

# Charlevoix County Herald.

VOLUME 45

EAST JORDAN, MICHIGAN, FRIDAY, MARCH 7, 1941.

NUMBER 10

## Federal O. K. On County Roads

### ALLOTMENT OF \$116,538 TO CHARLEVOIX COUNTY ROAD COMMISSION

A letter from Congressman Fred Bradley to The Herald office states that he has been advised by the Work Projects Administration of Presidential approval of projects sponsored by the Charlevoix County Road Commission. The allotment is \$116,538. Final approval now awaits action by the State Work Projects Administrator, Lansing.

This is a county-wide project and may be used on any roads in Charlevoix County.

The first project is to complete the road (in process of rebuilding) between the Ironton Ferry and Advance. Reconstruct road from Boyne City to Advance. Rebuild west end of the Ellsworth road through the Sinclair swamp in South Arm township.

Balance to be divided at discretion of the Charlevoix County Road Commission.

If these projects go through this summer — and there is no question about it — then Charlevoix County is going to have some vastly improved roads in the not too distant future. The Advance — Boyne City road has long been anything but desirable. One Boyne City man suggested to The Herald publisher that this road be relocated on a higher terrace, which may or may not be feasible. East Jordan has good roads to Advance from there on into Boyne City's "life on the ocean wave."

## M. S. C. Man Finds Soil Water Test In Half a Minute

Another headache has been removed from scientific agriculture. A Michigan State College research man has developed a device that will reveal how much soil moisture is available for plant growth without waiting two or three months for results under old methods. It's like reading the mind of the soil, if soil had a mind.

Dr. G. J. Bouyoucos of the soils department staff of the college performed the miracle. In 20 to 30 seconds, with the variation of the Wheatstone bridge, which measures electrical resistance, the device he developed can tell the amount of soil moisture, the soil is able to release from between soil particles.

Old methods involved lifting a section of soil and putting this in a greenhouse under controlled conditions, waiting for growing plants to wilt. Now the test is taken right in the field.

Briefly, the method permits more accurate knowledge for applying the most efficient volume of water in irrigation. It can tell when to irrigate and when enough water has been applied.

A porous absorption block about the size of a pocket matchbox is buried in the field. Wires lead to the

## Revival Meetings at Full Gospel Church Close This Sunday

The revival meetings at the Full Gospel Church conducted by Evangelists Rev. and Mrs. James D. Cockman, will continue Friday, Saturday and Sunday nights of this week.

Sunday night will be the last service of these revival meetings, and Evangelist Cockman will bring a prophetic message entitled, "When God Laughs."

Don't fail to attend these closing services and hear these talented evangelists play the vibra-phone and piano accordion.

## MARRIAGES

### Lord — Derezny

Miss Margaret Lord, daughter of Mr. and Mrs. Irvin Lord of Norwood and Gerald Derezny, son of Mr. and Mrs. Wm. Derezny of East Jordan, were united in marriage, Saturday, March 1st, at 1:30 p. m. at the home of Mr. and Mrs. Archie McArthur, uncle and aunt of the groom, Rev. James Leitch officiating.

The bride chose for her wedding dress a light blue crepe and carried a bouquet of rose buds and evergreen. Dora Derezny, sister of the groom, was bridesmaid, and wore a maroon crepe gown and carried a bouquet of rose buds and evergreen. Charles Lord, brother of the bride, attended the groom as best man.

Evergreens and tulips were used in decorating the home.

A wedding dinner was served to the immediate families at the home of the bride's parents at Norwood.

On Thursday evening a shower was given the bride elect at her home. Saturday evening a dance was held at the Norwood Grange in honor of the newlyweds, between 150 and 200 attending. A. d. on Tuesday evening, a house-warming was given them at their new home, the former Archie McArthur farm, the bridal couple receiving many lovely gifts.

The best wishes of their friends are extended for a long and happy future.

Chet Stilwell's only interest in first editions was the one that came off the cider press.

surface. This block is made of plaster of paris and it takes on moisture or gives it up just as does the soil surrounding it. When moisture is available, resistance is proportionately less than when the soil and the test block do not have as much moisture. This variation can be determined accurately by the resistance device which is equipped with earphones for accurate readings. The equipment weighs but 10 pounds.

Dr. Bouyoucos predicts wide usage in Michigan greenhouses and even in open field conditions where farmers are increasing midsummer irrigation. Western states' farmers are eagerly demanding details.

## E. J. Iron Works Damaged By Fire

### CLEANING-CHIPPING DEPARTMENT GUTTED BY FLAMES

The East Jordan Iron Works (Malpass Foundry) sustained its most serious loss by fire in a number of years the middle of last Tuesday forenoon.

In this department — an adjoining frame structure — castings are cleaned and chipped, heated in an oven and, while still hot, dipped into paint. One casting, while hot, ignited the paint and the frame structure was soon a mass of flame. The fire ignited the wall of the E. J. & S. R. R. roundhouse, but good work by our firemen and the Foundry crew, stopped the blaze from spreading.

The building is a total loss, amounting to between two and three thousand dollars. An adjuster is expected here this Thursday.

While the fire was a nasty one for while, it has not seriously caused a slow-down in production. The tumbling barrels of steel and iron were not affected. Driving belts were destroyed, but these have been replaced and production is now as usual.

The nearest serious loss to the plant was several years ago when the cupola and charging room was burned.

## Our Young Men Not "Softies"

### DRAFT AGE MEN NOT SOFT, SAYS UNIVERSITY OF MICHIGAN PHYSICIAN

Popular indictments that American young men are "soft" and that they are less capable than their fathers were for national defense are loose and uncritical generalizations that should be challenged by thinking people, according to Dr. Warren E. Forsythe, director of the University of Michigan Health Service.

Writing in the March issue of the magazine, the "Nation's Schools," Dr. Forsythe asserts that the burden of proof must rest with those who make these charges. In the first place, he says, we must decide whether "softness" means lack of training, lack of mental "toughness," or actual physical deficiencies.

The questions of lack of training and lack of mental "toughness," he asserts, are ones that need answers. In regard to actual physical capacities, however, he continues, there are grounds for the belief that the health of our present young men is superior to that of their fathers at the same age.

Improved health for today's youth, Dr. Forsythe says, is indicated by the following observations: Increased average height and weight, generally considered valid indices of health improvement; reduction in the frequency of contagious diseases; higher small-pox vaccination rates; increased use of glasses and more removed tonsils; both of which are examples of better attention to physical defectiveness; decreases in the incidence of tuberculosis and underweight which were among the leading causes for army rejection in 1917-18; and greatly improved control of pneumonia.

Factors that might reduce slightly the defense effectiveness of today's youth, Dr. Forsythe says, are: The greatly increased automobile accident rate which might be expected to produce more cripples; a probable small increase in diabetes; and a large increase in "ringworm" infection of the skin which, however, would rarely disqualify for more than short periods at the most.

## Mrs. Frank Behling, 80 Passes at Home In Wilson Township

Mrs. Frank Behling passed away at her home in Wilson Township, Friday, February 21st, in her eightieth year. Augusta Schutz was born in Germany, Feb. 5, 1861, and came to the United States in 1878. Nearly sixty years ago — May 22, 1881 — she was united in marriage to Frank Behling. They came to this region some 18 years ago where they continued to reside. Mrs. Behling was a member of the Lutheran church.

Beside the husband, she is survived by sons and daughters as follows: William, Frank Jr., Harry, of Wilson township; Louis of Saulte Ste. Marie; Mrs. Harriett Stone, Grand Rapids; Mrs. Laura Benzer, Boyne City. Also a brother, Ernest Schultz, Wilson township. There are also twenty-two grandchildren and one great-grandchild.

Funeral services were held at her home, Sunday afternoon, February 23, conducted by Rev. A. E. Krueger, pastor of the Christ Evan-

## Know Your State's Natural Resources

### MICHIGAN BELL TELEPHONE CO. STARTS FINE PUBLICITY SERIES.

Starting this week and continuing for some time the Michigan Bell Telephone Company inaugurates a series of advertisements among the 250 State Newspapers, calling attention to Michigan's natural resources, their development, production, and distribution.

Do you know that Michigan is first among the states in the production of cherries and mint, and in acreage of beans, potatoes and alfalfa seed, and third in production of grapes, apples, peaches, and clover seed, and in acreage of alfalfa hay and sugar beets. No state has a more diversified agriculture.

It is planned to include advertisements of such subjects as the mining of copper, iron, salt, coal and gypsum; oil production, a variety of agricultural subjects, lumbering, floriculture, commercial fishing, fruit growing, beef and poultry raising, and the tourist and resort industry. These advertisements will tell something of that story, and the important part the telephone plays in both production and distribution, and in bringing together producer and consumer.

## WITH THE ANTRIM COUNTY AGR'L AGENT

### W. Kirkpatrick, Extension Agent

## DAIRY SPECIALIST AT KEWADIN FRIDAY

Mr. A. C. Baltzer, in charge of Dairy Extension work, Michigan State College, will be at Kewadin this Friday afternoon, March 7.

Mr. Baltzer is very well known through Antrim county, having been in the county many times on Dairy Extension work. At Friday's meeting he will discuss sire selection. The meeting will begin promptly at 2 o'clock.

## BEEF BREEDERS AND FEEDERS TO MEET MARCH 13

A meeting of great interest to all breeders of dual purpose and beef cattle will be held at Bellaire on Thursday, March 13, at the courthouse. Mr. E. L. Benton, extension specialist in animal husbandry, Michigan State College, will be present, and conduct an all day meeting starting at 10 o'clock.

Feeding, breeding, and herd management will be discussed. In addition, Mr. Benton will show a number of natural color pictures relative to the beef industry throughout the state.

This is the first meeting for breeders of beef cattle to be held in Antrim county for many years. All such breeders and feeders are urged to attend.

## FARMERS BANQUET SCHEDULED FOR MARCH 18th

The third annual Antrim County Farmers Banquet sponsored by the Mancelona and Bellaire Adult Schools has been tentatively set for Tuesday evening, March 18th, at the Bellaire Community Hall.

Arrangements are under way to have the Honorable John C. Ketcham of Hastings, former congressman, co-author of the Capper-Ketcham Act, and former State Grange Master, as speaker of the evening.

It is expected that the complete program will be announced next week. Tickets are available through all members of the schools, the instructors, and the county agent's office. Only two hundred tickets are being offered.

## Charlevoix County Report Receipts of Infantile Paralysis Campaign

City	Chairman	Receipts	Exp.	Proc'ds
Charlevoix	Wm. Supernaw Jr.	\$72.70	\$20.75	\$51.95
East Jordan	Thomas St. Charles	23.90	3.10	20.80
Boyerne City	Delbert Paquette	44.65	5.70	38.95
St. James	Frank Nackerman	31.20	9.65	21.55
Total Net County Proceeds				\$133.25
County expense				\$15.46
Total Net for County				\$117.79
Forwarded to Nat'l Foundation				58.90
Retained in county				58.89
	Roy Winegarden			County Chairman.

gelical Lutheran church. Burial was at the Lutheran cemetery in Wilson twp.

Among those here to attend the funeral were: Mrs. Harriett Stone, Grand Rapids; Mr. and Mrs. Clarence and Miss Bessie Behling, Grand Rapids.

## P.-T. A. Presents Safety Program

The regular monthly meeting of the P.-T. A. will be held in the High School, March 13, at 8:00 p. m. John Husper, representative of the Automobile Club of Michigan, will show the latest available safety pictures at that time.

This program should be of special interest to all parents and should help to clarify the purposes of the safety program in our school. This meeting is free and everyone, whether or not a member of the P.-T. A., is invited.

## E. J. H. S. News

### CLASS C DRAWINGS

Drawings for the Class C Conference at Charlevoix were held Friday, February 21. East Jordan drew to play Charlevoix, Thursday, March 6. Harbor Springs, Pellston, and Boyne City drew bys and do not play until Friday, March 7.

Friday evening Boyne plays Pellston and Harbor Springs plays the winner of the Charlevoix - East Jordan game. Finals will be Saturday, when the winner of these two games play.

### ALL-OPPONENT TEAM PICKED

Last Monday the East Jordan High School basketball squad held a meeting and picked an all-opponent team. The team is made up of the players they considered East Jordan's strongest opposition. The team is as follows: Forward, McBride, Harbor Springs. Forward, W. Dietz, Boyne City. Center, E. Dietz, Boyne City. Guard, Davert, Harbor Springs. Guard, Stewart, Charlevoix.

## Porter Hardware Installs Nifty Glass Rack and Glass Cutter

The W. A. Porter Hardware recently installed a Heller Modern Glass Rack and Glass Cutter that is about as nifty an outfit that could be desired. The rack is the latest development for handling, displaying and cutting window glass.

The cutter itself is something new and practical. It has a cushion grip straight edge device which holds the glass firmly while being cut. When the glass is cut, the safety brake is pushed over, breaking the salvage off which automatically falls into a drawer.

Fine for window glass. Those doing passpartout work will find this outfit excellent in obtaining straight edges on the glass.

## Motion Picture Projector For Our Schools Becoming A Reality

The motion picture projector so long desired at the East Jordan Public School is rapidly becoming a reality.

Fifty dollars, or half the money necessary for an excellent used projector in good condition, has been contributed by school organizations. This machine has been on trial at the school for several weeks and has given good results with both sound and silent 16 mm. film. It may also be used as a public address system. This is the same projector as used at the P. T. A. Founders' Day banquet recently.

To obtain the other fifty dollars to make the projector a permanent machine in the community, a "Can of Coins" campaign has been started. These cans are being placed at various points about the city and school for the convenience of anyone who cares to contribute a small sum.

This projector will be the property of the school, and will be available for classroom use, programs, athletic events, and organizations. It is an aim to make it the result of the cooperation of the largest number of people. A report of progress will be issued shortly.

## Republican Ward Caucuses In East Jordan Friday Night, March 14

Republican Ward Caucuses for the three wards in East Jordan are called for Friday night, March 14th, commencing at 8:00 o'clock.

In each ward there will be nominated a candidate for the office of Supervisor and Constable, and the selection of a Ward Committee for ensuing year.

Places of meeting are: First Ward — Benson's Service Station. Second Ward — Northern Auto Office. Third Ward — City Building. adv. 10-2

## Buy Michigan Baby Chicks

### LIST OF HIGH QUALITY SEED GROWERS NOW AVAILABLE

This is the time of year for every farmer to carefully consider the kind of stock that will produce the best results and the greatest returns. The old adage "The grass is always greener on the other side of the fence" seems to hold true in many cases. For example, many poultrymen have been in the habit of purchasing their baby chicks from Missouri, Kansas and other sources hundreds of miles away and in the majority of cases the purchaser has no knowledge of the hatcherymen's reputation, honesty and integrity. In case of losses usually great difficulty is encountered when trying to get a settlement.

Our State Poultry Improvement Association is supervising the activity of many of the state hatcheries. You can buy just as high quality from hatcheries in Michigan as you can find anywhere in the United States, and you have the added assurance that these establishments are inspected by State Inspectors and that in case of difficulty you can receive adjustments. If you want higher quality chicks why not notify your Extension office and receive a list which includes some 35 hatcherymen having all breeds of chicks and who are good responsible hatcherymen.

If you are interested in high quality of baby chicks we have a list of 10 hatcherymen who can furnish you United States Certified chicks all Pullorum tested. Still if you want the highest quality we have the list of hatcherymen who sell Record of Performance baby chicks. Hatcherymen in this classification have complete records of egg production, egg weight, and body weight, in addition to production records. So much for the Poultrymen.

### HIGH QUALITY SEED

If you are a general farmer interested in high quality seed production and in high yields we would recommend that you buy the best seed obtainable. Our Michigan Growers Improvement Association has large quantities of seed available for sale in oats, corn, beans, barley, alfalfa, and smooth brome grass. If you haven't changed your source of seed for several years, why not purchase a few bushel of high quality seed to grow for next years seed supplies.

We would recommend most highly the Huron oat, a new variety released first in 1939. This variety has a higher weight per bushel than any other variety in Michigan. It is somewhat earlier than the Wolverine and will grow wherever Wolverine oats have been adapted.

In regard to corn, there are many open pollinated varieties that are to be recommended. In addition there are two or three hybrids that for several years have proved to be high yielders and good quality. Of these, the Minnesota No. 402 is highly recommended for this county. The Wisconsin No. 355 likewise is recommended. One advantage with the Minnesota No. 402 is the fact that we have a local grower in our own county who has something like 40 bushels for sale. If interested, get in touch with Robert Tainter, Boyne City, who has grown No. 402 for several years. Let us know and we will give you further particulars in regard to growers of the various seeds and the prices. Why not start next spring with at least a seed plot.

### Temple Hit Parade

Vitally dramatic, spiced with red-blooded adventure and with a dash of piquant romance, the new week's program at the Temple offers an exciting array of worthwhile entertainment. Headlined by such stellar names as Hedy Lamarr, Jimmy Stewart, William Boyd, Ida Lupino, Humphrey Bogart and Jeffrey Lynn, you will find several interesting evenings in the schedule that follows:

Saturday only: William Boyd and Andy Clyde in the new Hopalong Cassidy adventure, "Doomed Caravans."

Sunday and Monday: Ida Lupino and Humphrey Bogart in "High Sierra."

Tuesday and Wednesday (Family Nites): Jeffrey Lynn, Thos Mitchell in "Flight from Destiny."

Thursday and Friday: James Stewart and Hedy Lamarr in "Come Live With Me."

### Who Checks Your Income Tax?

You can get the answer on the check-up, from the time the Internal Revenue Department gets it until the auditors give it the final O. K. What happens in between . . . the ease with which they check up on you, your family, and your sources of income, is revealed in a fascinating article by Donald MacGregor. Watch for it in This Week, The Detroit News Sunday magazine.

## INVENTS SOIL MOISTURE TEST

Months were necessary under old methods. Dr. G. J. Bouyoucos of the Michigan State College staff developed this electrical resistance tester that gives a reading in 20 to 30 seconds on the soil moisture available for growing plants.

WEEKLY NEWS ANALYSIS

By Edward C. Wayne

**Nazi Troop Detachments Enter Spain; Hitler Threatens New Sub Warfare; U. S. Invokes Priorities on Aluminum And Tools, as New Defense Measure**

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)  
(Released by Western Newspaper Union.)

**TONE OF WAR: Stepped Upward**

Generally speaking, the advent of March saw the war news on all fronts stepped upward to new peaks of activity, rumor and expectation of a far more bitter and decisive year than 1940.

There were more than minimal signs that Hitler was preparing to launch vital moves on at least two fronts, with possibility that he might add a third theater of war to his effort and might include Japan to take over a fourth.

Most war observers returning to this country and able to speak freely expected the invasion attempt to be dated somewhere between March 15 and May 1.

Resumption of test daylight raids over England were viewed as a certain sign that the day was not far distant.

The move in the Balkans was apparently being made, with Bulgaria scheduled as the avenue through which Nazi hordes would be given an open road to the Greek northern frontier.

Signs were less definite that this might be accompanied by a move to aid Italy in Africa, or that Hitler would make a general Mediterranean offensive part of his spring plan.

A move which sent detachments of Nazi troops into Spain was explained by German sources as the sending of aid to Santander, badly wrecked

With the lease-lend bill close to a final vote stage, the curtain was about to rise on an increased tempo in the war, and opposition members of congress in both house and senate were loud in their claims that 30 days would see this country added to those actively in the war.

**INDUSTRY: Priorities**

First real force of the current U. S. defense economy was felt by the aluminum and machine tool producers as mandatory priorities for these materials were announced. E. R. Stettinius Jr., priorities director of the Office of Production Management of the Defense Commission issued the orders requiring that producers fill all defense orders in preference to nondefense when necessary to meet defense order delivery dates.

In his statement Stettinius said that OPM had tried to keep allocation of aluminum and machine tools on a voluntary basis but it had become "necessary and desirable" to enforce priorities so that defense industries could get the supplies they need.

**FAR EAST: Crisis for U. S.**

Most vital to this nation was the crisis on the Far Eastern front, perhaps part of the major Hitler plan to weaken England by embroiling the United States and Britain in a war with Japan.

In this great diplomatic poker game the stakes were the maximum. Steps in the struggle, much of which was being carried on behind closed doors and in diplomatic chambers, became gradually news items.

The British announced that the waters off the Malay states were being mined. The Chinese reported 150,000 Japanese troops were ready to move in the general direction of Singapore.

The Dutch East Indies called all ships into neutral ports. These were just outward manifestations that Japan, under Axis pressure, was staging a show in the South Pacific, a show that had repercussions from the White House when the President gently chided newsmen and members of congress for letting General Marshall's statement of the seriousness of the situation become public property.

In this game Germany was seen as a kibitzer, but one who had Japan handling her chips on a fifty-fifty basis.

In the midst of it all came the announcement from Japan that Nippon stood ready to act as mediator to conduct negotiations for peace by all nations anywhere who were involved in war.

This move received a cold reception in Washington, Sumner Welles saying that with conditions at their present pass, this nation was looking to deeds, not words, and that Japan,

**AMBASSADOR NOMURA**  
"Talked peace, discounted war."

instead of being a peacemaker, was stirring up trouble by her actions and troop and naval moves.

That Japan was either divided in her reactions in the game of diplomatic and military bluff was evident from what was made public. Ambassador Nomura talked peace, discounted war. Japanese papers, some of them, said Nomura's task (of preserving peace) was hopeless.

Two things appeared certain in the Far East. Hitler was moving warily and under cover, and Japan was moving under pressure from her Axis partners, apparently unwillingly.

WRIGHT A. PATTERSON  
(Released by Western Newspaper Union.)

**PRODUCTION IS THE KEY TO OUR WEALTH**

EACH ARTICLE of merchandise produced in American factories—every automobile, suit of clothes, agricultural implement, radio and the thousands of other things men build and use—adds to the national wealth. The more we produce, the wealthier we become as a nation, and as individuals.

Each pay day in each factory marks a step in the distribution of the national wealth. Of the value of all production, from 60 to 70 per cent goes to the men employed in the factories. That is labor's dividend. Another 24 to 27 per cent goes to government as taxes—municipal, county, state and federal.

What is left goes to those who provide the tools—the factory buildings and the machines—and to those who manage the business and find the customers.

That has been the method of distribution of America's wealth throughout all of our history. Under that method the distribution to the individual has increased materially, despite an ever-increasing population.

We, as individuals, cannot get more unless we collectively produce more. We cannot produce more by breaking down the industries in which we collectively do the producing and from which we individually receive our share of what we help to produce.

**COMMITTEE OF PUBLIC INFORMATION**

AFTER AMERICA'S ENTRY into the first World war, a Committee of Public Information was organized, with George Creel as chairman, and the secretary of state, secretary of war and secretary of the navy as the other members.

Creel did not attempt to tell newspaper editors what they could or could not print.

Through his hands went such information as the government wished to give to the public and he controlled all war pictures from the allied lines. His big job was to maintain an enthusiasm for the war in which we were then engaged.

According to Walter Davenport, in Collier's, we will soon have another Committee on Public Information, the main job of which will be to create an enthusiasm for America's participation in the second world war. There is a difference.

**PRIDE OF THE NAVY**

A FOUR-YEAR PRODUCT THE FIRST REAL battleship the United States has built since we agreed with the rest of the world to cut down our navy, and actually scuttled some of our ships to keep that promise, will go into commission in April.

The new ship is the North Carolina, the largest and most modern fighting ship this country has ever built. A 35,000-ton monster, fitted with every appliance that will aid in making her a destructive terror to an enemy. She will carry a crew of 1,450 officers and men. It has taken nearly four years to build her and it would take four years to build another. We have not yet learned the secret of mass production in battleship building.

**THE AFTERMATH**

A MINNEAPOLIS MAN who had traveled through the airplane and ship producing towns of California, asked a native business man: "What will happen when the demand for defense equipment is over?"

The reply: "Just what happens when you stick a pin in a toy balloon."

The same question and the same answer will apply to every other state.

**THREE GENERATIONS**

A FEW DAYS AGO a disheartened man committed suicide in Los Angeles. His grandfather had amassed a fortune of several millions, but the last of it was gone, and the grandson killed himself. It was a case of "three generations from shirt sleeves to shirt sleeves." That keeps continuously redistributing America's wealth whether the third generation commits suicide or otherwise.

**PHONY DEALS**

WASHINGTON TELLS us there must be no profiteering in our defense preparations. Then we are told of funny or phony land deals, of funny or phony prices in the location of training camps. Wonder if a real investigation might reveal some profiteering or something else.

**PATRIOTISM AND POLITICS**

PATRIOTISM and partisan politics do not mix well. Patriotism says we must build ships and other defense equipment where they can be built best and quickest; that we must locate training camps at places most advantageous and best suited for the purpose. Partisan politics says our defense equipment must be manufactured where it will produce the most votes, or where those votes are most needed, and that training camps must be located with the same purpose in view.

**Washington Digest**  
**New Envoy to Britain Is Staunch 'New Dealer'**

Shares President Roosevelt's Political Views; Announce 'Social Defense Work' to Bolster Home Front.

By BAUKHAGE  
National Farm and Home Hour Commentator.

WNU Service, 1395 National Press Bldg., Washington, D. C.

WASHINGTON.—Few American ambassadors have been chosen because of their philosophy. John Winant, just taking over his new duties as envoy to the Court of St. James, was.

Externally he is not the type to wear knee breeches and genuflect to royalty.

He is tall, Lincolnlike appearing. He is no orator. He has had no previous diplomatic experience. He is anything but the glass of fashion, although he comes from a wealthy New York family. He was once Republican governor of New Hampshire. President Roosevelt called him in to head the first social security board. Later he was director of the international labor office at Geneva.

Many persons in Washington will tell you they cannot see why this man was chosen for our most important foreign diplomatic post. Within limits it is anybody's guess. This is mine:

Mr. Roosevelt believes that America is to play the dominating role in the peace that is to come. He believes that the democracies must have as definite a program to offer the bewildered and bleeding peoples of the earth as the totalitarians. Hitler has named his. It is national socialism. Roosevelt has his—the New Deal.

**'I' Great Britain Wins.**

If Great Britain wins the war, her chosen representatives will dictate the terms which will shape the new world. If they are to be persuaded to do the job on the American plan they must understand what that plan is. Therefore, since the man whose function it is to interpret the United States to Great Britain in the pre-peace days is our ambassador, he must truly represent his President. Of course all ambassadors are supposed to be the personal representatives of their head of state but under these circumstances the President's envoy extraordinary must be a man who Mr. Roosevelt believes, believes as he believes.

That is the reason the President sent Harry Hopkins over in the fateful interlude between a Kennedy and a Winant.

John Winant will talk to the king or the prime minister or whomever is head of the peace-making government, in the language of President Roosevelt. That is not precisely the language which Joseph Kennedy spoke so understandingly to the Englishman he knew best and respected highly, the late Neville Chamberlain, the language of the conservative liberal, the man of property. Winant's language is the language of what he would probably describe "social values"—for he is the New Deal incarnate.

**President Has Plan For 'Social Defense'**

At a recent White House press conference the President took a lot of time to answer an open letter from an ex-marine. World war veteran. The writer said that when the last war was over he had announced that he'd cheer the boys to the next one and then enjoy a big steak and onions. But when he tried it after seeing some draftees march by, the steak didn't taste. He wanted to know what folks, too old to join the army could do for national defense. The President said he would announce a plan soon. That plan is based on a report submitted by a committee, the chairman of which is Mrs. Florence Kerr, assistant WPA commissioner here.

Later I asked Mrs. Kerr about it. This was her reply:

"There are social defense jobs to be done in every home town in America. From border to border and coast to coast communities need more services in health, welfare, education, recreation. Everywhere there are things to be done to make America a better place in which to live."

Fields of training, says Mrs. Kerr, in which millions of men, women and youth will be engaged for defense on the home front will include: Food training programs, dealing with all subjects related to food, food conservation, food handling, gardening, canning, mass

feeding, vitamins and their importance, food for children, food for ill, diet, nutrition and many other topics related to food and the home front.

Aptitude testing, first aid and safety first: community organization, map reading, map making, drafting, community health, sanitation and hygiene: are just a few of the other fields in which more trained workers are needed.

"On a volunteer basis present and ex-teachers of language could develop nationwide opportunities for classes in Spanish," Mrs. Kerr said. "Western hemisphere relationships give such training universal appeal, and many individuals will respond to such an opportunity to equip themselves better for world citizenship."

**War-Gas Driven Cars Increase in Finland**

Recently we reported the experimental work being done by the department of agriculture laboratory in Peoria, Ill., in the manufacture of alcohol from corn residue. In Finland, where necessity has become the mother of invention, reports coming to Washington show that they are already running automobiles without gasoline. The Finns have wood-gas carburetors in their cars. Finland in normal times imports all of its petroleum. In these times it can get little or none.

According to information reaching the legation here in your capital city the Finnish ministry of supplies and transport has issued orders to the effect that automobiles all over Finland, including privately owned cars, busses and trucks, must be fitted with the wood-gas carburetors as soon as possible. The only exceptions are ambulances and the cars and trucks of the fire brigades. Every day now sees an increase of the wood-gas driven cars on the streets of Helsinki. By early November, 1,900 wood-gas carburetors were in use in Finland, as well as 4,250 charcoal-gas carburetors, another substitute for gasoline.

And this affects the farmer, too. All tractors in agricultural use are being fitted with the wood-gas carburetors. Nearly all busses are already running on wood-gas, and passengers are gratified with the absence of the noxious gas fumes usually associated with gasoline-driven busses—one of the advantages of wood gas.

New service stations have had to be set up, for the servicing now is not merely a question of supplying the fuel but also of cleaning the carburetors and emptying the ashes, which must be done under cover.

Last August, when wood-gas carburetors were introduced into Finland, the state appointed a committee to find means to finance their purchase. This committee's recommendation, to set up a guarantee company in which the state would take part, was carried out by the establishment in October of a joint stock company, Wood-Gas Generator Credits, Inc., which extends credits, up to a maximum of 70 per cent of the cost, toward the purchase of the new carburetors.

The ministry of supply and transport also appointed a technical committee to work on improvements and modifications of the carburetors. The state granted \$100,000 to start this work.

Although the development of wood gas in Finland thus far has been a temporary expediency it may have a future as a fuel in the motor world. In that case, Finland, according to the Finnish experts, with her wealth of forests, would be in the first rank of motor-fuel producing countries. At all events, she would be independent as far as her own auto traffic is concerned.

However, if and when the Finns once again secure their political independence, it is to be hoped they will be part of a world where complete economic independence is not necessary—a world where there is a free flow of all the products of the earth and of industry between nations.

**If You Read in Bed You'll Want This Bag**

By RUTH WYETH SPEARS

THIS bag was planned as a hospital gift for someone who was finding days in bed difficult enough without having books, magazines, writing materials and spectacle case scattered about and forever getting lost. If you like to take an assortment of reading matter to bed, sick or well, you will enjoy a bag like this. Its hanger hook

may be sewed to box springs and there you are with everything at hand.

The bag shown here was made of a remnant of heavy cotton upholstery material in tones of green with a touch of red in the pattern. The red was repeated in the sateen lining. The sketch gives all the dimensions and shows how the lining and the outside part were made. A coat hanger was cut down to measure 12 inches from end to end and was placed between the lining and the outside; these being stitched together around the top, as illustrated.

NOTE: As a service to our readers Mrs. Spears has prepared a series of six booklets of her original ideas. Each booklet contains 32 home-making projects with illustrated directions. Booklets are numbered from 1 to 6, numbers 3 and 4 containing directions for other types of bags and door pockets that will make house-keeping easier. Booklets are 10c each and may be ordered direct from:

MRS. RUTH WYETH SPEARS  
Drawer 10  
Bedford Hills New York  
Enclose 10 cents for each book ordered.

**"THEY CALL ME 'DOC'"**

"When someone complains of acid stomach I hand them one of my ADLA Tablets"—wrote Mr. M. of Penn. If "Doc" met you he'd probably hand YOU one. Ask your druggist today for ADLA Tablets and see how quickly they relieve acid indigestion.

**Our Vanity Hurt**  
That which makes the vanity of others unbearable to us is that which wounds our own. — La Rochefoucauld.

**Relief At Last For Your Cough**

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.  
**CREOMULSION**  
for Coughs, Chest Colds, Bronchitis

**Blush of Men**  
Men blush less for their crimes than for their weaknesses and vanity. — La Bruyere.

**Nervous Restless Girls!**  
Cranky? Restless? Can't sleep? Tired easily? Because of distressing menstrual disturbances? Then try Lydia E. Pinkham's Vegetable Compound.  
Pinkham's Compound is famous for relieving pain of irregular periods and crampy nervousness due to such disturbances. One of the most effective medicines you can buy today for this purpose—made especially for women. WORTH TRYING!

**BUREAU OF STANDARDS**

• A BUSINESS organization which wants to get the most for the money sets up standards by which to judge what is offered to it, just as in Washington the government maintains a Bureau of Standards.  
• You can have your own Bureau of Standards, too. Just consult the advertising columns of your newspaper. They safeguard your purchasing power every day of every year.

**U. S. DEFENSE . . . in the news**

OPM Associate Director Hillman said 37,200,000 persons are now employed in non-agricultural industry—an increase of 2,200,000 since last May, and the greatest increase in any similar period. Secretary of Labor Perkins said a survey of 11 key defense industries revealed "at least one-half of the plants covered were operating at least six days per week."

FWA Administrator Carmody announced that the army and navy will select tenants and set rentals for defense homes occupied by their enlisted or civilian personnel and the other defense homes will be only for the use of families whose principal wage earners hold essential defense jobs. The defense worker's rental will be set according to his income and not the size of the home.

**BITS . . . By Baukhage**

The Niagara County, N. Y., (where I went to grade school) Federation of Sportsmen's Clubs, made up of the membership of the county's eight conservation clubs, sponsored the county's 4-H club first-year tree-planting projects. The 4-H members actually planted the trees on idle land of the county; and leaders of the forestry project of the

U. S. department of agriculture provided instruction to the young people in tree planting.

## Guard British Aid to Greece

Three powerful units of the British fleet are seen off the Rock of Gibraltar as they helped cover passage of convoys through the Mediterranean to Greece. The warships are (left to right) aircraft carrier Ark Royal, an unidentified battleship, and dreadnaught, Renown. (Insert) British destroyers making high-speed turns when attacked by enemy aircraft while convoying ships through Mediterranean.

## New Fighters for Uncle Sam's Air Force

Interior view of the huge Curtiss-Wright plant in Buffalo, N. Y., showing the mass assembling of the new Curtiss P-40 pursuit ships for the U. S. army air corps. This plant turns out 10 planes daily, and will soon increase this number as additional trained mechanics are put to work in the new plant buildings.

## When Enemies Become Allies

For the moment at least, enemies become allies to help a wounded soldier. A British officer and an Italian prisoner are shown in this sound-photo carrying an Italian casualty at Bengasi, Libya, to an ambulance. Another wounded soldier is on the ground awaiting assistance from the friendly enemies.

## British Convalescent Home Kept Busy

At a hospital in the northeast section of England wounded Royal Air Force pilots and girls of the Women's Auxiliary Air Force are now "im mending." The hospital is used by the R. A. F. and the W. A. A. F. Picture shows convalescents walking about the grounds.

## Found Years Later

Wrecked plane of Charles Stanton, of Dorchester, Mass., which disappeared with its five passengers June 20, 1937. It was recently found by four farmers in a jungle near San Jose, Costa Rica—its passengers a tangled heap of bones.

## Canada's Navy on Job

Two officers of the Royal Canadian navy watch over a convoy from the bridge of their destroyer. With the increasing flow of war materials to Britain, Canada is kept busy.

**Next Best**  
"Why did they hang that picture?"  
"Because they couldn't find the artist."

The rain rains mostly upon the just. The unjust keep borrowing his umbrella.

**Objecting**  
Mother—Baby's crying because he's getting his first teeth.  
Little Mary—What's the matter? Doesn't he want them?

**Quite Obvious**  
"Isn't that a new frock you've on?"  
"Yes; I got it for a ridiculous figure."  
"Oh, I can see that!"

**Shrinking Violet**  
The teacher was explaining the difference between the stately rose and the modest violet.  
"You see, children," she said, "a beautiful, well-dressed woman walks along the street, but she is proud and does not greet anybody—that is the rose. But behind her comes a small creature with bowed head."  
"Yes, I know," Tommy interrupted; "that's her husband."

## ASK ME ANOTHER ?

A Quiz With Answers Offering Information on Various Subjects

### The Questions

1. What is the only state in the Union which is bounded by one state alone?
2. Which of the following is a natural magnet—Capstone, thunderstone or lodestone?
3. What are known as cardinal winds?
4. When was the boundary between the United States and Canada finally determined?
5. What are the odors of the principal gases that are used in war?
6. How many shillings are there in a British pound?
7. How small can diamonds be cut?
8. Who said: "I know of no method to secure the repeal of bad or obnoxious laws so effective as their stringent execution"?

### The Answers

1. Maine.
2. Lodestone.
3. Winds blowing from due north, east, south or west.
4. The boundary between the United States and Canada was not completely determined until 1925, or 142 years after our country signed the treaty with England.
5. As nearly as can be described, mustard gas smells like garlic;

lewisite like geraniums; phosgene like musty hay; and tear gas like apple blossoms.  
6. Twenty.  
7. Some diamond cutters have become so expert in cutting very small diamonds for mass settings that they produce regular 58-facet stones so small that as many as 800 weigh only one carat.  
8. Ulysses S. Grant (inaugural address March 4, 1869).

**INSURE WITH A Strong COMPANY!**  
OVER \$500,000 LOSSES IN A SINGLE DAY!  
NO SPECIAL ASSESSMENT NECESSARY!

The State Mutual Cyclone Insurance Company's foresightedness . . . in carrying reinsurance . . . is one of the reasons why State Mutual continues to grow year after year. On November 11, 1940, approximately 15,000 State Mutual policyholders suffered over \$500,000 in windstorm losses. All claims were paid promptly. No special assessment was necessary. The reason? Reinsurance absorbed \$300,000 of the claims. You're sure you're completely protected when you're insured with State Mutual; you're sure, too, that your yearly assessment won't exceed 15 cents per hundred dollars (thanks to ample resources and reinsurance).

"Learn the facts about Michigan windstorms . . . before it's too late. Write, today, for your free copy of 'Gamblers Beware!' Address me personally, Home Office, Lapeer, Michigan."

"Every government official or board that handles public money, should publish at regular intervals an accounting of it, showing where and how each dollar is spent. This is a fundamental principal of democratic government."

**JORDAN**

(Edited by Miss Marjorie Kiser)

Walter Trojaneck was a Bellaire caller one day last week.

Bill Lundy is visiting his brother, Floyd Lundy for a few days.

Joan Williams spent last week end with her cousin, Margy Kiser.

Mr. and Mrs. Cliff Wing of Alba spent one evening of last week with Mr. and Mrs. Frank Atkinson. Mr. Wing is connected with the AAA.

Mrs. Earl Gould tells us that her daughter and son-in-law, Mr. and Mrs. Charles Nofsinger, of Detroit have a baby girl, born the 20th of February.

Mr. and Mrs. Dale Kiser and children of Detroit spent the week end with their respective parents, Mr. and Mrs. App Reeves and Mr. and Mrs. Frank Kiser.

The next meeting of the Jordan Valley Extension Club will meet with Mrs. Ed. Hosler, March 12, at 10 o'clock. This meeting will prove very interesting as it is entitled "How to choose becoming lines."

Among those to call on Mr. and Mrs. Tom Kiser last week were Geo. Etcher, Mrs. Helen Bartholomew, Mrs. Ernest Lanway, Mrs. Frank Atkinson, Mrs. Earl Gould, Mrs. Anna Kotovich, Mrs. Floyd Lundy, and Mr. and Mrs. Frank Kiser.

The trouble with getting married on a shoe string is that too many people get tripped up on it.

**SOUTH WILSON**

(Edited by Miss Anna Brintnall)

Miss Margaret Weldy spent Friday night with Miss Marion Jaquays.

Otto Miller of Boyne City was a Sunday caller at Luther Brintnall's.

Frank Rebec has purchased a new Farmall, model A, tractor, recently.

C. L. Fuller is laid up with his foot. John Stanek is working for him for a few days.

Geo. and Jim Rebec and Leslie Haney were Sunday callers at Robert Barnett's in East Jordan.

Mr. and Mrs. Leon Kowalske of Detroit are spending a few days at her mothers, Mrs. Geo. Brown.

Mr. and Mrs. Wm. Zoulek and family were Sunday evening callers at Mr. and Mrs. Lawrence Addis.

Frank Rebec Sr. and sons Frank and Richard were Saturday callers at Robert Barnett's of East Jordan.

Joan Kenny of East Jordan spent a few days last week with her grandparents, Mr. and Mrs. Frank Rebec.

It must be that spring is just around the corner as the first crows were seen in this vicinity, Sunday, March 2.

Mr. and Mrs. James Habasko Sr. and daughter Helen of Boyne City were Sunday afternoon visitors at the home of Mr. and Mrs. Peter Stanek.

Sunday callers at the Peter Zoulek home were Mr. and Mrs. Carl Schmitt of Petoskey, Mr. and Mrs. Wm. Zoulek and family, and Mr. and Mrs. Fred Zoulek and daughter.

**NORTH WILSON**

(Edited by Mrs. August Knop)

Carl Grutsch of East Jordan visited Frank Behling Sr., Sunday.

Albert Behling went to Detroit a week ago and got a job at Ford's plant in Dearborn.

Two of Mr. and Mrs. Richard Simmons daughters are confined to their home with scarlet fever.

Mr. and Mrs. Ed. Weldy and family were Sunday supper guests of Mr. and Mrs. Basil Holland and family.

Miss Hilda Cook and friend of Detroit spent the week end with her sister, Mrs. Ed. Weldy and family.

Mr. and Mrs. Fred Benzer of Boyne City visited Frank Behling, Sr., and Mr. and Mrs. Frank Behling Jr., Sunday.

Mrs. Ed. Weldy, daughter Ardith, and Mrs. A. Knop and son Buddy visited the latter's parents, Mr. and Mrs. E. Raymond, Saturday.

Mrs. Harriet Stone returned to Grand Rapids Saturday, after spending the past several weeks caring for her mother who passed away a week ago.

Rev. Kuck of Paw Paw, Michigan is the new minister for Boyne City and Wilson twp., and will be installed at Boyne City, Sunday, March 9, at 3:00 o'clock for Wilson and Boyne City together.

**SOUTH ARM**

(Edited by Ruth Goebel)

Mrs. Hugh Graham was on the sick list last week.

Irvin Crawford had the misfortune to lose a new-born colt last week.

Mr. and Mrs. Walter Heileman and family called on Bert Mayhew, Sunday.

Arnold Smith and Walter Goebel made a business trip to Petoskey last week, Wednesday.

Mrs. Walter Heileman is knitting a beautiful pair of mittens for our teacher, Miss Gilkerson.

Mr. and Mrs. Russell Crawford called on Mr. and Mrs. Irving Crawford, Tuesday evening.

Mrs. Arnold Smith spent the afternoon of Friday with Mrs. Frank Davis in honor of the latter's birthday.

Frank Behling and family of Wilson Township were callers at the Walter Goebel home, Sunday evening.

**Ranney School**

Teacher — Ina Gilkerson

The fifth grade Geography class is starting the study of South America.

The third grade reading class started in the Lincoln Third Reader this week.

The beginners have started the new story "Ned and Grandmother" in their Primers.

We are reading the book "The Big Opportunity" which Wayne Flora brought to school.

Those with perfect attendance during the six weeks were Catherine Smith, Audrey Crawford, Donald Graham, Robert Graham, Nandean Heileman and Caroline Heileman.

The honor roll for this six weeks is Audrey Elsworth, Jimmy Sloan, Catherine Smith, Verna Boyer, Donald Graham, Robert Graham, Nandean Heileman, Shirley Walker, Lucille Boyer and Caroline Heileman.

**Post Nuptial Shower**

Mrs. Clifford Gibbard was honored with a post-nuptial shower at her home on State St., Thursday afternoon, February 27.

The afternoon was spent in games and visiting, after which refreshments were served. The new bride received many lovely and useful gifts.

**PENINSULA**

(Edited by Mrs. E. Hayden)

Crows are here in large numbers which is unusual so early.

Mr. G. C. Ferris has returned from a few weeks visit with relatives in Detroit.

Wm. Gaunt of Three Bells Dist. began working on the dam at Boyne City, Thursday.

Ralph Kitson of Three Bells Dist. has been ill some time with the flu but is better now.

March came in like frozen lamb with reports of from 16 to 20 degrees below zero, but warmer the second.

Clare Loomis of Gravel Hill, north side, spent the week with his nephews, the little Arnott boys at Maple Lawn farm.

The Soil Conservation Committee, G. C. Ferris, Wm. Gaunt and Fred Crowell attended an AAA meeting in Boyne City, Monday.

The Rev. Dickinson and wife of the Boyne City Free Methodist church called on the Nicloys at Sunny Slopes farm, Thursday afternoon.

Mr. and Mrs. Jack Craig (Vernetta Faust) of the Bohemian Settlement, spent Sunday evening with the Healey family at Willow Brook farm.

Charles Healey of Willow Brook farm spent Sunday afternoon with his aunt, Mrs. Blanche Richards at East Jordan. He found her much improved.

Mr. and Mrs. Robert Hayden and three children of Hayden cottage, spent Sunday evening with the F. K. Hayden family at Pleasant View farm.

Mr. and Mrs. T. J. Hitchcock and son Burton of East Jordan, spent Sunday afternoon with the F. K. Hayden family at Pleasant View farm.

A bunch of neighbors made a surprise birthday party on Mrs. Elmer Faust in Three Bells Dist., Friday evening. They spent a very enjoyable evening.

Mr. and Mrs. Clayton Healey and two sons of Willow Brook farm spent Wednesday evening with the Ted Westerman's at the F. H. Wange-man place.

Herbert Staley of Bay City visited Geo. Staley at Stoney Ridge farm from Friday to Sunday. The two men worked in the lumber woods together 30 years ago.

There were 29 at the Star Sunday School March 2. Dr. Beuker of East Jordan taught the young people's advanced and adult classes and the session was very interesting.

Mr. and Mrs. Fred Looze and daughter of Charlevoix called on Mr. and Mrs. Perry Looze and family at Cherry Hill, Sunday evening. Mr. Fred Looze is with the Coast Guard.

Mrs. Frances Looze of Cherry Hill attended a Mattress Demonstration at Cheboygan, Monday, February 24, along with B. C. Mellencamp, Walter Henley, Mrs. Zola Matthews and Mrs. Bathke.

Mr. and Mrs. A. B. Nicloy of Sunny Slopes farm and Geo. Staley of Stoney Ridge farm attended the funeral of Malcolm McDonald at Charlevoix, Saturday afternoon as did a large number from Mountain Dist.

Mrs. Elmer Faust received a visit from her son, Edgar Wallace and family, of Midland, Thursday night. They returned home Friday. She is also enjoying a few days visit with her only brother, Clyde Nowland of Flint, who came Friday.

Mr. and Mrs. Herb Gould and son Melvin visited their daughter, Mrs. Perry Looze at Cherry Hill, Friday. They had a letter from their son Nyle from Livingston, La., where he is in the military training volunteers, having signed up for 3 years.

The Club met with Mrs. Charles Fett on the lake shore road Thursday p. m. with 15 adults present. The lesson was very instructive given by the leaders, Mrs. Frances Looze and Mrs. Margaret Bennett. They were served a delicious lunch by the hostess.

Mr. and Mrs. Ray Loomis of Gravel Hill, north side, and Mr. and Mrs. Charles Arno and young sons made a business trip to Charlevoix, Friday afternoon, and called on the Henry Wagners, Mr. Wagner is improving after a long seige of bone infection.

Mr. and Mrs. Fred Wurn of Star Dist. were Sunday dinner guests of their daughter, Mrs. Elwood Cyr and

family in Boyne City, also called on the new little grand-daughter who arrived at the home of their son, W. F. Wurn, Tuesday, who weighed 8 1/2 lbs. and is named Charleen Irene.

A letter from Evert "Bob" Jarman postmarked Tempe, Arizona, states they are having the most rain ever known, that work in the fruit orchards is retarded, the late trees are "putting out", the ditches are all running over for which they are much pleased. Curtis Nicloy also writes from California they are having the most rain for 40 years.

Mr. and Mrs. Fred Crowell of Dave Staley Hill, east side, had for company and dinner Sunday, their son Alfred and family of Jackson, and daughter Eva Crowell and boy friend also of Jackson, Saturday, and Leon Perry and Mrs. Margaret Engles of Grayling, and Mr. and Mrs. Joe Perry of Boyne City, and Mr. and Mrs. Wm. Gaunt and son Jr. of Three Bells Dist.

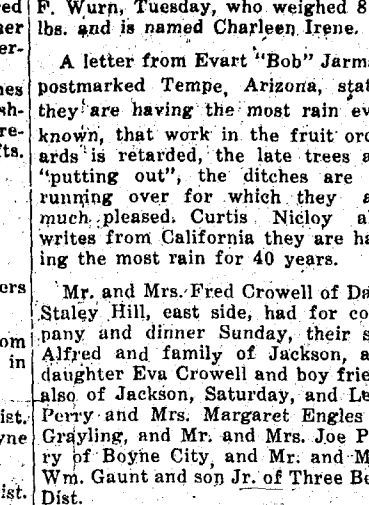

Mr. and Mrs. A. B. Nicloy and son LeRoy of Sunny Slopes farm joined in a double birthday party Sunday for her mother, Mrs. A. C. Hurd, and sister, Mrs. Myrtle Boyington at Mrs. Boyington's home in Boyne City. There were four generations. All of Mrs. Hurd's children and some of the grand children and great grandchildren were there. It was an occasion long to be remembered.

Mr. and Mrs. Ray Loomis of Gravel Hill, north side, attended a birthday party for her father, Harlow Sweet, at Advance, Sunday. It was his 79th. There were his daughter, Mr. and Mrs. Gene Inman of Boyne City, their daughter Mr. and Mrs. Ira Mathews and three children of Bellaire, and Mr. and Mrs. Leo McGee and son Jr. and girl friend of Grand Rapids, and Mr. and Mrs. Sweet, 15 in all, 4 generations, and did they have a good time — just ask them!

Mr. and Mrs. Marion Russell and family of Boyne City spent Sunday with his parents, Mr. and Mrs. F. D. Russell at Ridgeway farm. A very interesting sight Sunday, was eight little girls, first graders and less, almost the same size, polishing the seats of their snow pants sliding down the snow bank which is at least eight feet straight up, until they had made a very steep incline. The correspondent watched them for some time with a great deal of amusement.

Old residents will be concerned to hear of the death of Mr. Malcolm McDonald at the home of his sister, Mrs. May Jardine in Charlevoix, where he had come in the fall after having lived away for a good many years, he having spent his boyhood and young manhood in Mountain Dist., and been Supervisor and Township Clerk for several terms and Register of Deeds of Charlevoix Co. several terms before going to different places in Michigan later in life. He was always highly respected. He never married. He had been ill a long time.

**World's First "Adjustable Highway"**

Wide applicability not only to peacetime requirements but also to problems of defense is claimed for the traffic divider which M. P. Norris, Chevrolet executive, is inspecting above. It has just been placed in service on the newest stretch of Chicago's famous Outer Drive, and is unique in the fact that it can be raised or lowered to provide lanes of varying width, so that the road becomes, in effect, an adjustable highway.

Three parallel dividing-curbs are recessed into the pavement, so that its 100-foot width can be split into four 25-foot lanes. The mechanism operates hydraulically. Control stations like that at which George Van Dorpe and Michael Gorun, Chicago city employes, are standing (upper left inset) make it possible to retract each divider flush with the pavement surface, or raise it eight inches to the position shown in the larger photo. Each control operates 600 feet of divider, in 12-foot sections, raising it in 1 1/2 seconds. Cross-section diagram shows construction of divider, and inner arrows point to glass bull's-eyes through which light shines when curb is raised.

The lower diagram shows cross-section of road, with dividers in various positions, to handle directional traffic flow at various hours of the day. One adaptation of the idea, it is pointed out, could be used to separate military from civilian traffic, when this is desirable, while another would close airports against landings by hostile planes. In normal use, however, it not only expedites traffic movement but makes a 100-foot highway do the work of one much wider, an especially important point in congested areas where land for widening comes high.

CENTER DIVIDER RAISED FOR BALANCED TRAFFIC FLOW

EVENING RUSH DIRECTIONAL TRAFFIC

MORNING RUSH DIRECTIONAL TRAFFIC

# Local Happenings

Miss Jean Davey was a Battle Creek visitor last week end.

Miss Carol Hargar spent the week end in Albion and Farmington.

Mrs. Alva Davis is visiting friends and relatives in Detroit this week.

Ruth Bowen was taken to Lockwood hospital, Monday, for an appendectomy.

Mrs. Ole Hegerberg is visiting her sister, Mrs. R. Davis and family in Detroit.

Mr. and Mrs. Robert Campbell were Grand Rapids visitors this Thursday.

Dale Clark of Bellaire was Saturday, guest of his parents, Mr. and Mrs. Mason Clark.

Jean Campbell, a student at C.S.T.-C., Mt. Pleasant, spent the week end at her home in East Jordan.

Mrs. Marlin Cihak and infant son, Gary Marlin, returned home last Thursday from Charlevoix hospital.

Pete Hipp of Flint and son Richard of Detroit spent the week end with Mrs. Pete Hipp and daughter Kathleen.

Mrs. G. W. Atkinson of Jackson is guest of her father, Martin Ruhling, sister Mrs. Ida Kinsey, also other relatives.

Miss Jean Bechtold spent the week end from her teaching at Waterford with her parents, Dr. and Mrs. G. W. Bechtold.

Robert Dickinson of Ann Arbor was guest of his aunt, Mrs. Bell Wright, last week end, returning home Wednesday.

Mrs. Rosella Hammond returned home, Tuesday, after spending the winter with her son Clifford and family at Port Huron.

Mrs. J. W. Browning returned to her home in Chicago after spending the past two weeks with her mother, Mrs. Blanche Richards.

Mrs. T. E. Malpass is guest of Detroit friends and relatives this week.

Bud and Frank Strehl of Detroit, spent the week end at their respective homes.

Mrs. R. P. Maddock is guest of her daughter, Mrs. Ben Powell and family at Bellaire.

Born to Mr. and Mrs. Clement L. Kenny a 9 1/2 lb. son, Clement James, Thursday, February 27.

Archie Griffin of Flint was week end guest of his parents, Mr. and Mrs. Marshall Griffin, Sr.

East Jordan 4-H Clubs will have a Baked Goods Sale at the Quality Food Market, Saturday, March 8th.

Mr. and Mrs. Otto Reinhardt of Flint were week end guests of the latter's mother, Mrs. W. S. Snyder, and other relatives.

Mr. and Mrs. Pete Hipp and daughter Kathleen were Saturday guests of Mr. and Mrs. Elmer Olstrum at Charlevoix.

Mrs. Norman Sloop returned home last Saturday after a two weeks visit with her sister, Mrs. Dennis Woodward and family at Newago.

The Methodist Ladies Aid will be entertained at the home of Mrs. Archie Pringle, with Mrs. Ernest Lanaway assisting, Wednesday afternoon March 12.

Faith Gidley returned to her studies at C.S.T.C., Sunday, after spending the week end with her parents, Mr. and Mrs. James Gidley.

The north end of the "200" blocks in Main St. is being changed considerably. The former Malpass Hdwe building is being wrecked, as well as the shed between that and the Jordan Inn. Across the street, the building once used as a grocery and meat market is being razed. Outside of The Inn, there will be no more frame buildings on the east side of Main St. in the 100 and 200 blocks.

Mr. and Mrs. John Porter and daughter Suzanne left Thursday for a few weeks in Los Angeles, Calif.

Thos. St. Charles and daughter, Gladys, returned home Sunday from a business and pleasure trip to Detroit.

Blanche Davis spent the week end from her studies in Flint at the home of her parents, Mr. and Mrs. Walter Davis.

Helen Darbee spent the week end from her studies at C.S.T.C., Mt. Pleasant, with her parents, Mr. and Mrs. A. L. Darbee.

St. Ann's Altar Society will meet Thursday March 13, in St. Joseph's Parish Hall at 3 p. m. Mrs. Marie Doljez and Mrs. Wm. Swoboda, hostesses.

Howard Porter, Jr., and Miss Marjorie Risk spent the week end from their studies at Ann Arbor at the home of the former's parents, Mr. and Mrs. H. P. Porter.

Arthur Behls and brother-in-law, Frank Archer, returned home last Thursday night from a truck trip to Brazil, Ind. They took down a load of potatoes and brought back corn.

Mr. and Mrs. Harold Thomas and family of Flint were week end guests of the former's mother, Mrs. Russell Thomas and daughter Evelyn, also of Mr. and Mrs. Gabriel Thomas.

The American Guernsey Cattle Club, Peterborough, N. H., reports the sale of a registered Guernsey bull by James H. Nice to A. M. Murphy of East Jordan. This animal is Rosemont Ted 258019.

Mrs. Mike Dennis and daughter Evelyn and William Stokes of Flint were week end guests of their parents, Mr. and Mrs. S. LaValley, returning to Flint, Wednesday. On Thursday William Stokes will go to Detroit where he will enter his years training in the army.

Regular Communication of East Jordan Lodge No. 379, F. & A. M. Tuesday night, March 11th.

## SOUTH LAKE LODGE K. OF P.

Initiation into first rank will be given to four candidates at a meeting of the Knights of Pythias lodge next Wednesday, March 12th.

## Notice to Candidates

Candidates for the Office of Mayor and Alderman of the City of East Jordan must have their petitions in the hands of the City Clerk not later than 4:00 p. m., Monday, March 10, 1941.

WM. ALDRICH, City Clerk.

Regular meetings — first and third Monday of the month.  
Work night — every Wednesday.  
Auxiliary — second and fourth Tuesdays.  
All meetings at 8:00 o'clock p. m.

## Relief Map Shows America in Detail

Completed After 17 Years  
Of Construction.

WELLESLEY, MASS. — Like Rome, the world's largest United States map wasn't built in a day. It has just been completed after 17 years of construction.

The \$150,000 project covers 3,000 square feet and is housed in a specially constructed building at the Babson institute. Spectators view the 10-ton relief model from a 14-foot balcony.

From Atlantic to Pacific the map measures 64 feet and from Canada to Mexico 46 feet. One inch represents four miles. It is the first map to be built on a curved surface. The curve rises seven feet in exact proportion to the earth's curvature.

Roger W. Babson, statistician and founder of the institute, conceived the giant-map idea during the World war.

The Harvard geographic sculptor, George Carroll Curtis, was hired but died two years after beginning the task. Work proceeded spasmodically until January, 1938, when 34-year-old Dr. Wallace W. Atwood Jr. of Clark university took charge.

The model has buff-colored land and blue water bodies. Mount Whitney in California, the nation's highest mountain, stands 4 1/2 inches on the map though it really is 14,495 feet high.

Dr. Atwood says the map would have tremendous military value during wartime. "Airplane pilots could be taught the country's topography. Also, if the United States were attacked, the map would be useful in planning and directing defenses."

Twelve hundred molded plaster of paris blocks form the map's surface. Each block measures one degree latitude by one degree longitude.

## Aerial Warfare as Idea Found to Be Centuries Old

CHICAGO. — Warfare from the skies was foreseen centuries ago in China, according to a book written by the late Dr. Berthold Laufer, formerly of the Field museum, of Chicago, and published by the Museum Press in 1928.

The book, "The Prehistory of Aviation," describes a "flying chariot," designed by a Chinese mechanic, Kikung. The Chinese emperor at that time, however, "caused the airship to be destroyed, as he did not wish his own people to see it."

Centuries later in 1670 the Jesuit, Francesco Lana, after planning a similar flying machine, published the best reason why the early Chinese machine was destroyed.

"I do not see any other difficulty that could prevail against this invention," Lana wrote, "save . . . that God will never permit such a machine to be constructed in order to preclude the numerous consequences which might disturb the civil and political government among men. For who sees not that no city would be secure from surprise attacks as the airship might appear at any hour directly over its market-square and would land there its crew?"

"The same would happen to private houses and to ships crossing the sea . . . Even without descending, it could hurl iron pieces which would capsize the vessel and kill men, and the ships might be burnt with artificial fire, balls and bombs."

## R.A.F. Has Machine Gun That Shoots Backward

LONDON. — A machine gun that fires backward is the newest Royal Air Force weapon.

Fitted under the plane's nose, the gun is designed to protect the tail and cope with attackers who come up from below. Said to be the first of its type in any air force, it is aimed and operated by the navigator through a series of mirrors. It was disclosed at the same time unofficially that the new Spitfire, described as "faster and harder hitting" than the fighter so successful in the autumn defense of Great Britain, will be in service by spring or earlier. Some of the machines are provided with cannon.

## Farmer Declares Crows Feast on His Pecans

STILLWATER, OKLA. — Ever hear of crows cracking pecans?  
J. C. Cox of near Stillwater has seen them do it, he insists. Here's how:

"The crows carry pecans to a fence post and dump them in a pile. Then a crow will take one pecan in his bill and hold on to the edge of the fencepost with his claws. "He hammers that pecan against the top of the post until it is cracked. Some of my posts have half a peck of hulls around where the crows have feasted."

## Learned Sign Language For Deaf-Mute Sermons

CLEVELAND. — A local mission regularly conducts religious services in sign language for its congregation of deaf mutes for whom spoken sermons are valueless.  
The Rev. H. A. L. Grindon, who is able to hear and speak normally, learned the sign language solely to enable him to conduct services for the deaf at St. Agnes' mission.

## Farm Cash Income From Milk Records New Three-Year High

1938	1939	1940
\$1,396,000,000	\$1,355,000,000	\$1,502,000,000

NEW YORK—Farm cash income from milk for 1940 totaled \$1,502,000,000—an increase of \$147,000,000 or 10.87 per cent over the 1939 total and the largest since 1927, according to a Milk Industry Foundation report.

Figures for 1940 show the importance of milk as a mainstay of farm purchasing power, the report says. The increase is also impressive as milk is a cash crop paid for monthly and not at the end of the season as in the case of most crops. Milk cash is widely used for current farm purchases and merchandise.

While 1940 figures are not yet available for all individual farm products, it is indicated that milk is again the largest single source of farm cash income. While cash income from milk was up 10.87 per cent the income from all other farm products rose only 7.39 per cent during 1940. Milk production of 111 billion quarts was the largest on record.

More significant, farm cash income from milk for the year 1940 was 21.3 based on 1924-29 as 100, compared with 17.6 for total farm income. The milk figure for December, 1940, was 104.5, while all farm income was 84.0. This shows how farm income from milk has been relatively much better maintained than farm income from all other crops and commodities, contrasted with the latter half of the more prosperous 20's.

For 1940 the Milk Industry Foundation monthly milk sales reports from 136 leading U. S. cities indicate increases in sales of fluid milk of 1.4 per cent over 1939.

## FIRST-AID to the AILING HOUSE

by Roger E. Whitman  
(© Roger E. Whitman—WNU Service.)

Carol Coburn, Alaska-born daughter of a "bush rat" who died with an unestablished mining claim, returns North to teach Indian school. Aboard ship, she is annoyed by Eric (the Red) Ericson and is rescued by Sidney Lander, young mining

**THE STORY SO FAR**  
engineer. Lander, working for the Trumbull company, which is fighting Coburn's claim, is engaged to Trumbull's daughter. Lander breaks with Trumbull. But the engagement to Barbara Trumbull stays. Christmas day, a fire breaks out at the

school when the children are playing round the Christmas tree. The school burns down. Carol proves the heroine, saving the children. The doctor orders her to bed. The fire left Carol without clothes and without definite plans.

### INSTALLMENT VI

But I refused to stay put. There was too much to be done. I didn't want to seem a slacker when everybody was so busy. And in looking after the others I could pretty well forget the pain of my own flame-blistered face.

Where the rambling old schoolhouse had been was a stretch of smoldering ashes with the skeleton-like iron bed frames and a stove or two standing there as melancholy as tombstones. And everything I owned lay consumed in those ashes. All I had left were the few scorched clothes that hung about my tired bones.

But I hadn't time to feel sorry for myself. A special train, I was told, was already on its way from Anchorage, to pick up our homeless school waifs and carry them on to the Indian orphanage at Fairbanks. From the pile of emergency clothing Katie commandeered for me an oversized pair of corduroy trousers, a patched plaid Mackinaw, and a caribou parka that had seen better days. To these Doctor Ruddock (who'd given up his little wooden-fronted office as sleeping-quarters for Katie and me) added socks and pacs and an old bearskin cap that made me look like a lady-huzzar in a busby.

"What are we going to do?" I asked the ever-hurrying Doctor Ruddock when he dropped in, next day, to anoint my scorched epidermis with ambersine.

"Toklutna's off the map," he proclaimed. "Katie will stay on here, probably until the breakup, to look after the old folks."

"Then where do I fit in?" I questioned with a sudden feeling of homelessness.

"You fit in very neatly," he said as he listened to my heart action. "I'd the Commissioner on the wire this morning and he agrees with me that this country owes you a berth. So you get the school job at Matanuska."

It took some time for this to sink in.

"When?" I asked.

"As soon as you get sense enough to take care of yourself," he said with a barricading sort of curtness. "I told you to rest up, after your fire shock, and you didn't do it. So roll up in that bunk and stay there until you get a release from me."

He stopped in the doorway, with his dog-eared old medicine case in his hand, as I none too willingly shook out the blankets of my floor bunk.

"And there's a long-legged engineer waiting outside to see you," he added as he watched me dutifully crawl into my bunk. "But ten minutes is his limit, remember."

I had my second shock to digest. For the waiting visitor was Sidney Lander.

He stood very tall in that small office-surgery. And my appearance must have startled him a little, since he stared down at me, for a full half-minute, without speaking.

"Are you all right?" he finally asked. I had to laugh a little at his solemnity.

"Just a little scorched around the edges," I said with an effort at levity. But my heart was beating a trifle faster than it should have been.

"I flew over, as soon as I heard," he rather clumsily explained. He looked out the window and then back at me. "That was good work, saving those children."

"But I lost my eyebrows," I reminded him.

Lander walked to the window and back.

"We've at least saved those citizenship papers," he announced. I've shown them to John Trumbull," he explained, "and Trumbull claims they're not backed up by the records. That led to an argument that ended in a split-up. The Chakitana Development Company has lost its field engineer."

"What are you going to do?" I asked.

His laugh was curt. "I was tying up with the Happy Day outfit," he explained. "But Trumbull's just trumped my ace by buying up the Happy Day."

"Does that mean you're going outside?" I asked, trying to make the question a casual one.

"Not on your life," was his prompt reply. "We've got to wait until the records show who's right in this."

"But that's my problem," I objected.

"I happen to have made it mine," he retorted with an unexpected light of battle in his eyes.

### CHAPTER VII

I began to understand the meaning of what they call "the deep cold" before I set out for Matanuska. For the snows of midwinter soon buried the ruins of our lost school. The storms along Alaska's one stretch of railway also brought slides and broken snowsheds enough to block the line and keep trains from moving for over a week.

That cloud had the silver lining of giving me a chance to make over my nondescript wardrobe, to which big-hearted Katie added a sweater of Scotch wool and a pair of wolf-

skin gauntlets, a trifle over-sized. She was, I think, genuinely sorry to see me go.

So when traffic moved again and I mounted my day coach I found it crowded to the doors with leather-faced old sourdoughs and cud-chewing trappers and Mackinaw-clad loggers, along with a homesteader's wife who carried an undersized pig in a slatted crate.

I wasn't sorry when the conductor, pushing his way through that overcrowded day coach, blinked down at my still heat-blistered face and said: "Next stop Matanuska, lady."

"Could you tell me," I asked one of the men at the station, "where I'd find Mr. Bryson, Mr. Sam Bryson?"

His face, when he peered up at me, impressed me as both sour and sardonic.

"I'm Sam Bryson," he said.

"The school superintendent for this district?" I persisted.

"I be," he retorted, plainly resenting my incredulous stare. "And ain't it fit and proper, seein' I happen to own that doggoned schoolhouse over there?"

I meekly acknowledged that it was. And with equal meekness I

polished up a spell on her readin' and writin'. And if you ain't willin' to do your teachin' on the wing that-away, until this valley gets a real schoolhouse rasted together, I guess, lady, you're mushin' up the wrong trail."

There was no mistaking the finality of that statement.

"But where am I to live?" I asked as I stared at the snow that stood so white between the gloomy green of the spruceclands.

"We was figgerin'," he explained, "on settin' you up in the old Jansen shack. That's just over the hill there behind that tangle o' spruce. But you'd sure have some tidyin' up to do afore you got set there." He looked with a frown of disapproval at my sprawl of luggage. "Bout the best thing for you to do, lady, is to leg it over to the Eckstrom farm and see if they'd take you in for a day or two."

I had, however, no desire to go wandering about that snowy world asking strangers to take me in. I wanted my own roof over my head. And I so informed the morose Mr. Bryson.

Just then I became conscious of a strange figure making its way down the opposing hillside.

It was a man carrying the carcass of a deer, a ragged and shambling man with a rifle and a tined head above his stooping shoulders. It was Sock-Eye Schlupp.

"I'll be hornswoggled if it ain't Klondike Coburn's gal," he said. "What're you doin' back in these parts?"

I told him why I was there.

"Where you goin' to bunk?" he demanded.

"They tell me I'm to live in the Jansen shack," I explained.

"They're plumb locoed," said Sock-Eye. "You sure can't den up in that pigsty."

"I'm north born," I reminded him. "Mebbe you are," he retorted. "But this is a plumb lonesome valley for a chalk-wrangler t' take root in. I reckon you'd better come along t' my wickypup until things is ready for you."

That, I told him, would be out of the question.

"I s'pose you know young Lander's swingin' in with me?" he said with the air of an angler adjusting a gaudier fly.

That, I knew, made it more than ever impossible. "And if that Jansen shack's not ready, I'll have to make it ready."

"Quite a fighter, ain't you?" he observed.

After a moment's silence, he added: "I'll give you a hand over t' that lordly abode o' yours."

He left me standing there, to return, a few minutes later, with a hand sleigh borrowed from the station agent. On this, with altogether unexpected dispatch, he piled my belongings. Over them he draped the deer carcass, thonging the load together with a strand of buckskin.

"Let's mush," he said.

I took a hand at the towing line, and, side by side, we made our way along the trodden snow, as crisp as charcoal under our feet. The valley seemed strangely silent. But I felt less alone in the world with that morose old figure beside me.

"Why is Lander swingin' in with you?" I asked.

"Seem' this valley ain't bristlin' with hotels," answered Sock-Eye, "he deemed my wickypup good enough for a college dude until they could build him up-to-date livin' quarters at the Happy Day."

"But I thought outsiders bought up the Happy Day," I ventured.

Sock-Eye stopped to gnaw a corner from his chewing plug.

"They sure did," he admitted. "And left young Lander out on the limb. But, as far as I kin make out, that hōmber ain't no squealer. And I reckon Big John Trumbull'll find him as full o' fight as a bunch o' matin' copperheads."

We went on until we came to a solitary small figure standing knee-deep in the roadside snow. It proved to be a Swede boy in an incredibly ragged Mackinaw, with a blue woolen scarf wrapped around his waist as high as his armpits. His eyes, I noticed as Sock-Eye asked him about a short cut to the Jansen shack, were even bluer than his encircling sash.

"But ol' Yansen ban dead," he announced. "He ban dead of the flu over three months ago."

"Which same makes room for you, little cheeckako," snorted my grim-eyed trail breaker.

But I stopped to ask the sash-wrapped youth his name. I liked the feeling of warmth he carried under that cocoon of wool and rags.

"Ah ban Olie Eckstrom," he said with the friendliest of smiles.

It wasn't until we came to the edge of a clearing that Sock-Eye stopped for breath.

"There be your wickypup," said Sock-Eye, with a wave of his mittened hand.

## GOOD REASONS WHY QUINTUPLETS

use MUSTEROLE for CHEST COLDS

Mother—Give YOUR Child This Same Expert Care!

At the first sign of a chest cold the Quintuplets' throats and chests are rubbed with Children's Mild Musterole—a product made to promptly relieve the DISTRESS of children's colds and resulting bronchial and croupy coughs. Relief usually comes quickly because Musterole is MORE than an ordinary "salve." It helps break up local congestion. As Musterole is used on the Quints you may be sure you are using just about the BEST product made. Also in Regular and Extra Strength for those preferring a stronger product.

Qualities of Prayer  
Prayer is the believer's comfort and support, his weapon of defense, his light in darkness, his companionship in solitude, his fountain in the desert, his hope and his deliverance.—Van Dyke.

## AROUND THE HOUSE

Gas ovens will not rust if the oven door is left open a few minutes after gas has been turned off.

In setting table for guests allow 24 to 30 inches for each person if you want them to be comfortable.

If water is spilled on the leaf of a book, put leaf between two blotters and iron first on one side, then on the other. Leaf will not crinkle.

Keep small objects such as buttons, marbles and pins off the floor and away from small children.

Shrubby should be pruned in the late winter rather than the spring. Old stems should be pruned out as near the bottom as possible rather than new shoots snipped off.

To keep a floor in good condition requires more than watchfulness. Besides a regular monthly waxing for the whole room, those areas which are walked over the most should be waxed more often.

Prunes should be stewed in the water in which they have been soaked.

If you have the occasion to cut marshmallows, dip your kitchen scissors in powdered sugar before each whack and there will be no sticking.

To prevent the inside of the cover of a catsup bottle discoloring, coat it with paraffin.

Art of Hoping  
Patience is the art of hoping.—Vauvenargues.

## NAGGING BACKACHE

May Warn of Disordered Kidney Action. Don't Neglect It!

Modern life with its ceaseless hurry and worry, irregular habits, improper eating and drinking, exposure, contagion, whooping, keeps doctors busy, hospitals crowded. The after effects are disturbing to the kidneys and oftentimes people suffer without knowing that disordered kidney action may cause the trouble.

After colds, fever and similar ills there is an increase of body impurities the kidneys must filter from the blood. If the kidneys are overtaxed and fail to remove excess acids and other harmful waste, there is poisoning of the whole system.

Symptoms of disturbed kidney function may be nagging backache, persistent headache, dizziness, getting up nights, swelling, puffing under the eyes, a feeling of nervous anxiety and loss of strength and energy. Other signs of kidney or bladder disturbance sometimes are burning, smarting or too frequent urination.

In such cases it is better to rely on a medicine that has won world-wide approval than on something less favorably known. Use Doan's Pills. They have been winning new friends for more than forty years. Be sure to get Doan's, Sold at all drug stores.

By *Eleanor Howe*

THIS PUDDING FAIRLY SHOUTS 'TRY ME!' (See Recipes Below)

### ADD ONE CUP OF IMAGINATION

Once upon a time a friend told me that to her the addition of "one cup of imagination" was the most important ingredient that could be used in any recipe. So whole heartedly do I agree with her that today I want to give you a number of recipes to which that ingredient, imagination, has been added. In fact, so successfully has this been done that each of these recipes is different, yet each is delicious — each fairly shouts "Try me!"

These recipes, moreover, have been chosen as luncheon favorites because, of all of the meals of the day, the family luncheon some way seems to be most neglected.

Take the baked apricot and tapioca pudding for example; have you ever before thought of serving a coffee sauce with such a pudding? Yet the blend of flavors which results from combining this particular pudding with this particular sauce is really delicious—long to be remembered.

#### Sausage Stand-Up.

(Serves 4 to 6)

- 1 8-ounce package spaghetti (broken small)
- 1 pound breakfast sausages
- 3/4 cup minced onion
- 1 clove garlic (minced)
- 4 tablespoons parsley (finely chopped)
- 1 can tomato paste (8-ounce)
- 1 cup water
- 1/4 teaspoon salt
- 1/2 teaspoon pepper
- 1/2 teaspoon sugar
- 3/4 cup grated cheese

Cook broken spaghetti in boiling water (6 cups) (1 teaspoon salt per quart water) until tender, about 20 minutes, then drain. Place sausages in skillet, add 1/4 cup of water and cook until nicely browned, about 15 minutes. Sauté onion, garlic, and parsley in sausage fat for 5 minutes, until onions are yellow and transparent. Remove from fat and combine with tomato paste and seasonings. Combine spaghetti with tomato sauce and turn into buttered casserole. Tuck sausages into spaghetti in upright position, so that just the end of each sausage shows. Sprinkle grated cheese over top and bake in moderate oven (350 degrees Fahrenheit) for 20 minutes.

#### Baked Apricot and Tapioca Pudding

(Serves 6 to 8)

- 1/2 cup pearl tapioca
- 1/2 cup evaporated apricots or 2 cups canned apricots
- 1/2 cup sugar
- 1/4 teaspoon salt
- 2 teaspoons lemon juice
- 3 cups warm water
- 1 tablespoon butter

Soak pearl tapioca in cold water, to cover, for one hour. Wash apricots and place in a well-greased 1 1/2-quart heat-resistant glass casserole. Add sugar, salt, lemon juice and warm water. Drain tapioca; stir it into the fruit mixture in casserole and dot with bits of butter. Cover the dish and bake in a moderate oven (350 degrees Fahrenheit) for 1 hour or until the tapioca parts are translucent. Cool, top with whipped cream, if desired, and serve with coffee sauce.

#### Coffee Sauce.

- 1/2 cup sugar
  - 1 1/2 tablespoons cornstarch
  - 1/4 teaspoon salt
  - 1 cup hot coffee, regular strength
  - 2 tablespoons butter
  - 1/4 teaspoon nutmeg, if desired
- Blend sugar, cornstarch and salt in the upper part of a 1-quart heat-resistant glass double boiler. Add coffee and cook until it thickens, stirring constantly. Blend in butter and nutmeg. Cool and serve with apricot and tapioca pudding.

#### Hot Dogs in Blankets.

When baking fresh yeast rolls, wrap strips of the dough around wieners, allowing the ends to stick out of their dough blanket. Give the dough time to double in bulk and bake as usual. These hot dogs in

blankets should be served piping hot.

#### My Style Spaghetti.

(Serves 5 to 6)

- 1/2 cup olive oil
- 1 small onion, chopped
- 1 green pepper, seeded and chopped
- 1 pound ground beef
- 1 1/2 teaspoons salt
- 1 cup tomato puree
- 1 tablespoon Worcestershire sauce
- 1/2 cup grated cheese
- 1 cup canned corn
- 1/2 package spaghetti, cooked

Heat olive oil in frying pan and add onion, green pepper and ground beef. Fry until brown and then add the salt, tomato puree, and Worcestershire sauce. Stir in the grated cheese together with the corn and cooked spaghetti. Place in buttered baking casserole and bake in a moderate oven (350 degrees Fahrenheit) for approximately 40 minutes.

#### Honey All-Bran Dozen Cookies.

(Makes 12 dozen cookies)

- 1/4 cup shortening
- 1/2 cup honey
- 1/2 cup sugar
- 1 egg
- 1 cup All-Bran
- 1 1/2 cups flour
- 1/2 teaspoon salt
- 1 teaspoon baking powder
- 1/4 teaspoon soda
- 1/2 teaspoon cloves
- 1 teaspoon cinnamon
- 1 cup seedless raisins

Blend shortening, sugar and honey thoroughly. Add egg and beat until creamy. Add All-Bran. Sift flour once before measuring. Add salt, baking powder, soda, cloves and cinnamon. Combine with raisins. Add to first mixture and beat well. Drop dough by teaspoons on lightly greased baking sheet about 2 1/2 inches apart. Bake in moderate oven (350 degrees Fahrenheit) about 12 to 15 minutes.

#### Cheese Soup With Rice

(Serves 5)

- 1 cup cooked carrot (very finely diced)
- 4 cups milk
- 1 tablespoon chopped onion
- 2 tablespoons butter
- 2 tablespoons flour
- 1 cup grated cheese
- 2 tablespoons chopped pimiento
- 2 egg yolks
- 1 teaspoon salt
- 1/4 teaspoon white pepper
- 1/2 cup rice (cooked)

Add carrot and onion to milk and scald. Melt butter in saucepan, add flour and blend to a smooth paste. Add milk gradually to flour mixture, stirring all the time. Add cheese, salt and pepper, stirring until cheese is melted. Pour over well-beaten egg yolks, stirring constantly. Serve at once with spoonful of hot cooked rice.

#### Mexican Spaghetti.

(Serves 8 to 10)

- 1/2 pound spaghetti
- 1 can peas (No. 2)
- 1/2 pound raw ham (ground)
- 1/2 pound American cheese (grated)
- 1 can tomatoes (No. 2)
- 1 cup green pepper (cut fine)
- 1 tablespoon pimiento (cut fine)
- 2 tablespoons butter (melted)
- 1 teaspoon paprika
- 1 teaspoon salt
- 1/2 teaspoon pepper

Cook the spaghetti in boiling, salted water. Drain. In a baking dish arrange layers of spaghetti, peas, ground ham and cheese and combine tomatoes, green pepper, pimiento, butter, and seasonings. Pour over the spaghetti. Cover with grated cheese and top with bacon strips. Bake in a moderate oven (350 degrees Fahrenheit) for one hour.

#### Refrigerator Hamburgers.

(Serves 5)

- 1 pound hamburger
- 2 tablespoons finely minced onion
- 3/4 cup chopped green pepper
- 1 teaspoon salt
- 1 tablespoon prepared mustard
- 1 tablespoon horseradish

Mix all ingredients together, and shape into a roll 2 1/2 inches in diameter. Let stand in the refrigerator several hours or over night. When ready to use, cut in slices 3/4 inch thick and fry or broil as for regular hamburgers.

## IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D.  
Dean of The Moody Bible Institute of Chicago.  
(Released by Western Newspaper Union.)

### Lesson for March 9

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

#### CHRIST REJECTED

LESSON TEXT—Luke 20:19-20.  
GOLDEN TEXT—Blessed are ye, when men shall revile you, and persecute you, and shall say all manner of evil against you falsely, for my sake.—Matthew 5:11.

Rejection of Christ by Israel as a nation is pictured in our lesson. We know how the judgment of God has come upon that nation because of its failure to receive Him and believe on Him. God had to take the vineyard from them and give it to others (v. 16).

Men today reject Christ, and we find that the sin which causes them to do so and the judgment which follows are essentially the same as in the case of Israel. There is a reason for Christ rejection, and there is a certain time of answering to God for that sin.

#### I. Why Men Reject Christ (vv. 9-15).

Self-will, the very heart of all sin, underlies every refusal to let Christ have His rightful control over our lives. There are two forces which may dominate and direct my life—God's will or self-will. Just as love of God is the essence of all virtue (Matt. 22:37-38), so love of self is the essence of all sin.

The leaders of Israel, both political and religious, had one great fear which dominated all of their thinking concerning Jesus; namely, that they would lose all their authority if He were recognized by the people for what the leaders must have known Him to be—the Son of God, and their rightful King. God had entrusted to them as underservants the care of His vineyard, and in their wicked greed they had determined to have it all for themselves, even though it meant destroying the Son and rightful Heir.

We need only a moment's reflection to realize that this is exactly what occurs every time someone now rejects Christ. It is because in self-will that person decides that the one who has a right to his life is not to have it. There are many sins, but this is the root sin of them all.

#### II. What Happens When Men Reject Christ (vv. 16-18).

Judgment. It came to Israel, as all history even to this dark-day so strikingly testifies. Just so, it will come to every one who rejects Christ.

It is not a slight matter of comparative unimportance whether a man accepts or rejects Christ. He likes to make it appear so, saying that it is just something about the local church that he does not like, or the preacher does not exactly suit him; or perchance he hides behind the time-worn excuse that there are hypocrites in the church, when in doing so he proves that he is himself the worst of hypocrites.

All of these excuses do not hide the fact that in self-will he is rejecting God's will for his life in Christ. At the end of that road he will have to meet the judgment of God upon sin. God reads the heart, knows the falsity of every excuse and the real rebellion against Christ, which may be hidden from fellow men by smooth words and polite manners.

Tear off that mask, unbelieving friend who may read these words. Face the truth that you are refusing Christ's authority because you are self-willed, and look squarely at the fact that "it is appointed unto men once to die, and after this cometh the judgment" (Heb. 9:27, R. V.).

#### III. How Men Reject Christ (vv. 19, 20).

Deceit and treachery of the vilest kind marked the rejection of Christ by Israel's leaders. They feared the people, and lacking the authority to condemn Him themselves they had to obtain some evidence under which the Roman law would have to sentence Him. It is significant that they could not find one bit of real evidence against Him and had to proceed by trickery and treachery.

Christ rejection in our day is just as deceitful and treacherous, although it does not often appear so outwardly. As a matter of fact, the leaders of Israel were outwardly polite and careful. They sent spies who could "feign themselves to be just men." They "feared the people" and did not dare to speak openly against Him.

Men cover up their motives today. Some would wish to excuse themselves on the ground of lack of knowledge, but in our land at least that is largely their own choice. Others might say they have only been careless, but on what ground can one justify neglect of a life and death matter? Some blame the sins of professing Christians, but this is an individual matter—you must answer for your own soul.

No matter which way man may turn in seeking for an excuse for his rejection of Christ, if he is honest he will have to admit that he has dealt deceitfully with God. When he does that, he is ready in repentance and faith to take Christ as his Saviour and Lord.

## Silk Prints for Spring Feature Polka Dots, Fruit Motifs, Color

By *CHERIE NICHOLAS*

IN THE springtime fancy turns eagerly to "what's new" in silk prints. This season the story is more fascinating than ever with tales of daring new colors and designs that are writing romance and drama in every chapter.

There's a mad rush for red, a play-up of fruit motifs in realistic colorings on white background, a new array of shantung silks, either monotone or printed; a repeat on polka dots with special emphasis on twin prints; and a predominance of patriotic colors. You'll see a record-breaking number of prints that key beige and brown to tangerine, bittersweet and kindred colors, a strong accent on bizarre South American colors, especially purples and reds and Peruvian pink, a hand-paint technique used for flowery party-dress prints—and here we "pause for identification" of some of the newest print fashions as shown in the illustration herewith.

A sure way of being fashion-right in selecting the new print frock for spring is to think in terms of silk shantung, which is exactly what the designer did in creating the neat and attractive dress to the right in the picture. Styled the South American way with its bolero silhouette and general detail, this printed plaid silk shantung dress is the very embodiment of style at a new high.

One of the delights of shantung is the lovely pastel monotoones that are favorites for dresses and suits, tailored to a nicety for both sports and daytime wear. The dress to the left in the group is made of a pastel blue shantung with gay dotted shantung for the turban and bag. If you look close, you will see the tip edge of a matching polka dot parasol. The dress under a monotone wool coat

makes a perfect greeting for spring. You'll be carrying the smart parasol ever so proudly when summer comes.

Navy prints with navy wool top-coats or long dramatic capes are "tops" in fashion. Stylish accessories are a hat and bag of plaid silk in colors as mad and merry as you please. You can either make, (patterns are easily available) or buy ready made, these enlivening two-somes.

Two designers are sounding the patriotic note by introducing wide bands of red and white crepe silk in the lining. You can do the same thing with the vivid South American colors—introduce them in linings, or in the yoke of the dress.

Look about in the silk displays and you will be impressed with the number of prints that couple pink with black or with navy. These pretty ladylike prints invite gracious styling, such as has been given to the gown centered in the group pictured. This dainty frock is made on slim lines with novel petal pockets made of self-print. There is increasing interest shown in pockets throughout current costume design. They contribute great charm to simple print daytime dresses. The pink hat worn with the frock pictured complements the dress. It has a crochet bumper edge—crochet touches are ever so chic—and what is most apropos is that this hat sports a knitting needle trim. Wear pink or black suede gloves with this outfit for proper accent.

(Released by Western Newspaper Union.)

### Smart Simplicity

Statistics show that there is an increase in yardage sales owing to the fact that a growing number of women are taking up home sewing. This, they say, may be largely attributed to the fact that almost every community nowadays has a sewing center where one can learn at little or no expense the short-cuts and tricks of the trade. The dress pictured can be made up easily and at minimum cost. The material need not be expensive. Why not learn to make your own clothes? Some of the rayon mixtures in pastel colors would be practical for a beginner to start with, and the new gabardines are lovely and wearable. The pattern for this dress calls for soft gathered detail and is a type that can be easily made at home.

### Cape, Suit Ensembles

#### In Spring Collections

Considerable emphasis is being placed on cape costumes in the advance spring showings. The cape formula is being worked out in ways most fascinating. For example, a charming costume turned out by a noted designer plays up bright and neutral colors in the latest approved manner. The suit of soft gray wool consists of an all-round box-pleated skirt with a dressmaker-styled jacket that is hiplength and has two huge patch pockets. Now comes the stunning cape that tops this neat suit! It is full length, made of red herringbone weave, lined with lime green silk.

A good rule to follow might be "a cape with every costume" so popular is the cape idea growing. One of the newest outcomes of the cape vogue is that many of the early spring print silk frocks are worn with long cloth capes lined with the identical silk of the dress.

### Modern Handbags Gain

#### Slick Smooth Efficiency

What handbags have lost in the absence of French models, (which formerly inspired 80 per cent of our handbag styles) they are gaining in improved construction, better materials, and interesting tricks which make them newly efficient. One trick is a slot which feeds a nickle outside the bag. Another is a key clip on a light for inside the handbag—so that keys may be located instantly. Another is the gluv-guard, which anchors one's gloves to one's handbag.

Handbag interiors are gaining a great deal of attention. More and better planned pockets are the rule. And one important new detail in interiors is a special pocket zipper. When you slide your hand into a pocket protected by this fastener, there are no rough teeth to get past—the zipper is kind to nail polish. It slides like a streak and adds ornamentation, as well as safety to American-made handbag interiors.

## New Luxury Model Shown by Chevrolet

Modern streamline contours characterize the landau-trim, and the richness of its interior appointments, make the Six-Door Sedan with new Fleetline Body by Fisher—the most luxurious Chevrolet ever built by Chevrolet.

flocks of sheep indicate ewes are losing their lambs prematurely. C. L. Cole of the Michigan State College animal husbandry department recommends supplies of potassium iodide. All of the complaints are identical in indicating the ewes need iodine. Feed seems to have been adequate. An iodine deficiency is readily remedied. In many cases the remedy may be too late to overcome trouble this year but for flocks which will be late in lambing there is still time to prevent some of the trouble. One ounce of potassium iodide can be mixed thoroughly with 100 pounds of salt. Another way of supplying the iodine is by mixing an ounce of the potassium iodide with 100 pounds of equal parts of salt and bone meal fed free choice to the pregnant ewes. All pregnant farm animals should to Professor Cole. Michigan happens to be an iodine-free area. Grain and forage grown in the state lack the supply needed by livestock. Thus it always is safer to include a recommended amount of the potassium iodine in animal rations since the iodine is necessary for proper nutrition for the unborn young. B. C. Mellencamp, County Agr'l Agent.

Although 26 other states have more land devoted to agriculture, only 13 have greater farm cash income. As a milk-producing state, Michigan stands eighth, with nearly 1,000,000 dairy cattle.

### 'A State with Riches Blest'

**WE LIVE** in a great country. But among all the 48 states there is none that can lay claim to more varied and abundant riches of field and orchard, farm and mine, than our own Michigan. Here an unequalled combination of soil and climate, mineral deposits, waterways and harbors, and the progressive spirit of five million people, has enabled agriculture and industry to flourish together, each aiding the development of the other.

This is the first of a series of informative advertisements in which the Michigan Bell Telephone Company will deal with the immense natural resources of the state, affecting the daily lives of all our citizens.

The telephone has contributed vitally to Michigan's growth. Just as good roads, cars and trucks have made it easier to transport our products, so the telephone has aided the development of our resources by shortening time and distance. It brings producer, distributor, manufacturer and consumer closer together—minutes apart instead of days—and does it so cheaply that millions of dollars are saved annually.

Iron ore being loaded on a Lake freighter. Rated second among all states in the production of iron ore, Michigan is also rich in coal, copper, salt, gypsum, oil, gas, marl and limestone. Deep-water harbors along a 1600-mile shoreline have aided the development of Michigan's resources.

Commercial fishing gives employment to thousands of Michigan men. They market 29,000,000 pounds of fish annually—more than a third of the U. S. Great Lakes catch. Michigan forests produce about 300,000,000 feet of sawn lumber a year, besides pulpwood for paper, tan-bark and other products.

## MICHIGAN BELL TELEPHONE COMPANY

No. 1 of a series showing how efficient, low-cost telephone service speeds the development of Michigan's resources.

### Council Proceedings

Regular meeting, common council, City of East Jordan, held on the 3rd day of March, 1941.  
Present: Alderman Bussler, Maddock, Kenny and Mayor Healey. Absent: Aldermen Sinclair, Malpass and Shaw.  
Minutes of the last meeting were read and approved. The following bills were presented for payment:  
Mich. Public Service, lights and power \$235.86  
Mich. Bell Tel. Co., service 18.64  
B. Milstein, insurance 30.23  
State Bank of E. J., ins. 10.00  
Malpass Coal Co., coal 28.75  
John Kenny, coal 52.00  
W. A. Porter, mdse. 191.75  
C. J. Malpass, mdse. 1.20  
Wm. Rebec, axles and bearings 15.50  
John LaLonde, H. Saxton acct. 5.00  
Julia Gunther, gas and oil 18.07  
B. J. Beuker, medical services 7.00  
Parker Motor Freight, freight 36.18  
S. P. Riness, wood 44.00  
Robt. Proctor, lumber 255.00  
Norman Bartlett, gravel 13.44  
Harold Henderson, labor 4.00  
John Whiteford, labor 2.00  
Win. Nichols, labor 35.20  
Wm. Chak, labor 9.00  
Geo. Wright, salary 10.00  
Harry Simmons, salary 62.50  
Henry Scholls, salary 10.00  
G. E. Boswell, sal. and exp. 63.00  
Wm. Aldrich, salary and exp. 35.00  
Moved by Kenny, supported by Maddock, that the bills be paid. Carried, all ayes.  
Moved to adjourn.  
WM. ALDRICH, City Clerk.

MAT SERVICE — Those having mats for casting MUST have these in the office Tuesday noon for the current week's issue.  
LOCALS — Please phone your local items to No. 182 where Mrs. Sherman Conroy — who covers these columns — will care for them. These should be in not later than 6 o'clock Wednesday night.  
Your Herald publisher is endeavoring to get each week's issue in the mails on Thursday afternoons. Your co-operation in getting news and advertising copy in our hands as early in the week as possible will be greatly appreciated.

## Bermuda Rigid War Outpost

### British Staff Is Kept Busy With Passenger, Cargo And Mail Tests.

HAMILTON, BERMUDA.—A staff of some 800 British army and government authorities is stationed on this island as a final check against spying and shipments to and from the United States that might damage the British war cause.  
Honeymooners and vacationers who formerly flocked to Bermuda in peace time, have been replaced by censors, secret service agents, customs officials and army authorities intent on using this gateway to the Western hemisphere as a marine outpost for Great Britain's war against the Axis powers.  
Co-operation of the United States government—which instructed the Pan-American Airway's Clippers and ships of the American Export Lines to submit to examination on their trips to and from Europe—is signaled by the American sailors who are here to establish a defense naval base near St. George. The base was one of the many acquired in the United States-British destroyer trade.

**Great Amount of Detail.**  
However, the job of the contraband control and the censors is staggering in proportion. These officials must examine passengers, cargo and mail of every airplane and ship that enters a Bermudian port.  
Passengers bound for the war zone must give up any soap, matches, sugar, coffee, silk and other commodities declared as contraband under rulings of the British blockade. An Axis power citizen traveling on a special United States government visa—as was the case of Italian officials who recently returned to their country from the World's fair—were forced to give up all their money except bare traveling expenses. Gold and jewelry also was confiscated. A French World's fair official returning to his home in occupied France had some 25 pounds of chocolate, sugar, coffee, and a quantity of women's silk stockings taken from him. A French marquis, also returning to France, had to give up a quantity of match folders inscribed "Help Us to Help France" to the British.

Major problems of the British authorities here is determination of the status of persons traveling to unoccupied France and to such countries as Holland, Denmark, Hungary, Belgium and Sweden. These nationals, returning to nations under German domination, constitute a constant problem for the British secret service.

**Some Travelers Detained.**  
Although no official data is available, it is known that several persons have been detained when they attempted to pass through the Bermuda control. If they are found to be enemies of the British, they are interned either in one of the islands here or sent to a Canadian camp.  
Persons who have property confiscated here receive receipts for it in case he wishes to appeal to the British contraband control for its return. However, such appeals will take years in settlement and for property of little value, little protest is made.  
Bermudians still are attempting to picture their islands as an American vacation spot despite the war. The drop in vacation revenue—which annually runs into millions of dollars—has seriously affected Bermuda's economy.

### Dictator Swan in Zoo Demoted and Isolated

NEW ORLEANS.—Audubon Park zoo officials have a way of dealing with dictators.  
Mike, a great white swan who has controlled the actions of both men and birds on the park lagoon for several years, has been sent into "exile" so the traffic may ply the pool once again.  
Mike, the egocentric, dominated the lagoon with his huge wings. He drove other birds from the water, and invariably fought the oars or paddles of boats by flapping his wings.  
Frank Neelis, the park superintendent, had Mike removed to a small pool on the opposite side of the park, and supplanted him with five new swans.

### Missing Your Appendix? Better See This Doctor

MONTICELLO, N. Y. — Any one who has ever mislaid an appendix after its removal has an unusual opportunity to replace it with one that has withstood the test of time. Dr. John A. Miller, who recently retired after 53 years as a country doctor, has 136 of them, preserved in alcohol. They are souvenirs of, in most cases, kitchen-table surgery.

### Museum Built in Style Used by Mound Indians

MOUNTVILLE, ALA.—A museum designed after the architecture of the ancient and little-known Mound Builders of Alabama has been opened to house situ burials and artifacts found at the mound village here.  
A burial, left exactly as it was uncovered, is located under each wing of the building and the center section contains cases which hold hundreds of relics of the tribe.
