EAST JORDAN, MICHIGAN, FRIDAY, JUNE 11, 1943.

NUMBER 24

Honor Graduates Class of 1943

EXCELLENT PROGRAM PRESENTED. AWARDS MADE TO STUDENTS

On Tuesday evening at eight o'clock, parents, teachers and friends of this year's graduates met in the High School Gymnasium to honor the class of '43. The Seniors, resplendent in caps and robes of royal blue, entered the stage to the solemn tones of the Processional. Thomas Leu then presented the Salutatory, welcoming all who were present.

Barton Vance delivered the traditional Class Will. Edward Nachazel followed with the presentation of the class prophecy. The song "Within a Dreaming Harbor" was sung by Patricia Sinclair, Francis Malpass, and Donna Gay.

Leland Hickox, in the Valectidory, spoke of the sentiments and the ambitions of his fellow class members. He stated that the Seniors willingly accepted the task of helping to win the war, and plans for their own personal future could wait until the job was done.

Guest speaker of the evening was Dr. Charles L. Anspach, President of the Central College of Education. His topic was entitled "High Noon". Those who have heard Dr. Anspach can well appreciate his presentation of any subject.

Following this address, John Smith Principal of the High School, presented the School awards. Among the awards given were the following: Valectidorian — Leland Hickox Salutatorian — Thomas Leu Citizenship — Francis Malpass Athletics — Leo Nemecek Forensics — Russell Conway.

Honor Pins — Scholastic — 3.5 honor points.

Bronze — First year — Gerda Neilson, 9th Grade. Elizabeth Penfold, 11th Grade. Patricia Sinclair 12th grade.

Silver — Second year — Delores McCarthy, 10th grade. Barton Vance, 12th grade. Shirley Sinclair, 10th grade.

Gold Plate — Third year, Mary Ann Lenosky 11th grade. Solid Gold — Fourth year, Frances Malpass, Thomas Leu, and Leland Hickox.

Dolores McCarthy due to an oversight was not presented with her pin that evening; however, she is the proud possessor at the present time of her silver pin.

Mr. Howard Porter, President of the School Board, then presented to each Senior his diploma. The Recessional was played as the Seniors left the stage to receive the many congratulations and best wishes awaiting them.

Announce Engagement

Mr. and Mrs. Tony Galmore announce the engagement of their daughter, Muriel, to Lt. Martin Kadrovich, Jr. of Camp McCain, Miss. Lt. Kadrovich is the son of Mr. and Mrs. Martin Kadrovich of Flint.

Casablanca Coming To Temple Sunday

Entertainment at the Temple this week is of the fast-paced thrill full action type with a goodly portion of suspenseful romance and a complete variety of topics. The Fri-Sat parade of hits continues this week with the presentation of a robust tale of the Canadian north, "Northwest Rangers," starring an imposing group of old and new screen favorites such as John Carradine, Jack Holt, James Craig and William Lundigan. You'll thrill again and again as the famous Mounties adventure through this absorbing tale of a robust frontier.

Humphrey Bogart, Ingrid Bergman, Claude Rains and Peter Lorre head the cast of tempestuous, "Casablanca," which starts a three days engagement on Sunday. You'll find suspense, intrigue, action and perilous romance blazing a fiery path across the screen as this story from the world's crossroads unfolds its exciting trail. A triple threat entertainment treat for young and old!

Family Nights on Wed-Thur burst with the throbbing drama that lies just beneath the surface of the humming home front and you'll revel in the excitement of, "The Truck Busters" as Richard Travis, Don Costello, Charles Lang and Virginia Christine give life to the topical story. "Army Show," a gay musical comedy is also featured on this bill with a Sports Review and episode 5 of, "Daredevils Of The West" completing this great bargain show. The kids will eat it up — and you'll find 100% enjoyment yourself!

The week's three programs are arranged below in order of presentation:

Fri-Sat; James Craig, Jack Holt, John Carradine in, "Northwest Rangers."

Sun-Mon-Tues; Humphrey Bogart, Ingrid Bergman, Claude Rains, Peter Lorre in "Casablanca."

Wed-Thur; Family Nites: Richard Travis in "Truck Busters"

Mrs. Jacob E. Chew Passes Away After Lingered Illness

Mrs. Lillian Chew passed away at her home on the West Side, Thursday evening, June 3 after an illness of two years from cancer.

Lillian Runyan was born in Antrim County, August 19, 1866 and had lived her entire life in Antrim and Charlevoix Counties.

On May 31, 1891 she was united in marriage to Jacob E. Chew in the Methodist Church of East Jordan. (Two years ago Mr. and Mrs. Chew celebrated their golden Wedding in the same church.) To this union there were no children but they took into their home and raised three children to adulthood, John who passed away about four years ago, Mary (Mrs. F. G. Bair of Milwaukee, Wis., who was here three weeks ago.) and another son Frank.

She was a member of the Methodist Church, Eastern Star order and of Jasmine Rebekah Lodge, the latter group attended the funeral in body and assisted in the services.

Besides the husband she is survived by one niece Mrs. Hollie Bayliss of East Jordan.

Funeral services were held at the Watson funeral home Sunday afternoon June 6. The Rev. J. C. Mathews officiating with burial in Sunset Hill cemetery.

Earl Ruhling, Fred Vogel, Heston Sheppard and Joseph Lew were pall bearers.

Those from away to attend the funeral were, Mr. and Mrs. Maurice Chew and Mrs. Platte Webster of Charlevoix.

RATIONING AT A GLANCE

(Valid for Michigan) Processed Foods Blue stamps K, L and M good through July 7.

Meats, Cheese, Butter, Fats, Canned Fish, Canned Milk Red stamps J, K and L good now; M, June 13; N, June 20; All expire June 30.

Coffee Stamp 24 good for 1 pound through June 30.

Sugar Stamp 13 good for 5 pounds through Aug. 15. Stamp 15 and 16 good for 5 pounds of canning sugar each.

Rationed Shoes Stamp 17 good for 1 pair through June 15; No. 18 good June 16.

Gasoline No. 6 coupons in A book good through July 21; B and C stamps good as noted on book.

Tires Second inspection due: A book vehicles by Sept. 30; B's by June 30; C's by Aug. 31; commercial vehicles every 6 months or 5,000 miles whichever is first.

Fuel Oil Coupon 5 is good for 11 gallons through Sept. 30 for both heat and hot water.

East Jordan LIBRARY NOTES

Please Notice change in library hours. The summer schedule starts June 14, 1943. Afternoons: 2:00 p. m. to 5:00 p. m. Evenings: 7:00 p. m. to 8:30 p. m. on Tuesdays and Saturdays.

The East Jordan Public Library received a check for \$300.66 today from the State Board for Libraries. This grant is from the Equalization portion of the State Aid to Public Libraries Fund. Such grants-in-aid are made to public libraries in areas where the assessed valuation is less than two-thirds the average for the state.

The purpose of the Equalization Fund is to give extra help to libraries in areas with low assessed valuations in order to assist these libraries to meet the standards set by the State Board of Libraries.

Books added to Rentals The Sea Is So Wide — Evelyn Eaton In Tune With Wedding Bells — G. L. Hill Crescent Carnival — Francis P. Keyes

Books added to Shelves Journey Among Warriors — Eve Curie Screwtape Letters — Lewis Lady Randolph — Rene' Kraus Riders of the Purple Sage — Grey New encyclopedia of Sewing — Dickenson and Blondin (Includes slip-covers, drapes, hats etc.) Editing Small Newspapers — Rae 1943 Britannica Year Book Shotgun Gold — Tuttle Listen Hitler! The Gremlins Are Coming — Hogan Michael the Colt — Garbutt Jenny's Secret Island — Barrard (Story of Bermuda)

VICTORY BOOK CAMPAIGN Books received since June 2nd: Miss Juntunen 1, Mrs. John Porter 5, Girl Scouts 1.

PLEASE PUT THIS IN A PROMINENT PLACE

Black-Out Scheduled For East Jordan, Thursday

ALL CITIZENS URGED TO NOTE THE TIME — 9:13 TO 9:55 P. M.

In conformity with the rest of the State, East Jordan will hold its first practice black-out next Thursday evening, June 17th.

A communication in part, from the office of Civilian Defense reads:—

The schedule for three more of a series of practice blackouts using the new air raid warning signals has been announced by Capt. Donald S. Leonard, Director of Civilian Defense. When these three tests have been completed, the entire state will have participated in such tests under the new system.

Dates are: June 15 — West-Central Michigan; June 17 — Northern half of Lower Peninsula; June 25 — Entire Upper Peninsula.

Schedule for each of the blackouts will be: 9:13 - 9:15 p. m., Central War Time — BLUE signal — two-minute steady blast of sirens, horns or whistles; protective services mobilize.

9:15 - 9:30 p. m., CWT — first BLUE period — street lights extinguished; essential home and business lights permitted; traffic continues, lights on dim or low beam; pedestrian movement permitted.

9:30 - 9:33 p. m., SWT — RED signal — three-minute fluctuating note of sirens, or choppy blasts of horns and whistles.

9:33 - 9:43 p. m., CWT — RED period — street lights, traffic lights and home and business lights extinguished or obscured; traffic stops.

9:43 - 9:45 p. m., CWT — Second BLUE signal.

9:45 - 9:55 p. m., CWT — Second BLUE period; same conditions as in first BLUE period.

9:55 p. m., CWT — All-Clear signal; one minute steady blast on sirens, horns or whistles, followed by two minutes of silence, a second one-minute blast, another two minutes of silence, and a third one-minute blast. Community returns to normal status.

An experiment conducted at the time of the May 26 blackout in reducing sky-glow during the Blue periods by extinguishing street lights while permitting essential home and business lights to burn was so successful that the procedure will be followed in the June blackouts.

Council Proceedings

Regular meeting, Common Council, City of East Jordan, held on the 7th day of June, 1943.

Present: Aldermen Bussler, Shaw, Sinclair, Maddock, Malpass, Thompson and Mayor Healey.

Minutes of the last meeting and adjourned regular meeting were read and approved. The following bills were presented for payment:—

E. J. & S. R. R., freight	\$ 60.13
Mich. Public Service Co., street lights and power	246.15
Mich. Bell Telp. Co., service	17.40
J. VanDellen, medical fee	2.00
Board of Review	36.00
E. J. Co-op. Co., gas & oil	5.18
Marvin Benson, gas & oil	5.13
W. A. Porter, labor & mdse.	97.63
Vern Whiteford, mdse.	18.77
Petoskey Portland Cement Co. stone	49.13
E. J. Fire Dept., 2 fires	25.00
Gerald DeForest, lumber	15.82
Mary Green, sounding siren	15.00
E. J. Iron Works, labor	12.00
Robt. Proctor, labor	12.48
James Meredith, labor	9.60
Peter Pawnesing, labor	9.60
Win. Nichols, labor	63.00
Alex LaPeer, labor	50.85
Bert Reinhart, labor	9.00
Ray Russell, labor	46.35
John Whiteford, labor	73.80
Herman Lamerson, labor	55.60
Ed Thompson, labor	57.60
James Miles, labor	22.40
Harry Simmons, salary	77.50
G. E. Boswell, sal. & expense	72.05
Wm. Aldrich, salary & exp.	46.00

Moved by Shaw, supported by Malpass, that the bills be paid. Carried, all ayes.

Moved by Sinclair, supported by Shaw, that the City pay 40 per cent of the cost of a 4-ft. sidewalk on the west side of Spring st. between Garfield St. and Williams St. Carried, all ayes.

Moved by Malpass, supported by Maddock, that the City adopt Ordinance No. 58 relative to closing the Taverns on Sundays. Carried, 4 ayes, 3 nays.

Moved by Shaw, supported by Thompson that the City gravel the lot on the south side of Easterly St. between the Railroad and alley, to be used for a parking lot. Carried, all ayes.

Moved to adjourn. Wm. ALDRICH, City Clerk.

Mrs. Josephine Vondell Dies At Delton; Burial Here, Friday Last

Mrs. Josephine Vondell passed away at the home of her daughter, Mrs. Lewis Johnson at Delton Tuesday, June 1, following a stroke after an illness of nine days.

Josephine Zers was born Jan. 4, 1864 in Canada and came to this vicinity at the age of 15 where she had lived the rest of her life, except for the time spent with her daughters in southern Michigan.

In 1884 she was married to Emmanuel Hunt, who was killed at the time of the explosion of the Big Mill in 1892. In '94 she was wed to Joseph Whalen who passed away in 1901. Later in 1907 she was married to Rodger Vondell who died in 1934. She is survived by four daughters, Mrs. Bessie Buchman of Chicago, Ill. Mrs. Hattie Kaake of East Jordan, Mrs. Mary Johnson of Delton, Mrs. Rose Conway of Clio, sixteen grandchildren and sixteen great grandchildren, one brother, Bob Zers of East Jordan and a sister, Mrs. Frank Wilkes of California.

Funeral services were held Friday morning June 7 at the Bohemian Settlement at 8:00 a. m. The Rev. Father Joseph Malinowski officiating with burial in Calvary Cemetery.

The pall bearers were Bob Proctor, Jack LaLonde, LeRoy Sherman, Pete Boss, Tom McWaters and Wm. Taylor Sr.

Those from away to attend the funeral besides the four daughters, were Mrs. Blanche Kaley of Traverse City, Mrs. Oscar Wilhelm and three daughters of Flint and Miss Virginia Kaake of Detroit and Mrs. Goldie Krocher of Detroit.

Mrs. Vondell was from the age of two, unable to talk or hear, but had always enjoyed people, and one of the biggest enjoyments of her life was a good movie.

CARD OF THANKS

We wish to express our heartfelt appreciation to the neighbors and friends for their acts of kindness and floral offerings, at the death of our mother,

Mrs. Bessie Buckman
Mrs. Hattie Kaake
Mrs. Mary Johnson
Mrs. Rose Conway.

Income For Old Age Assistance Recipients From Agricultural Labor

It was announced today by Gladwin H. Lewis, Area Supervisor of this area of the State Bureau of Social Security, that due to the extreme shortage of farm labor for 1943 that recipients of Old Age Assistance, under certain conditions, may be on farms without deductions being made for any income received.

The provision is temporary and will expire automatically on the sixth full calendar month following the termination of World War 2.

Recipients of Old Age Assistance must have received a grant in April, 1943, in order to qualify for consideration under this special benefit of agricultural employment. The grant of the Old Age Assistance recipient for April will not be reduced because of any earnings that he derives from agricultural labor.

It should be noted carefully that the policy of disregarding income from agricultural labor can be applied only to persons who did receive assistance in April, 1943. All eligibility requirements in regard to real and personal property will be in effect despite the change in the consideration of income from agricultural labor. The income earned by the recipient may be in cash or in kind.

Any recipients, able-bodied and willing to work on farms during the coming months, are encouraged to do so both as a patriotic duty and in view of the benefit to the individual under this new Federal act (Public Law No. 45) which makes this possible. It is estimated by F. F. Fauri, State Supervisor of the Bureau of Social Security, that approximately 20,000 recipient of Old Age Assistance are physically able to do some work of an agricultural nature.

Sylvester M. Vaughan, County Supervisor of the local Bureau of Social Aid will be very happy to explain this plan to any interested recipients or to employers desiring labor which might be supplied from recipients of Old Age Assistance.

Appreciates The Herald

Charlevoix County Herald

Enclosed find \$2.00 for 1 year's subscription to The Charlevoix County Herald.

We enjoy the paper very much as we like to hear about the folks back home. But most of all about the boys in the Armed Forces.

Sincerely
Carrie Sonnabend,
2249 Wilson Rd, Clio, Mich.

CARD OF THANKS

We wish to express our appreciation for the many acts of kindness, the floral offerings and to Rev. Mathews for his comforting words, during the illness and death of our wife, mother and aunt.

Jacob E. Chew
Mrs. F. G. Bair
Mrs. Hollie Bayliss

County Farm Labor Committee Met Last Week

An important meeting of the Charlevoix County Farm Labor Committee and community labor committees met in the Boyne City Library last Wednesday and discussed the seriousness of the labor shortage. First of all it was quite unanimous that we do not want to employ migratory workers unless it is absolutely necessary.

A survey has been completed by Mr. D. P. Watkins, Emergency Farm Labor Assistant, which definitely shows the needs for organizing the labor program if all expected crop acreages are harvested. Evidence now shows that there are approximately 400 acres of cherries to be harvested this year and with a good crop in prospect. In addition there are 285 acres of contract string beans, around 400 acres of cucumbers, 169 acres of red beets, 19 acres of carrots and approximately 1800 acres of potatoes that need a large number of workers. These totals definitely show that farmers are more than contributing to the increase in food crops that has been asked for this year. Furthermore they will need additional help if the program can be carried out.

Up to the present time the names of over 300 boys and girls have been listed as volunteering to help farmers harvest these acreages during the summer months. By the end of next week it is fully expected there will be over 500 young folks primarily from urban centers listed as volunteers. The response by the public has been splendid and we are glad to report that all folks are conscious of the situation and are anxious to help in any way possible to raise the food that is so necessary to win the war.

B. C. Mellencamp, Co. Agr'l Agent

Motorist Should Read This

NEW STATE MOTOR VEHICLE FINANCIAL RESPONSIBILITY LAW

Answers to a number of important questions concerning the new Michigan Motor Vehicle Financial Responsibility Law, which becomes effective July 30, were furnished this week today by Robert A. Campbell, local representative of the Aetna Casualty and Surety Company.

Under this new law, Mr. Campbell pointed out, the Secretary of State is required to suspend or revoke the operator's licenses and registration certificates of all owners and operators who become involved in an accident involving bodily injury or death, and who, within a period of 30 to 60 days

(a) fail to settle all bodily injury or death claims resulting therefrom; or (b) fail to deposit with the Secretary of State acceptable security (up to \$10,000) to cover such claims; or (c) fail to show that acceptable automobile bodily injury liability insurance (with limits of at least \$5,000 \$10,000) was in force at the time of the accident.

Similarly, the Secretary of State must suspend or revoke the licenses and registrations of all owners and operators who become involved in an accident and who fail to satisfy, within the limits prescribed by the law, any judgement for bodily injury or death or for damage to property in excess of \$50.

Registrations and operators' licenses must be suspended until the owner or operator furnishes proof of financial responsibility for the future and, in addition, meets one of the following conditions: (1) deposits the required security; (2) settles all claims for bodily injuries or death resulting from such accident, up to the limits required by the law or (3) until the expiration of six months after the date of the accident.

If an owner or operator is unable to satisfy such judgement resulting from an automobile accident, his license and registration will be suspended or revoked until this final judgement is satisfied (up to the limits required by the law) and proof of financial responsibility for the future has been furnished.

A discharge in bankruptcy would not relieve a person against whom a judgment is awarded. Another important point, says Mr. Campbell, is that if an individual owns two or more automobiles and has an accident involving one of them, following which he is unable to meet the requirements of the law, he would lose the registration certificates of all the cars registered in his name.

Under the new law, if proof of financial responsibility is required for future accidents, this can be accomplished in three ways, Mr. Campbell said. These are: (1) by filing a certificate of approved Automobile Liability insurance; (2) by filing a bond, either corporate or real estate; (3) by depositing \$11,000 in cash or securities.

Mrs. Charles Nowland Passes Away After Lingered Illness

Mrs. Lydia Elizabeth Nowland passed away at her home on the Fair Ground Road, Tuesday, June 1 after an illness of six years.

Lydia E. Akins was born in East Jordan August 23, 1893.

On June 2, 1908 she was united in marriage to Charles Nowland at Boyne City.

Besides the husband she is survived by one sister, Mrs. Roscoe Smith of East Jordan and two brothers, Frank Akin of East Jordan and a brother Robert, whose address is not known.

Mr. and Mrs. Nowland had no children of their own but raised a niece, Mrs. Cuthbert (Bill) Barnett.

Funeral services were held from the Watson Funeral Home Friday afternoon conducted by Rev. J. C. Mathews of the Methodist Church of which she was a member. The bearers were, Boyd Hudkins, Lyle Persons, Lyle Peters, Edd Ager, John Bennett and Joe Martinek.

Those from away to attend the funeral were, Mrs. Carl Rushton of Traverse City and Mr. and Mrs. Lyle Smith of Bancroft, Michigan.

CARD OF THANKS

We wish to express our sincere appreciation of the many acts of kindness extended by neighbors and other friends in our recent bereavement.

Charles Nowland
Mr. and Mrs. Roscoe Smith
Frank Akins
Mr. & Mrs. Cuthbert Barnett

South Arm Township Board of Review

Notice is hereby given that the meeting of the Board of Review of South Arm Township will be held at the Township Hall on Monday and Tuesday, June 14th and 15th, 1943.

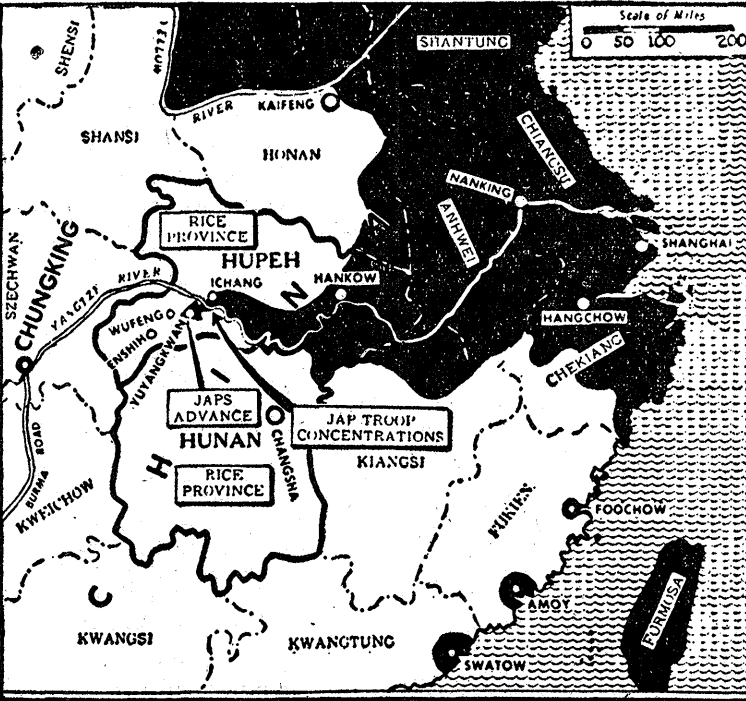

CAL. J. BENNETT, Supervisor.

WEEKLY NEWS ANALYSIS

Super War Board Spurs National Effort; Russians Press New Caucasus Drive; Dual-Threat Allied Bomb War Blasts Nazi War Plants and Italian Ports

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)
Released by Western Newspaper Union.

Up the Yangtze river toward China's capital Chungking a powerful Jap offensive had moved. The area in black on the map above indicates the forward extent of the Jap movement. Although Chinese troops succeeded in blunting the drive at various points, the menace to China's future participation in the war still remained.

EUROPE: Bombs Move Factories

As Allied bombers continued to plummet destruction on Axis European industrial and transportation centers, evidence mounted that the Nazis were seeking to cushion the impact of these raids by moving their war industries to less vulnerable spots in Hungary, Czechoslovakia and Austria.

The dispersal of German industry eastward was further indicated by the fact that Allied reconnaissance had disclosed no effort to repair or clear such key installations as the Focke-Wulf aircraft works in Bremen or the Renault plant near Paris wrecked by Allied bombs weeks ago.

Grimly and steadily, however, the Allied airmen continued their mission of disaster as Axis city after city was checked off the schedule. Examples of this thorough job were Dusseldorf and Dortmund, coal and transportation centers of northwestern Germany, where 4,000 tons of bombs were dropped on successive nights by the RAF. The munitions-making city of Essen was likewise blasted again, while during RAF Mosquito bomber pilots penetrated to the central German city of Jena, home of the Zeiss factories making optical instruments for the Nazis.

Meanwhile, invasion's prelude was paced by a series of port-wrecking raids by U. S. and British planes from French Africa on Italian shipping cities.

CHINA: Jap Drives Menace

Chinese official observers had frequently warned United Nations headquarters that a collapse of their resistance against Japan was possible unless Allied air and military aid was speeded up.

The stark truth of these warnings became evident as a four-pronged Japanese drive along the Yangtze river had reached within only 275 miles of Generalissimo Chiang Kai-shek's capital of Chungking.

Doggedly the Chinese defenders had contested every mile of territory with the invaders, even winning local successes in some areas, notably Ichang where Chiang's soldiers had blunted the enemy drive.

But the threat of Nippon's might was still poised within striking distance of Chungking and the Allied high command still faced the problem of abating that threat.

RUBBER: Strikers Go Back

Back to their jobs in Akron, Ohio, streamed 51,500 rubber workers following a curt ultimatum from President Roosevelt that ended a five-day strike stopping essential wartime rubber production.

Termining the walkouts "inexcusable" and a "flagrant violation of the no-strike pledge," the President had warned that "necessary steps would be taken to protect the nation's interests" unless the strikes were terminated. The President acted after the dispute was certified to him by the War Labor board.

Earlier, national CIO officials had urged the strikers to return to their jobs.

HIGHLIGHTS . . . in the week's news

BATH KNIGHTS: Gen. Dwight D. Eisenhower and Gen. Douglas MacArthur were appointed honorary knights of the Grand Cross Order of the Bath by King George of England.

FLOOD AID: Expenditure of \$55,000,000 for rehabilitation work in the flood-stricken areas of the Middle West was proposed by Senator Scott Lucas of Illinois.

MOBILIZATION: Super Board Formed

President Roosevelt's appointment of James F. Byrnes as director of the newly formed Office of War Mobilization meant that now the home front would be marshalled behind the war program on a scale hitherto undreamed of.

Coming after the historic series of conferences between the President and Prime Minister Churchill of Britain the establishment of the Office of War Mobilization marked a significant milestone. For now the responsibility for production, procurement, transportation and distribution of military as well as civilian supplies, materials and products was vested in one man—James F. Byrnes and the committee working with him. That committee included Secretary of War Stimson, Secretary of Navy Knox, Harry Hopkins and WPB Director Donald M. Nelson and Judge Fred M. Vinson who succeeded Byrnes as economic stabilization director.

RUSSIA: Red Power Rises

After the Nazis had tested the Reds' mettle on four separate sectors from Veliki Luki on the north to the Caucasus on the south, the Russians themselves provided the fireworks by hurling 150,000 infantry and tank men in a vast assault against the Axis Kuban lines in the Caucasus.

While early Russian accounts of this movement were characteristically laconic, a Berlin radio dispatch conceded that the first Russian waves had thrust the German lines back more than a mile on the Kuban front protecting Novorossisk and added that Nazi defenses were taking a terrific battering everywhere along their last remaining Caucasus foothold. Berlin said the Reds employed 10 divisions, at least 170 tanks, 200 planes and strong artillery forces.

Whether this Russian move heralded the long-awaited summer battle was still a matter of conjecture among observers.

UNITY: French Leaders Agree

Unification of French leadership with all conflicting forces submerged in the grand task of liberating the empire was a dream that had had many nightmare interruptions. But with a spirit of give and take evident among the Giraud and DeGaulle forces themselves and with persistent urging from the United States and Britain, the dream had become a reality.

Gen. Charles DeGaulle, Fighting French leader, hailed the new era in a radio broadcast on the eve of his historic trip from London to Algiers to meet General Giraud.

"Union of the empire will be accomplished," he said. "When it is realized how this is done in the face of difficulties . . . then one's respect for France and one's faith in her destiny will become even greater. . . . We have paid heavily enough for our absurd division to be convinced we shall emerge from the abyss only by uniting."

LANDING CRAFT: President Roosevelt signed legislation authorizing the construction of one million tons of landing craft and special boats at a cost of \$1,700,000.

TOLERANCE: The Junior Chamber of Commerce of Odessa, Texas, asked the city council to adopt a resolution eliminating the first syllable from the word "damyankee."

CASUALTIES: U. S. Losses Light

Balancing Axis versus American casualties in the Tunisian campaign, Secretary of War Stimson found the scales overwhelmingly in favor of the United States. The North African victory cost the United States 18,558 casualties, including 2,184 killed, 9,437 wounded and 6,937 missing or taken prisoner.

Axis casualties amounted to 323,000, or 18 times the American total. German and Italian losses included 30,000 men killed and 26,400 wounded, with another 266,000 taken prisoner. In comparison, over-all Allied losses were less than 70,000.

In addition to prisoners, the Allies captured tremendous quantities of military supplies, including large numbers of aircraft and many naval vessels, he said. Despite small American losses Stimson said the Tunisia campaign had developed nothing to cause the high command to reduce its manpower estimates under which the army is expected to total 8,200,000 men.

ALEUTIANS: Cleanup on Attu

Even as a senatorial committee was digesting a report that Japan would send a naval and land invasion force against continental United States this summer, American forces in the Aleutians were pursuing a relentless cleanup of enemy detachments on Attu island.

Purveyor of the tidings of Jap offensive intentions was Kilsoo K. Haan, Washington representative of the Korean National Front federation, who had established a record for prophecy by warning two months in advance of Jap plans to attack Pearl Harbor. Burden of Haan's report was that Admiral Tojo had disclosed plans for this offensive at a party in Tokyo at which Korean spies had been present.

In the Attu engagements, bayonets and hand grenades in the hands of American infantrymen had taken the place of trench mortars and automatic rifles, as the few resisting enemy were pressed into a narrow area from which escape was impossible.

WHITE HOUSE: African Precedent

The late Booker T. Washington had been a dinner guest of President Theodore Roosevelt in 1901, but Edwin T. Barclay, president of Liberia, was the first member of the Negro race to spend the night in the White House as the nation's guest.

Head of the Negro republic of Liberia founded by repatriated African freemen after the Civil war, Barclay was repaying President Roosevelt's visit to him after the Casablanca conference last January. Including his meeting with high government officials and members of the cabinet, as well as his address before the house and senate, President Barclay received the full honors accorded all top-ranking foreign dignitaries.

RAIL WAGES: Nonoperators Upped

Wage increases of eight cents an hour recommended by an emergency fact-finding board of the National Railway Labor board panel for more than 900,000 nonoperating employees will increase the rail industry's annual wage bill by approximately \$204,000,000, authoritative transportation sources estimated.

The 15 nonoperating unions had asked an increase of 20 cents an hour, with a minimum wage of 70 cents an hour and the union shop. The board declined to recommend these proposals. Subject only to approval by Stabilization Director James F. Byrnes, the board's recommendations were retroactive to February 1.

The wage increases, a report of the board said, are "the minimum noninflationary adjustments necessary to correct gross inequities and to aid in the effective prosecution of the war."

'NEW DIKES': To Stem Inflation

From the obscurity in which his retirement had shrouded him, Leon Henderson, former OPA director, emerged to warn the nation that "another set of dikes" is needed to dam what he called the rising tide of threatened inflation in the United States.

"New dikes, new types of controls, new kinds of exercise of power over production and distribution and over credit are bound to be needed," he said in a speech before the National Association of Purchasing Agents' convention.

Henderson declared that if congressional, private or executive action "are insufficient to dam the flood of hot spending power," a credit control agency "is plainly indicated and cannot long be avoided."

WAR PROFITS: Contractors Curbed

Smaller profit margins for war contractors loomed ahead as the war department's price adjustment board reported the elimination of nearly \$2,000,000,000 of what it termed excess profits through the renegotiation of army contracts.

The savings to the government represented readjustments on contracts covering 1941 and 1942 business to date. It was estimated that 1943 savings would be bigger.

Washington Digest

Army's Greatest Hazard? It's Question of Morale

Armed Services Do Everything Possible to Protect Mental Health of Servicemen; Parents Advised to Cooperate.

By BAUKHAGE
News Analyst and Commentator.

WNU Service, Union Trust Building, Washington, D. C.

What's the greatest hazard your boy must meet when he joins the army? Not the weapon of the enemy. We know only a very tiny percentage of those who don the uniform succumb to that.

It's the mental hazard. Take it from a man who met it and who, since, has read the alarming figures which show the war's (any war's) mental casualties.

And to meet that mental hazard you need just one thing—mental health.

Let me quote a few words on the subject of morale from one of the books which the army and the navy and the wise ones in other professions say is a wonderful protection for the mental health of the boy who joins the army.

That book is paper bound. It costs 35 cents. It is called "Our Armed Forces." It has a lot of pictures in it and a lot of sound sense. It is printed by the presses of the Infantry Journal, 1115 17th street, Washington, D. C. It is not sold for profit.

And here is what it says on the subject of morale. (As I say on the air, "I'm quoting"):

"Morale is an important quality of citizenship in the crises of peace, when the internal security of the nation is threatened. It is even more important in war, when the very existence of the nation hangs in the balance. It is, therefore, an objective of army and navy leadership to build a high degree of morale in the soldier and sailor."

About Habits

"The state of mind we call morale has its roots in long-established habits of thinking and acting. A student seated alone in his room, bent seriously over his books, may be tackling his studies with a high degree of morale. He believes what he is doing is worth while. He is determined to overcome whatever difficulties the subject matter offers. He works with a self urge. He gives up the picture show and the ball game if doing so is necessary for success. He has confidence in his ability to acquire the knowledge and skill he is seeking. In the undertaking of hundreds of similar duties in the ordinary routine of living is created the intangible virtue called morale. The young man who enters the armed services may therefore bring with him the basis for the morale upon which his success as a soldier and the ultimate victory of our nation so greatly depend."

"While morale has its roots in the character of the individual and his past experience, it may be greatly strengthened by association and close co-operation with others who are engaged in the same enterprise. Morale is contagious. It is a quality easily transmitted from one person to another. The serviceman receives his uniform. It is the symbol of his dedication. With it he becomes part of the great tradition. Behind him into history is a long line of those who have been so dedicated. The men who walked barefoot in the snow at Valley Forge. The Green Mountain boys with Ethan Allen, thundering at the gates of Ticonderoga. Calm men in the gun turrets at Manila Bay. Marines at Guadalcanal. . . . Chateau Thierry. . . . Tripoli. Helmeted fliers of a torpedo squadron at Midway. Through the procession of heroes, still bright as it recedes into distant time, has been handed down the great tradition."

Now when Johnny Doughboy joins up, he changes his habits of life as much as Christopher Columbus would have to change his if he came back and took a job managing a big, modern corporation, or riding herd on a bunch of long-horns or bossing a section gang. It would be tough for Chris to adapt himself to his environment. If he couldn't manage it, he would probably go haywire and blow his top. The dinosaur and some of his fellow prehistorics who couldn't adjust themselves to their environment retired permanently to positions in museums. Man, some men that is, adjusted. They took the ice age, the floods and the famine in their stride and here they are oh-ing and ah-ing at the dead

Environment

black market potato truck was photographed by a news photographer in front of a fire house in Washington. Spud-leggers fear nothing.

In the District of Columbia, it's illegal to take a drink of liquor standing up. Some people who take it sitting down can't stand up afterward anyhow.

BRIEFS . . . by Baukhage

A black market potato truck was photographed by a news photographer in front of a fire house in Washington. Spud-leggers fear nothing.

In the District of Columbia, it's illegal to take a drink of liquor standing up. Some people who take it sitting down can't stand up afterward anyhow.

The Victory gardeners who have suffered from "infiltration" call the jack rabbits "jap rabbits."

Who's News This Week

By Delos Wheeler Lovelace

Consolidated Features.—WNU Release.

NEW YORK.—Some day a hard-pressed U-boat commander may surface to find a dozen airplanes riding herd on his craft in mid-ocean. If he finds, in addition, a mother blimp drifting aloft until her birds do their job and come back to roost, all the blame will be Rear Admiral Charles E. Rosendahl's.

Rosendahl, a captain but up for promotion, has been ordered back to his favorite post, the Naval Air Station at Lakehurst, N. J., after a tour of sea duty. All through this war he has been asking for blimp plane-carriers.

Since the wreck of the Shenandoah Rosendahl has been accepted as one of the best informed men on lighter-than-air craft. When that big dirigible broke in two he drifted away in the bow section, no motors, no rudder, no anything. He and a few helpers free-ballooned the fragment until he could land her.

Rosendahl is a Chicago-born citizen of Texas who finished Annapolis in '14, served eight years on surface craft and then volunteered for a tour at Lakehurst, then as now the navy's chief station for experiments with dirigibles.

He helped develop the stationary and mobile stub masts, he worked out mooring problems and ground-handling and he never stopped preaching the virtue of the big gas bags.

For a long time, catastrophes, such as the loss of the Los Angeles, the burning of the Hindenburg and the Shenandoah accident kept him from getting far. But now congress has ordered 200 blimps for anti-U-boat work.

YEARS ago the Kansas City baseball team was in a slump and had no bat boy to boot. Somebody remembered a smart kid making Bat Boy to Baker sandwiches in the re-In 13 Steps; Now freshment Deputy Food Chief stand. That afternoon the team sprayed hits all over, won hands down and the kid got a steady job, though he had to quit finally because he needed more money.

Now the War Food administration, judged by some to be slumping and certainly lacking a deputy administrator, remembers the same kid, a solid citizen these days, and E. Lee Marshall is drafted again. Since the old Kansas City days, Marshall has held a baker's dozen of jobs and in his last was, actually a baker. He quit the chairmanship of the Continental Baking company to go with the food administration.

He was born on a Missouri farm 58 years ago. When he was only 20 years old he owned his own food brokerage company. Later he managed a bakery, and after a merger was called east to become, eventually, head of Continental.

He is a big man, and a nose flattened at the tip lends an accent of good nature to his round aggressive face. On his family tree is a notable ancestor, John Marshall, first chief justice of the Supreme court.

IN THIS year of grace the Bellamy blueprint for Utopia is like Hitler's uglier new world, behind schedule. After "Looking Backward"

75, He Heads Big first wide-eyed readers reached its Project for Less Bellamy, in Than \$1 Per Year 1888, figured

that 50 years would be plenty for his happy revolution. Fifty-five have rolled along and we haven't even those superneterodyne houses, state-owned and suited to the tenant's "taste and convenience wholly."

Closest to them, maybe, are the different but promising projects of the private enterprise Bellamy snubbed. Consider the huge new construction with which the Metropolitan Life Insurance company and Chairman Frederick H. Ecker, mean to revive a blighted East side area on the still far from Utopian island of Manhattan.

This will be a major unit in a nation-wide apartment community program that Chairman Ecker is directing at the age of 75. And he is working for nothing.

He is working for only a little less than he got when he joined Metropolitan 60 years ago. He was a \$4 a week office boy then. At 20 he had charge of all the company's real estate transactions and later was the treasurer and finally, president.

Two generations back, the Ecker family made their home in Alsace. That was the Jacob P. Ecker branch. Jacob served with one of Napoleon Bonaparte's generals. He came to this country when his son John was but seven years old. When the Civil war broke out, John fought in 32 engagements, on the Union side. He was left for dead once, but lived to become a major. When peace came, he moved from Phenicia, in upstate New York, to Brooklyn. Here young Frederick went to school until he was 15 years old, then took a job as office boy with the Metropolitan.

IF WE GET CLOTHES RATIONING

"Mr. Nelson warned that the rationing of clothing might be necessary in this country."—News item.)

OPA Chairman—Mr. Twitchell, you know the charges. It is alleged you were seen going around in a new pair of pants. Inspector Binkle, will you state the facts in this case?

Inspector—Well, the office got a tip that Twitchell was going around in new pants.

Chairman—What color?

Inspector—Gray.

Chairman—Did your informant say where he got these pants?

Inspector—Yes, sir, in a black market.

Mr. Twitchell—You have your facts twisted. They were black pants and I got them in a gray market.

Chairman—Proceed!

Inspector—Well, after getting the tip I started to trail Twitchell. But for the first week every time I saw him he was wearing an old brown pair, with a green coat.

Chairman—Did you determine if the coat was a black market coat?

Inspector—No; there were two other agents on that end of it.

Chairman—Proceed. What happened next?

Inspector—Well, finally, on a Sunday morning I saw Twitchell walking in the park and he had on the pants in question. I closed in on him at once and took him to headquarters for a grilling.

Chairman—Did he give any trouble?

Inspector—On the way down he tried to take his pants off and throw them away, thus destroying the evidence.

Mr. Twitchell—That's a lie. I did not take them off to throw away. I suddenly found I had them on backwards and was correcting the error.

Chairman—Do you mean to tell me a man could go around with his pants on hindsides-front and not notice it?

Mr. Twitchell—In these topsy-turvy days it's easy.

Chairman (to inspector)—What kind of a pants card did he have, an "A," "B" or "C"?

Inspector—He only was entitled to an "A" card.

Chairman—An "A" card only permits short pants.

Inspector—Twitchell was using a "B" card at the time.

Chairman—How did he get it?

Inspector—On a claim he needed supplemental pants.

Chairman (sternly to Twitchell)—Why did you need supplemental trousers? Were they business or pleasure pants?

Mr. Twitchell—Business. And the business is tough on pants.

Chairman—What business are you in?

Mr. Twitchell—I'm a paper-hanger.

Chairman—Why don't you wear overalls?

Mr. Twitchell—I tried a pair but I shivered so much I got the wall paper on all crooked.

Chairman—What caused the shivering?

Mr. Twitchell—They had been frozen for the duration!

THAT SUMMER VACATION

The summer vacation this year, if any, will be a problem. The shorter the distance the better, Washington announces, even by train. To get anywhere by automobile you will have to be the discoverer of a new fuel. So what it amounts to is the Rationed Vacation.

There's a ceiling on beach romances, mountain fun, marshmallow roasts, moonlight canoeing and hotel porch gossip. With everything frozen except red ants.

But there will be no kicking. War is war, and the public will realize that it is lucky not to have to get a book of coupons and select its summer outings by the point system.

Up to the time when you have to study a point chart to see how deep a sunburn you are entitled to, or consult your ration board to determine whether it will take red or blue coupons to take a swim, all will be well.

No matter how limited your vacation may be in 1943, just bear in mind that you don't have to register for it.

And remember, too, that while you are spending your two weeks in a hammock in your own backyard no neighbor is getting four weeks at a swank resort through the black market.

Mr. Eastman, the transportation boss, urges the public to do as little vacationing as possible, and especially to avoid starting or returning on week ends.

He will have to do a little extra harping on this point. The American public has become so accustomed to leaving on Saturday that it has become a habit. Mr. Eastman should get a few good slogans at once. Something like:

"Do your patriotic part with a Thursday start!"

PATTERNS SEWING CIRCLE

Fun Ahead

GRAND wardrobe for youngsters who get into everything. The smock for looks... the overall and playsuit for fun.

Barbara Bell Pattern No. 1628-B designed for sizes 1, 2, 3, 4 and 5 years. Size 2 overall requires 1 1/2 yards 35-inch material, smock 1 1/2 yards, playsuit 3/4 yard.

'Once Bitten, Twice Shy'—So Goes the Old Adage

Getting ready to perform his final and greatest feat, the local amateur magician stepped out to the edge of the platform and said:

"For the purpose of my next trick, which I assure you will be a good one, will some gentleman in the audience kindly lend me his hat? Will you, sir?" he added persuasively to a man in the front row.

But the man in question clutched his hat firmly with both hands and shook his head.

"I will not," he retorted indignantly, "not until you return the lawnmower you borrowed last summer."

INSPIRATIONAL LUMINOUS CROSS

(Glow beautifully in darkness)

Made of plastic. Self standing altar step style. Height 4 5/16" width 2 9/16". Absorbs LIGHT and gives off a beautiful GLOW in darkness. Harmless and permanent. Sold by recognized dealers. MAIL ORDERS FILLED. No C.O.D. Satisfaction Guaranteed.

CROSSES—2 for \$1.00

Training War Dogs

This is the first war in which our army has trained dogs for war work. During World War I the army borrowed war-trained dogs from the Allies, but did not train any of its own dogs.

Shipbuilding Stepped Up
Some Since Early 1800s

Mr. Henry Kaiser's achievements in ship production make an interesting contrast with the building of British warships a century ago.

A 74-gun ship named Boscawen was laid down at Woolwich Dockyard in 1811 but not launched until 1844. The 50-gun Worcester was started at Deptford in 1816, reached the christening period in 1831, but remained on the ways until 1843.

Two ships named Royal Sovereign were also in the slow-motion class. The first began at Portsmouth in 1833, and had her name altered to Royal Frederick six years later. Another 20 years went by, with very little work done, before she was renamed again, this time Frederick William. Finally, as a screw ship, she took the water in 1860.

The other Royal Sovereign was started in the same dockyard in 1844. Three years later the Admiralty decided to cancel the work altogether, but they soon changed their minds, and 1857 saw the ship afloat at last.

AROUND THE HOUSE

Here is a way to prevent loose casters from dropping from the furniture when it is moved about. Put melted paraffin in the hole and insert the caster before it is set.

Use a potato ricer to squeeze out that hot compress. With it you can use water much hotter than your bare hands can stand.

Yellowed ivory knife handles can be whitened by rubbing them with turpentine.

An old orange wood stick from your manicure kit will be found helpful to get at the dirt in the corners when washing windows or floors.

To lengthen the service of a broom, as it wears down, cut it or 2 rows of the stitching.

In grafting fruit trees in the spring, keep the grafting wax from sticking to your hands by keeping a piece of pork rind handy and rubbing your hands on it occasionally.

To save time and hosiery, just rub paraffin on the inside of the toes of your stockings. You will have no darning to do for a long time and one application lasts through many launderings.

THINGS for YOU TO MAKE

NOW, aren't you glad you saved those tiny scraps of muslin, prints and plain colors? Just see what an exciting array of gay panholders can be fashioned from these bits of material. Whether you prefer the vegetables, fruit motifs, flower faces, sunbonnet babies or pieced designs, your scrap bag can surely supply the "mak-

ings"—and those odds and ends of floss will do the rest.

You may indulge your preference in stitch, too, for embroidery, applique and piecing are all employed here. Hot iron transfer Z9542, 15 cents, brings motifs for this entire group of panholders. Send your order to:

SNAPPY FACTS ABOUT RUBBER

Improper brake adjustment is a rubber-waster. Have your brakes checked regularly. If one wheel "takes hold" before the others, its rubber carries the full brunt of stopping the car, with resultant excessive rubber wear.

In their search for rubber substitutes, scientists are now probing myrcene, a turpentine derivative discovered about fifty years ago. The list of rubber "sources" is growing almost daily.

It is expected that the 1943 harvest of crude rubber in the United States will total 600 tons, all guayule. Normally this country consumed about 600,000 tons of rubber a year.

LOOKING BACKWARD

From the Herald Files of Forty, Thirty and Twenty Years Ago
Compiled by Mrs. Mabel Secord

Back in 1885 Alexander Bush and F. L. Wilson came here from West Bay City and started a hoop factory which they operated together until 1892 when it closed for lack of raw material. Mr. Bush and Reuben Glenn then bought the only bank in town from its founder, George E. Martin. (Note: Mr. Martin came here from Lansing and opened a temporary bank in D. C. Loveday's store while having a frame building put up on the site of the present State Bank.) In 1896 Mr. Bush sold his interest to his partner's father, Joseph G. Glenn and son, George G. Glenn.

While Mr. Bush was connected with the Bank he secured for David Ward, millionaire lumberman of Pontiac, the right-of-way for the Detroit and Charlevoix railroad from Alba to East Jordan.

Mr. Ward and members of his family were frequent guests in the Bush home. David Ward was very fond of fried salt pork and milk gravy and many a time when he would arrive from one of his camps in the middle of the night, Mrs. Bush would get up and prepare his favorite food.

The Bush home (still standing) was on the West Side and in those days nearly every family kept a cow and nearly every cow wore a big bell as they roamed at will around the town and its outskirts. Flies bothered, even at night, and the cows, lying in various parts of town maintained a nightly symphony with their bells as they chased their tormentors.

One time Franklin Ward, a grandson of David's, was visiting the Bush home, and during a lull in the evening's conversation a cow-bell tinkled. Frank exclaimed, "Those darned bells kept me awake all last night!" Nellie Bush agreed and added that she would like to take them all off. A long look passed between the two, then Nellie asked, "Are you game?" Frank retorted, "You bet I am!"

When the town was definitely sleeping they stole out and made the rounds, one holding the clapper while the other slipped the bell from the strap. They came home, loaded with bells, and then the problem arose as to their disposal. Nellie's brother, Stanley, came to their rescue by putting them in a gunny sack,

carrying them out to a field, and burying them.

It was a nine day's wonder as to how the cows lost their bells. Many years later when the Detroit and Charlevoix railroad was built here from Alba, men digging for the road bed unearthed a great pile of cow-bells and wondered how in tarnation they got there.

(All right reserved by Mabel E. Secord.)

The issue for June 13, 1903 is missing from the file and, anyway, we seem to have gotten a week ahead of schedule so will wait a couple of weeks for the calendar to get straight once more.

June 7, 1913

Nineteen young people were in the 1913 graduating class. Two numbers on the lengthy Class Day program were a Physics Experiment, "Mechanical Advantage of the Pulley," by Mary Weldy and Margaret Hott, and a Chemistry Experiment, by Stewart Carr and Frank Whittington. Esther Porter was Valedictorian and Mina Stewart was Salutatorian.

Manager Eugene Adams installed a new radium gold moving picture screen at the Temple Theatre this week. The cost ran considerably over a hundred dollars.

Mr. and Mrs. Charles A. Hudson now occupy their new residence on Main St.

Carl Stroebel has his new home on Second St. plastered and nearing completion.

Mrs. J. Anderson left this week to spend the summer with relatives in Sweden and Norway. The Misses Winnifred Maddaugh and Ethel Crowell have completed their school work in schools near Boyne Falls.

Four Boyne City men caught 144 speckled trout and four rainbows in the Jordan River, Sunday.

June 8, 1923

There were eleven graduates in St. Joseph's Parochial School. Archie LaLonde was Valedictorian and Eileen Farmer was Salutatorian.

The Public School graduated 24. Alma Anderson and Anita McDonald were Valedictorian and Salutatorian.

Billy Francisco Carol Collins

FOURTH GRADE — Mrs. Thorsen
Total amount of defense stamps for the year \$328.50. We had a party yesterday. The refreshments were ice cream, cake and cool-aid.

FIFTH GRADE — Mrs. Benson
Donald Kowalski and Robert Saxton have a perfect war savings stamp record for every week since Jan. 15. Those who have a years perfect attendance are Margaret Blossie and Donald Kowalski.

Promoted to the sixth grade with honors are Patsy Wright, Margaret Blossie, Donald Karr, Jimmy Nachzel, Rena Knudsen, Esther Zitka, Yvonne Nowland, and Joe Hammond.

Students to be commended on their progress from last September to the present time in the following subjects are: Reading—Dorothy Saganek, Robert Saxton, Vale Keller, and Dale McWalters Spelling—Richard Donner, Ardith Brock, Lou Young, Patsy Simmons, Ernest Piney, Philip Malpass, and Walter Moblo. Arithmetic — Billy Walker, Penmanship, Joyce Petrie.

If you play golf at Petoskey this summer, you may have one of our group as a caddy. The rest of us will be picking cherries, raising chickens, farming, camping, taking care of children, raising Victory gardens, and working at the bowling alley.

5TH & 6TH — Mrs. Larsen
Julia Greenman has not been absent from school all year. Barbara Braman is Champion Defense Stamp buyer of the year.

The following children have purchased war bonds during the school year: Gayle Davis, Barbara Braman, John Kerschner, Bob Kitson, Ralph Scott and Russell Fyan.

The following children have a B average for the year: Barbara Braman, Lawrence Whiteford, Glenn Persons, and Russell Fyan.

We had a very interesting Nature study lesson in Mr. Karr's room one day last week. We have been collecting and studying about bugs and insects.

We had our picnic dinner Friday noon with Mrs. Benson's 5th grade. After recess we played ball. Esther Zitka's team won. Lawrence Wright's team won the boy's game.

The following children will work on farms this summer: Floyd Allen, Leo Danfourth, Alfred Moblo, Russell Fyan, Phyllis Collins, Glenn Persons, Lawrence Whiteford, Robert Vrontron, Percy Kowalske, Marvin Roberts, Raymond Welsh, John Kerschner, Lyle Peck, Richard Lee, Robert Moore, Lawrence Wright, Gayle Davis, Virgil Sommerville, Guy Valance, Fred Burbank, Mary Bricker, Ralph Scott, Betty Ager and Phyllis Bergmann.

SIXTH GRADE — Mr. Deforest
We purchased \$3.10 in War Stamps this week. For the year our sales were \$276.65.

The grade school's War Stamps purchase this week amounted to \$61.25. The year purchase amounted to \$2,091.30.

We had a picnic Friday. We went to the other side of the school park. We ate and then played games. We enjoyed ourselves very much.

BACCALAUREATE SERVICES

Graduation activities began last Sunday evening when the Baccalaureate Service was held for our thirty-three graduates in the high school auditorium. The graduates attired in blue and white caps and gowns marched down the aisle in time with the music. The Reverend Sidebotham began the service by opening with a prayer. A sextet composed of three graduates and three teachers then sang "Send Out Thy Light." The Scripture was then read by the pastor in charge, and he chose as his topic "God Bless You."

The congregation then arose and sang "Onward Christian Soldiers" as the 1943 graduates marched out of the auditorium.

TEACHERS' SUMMER PLANS

Miss Hanson — Plans to visit in Minneapolis and work on the railroad; also spend some time at her home, Superior, Wis.

Miss Swedburg — Will work at the U. of Chicago and have her tonsils out.

Mrs. Thorsen — Catch up on her housekeeping.

Miss Muck — Staying at home in Jackson.

Mrs. Hager — Plans to take a trip, but her destination is undecided.

Mr. DeForest — Working at Canning Factory.

Miss Juntunen — Not returning and is going to the Copper Country for loafing, swimming, fishing and camping.

Miss Wolfe — Staying home in Tonawanda, N. Y.

Mrs. Benson — Intends to spend her summer painting her house, inside and out.

Mrs. Alma Larsen — Spending the summer at home.

Mrs. Reynolds — Housecleaning and summer school will occupy her time.

Mr. Smith — Depend upon the army.

Mr. Leatha Larsen — Staying in East Jordan and farming.

Miss Gustafson — Her plans are very uncertain but is going home to Marquette first.

Miss Skrocki — Working in Company office in E. J.

Miss Johnston — Returning home in East Lansing and working.

Mr. Walcutt — Working like blazes all summer probably at the Canning Factory.

Mr. Damoth — Working at Canning Factory and fishing every day off.

Miss Larsen — Not returning, but will spend her time at home in Frankfort.

Miss Scott Hasn't decided.

Mr. Wade — Can be found at school here in E. J.

Miss Notari — Not returning. Shall be found at home in Iron River, probably sleeping.

Mr. Jankoviak — Working at Canning Factory and being busy with his son.

Mr. Karr — Plans to spend a week in July in East Lansing and otherwise be in E. J. where he will take the F.F.A. on week end picnics during the summer.

Resort Operators Allowed Extra Gas

Under the amended OPA Mileage Regulations, Resort Operators are entitled to up to 810 miles per month for the express purpose of "securing supplies," or making trips to pick up customers of his facilities." Amount depending upon what the individual can show from past experiences.

THE OLD JUDGE SAYS...

"I can't think of anything else you'll need for your Victory garden, Judge... you've got pretty nearly everything."

"I think so, too, John. Ever get your asparagus patch going?"

"I gave that up last year, Judge. Tried it six years in a row with no luck. Just haven't got the right soil, I guess?"

"Well, I think you're wise, John... no use keeping on trying things you know won't work. Just like prohibition. State-wide prohibition has been tried in this country

seventy-two times in the last ninety years. It has been adopted forty-seven times in the past thirty-three years and discarded everywhere except in three states. Same thing was tried in eight provinces in Canada and in Norway, Sweden, Finland and Russia but it was an admitted failure and universally abandoned.

"The reason is prohibition does not prohibit. All you get is bootleg liquor instead of legal liquor, plus no end of crime and corruption."

Conference of Alcoholic Beverage Industries, Inc.

DEEP WATERS

W.N.U. FEATURES

THE STORY SO FAR: Robin Dale, a young artist, goes to Moose Bay to see her fiancé, Will McPhail. Just after her arrival, Will is accidentally killed. Learning that Will's brother, Angus, blames her for his death, Robin goes to Angus' fishing cruiser to wait for him. She falls asleep and awakes to find the boat at sea, bound for Labrador. Angus' crew consists of Pat Donohoe and a cabin boy named Romeo. Another cruiser passes them, and Robin recognizes a man named Jenkins. Later they see a government patrol trail Jenkins' boat. Soon after they leave the next port they discover Jenkins has taken over the boat. He orders Angus into the stateroom.

Now continue with the story.

CHAPTER X

When Angus was gone, Mr. Jenkins looked at Robin. "You've got inside," he said. "Some girls would have yelled and carried on. Nobody's going to hurt you. Go in there with him."

She obeyed. Mr. Jenkins said, "Shut the door." Robin did so. She and Angus, close together in the narrow space between the bunks and the bulkhead that divided the stateroom from the engine room, heard him move to and fro in the cabin. Then he seemed to go forward, and Angus looked down at her thoughtfully and he said:

"He's right. You're brave."

"I'm scared, of course," she admitted. "But I'm interested, too. What is it all about?"

"I ought to have taken you back to Moose Bay. I had no right to get you into this mess."

"You didn't know. It's all right." They spoke in whispers, standing close together. In the forecastle there was a murmur of voices. McPhail said:

"Yes, I did know. I heard all about it on the patrol boat last night. They've had trouble at Moose Bay for months, because someone was bringing in alcohol and selling it to the men and they couldn't find the source of supply. They knew Dad Freel sold some. Marm Freel ran a restaurant back of Dad's barber-shop, and Dad sold alky. The company spotters watched them to find out where they got it. They noticed that Marm Freel bought an awful lot of baked beans. Canned beans. That gave them the lead. Yesterday Jenkins delivered a supply of groceries to Marm Freel. They waited till he had left Moose Bay, and stepped in on her and started opening bean cans. The cans were full of alcohol."

"But—why didn't they arrest Jenkins? Why did they let him get away?"

"Dad Freel wasn't the only one selling it. Some of the commissary clerks were in it too, at Moose Bay and in the swamping camps. Jenkins had a lot of men working with him. They wanted him out of the way so the gang would have no leader. Dad Freel talked after he was arrested. He told them Jenkins was on his way to meet a fishing schooner from St. Pierre that brings him his supplies."

"That's why the plane was following him?"

"Yes. Flying high, staying well behind him, just keeping him in sight."

"That's rather wonderful, isn't it; to think of the plane watching him from way up in the sky. But—how did he get aboard this boat?"

McPhail said grimly. "Romeo. If I had had any brains, I'd have known something was wrong when Romeo denied that Jenkins came aboard us in Moose Bay."

"I see." They were both silent for a moment; and then they whirled together. For Mr. Jenkins spoke, just outside the closed door, in calm tones.

"Good guessing, McPhail," he said. "Come out now and I'll tell you the rest."

She whispered: "He was listening!"

McPhail reached past her to open the door. Jenkins motioned with his pistol. "Sit where you sat before," he said.

Robin saw that he was now more composed. As she sat down again, the engine started, and settled into a steady murmur punctuated by the click of valves; and a moment later she felt the clutch take hold, and the boat heel to her course. Jenkins said mildly:

"Now we're all set. The Irishman is tied to the fo'c's'le ladder, not tight enough to hurt him. He's pretty comfortable." He smiled a little. "I'm hungry. Are you, McPhail?"

Before Angus could answer, Robin said: "I am. May I get supper for us all?"

Jenkins nodded. "Yes, sister, go ahead. I'll keep this door open, keep an eye on you."

She smiled. From the galley, she could see Pat Donohoe. He sat on the floor at the foot of the steel ladder that led up to the hatch. He faced forward, and his arms were drawn back and secured to the uprights of the ladder with black electrician's tape. Cords were knotted over the tape to make his bonds more secure. She said:

"We're all right, Pat Donohoe." Jenkins called: "No talk, sister. Shut that door into the fo'c's'le."

She did so, lighted the little stove, put water to boil, looked along the shelves to see what the larder offered. She went to ask them. "Creamed codfish? I make it rather well."

"Suits me," said Jenkins. "Don't talk about things till I can hear you, will you?" she suggested, smilingly. "I want to know what's going on."

"Plenty of time," Jenkins assured her. "We've got two or three days ahead of us."

She tried not to let him see how this disturbed her. Two or three days! Back in the galley, she put flakes of salt cod in a skillet and covered them with water and brought them to a boil two or three times; then with two forks she plucked them into small bits, poured over them a can of condensed milk and added a chunk of butter, pepper, a teaspoonful of savory sauce. She made toast and served two plates, carried them into the cabin, set one before Mr. Jenkins, the other before Angus on the desk. "May I take one to Romeo? And feed some to Pat?" she asked. "I'll play square."

Jenkins hesitated, then assented. "Go ahead." He grinned wisely. "But first, sister, take my plate here to McPhail and bring his to me. Just in case you did try something."

She laughed approvingly. "How clever of you! I feel like one of the Borgias. Only I'm afraid there isn't a drop of poison in the house." She shifted the plates, returned to the galley, preparing two more, took one to hand up to Romeo in the pilot-house, smiling up at him.

"Remember you brought me my first breakfast aboard?" she said. "It's my turn now."

Pat scowled at her and would eat nothing. "Be off wid ye," he said.

In the cabin, Jenkins reminded her of his tea; and she brewed tea for him and for McPhail and herself. Afterward she made quick work of the dishes and came back to the cabin again. "Now," she said,

Pat scowled at her and would eat nothing.

"What comes next? Tell us all about it, Mr. Jenkins."

"You know the first of it," he said. "I heard McPhail telling you. He had it right. I saw the plane with my glasses; so I sent my boat toward the Straits. She'll lead them to Greenland if they'll follow her that far." He grinned. "I'm hoping they'll stay on her tail till I'm clear. I always meant to pull out of the game this fall, anyway. I've got enough, where it's safe." His eyes were for a moment stony and still. "I'd like to go back and make Dad Freel sorry he talked so much; but I don't want to risk my neck just to break his. So I'm pulling out, and—I'm going to use your boat to get away."

"Where to?"

"There's a schooner waiting for me at the right place." He stilled. "Now, McPhail, I hate to do this. But I can't watch you all the time. I've got to have some sleep. I'll have to tie you up, in the fo'c's'le with Pat."

McPhail's tones were steady enough. "How about Miss Dale?"

"She can have the stateroom. I'll sleep on the bench here."

It was suddenly very quiet in the little cabin. Robin felt cold. Her cheeks stiffened, and her lips were tight. She looked quickly at Angus, and she knew miserably that panic flickered in her eyes.

He met her glance; then he spoke again, quietly, to Jenkins. "No, you won't tie me up. And—you won't stay off with Miss Dale."

Angus did not raise his voice when he contradicted Jenkins. He did not shout, nor brandish his fist, nor otherwise emphasize his simple words; yet what he said was like the alarming clamor of a great bell. Robin thought it was suddenly very quiet, so that she heard the clicking valves of the engine, the steady purr of the exhaust barely audible, the hustle and rustle of the water along the cruiser's sides. She thought, curiously, of Mrs. Freel. Jenkins had

proposed that she come cruising with him down to the Labrador, with Mrs. Freel for chaperone.

The silence seemed to last a long time, and then Jenkins smiled a little grimly. He even laughed. He said: "You've got me wrong, McPhail." He looked at Robin in remote appraisal. "I'm not saying I wouldn't make a pass at her, if the setup was right. Fact, I did, before I knew any of this was going to break. I thought I might kid her into taking a little trip with me. But that's out, now." He frowned soberly; and he said: "The police are after me, McPhail. I've got other things on my mind right now besides fooling with women. If they catch me, I'll be locked up for a few years, and I'm kind of jumpy about it. The only thing I'm thinking about is getting away. I'm not thinking about dames. You don't need to worry about her." He urged, almost wistfully: "You know what I mean. If you were two jumps ahead of jail, you wouldn't waste time on a girl."

His gesture was curiously scornful. "There's a million girls in the world. I've got plenty of time for them after I get clear. I'd give a nickel right now if she was safe home in bed. With her aboard, you're apt to get some fool idea of protecting her, and make trouble, and I'll have to shoot you."

He looked at Robin in a grim resentment. "Sister, I wish you were out of this. If it were just us four men, we could be sensible; but Romeo's always been woman crazy anyway. He's apt to make a pass at you, and McPhail here thinks he's got to look out for you, so anything can happen. You're nothing but a pain in the neck to me."

Robin found herself remembering a certain wise old orchard man whose ten thousand apple trees covered the southerly cant of the hills above that Maine farm where she had sometimes spent her summers. Jeff Plaisted was his name. He and Robin had been friends, given to long talks together; and she remembered something he once told her about apple trees that were about to die, and how they sought to bear fruit as though to pass on this life in them while they could; and how people were like trees. . . . She looked at Angus, thinking. He would understand that. I must tell him, some day.

Angus was saying something, in a plausible firm tone. "But Jenkins, you might change your mind. I'm not going to let you tie me up. I'm staying aft with Miss Dale."

Jenkins wagged his head. "Man, you're stubborn!"

"As long as you're not ready to kill me just to have your own way, I do the deciding."

"I don't have to kill you to make you behave."

"Say you shot me through the knee, then," Angus argued, calmly enough. "I might bleed to death, or die of infection, and that would still mean hanging for you. You couldn't attend to my wound without coming within my reach. If you did, either I'd rip your throat out or you'd have to kill me—and you don't dare kill me, because you know we may be spotted by the plane at daylight." His tone was persuasive and reasonable. "I'll be missed in the morning. They expect me at Loon River at Sunrise, and—that plane can cover a lot of territory pretty fast, Jenkins. They're apt to be alongside pretty early."

Robin saw that Mr. Jenkins was again perspiring with nervousness. The little cabin was on the surface peaceful enough; but affairs were in a precarious balance, which any word might disturb. Jenkins said through tight lips: "If they do, McPhail, you'll speak a piece. If the plane does spot us, you're going to step up on deck and tell them you changed your plans, that you're going to work the Newfoundland rivers first. You'll tell them just that! I don't want to hurt you, but I'm pretty jumpy. Don't get me sore."

"Exactly," Angus agreed. "If you're overhauled before you get clear, you'll need me to explain; but I can't explain if I'm dead. So you won't shoot me tonight. So tonight you've no choice but to let me have my way. You can't compel me to do anything."

Jenkins said after a moment: "What's your proposition?"

"We'll let Miss Dale take the stateroom. You and I can sit here and chat."

"No chat!" Jenkins told him. "That's out. I'll have to spell Romeo at the wheel, for one thing; and I'll have to get some sleep. So will he. I've got to have you somewhere where you can't start any trouble."

Angus said: "Jenkins, you've been in a dirty business; but that's your affair, and the affair of the police. It's not mine. My concern is to protect Miss Dale, and Pat yonder, and myself. So I'll undertake to play along with you, as long as you behave. I don't want to be shot, any more than you want to shoot me. I'll make any promises, within reason, that you want."

Jenkins eyed him thoughtfully. He said at last: "You're playing dumb. You don't fool me, McPhail." He added: "I forgot, a while ago. I took your word you'd behave, the other time. But I forgot, then. I remember now."

(TO BE CONTINUED)

Cute Clothes for Youngsters Made of Men's Cast-Off Shirts

By CHERIE NICHOLAS

WHEN dad's or brother's shirts are "all gone" at the collar and cuffs, don't deposit them in the bag with future dust rags. These days it's a patriotic duty to conserve every piece of fabric that can be reclaimed for active wear. You'll find you can transform these shirts into rompers, dresses, sun-suits, shirts and pinafores for the young members of the family just by getting busy at the family sewing machine and starting to stitch away.

Men's shirts, as a rule, are made of fine sturdy broadcloth and madras fabrics in stripes, line checks and other interesting weaves that make them perfect for children's clothes. So whether you plan to convert the shirt into a shirt or rompers for your young son or a sunsuit and bonnet for your young daughter, here are some general steps to remember.

Cut the shirt apart along the seams. Remove the collar and yoke. Leave the buttons and buttonholes intact, you may be able to use them in recutting for the back closing on a little dress or the front closing on a boy's shirt. Be sure to launder all the pieces and press flat to make pattern placing, pinning and cutting easier and more accurate. Fold the back section down the center and match up the fronts and sleeves so that the fabric design and grain all go the same way. It doesn't matter what type of garment you make, the next step is to lay out the pattern on the fabric.

Pin the pattern carefully to the material, then pink all the fabric edges with the pinker attachment in your sewing machine kit. This will dispose of the more involved task of making French seams, because once the fabric has a pinked edge simple seams are all that is necessary. When using a pattern that calls for buttons and buttonholes, down the front or back, place the pattern so that the center line of the button and buttonhole markings on the pattern fall on the center line of those already on the shirt. Additional buttonholes can be made in a jiffy with the buttonhole attachment. Remember, too, that girls' clothes button from right to left, boys' from left to right. Just the opposite is true if the garment has a back closing. It is important to mark all the pattern notches on the fabric to insure precise points of joining. The final step is stitching.

Glamorize each costume with such clever trimming tricks as lattice work effects and medallions which you can stitch up in practically no time by using the unerring little handcraft attachment to your sewing machine with which rickrack braid (rickrack is lavished on dresses and pinafores this season) is attached in unique and ornamental ways. Cutout monograms to adorn tiny pockets can be made of scraps of material and are jiffy-stitched with the aid of the zig-zag attachment. If you would like to dramatize your daughter's writing ability have her write her name on the collar of her dress, then with the one-thread embroiderer you can follow her lettering with a signature stitch.

A man's worn shirt of beige-striped madras was used to make the enchanting little sunsuit and sunbonnet for the two-year-old miss seated so gleefully centered in the picture. In the one-piece dress to the right there's a Peter Pan simplicity that's very practical. It's made from a man's pin-stripe shirt. The cost to remake was about ten cents for navy blue binding stitched on quickly with the binder attachment to enhance the edge of collar, sleeves and pockets. Pinafores as seen in the little sketches are the big news in little folk's fashion circles. Men's striped shirts make unusually attractive pinafores for children when you use the stripes vertically for the garment and horizontally for pockets, waistline band and pleated edging. Add to this the professional details of applique hearts (see sketch lower left corner) that can be applied quickly with the zigzag attachment and you have a pinafore that looks brand new and expensive.

By dropping in at a local sewing center even a completely uninitiated beginner can learn to stitch up a variety of attractive outfits from closet castoffs. In just a few afternoons via wartime budget lessons you can master all the modern sewing short-cuts as well as shirt-reviver tricks.

Released by Western Newspaper Union.

Gay Play Suit

Vividly colorful cotton prints is the big style message for play suits this summer. Strikingly gay red cotton patterned all over with print motif of black and white bows is used for the intriguing suit pictured. As practical as it is colorful this suit is a three-piece, the full skirt being worn over brief shorts. The little bodice is designed for midriff exposure to health-giving sun rays.

Patchwork Fashions

A new craze in the fashion world is that of patchwork blouses, hats, pinafores and a whole list of novelties made of pieces of calicoes, gingham and so on that are patched together. It is said that a thriving business is being done at the remnant counters for the idea is one that is appealing to young enthusiasts that delight in following fads.

Picture if you will slacks that are cuffed with little swatches of bright calico or chambray or gingham that have been patched together exactly as grandma worked her quilt schemes. Top these knee-length slacks with a blouse made of the same patchwork. You can make entire aprons of this patchwork or add pockets to your plain chambray play dress. Fact is "anything goes" in this new patchwork stampede.

New Skirt Type

Designers are turning time and talent to creating versatile skirt fashions to wear with the exquisite lingerie blouses so fashionable this summer. A charming new style to be found in the stores suggests the dirndl trend. Being made of silk jersey it carries grace itself accentuated with such cunning details as little ruffles of the jersey outlining huge bow-tied pockets with a matching ruffle encircling the skirt but placed a full eight inches above the hemline. You'll love this skirt, it goes so effectively with any type blouse and it is to be had in delectable monotones.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

GOD'S EXCEEDING GREAT PROMISES

LESSON TEXT—II Peter 1:1-11.
GOLDEN TEXT—He hath granted unto us His precious and exceeding great promises; that through these ye may become partakers of the divine nature.—II Peter 1:4, R. V.

Growth in grace and in knowledge of Christ are as normal and expected of the child of God as bodily growth of the physical child. Tragic as is the failure of one to develop physically, it is even more distressing and sad in the spiritual realm. Yet it is a common thing in our churches, where only comparatively few believers even come to full stature in Christ, where more have only a partial growth, and some are forever babes in Christ.

God has made perfect provision for us, and has in His Word given plain and explicit instructions on how to gain spiritual development.

I. All Things Provided (vv. 1-4).

In the physical world we are able to provide, at least in some degree, what is needed. We also know where to find mental food. Spiritual provision can come only from God, and we find from these verses that He has provided not just a small portion, or a limited ration, but "all things that pertain unto life and godliness," through the knowledge of Christ.

The "exceeding great and precious promises" of God are the abundant portion of the believer. They are sure promises, based in the altogether dependable Word of God. God's provision for us in Christ has made it unnecessary to look elsewhere. Here is escape from the world's corruption, the new nature in Christ, faith, grace, peace, power—all in Him.

The opposite is also true, that without Christ men have only the weak and disappointing help of men on which to draw. Of such foolish ones the Lord said through Jeremiah the prophet that they "have committed two evils: They have forsaken me, the fountain of living waters, and hewed them out cisterns, broken cisterns, that can hold no water" (Jer. 2:13).

II. All Diligence Required (vv. 5-7).

There is something that the Christian can do to insure his growth in grace. He is to be diligent, that is, have an earnest purpose and zeal to go ahead spiritually. This calls for application and endeavor, just as progress in any other sphere of life, and possibly more.

Faith is the foundation of all such growth and without it there is nothing on which to build. But on it, or better, "in" it, we have all these other Christian graces springing up, as we give "all diligence" to encourage their growth.

Notice the ascending scale. Faith leads to virtue, that is, courageous, resolute Christian character. Then comes knowledge—the intelligent understanding and discernment of truth. This is bound together by temperance, meaning self-control. Next is patience, that steady endurance which keeps going in spite of trial or disappointment.

The sixth note in this octave of graces is godliness, which speaks of piety, true devotion to God, and reverence for His name. Such a believer will love his brethren in all brotherly kindness; and that leads us to the high point of love (the real meaning of "charity," v. 7). Here love for God is obviously in mind, as the crowning grace of the believer.

III. All Eternity Assured (vv. 8-11).

We should look forward to that abundant "entrance into the everlasting kingdom of our Lord and Saviour Jesus Christ" spoken of in verse 11. There is such a thing as being saved "so as by fire" (I Cor. 3:15), slipping into heaven with nothing to show for our life as followers of Christ here on earth (read I Cor. 3:12-15).

God does not want for His people such an unseemly entrance upon eternity. Why should we be satisfied so to live that it may be true of us. Saved? Yes, but that is all! Are you satisfied with that prospect?

We should note, too, that this growth in grace will show itself in our daily life. It will keep us from being "barren (idle) and unfruitful" (v. 8). The Christian life must not be barren of true service for Christ, nor unfruitful of gracious harvest for Him. We are not on a sort of spiritual joy ride, sitting at ease as we speed on to the heavenly dwelling places.

Works do not save a man. We are justified before God by faith. But our faith is justified before men by our works of righteousness. Fruit grows on the living and healthy tree.

Observe that the Christian who lacks these graces (Do you?) is a nearsighted one who lacks both vision and grateful remembrance of God's loving-kindness (v. 9). How many members of our churches need their spiritual memory jogged and their spiritual eyes anointed with God's "eyesalve" (Rev. 3:18).

No End to Wonders! Dehydration Packs Tasteful Dinner Into Vest Pocket; Field Crops Are Source of Plastics

*Drying Removes Water and Air From Produce While Retaining Nutritional Values;
Milk Now Turned Into Kitchen Curtains; Cull Potatoes Into Fuel Alcohol.*

American agriculture will emerge from the war with a new pattern of crop production that will not only give us everything we eat and wear, but provide much of the raw materials used in industry.

During World War I, the emphasis was on the production of cereal crops. Today, although cereals are essentially necessary, heavier emphasis is being placed on dairy products, meats, vegetables, eggs and oils. If the present trend continues, American milk goals in the reconstruction period will be double our present output of 122 billion pounds a year. The nation's farms will be permanently producing more meat and eggs, more vegetables and more oil-yielding crops such as soybeans.

Two developments are credited with adding impetus to the new farm production trend. Both have been spurred by scientific research and the necessity of meeting wartime problems. One is dehydration, or the dry preservation of food. The other is chemurgy, or the science of transforming farm crops into industrial products.

Dehydration is not new. In fact, it is as ancient as the sun that has been drying the water out of things for ages. But to the old dehydration processes have been added new techniques that have so revolutionized its future possibilities, that some economists predict that food dehydration plants may become as common in agricultural areas as canneries and condenseries are today. An idle dream, you say? Not so idle, perhaps, when it is considered that there are more than 200 dehydration plants in the United States today, compared with only five in 1940.

J. B. Wyckoff, of the Agricultural Marketing Administration recently estimated that the United States will dehydrate vegetables at the rate of 350 to 400 million pounds in 1943 as compared with 100 million pounds in 1942. Yet last year's totals were seven times the 1940 volume.

"To meet the 1943-44 dehydrated food requirements as presently known," he added, "will require every third egg, and one out of every 12 pounds of whole milk produced. Requirements for dehydrated meat, practically non-existent a year ago, will be approximately 60 million pounds in 1943."

Dehydration Saves Shipping.

The remarkable impetus given dehydration grew out of a shortage of shipping space, cans and containers, to meet lease demands and the food requirements of our fighting Allies. One ship loaded with dehydrated food can carry upward of 10 times as much food as a ship loaded with bulk food.

Improvements in dehydration technique have followed two major trends. One has been to compress the food into an incredibly small space. The other has been to preserve the food's palatability and nutritional value.

Many foods normally average 90 per cent water. Dehydration as originally practiced meant removing most of the water. Now the food is not only dehydrated but "de-bulked" as well, by having the air pressed out of it. The result is food compressed into blocks or briquettes. Thus it is possible to have a vest-pocket serving of meat, carrots, cabbage, milk and eggs that would provide all the elements of a hearty meal and yet take up no more shipping room than a package of cigarettes.

Typical food volume reductions as a result of dehydration and com-

The scientist teams up with the farmer in ushering in new era of agricultural production.

pression are: sauer kraut, 90 per cent; cabbage, 80 per cent; potatoes, 75 per cent; onion, beets and carrots, 65 per cent; egg powder, 50 per cent; hamburger, 50 per cent; dehydrated soups, 50 per cent. One pound of potato bricks yields 24 helpings. A five-gallon container of dried tomatoes swells to a quarter of a ton when water is added.

Dehydrated Foods Flavorful.

As contrasted with their crude predecessors of World War I, today's dehydrated foods are flavorful. Dried and cooked in water, these foods emerge with almost no sacrifice of flavor and with practically no loss of proteins, carbohydrates, and minerals. They suffer no greater loss of vitamins than when occurs when fresh vegetables stand for a time in a store.

Hence it is no surprise that American soldiers can relish scrambled eggs made from a dehydrated powder. Or that Englishmen eat and like meat loaves and stews that crossed the Atlantic as tiny shreds of dried meat. Thus milk, butter, citrus juices, as well as potatoes, peas, spinach and a host of other food products are being successfully dehydrated.

The extent to which dehydration has already caught hold with the civilian population here in America is indicated by the fact that housewives are buying dehydrated soups at the rate of 100 million packages a year.

If dehydration offers challenging possibilities for future farm markets, then chemurgy, its industrial coun-

terpart, offers even more interesting opportunities as a contributor to future farm prosperity.

Already the products of 40 million acres of American farm land are going into our industrial plants. And this is but the beginning. Already chemical engineers have come to think of all America as an industrial farm and of farm products as the raw materials for factories.

Perhaps the classic example of chemurgy's effort to turn farm crops into vitally needed industrial products lies in the field of synthetic rubber. It took the world a century to raise the production of crude rubber to a billion tons a year. The United States now expects to develop a like capacity for synthetic rubber—much of it is made from corn and other farm products—within the next year and a half.

The chemurgic scientist busy among his test tubes performs such miracles as turning milk into kitchen curtains; corn into a tinfoil substitute; sunflowers into paper; sorghum into insulating board; barley and sweet potatoes into ethyl alcohol.

Furfural made from oat hulls is now being used in oil refining and in the processing of wood resin. Anti-freeze fluids and fuel alcohol come from cull potatoes. Glycerol from animal fats is being used in the production of dynamite for war purposes. Then there is Zein, a protein product of corn starch which lends itself to the manufacture of yarn, buttons, wall-paper coating and quick-drying ink.

Soybean Source of Plastics.

In the field of plastics, gluten, a residue of corn, is being effectively used, as is casein, a by-product of milk. But perhaps the biggest contribution to plastics is being made by soybeans. Thanks to soybeans, the automobile of the future may be grown from the soil. Already, gear shift handles, steering wheels, window frames, distributors and a considerable variety of other parts are made of soybeans. The basic molding material for numerous plastics is a soybean compound. Thus radio cabinets and plumbing fixtures in postwar America may be merely a mold of soybean cakes.

Yes, farms can be made the source of our future prosperity. Scientists and industrialists can get farm materials from which to make new commodities and promote increased factory production from which prosperity springs.

In this era of definitely new agricultural development, one factor will loom big in determining success or failure. That factor is productivity of the soil. For the extent to which our farms can continue to yield crops for the new dehydration industry, for chemurgic utilization into industrial products or to help feed the world in the critical postwar period, will depend on the fertility of the soil that produces those crops.

Vincent Sauchelli, agricultural research expert of Baltimore, Md., in an address before a Farm Chemurgic conference once said: "Chemurgy can succeed only on farm land where plant foods are returned to the soil in the form of commercial fertilizer at a rate which at least balances the amount removed each year by growing crops and livestock."

"One of the significant steps forward," he added, "is that which helps the farmer learn more about his particular soil and its plant food needs. State agricultural experiment stations are prepared to assist farmers not only in soil tests to determine the proper fertilizer analyses for various crops, but also inform them on the placement to insure best results."

The importance of Mr. Sauchelli's observations is evident when it is considered that after the war America will be faced with the greatest soil rehabilitation job in its history. This is because vast wartime farm production demands are draining fertility resources on an unprecedented scale and because fertilizer applications at present cannot balance the depletion rate.

"Growing crops to win the war is, of course, the farmers' No. 1 job," said a statement of the Middle West Soil Improvement Committee. "A heavy draft on the farmer's 'savings account' of plant food elements is a relatively small contribution to victory, if proper steps are made to repay the borrowed soil wealth when the war is over."

Corn from the field is manufactured into a substitute for tinfoil, a quick-drying printing ink or a wallpaper coating under the transforming magic of Chemurgy. Or thanks to the new science of Dehydration it is compressed to only a fraction of its weight and shipped overseas to feed our armed forces.

Volcanic Forces of Pressure and Steam Originate Deep in the Earth

In most cases the mighty forces that start and continue volcanic eruption—the squeezing force of gravity and the explosive forces of steam and other gases—originate deep in the earth, probably many miles down. The melted rock or lava that is an essential part of most eruptions, also starts from these great depths. It is pushed up the pipe of the volcano to the crater, where it flows out or is exploded out. When an eruption has run its

course, the lava in the pipe cools and solidifies. If it completely seals up the pipe with a plug of rock, the volcano becomes dormant or extinct. If the pipe is choked down to very small proportions, so that a trickle of lava and hot gases rise to keep a little cauldron of molten rock bubbling in the crater, the volcano remains slightly active.

All the bombs in existence dropped on the top of the cold, solid plug of a dormant volcano could not

wake the sleeping forces far below. In the case of a slightly active volcano, even the explosion of the biggest bombs would do little more than splash lava about the crater.

Bombs have been used advantageously in controlling one kind of volcanic phenomena. On the slopes of Mauna Loa on the island of Hawaii, lava streams that threatened to flow into villages and even into the city of Hilo, have been turned aside by bomb explosions.

HOUSEHOLD MEMOS... by Lynn Chambers

Strawberry Jam... It's the Berries! (See Recipe Below)

Get in the Jam!

Bright little berries pushing their noses out of the greenery surrounding them makes you think of jam and jelly time, and rightfully so, for this is the time to start putting up those berries!

Strawberries are usually the first to arrive on the canning scene, followed very shortly by the other berries like raspberries, cherries, and then the fruits. Don't wait until the berries you are canning are too ripe, for those do not make the best jams and jellies.

To insure success in jelly making, use a commercial pectin. There's no sugar to waste on jelly that doesn't set, and no time to spend re-cooking juices that won't work for jelly or jam. The recipes I'm giving this year are for smaller quantities of jam and jelly for most of us do not have too much sugar to spare on canning.

You'll like this standard recipe which can be used for making several different kinds of jelly:

- *Strawberry Jelly
 - Red Raspberry Jelly
 - Blackberry Jelly
 - Boysenberry Jelly
 - Dewberry Jelly
 - Loganberry Jelly
 - Youngberry Jelly
- (Makes 11 glasses, 6 fluid ounces each)
- 4 cups juice
 - 7 1/2 cups sugar
 - 1 bottle fruit pectin

To prepare juice, crush or grind thoroughly about 3 quarts of fully ripe berries. Place in jelly bag or cloth and squeeze out juice. (If berries lack tartness, substitute 1/4 cup lemon juice for 1/4 cup prepared juice.) Measure sugar and juice into large saucepan and mix.

Bring to a boil over the hottest fire and add bottled fruit pectin at once, stirring constantly. Then bring to a full rolling boil and boil hard for 1/2 minute. Remove from fire, skim, pour quickly into glasses and paraffin at once.

Do you like the new combination jellies? You may use the above recipe, preparing the required 4 cups of juice from 3 quarts of berries including 2 or more of the berries listed above.

- *Ripe Sour Cherry and Red Raspberry Jam.
- (Makes 8 glasses, 6 fluid ounces each)
- 3 1/2 cups prepared fruit
- 4 1/2 cups sugar
- 1 box powdered fruit pectin

Lynn Says:

Jelly-Making: Don't be too ambitious. You'll have more success and be less tired out if you can only small quantities of fruit at a time and "do it right."

Unless you have all your neighbors and cousins and family helping you on canning, and have to tackle the job alone, do not try to put up bushels of produce.

Have a day for jelly-making and jam-making just as you set aside a day for washing and ironing. Make it a rule not to have housecleaning or any other big job on the same day for you'll be too tired to concentrate as you should on canning.

Select your jars and examine them for cracks or imperfections the day before you do your canning. Get them all washed, too, so sterilizing is the only big job you have left when actual jelly-making day comes up.

In getting strawberries ready for canning or jelly, wash them before hulling. They won't drink up as much water that way.

Your Canning Shelf

- *Strawberry Jelly
- *Ripe Sour Cherry and Red Raspberry Jam
- *Strawberry and Pineapple Jam
- *Rhubarb Relish
- *Recipes Given

To prepare fruit, pit about 1 pound of fully ripe cherries. Crush or grind thoroughly. Crush about 1 quart red raspberries. Combine fruits.

Measure sugar into dry dish and set aside until needed. Measure prepared fruit into a five or six quart kettle, filling up last cup or fraction of cup with water, if necessary. Place over hottest fire, add powdered fruit pectin, and continue stirring until mixture comes to a hard boil. Pour in sugar at once, stirring constantly. Continue stirring, bring to a full rolling boil and boil hard 1 minute.

Remove from fire. Skim, pour quickly. Paraffin hot jam at once.

Ever tried a rhubarb relish? You can put this lovely fruit up in this way:

- *Rhubarb Relish.
- (Makes 4 pints)
- 1 quart diced rhubarb
- 1 quart onions, finely cut
- 4 cups brown sugar
- 1 tablespoon salt
- 1 teaspoon cinnamon
- 1 teaspoon allspice
- 1 teaspoon cloves
- 1 teaspoon ginger
- 1/2 teaspoon pepper
- 1 pint vinegar

Combine all ingredients and heat slowly to boiling. Simmer 45 to 50 minutes or until thick. Turn into sterile glasses and seal with paraffin. Serve with meat.

One of the most delightful of jams is the one combining our favorites, strawberries and pineapple.

- *Strawberry and Pineapple Jam.
- (Makes 10 glasses, 8 ounces each)
- 2 cups crushed strawberries
- 2 cups crushed canned or fresh pineapple
- 7 cups sugar
- 1/2 bottle commercial fruit pectin

To prepare fruit, crush completely or grind the berries. Cut fine or grind the fresh pineapple or use already canned fruit. Combine fruits. Measure sugar and fruit into large kettle, mixing well. Bring to a full, rolling boil over high heat. Stir constantly during boiling. Boil hard 1 minute. Remove from heat and stir in pectin. Stir and skim by turns for just 5 minutes to cool slightly to prevent floating fruit. Pour quickly and paraffin or seal at once.

You have often heard it said that perfect jelly or jam can be obtained even without the use of a commercial pectin. But, to make good jelly, the fruit must contain both pectin and acid in the right quantity to set—be it for jelly or jam. Strawberries contain acid but usually lack sufficient pectin. That's why pectin of the commercial variety is added when making jelly or jam, or, as in this next recipe, lemon juice is added:

- Strawberry-Lemon Jam.
- 4 cups washed, hulled strawberries
- 5 cups sugar
- 1/2 cup lemon juice

Combine sugar and berries, letting stand a few minutes, stirring occasionally. Do not crush fruit. Bring to a boil and boil 10 minutes, stirring constantly. Add lemon juice and cook 2 minutes longer. Pour into sterilized glasses and seal at once with paraffin.

Are you having difficulties planning meals with points? Stretching your meals? Lynn Chambers can give you help if you write her, enclosing a stamped, self-addressed envelope for your reply, in care of her at Western Newspaper Union, 210 South Desplaines Street, Chicago, Illinois. Released by Western Newspaper Union.

Presidents' Widows

Here is a bit of information which may surprise you. There are six wives of former Presidents living today. Moreover, they are doing their bit in the war effort by helping out in the sale of war stamps and bonds.

Oldest of the former Presidents' wives is Mrs. Benjamin Harrison, who is 84. The other five are Mrs. Herbert Hoover, Mrs. Thomas Preston, formerly Mrs. Grover Cleveland, Mrs. Woodrow Wilson, Mrs. Theodore Roosevelt, Mrs. Calvin Coolidge.

If you were to say the first bugle call of the day in the Army is "Reveille"—you'd be wrong. It's "First Call." But you probably know what cigarette gets first call with Army men—it's Camel. And Camel is the favorite with men in all branches of the service—Navy, Marines, Coast Guard, too. (Based on actual sales records from service men's stores.) And though there are Post Office restrictions on packages to overseas Army men, you can still send Camels to soldiers in the U. S., and to men in the Navy, Marines, and Coast Guard wherever they are. —Adv.

Gas on Stomach

Relieved in 5 minutes or double money back
When excess stomach acid causes painful, surging gas, sour stomach and heartburn, doctors usually prescribe the fastest-acting medicine known for symptomatic relief—Bell's Antacid Tablets. No laxative. Bell's brings comfort in a jiffy or double your money back on return of bottle to us. See at all drugstores.

Millions have used PAZO for PILES

There's good reason why PAZO ointment has been used by so many millions of sufferers from simple Piles. First, PAZO ointment soothes inflamed areas—relieves pain and itching. Second, PAZO ointment lubricates hardened, dried parts—helps prevent cracking and soreness. Third, PAZO ointment tends to reduce swelling and check bleeding. Fourth, it's easy to use. PAZO ointment's perforated Pile Pipe makes application simple, thorough. Your doctor can tell you about PAZO ointment.

A BOWL CLEANER THAT'S SAFE IN SEPTIC TANKS

If you own a septic tank—you are very careful what you use to clean toilets. Insist on Sani-Flush. Scientific tests have proved that this bowl cleaner will not injure the action that takes place in septic tanks, when used according to the simple directions on the can.

This chemical compound makes toilet sanitation easy. Removes rust, stains and incrustations without scrubbing. No messy work. Sani-Flush cleans away a cause of toilet odors. Use it at least twice a week. Sold everywhere in two handy sizes.

FREE: Write for complete scientific data on Sani-Flush in septic tanks. Address The Hygienic Products Co., Dept. 65, Canton, Ohio.

To relieve distress of MONTHLY Female Weakness

WHICH MAKES YOU CRANKY, NERVOUS!

Lydia E. Pinkham's Vegetable Compound has helped thousands to relieve periodic pain, backache, headache with weak, nervous, cranky, blue feelings—due to functional monthly disturbances. This is due to its soothing effect on one of WOMAN'S MOST IMPORTANT ORGANS. Taken regularly, Pinkham's Compound helps build up resistance against such annoying symptoms. Follow label directions. Worth trying!

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feet constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have been used for a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

DOAN'S PILLS

Reveille on the Jordan

Just a little message to the boys in the service from the folks back home. Sponsored by the East Jordan Community Service Club.

ED REULING — EDITOR

HOME TOWN CHATTER

The other night at a community service club meeting we were discussing ways and means to make furloughs and leaves in East Jordan more satisfying for our service men. Among other things it was agreed that our club would be pleased to buy Temple Theatre Tickets for service men, without restrictions as to number of shows, for so long as they are here. In discussing the idea with the theatre proprietors (My pal Hollis and wife) it was very much to my chagrin that I learned that, since before Pearl Harbor the Temple Theatre has been admitting Service Men in uniform FREE, and, paying the 3c tax themselves. So Boys, when you get home, remember the show is in the house and no questions asked. Thanks Hollis and Rita Drew. . . . Along the same line — Any lad from here that visits Cals Tavern gets one carton of cigarettes FREE. There maybe, and probably are, others who give our boys a treat when they are home. The only reason 'tis not mentioned is because 'tis not known.

We have had thirteen boys home on leave or furlough since I last wrote. Most of them I have had a chance to talk with. Without exception it kind of gives this old boy a swell feeling to report that they want action, revenge, and, this mess cleaned up pronto — even though it be necessary for each of them to lay down their lives to accomplish this. Heading the list is S. Sgt. LYLE DONALDSON (EJHS 34) who took time off from his Harbor Defense Work at Portland, Maine, to take an Alpena sweetheart as his better half. (June 2nd was the big day which also was Lyle's 2nd anniversary in the service.) Sgt. and Mrs. Donaldson will be at home to all East Jordanites in Portland. If you can't locate him just ask for the big shot in charge of Maine Casemate. Congratulations Lyle and your boss, and, thanks for the cigar.

Really I should have put Marine Lt. BILL SWOBODA first in line — but—weddings are something super deluce and Lyle rated first place didn't he? Anyhow, Lt. Bill popped in a couple of days ago and visited with me yesterday. The very least can be said about Bill is that he, here at home, is a walking Ad for more Choices of the Marines as THE branch of the service to be in. Just two years ago almost to the day our Bill enlisted and now is his first leave at home. Today, and, as long as he is here, Lt. Bill is the toast of the town. He went in and came up the hard way. If my judgement is any good, Bill certainly knows his stuff, and responsibilities, as 2nd in command of a F. A. Bn. in the marines firing all types of guns up to 105 MM. Bill—I really got a bang out of my visits with you. I know that Mom and Pop got more than that. —Just the same the whole of East Jordan are mighty proud of you and your accomplishments, and, when you get into the South Pacific as you hope to soon— we will be wishing and praying for you, and, all of your command.

CARL GRUTCH stayed pretty close to home and the new baby when he was here —but—he did manage to get out and hook a few trout— Some difference between that and the tough MP training he has been getting says Carl.

I didn't get much of a chance to visit with HOWARD YOUNG — but —was mighty pleased at the impression he made last Tuesday when he was the guest of our Rotary Club. just another He-Man soldier from Fort Sill, Okl. Here's luck to you, Howard. It's mighty nice to have seen you home.

Without knowing it I did talk with TOM CARSON. He was home on special furlough to attend his Mom's funeral. I didn't have much to say to him —and—I found it rather difficult to do too much talking with him having so many more important things on his mind. Just the same, Tom, Your Mom, and, the memory of all that she has done for You and all the rest of us, carries on to the extent that what you are doing in OCS, and, what you will do after you get through, is so very much worth while. I'm sorry, Tom, that your visit home had to be such a sad one—but—Tom, your old Dad, and all of the folks back home are mighty proud of you and the record you are making. When you get really in the thick of things just remember that.

DON ZOULEK is another lad that came in on emergency furlough. He came because he wanted to see his old Pop still alive. We surely hope, Don, that you will have lots of chances yet to see Your Dad. Just the same it kind of gave this reporter a boost to know that old Pete Zoulek's son would make it in all the way from his skii troop training at Camp Hale, Col. to help his Dad over a rough spot. Here's hoping, Zouleks, that Don will see his Pop on the curb on Main St. when Don, and all of his pals blow the lid off back home here in that victory parade.

If you guys think you have got a first class Sgt. you just will have to back water had you seen Sgt. ROMAN DUBAS. That guy, in my estimation, is tops as Sgts. come and go. He is a rock crusher with the infantry—but he really knows his

stuff. If I had to go across and take the music my choice would be Sgt. Roman: Here is luck to you and your command you have down there at Camp Claiborne, La., You are one swell soldier in our book.

HARVEY KEYES came in a couple of days ago from Portsmouth, N. H. It's Harvey's 2nd furlough and Minnie has taken charge of it as usual. Didn't get a chance to talk with him yet.

CORP. CECIL HITCHCOCK breezed in from his map making chores in California. No sooner did I spy him than he challenged me to nine holes of golf. We haven't tangled yet and probably won't—but—if we do I'll let you in next week on how much he took me for. Meanwhile, Cecil, as one of the three Hitchcock brothers (Cecil, Guy & Mike) we want you to know that the old home town is mighty pleased to see you here—just as Mom Hitchcock surely is.

Which reminds me that there is another HITCHCOCK just going in. I don't know his first name but it's Cecil's nephew, a little short stout, dark haired chap, that is my idea of what it will take to make a plenty tough soldier.

Marh Leigh (Farmer) Clark came in yesterday with her Marine, MASON, in tow. Mason is on 15 day leave from San Diego and shoves off again tomorrow. He reports that the marines are THE best branch and no fooling. Mason made sharp shooter and missed expert by just a few notches. He has an idea he is going to get mixed up with radio and communications but just isn't sure until he gets back. The best part of the whole visit was Marh Leigh sticking around, despite my gentle hints, and thus restraining Mason and yours truly from the use of a few mild slang terms that we both are quite familiar with. Just the same, lad, it was mighty swell to see the real guy that the marines have made out of you. Here's luck to you.

CHARLEY HART (Camp Forrest, Tenn.) had his girl friend (our kindergarten teacher, Louise Wolfe) on his mind when I ran across him and so I really can't give you much dope. I can report, however, that Charley is looking better than he ever did, and, is really one swell looking soldier.

Sailor SAM ROGERS is in town—likewise ORRIN PARKS. Apparently their better halves have good control over their time since our paths haven't as yet crossed. Anyhow — you know they are here. Next week more dope — I hope.

BILL STURGILL and FRED BECHTOLD (the best of pals back home here) had a yen to join up with the marines together. Fred made it but Bill had a nose stoppage which floored him. After an operation and considerable other delay Bill made it too. Right now it gives your old reporter a lot of pleasure to report that Fred and Bill are again back together again in Motor Transport School in San Diego. Let's hear more about it boys.

I'm wondering why the long silence from ARCHIE NEMECEK. Just today I hear he's at Indiantown Gap Military Reservation, Pa. maybe on his way for more training across. Why not look CLYDE GREEN up there, Archie. He is there too and a postcard to you give you exact dope. Let's hear about it.

Lt. JAY HITE figured he had a hot spot at Alpena. Before he could even get a week-end leave at home he gets shifted to Miami. That's hard lines, Jay but we are still expecting you to report in.

I now know that its Corp. AL ROGERS, attached to a Signal Service Bn. at Washington, D. C. When Al moved out of Camp Crowder he had to ship his better half home and he didn't like that any too well. He does like his new service work in the capitol though and has a good report to make on his progress.

ROBERT TROJANEK and FRANCIS HANEY are two more lads from here that have joined up with the medics and will be taking the same route that SMOKEY ANTOINE, JUNIOR SEHRMAN, CARL HIMEBAUGH, and the rest took via Camp Robinson, Ark., as the starting point. Here's luck to you, Bob and Francis. Hows about reporting in.

Incidentally I hear that GLENN TROJANEK and STU ATKINSON may be moved out of the ritzy quarters at Atlantic City to a less luxurious spot. If it happens boys lets hear about it.

KEITH ROGERS (boots and all) is home on his seven day furlough before checking in at Custer for definite assignment. That makes three brothers (Sam, Rodney and Keith) in for the Sam Rogers family. Be sure and report in, Keith.

LOUIS BUNKER (4yrs. as a cook on the Great Lakes) is now cook for officer's mess at Camp Stewart, Ga. Could you tell us, Louie, what kind of chuck you sling out for the big shots?

CHUM (HARRY) SIMMONS will probably get a bang out of knowing that it was his daughter (yep that's right Chum's daughter) who came up yesterday to tell me of her pop's new rating as Chief QM. She had a smile sixty knots wide, Chum, when she told me about it. Maybe she was

pleased—but—believe you me—Mama June, gram, grand and yours truly were mighty pleased about it too. As near as I can figure it out your new rating is just one step under the Ensign—or equal to the very top Sgt. rating in the army. Congratulations Chum—Your rating surely has been earned.

Last week I wondered about JUNIOR BATE'S wife. I now know that he has been married for almost one year and that the Missus (Joyce Sommerville) has spent some time with him at Camp Hood.

FRANK CROWELL says that he, (Norman Okl.) is going to tangle with TICH SAXTON, (Fort Sill, Okla.) soon is really news—particularly when Frank Reports that there at 3000 WAVES stationed there and More Marine Girls expected. Well, Well and Well. Seems like Tich is about to go to OCS and Marine Frank and the 3000 WAVES come along to give him a few week end leave send-offs. What a life. Sure wish I could out on the 20 lbs. that Tich has.

After the battle of North Africa has been won, GEO. REBEC, one of our winners, reports that:

If I should die before I wake,
At least I won't have pills to take,
And after does one, two, three,
The Lord can have the rest of me.
Seems like Geo. is tickled pink over his part in the Victory (he didn't say what it was) but very sad about the anti-malaria pills they are required to take.

Speaking of Fort Sill, Okl. reminds me that TICH SAXTON has seen PAUL WILKINS, FLOYD HART and HOWARD YOUNG out there. Seems like it's time for you boys to report in and tell us what gives out that way. Last week I told you VESTAL CLARK was at Fort Dix, N. J. This week I can tell you that it's now Corp. Vestal, now out on Cadre, organizing a new Med. unit out of Fort Dix. Congratulations, Vestal. Do you ever run across FRANK STREHL?

HENRY DURANT reports that the AAF is taking good care of him in "Millionaires" Hotels at Miami Beach. He figures that his basic will soon be over with and he will soon be moved out to further technical training. We sure would like to know more, Henry.

Speaking of AAF reminds us that CARL KAMRADT is in Ypsilanti—but still has been so busy with new training that he can't make it home, even if its only for a 24 hour trip up and back with Phil Gthro.

It's tough to have to report that Clarence Healey (Lowery Field, Col.) has been down with a misery (Rheumatic Fever) for some time. Sure hope you get up on your feet again soon, Clarence.

Can't give you any more news on BUD STREHL, as far as I know his bomber (Bud was tail gunner) got banged up, caught fire, Bud got badly burned, but can still write us about it. We sure are happy, thankful, and glad for that, Bud. No news is good news and that's what we are going by now.

Joe Lilak reports a safe landing in North Africa. Am wondering, Joe, how many other lads who were with you in Pa. are now with you over there. Also, what are the chances of you and brother FRANCIS making Contact? Hope they are good.

S. Sgt. CARL HIMEBAUGH says his brother Archie has written from the Pacific area that he Archie, and his pal (our JIMMIE KEATS from here are hale and hearty. That's good news, Carl. Thanks for passing it on.

EUGENE MONUSKO reports a new rating of Pfc. Did your pal, JOHNNY SKROCKI, come through too, Eugene? I would like to use that Private of the Guard Yarn—but—at so much per inch it couldn't be afforded.

Thanks, Sailor BOB KISER for the swell letter. Sure hope you and that big shot Lt. (j. g.) DAVE PRAY make connections soon. Glad to hear of the Hospital Apprentice 2c rating and hope that you can make Pharmacist Mate as you plan.

LEON PETERSON reports direct from Guadalcanal that the big battle is over and he is resting up for more of the same. We are mighty proud of what you have been doing, Leon, even to the banged up hand, and, (a tall story) your using Guadalcanal mosquitoes as targets to sharpen up your AA aim.

Ladies usually come first but today its last but not least. Lt. PEGGY BURKLAND reports in from Des Moines to tell us that she is enjoying her work as trainer for WAAC officers. She tells about seeing her first class graduate and the thrills she gets as she realizes that each and every one are going into unknown work, in defense of their country, the same as you lads are doing. Thanks a lot, Peggy, for the letter—but—what about hubby Al? Its a long time no hear from him.

So I'm at the bottom of page seven —Its 5:15 p. m. and I started at 9 a. m. I'm hungry. Until next week then its good luck and so long. Ed.

PROBATE ORDER

State of Michigan, The Probate Court for the County of Charlevoix. At a session of said Court, held at the Probate office in the City of Charlevoix in said County, on the 20th day of May A. D. 1943.

Present, Hon. Leon W. Miller, Emmet County Judge of Probate, acting Judge of Probate.

In the Matter of the Estate of Lydia Bashaw, deceased. Delbert Hale having filed in said court his final account as Executor of said estate, and his petition praying for the al-

lowance thereof, and for his discharge.

It is Ordered, That the 17th day of June A. D. 1943, at ten o'clock in the forenoon, at said Probate Office, be and is hereby appointed for examining and allowing said account;

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald a newspaper printed and circulated in said county.

LEON W. MILLER
Acting Judge of Probate

Notice of the Annual School District Election

Notice is hereby given to the qual-

ified electors of East Jordan Consolidated School District No. 2, Charlevoix County, State of Michigan, that the next ensuing Annual School Election will be held at the place or places in said School District as designated below, viz:—

JAMES GIDLEY
Sec'y of the Board of Education.
adv. 23-2

JORDAN TOWNSHIP NOTICE BOARD OF REVIEW

The Board of Review of Jordan Twp. will meet at the home of the Supervisor at 9 o'clock a. m. on the following days June 14th and 15th, 1943 for the purpose of Reviewing the 1943 assessment Roll.

GEO. W. STANEK
adv. 23-2 Clerk

GET IN THE SCRAP

**"OVERLOADS?
JUST ASK ME!"**

"LAST WEEK I flew forty-five soldiers and a jeep over to Mateur. One more pound of equipment and we'd have had to spit out our chewing gum to get off the ground!"

"So I know what the Telephone Company means by 'overloads.' There's a point beyond which you can't overload a plane — or a long distance switchboard. On top of all the war calls that must go through fast, civilians are doing more calling — some are urgent

calls, others less important. Any call, regardless of its destination, may slow up the handling of other calls."

Remember—you're rendering a public service when you cut down on long distance calling.

Please make only the most necessary long distance calls.

If you must use long distance, do all you can to keep your call brief.
