WEEKLY NEWS ANALYSIS By Edward C. Wayne

1

Speed Up of U. S. War Production And Reports of Russian Victories Cheer Allied Nations, Although Axis Gains in Malaya and Philippines

(EDITOR'S NOTE-When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)

Two government officials "on edge"? JESSE JONES-RFC administrator and secretary of commerce, pic-Representative Dingell of Michigan charging that the army was building new production plants while many others were idle.

THE WAR: Up and Down

The war had become an up and down affair, with the Russians win-ning all along their huge front, the British gaining victories in North Africa with the Germans on the run, and the Japanese generally in the the commander in the Singapore de-ascendancy on the Philippine and fense, made the statement that the

Such was the situation as there was no longer any question but that the large and well-equipped army of the United States was on the move to join battle actively in the war, though the detailed where-

abouts of that participation was still a closely guarded secret. Estimates of when the tide of the battle of the ABCD forces against the Japanese in the southwest Pacific would change varied considerably

Some observers felt it would be weeks, others months, some who were more pessimistic felt it would be a year before enough American pressure could be brought to bear to produce a definite change in the

battle. But that victory would be won in the end, nobody seemed to doubt. They watched the United States mov-ing troops and ships, producing faster and faster more powerful arma ments, moving to put new soldiers and sailors into uniform, and could see but one result, eventual victory, perhaps in 1943.

RUSSIA:

Brightest Spot

The Russian front continued to furnish the brightest picture fromthe Allied standpoint. - Moscow had begun to report mass On Home Front

surrenders of German troops without fighting. The Reds also report-ed large masses of Nazi soldiers in adopting resolutions to speed up rapid retreat to the southwest from their effort, and some factories pro-

hiding in small places, and that at times furious fire would come from directions in which it did not seem possible_that soldiers could find

The picture was not generally opti-mistic in Malaya, but it was re-

PRODUCTION:

the upper central front, abandoning much war material. The sieges of Sevastopol and

Löningrad- have definitely been broken, and their garrisons had swept out beyond the city borders to engage retreating Germans and to attempt to form junctions with other Russian troops

The radio broadcasts picked up from Germany tacitly admitted the situation was serious. One described it as a "crisis, but one with which Adolf Hitler will know how to deal." Hitler was believed to be planning

some sort of major coup, but the nature of it could not be guessed at. He also was variously reported as facing tremendous internal pressure as a result of his break with Von Brauchitsch.

There also had been reports that crack German reinforcements were being flown by gliders to the Russian front to attempt to bolster the cracking Nazi defenses.

MAC ARTHUR:

Tough

Only fragmentary reports at wide intervals, testimony to the increas-ing difficulties of communications, were coming from the Philippines. Some military commentators saw hope for General MacArthur and his defending forces if they could hold out for three weeks more,

But this was admittedly problematical. How much in the way of supplies and munitions the MacArthur army had was one question. Another was how long these supplies and munitions would continue to get to him.

Admittedly the Filipino-American troops had all the advantage of ter-rain and superior position. The Marivales mountain range, which they were defending, was lofty, provided much natural fortification, and tacti-cally was the planned line of de-fense from the outset. This worked out as planned.

ducing war materials were reporting as much as 70 per cent added: output since the declaration of war Ships of war were being launched and put into commission as rapidly as possible. The Liberty ships were going into the water at scores of shipyard ways.

Wright Field; Dayton, Ohio, received several large new gliders for test, gliders said to have a wingspread of 80 feet, probably capable of transporting soldiers in large numbers

Swiftly they had been put under test, their pilots from the new schools which are training men to manage these motorless ships, which possibly may be towed in "trains" to be released over territory in which it is desired to land troops. In the invasion of Crete, Germany used hundreds of them, reportedly landing 15,000 troops that way, also large numbers of light field guns and ammunition.

The newest glider training school is at Twenty-Nine Palms, Calif. turning out classes every four weeks, the students being already graduate pilots.

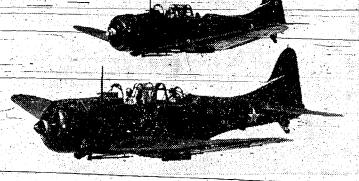

The gliders were so large that in transporting them from factory to Wright field by trailer truck they had to be broken into two assemblies.

PRICES:

The-price control bill finally was passed, but in such a form that it was said to have been a major defeat for the administration.

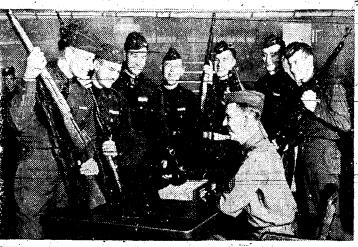

Although the senate passed it 83 1, the farm-relief amendment passed only 55 to 31. As the bill went into conference it

provided, according to opposition senators, such possible farm price raises that the cost of living could reasonably advance 25 per cent before the price control administrator could do anything about it.

This U. S. navy photo shows group of dive bombers flying in close formation. Look out Nippon!

These Cadets Are Officers Now

There's good reason for the smiles worn by these young men as y surrender their rifles to the seated sergeant. They have just changed they surrender their rifles to the seated sergeant. They have just changed status from cadets to commissioned officers at Randolph field, "West Point of the Air." They don't need the drill rifles any more, and are plenty happy about it.

Little Pedro Hadhandia, seven Maria Rosa, seven, and her sister Anainda Rosa, nine, warm their hands as their arrive in New York. They came aboard an unidentified ship from some distant land. They are Americans, and await aid from Traveler's Aid society.

Generalissimo Chiang Kai-shek of china, supreme commander of all land and air forces of the United Nations operating in the Chinese theater of war against the Axis.

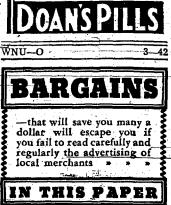

Pleasure Through Toil Pleasure comes through toil. When one gets to love work, his ife is a happy one.-Ruskin,

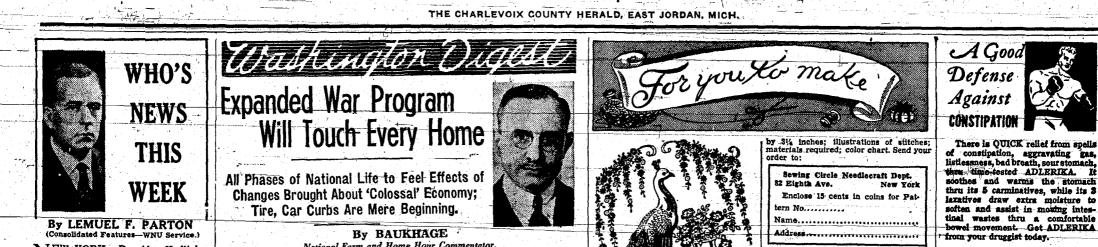

Watch Your Kidneys

Help Them Cleanse the Blood

. .

Help Them Cleanse the Blood of Harmful Body Waste Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to re-move impurities that, if retained, may poison the system and upset the whole body machinery. Symptoms may be nagging backache, persistent headache, attacks of dizzness, getting up nights, swelling, pullinese under the eyes—a feeling of nervous attricty and base of pep and strength. Other signs of kidney or bladder dis-ofder are sometimes burbing, scanty or too frequent urination. There should be no doubt that prompt freatment is wiser than neglect. Uss Doar's Fills, Doar's have been wining new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neightor!

NEW YORK .- Dr. Ales Hrdlicks, the anthropologist, once had a plan to measure the skulls of congressmen, in his studies of head-size Brain Indexers and contour Studying Skills, in their relution to intel-Ignoring Skulls ligence. The congressmen didn't like the idea and nothing came of it.

Studying skills, rather than skulls, Dr. Leonard Carmichael, president of Tufts college, gets better co-operation. In August, 1940, the government put him at the head of a committee of savants to work up a national brain index. They have compiled an index of several hundred thousand good brains.

This committee was known as the National Roster of Scientific and Specialized Personnel, and now there has been added to it a special committee on wartime requirements for specialized personnel, with Dr. Carmichael as chairman. The obvious function of the committee is to find good brains and recruit them. Since the first World war, the classical Binet-Simon intelligence quotient has gained by sundry repairs and betterments. The inquiry now covers not only the question oof whether we know much of anything but whether we have any sense.

In 1920, we saw an experiment in a progressive school in San Francisco which now seems pertinent to what Dr. Carmichael and his committee are trying to do. They picked a group of high I.Q. boys, of superior heredity and cultural hackground, and then they picked some less favored lads, of low I.Q. from the North Beach forsection. They gave each child a certain amount of money, told him to buy some thing, start trading and report gains or losses in two months. When the bell rang, most of the silk-stocking lads had lost their shirts and the North Beach mob had fanned its holdings up to sizeable juvenile fortunes.

From this, the pedagogs figured something like survival intelligence as distinguished from merely superimposed and possibly non-convertible cultural intelligence. It is un-questionably survival intelligence that Dr. Carmichael and his brainindexers are looking for, as their study has to do with particularized, specialized, useful, workable skills. Dr. Carmichael, one of the most distinguished of modern psychologists, was born in Philadelphia in 1898, and was educated at Tufts and Harvard, and taught at Princeton and Brown before becoming presi-dent of Tufts in 1938.

DOWN near Windy Gap, on the edge of Death Valley, we knew a big, dead-pan cow-puncher who doubled in dancing and fighting, and President Quezon who could dance down

WNU Service, 1343 H Street, N-W,

Washington, D. C. In less time than it takes to read this column a new airplane should be completed—that is, if the pro-gram outlined by the President in his message on the state of the Union is carried out.

That seems like a large order. It is. But this is what the President has planned for 1942: 60,000 new planes, 45,000 new tanks, 20,000 new anti-aircraft guns, 8,000,000 tons of merchant shipping. Since there are only 8,760 hours in the year, if the OPM is to meet the President's goals, planes will have to roll out factories at the rate of one every eight minutes, tanks at the rate of one every 11 minutes, antiaircraft guns at the rate of one every 25 minutes, and shipping at the rate

of 15 tons a minute. America's resources may be unlimited, but human comprehension is not. Ever since that message was delivered in congress, Washington has been straining in an attempt to comprehend those colossal figures. Already some of the effects are being translated in terms of human experience-you know if you have tried to buy a tire or an automobile. Other even more painful ex-periences are ahead. One of them is the unemployment which is coming while the civilian industry is being converted to defense production.

Small Plants Hit

It means that some 133,000 small plants will close their doors for good. They are too small to be converted. Their workers and supervisors, if they are competent, will be able to find employment elsewhere.

It means that thousands of sales men who sell, not merely refrigerators, ice boxes and juke boxes, vacuum cleaners and electric toys, but other things which we once thought were necessities will stop selling. They may have to take off their white collars.

A survey of some thousand middle sized manufacturing concerns now turning out defense products has been made by the labor department. It revealed that three-fourths of the lants were working on three shifts already. Remember that was before the President tossed off his new production figures and the OPM "raised its sights" to meet them. But in these plants it was found that the second and third shifts used only half the man-power employed in the first shift. Right there is a 50 per cent increase in employment. These were plants selected as typical.

Someone will have to fill those extra shifts and a great many others. It will mean that a lot of "brainworkers" will have to work their When a nation suddenly hands. turns over 50 per cent of its income to defense production, it means that the man in search of a job has less than half a chance at getting any other kind of work.

In our homes, the effect of war measures has already made itself felt. Wool is rationed already. That

National Farm and Home Hour Commentator

Third, sprays. Formaldehyde is a vital part of many sprays. Also, it is needed to disinfect stored grain and to remove smut and fungus from grain before seeding. But formaldehyde is necessary in the production of plastics to dissolve the woody material. And plastics! They are needed as substitutes for many essential metals.

Fourth, copper sulphate. There is no need to comment when you consider the part copper plays in war. When it comes to, rubber, the farmer, like everybody else is af fected. The difference is that some farmers are going to be making rubber the next few years.

Out in California the climate pro duces the best Gayule plants. And there will be acres and acres of these plants cultivated. It takes time-but some are already some growing. A two-year-old crop will produce 900 pounds of very good wubber per acre. The trouble is that you have to dig up the plant get the latex-it comes from the roots.

Then, of course, there is synthetic rubber, but I am not allowed to reveal the figures, which are going to play a lot more important part than many of our enemies think in our victory production. There are also the big cultivated rubber plan-tations in Brazil and Central America run by Ford and Goodyear, there is the wild rubber from the Amazon. And most important of all, there is the contribution that the most autominded people in the world are going to have to make—the privilege of not buying tires for America's 27,000,000 pleasure cars

The privilege of "not buying" going to be extended. There will be no more gadgets and there will be a lot less money to buy even the necessities when we pay our share of the bill for building the greatest war machine in history. A machine so big and so destructive that perhaps it will destroy war itself.

Weather Information And Broadcasting

The highly interesting yearbook just issued by the department of agriculture is devoted to climate and weather. It appears just when for the first time in American history it is worse than a crime to discuss the weather-that is if you talk loud enough to be overheard by enemy ears. A few weeks ago the navy department released an official communique severely blaming a commentator who mentioned the weather in Dakota. He gave out information which the navy said may have been the cause of increased subma rine activity in the eastern Atlantic. In Washington we are not permitto mention even yesterday's This ruling weather on the air. seemed a bit far-fetched to me. In commenting on the fact to an official I told the story of what happened to me when I was broadcasting from Berlin just after the war broke out. On a beautiful moonlight evening I blandly announced over the short

C H

UNION MADE

्राष्ट्र

Blends Dancing, or smack is because even with all our sheep

parts. Elsewhere, we have found this unique blend of talents only in Manuel Quezon, recently inducted into his second term as president of the Philippines.

Sr. Quezon negotiated for Philippine independence in the New York studio of Arthur Murray, the dancing master. Dancing is his art, his recreation and his driving passion. Four hours a day went to dancing when he was cutting the islands adrift—with second thoughts later. The first dancing shift was from 10 o'clock until noon. The hours from one to three went to Philippine independence, and then the dancing picked up from three to five._

The bright-eyed, coffee-colored little man with the dazzling smile so captivated Woodrow Wilson that the President put a declaration for Philippine inde-pendence slap-bang into the Democratic platform. But in the Hawes-Cutting bill, enacted in 1933, Senor Quezon found a oneway tariff squeeze, unsatisfac. tory guarantees as to the attitude of Pacific powers, and other defects, and started dancing and negotiating his way around these obstacles.

He is said to be just about the smartest politician in the business. He is university trained. His father was a Filipino and his mother half Spanish. He smokes cigarettes in an endless chain, dancing or sit-ting still, gesticulates fluently and turns the sharp spotlight of a keen, agile, realistic mind on matter in He was wounded in the Philhand. tions for appointments. ippine war for independence and for years strung with the jungle diehards, somewhat embarrassed in his later career by the rampant and there is danger of their falling into bellicose Gen. Emilio Aguinaldo. the hands of the enemy. President Quezon is 59.

down any- we depend on Australia and the Politics Perfectly body in those Argentine for wool. We haven't the ships to bring it here. And we are getting ready to clothe an army of 5,000,000 men. Other restrictions will come.

> In his budget message, the President hinted that we might have to carry ration cards the way the Eurodo before the war is over. That is more of a threat perhaps, than a prediction but it is worth remembering before we get too complacent,

Fertilizer 'Rationing'

Already the farmer is being rationed though he may not realize t. Take fertilizer, for instance: First, the nitrates. All synthetic it. nitrates have to go into munitions. The one word nitro-glycerine reminds you of that. Natural nitrates have other things in them, so the army is after those, too. But since they come from Chile, they have to come in ships. And there are few ships for this purpose.

Second, phosphates. They come from Florida, Wyoming and Idaho. But they come in rocks. You can see a whole nile of these rocks right over in Baltimore. But it takes sulphuric acid to "digest" them. Sulphuric acid is needed for munitions.

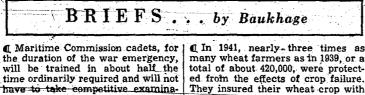

tossed overboard and sunk, when

<u>ت ا</u>

wave that "it was a fine night for an air raid." Nobody objected to that. There had been no air raids and the question had never been raised. But the next night it was different. No more description of the current weather, I was told by the military censor-"You can talk about last night's weather but not tonight's,' he said.

I asked my Washington friend why, if Berlin let me talk about last night's weather I couldn't do the same thing here. "Weather," he-answered, "moves from west to east. Berlin's weather moved off where it didn't matter in 24 hours. Washington's weather moves right into the eastern Atlantic where knowledge of it might benefit raiders."

"Without disparaging in the least the huge metropolitan dailies, with circulations running into the hundreds of thousands and occasionally into the millions—and I say they are the best daily newspapers in the world-it is to the weekly newspapers and the small-town daily newspapers that I, myself, turn for information, guidance and inspiration, especially in the case of problems and questions affecting the public welfare."-Sen. Arthur Capper in the U.S. senate.

PATRONAGE APPRECIATED - SATISFACTION ---- SANITATION ---

What About The Old Folks?

When they're not so active anymore. and spells of constipation annoy them with dizziness, heartburn, headaches, or torturing gas pains, jet ADLERIKA. We have many letters from thankful users who are far past middle-sge. Your druggist has ADLERIKA. Gidley & Mac, Druggists.

IN THE past year, while the nation was préparing for the present struggle, Michigan Bell spent \$28,000,000 largely to meet the need for increased telephone service.

Part of that total went into new buildings, additions and new central office equipment. But a large and important share was buried in the ground - in the form of telephone cable. 448,000 miles of new telephone wire were used in the cables placed by Michigan Bell

STRIKE A BLOW FOR YOUR COUNTRY -BUY DEFENSE BONDS AND STAMPS!

Michigan Bell Telephone Company

in 1941-enough wire to go more than 18 times around the earth!

These huge machines bury several

miles of telephone cable a day.

Hundreds of miles of new cable bring telephone service to military bases and munitions plants. Other hundreds supply the swiftly growing districts of de fense workers' homes. As long as the necessary materials can be obtained. your Telephone Company will do its level best to provide good telephone ervice for all who need it.

THE CHARLEVOIX COUNTY HERALD, (EAST JORDAN, MICH.) PRIDAY, JANUARY 23, 1942

Lutheran Ladies Aid meets at Mrs. Fred Larsen, Thursday, January 29. Mr. and Mrs. Leo La Londe of Lan sing, spent a few days in East Jordan last week.

Rev. James Leitch passed away Thursday at Grand Rapids. Funeral Mr. and Mrs. Harrison and daughters, Barbara and Jean, attended the services at Grand Rapids this Saturfuneral of an uncle in Sparta last day. Monday,

The Book of 1942

This year you are going to have

many important payments to make — for

taxes, for insurance premiums and the

like, for everyday expenditures. You

can't just make these payments and for-

get them. Somebody else is likely to forget and ask you to pay a bill twice.

Your Check

Paying by check gives you proof of

payment. It will save you time, trouble,

inconvenience, and money. We shall be glad to have you open a checking

account at this bank.

TEMBER FEDERAL DEPOSIT INSURANCE CORPORATION

THE CHARLEVOIX COUNTY HERALD, EAST JORDAN, MICH.

THE STORY SO FAR: Bound for the Chibougamau gold country, six men lost their lives on the Nottaway river. Red Malone, Garrett Finlay, brother of one of the six, and Blaise, half breed guide, arrive at Nottaway posing an surveyors

Constable Malone, good man as you sre! It's too bad-too Mad! Poor Thistle!" McNab said,_____

wanted to be honest with you and tell you, myself." Isadore's cance was out of sight

when Blaise and the fretting dog stood beside the loaded Peterboro Near them Finlay talked with Mc Nab of the message leaving for the steel in the morning. Then the stock-ade gate opened and Red and Thistle walked slowly toward the shore. Mc-Nab turned his head winking hard at the sudden moisture in his eyes.

"What a pair!" said Garry. "She's a lovely girl, McNab. I've worked with him for five years, now, and he's a man, every inch of that six feet three."

"What a pity, Sergeant! If you'd only wait for help—only wait!" Finlay smiled and shook his head Walking slowly Red and Thistle approached. She was laughing now, laughing up at him through misty eyes.

'Just like him!" thought Finlay. They stopped near the canoe and Red had her two hands. She flung back her red-gold head and gazed hungrily into his face while he

"Come now!" they heard him say. "Chase the clouds out of those blue eyes! I want to see you smile again before I go. Show your dimples, Lady! Laugh just once more for Red!"

She caught her breath as she smiled up at him, oblivious of them all, then flung her arms about his neck. "I can't let you go, Red!" she sobbed... "You'll never come back! They'll never let you come back to me!"

The others turned away as she clung to him. Later, until the post buildings faded from the sight of those in the canoe, a flutter of white in the clearing marked where girl waved her farewell.

CHAPTER XIV

Two days later the canoe had passed through Lake Olga of the chain of large lakes and was on the Quiet Water below the Montagnais camp on the island.

"There's the lop-stick spruce Da-vid told us to look for!" announced Finlay.

"Ah-hah! David say dat chain of lake lie a mile sout' of here," said Blaise. "We portage to de lake and pass round de Indian waitin' on de riviere, den follow outlet-of las' lake to Waswanipi."

In the morning they started packing the canoe and provisions through the spruce, tamarack and Jack-pine spotted with hardwood, to David's chain of lakes.

Blazing a trail as he traveled, Blaise had reached the first lake with a backload and was returning to pack the canoe through with Finlay when he met the sweating Redbowed under three bags of flour.

Red went on and shortly saw wa ter shimmering through the trees. He was close to the shore when he heard a movement ahead of him in hardwood scrub

Porcupine, likely, he thought, and kept on.... Then dry twigs snapped in front

INSTALLMENT FOURTEEN

o investigate. Murder is suspected. It is thought that Isadore, rich fur man, has made a gold strike and sims to keep prospectors out. On the way to the Hudson's Bay post they visit Isadore in his palatial home, and meet * * * * * *

"I don't think you'll come back, | lancing the undergrowth, found no target.

2

from deep in the forest Then. drifted the familiar yelp of the airedale on a rabbit trail. Flame and Garry! Sweat burst from Red's brow. They must be warned!

There was a sudden movement in the bush. Red lifted his head to catch the fluttering of young fir tops as a dark shape moved through. Once, twice, the .45 roared. Two rifles crashed back in reply. Twigs flew from the saplings where Malone had knelt. But he was already yards away under new cover.

"Thank God! That will stop Gar-"he panted. "There're three of rv! them, at least, but they're worried. When Flame shows up there'll be a ircus.'

'Again the "craack-craack!" of the raven bludgeoned the silence. Nearnow. For a space the stillness beat painfully on Malone's eardrums as he lay nursing his pistol. Then, in the soundless forest lifted a scream that was cut off short as if steel jaws had clamped on a throat. Red heard a movement in the brush and, rising, saw a disappearing shape. He fired, fired again. There was the "b'rang!" of a Lee-Enfield, the savage challenge of Flame, then the muffled snarls of a dog closing with his enemy; frightened cries mingling with Garry's commands: "No, Flame! Let him up Let go, Flame!"

Malone thrashed back into the bush to find Finlay holding the mad-

"I can't let you go, Red!"

dened airedale away from a young Indian sprawled on the ground. "You're all right, Red? They did

hit you?" cried Garry. "Flame had this boy down when I reached him!" Nursing his bitten arm, the young

Montagnais lifted frightened eyes to the giant who glared down at him.

"It's all right!" soothed Garry... "We won't hurt you!" "Where's Blaise?" demanded Red. "'I didn't get a clean shot but I was afraid you'd walk into them,

Lise, his stepdaughter. Answering an appeal from Lise, Finiay is ambushed. It develops that they are Mounted Police officers. The party visits McNab, Hud-son's Bay trader. Red falls in love with Thistle, McNab's daughter, *

bush the next man over the trail. Patamish had no gun. They had brought him to help carry the meat and the cance. He had nothing against these white men and wanted to run away. But his companions had threatened to shoot him if he didn't stay. When the firing began he had started to run but the dog had pulled him down.

"Ask him if he believes we've sickened the children with the evil eye as Kinebik says," suggested Garry____

The boy's black eyes glanced at his carefully bandaged arm, then lifted to the faces of the white men and his keen face lighted in a smile. "No," he said to Blaise, in a "this white man saved me from his dog and bound my arm. He would not sicken children."

"That's the lad, Joe Patamish!" applauded Finlay. "There are brains under that, mop of hair. Tell him, Blaise, he's going with us but until we're sure he won't run away, we'll have to tie him up. This kid is going to be useful."

"He'll be very useful," he added. "Now let's get the cance and the rest of our stuff across this carry." But the boy had not finished his story. As he talked the cut deep into Blaise's face. talked the furrows

He made a clicking sound with his tongue as he gravely shook his head. "What does he say?" demanded Garry.

"Dere was big fight at de islan'! Chief Wabistan kech Kinebik and Tete-Blanche wid whiskey for Montagnais. Michel Wabistan and two odders was shot. Der is moch troubl' for Chief Wabistan.

"Poor Michel!" said Finlay. "He was a good boy! Well, Mr. Isadore, you're rolling up the score against yourself!"

"Joe Patamish say, al-so," con-tinued Blaise, "dat Kinebik make big medicine w'en de August moon is round."

"Red, we'll be there! Now, men, let's get going!"

Through the following night three. silent men pushed the Peterboro up Waswanipi bound for their rendezvous with Chief Wabistan.

Malone, whose invincible optimism tolerated no thought of defeat, was deep in dreams of a red-gold head and a pair of laughing eyes back at Matagami.

But as their maple blades put mile after mile of the sleeping lake behind them, in the harassed brains of Finlay and Blaise there was small hope of winning out as only through some miracle of chance could they hope to checkmate the red hunters inflamed by Tete-Blanche's whiskey and Kinebik's magic.

Joe Patamish had told them that most of the young men had left the fishing camps and joined Kinebik's crusade to save the children. Only a handful of Wabistan's relatives and friends had rallied around the chief. And Finlay realized, bitterly, that if he should manage to hang on until the arrival of the police plane, he would be no nearer his goal. He had come to find the men responsible for the disappearance of Bob Finlay and the others. He had found them_but_he_still_had no legal proof of their guilt. And how, with the

Dark Cellar Stairs

A NEIGHBOR of mine was recent ly badly hurt by a fall down the stairs leading from the kitchen to the cellar. Knowing those stairs, I could understand her accident, for going down them was like stepping into a tunnel. The family had planned to "do something about it," but the accident happened before they got around to it. For full safety, ah electric light should have been put in the ceiling, although this would have meant somewhat complicated wiring As an alternative, white paint could have been used-and plenty of it. In the first place, the treads of the steps at the top and bottom could be painted solid white, while white bands an inch or two wide could be painted along the front edges of the remaining treads. These would have shown the position of the steps, even in a dim light. In addition to this, the sides and the coiling of the stair could also be white. Had this been the accident would have been prevented, and needless to say, the saving-in doctor's bills would have paid for the improvement many times over.

Rough Plaster Walls

Textured walls and sand finished plaster can be very attractive when they are new, but are likely to give trouble later on because of difficulty in cleaning them. Also, home own-ers may become tired of the effect, and would prefer to have papered or smooth plastered walls. The walls can be smoothed with powdered whiting, mixed with strong glue size to a siff paste of the consistency of wall plaster. On sand finished walls, this is applied with a trowel in a layer only thick enough to cover the rough finish.- The new plaster can be smoothed with a trowel or with a rubber squeegee, such as is used for window cleaning. Needless to say, the old finish should be cleaned as well as possible with a stiff brush and a vacuum cleaner, before putting on the new coating. A roughly textured plaster wall should be gone over with coarse sandpaper wrapped around a block of wood, to take off the highest of the rough points. The depressions can then be filled with the same whiting-and-glue size paste, to be applied with a trowel and given a smooth finish.

Wood Flooring

home owner who is planning to build a game room in his basement asks about laying a wood floor over the present concrete floor. One thing to guard against in this is damage to the wood floor by damp ness in the concrete. Any concrete floor laid on the ground, even over a hed of cinders, picks up moisture. A wood floor laid on top is likely to buckle and eventually to rot. The necessary waterproofing can be provided by covering the concrete with heavy tar paper or building felt, stuck down with tar or liquid as-An over lay the wood floor on the concrete, without nails, by the use of an as phalt cement___compound___called "mastic." This provides a waterproofing layer that binds the wood strips to the concrete as well as to each other, so that nailing is not necessary. This method of floor laying is in common use for such conditions, as is well understood by floor contractors.

If potatoes are placed on the broiler rack instead of the floor of the oven they will bake quicker.

If shredded coconut becomes dry it can be softened by steaming in a clean cloth over boiling water.

of him. He lifted his head and booked. Taking deliberate aim with his rifle stood an Indian. Malone. pivoted on his heels. With a twist of his head and lift of his shoulders he dropped his backload as the In dian fired. There was a thud as the bullet struck the rolling top bag. With a lunge Red was buried deep in a clump of small fir.

The windless forest vibrated with silence. . The Indian who had fired on him could not be far but the brush was so thick he could see nothing. So Red decided to stalk him. With his heavy pistol in his teeth he hunched foot by foot on his elbows until his range of vision had increased to twenty yards.

Around him lances of sunlight thrust through the treetops splash ing the underbrush with gold. Still the bush was as soundless as a vacuum. Then a squirrel chattered from somewhere in front and Red smiled. "Ah, there you are!

He wormed along in the direction of the sound. Then he stiffened suddenly where he lay. Back in the forest rose the guttural "craack-craack!" of the northern raven Red's eyes snapped as he nodded his head. Shortly the croaking was fol-lowed by a dismal "kooer-kooer!" "Montagnais; say your prayers!" chuckled Malone! "There's a carajoù hunting you! That was no raven! That was Blaise's signal!'

Again Red inched his way through young fir and hardwood. But he asw nothing.

Once more the "kooer-kooer!" of the raven startled the forest-much nearer now and followed by a me-tallic "klunk!"

But Red could not answer. was too close to deceive Indian ears. "They're growing nervous! They don't like that old raven moving in on their rear. He's got them guessing. If I could offly get a shot, I'd start a stampede." But Red's eves;

میں . . . اسپر **میر** . . . <u>.</u> .

so fired anyway to warn you. How many were there?' "This one and two others. I

think," replied Finlay, lashing Flame to a tree and starting to examine the shaking boy who watched him with the eyes of a dog. "Where are you, Blaise?" called

Malone. "What was that yell?" Red found Blaise beside a limp shape in the brush.

"Ah-hah!". Brassard was studying the grimacing face from which glazed eyes stared at the sunlit tree tóps.

"Recognize him?"

"Ah-hah! We see heem at de is-lan' at head of lake."

"He'll drink no more of Tete-Blanche's whiskey. What was that scream?"

Brassard opened and closed his steel fingers in a significant ges-ture. "Dat fallar run into de old ture. ture. "Dat fallar run into de old raven." The slits of eyes in his granite face glittered. "De raven squeeze him wid his claw." "Pity it wasn't Batoche or Tete-Blanche!

"Some day, mebbel"

Garry bandaged the boy's lacerat-ed arm while Blaise assured him in Cree that he was safe. Slowly recovering from his terror the fifteen year old lad told Brassard his story in Montagnais. He had been forced by his older brothers to join the party Tete-Blanche had sent to the Quiet Water. They had olock decided that it was a bank beaver they had beard the night they fired in the Peterboro but Isadore had returned from Matagami the day before and had doubled the night guard on the river. He, Joe Pa-tamish, and the two men lying there in the scrub had packed the canoe to the lake that morning to hunt moose. When they saw freshly cut birch on the shore, they had landed and found Brassard's bags and footprints. So they had decided to am-

ontagnais out of hope to arrest and hold Isadore and Tete-Blanche even for breach of the Indian whiskey law? They'd laugh at him, wipe out his party and dis-appear, as McNab said, into the muskeg of the Bitter Water.- In his lessage to headquarters he had asked for a police plane by September first to carry his prisoners south. That plane would arrive too late. Sergeant Garrett Finlay and Consta ble Malone would then be beyond need of help. And Lise! What would happen to the girl he had promised to see safe at Matagami--who had stormed into his heart that day on the beach? He choked back a groan as he thought of the love that had come so strangely into his life. What would become of Lise?

They slept all day hidden in the timber of the point where Wabistan was to meet them. That night a cance'slid into the beach. Finlay took the old man's bony hand. "You have lost your son. I am sad," Garry said.

"My son and my people have left me! The heart of Wabistan is sick Now his knife is sharp like an eagle's beak. His gun is loaded." "You must eat first," said bin 'then let us talk over our pipes lay, '

beside the fire which is hidden from the lake."

As they ate Moise Wabistan anu his father gave to Blaise in their native tongue the story of their find-ing Tete-Blanche and Kinebik at a Montagnais camp and of the light that followed.

"Dey say," -interpreted diaise, de Montagnais was drunk and would not listen w'en dey tell dem Kinebik was a false shaman and work for Isadore. De ole chief start for Kinebik wid his knife! Tete-Blanche shoot Michel and dere was ver' bad time. Dere was too many man for Wabistan and his fre's to fight and dey leave. (TO BE CONTINUED)

Dark Room

Question: The walls of a living room are paneled in dark wood; the ceiling is beamed, with light paper east, Windows are dormers, a little more than a yard long. The room is dark. Can you suggest any way

to lighten it? Answer: The most obvious way is to paint the paneling white, or some light color, and the ceiling beams as well. Unless the paneling is very choice wood, the change should be attractive. If the natural finish must be retained, the paneling could be bleached, although this would be a more tedious job. Wood bleaches can be had at a good paint store. Window draperies should be thin and light in color. Floor cov-ering should be light. Large wall mirrors will also help.

Floor Finish Question: Our old floors were sanded 11 months ago, and have darkened on the parts around rugs that are exposed. How often should they be washed and waxed? Will they darken with frequent washings and waxings? What can I do to

keep them light? Answer: Wax is not enough of a protection, for dirt will work through and get into the wood. After cleaning the darkened places, you should finish them with a seal or with varnish before waxing; waxed hard-wood floors should not be washed. Dirt should be taken up with liquid wax.

Snack on a Frosty Night-Broiled Wienies (See Recipes Below)

Wintry Snacks

time amusements call for piping hot, hearty snacks to take care of brisk appetites. While in

ĝames, sleigh ride

parties, skating

and other winter-

warmer weather, the family could raid the ice box, now the problem is slightly differ ent, as hot food, satisfying but still simple, is in demand.

Here's a dish that just seems to fit the bill: the broiled wienies and hot potato salad pictured above. Of course, hot potato salad with wienies is an old favorite but there's a touch of something new in the wienies broiled with cheese and the green beans around the potato salad to add a touch of color. *Broiled Wienies.

Select two to three skinless frankfurters for each person to be served, two will do nicely for the girls and women but better count three for the men and boys. Split the frank furter and insert a strip of Ameri can cheese. When almost ready to serve, pop into the broiler and cook

until cheese melts and browns. Hot Potato Salad. (Serves 6)6 potatoes, boiled with skins on

cup finely chopped onion 2 hard-cooked eggs, diced Salt and pepper

6 slices bacon, broiled until crisp, crumbled Peel potatoes and cube. Add re-

maining ingredients. Just before ready to serve, mix with this hot dressing: Cooked Salad Dressing

	Coonca banda Dicoba-5.
	tablespoons sugar
1	teaspoon salt
. 1	teaspoon yellow mustard
i ,1	1/2 tablespoons flour
1	egg yolk
3	4 cup water
2	tablespoons vinegar

l-tablespoon butter Blend dry ingredients, then add egg yolk and blend until smooth. Add water, then vinegar, stirring Cook over boiling wa constantly. ter, stirring all the while, until thick. Remove from fire, add butter and serve hot, mixed with potato salad.

of spaghetti and so on until all sauce, cheese and spaghetti is used. Bake 30 minutes in a moderate (350degreė) oven. Another tomato-meat dish which is guaranteed to be aces with your guests dropping in after a basket-ball game, sleigh ride or what-have-

you is this: Tamale Pie. (Serves 8)

- 1 medium-sized onion, chopped -tablespoons oil
- pounds beef, cut-in cubes 1 teaspoon salt 1 tablespoon chili powder
- 1 large can tomatoes (2½ cups) 1 cup yellow bantam corn
- 1½ cups corn meal
- 5 cups boiling water teaspoon salt

1/4 cup grated cheese

Brown onion in oil, then add beef and cook until brown. Add salt, chili powder, tomatoes and corn and cook slowly 1 hour. Add corn meal to salted water and cook 15 minutes, stirring frequently. Cool mush, then line buttered casserole dish with a 1-inch layer of the mush. Pour in meat-vegetable mixture, then top with remaining mush. Bake in a moderate (350-degree) oven for 1½ hours. During last quarter hour, sprinkle top with cheese. Serve with sauce made by heating one can of tomato soup to which has been added 1 can of ripe, pitted olives. Are you one of those homemakers

who is always looking for one dish that can be modified and vet seem to be different every time HD) it's served. I think baked beans

THE TEMPTATION OF JESUS

LESSON TEXT-Matthew 4:1-11. GOLDEN TEXT-For we have an high riest... (who) was in all points tempted ke as we are, yet without sin.-Hebrews

"We have not a high priest that cannot be touched with the feeling of our infirmities; but one that hath been in all points tempted like as we are, yet without sin" (Heb. 4:15, R.V.). We recognize that Jesus was tempted as the Messiah (see Matt. 4:3, 6) and as One who had no sin, and yet He was tempted in all points as we are; and we may learn from His temptation how to meet temptation and be victorious over it. I. Temptation.

It is the common lot of all mankind to be tempted (I Cor. 10:13).

The strongest and most noble of men are subject to it; angels were tempted — yes, even Jesus was tempted. We need to know about temptation, so we note

1. What It Is (v. 1). Temptation is of the devil. It is, as Principal Fairbairneexpressed it, "seduction to evil, solicitation to wrong. It stands distinguished from trial thus: trial tests, seeks, to discover the man's moral qualities or character; but temptation persuades to evil, deludes that it may ruin. God tries. Satan tempts."

Note that temptation is not sin, but yjelding to the temptation is sin. We are told by James (Jas. 1:13-

15) that man is tempted by his own lusts. He also tells us that God may permit temptations or trials to test our faith (Jas. 1:2, 3), but His pur-pose-is-only to prove us able to stand. God does not suffer us to be tempted beyond endurance, but provides a way of escape (I Cor. 10:13).

2. How It Works (vv. 2, 3, 5, 6, 8, 9). Satan has only three tempta-tions, although he is a master at giving them different appearances. The temptation of Jesus followed the same threefold line as that of Adam and Eve (Gen. 3:6), which is described in I John 2:16 as the gen-eral temptation of all men, namely, "the lust of the flesh, the lust of the eyes, and the pride of life." Observe how Satan worked on Jesus: (a) By appealing to the flesh (vv. 2, 3). Jesus had fasted 40 days, and Satan took advantage of that fast to suggest that He use His divine power of creation to satisfy His hunger. To do so would have been to deny His very mission on earth

Satan observes in man the normal appetites of his body, excites them to a high degree, and then tempts him to satisfy them in an improper way. (b) By appealing to pride (vv. 5, 6). God had promised to keep Jesus "in all his ways" (Ps. 91: (Ps. 91: 11), but casting Himself from the temple was not one of God's "ways for Him.

The devil wants us to be presumptuous and call it faith, and this is his pitfall for one who really wants to believe—cause him to become a fanatic and substitute foolish pre-sumption for faith. (c) By appealing to the eyes (vv. 8, 9). By show-ing Christ the kingdoms of the earth in some kind of striking panorama, or moving picture, he offered a short

costume-jewelry group or to conservative one that holds on to

the tradition of quiet elegance. To women who have an inherited intuitive sense of dignified glamour pearls are ever the answer to their jewelry preferences. This season the style prestige of pearls

has ascended to a new high. The big news that is adding to the lure of pearls is the return to favor of long ropes of pearls with match ing bracelets and earrings in the manner of the ensemble shown above to the left in the illustration. The fact that in this instance pearls are worn with a black wool knit evening sweater is also important news Time was when jewelry worn with things knitted was taboo. Now it's the smart thing to do.

Speaking of the new ropes pearls, some are unbelievably long and worn in tiers reaching below the waistline. With a siren-slim black satin formal they are the

"last word" in smart jewelry. Grandmother's pearl choker is also worn by her smart and styleconscious granddaughter. Centered in the group illustrated above you see a modern girl wearing-a three-

strand matching bracelet and pearl earclips. The ring is a little gold bow with a diamond knot. What has been said of pearls-may be said of jet. The revival of jet

jewelry goes on record as a gesture of utmost style significance. Jet bead ensembles worn with winter

white evening sweaters, as pictured above to the right in the illustration, have proved especially popular with college girls.

Groups of clips (called "scatter clips") are being featured this seaas an alternate with the single lapel piece. The idea is spreading like wildfire among those who like the new and the venturesome. Centered at the top in the group pictured

above is a style-alert "modern" wearing adorable little bows of three different sizes, with bow earrings to match. They are usable also as com-panion, clips for square or "sweet-heart" necklines.

Flattering and highly decorative for a plain dark dress are groups of small clips like those worn the young woman posing below to the left in the picture. These rhinestone birds may also be fastened together in pairs to make a handsome brooch and there is all-purpose jewelry that can be taken apart to form different pins, clips and vari-ous other items. The earrings be-longing to this ensemble are also of bird designs. Bird, bow and butter-fly motifs are very much in the jeweiry picture this year.

Amusing themes are worked into jewelry that "makes conversation" because of its novelty, for instance, the lapel pin worn by the young girl pictured below to the right. On herhandknit tailored jacket, done in new stitch, she is wearing a lucite fish with fins of gold plate and rhinestones. (Released by Western <u>Newspaper Union.</u>)

807 QUARED off with rows of ri rac which run down from each shoulder and outline the pockets, this coat style house dress presents such a bright, interesting front that you are going to love wearing it. The open collar has lapels to frame your neckline and side sashes achieve the neat trim fit at the waist which is as flatter-

ing as it is comfortable. Pattern No. 8074 is in sizes 32 to 46, Size 34 requires 45% yards 35-inch materi al, 2 yards ric rac. For this attractive pattern, send yo<u>ur ord</u>er to:

and Every use!

Spaghetti is and has been for some time now one of the reigning favor-ites among hot

dishes to serve in the evening. Here's one dish you'll like be cause it's both tart and satisfying, with plenty of cheese and

sauce baked right into the long strips of spaghetti: Baked Spaghetti

(Serves 8) 1 pound package of spaghetti 3 small onions, chopped fine 2 tablespoons oil pound ground beef pound sausage (in the bulk) pound mushrooms teaspoon pickling spice 1 teaspoon salt 4 small cans tomato sauce -34 pound grated American cheese Cook spaghetti in boiling salted water 12 to 15 minutes. Drain and run cold water through it. Saute onground meat and sausage in oil until brown. Add mushrooms, spice, salt and tomato sauce. Simmer slowly for 40 minutes. Put thin layer of spaghetti on bottom of but-tered casserole. Then add a layer of sauce, then cheese, another layer

Lynn Says:

Here are a few quick snac ideas you'll like to paste in your notebook: Baked beans garnished with brown bread, cream chees sandwiches, placed around the bean pot, You might try the canned baked beans with sliced ham, too. It's quick, easy and delicious. Toasted buns with hamburgers, cheeseburgers, or ham and cheese slices go over nicely, too. Toasted English muffins with an egg fried or poached with ham are high in favor.

Bean and Sausage Bake. (Serves 4) small onion, sliced 1/2 pound link sausage 1 can baked beans 1 tablespoon pickle relish 1 tablespoon chili sauce

hearty appeal you can serve it often.

is one of those

dishes, and be-

cause of its

Place onion on bottom of casse cole and lay sausage on top of onion. Bake in a moderate oven 15 minutes, then drain off excess fat. Combine beans with onion, sausage, pickle relish and chili sauce. Return to oven for 20 minutes to re heat.

If you have only eggs, don't ever despair for they have excellent possibilities as snacks. Try scrambled eggs with cheese, bacon fried crisn and brown and crumbled, or broiled sausages. Omelets made with a slice of American cheese before they're folded are menu tempters, as are omelets made with a tomato sauce folded over them before serv ing.

*Peach Crisp Pudding.	•
2 cups diced, dried peaches

2 cups corn flakes

Seak peaches in boiling water 1(minutes. Drain, add water and sug-ar; cook covered for 30 minutes. Remove from heat, add honey and stir until well mixed. Cream but ter and sugar thoroughly, add eggs and beat well. Stir in spices, fla voring, bread cubes and corn flakes. one-half of mixture in but tered baking pan. Spread peaches evenly over top and cover with remaining mixture. Bake in a mod erate (375-degree) oven about 2 minutes. (Released by Western Newspaper Union.)

rule by worship of him, rather than by way of the cross. The devil showed his real purpose here. He wants wor-ship-he wants us to bow to him instead of to God.

II. Our Lord Was Victorious Over Satan.

We, too, can triumph in His blessed name. To do so we need to study the way of victory. 1. How to Gain It (vv. 4, 7, 10).

Three steps appear: (a) By the right use of Scripture. If our Lord needed and used that weapon, how can we possibly do without it? How can we use it if we do not study it, and hide it in our hearts (Ps. 119:-11)? (b) By complete dependence upon God. Every Scripture used by Jesus against Satan honored God the Father. We cannot fight Satan in our own strength. Luther was right— 'Did we in our own strength confide, Our striving would be losing." The real victory for the Christian

is to bring Satan to the foot of the cross. Christ defeated him completely there, and we may plead that victory. (c) By denouncing Satan. Jesus sent him on his way. We may do the same, in Jesus' name. It is alwaysta serious error to argue with Satan, or even to discuss matters with him. He is not divine, but he is a supernatural being with knowledge and cunning which are too much for us. Meet him with Scripture, honor God by your faith in Christ, then "resist the devil, and he will flee from you" (Jas. 4:7). 2. What It Brings (v. 11). When the defeated devil left Christ, angels came and ministered to Him. The overcoming of temptation brings victory, peace, and blessed rest. This is ever true in the life of the believer. Temptations victoriously met make one stronger in meeting

Winter-White

The sensation of the present sea son-winter-white wool! Wear it for informal dinners, and cocktail par ties with fine costume jewelry of rhinestones. A beautifully designed flower pin and a wide, important bracelet adds glamour to the picture. The movement to wear winterwhite dresses under winter furs is gaining momentum right along. Tiny white hats are chic, also, for immediate wear, especially the new diminutive sailor types with their wing trimming and a whimsical

Guest Scuffs

veil.

Take your boudoir slippers along if you want to when you go away to spend the week-end. But you prob-ably don't need to. Your hostess the next temptation. There is al-ways a next one, for we read (Luke of making "guest scuffs" as they are 4:13) that the devil left Christ only called. These are part of the equip-"for a season." homes.

These Buttons Snap On And Are Simple to Use It is most assuredly a button sea-

The newest use of large pretentious buttons is to ornament as well as provide fastenings for the dainty pastel wool jacket suits so popular for immediate wear under fur coats and later to wear without

a wrap on a balmy spring day. You can get all sorts of buttons. The newest among them is the but-ton with a snap-on base. You draw this portion up through the buttonhole and then clip to it a handsome over button that looks more like jew-elry than a mere utilitarian fasten-

Wrap Around

Some new coats have sleeves cut all in one with the yoke or body of the garment. And they are so fashioned as to wrap around to one side. They concentrate on quality fabric, and when unfurred, as-most of them are, they call for a stunning fur muff matched with a flattering fur hat.

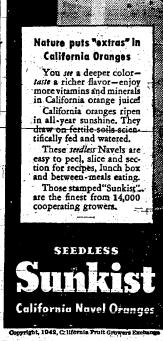

Evening Capes

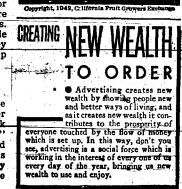

Capes that have a new look be-cause of the embroidery' lavished on them in the way of yokes or tuxedo panels down the front are the "last word" in evening wraps. They are, for the most part, made of velvet or fine cloth, and they may be either floor length or hip length.

Frothy White

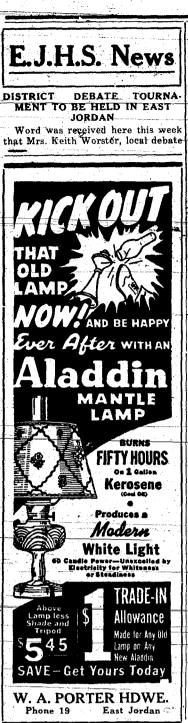

Sec. Al a ser

Again we have with us, with more to follow as spring gets well under way, the little dark-toned or black. dress that is enlivened with "oodles" of frothy white at the neckline and wrists. The new white neckwear is entrancing. Also pastel accessory items are coming out in new lingerie versions.
