lincoln's Birthday

February is so chock full of days and birthdays to celebrate — and is so plastered with hearts and hatchets that I hardly know where to start. As the 12th of the month is Lincoln's birthday, I think it would be fun to plan a special menu for this date. In our home, even though we're not having guests in, the children enjoy it so much that we always observe dates such as this with a special menu. The food will, of course, be simple — something they would serve in the backwoods, for Lincoln's life certainly typified simplicity and economy. I'm giving you a suggested menu. It would be grand for a good old-fashioned party — or for your family dinner at home:—

- LINCOLN DAY MENU**
 Baked Beans (In old-fashioned bean pot).
 Whole Wheat and Raisin Breads.
 Butter.
 Cole Slaw (In wooden chopping bowl).
 Hot Gingerbread.
 Coffee Milk.

Children should be seen in the street — not hurt.
 Death lurks just around the corner for many an over-confident driver.

RARE MAMMALS ARE SECURED IN TIBET

Expedition Also Discovers New Scientific Data.

Philadelphia, Pa.—New and important scientific data and specimens of rare birds and mammals have been discovered by the Dolan expedition in eastern Tibet, according to Charles M. N. Cadwalader, director of the Academy of Natural Sciences here.

Cadwalader reported that he has re-established communication with Brooke Dolan II and his group, after their whereabouts were unknown for months.

Dolan has written to Cadwalader that he and his party have traversed many hundreds of miles through an area never before visited by naturalists.

Once during recent months, Dolan said, he was forced to leave the main party journeying in Sining to obtain official permits for work in remote areas. The route took the scientist through the lands of nomad tribes in the upper Yellow river mountain regions, an area last traversed by foreigners many years ago—and then only with an organized caravan.

A narrow escape from a battle with a marauding band of Ngolok nomads was averted, Dolan notified Cadwalader. He added that for nine days the small party was lost with a meager food supply.

The experience had a good point, however, Dolan wrote. He said it gave the party an opportunity to study animal and bird life in the area and an excellent view was obtained of the peak Annyi Machen, which, contrary to previous observers, Dolan judged to be less than 25,000 feet in height.

Dolan collected specimens of wild yak, Tibetan antelope, and big horn sheep along the Ussu tributary of the upper Yangste river in northeastern Tibet. Many other mammals and birds have been collected and prepared for shipment to Philadelphia, Dolan notified the academy.

Buffalo Grass to Resod Great Plains Advised

Quannah, Texas.—The Great Plains must be resod before the dust storm menace can be controlled, in the opinion of Superintendent J. Roy Quinby of the Texas agricultural experiment station here.

Buffalo grass or "running mesquite," native to the plains country, Quinby says, is the ideal plant.

However, Quinby has devised a machine to harvest buffalo grass seed. He characterizes the machine as an "overgrown vacuum cleaner." The seed grows close to the ground and falls as soon as it matures.

In tests Quinby has harvested 80 pounds an acre, he says. One pound will plant an acre of ground effectively.

"Resodding the Midwest with buffalo grass will lay the dust and keep the farms at home," Quinby declares.

Princess Drops Royal Rights to Wed Salesman

London.—Inheriting her father's disregard for tradition, Princess Ingeborg of Benthelm-Steinfurt, twenty-four years old, cast aside all hereditary royal privileges at Caxton hall register office in London when she married August Anton Hans Solken, twenty-two years old, a salesman.

Exactly 29 years ago her father, Prince Eberwyn, renounced an income of \$1,250,000 a year and all his royal privileges to marry the daughter of a German peasant. The secret wedding also was performed in London.

Questioned on the attitude of her family toward the wedding, Princess Ingeborg, who is related to nearly all the reigning monarchs in Europe, said: "They do not like it very much. That is why we came to England in the hope of keeping the wedding a secret. I am sorry it has become known."

Lights of New York

by L. L. STEVENSON

Ran into several Radio City yarns. The first concerns the president and vice president of a large firm that occupies considerable space in the building. As they were passing along one of the upper floors, they ran into one of those tours that make regular trips through Rockefeller Center. Curious to know what the college graduate guide had to say about their surroundings, they tagged the sight-seers. All went well until the guide made a check up and discovered that his party had grown. Calling a halt, he motioned for silence and announced that there would be no further progress "until the two chiselers leave us." Whereupon, the president and vice president, their faces very red, slunk away as quickly and as quietly as they could.

The second tale has to do with a highly paid woman executive who not infrequently spends her evenings at her desk. Recently, she failed to notice the lapse of time with the result that when she finally did leave, she came down in an elevator with a group of scrubwomen who, having completed their night's work, were on their way to their homes. The woman who stood next to the executive wore a coat and dress quite similar to hers, though it obviously was a cheap copy. She stood behind that particular scrubwoman when she registered out and as she picked up the pen to write her own name, the night superintendent remarked, "Oh, that's all right—two of you."

Last is the N. B. C. executive who as he was passing through a hall noticed one of the numerous studio ushers standing in an obscure corner with his face toward the wall. On his return, some time later, he saw the young man still in the same place and the same position. So he went up to him and inquired the reason. "I'm sorry, sir, but I'm being punished," was the reply.

Conductor William B. Hobson, retired recently by the New York Central because he had reached the age limit, served that one railroad 54 years. Forty-seven of those years he was on the Twentieth Century running between New York and Chicago. He figures that he has traveled 2,000,000 miles on that train and has "carried" every person of importance in the country, including every governor, from David Hill to Herbert Lehman. Of all, he holds Theodore Roosevelt to have been the greatest. His acquaintance with Franklin D. Roosevelt began when the President was a schoolboy. And every week for a half century, he brought down a basket of fresh eggs from upstate.

Kate Smith—not the radio singer—is fifty-three years old but doesn't look more than thirty-five. Smiling, happy, she regards life as a great adventure. When she was nine years old, both her arms were burned off. Refusing to acknowledge even such a terrible handicap, she set about doing what other little girls did. She learned to sew in school and when the teacher didn't thread her needle fast enough, she threaded it herself. For years, she taught herself to do various things and succeeded well. Then she received training at the Institute for Crippled and Disabled. When she wants to do a thing, she practices until she masters it. She's shy while trying something new but after that doesn't care.

For hands, she has substituted her feet and teeth. She combs her hair and makes up her face with her feet. She makes all her clothes and can operate both a sewing machine and typewriter. She can sign her name with a fountain pen and is remarkably swift in folding and inserting letters. She is an excellent swimmer and an expert pistol shot. She has been married twice but divorced both husbands and now makes her own living. Her baby died in infancy but she cared for it herself and for some time earned her living by caring for babies in a Chicago institution.

When nothing else offers, she travels with a slideshow. That's a last resort, since she doesn't look on herself as a freak. She doesn't look on herself as unfortunate or handicapped, either. Life has given her much, she holds. I like Kate Smith.

Double Plow Invented

Wrightstown, Wis.—A new type of plow invented here by John Nelesen has two shares, one set higher and ahead of the other. The higher and foremost share is set to turn the surface ground, stubble or sod while the lower share to the rear digs deeper to turn a furrow.

\$20.50 Buys 13 Autos

Boston.—Thirteen automobiles seized by the Boston police went on the auction block and added a grand total of \$20.50 to the city coffers. Two of them went in a bargain package for \$1.

Brick Brings Back 56-Year Memories

Newburyport, Mass.—Fifty-six years ago John J. Quill and three other youths inscribed their names on a brick before it was put in the oven. Today Quill has the brick, which recently was unearthed in front of his home by FEICA workers.

Notice of South Arm Township Annual Primary Election

To the Voters of South Arm Twp.: The annual Township Primary Election will be held Monday, March 2, 1936, at the Township Hall. The following officers will be voted on:—Supervisor, Township Clerk, Treasurer, Commissioner of Highways, Justice of Peace (full term), and Member Board of Review.

The candidate receiving the greatest number of votes shall be placed on Ticket No. 1. The candidate receiving the next highest number of votes shall be placed on Ticket No. 2.

The Polls at said Primary Election will open at 1 o'clock and will close at 6 o'clock p. m.

Candidates for office must have their petitions filed with the Township Clerk on or before February 11th, 1936.

Persons who are not registered and wish to vote at the Primary must register on or before February 21, 1936.

LAWRENCE ADDIS,
 adv.5-2 Clerk of South Arm Twp.

A church in Middletown, N. J., is supported by money left by Capt. Kidd, famed pirate.

All that a man has when he dies is what he has given away.

Michigan has a total area of approximately 37,000,000 acres or approximately 57,000 square miles.

A gallon of gas, and a pint of gin; all they found was a mess of tin.

WPA Work-Play Program in Full Swing

Recreational and educational activities for the residents of 15 counties surrounding the Straits of Mackinaw are now being provided on a wide scale by the Work Progress Administration.

Work and play programs for thousands of men, women and children in the area are under way with 212 workers of the WPA recreation project in charge, according to a report

to Harry L. Pierson, State Administrator, from Walter C. Averill, Jr., recreational project supervisor.

Typical of the projects are groups in mechanics and carpentry, classes in dramatics, handicraft, domestic science and cooking and outdoor sports such as hockey, skiing and skating.

In Alpena 17 workers are conducting leisure time projects in library work, sports, a sewing class, boat building and other programs while 24 WPA recreational employees are engaged in similar additional activities in Traverse City.

Eleven workers are active in An-

trim County; Benzie County, 18; Cheboygan County, 17; Charlevoix County, 16; Mackinac County, 19. Thirteen are working in Rogers City.

A juvenile delinquency survey is being conducted in Alpena.

The projects have been organized to provide leisure time activities for persons of all ages, with emphasis on youth.

Community support for the projects is encouraging, Mr. Averill reported, with school officials, church and club organizations endorsing the programs and, in many cases, offering the use of equipment and facilities.

There Is No Other Way

In supplying telephone service to Michigan, this Company's first concern is with the present. Above all else, the service must be good today. But to serve the present, we must be constantly preparing for the future.

To illustrate: In Detroit stands Michigan's largest long distance switchboard. It represents invested money, skilled labor and thorough engineering study. The need for this switchboard did not exist at the time plans were made for it. But a careful survey of the future had plainly indicated that such a need was coming. And when it came, this Company was perfectly equipped to handle the heavy traffic of long distance calls that flowed in and out of Michigan's great industrial areas.

The intricate mechanism behind your telephone cannot be assembled overnight, nor thrown together to meet a sudden need. It must be "built ahead." To do this intelligently—and economically—requires an intensive engineering survey of such factors as shifts in population, industrial developments and trends in real estate. The neglect of these preparations could be as wasteful as building a bridge accommodating a single lane of traffic, only to find later that additional lanes are imperative.

It is not a mere academic theory that this policy of building for the future is the only way to provide high-grade telephone service. Experience has repeatedly demonstrated that there is no other way.

PUBLIC ENEMIES

THE "ONE DRINK" DRIVER

OH YEAH IM O.K.

SETTER TRAFFIC COMMITTEE

The Motorist who takes a drink takes chances not only with his own life but with the lives of others.

One drink cannot make a man drunk but it may so affect his driving as to make him twice as "accident prone."

The One Drink driver impairs his ability to react in times of emergency or sudden danger.

The Good driver never takes chances.

Funeral of Orrin W. Bartlett Probably Sunday

Orrin W. Bartlett passed away at his farm home near East Jordan Wednesday evening, February 5, after a prolonged illness. Funeral arrangements have not yet been completed, but will probably be held Sunday afternoon from the M. E. Church.

Mr. and Mrs. Dewey Hosler and son Bobby returned home Monday after spending the past week in Detroit.

W. E. Malpass and W. W. Malpass returned Thursday morning from a business trip to Lansing and Detroit.

Cecil Hitchcock from CCC Camp at Fife Lake, is spending the week at the home of his mother, Mrs. Lottie Hitchcock.

Mr. and Mrs. D. Dickan and daughter, Peggy, of Boyne City were Sunday guests of Mr. and Mrs. G. W. Bechtold and family. Peggy is spending the week with her aunt, Mrs. Bechtold and family.

Should the Federal Government have the power to regulate agriculture and industry? Read how the Nation feels about this question in "America Speaks", the National Weekly Poll of Public Opinion. It appears exclusively in Michigan in Sunday's Detroit News.

The groundhog went back into his hole in the ground Sunday to sleep through six more weeks of winter without knowing the United States weather bureau had called him a "fake." "Just a silly superstition," the weather bureau said. "In the past 21 years he's been right only 10 times which isn't so good."

Thrown Back

Sea Captain (to new midshipman): "Well, me lad, I suppose it's the old story—the fool of the family sent to sea."

Midshipman: "Not at all, sir, that's all altered since your day."

What sort of a world would this world be if everybody were just like me.

NORTHERN U. S. ONCE UNDER SHALLOW SEA

Geography of Devonian Age Is Reconstructed.

Washington.—A great shallow sea lay over a large part of the northeastern United States 300,000,000 years ago.

Tentative reconstruction of the geography of the so-called Devonian age is made possible by the discovery of similar and approximately coeval fossil deposits in northeastern Michigan, according to a report to the Smithsonian Institution by A. S. Warthin of Vassar college and G. A. Cooper of the staff of the United States National museum.

This ancient sea, they have determined, covered most of New York, Ontario, Michigan and the surrounding country, but with a great island, or possibly an area of very shallow water, elevated in the territory now covered by most of Lake Erie, Ohio, Indiana and southern Michigan.

The approximate outlines of this low island can now be determined by the remains of the coral plantations which fringed its shores. In Michigan certain colonial corals formed huge heads as much as 50 feet in height. These were not connected to form a single reef, but made innumerable low mounds on the sea bottom. These reefs or "bioherms" are reflected especially in the topography about the present Alpena, Mich., and along the Thunder Bay river in the form of small, conical hills.

On the margins of the coral masses a variety of other creatures lived. Crinoids, or sea lilies, were especially abundant. Some of them were of large size and great beauty. There is probably no known Devonian locality so productive of fossil sea lilies, and many of the specimens collected for the national museum represent species new to science.

Austria Gives Asylum to Man Denied Country

Vienna.—Julius Parschen, "man without a country," hounded over frontiers, driven back again, forced to live for three days on a bridge between two states, is free again.

His story starts with his arrest in Vienna for begging. He was expelled from Austria and taken to the Jugoslav border as a citizen of the country.

But the Jugoslav guards took him to the Italian frontier near Susak. Here Parschen was driven over the frontier bridge into Italian territory. But the Italians leveled their guns—and back ran Parschen. The Jugoslavians showed their bayonets.

So the unfortunate man had to spend three days alone on the bridge until the Italians arrested him and sent him back to Austria.

Once on Austrian soil he was arrested and held before the Viennese courts. He told his story. The judges were merciful and now he is free to live in Austria.

VARIETY OF NAMES FOR PARIS STREETS

People, Events, Saints and Devils Represented.

Paris.—"What's in a name?" may mean very little to most people, but it evidently meant a great deal to the people who once had charge of naming the streets here.

Not only people and events are recorded in this diversified dictionary of Paris by-ways and thoroughfares, but colors, animals, saints, devils, virtues and vices.

God and Babylon each have a street; the Trinity has a square, the Holy Spirit a public courtyard and the child Jesus is represented by an "Impasse," called "L'Impasse de l'Enfant Jesus" on the left bank not far from the bright lights of Montparnasse.

There is a "Street of Bad Boys" as well as another of "Good Children." Near the Pere Lachaise cemetery is an appropriate "Street of Repose." Here, just facing the celebrated burial ground, is a cafe and the enterprising proprietor has hung a sign on his door reading, "Welcome! You are better off here than across the street."

Some Odd Names.

"La Rue du Chat qui Peche" or the Street of the Fishing Cat, is another of peculiar nomenclatures to be found in Paris, as well as the streets of White Coats, of the Red Ball, the Green Road, the Golden King and the White Queen. As for alzes, there is the Big Pebble street, Little Fields street (also Big Fields), street of the Big Bottle, the Little Monk and the Big Priory.

Britain is well represented by such names as King Edward VII, King George V and Queen Victoria. There is an English street, Irish street, Scotland street and streets named after Rome, Edinburgh, Naples, Antwerp and London. As for Englishmen themselves, there is Charles Dickens street, Lord Byron, Roger Bacon, Faraday, Victoria, Livingstone, Newton and Wilfrid Laurier from Canada.

Only six Americans are perpetuated in Paris streets. They are: Washington, Franklin, Lincoln, Gordon Bennett, Pershing and Wilson, only one of whom is living today. Pershing spends much of his time in Paris.

French Saints Lead.

As far as quantity is concerned, French saints win the popularity contest. There are more than 200 streets in Paris named for Christian church saints. Voltaire and Rousseau represent the agnostics while Pastor Charles Wagner is one of the Protestants to have a street named in his honor.

Birds and furniture—Lark street and the Street of the Chair—are also represented through fancifully in Paris as well as such mixtures as the Streets of Spinoza, the Future, Long Beards, Balzac, the Banker, Court of the Blues, Cows Impass, the Butcher, the Baker and the Candle Stick Maker, Good News, Camels, Camellias, Caroline and Cervantes; the Street of the Sun, Moon and Stars; Violets, Roses, Azellus; Corn, Scorpion, Fish, North Pole, Justice, Jules-Verne, the High Hat, William Tell, Three Brothers, Three Sisters, Three Doors and the Three Faces.

Mexican Art to Be Sent to Lone Star Centennial

Dallas, Texas.—As a gesture of friendship from Mexico to Texas, C. Ruano Lopez, noted Mexican artist, will send six of his paintings valued at \$10,000 to the Texas Centennial exposition to be held here next June. They will be displayed in the Pan-American section of the \$500,000 Fine Arts building.

One of the paintings, depicting a matador with the tiers of a bull ring in the background, has already arrived. The others will follow. They are the first paintings to be contributed to the International display of art which will be a feature of the exposition.

Lopez is known as "the Remington of Mexico." His pictures feature the outdoors. Indians, vaqueros and bull fighters are his favorite characters.

Indian Woman Passes Off as a Man for 18 Years

Calcutta.—Because she did not wish to be a widow with little hope of a fresh marriage due to Indian custom, a woman at Dibrugarh passed as a man successfully for 18 years.

When she was sent to a hospital for treatment of ear trouble, a physical examination followed and her deception was disclosed.

The woman, it was found, had lost her husband and child when she was young and she had worked for years in men's jobs.

Hitch-Hiking Dog Rides on Car Running Boards

Pasco, Wash.—A hitch-hiking wire-haired terrier named Rags, who beat his way from point to point around the Northwest, is Pasco's latest oddity.

Riding on the running board of automobiles which give him a lift, Rags recently has visited Olympia, Yakima and several other points. One of his rides was at a speed of better than 100 miles an hour. When the car stopped and he had a short rest, the dog nonchalantly climbed back on the running board for a return trip home.

Marriage and Gas

Waynesville, Mo. —Super-service can be attributed to Rev. E. Harris' filling station here. He recently married a couple in the station after selling the groom five gallons of gasoline.

Shirley Temple In New Show At The Temple This Week

The Temple this week is presenting an exceptionally well diversified program of entertainment, each bill of which is composed of out of the ordinary features and short subjects. The high spot of the week for many will be the Sunday, Monday and Tuesday picture which presents the adorable Shirley Temple in her latest opus, "The Littlest Rebel." Shirley is supported by a fine cast that includes John Boles, Jack Holt, and Bill Robinson of the restless feet. Here is the complete schedule for the week:—
Friday - Saturday:— Charles Boyer, Loretta Young and Warner Oland in "Shanghai."

Sunday, Monday, Tuesday:— Shirley Temple, Jack Holt, John Boles in "The Littlest Rebel."
Wednesday, Thursday. — Sylvia Sydney, Herbert Marshall and Lon Chaney, Jr. in "Accent On Youth."

Good brakes prevent bad breaks.

Does Bladder Weakness WAKE YOU UP?

Make this 25c test. Remove the cause. Use buchu leaves, juniper oil, etc., to flush out excess acids and impurities which cause irritation that results in restless nights, burning, scanty flow, frequent desire, or backache. Ask for little green tablets called Bukets, the bladder lax. They work on the bladder similar to castor oil on the bowels. In four days if not pleased any druggist will refund your 25c. Gidley & Mac, Druggists.

A Hint To Seniors

Seniors, you are starting a new and last semester this month. It is a serious thought and though you do not realize it now, you will when Baccalaureate, Class Day, and Graduation are over. Now is a good time to look back over the last four years and ask yourself these questions—

- 1st — Have I profited as I should from my work?
 - 2nd — Have I done the best I could, and put into practice what I have learned?
 - 3rd — Have I given my parents value for all the things they have done for me?
- Those are serious questions; so will you try to answer them honestly? Here are a few details for you to

FLOUR AND MEAL Grinding Schedule

Attend Farm Debt Adjustment Conference

Att'y C. M. Bice, Secretary, Charlevoix County Farm Debt Adjustment Committee recently attended a conference of Rural Rehabilitation and Farm Debt Adjustment Committees at Gaylord, Michigan. Representatives from the Regional Office of the Resettlement Administration discussed conditions under which a farmer burdened with excessive debt and unable to borrow money elsewhere may obtain a loan from the Rural Rehabilitation Division. The manner in which Farm Debt Adjustment should benefit the creditor as well as the distressed farm debtor was emphasized. The Federal Land Bank sent C. L. Rose to discuss its policies and position as an independent loaning agency. The men named above together with Sabin Hooper of Boyne City and Wesley Dilworth, Boyne City, constitute the Farm Debt Adjustment Committee for Charlevoix County. They give their time to aid worthy farmers whose debt load is excessive. The cost to the farmer is nothing. Those wishing further information should see any of the above committee members or the County Rural Rehabilitation Supervisor, Howard C. Bedell at 200 Federal Building, Boyne City, Michigan.

ponder over earnestly—
 First — The most important of your studies to your future welfare is English. Make use of the knowledge that you have acquired!
 Second — Geography has not been a special study for you in high school but knowledge of it is useful. For instance, can you locate important cities and can you point out on the map a water trip from the Atlantic to Detroit? What do you know about standard time?

Third — Have you a general outline of American history in your mind? Can you name the four or five periods from the discovery of America to the present time?
 Fourth — Can you name the great discoveries and inventions within the last century?
 Fifth — If you have studied some foreign language, can you put it into practical use?

Ask yourself these questions and answer them honestly. Perhaps you will gain the sense of satisfaction that comes with the realization of having done your best.
 The Juniors, Sophomores, and Freshmen also may make use of this advice.
 Here's to the success of all of you!

Dental Clinic Held

The Michigan Children's Fund Dental Clinic is being held in the East Jordan Grande School Building for a period of six weeks. This Clinic takes only patients that cannot afford to pay for the work, that are sixteen or younger, and that are in or below the eighth grade. This includes children from both town and country schools. Many of the pupils scheduled for appointments last week from rural schools were not able to come because of the weather.

The list for this week is checked by a committee of local citizens who know the condition of the people. The Clinic will average sixty-five patients a week, each of whom are given half hour appointments. There are so many who wish to have the work done that it is impossible to give a longer time to anyone or a second appointment.
 This work is being done by Dr. McBride who has not been with the East Jordan clinic before. He is assisted by Mrs. McBride, a registered nurse.

1st Grade Has New Books

Mrs. Kling's room has new illustrated reading books which can be bought by the pupils. There are scrap books to accompany these reading books which the pupils must buy so that they will be able to paste in them the magazine pictures about the subject they're studying.

Wood Projects In Grades

Nearly every room in the grade building is engaged in wood projects of one sort or another. The second grade is busy with their library furniture. The fourth graders, in connection with their study of Eskimos, are making people and animals of wood. The fifth grade boys are making foot stools of orange crates as a surprise for their parents; the girls, not being so interested in hammers and nails, are making aprons of print and binding them with bright bias. Mr. DeForest's grade, in preparation for a checker tournament, is turning out checkers and boards.

Columbus Studied

The third grade pupils have been reading about Columbus and discussing him in class. As Miss Stamer wished to find out how much the children remembered about him and how well they could condense their knowledge, she asked them to write a short story. The following by Ellwyn Eggert was the first handed in—

COLUMBUS

— Columbus wanted some ships to go across the sea to find other lands. He thought the world was round. Others thought it was flat. At last the Queen of Spain gave him three little ships. He sailed and found America.

Boys Hear Lecture

Professor Nachazel, a graduate of East Jordan, and now a teacher of the engineering school at Houghton, spoke to the junior and senior boys on the topic "Engineering", Wednesday morning, January 29. He recommended the engineering school at Houghton as being one of the best in the United States, designed for boys of high school education interested in that vocation.

Debaters Emerge Victorious

The last league debate of the official preliminary series resulted in a victory for the East Jordan team. The debate was held January 27 with the Onaway team whose members were Julian Myers, Dorothy Laidlaw, and Evelyn Hulla upholding the negative side of the question "Resolved: That the several nations should make government monopolies of the manufacture and sale of all combat instruments of war."

A small attentive audience assembled to hear the contest and at its close everyone listened with anxiety as the critic judge, Mr. Gladwin Lewis of Traverse City, discussed the debate before giving his decision to the affirmative team, Arthur Rude, Arthur Marshall, and Barbara Stroebel. The East Jordan debaters, having won three out of four debates and thus gaining eleven points, may be eligible for the State Elimination Series.

U. of M. Professor Speaks

Professor Stephenson of the University of Michigan gave an interesting talk combined with pictures about his travels in Egypt and Greece at the P. T. A. meeting Tuesday evening. Much of the countries' historical background and the manner of living of the people was brought out. The high school orchestra played a few numbers before the talk. Professor Stephenson also spoke before the high school assembly Tuesday morning with "Try Me On Bees" as his topic. The various examples and illustrations that he used to point out his subject, were interesting.

Senior Play Progresses

If you happen to hear some of the seniors mumbling in a strange accent, faintly resembling the German dialect, don't jump to the conclusion that it is their ancestry cropping out or that they have picked up the Germanite germ; but just make a desperate attempt to control your curiosity until the night of February 20, when the presentation of the senior play will solve the mystery. Of course, it's almost a crime to make you wait that long when you are so curious to see the results of the supreme efforts on the parts of the all-star cast and their competent director, Mr. Eggert, to make this play the "hit of the century," but you won't regret it, because your sides will simply ache from laughing. Remember the date, February 20!

Artists Daub

The art students have graduated from charcoal to water colors. Pencil to charcoal to water colors — the class is wondering if oils will follow. As all artists preferably have a model, the young art enthusiasts press into service anyone who ventures within reach. Ruth Darbee obligingly served in that capacity last Wednesday.

New Office Girls

During the last few weeks several senior girls have been working in the office. It is experience for the girls and help (?) to the office. These are the comments of some of the girls: "Working in the office was interesting and I liked it. Cutting stencils and answering the phone occupied most of my time, but the experience helped me. I don't believe I'd like an office job for a steady occupation." — Ruth Bulow.
 "I'd like to work in the office because the "boss" is easy to please, because the work is varied and interesting, and because one's associates are agreeable." — Barbara Stroebel.
 "I enjoyed working in the office because it was a new and interesting experience for me. Most of my time was taken up with cutting stencils, typing, and taking dictation." — Thelma Hegerberg.
 "Working in the office is O K in case of emergency, but I would rather scrub floors than work in an office for a living. I want to teach

Home Economics." — Phyllis Rogers.
 "No, I won't make a statement!" — Geraldine Palmiter.

WHO'S WHO

Gerald Ager

This brown haired, blue eyed son of Mr. and Mrs. Edward Ager was born March 26, 1919 in Charlevoix, Michigan. A few years later the family came to East Jordan where Gerald attended the St. Joseph school through the third grade. He started the fourth grade in this school where he has been going ever since. He has been a member of the boys Hi-Y Club and the Commercial Club. He sang in the boys glee club when a Freshman. In the line of activities he prefers ping-pong in which he excels. Reading also appeals to him as a hobby.

Keith Bartlett

Keith Bartlett, son of Mr. and Mrs. Orrin Bartlett, was born in East Jordan, May 7, 1918. He is a tall, blond, good-looking student who has a friendly smile for everyone. You saw him in the Junior play last year in which he was one of the less likable characters, and you will see him this year in the Senior play, "Wind in the South." His favorite sports are hunting and fishing, and his favorite subject is mathematics. He says he has a hobby, but we more than suspect it's girls.

After graduation, Keith hopes to take a course in Business Administration at Ann Arbor.

Observations

Everyone is breathing more freely now that exams are over.

Typewriter No. 9 in the typing room writes crooked. Perhaps it once belonged to a politician.

On Report Card Day Mr. Roberts lays the cards on a desk and goes home as fast as he can. Results: Mr. Roberts is uninjured, but the juniors and seniors are late for dinner because they have to stay and sort out their own cards.

Shorthand students were relieved when Miss Westfall told them she would dictate three letters to them for the exam, but only one was to be translated on the typewriter. "Of course," she said, "the longest one will count most." What a coincidence that everybody did the same one and not the hard one at that!

There must be a lull in the chalk war because the chalk is left out in plain sight again in the geometry room.

The other day the Latin class found that Caesar always wore a crown because he was bald, and that he was

deaf in one ear. Now they're wondering if perhaps he didn't have false teeth or a glass eye.

Definitions

(For the Benefit of the Uninformed)
 Freshmen — Those students most anxious to be taken for something besides what they are.

Sophomores — The most ambitious and enterprising, but also the most conceited scholars.

Juniors — The classmen generally associated with party madness.

Seniors — Recognizable for their know-all air, their condescending manner, but also for their willingness to put undergraduates in the "know."

Art — The course for which lisp is a prerequisite and wherein one is given practical elementary rudiments of art and a good time.

English — The course in which one learns to pronounce "literature," forgets a few poems, and worries about book reports.

History — The subject wherein one learns the number of shoes daily worn by Marie Antoinette, the scandal connected with Jackson, and other important facts.

Latin — In which one realizes the truth in the old saying "Once it killed the Romans, and now it's killing us."

Science — The Waterloo of many, the Asteritz of none.

Typing Tests — Intended to cure students of nervousness by subjecting them to it — on the principle of vaccination.

Studying — The state in which one's mind is a blank.

Cramming — The process gone through to successfully complete four months in a week — particularly applicable to Civics.

Bluffing — That which convinces the teacher that you don't know whether the text is a green or red book, but which in reality is a subterfuge to recall your wandering thoughts to what you do know.

Pencil Sharpener — A result of the collusion of pencil sharpener manufacturer and pencil manufacturer to whittle one's pencil down in as short a time as possible.

Encyclopedias — Sets of books in which one never finds the desired information if the information one desires is as recent as the dawn of history.

Dictionary — A source of embarrassment to many self-satisfied individuals.

Chalk — Hard white flaky sticks intended to be thrown.

Erasers — Associated with chalk in the minds of the teachers — but as far as the students are concerned, also to be thrown.

Disks — Pieces of furniture in class rooms to develop the students' ability to carve — incidentally for studying.

Assembly Speakers — Usually speakers carefully chosen to help

train the student to give polite attention in later life to dull after-dinner speakers.

Office — The place where one attempts to explain one's actions and doles out huge sums of money for the privilege of books.

Study Hall — The place where it is most difficult to study.

Question Box

Question: What's your narrowest escape?

"I've never had any, thank you." — Carmen Kowalske.

"I've had so bloomin' many, I really can't single out the narrowest one." — Ernest Rude.

"... the time I went for a speed-board ride 'n the pilot was a little stowed. Please understand that it was a hired ride." — Ruth Bulow.

We conclude that he must consider "narrow escape" to be within an inch of his life, for: "Narrow escapes? I have had none." — Mr. Wade.

"... the time the house almost burned up when I was in bed." — Mae Pollitt.

"When I visited the slaughter-house in Chicago, I almost got butchered for a pig." — Darwin Penfold.

"Miss Perkins almost called on me in class this morning!" — Frank Strehl.

"I once chose to smash into a fence in preference to colliding with a car headed toward me and passing another car." — Mr. Roberts.

Various Stuff

I always have thought Mr. Roberts rather liberal and easy-going. Naturally, I was more than mildly surprised when in Civics he began to calmly talk of a "thirty-day" week.

My, Margaret looks nice with two arms.

Won't somebody pulleeze take down the "waves" in Room 3; it clashes with Mr. Bippus' aesthetic sense.

Oh dear, my nose is shiny!

Whenever I am subjected to a great shock involving something such as a radical change in a teacher's methods, I am likely to faint. The "at last" reformed civics test given by Mr. Roberts this week fortunately did not produce any such ill effects. However, I wish to warn that kind professor that unless he is anxious to employ his boy-scout first-aid knowledge, he had best not return to the last-semester method.

There goes one of Thelma's crazy, kitten-like sneezes again!

Hurray! Mr. Bippus appeared Monday morning in spite of his strenuous week end of shoveling!

Cheer Up,
 Mister!!
 This is
 Another
 Year!!
