

Charlevoix County Herald.

VOLUME 49

EAST JORDAN, MICHIGAN, FRIDAY, FEBRUARY 16, 1945

NUMBER 7

Minors Involved In Gun Accident

CONSERVATION DEPARTMENT INVESTIGATING CAUSE OF SO MANY

The conservation department at Lansing is learning why so many minors were involved in gun accidents during 1944 hunting seasons. Some reasons:

Of 18 minors (age 16 or under) cited in a preliminary report, nine were licensed legally to hunt in Michigan.

Nine either were not licensed or were licensed illegally (usually minors had claimed to be older.)

Only six of the 18 minors had received any training from their fathers or guardians in the safe use of firearms.

Parents of 14 of the boys claimed that they did not know that boys under age 17 must be accompanied by adults while hunting.

Parents of four boys admitted they knew of this regulation.

The department some weeks ago assigned an investigator to interview parents or guardians of minors involved in hunting accidents in recent months. Minors had been involved in 60 of the 132 gun accidents officially reported during small game seasons, in 12 of the 50 accidents during the deer season. There had been 17 fatalities in the small game season, 13 in the deer season.

Recommendations made on the basis of the preliminary report stress need for more training in the handling of firearms among boys under 17, closer check of minors while hunting, more publicizing of law that requires an adult to accompany a minor while hunting, taking of all legal steps possible in prosecuting responsible adults who willfully allow minor children to hunt when unaccompanied by adults, more prosecutions under state's reckless use of firearms law.

National organizations interested in promoting safer use of firearms are following closely the progress of the Michigan investigation.

World Day of Prayer This Friday

A World Day of Prayer is being observed at the Local Methodist Church, Friday, Feb. 16, at 2 o'clock in the afternoon. This is under the auspices of the W.S.C.S. and sponsored by the United Council of Church Women.

Everyone is invited to attend this service in which representatives of the various churches will take part.

The Charlevoix Courier Changed Owners First of The Month

Jerry F. Scudder, owner and editor of The Charlevoix Courier for the past few years, has sold his newspaper to R. K. Cooper and E. I. Steinhurst of Detroit.

Both the new owners are publishers-printers who have a thorough knowledge of editing and printing.

Mr. Scudder is afflicted with a chronic illness and this, coupled with the fact that for some time competent printers are becoming harder to obtain owing to the draft, forced him to relinquish the newspaper.

Sorry to lose you, Jerry, from the newspaper field, and a hearty welcome to the new owners.

EAST JORDAN WAR BRIEFS

Mr. and Mrs. Fred Haney received word from the war department that their son, Pvt. Fred G. Haney, 24, was reported missing Jan. 20. He was inducted in March 1943. His brother, Francis was killed in Italy Sept. 25, 1944. He has three brothers: Sgt. Leslie in Burma, Pvt. James in the South Pacific and Robert of East Jordan. Also four sisters, Margaret Bishaw, Beatrice and Edna of East Jordan, and Dorothy in Detroit.

Post-war needs of the State of Michigan approximate \$110,000,000, of which the state has already saved and earmarked \$50,000,000.

Quoting Lieut. Governor Vernon J. Brown, who is Governor Kelly's representative on the state planning commission: "Anticipating that about \$25,000,000 is state surplus will become available this year, we will recommend that \$20,000,000 be set aside for post-war building. We do not believe the existing \$50,000,000 post-war reserve should be touched for buildings, but should be retained for assisting veterans."

If the post-war reserve of \$50,000,000 is to be frozen to protect Michigan's 550,000 war veterans, it is apparent that additional money must be found either by war-time thrift or by post-war bond issues.

Last year the building program, as submitted to the legislature, called for a five-year expenditure of \$59,000,000. The building division recently warned that inflated prices, if prevailing after the war, would raise the cost to \$90,000,000. More inflation is session.

Just about everybody has heard of war-time inflation. Lansing has inflation worries also. If there'll be money enough to go around after requests of state agencies have been met, it'll be a first-rate miracle!

Of course, it costs more to operate state institutions and agencies.

Current operating needs of state departments and institutions total \$30,000,000 MORE than anticipated revenues by the state. Despite the inflated income of 1945, the state would run in debt — if the budget wasn't balanced.

The Michigan Educational association is asking an increase of \$21,000,000 in state school aid. Last year the schools received \$60,000,000, highest in history. This year the MEA is whooping it up for \$71,656,000 which educators maintain will be needed if teaching and non-teaching school employees are to be paid salaries equal to the state civil service schedule for teachers. The school aid request is just an illustration of what war-time inflation is doing to government.

CALENDAR of COMING EVENTS

- Friday, Feb. 16, 2 p. m.: Observation of World Day of Prayer, Methodist Church.
- Friday, 8 p. m. — I.O.O.F. Lodge. Sunday: Services in Churches.
- Tuesday, 12:15 p. m.: Rotary Club at Jordan Inn.
- Wednesday, Feb. 21, 8 p. m.: Jassamine Rebekah Lodge.
- Thursday, Feb. 22, 2 p. m.: Norwegian Ladies Aid at Mrs. Joe Montroy's.
- Friday, Feb. 23, 1:30 p. m. — Free Motion Pictures on farming at American Legion Hall.

Charlevoix Co. Veterans Council

RECENTLY ORGANIZED. COMPOSITIONS OF FIVE MEMBERS OF THREE COUNTY AREAS

Lt. Blanchard of Lansing, field representative of this district, met recently with the Charlevoix County Veterans Council. He outlined the work of the state organization which is now being carried on in connection with the rehabilitation of returning veterans.

The new organization consists of five members from the Boyne City, Charlevoix and East Jordan areas, as follows:

Chairman, Clarence B. Meggison, Charlevoix.

V. Chairman, Wm. A. Camburn, Boyne City.

V. Chairman, William Shepard, East Jordan.

Secretary - Treasurer, Fenton F. Buiow, Charlevoix.

Members

Boyne City: A. C. Sarasin, S. A. Arbuckle, Frank Brown, Mrs. John Stanhope.

Charlevoix: Ralph Hamilton, Charles Hamlin, H. I. Ochs.

East Jordan: Barney R. Milstein, Joseph Bugai, Burl Braman, Oscar Weisler.

CARD OF THANKS

We wish to thank the many friends for their expression of sympathy at the time of our bereavement, in the loss of our dear Keith.

Mr. and Mrs. Sam Rogers

One Chance in 14 of Being Hurt This Year

The average American has one chance in 14 of being injured in an accident this year, the National Safety Council said.

This mathematical probability ignores little Johnny's chance of scratching his leg or father's chance of smashing his thumb while trying to hit a tack with a hammer. An injury, in the eyes of the council, is an accident resulting in temporary disability.

Every American, council statisticians found, has one chance in 29 of being hurt in his home and exactly the same chance of being hurt while working at his job.

The safest place to live, they reported, is a farm. The mathematical chance of being injured there is one in 18, as compared to one in 14 for non farm people.

The safest industry, the council found, is communications, where the chance of being injured in an accident is only one in 150. The next safest is the explosives industry, where the chance of injury is one in 100.

The low rate of injury in these apparently dangerous industries is due to safety measures and the constant effort to prevent accidents, the council said.

The miner holds the most dangerous job in industry, the council found, estimating that he has one chance in eight of being hurt in 1945.

Pedestrians should have a fairly safe year.

The mathematical probability of a pedestrian being struck by an automobile is one in 570, the council said.

There was a discouraging word for drinking drivers. The chances of a drinking driver being injured in an accident are 55 times greater than those of a sober driver, the statisticians found.

The chance of dying from burns is one in 12,850, the figure-fingers reported.

The chance of being drowned is one in 20,200.

As for being killed while traveling on a train, the statisticians say that the chance is only one in 1,820,000.

U. of M. Service Flag Has 20,000 Stars

With men and women today on every battlefield and war theater, the University of Michigan's service flag could show more than 20,000 stars, with 217 of them gold.

The 20,000 include men of all ranks from privates to generals and admirals. Among them are 180 faculty and staff members on leaves of absence, many of whom have been borrowed by the Army or Navy for secret scientific development work. Also included is the staff of Hospital 298, a complete front line hospital now in the Belgian theater, and composed entirely of University doctors and nurses.

Since June 1942, specialized training has been given to 19,300. This work includes such diverse courses as chest surgery for Army doctors, naval architecture for Navy officers, engineering for Marines and Coast Guard, military government for officers assigned to the German or Japanese theaters, gauging and inspection for essential war plant workers.

Most outward gains are obtained at the expense of inward losses. Many a girl has dropped a handkerchief and picked up a husband.

Farm Topics

By B. C. MELLENCAMP
Charlevoix County Agr'l Agent

Farmers Desiring Mexican Help to Organize Monday, February 19.

This week Thursday a meeting was held in the Reid-Murdock Canning Company at Ellsworth to make preliminary plans for obtaining help this coming season. This meeting was attended by representatives of all processing plants in the two counties and several growers. Mr. A. B. Love, State Supervisor of Emergency Farm Labor attended the meeting and led the discussions.

It was decided after several hours discussion that for the best interests of both processors and growers that a growers' organization should be perfected as soon as possible. Therefore please be advised that this organization will be organized on Monday afternoon, February 19 beginning promptly at 1:30. This meeting will be held in the Ellsworth Community building and we are most anxious that every farmer who desires Mexican help attend.

Since the two counties of Antrim and Charlevoix have the same problems and that the five processing plants or companies are so nicely localized it has been determined that the two counties will operate as one. This will save considerable time and avoid confusion and will make a more efficient labor program possible.

Home Economics Extension Leaders Will Meet at East Jordan Thursday, February 15.

The next Training Meeting of the Home Economics Extension Leaders is being held this week on Thursday in the Eastern Star Dining Room East Jordan, starting at ten o'clock. Due to a cancellation it has been necessary to change our plans. Miss Eastman, who was scheduled to lead the discussion has found it impossible to handle this meeting. As a result Miss Emma Fero, Emergency War Food Assistant will give a lesson on Home Furnishings.

In addition, sufficient time will be available to conduct an extended business meeting. According to present plans the cancelled meeting will be held on March 29th. Reports received from the various community groups indicate a larger attendance than last year and increased interest. Comments heard from various individuals indicate that the plan on having the meetings at different cities has met with the approval of all groups.

Asparagus Growers Met Last Monday, February 5th.

A most instructive meeting was held last Monday in East Jordan to discuss the growing of asparagus for the canning company. Specialist Perry Bowser, MSC and Orville Walker, Assistant State 4-H Club Leader were present. A complimentary dinner was given by the East Jordan Canning Company to all farmers interested in growing asparagus. A recent study shows that asparagus ranks right at the top insofar as its nutrition value is concerned. From a profit viewpoint, asparagus will make more income than most anything can be grown in this section.

Specialist Bowser discussed all factors relating to its successful production. Mr. Walker, one of the largest asparagus growers in the state added much useful information from his practical experience in growing, handling and marketing this valuable product. The officials of the canning company would like very much to have a larger acreage grown in Charlevoix County. They will be glad at anytime to give further information on the care and management of asparagus. A new bulletin will be available in a very few days. Send your request to us and we will gladly send you your copy.

State Veterinarians Visit County and Outline Disease Control Program

Dairymen have been greatly concerned about the control of Bangs Disease and Tuberculosis. Dr. Hendee and Dr. Hayes from the State Department of Agriculture spent last Monday afternoon on one official business call and then to confer with local leaders in regard to the status of animal disease programs. In regard to Tuberculosis, Charlevoix County is fully accredited and everything under control. It may be recalled that only last year the central and eastern portion of the county were tested.

In regard to Bangs Disease the activity is entirely different. Due to (Continued on last page)

BURR MYSTERY, 132 YEARS OLD, SOLVED?

Since her disappearance 132 years ago, the fate of Theodosia Burr, daughter of Aaron Burr, has puzzled historians. Now comes new evidence she was seized by the pirate Lafitte and won him over to the American cause. Read about it in The American Weekly with this Sunday's (Feb. 18) issue of The Detroit Sunday Times.

W. A. Porter Hardware To Present Movies Next Friday, Feb'y 23

The W. A. Porter Hardware, who recently became representatives of the Case Farm Machinery Co., will present some interesting motion pictures, at the American Legion Hall next week Friday, Feb. 23, commencing at 1:30 o'clock.

These pictures on soil conservation and advanced farming methods, will be of particular interest to the farmers of this region and all who can be invited to be present. There will be no admission charge.

Diphtheria Increasing Is Warning Sent Out By Local Health Unit

With the startling news that there has already been four deaths in Michigan this year, as the results of diphtheria, Dr. A. F. Litzemberger, M. D., Director of Health Unit No. 3, representing the counties of Antrim, Charlevoix, Emmet & Otsego, is urging all parents to have their children immunized against this dreaded disease.

The present death rate is greater than at any time since 1940. One of these fatalities, the Doctor advises, occurred in one of our neighboring counties; and that none of the victims ever submitted themselves for immunization before taken ill. This again points to the fact that prevention of fatal diphtheria is possible through toxoid treatment. Dr. Litzemberger emphatically urges all parents to see their physician immediately and make arrangements for children to be immunized against the disease, and in this way help control diphtheria.

WITH THE ANTRIM COUNTY AGR'L AGENT

W. Kirkpatrick, Extension Agent

INCREASE 1945 CROP PRODUCTION BY STRIP CROPPING

For "all out war time food production numerous growers in Antrim County are utilizing strip cropping in order to reduce erosion, conserve moisture and safely increase production on hillsides and slopes, says Walter G. Kirkpatrick, County Agricultural Agent.

These soil saving practices combine crop rotation and the planting of crops in narrow strips or bands, according to the slope of the land and the type of soil. Where practical, the strips are laid out on the contour, thus adding the advantages of contour cultivation of row crops. However strip cropping alone will not prevent erosion on steep hillsides that, for good land use, should never be planted to clean tilled crops.

The chief advantages provided by strip cropping come through the management of crops in the strips. To provide the greatest amount of protection against soil and water losses strips of clean tilled row crops are separated by strips of meadow or close growing grain crops.

Any run-off water leaving the clean tilled strip is slowed down and spread out by the vegetation in the meadow or small grain strips. The slowing down allows soil particles to settle out since slow moving water has little soil carrying power. By keeping the water spread out it does not have the cutting power which it acquires when accumulated in bare waterways.

Width of the strip is important in planning an effective strip-crop system. The proper width that should be used on any particular piece of land is governed by the steepness of slope, the kind of soil and the amount of erosion already having occurred.

Assistance to farmers within Antrim County for planning rotations and laying out boundaries for strip cropping is being provided through technicians of the Antrim Soil Conservation District. To obtain this assistance or help in planning soil and water conservation measures, applications should be obtained from any of the directors, from the County Agricultural Agent or from the District office of the Soil Conservation Service, in the County Agricultural Agents office, Courthouse, Bellaire.

The directors of the Antrim Soil Conservation District are Losey Wright, chairman, Forest Home Township; Gerald Biehl, secretary, Mancelona Township; Walter Petrie, Echo Township; Bert DeYoung, Banks Township; and Chester Zambra, treasurer, Warner Township.

Annual Father & Son Banquet

NEXT THURSDAY, FEB. 22, AT HIGH SCHOOL GYM., 7:30 P. M.

The annual father and son banquet for East Jordan will be held next Thursday, Feb. 22, at 7:30 p. m. in the East Jordan High School Gymnasium. The program promises to be both instructive and entertaining. There won't be a dull moment.

The speaker, Trooper L. Coykendall, of Rockford State Police, is a real artist, and the little boys and the big boys and the old men will certainly enjoy it.

The topic of the evening is Safety in Traffic and Safety with Firearms. This is a very opportune topic. How many boys do you know that do not like to hunt? How many of those same boys know all the rules of safety with a gun? Bear in mind that almost two thirds of the hunting accidents last fall were caused by boys 18 years old and younger.

Mr. Coykendall will demonstrate three different guns in a way that will make Buffalo Bill and Humphrey Bogart look like amateurs. Don't miss this, boys.

The tickets are limited by the capacity of the dining room, so get yours early from any member of the Rotary Club, or at the Creamery, Gidley's Drug Store, or the Quality Food Market.

AN APPRECIATION

I wish to express my thanks and appreciation for the many cards, letters, and acts of kindness, during my recent illness.

MR. PETER BOSS.

RATIONING AT A GLANCE

Sugar
Book 4 — Sugar stamp No. 34, good for 5 pounds is valid through Feb. 28. Stamp No. 35 valid through June 2. Another stamp scheduled to be validated May 1.

Gasoline
Those applying for supplemental gasoline must present to the Ration Board the stub (Form R-534) off the bottom of your A book application. No 14 stamp in A book valid through March 21 for four gallons each. Coupons B5, C5, B6, C6 good for five gallons each.

Fuel Oil
Old period No. 4 and No. 5 Coupons and new period Nos. 1, 2, 3, 4, 5 valid through heating year.

Rationed Shoes
Airplane stamps 1, 2 and 3 of Book 3 valid indefinitely.

The Grand Rapids District Office of Price Administration has released the following information on Michigan potatoes:

The maximum price that can be paid by any purchaser at the farm where the buyer furnishes the sacks and does the grading, sacking and loading is as follows:

- U. S. No. 1, size A — \$2.25 cwt.
- U. S. No. 2, size A — 1.95 cwt.
- U. S. No. 1 — 2.15 cwt.
- U. S. No. 2 — 1.85 cwt.

The maximum farm price for Michigan potatoes, graded and sacked in 100 pound bags is as follows:

- U. S. No. 1 size A — \$2.75 cwt.
- U. S. No. 2 size A — 2.45 cwt.
- U. S. No. 1 — 2.65 cwt.
- U. S. No. 2 — 2.35 cwt.

Small Communities Can Get Best in Children's Books

Children living in small communities can be as familiar with the newest books written for the young as are their city contemporaries, thanks to the Children's Fund Loan collection, a project carried on through the University of Michigan Library Extension Service in cooperation with the Michigan Congress of Parents and Teachers.

Through funds appropriated by the Children's Fund established by the late Sen. James Couzens in 1929, books are sent upon request to communities with a population of 2,000 or less, and to rural schools.

The books are sent out in sets of 20 and are selected to meet the tastes of boys and girls from the primary level through junior high school age. Selections are made from the best and most attractive books on the market, and include classics as well as current children's publications.

WEEKLY NEWS ANALYSIS

Russians Strike for Berlin As Nazis Plan Last-Ditch Defense; New Landings Aid Manila Drive

Released by Western Newspaper Union.
 (EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Members of Fifth division of Third army warm themselves about bonfire in Luxembourg comfortably ensconced in furniture salvaged from the town's debris.

EUROPE:

Berlin Goal

Berlin was their goal as the First White Russian and the First Ukrainian armies plunged to the winding ice-packed Oder river on a wide front, with German resistance growing stronger as columns of reinforcements rushed to the front and took up their positions in the flaming battle line.

With the two Russian armies drawing up to the Oder on an almost solid front from above Berlin clear down to the Czechoslovakian border, Berlin was imperilled by a powerful outflanking maneuver by Marshal Zhukov from the north and Marshal Konev from the south.

The great thrust on Berlin promised to put the Germans' vaunted Oder river defense line, over two years in the making, to the test, and further strain Nazi strength, already outnumbered by about three to four in the east. In early assaults on the Oder in the Silesian area, German regulars, reinforced by fanatical 16 to 65-year-old home front troops, stubbornly held their ground against the powerhouse attacks of the First Ukrainian army, which had been the first to reach the defense line from central Poland.

Finish Fight

Long the hallowed center of Prussianism, Berlin, it appeared, was not to be spared the fate of other great European capitals as the Nazis made strong points of its public buildings and institutions for a desperate stand and prepared to blow up all factories and installations in the district.

"Not one stone atop another . . . will be left . . . when the Russians enter," proclaimed Propaganda Minister Goebbels. Meanwhile, as thousands of German refugees streamed into the Reich from the east and Hitler called upon all able-bodied men for a last ditch fight and all others for industry, Nazi leaders threatened . . . cowardly creatures who try to desert the fatherland in its hour of need." Said they: "We shall not permit them to throw a wrench in the works. . . Germany will fight on no matter where or under what conditions. . ."

Fear Yank Drive

Attacking in snow and slush in strength along an expanding front below Aachen, Yanks put the enemy's vaunted Siegfried defenses to the test again even as Berlin feared an all-out drive to break the deadlock in the west.

At the same time, the Germans began to slowly break ground in Alsace to the south, where mixed U. S. and French forces increased heavy pressure on their huge pocket below Strasbourg and threatened the enemy's escape roads eastward to the Rhine.

ARMY PURCHASES

The army quartermaster corps in 1944 placed more than 65 per cent of its prime contracts, representing 46 per cent of the dollar value of all QMC depot contracts, with smaller business organizations, the war department said.

Total purchases of subsistence and other supplies for the army and military services by the quartermaster corps amounted to \$8,037,872,909.

and Luxembourg in his great December drive. As the Yanks plowed through heavy snowdrifts, they met bitter opposition at Nazi strong points.

PACIFIC:

Strategic Moves

Strategist and tactician, Gen. Douglas MacArthur scored two more landings in Luzon, directly aiding his triumphant march on Manila, while far to the north, U. S. forces continued to drive to the eastward in bitter hand-to-hand fighting, which threatened to cut the island in two.

In one of the landings, U. S. troops overran the Subic Bay area, which opened up a big harbor for naval use and supply of American forces above Manila, while the other land-

General MacArthur (right) studies maps with aides on Luzon.

ing Yank stepped ashore below the Philippine capital itself, threatening any enemy effort to bring up reinforcements from the south. As long as MacArthur still appeared to be holding back some of his strength, Jap commanders were reluctant to commit sizeable forces into the battle in the Manila region.

In one of the most dramatic episodes of the Philippine invasion, picked men of the 8th Ranger battalion and Filipino guerrillas made a surprise attack on a Japanese prison compound behind enemy lines on Luzon, freeing 488 Americans, 23 British, three Dutchmen and a Norwegian. Although over 100 were so weak from malnutrition, disease and old battlewounds that they had to be carried off on husky Ranger backs or in carabao carts, only two failed to survive the 25-mile journey to safety.

CONGRESS:

Busy Session

With publication of President Roosevelt's agreement to the separation of the Reconstruction Finance corporation with its vast loaning powers from the U. S. department of commerce, the senate passed the George bill authorizing the action by a 74 to 12 vote and thereby paved the way for the confirmation of Henry A. Wallace as the department secretary.

Although Wallace's confirmation was postponed to March 1, it was considered likely at that time, since principal objection to his appointment had been based on the fact that he would have controlled the vast resources of the RFC in the postwar period, with freed of their use on government projects to provide full employment. House approval of the bill to separate the RFC from the commerce department was expected to meet speedy approval.

At the same time, the house passed, and then sent to a none too sympathetic senate, a work or fight bill, under which all men between 18 and 45 would be frozen in essential occupations or asked to take jobs designated by their local draft boards under penalty of induction or fine and imprisonment in case of refusal.

On Nation's Honor Roll

To Pvt. John Hartman of Exeter, Calif., went the Silver Star for gallantry in action. During a fierce enemy counterattack in Italy, seeing that two machine guns 200 yards to the front and right front were causing considerable trouble, he moved forward into the face of these firing machine guns on his own initiative. Edging his way forward with enemy bullets landing within inches of him, and in spite of the fact that he had received a serious wound in his arm, he fired till he had silenced both machine guns.

MEAT:

U. S. to Take More

With smaller slaughter in federally inspected plants reducing allocations of meat for military and lend-lease purposes, the government moved to channel more stock into these packing houses from non-federally inspected establishments.

To trim slaughter at the 27,000 non-federally inspected plants, whose entire output goes to civilians, the government reported that they will receive cattle subsidies ranging from 50 cents to \$2 per hundredweight only for the same amount of stock that they butchered a year ago, while payments of \$1.50 per hundredweight on hogs will be made on only 70 per cent of the volume of 1944.

Effect of the regulation will be to make less meat available for civilians in centers served by non-federally inspected plants, but only slightly more for consumers supplied by federally inspected houses. Present government acquisition of half of the beef and 45 per cent of the pork output of federally inspected plants will be increased, it was said.

FARM MACHINERY:

Pinch to Persist

Stating that ". . . as long as the war continues, farmers will not be able to buy as much new farm machinery as they need," the Office of War Information said that the production of equipment for the year ending July 1 will fall short of heavy demand despite the fact that it should approximate peak prewar output.

Although expecting quotas to be generally met despite a slow start in production, OWI warned ". . . no more new tractors, side delivery rakes, combines or other haying and harvesting machinery will be available during . . . 1945 . . . than were available during . . . 1944."

Indicating that farmers will have to fall back on the same methods this year to meet food goals, OWI said that 1944's high production resulted from intensive use of existing machinery, increased use of fertilizer, greater acreage and harder work and longer hours, with output per hand 28 per cent above 1940. Re-processing of some 365,000 young farmers between 18 and 25 for the draft, however, may further complicate the already pressing manpower problem, OWI said.

ACCIDENTS:

High Toll

Ninety-four thousand people killed, 9,750,000 injured and material losses of \$4,850,000,000—that was the nation's accident toll in 1944, the National Safety council revealed.

As a result of mishaps, lost time equalled one year's production of 1,000,000 workers, it was pointed out, or the manufacture of 29,000 heavy bombers.

Although the death toll showed a drop of 5,000 over the previous year, with the greatest reduction shown in home accidents, authorities were alarmed by the increasing fatalities among children. More than 1,000 toddlers under five were killed, more than in 1941, the Safety council said, while accidental deaths of youngsters from 5 to 14 in the home were high.

Luckiest Man

In rear base hospital in Pacific recovering from frost bite, Sgt. James B. Krantz of Hickory Point, Tenn., might well consider himself the luckiest man in the world. Blown from gunnery in waist of B-29 during raid over Japan, one of Krantz's legs was miraculously held by a safety strap while the rest of his body dangled in the air at 29,000 feet before bud dies pulled him back into the plane.

SGT. KRANTZ

GRAIN MARKETS:

Get Boost

With brokers interpreting the senate banking committee's approval of a bill increasing the Commodity Credit corporation's borrowing power from 3 to 4 1/2 billion dollars as a means of maintaining major farm prices at 90 per cent of parity for two years after the war, grain prices firmed.

Also adding to the market's strength was the expectation of an increase in the government subsidy to wheat millers, and reports of CCC purchases in Minneapolis, Minn., with CCC acknowledgments it had given large quantities of high protein wheat to millers in exchange for inferior grades.

In approving the increase in the CCC's borrowing power, the senate banking committee limited food subsidy expenditures to \$845,000,000 for the year beginning next July 1, and also permitted sale of more than 1,500,000 bales of cotton a year from CCC stocks.

FARM FORECLOSURES

With more and more farmers recovering from the drought years, and with present high incomes making it possible to reduce debts, farm foreclosures totalled 5,800 in 1943 compared with 11,000 in 1942 and 65,000 during 1934, the Farm Credit administration reported. These figures are equivalent to 2.7 foreclosures for every 1,000 farms mortgaged in 1943, 5.3 in 1942 and 30.3 in 1934, when farm activity still was at a low ebb, the FCA said.

Sun's Weather Studied in Relation to That of Earth

Since 1941, a unique study to determine whether there is any connection between the weather of the sun and that of the earth has been carried on at Harvard's observatory near Climax, Colo., says Collier's. As photographs of the solar corona taken during a natural eclipse could not be used, a special movie camera had to be developed.

Called the coronagraph, it creates an artificial eclipse with masking screens, and automatically takes a picture in color every 10 seconds.

CROSS-STITCH kittens (8-to-the-inch crosses) get involved in household tasks and end up by making your kitchen gay with colorful towels.

Start these towels now. Pattern 7235 contains a transfer pattern of 7 motifs 5 1/2 by 8 inches; list of materials; stitches.

Household Hints

A temperature of from 60 to 65 degrees F. is suitable for most plants.

To prevent corks from sticking in bottles containing glue or polishes, coat the cork with vaseline.

Add a bit of vinegar to the dishwasher to cut the grease.

To flatten rug corners that curl and slip on the floor, cut out L-shaped pieces of cardboard, and glue to the underside of the rug at the corners.

Cover the top of your bedspring with oil cloth. This will be a good protection for your mattress and will make it easier to turn your mattress.

Use the top of a lipstick container over the ends of your curtain rods when pushing them through freshly starched curtains.

Put a few rubber bands around the handle of your bath brush to insure a firm grip upon it.

For Joyful Cough Relief, Try This Home Mixture

Saves Big Dollars. No Cooking.

This splendid recipe is used by millions every year, because it makes such a dependable, effective medicine for coughs due to colds. It is so easy to mix—a child could do it.

From any drugist, get 2 1/2 ounces of Pinex, a special compound of proven ingredients, in concentrated form, well-known for its soothing effect on throat and bronchial membranes.

Then make a syrup by stirring two cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking needed. Or you can use corn syrup or liquid honey, instead of sugar syrup.

Put the Pinex into a pint bottle and add your syrup. This gives you a full pint of cough medicine, very effective and quick-acting, and you got about four times as much for your money. It never spoils and is very pleasant—children love it.

You'll be amazed by the way it takes hold of coughs, giving quick relief. It loosens the phlegm, soothes the irritated membranes, and helps clear the air passages. Money refunded if it doesn't please in every way.

Measure of a Good Kitchen

Planning is important in kitchens. So are storage space, disposal facilities and a score of other factors. Yet none is more vital than the range. For upon the range depends the success of the meal. Round Oak, builder of fine cooking and heating equipment for 74 years, will help equip America's post-war homes with the range best suited to their needs whether gas, electric or solid fuel. After the war as before, the measure of a good kitchen will be the name on the range.

Washington Digest

Political Trend Points Return to Conservatism

Wallace-Jones Fight Indicates Movement in Congress; 'Regular' Democrats Vie With 'Leftists' in Party.

By BAUKHAGE
News Analyst and Commentator.

WNU Service, Union Trust Building, Washington, D. C.

As we contemplate the second month of the political calendar one thing is clear and that is the strong conservative trend in the congress as a whole and within the structure of the two major parties as well. Many straws show clearly the way the prevailing winds have been blowing. One was the Jones-Wallace controversy which soon became a senate versus Wallace - Roosevelt controversy. Another was the turn taken in the battle over the national service bill which developed into a fight against the fair employment practices policy and the closed shop. Behind both these moves there was a play of forces which marks the beginning of a struggle which will make the biggest post-war story on the domestic front.

The opposition to Wallace had many and complicated ramifications but it revealed the conservative trend both in congress as a whole and within the Democratic party.

Within the party it was a struggle between the "regulars" and the CIO political action committee adherents, something which is being reflected in the conduct of the party organization, too. When Democratic National Chairman Hannegan was questioned as to whether he was going to work with the CIO-PAC he answered that he would welcome their assistance, but in the same breath added: "and other independent organizations." The inference drawn by the reporters was that the two groups would pursue their separate ways. It is reported that Wallace was offered a deal by which his confirmation as secretary of commerce would be assured and perhaps RFC powers left under the department of commerce, if he would agree to put a "safe" man in to administer the government lending. This would have meant breaking with his CIO-PAC following and Wallace naturally refused.

That illustrates what rivalry there exists between liberal and conservative elements within the Democratic party. It is also whispered that a campaign has begun by which the Democrats hope to pare down the influence of the CIO-PAC. The scheme is to build a strong coalition between the southern Democrats and the northern big city bosses.

Compare Wallace To Bryan

The Democratic "regulars" claim they have no fear of Wallace as a successful contender for the presidential nomination in 1948, although they admit that he is the one man in public life, now that Wilkie is gone, whose leadership would be most likely to unite both liberal and radical support. But they claim he is another William Jennings Bryan, much more intellectual but with the same fate in store for him: often a bridesmaid, never a bride.

The Wallace supporters talk quite differently. They say any man who could rally 429 1/2 votes last summer at Chicago could get enough of the necessary additional 105 1/2 by 1948 and that every time bad, big business assaults him as it did through the friends of Jesse Jones, his stock with the "common man" and "little business" whom and which he constantly champions, will go higher.

In other words, the louder the Wall street "wolf-pack" howls the more the CIO "pack" grins. This reasoning is based on those two somewhat paradoxical observations "we love him for the enemies he makes" and "every knock a boost."

That is the "leftist" reasoning, and whether or not the "regulars" think it is sound, they have to take it into consideration. In any case the opposition to Wallace on both sides of both houses of congress shows the conservative color of the legislative body.

As to the party organizations, they have indicated that they intend to put their faith in works. On the same day (January 23) both Republican and Democratic national chairmen announced that their respective political machines would start running on a full-time basis.

As I said, Mr. Hannegan revealed his attitude toward the left-wingers of his party by implying that Messrs. Hillman, Murray, et al would paddle their own canoes.

COP Stays To Right

There was a significant development at the Republican committee meeting, too. The single challenge to Mr. Brownell dealt with the question of thunder from the left and it apparently fell on entirely deaf ears. The one unfriendly voice at the meeting came from a supporter of Harold Stassen of Minnesota, the prospective liberal candidate for the Republican presidential nomination. The revolter arose to charge that Mr. Brownell had alienated the labor vote because of his connection with a law firm which handled the business of large corporations. Nobody in the committee denied the soft impeachment publicly.

It is whispered that the Republicans are not worrying about an appeal to labor for they have a theory that they can attract the vote of the returned soldier because they say he will lean to the right. This is the way one of the "regulars" expressed it to me.

"There is something about a uniform," he said, "that makes a man patriotic and conservative. He is anxious to settle down and raise a family. He wants to have property of his own. He's tired of being housed and fed and clothed on government issue. Also he is through taking chances; over there he thought of America as home and home means something solid, sane and safe. The Republican party is the natural place for him," the big-wig concluded.

I am not saying that the reasoning of either party is correct but I am reporting what appears to be the general atmosphere both on Capitol hill and elsewhere where the politicians gather to mull over affairs.

As to the temper of congress as a whole as illustrated in both the Wallace and the national service controversies we can see that the former southern Democrat-Republican coalition is working as smoothly as ever and keen observers predict that its hand will be shown whenever similar questions are at issue in the future.

Just where the President stands is not yet discernible. But there again, there is a strong feeling on Capitol hill that when he replaced "Dr. New Deal" with "Dr. Win-the-War," as he himself put it, he had no intention of placing the country under the care of the former medico when peace returned. This is the way one old timer who has supported the administration on most issues for the last 12 years put it to me:

"The President says he is still steering a little left of center. He may think so. But I can tell you that whether he knows it or not the old ship of state is going to nose to starboard this session."

And that would seem to be what is happening if we judge from the first leg of the voyage. In any case there is going to be a fight to keep a conservative hand on the old ship's tiller.

SHANGRI-LA IN PACIFIC

The army air force has discovered a new nation, a tiny little community, high up in the mountains of New Guinea. No white man is known to have visited it before, and not even neighboring natives had been there. Surrounded on two sides by mountains rising to the height of 15 or 16 thousand feet, the third side by an impassable swamp, the valley is cut off on the fourth side by a jungle-like forest several miles wide. The river runs through the valley, which is about 5 by 20 miles, and then disappears, apparently into the earth. The lost tribe living in the valley has developed an extensive irrigation system, army observers report. At first they were frightened by planes - now they wave at our airmen, who come quite low and are able to report that the native clothing consists entirely of strings of beads worn around the neck.

Because the land is so extensively cultivated, there is no large stretch suitable for a landing, and the air force has enough to do these days to prevent it from landing troops by parachutes. But ethnologists and other scientists will make a beeline for New Guinea as soon as the war is over.

Making That Problem Window Fit Perfectly Into the Room Setting

By Ruth Wyeth Spears

draw cord was knotted so that the curtains could be pulled back and forth.

NOTE: These curtains are from the 32-page booklet "Make Your Own Curtains" which Mrs. Spears has prepared for readers. To get a copy send 15 cents with name and address direct to:

MRS. RUTH WYETH SPEARS

Name.....
Address.....

THE smart plaid curtains shown herewith match the window seat and several slip covers, and the wooden curtain pole, rings and draw cord match the dominant color in the plaid repeating the color of small cushions and lamp base. The window lets in the maximum of light and you would never guess that originally it looked like a postage stamp in the middle of a blank wall. At first it seemed impossible to curtain it because fixtures could not be screwed to metal casements or the plaster. The built-in book shelves solved that. A space a foot wide was allowed at each side of the window so that the curtains could hang over the wall, and the painted wooden pole was then screwed to the sides of the shelves. The diagram shows this and how the

Largest Curtain Arranged In Thousands of Patterns

The largest and the most complex theatrical curtain ever made is in Radio City Music hall in New York, says Collier's. Thirteen steel cables, sewn vertically into the material nearly seven feet apart and raised and lowered by their own individual motors, make possible the arrangement of the curtain in thousands of contour patterns.

ASK ME ANOTHER?

A General Quiz

The Questions

1. In what year did the Capitol in Washington, D. C., burn?
2. Through which country in South America does the equator run?
3. Which is wider at its widest point, North America or South America?
4. What was the nationality of the man who devised the universal language, Esperanto?
5. What is a limited edition of a book?
6. What did Sarah Bernhardt use as her motto?

The Answers

1. In 1814 (during the War of 1812).
2. Colombia.
3. South America.
4. Russian (Dr. L. Zamenhof).
5. An edition of which the publisher guarantees there will be no more copies printed after the first stipulated and comparatively small amount.
6. Quand meme (In spite of all).

You can't avoid exposure to wintry winds, driving rains, sudden weather changes. But you can relieve—easily and quickly—the muscular aches and pains they cause. Just put on Sloan's Liniment and feel it penetrate instantly with warming, comforting relief.

FOR QUICK RELIEF FROM

SLOAN'S LINIMENT

Meet the Men

WHO USE YOUR BATTERIES!

The Navy and Merchant Marine send rapid ship-to-ship messages by battery-powered flasher signal lights when radio communication might give a ship's position to the enemy.

It's difficult to locate men drifting in the sea! Water-tight battery lights on buoyant lifesaver suits have meant the difference between life and death for many Merchant seamen.

For emergency communication by voice, the Merchant Marine uses a portable megaphone to broadcast orders and instructions. Dry batteries give necessary power to the megaphone.

Two men and a bazooka make a winning team! But it takes large quantities of ammunition and dry battery power to keep these portable, hard-hitting weapons firing at the enemy.

Deadly flamethrowers are blazing the road to Victory! Dry batteries help to create the spark that sends these efficient weapons into instant, flaming action against the enemy.

The Signal Corps man with a Walkie-Talkie has freedom of speech as long as he has plenty of dry batteries! Handie-Talkies also use thousands of war batteries to power vital communications.

When they come Home—Burgess Batteries will be back again, too... powering flashlights, radios, telephones, instruments and controls for millions of homes, farms and industries throughout America.

PENINSULA...
 (Edited by Mrs. E. Hayden)

Little Rex Bennett, who was very ill the first of the week, is allright again.

F. K. Hayden of Pleasant View farm returned to his job at the Tannery, Thursday, after being ill all the fore part of the week.

It is with regret us telephone users hear of the sudden death of Mr. Roy Earl who served us long and faithfully as trouble shooter.

Quite a crowd of young folks from the Peninsula attended the shower and dance held at Deer Lake, Saturday evening for Mr. and Mrs. Roscoe Barber of Knoll Krest.

Both Mr. and Mrs. Clayton Healey of Willow Brook farm are very much indisposed with the flu. Raynor Olstrom of Advance Dist. helps them part time with the chores.

Miss Orveline Bennett was the only one who ventured out to the Star Community Building for Sunday School, Feb. 11, so there was no session. Nearly everyone is nearly laid up with the flu.

Grandma Gaunt keeps very ill at her home in Three Bells Dist. Those to call there last week were Mr. and Mrs. Roscoe Barber newlyweds, Thursday a. m.; Mrs. Earl Bricker, Thursday p. m.; Mr. Charles Graham and son, Saturday a. m.

The snow plow opened the roads several times last week, but they are filled again almost as soon as plowed out. Mrs. C. A. Crane reports the temperature at Cedar Lodge was 33 degrees, Saturday, but at Orchard Hill it only reached 28 degrees and has not been up to 32 degrees since the last of November. The banks along the roads are higher than the car tops with a heavy covering everywhere.

Mr. and Mrs. Joe Perry of Boyne City spent Thursday afternoon at Pleasant View farm. Mr. Perry started to Charlevoix but found the ferry road closed and came back. Mrs. Perry, who, by the way, spent most of her life on the Peninsula, received a wire from her son, George Worefel, a flyer in the west coast patrol, stating a fine little daughter had arrived at their home, Feb. 9th. Mr. Worefel is also an old resident of the Peninsula.

Word has been received of the death of Mrs. Lena O'Brine at Harrisville, Mich. She passed away suddenly Feb. 4. No particulars were sent. Mr. and Mrs. Pat O'Brine kept the general store at Advance for several years, until the death of Mr. O'Brine when Mrs. O'Brine sold out to F. J. Beal. Both Mr. and Mrs. O'Brine were very well liked and were greatly missed. Both Mr. and Mrs. O'Brine served as Township Treasurer of Eveline Twp. at different times.

Mr. and Mrs. Charles Arnott of Maple Row farm are the proud parents of a fine baby girl who arrived at the Charlevoix hospital, early in the morning, Feb. 6. The little Miss has 5 brothers. Mr. and Mrs. F. K. Hayden took Mrs. Arnott to the hospital early Monday evening and got across the ice at the ferry and back home without any trouble, but by midnight the roads were impassable. That is the third stork visit in very bad storms since New Year's.

Lloyd Hayden, who has been employed in Detroit since before New Years, came Saturday evening to visit his parents, Mr. and Mrs. F. K. Hayden at Pleasant View farm. He returned to his job, Sunday, by bus. He also called at Orchard Hill. Mr. and Mrs. F. K. Hayden and daughter Arlene accompanied him to Gaylord and called on Mrs. Mary Hitchcock and son Burton. Miss Beverly Bennett of Honey Slope farm stayed with the younger Hayden children at Pleasant View farm, while the others were gone to Gaylord.

Masters Gilbert and Glenn Arnott of Maple Row farm are staying with their grandparents, while their mother, Mrs. Charles Arnott is in the hospital. Mr. and Mrs. Ray Loomis visited their daughter, Mrs. Charles Arnott and little new grand-daughter at the hospital, Thursday. When they got to the ferry they found the road across the ice closed because of the ice breaking away and were obliged to drive clear around South Arm Lake which surely is some drive under present driving conditions.

Co. Agent B. C. Mellencamp of Boyne City, with some helpers, organized a Farm Bureau group at the Star Community Building, Feb. 7. Not many attended, but enough to organize. The Star center group, will hold their meetings at the Star Community Building the second Wednesday of each month. The officers are: Secretary, Mrs. Christina Loomis; Chairman, Clayton Healey; Vice-Chairman, Frank Hayden; Discussion Leader, H. E. Gould, Jr.; Vice Leader, Edith LaCroix; Publicity Chairman, Agnes Healey; Song Leader, "Alfred" Ray Loomis.

SOUTH ARM...
 (Edited by Mrs. Arnold Smith)

Mr. and Mrs. Orval Davis entertained at their home Saturday night, Mr. and Mrs. Richard Farmer, Mr. and Mrs. Harvey McPherson, Mr. and Mrs. Arnold Smith, Lt. Willard Howe and Lt. Thelma Davis ANC. The party was in honor of Lt. Davis and Lt. Howe, who left for their posts of duty the first of the week.

Miss Ruth Navoa, RN of Little Traverse Hospital, Petoskey, spent Monday night at the home of Mr. and Mrs. Lawrence Hayes.

Walter Goebel was a Detroit business caller over the week end, going down with Harry Behling with a load of potatoes.

Mr. and Mrs. Arnold Smith and family were Sunday dinner guests of Mr. and Mrs. Harvey McPherson and family.

Lt. Thelma Davis ANC, left Tuesday for Percy Jones Hospital in Battle Creek after spending her 10-day leave with her parents, Mr. and Mrs. Frank Davis and other relatives.

Mr. and Mrs. Archie Murphy and family were Saturday supper guests of Mr. and Mrs. Arthur Brintnall. The supper was in honor of Lt. and Mrs. Gail Brintnall. Gail left Tuesday for his camp in South Carolina.

Mr. and Mrs. Fred Sutton and son Glenn, were visitors at the home of Mr. and Mrs. Fred Moore and family, Tuesday.

Mr. and Mrs. Fred Moore and family were Saturday callers on Mr. and Mrs. Isaac Lively at Mancelona.

ROCK ELM.....
 (Edited by Mrs. Fred Alm)

Mr. and Mrs. Homer Nasson and daughter were Sunday dinner guests of Mr. and Mrs. Harry Slate in East Jordan.

Mrs. Jack Vallance called on Mrs. Will Walker, Thursday afternoon.

The Helping Hand Club entertained their members and families with a pedro party at the home of Mr. and Mrs. Fred Alm, Saturday evening.

Mr. and Mrs. Walter Kemp were Boyne City callers on Monday.

Several neighbors surprised Mr. and Mrs. Ole Neilsen with a housewarming Thursday evening. The Neilsens recently moved into their new home which they built last summer.

Mr. and Mrs. Russell Crawford called on Mr. and Mrs. Irving Crawford, Saturday evening.

Mr. and Mrs. Frank Brown presented the Rock Elm Grange with an electric phonograph which was delivered Monday.

Lee Danforth and Fred Alm attended the stock sale at Boyne City on Tuesday.

Ability without enthusiasm — and you have a rifle without a bullet. Those who work solve problems that would paralyze a philosopher. A lifetime of good examples is better than a library of good advice.

WEST SIDE.....
 (Edited by Mrs. John Saganek)

Mr. and Mrs. James Bennett brought their infant daughter, Nancy Evelyn, home from the Charlevoix Hospital, Sunday, where she has been since birth.

Mrs. James Bennett, Mrs. Nora Gee and Sgt. Dale Gee were Wednesday dinner guests of Mr. and Mrs. Raymond Murphy.

J. M. Ingalls called at the Lloyd Himebaugh home, Sunday.

Mrs. George Green called on Mrs. Ray Gee one day last week.

Mrs. Johanna Jensen has been quite ill at the home of her daughter, Mrs. Julia Gunther.

Sgt. Dale Gee, Emma Gee and Mr. and Mrs. Russell Gee were Sunday

Isolate Chemical Aid
To Human Growth

When children and young animals grow, they do so because of a chemical regulator produced by the pituitary gland, known as the growth hormone. This chemical has just been isolated in pure form by Dr. Choh Hao Li, lecturer and research associate, and Dr. Herbert M. Evans, director of the Institute of Experimental Biology on the Berkeley campus of the University of California.

Trial so far has been limited to animal experimentation, Dr. Li reported. Growth has been produced in young rats after their pituitaries have been removed. However, Dr. Li predicts important developments for human use as soon as enough of the hormone has been produced.

It is sure to help the dwarfs, especially the young ones, he said. It might possibly influence the older ones, too. In this laboratory added growth has been secured in rats that had stopped growing. "First, tests must be made to see if the chemical, which is a protein, will be tolerated by the human body.

The pure chemical is very rare at the present time. There is enough to affect the growth pattern of a few rats, but not enough to influence even one human. The isolation technique is long and tedious, and includes grinding, extraction with alkaline solution, salt fractionation, and isoelectric precipitation. The yield is low.

Find Many Slaughtered
Cows Carried Calves

It is good practice to have valuable cows examined for pregnancy before they are sold for slaughter. According to a report recently received from Oregon, about 20 percent of the dairy cows and heifers sold as sterile for beef in that state were found to be carrying calves.

A good many other cows thought to be barren are also found to be in calf when killed. A high percent of these animals are heifers but some are good cows, quite a number of which would go on as top producers for several years. A few cows continue to show heat periods even after they are in calf. This naturally fools the person who is in charge of the herd.

When an attack of breeding trouble strikes a herd, the chances of getting adequate returns from the herd are greatly reduced. It is only by regular calving every 12 to 14 months that good lactations can be maintained, and this usually makes time and money spent on periodic examinations an excellent investment.

Ancient Volumes

Two very ancient and historically important volumes, printed in Latin, have recently been discovered in the private library of Mrs. B. B. Jenkins of Takoma Park, Md. Both are bound in parchment, one dated 1680 and the other 1686. Both deal exclusively with the early records and achievements of German tribes and their rulers from 300 A. D. to about 1630 A. D. The types used are all early faces, black-face predominating.

The title page of the earlier of the two, with 577 pages, reads: Opuscula Historica Varia res Germanicas. The author was Henricus Meibomius. The title page of the later book shows that one volume of 404 pages was bound up with nine others of slightly over pamphlet length. All deal with early German history. The title of the first book included—Germania Media (etc.) by Paulus Hackenberghus. This was printed in Jena. It is followed by a pamphlet of 32 pages, De Origine Illustrum Germanorum. Then follow pamphlets of various lengths dealing with and magnifying the German and related doings affecting Rome and Italy, as well as Central Europe.

These works were acquired by the father of Mrs. Jenkins, the late Col. David Gray Purman—shortly after the Civil war.

Retinal Images

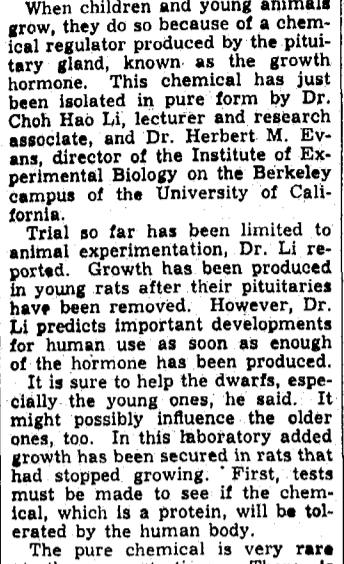

Those tiny pictures on the retina of the eye, by which we obtain most of our knowledge and information about the outside world, are incredibly small. Experiments have proven that in the central part of the retina known as the fovea, which is the area of sharpest vision, retinal images may be less than one thousandth of an inch in size. Images brought to a focus outside the central area must be several times as large to give distinct vision. Because of this difference in acuity in the retinal areas in tasks involving close focusing, as in reading, the eyes are turned so that the images are brought to a focus in the retina's central area of sharpest vision.

Infected Swine

Discharges of aborting sows or gilts or the discharges of infected gilts and sows that farrow normally often contaminate the premises and spread disease, the department of animal pathology and hygiene of the University of Illinois college of agriculture warned in advising slaughter of animals infected with brucellosis.

Though exposure to infectious abortion or brucellosis late in the stage of pregnancy may not cause abortion, there is the strong possibility that such animals will become infected. Infected boars often spread the infection to susceptible sows at the time of breeding. Infected swine should be destroyed.

Tested Apple Recipes

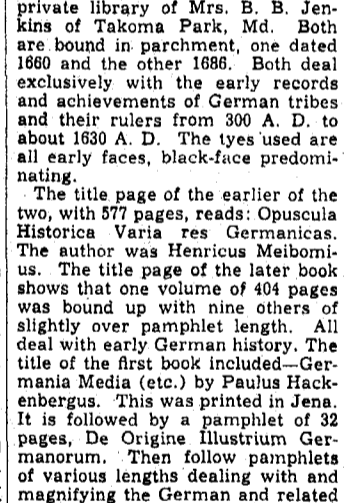

Spring-Green Apple Salad

1 package lime-flavored gelatine
 2 c boiling water 1/4 t. salt
 1 t lemon juice
 2 packages cream cheese
 1/8 teaspoon cinnamon
 2 cups diced apples

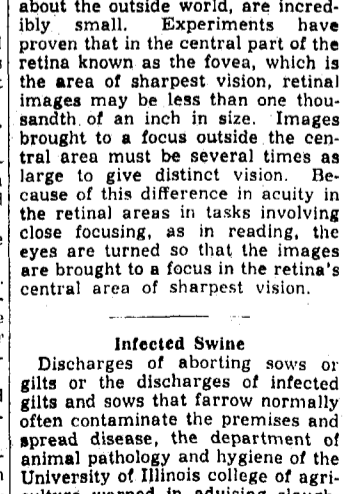

Dissolve gelatine in boiling water; add salt and lemon juice. Arrange the apple slices in the bottom of a well-oiled mould, then pour enough of the gelatine mixture in to hold these. Let

Applesauce Pumpkin Pie

2 eggs 1 c mashed pumpkin
 1 1/2 c milk 1 c brown sugar
 1 t ginger 1 t salt
 1 t cinnamon 1 t vanilla
 1 t flour 2 c applesauce
 2 t gelatine 1/4 c granulated sugar
 1/4 t nutmeg unbaked pie shell

Mix the pumpkin, sugar, salt, ginger, cinnamon and flour until well

6 tart Mich. apples 1/2 cup sugar
 1/8 t cinnamon 1/4 t. salt
 2 T butter 1 cup rolled oats
 1 1/2 cups milk

Peel, core and cut the apples into eighths. Put half of them into a buttered casserole. Sprinkle with half the sugar and cinnamon and 1/4 cup roll-

Tested Apple Recipes

set until firm. Then add half of the gelatine mixture and let this get firm. Chill the remaining gelatine mixture until it is syrupy. Beat with a rotary egg beater until it is fluffy and thick. Cream the cheese and cinnamon together. Fold this into the whipped gelatine mixture; then add the diced apples. Pour this over the firm layer of gelatine and let all set until quite firm. Unmold on a bed of lettuce and serve with mayonnaise dressing.

blended. Add the eggs, milk and vanilla, well beaten together. Pour into the pastry shell. Bake 15 minutes at 450 degrees F., then 45 minutes at 350 degrees F. Remove, and while still warm, pour over this the applesauce, which has been heated with the gelatine, sugar and nutmeg. Chill thoroughly before serving. Serve with hard sauce. This makes a 9-inch pie.

A pudding delight this is, and as nourishing as it is delicious.

ed oats. Arrange another layer of apples and the rest of the sugar mixture and the last half of the oats. Dot with butter, and pour the milk over all. Cover the dish and bake 1 hour at 350 degrees F. Remove lid and brown. Serve warm with cream or whole milk.

Prudence is an excellent virtue — but don't confuse it with timidity.

Looking Backward

The issue for February 11, 1905, is missing from the file.

February 13, 1915
"H. L. Winters wishes to announce that believing that four candidates for Commissioner of Schools from East Jordan would mean defeat for all, he has decided to withdraw from the race."

"The fine sleighing the past week has kept the log haulers busy and some of the loads being brought to the mills here are bumpers. Frank Shepard brought in a load one day this week that scaled 3,536 feet."

The Harlow Sweet residence and contents in Eveline township burned Wednesday morning.

An item refers to the "State Timber Reserve," a 7,200 acre tract extending from Fife Lake to Walton Junction, which the State set aside about a year ago for forest experimental purposes. There are five lakes in the reserve.

Curtis Pinney, who suffered a paralytic stroke two weeks ago, died at his home Friday morning. He was 71 years old.

February 13, 1925

The East Jordan independent basketball team received a shellacking at the hands of the Petoskey American Legion team at Petoskey, February 5th, 42 to 9. East Jordan players were Hielihiy, Swafford; Wolcott, Malpass and Kling.

There is a half-column story of the high school games, both boys' and girls' teams, at Central Lake, but no mention is made of the scores.

A resume of the first semester's work in the high school lists 98 A's, 240 B's, 140 C's, 103 D's and 80 failures. Of those receiving an average of 95 per cent or better, the following are listed: Seniors: Marie MacDonald, Leatha Cox, Dorothy Kittman, Sadie Murphy, Carlton Bowen and Della Hollinghead. Juniors: Elizabeth Sidebotham, Eva McBride, Lucille Bartlett. Sophomores: Harold Clark, Anna Leu. Freshmen: Ruth Clark, Dorothy Hager, Evelyn Webster.

Babies came to the Chester Walden, Leonard Barber, Irvin Snyder, Julius Roberts, William VanDeventer, Justin Skrocki and W. S. Blanshan homes.

The county snowplow got through to East Jordan Tuesday, via the Deer Lake road and Wednesday went through by way of Advance. Roads to Charlevoix and Petoskey are open.

Sandy Dean was seriously injured last week Wednesday when he was struck in the stomach by a flying plank.

The will of the late James A. White provides for a gift of \$10,000 to the Boyne City Presbyterian church.

An item from Kalamazoo tells of Paul Franseth and Arthur Secord being again members of Western's varsity debating teams. Paul was to be first speaker in a debate with Hope college and Arthur was to be third speaker in a debate at Olivet. Paul being on the affirmative team and Arthur on the negative team. The item states: "In their Freshman year last season they established something of a reputation for East Jordan among college debaters of the State."

James E. Meggison, prominent Marion township farmer died in Charlevoix hospital after having backed into a buzz saw which was still revolving after the belt had been removed and gashing his leg to the bone from the hip to the knee.

You can't tell by the size of a man just how he stacks up on the job.

Buy War Bonds and Stamps — Now!

Dust Mulch
To save evaporation of soil waters, a dust mulch (a loose top layer one to two inches deep) is a good standby. For this get a set of weed knives or a sweep attachment for your wheel hoe, or use a scuffle hoe. Some prefer one of the long-handled cultivators with bent teeth which pull through the top soil easily and let it fall back in a loose, pulverized layer completely detached from the solid soil beneath. Weeding is no extra chore when you maintain a dust mulch. Even moderate showers can penetrate it to the advantage of the roots below. Raking or scuffle-hoeing between the rows must be done after each rain, and once every 10 days where there is much traffic, as along the rows of bush beans and among the sweet corn and tomatoes. Shallow stirring like this injures no roots and spruces up the gardens.

Learn to Use Eyes

People have to learn how to use their eyes just as they must learn how to run an automobile, a die press, or any other instrument, says the Better Vision Institute. Seeing is a complex activity, in which nerves and muscles play an important part. The picture on the retina tells us much about an object, but our estimates of distance, size, direction and position involve the interpretation of intricate movements of the external and internal eye muscles, as well as related nerve impulses. To walk, to run, to operate a machine effectively, we must learn to coordinate the pattern of light on the retina with the muscle and nerve reactions, and interpret our visual impressions so that there is proper direction of body movements.

SNAPPY FACTS ABOUT RUBBER

The first use of motor trucks — and that means rubber tires — by the U. S. Army in active campaigns occurred during the Punitive Expedition into Mexico in 1916.

B. F. Goodrich's latest analysis of the rubber situation shows that after the war annual potential rubber production of the world should be 2,500,000 long tons.

Country Cured HOMER by CROY

THE STORY THUS FAR: Ames Croy settled on a farm at Marysville, Missouri, where he married and a son, Homer, was born.

CHAPTER IX

It took experts for this, for a crazy quilt is twice as hard as an ordinary quilt.

Phebe would lower her voice. "Aunt, where do you want the campaign ribbon to go?"

"In the middle," Ma would say. The women's voices would fall away to a hush, because they all knew what the campaign ribbon meant.

It could not be finished in a day; sometimes it took a woman years, working alone winter evenings, to complete her crazy quilt.

They would begin looking out the window to see if the men were coming.

One by one the carts and buggies would leave. Mrs. Gerilda Knabb would come out, but there would be no surrey now, so I would have to go to the granary and get two sawhorses.

"Whoa! Whoa! Stand still now!" and I would shout, too, to the prancing horse.

"Homer, take down the frames," Ma would say, once more coming into charge.

The people in our section took few papers, but the ones we did take were read and reread and stacked in a pile and treasured.

Everybody tried to subscribe to the home weekly, but there was a pinch; it was \$1.50 a year.

Ma would say, once more coming into charge. The people in our section took few papers, but the ones we did take were read and reread and stacked in a pile and treasured.

Everybody tried to subscribe to the home weekly, but there was a pinch; it was \$1.50 a year.

Ma would say, once more coming into charge. The people in our section took few papers, but the ones we did take were read and reread and stacked in a pile and treasured.

Sometimes it would keep on a year or two after your subscription ran out before it would whack you off.

The one we took and the one that was most popular in our section was Comfort, published in Augusta, Maine, where they all seemed to spawn.

I wrote it plainly on one side of the paper as instructed, and sent it to Our National True Dream Contest without saying a word to anyone.

I went around to the side where Pa was unhitching and said with a tremendous effort at casualness, "Well, I got a check."

"Here it is," I fluttered the document.

"How much is it for?" I told him.

"How did you get it?" I told him.

"Take it in and show it to your mother," he said and led the horses down across the lot to the water tank.

It wasn't long till Pa came up from the barn walking faster than usual, took off his overshoes, and sat down in his rocker.

"Well, Susan, it seems the boy's got a check!" It was a supreme moment for me.

"Two hours," he repeated, and I could see he was doing mathematics.

I tried to look as modest as I could.

As Ma read, the expression on Pa's face changed.

One day, shortly after this, as I was going down the street in town I saw in the window of the racket store a picture I knew, the instant I saw it, that I wanted.

I was suddenly self-conscious and did not show it to her because my secret was so precious.

Of course I wouldn't, because nothing was more fun than a swimming party.

The evening of the party we'd get the chores done early and eat an early supper, then get the plates and knives and benches ready, and go out on the front porch to wait for the neighbors.

As I swayed the pendulum back and forth, I began to think up a true dream.

I laid the scene in the Ozarks, although I had never been there.

As I swayed the pendulum back and forth, I began to think up a true dream.

I wrote it plainly on one side of the paper as instructed, and sent it to Our National True Dream Contest without saying a word to anyone.

I expected the winner would be in the next number, for I did not know that a monthly magazine had problems our weekly didn't have to contend with.

One day Pa went to town alone, and when I saw him coming I rushed out to get the mail, as I always did.

I opened the check and there it was—a check for a dollar. It was a thrilling moment.

I went around to the side where Pa was unhitching and said with a tremendous effort at casualness, "Well, I got a check."

"Here it is," I fluttered the document.

"How much is it for?" I told him.

"How did you get it?" I told him.

Ernie Pyle's Slant on the War: Hedgerow Fighting Made New Type of War Heroes

Barriers Used Successfully by Nazi War Machine on Western Front

By Ernie Pyle

(Editor's Note: This dispatch was written and first published when Pyle was with the G.I.s at the Western front. He is now on his way to cover the boys in the Pacific war zones.)

ON THE WESTERN FRONT—I know that all of us correspondents have tried time and again to describe to you what this weird hedgerow fighting in northwestern France has been like. But I'm going to go over it once more, for we've been in it two months and some of us feel that this is the two months that broke the German army in the West.

This type of fighting is always in small groups, so let's take as an example one company of men. Let's say they are working forward on both sides of a country lane, and this company is responsible for clearing the two fields on either side of the road as it advances.

Ernie Pyle

That means you have only about one platoon to a field. And with the company's understrength from casualties, you might have no more than 25 or 30 men in a field.

Over here the fields are usually not more than 50 yards across and a couple of hundred yards long. They may have grain in them, or apple trees, but mostly they are just pastures of green grass, full of beautiful cows.

The fields are surrounded on all sides by immense hedgerows which consist of an ancient earthen bank, waist high, all matted with roots, and out of which grow weeds, bushes and trees up to 20 feet high.

The Germans have used these barriers well. They put snipers in the trees. They dig deep trenches behind the hedgerows and cover them with timber, so that it is almost impossible for artillery to get at them.

Sometimes they will prop up machine guns with strings attached, so they can fire over the hedge without getting out of their holes. They even cut out a section of the hedgerow and hide a big gun or a tank in it, covering it with brush.

Also they tunnel under the hedgerows from the back and make the opening on the forward side just large enough to stick a machine gun through.

But mostly the hedgerow pattern is this: a heavy machine gun hidden at each end of the field and infantrymen hidden all along the hedgerow with rifles and machine pistols.

Now it's up to us to dig them out of there. It's a slow and cautious business, and there is nothing very dashing about it. Our men don't go across the open fields in dramatic charges such as you see in the movies. They did at first, but they learned better.

They go in tiny groups, a squad or less, moving yards apart and sticking close to the hedgerows on either end of the field. They creep a few yards, squat, wait, then creep again.

If you could be right up there between the Germans and the Americans you wouldn't see very many men at any one time—just a few here and there, always trying to keep hidden. But you would hear an awful lot of noise.

Our men were taught in training not to fire until they saw something to fire at. But that hasn't worked in this country, because you see so little. So the alternative is to keep shooting constantly at the hedgerows. That pins the Germans in their holes while we sneak up on them.

The attacking squads sneak up the sides of the hedgerows while the rest of the platoon stay back in their own hedgerow and keep the forward hedge saturated with bullets. They shoot rifle grenades too, and a mortar squad a little farther back keeps lobbing mortar shells over onto the Germans.

The little advance groups get up to the far ends of the hedgerows at the corners of the field. They first try to knock out the machine guns at each corner. They do this with hand grenades, rifle grenades and machine guns.

Retreat to New Line Usually, when the pressure gets on, the German defenders of the hedgerow start pulling back. They'll take their heavier guns and most of the men back a couple of fields and start digging in for a new line.

Can Tell How Long Ago War Moved On

When you're wandering around our very far-flung front lines—the lines that in our present rapid war are known as "fluid"—you can always tell how recently the battle has swept on ahead of you by many familiar signs.

You can sense it from the little things even more than the big things—From the scattered green leaves

They leave about two machine guns and a few rifle men scattered through the hedge, to do a lot of shooting and hold up the Americans as long as they can.

Our men now sneak along the front side of the hedgerow, throwing grenades over onto the other side and spraying the hedges with their guns. The fighting is very close—only a few yards apart—but it is seldom actual hand-to-hand stuff.

Sometimes the remaining Germans come out of their holes with their hands up. Sometimes they try to run for it and are mowed down. Sometimes they won't come out at all, and a hand grenade, thrown into their hole, finishes them off.

And so we've taken another hedgerow and are ready to start on the one beyond.

This hedgerow business is a series of little skirmishes like that clear across the front, thousands and thousands of little skirmishes. No single one of them is very big. But add them all up over the days and weeks and you've got a man-sized war, with thousands on both sides being killed.

No Set Pattern If you were to come over here and pick out some hedge-enclosed field at random, the fighting there probably wouldn't be following the general pattern at all. For each one is a little separate war, fought under different circumstances.

For instance, you'll come to a woods instead of an open field. The Germans will be dug in all over the woods, in little groups, and it's really tough to get them out. Often in cases like that we will just go around the woods and keep going, and let later units take care of those surrounded and doomed fellows.

Or we'll go through the woods and clean it out, and another company, coming through a couple of hours later, will find it full of Germans again. In a war like this one everything is in such confusion, I don't see how either side ever gets anywhere.

Sometimes you don't know where the enemy is and don't know where your own troops are. As somebody said the other day, no battalion commander can give you the exact location of his various units five minutes after they've jumped off.

We will by-pass whole pockets of Germans, and they will be there fighting our following waves when our attacking companies are a couple of miles on beyond. Gradually the front gets all mixed up. There will be Germans behind you and at the side. They'll be shooting at you from behind and from your flank.

Sometimes a unit will get so far out ahead of those on either side that it has to swing around and fight to its rear. Sometimes we fire on our own troops, thinking we are in German territory. You can't see anything, and you can't even tell from the sounds, for each side uses some of the other's captured weapons.

The tanks and the infantry had to work in the closest cooperation in breaking through the German ring that tried to pin us down in the beachhead area. Neither could have done it alone.

The troops are of two minds about having tanks around them. If you're a foot soldier you hate to be near a tank, for it always draws fire. On the other hand, if the going gets tough you pray for a tank to come up and start blasting with its guns.

In our breakthrough each infantry unit had tanks attached to it. It was the tanks and the infantry that broke through that ring and punched a hole for the armored divisions to go through.

One afternoon we drove in our jeep into a country like that. The little rural villages of gray stone were demolished—heartbreaking heaps of still smoking rubble.

and the fresh branches of trees still lying in the middle of the road. From the wisps and coils of telephone wire, hanging brokenly from high poles and entwining across the roads.

From the gray, burned-powder rims of the shell craters in the gravel roads, their edges not yet smoothed by the pounding of military traffic.

HOUSEHOLD MEMOS

Lenten Ideas Given to Families To Provide Protein

Rice Loaf is a pretty loaf to serve for Lent. It uses a combination of good seasonings and spicy cheese to make for plenty of appetite appeal.

If you're observing Lent, you'll have to concentrate on eggs, cheese and fish. These are all good, substantial protein foods with fine flavors that can be brought out through proper cooking.

If menu-making gets to be a bit rough, dig out all the recipes you have on these three classes of food, and make up a week's menus at a time, giving them your best thought and care so foods don't grow monotonous.

As long as you are somewhat limited in the choice of a main entree, then use variety in your vegetables, salads and desserts. Then, your menus will be as interesting as ever.

First, we start off with a roundup of egg dishes that will be super-delicious treats for the family. Remember, eggs are cooked with gentle heat or they will become tough and leathery. That goes for eggs no matter how they're prepared—scrambled, fried, poached or even hard-boiled!

There is nothing monotonous about eggs when they're seasoned with pimiento, parsley and lemon. Try this:

***Deluxe Creamed Eggs.**
(Serves 4 to 6)
1/2 cup chopped onion
2 tablespoons flour
1 1/2 cups milk
Salt and pepper
1 teaspoon minced parsley
2 tablespoons lemon juice
1/2 cup grated American cheese
6 hard-cooked eggs
4 toast slices

Cook onion in small amount of fat until soft and yellow. Add flour and blend. Add milk and cook slowly, stirring constantly until thick and smooth. Add salt, pepper, parsley, pimiento and lemon juice. Heat. Add cheese and stir until melted. Arrange egg slices on hot buttered toast. Pour over cheese sauce. Sprinkle with paprika and serve.

Rice, eggs and cheese, when combined together in proper proportion make a mouth-watering dish that's hearty enough to satisfy even the men folk:

Rice 'n' Eggs.
(Serves 4)
1/2 cup uncooked rice
4 hard-cooked eggs
1/4 cup grated American cheese
2 tablespoons minced pepper
1 teaspoon minced onion
2 tablespoons catsup
Salt and pepper
1/2 cup milk
1/4 cup grated American cheese

Wash rice thoroughly. Cook in boiling, salted water until tender about 20 minutes. Drain and rinse. Place in shallow baking dish. Halve eggs lengthwise. Remove yolks; mash; add 1/4 cup cheese, green

Lynn Says:
Cook Vegetables Correctly: Potatoes are richest in vitamins and minerals right underneath their skins. If you must peel them, pare paper thin. Don't soak in water. Or, when baking, bake slowly to make them mealy. Turnips should not be showered with water. Cook in salted water until tender and serve as is or mashed and seasoned. Cook cabbage in one inch of water for 8 to 10 minutes if you want it at its best. It will be tender-crisp and delicate in flavor. Carrots need little water for cooking, just one inch. To save vitamins and minerals near the skin, pare thin, or better still, scrape no more than skin deep. Before cooking parsnips, remove the tough, woody core. Quarter or slice and cook in one inch of boiling, salted water.

Lynn Chambers' Point-Saving Menu

*Deluxe Creamed Eggs
Broccoli Hashed Brown Potatoes
Jellied Grapefruit Salad
White Bread Jam
Baked Fresh Pears
*Recipe given.

pepper, onion, catsup, salt and pepper; mix thoroughly. Refill whites and arrange on rice. Heat milk and add the 3/4 cup cheese. Remove from heat, stir in the cheese until melts. Pour over rice and bake in a slow (325-degree) oven for 20 minutes.

Olive Rice Loaf.
(Serves 6 to 8)
1 teaspoon chopped onion
3 tablespoons butter or substitute
4 tablespoons flour
1/2 teaspoon dry mustard
1 teaspoon salt
1 cup hot milk
1/2 pound processed cheddar cheese, shredded
1/2 teaspoon worcestershire sauce
3 eggs
4 cups cooked rice
1/2 cup sliced stuffed olives
Parsley
1 can condensed tomato soup

Cook the onion in the butter or substitute until tender. Place over hot water. Blend in the flour, mustard and salt. Add the hot milk and cook, stirring occasionally, until thick. Add the cheese and worcestershire sauce, and stir until the cheese is melted. Slowly pour this cheese sauce over the beaten eggs, stirring constantly. Add the rice and sliced olives. Place in a buttered loaf pan which has been lined with waxed paper. Bake in a moderate (325-degree) oven 1 hour and 10 minutes, or until firm. Unmold, garnish with parsley and serve with tomato sauce made by reheating the contents of the cream of tomato soup can.

Salad is a good choice when you want to make use of cottage cheese for your main dish. Serve it with fresh, seasonable vegetables and tangy, French dressing.

Oysters are delightful for adding variety to the diet. In this recipe they are baked and seasoned with spicy foods to give them the name of Mexican.

Baked Oysters, Mexican Style.
(Serves 5 or 6)
1 quart oysters
1/2 cup catsup
1 teaspoon worcestershire sauce
1/2 teaspoon salt
Dash of pepper
1/2 cup grated American cheese
1 tablespoon butter or substitute

To the catsup, add the worcestershire sauce, salt and pepper. Place the oysters in a buttered casserole or baking dish, cover with the catsup mixture, sprinkle with cheese and dot over with butter. Bake in a moderate (350-degree) oven until cheese is melted and oysters are curled. Serve with slices of sweet pickle.

Cheese and Tomato Rarebit.
(Serves 4 or 5)
2 cups canned or stewed tomatoes
1 cup grated cheese
1/4 small grated onion
1 green pepper, chopped
2 tablespoons shortening
2 eggs
1 teaspoon salt

Mix tomatoes, cheese, onion juice and chopped pepper. Melt the shortening in a double boiler, add the mixture and when heated, add the well-beaten eggs. Cook until eggs are of creamy consistency, stirring and scraping from bottom of pan. Serve on toast.

Fish Stuffing.
2 cups dry bread crumbs
1/4 cup melted bacon drippings or other fat
1/4 teaspoon salt
1 teaspoon chopped parsley
Pepper to taste
Few drops of onion juice
1/4 cup chopped celery

Mix ingredients in order given. This makes a dry, crumbly stuffing. Get the most from your meat! Get your meat roasting chart from Miss Lynn Chambers by writing to her in care of Western Newspaper Union, 210 South Desplaines Street, Chicago 6, Ill. Please send a stamped, self-addressed envelope for your reply.

Reveille on the Jordan

Just a little message to the boys in the service from the folks back home. Sponsored by the East Jordan Community Service Club.

Friends:

Your "Skipper" skipped down to Ann Arbor for a week or so, so in his absence we'll once more man the guns and fire the news to you. While we were writing this column, we tried to impress upon you that this column should be used by you as a means to convey your thoughts to others and we know that you have done this very thing over and over again as regards the swell Christmas gifts which you received from the Community Club and which probably some of you are still receiving from time to time. No doubt you have also expressed your thanks to Hollis for the splendid job he has been and is doing in making this little weekly message one of the things you appreciate so much and look forward to receiving regardless of your present location. Now that Hollis will not censor the mail received this week, though, we believe this is a good opportunity to express in the paper your thanks to him for the time and effort he is giving in making Reveille what it is. Probably no one, excepting those who have written this column, know how much of this it takes. But don't worry gang, Hollis promised to be back with you very shortly as soon as he gets the once over down there so keep shooting those letters to him, we know he appreciates them even as we did, as that's what it takes to keep going. This gives us the idea that perhaps the trouble with your editor is that he is lacking in vitamins, and that especially VITAMIN "I" (letters from those to whom he writes each week). If that is the diagnosis, we know of no doctor or even a quack who can fix him up like your chats on paper can. Anyway, from all of you address together with the folks at home, it's a "hearty thanks" Hollis, and hope you'll be back pronto.

By the way, how did you like your editor's new column heading: "On Duty Around the World." To us it seems more fitting than the one we had been using, what are your reactions, tell him about them.

ON DUTY AROUND THE WORLD

We copied your column heading, Skipper, but maybe you won't mind

MONUMENTS
EAST JORDAN, MICH.

for a few weeks, anyway we can settle that item later if there's any to settle. The A & P store happened to be the meeting place last week of a couple of home-town Louies, at least that's where we saw WILLARD HOWE and GALE BRINTNALL doing a bit of military chinning, and also pausing to shake hands with many a homefolk who are more than glad to welcome them home once again but would that it were for good. That day's coming soon we hope. Haven't seen much of Willard and Gale since, but imagine that they are keeping pretty busy making the most of those few precious days at home. ARCHIE GRIFFIN is home too on a thirty day furlough from Percy Jones Hospital, and don't worry, he has his wife right with him. Don't blame you, Archie. . . . A hearty Hello to all the boys comes from Sgt. LOUIS BUNKER, now in France with a new APO of 654. A straw tick bunk is really tops in comfort when across according to this army cook and living in a big chateau isn't anything to sneeze at either in our opinion although we have never had that privilege. Even though Louis' letter hit the Reveille mailing bag in less than two weeks from the time it was written, the papers going his way along with other mail take about six weeks in transit. Sorry soldier for the delay, but maybe now that the Jerries are really under control things will speed up a bit. . . . Maybe some of you will remember GALE HUDKINS now a SK 1-c USNR, who left East Jordan about twenty years ago but who we now have on our mailing sheet and who also favors us with an occasional letter. East Jordan can hardly be called Gale's hometown although he tells us that he has such a soft spot for this place that he really would like to call it home. You can have the privilege of calling it home Gale as to us you are just one of our four hundred and some hometown fellows now doing their best for Uncle Sam. . . . "Is your name Conway and are you from East Jordan?", these are the questions that EUGENE BARBER asked RUSSELL CONWAY when he happened to see him standing on a street corner in a city in France. Russell writes in to tell us of the swell chat they had only to find out that they were in the same battalion out in different companies. We know that you will be as glad as we were to hear the wounds that Russell received some time ago are all healed and he is feeling as good as new. Write in again Russell and as for your ideas regarding the monument we'll see to it that they get presented to those in charge. . . . It wasn't until the letter came this week from GEORGE TROJANEK that we became aware of the fact that he and CARL GRUTSCH have been together all along and now find themselves overseas with the 214th MP Co. Fortunately they are able to spend many evenings together and according to George, they have almost all the farms around this vicinity under cultivation as the main topic is farming, and our hopes are high now that it won't be long now before you guys can trade your khaki for the good old blue denims. George sends this word along to all those that may have an APO similar to 655 and that is to look them up with the MP company. . . . For any of you who are near Lemore Army Air Base in California, how about looking up that veteran of nearly three years in the Pacific, BILL INMAN, who we learn has had a series of illnesses since he was home on his army rotation furlough a few months ago. We do learn that Bill is feeling better now but a visit from any of his buddies would add to his feelings. Look him up with Sgdn. T-46, 461st AAFBU. . . . That wiry Seabee, BRUCE MALPASS is now resorting on the Marianas, and say sailor if you have time on your hands, try scratching the paper with a pin and send the results to Skipper Drev. . . . February 1st will no doubt be remembered by JERRY SEAMAN as the date which he was awarded the silver wings of a pilot and the appointment to Flight Officer. We got that data from a news release but we now want the dope direct from the new FO himself. . . . Should those responsible for hiring employees for the E. J. & S. be wanting help after the war, FRANCIS LILAK will be very qualified for the work as a dispatch reports that in the two years overseas the railroad battalion that he is with has strung hundreds of miles of railroads in the vicinity of Casablanca, French Morocco, Mateur, and Naples. This outfit is now located in Southern France and is doing an excellent job in getting the supplies to the US troops of the 7th and the French 1st armies. Keep on "stringing out" Francis and plant the terminal in Berlin. . . . The answer probably would be "No" if we were to ask WAC DOROTHY CLARK the details about her work with the eighth air force in England. We do have the information that she is with the intelligence section and helps in some way to keep the records for flying missions over enemy territory, however, she is in a section of the work which must be kept secret according to a release from the air force headquarters. Now that there are

getting to be more and more of GI Joees in the service how about more of you reporting in oftener. You don't know what it will mean to Skipper and all your pals in the service. . . . Besides sending your correspondence this way how about dropping a fellow buddy, BOB WOOD, a line at the General Hospital in Camp Butler, North Carolina. Bob was wounded in Germany after he had been across nine months and was awarded the Purple Heart and arrived recently at Butler for hospitalization. Hope you get a response to our plea for mail for you Bob and here's hoping it won't be long before you can make a visit to the home-town. . . . A bit of indirect news has it that FRANK COMPO will soon be in town after serving eighteen months overseas in the European theatre of war. According to our source of information you should be home now Frank but so far, no see. . . . And now comes the review of your comins and goins: RUSSELL WEAVER has wound up his course in the aviation specialty field at Norman, Oklahoma, and is now awaiting transfer; WAYNE WILCOX is now at the replacement depot in Ft. Meade, Maryland; BRUCE SANDELI-SON lives a half civilian life, at least he has a home address of 693 Broad Street, Bedford, Ohio; LEVI McPHERSON is with the 2nd Prov. Field Artillery overseas; GALEN SEILER has left the windy city of Chicago and is now stationed at Klamath Falls in Oregon; APO's have changed for BRUCE WOODCOCK to 246 and LESLIE HANEY to 218; JACK CRAIG is in the 403 Repl. Company overseas on the European side; BILL ARCHER is another rail-roader, serving with the 737th Bn. and has the APO of 17927; LELAND HICKOX is in the infantry and his latest address has him with an APO of 450 out of New York; ARCHIE GRAHAM has changed locations and is now with a Prov. Signal Constr. Co. on the Pacific side. . . . Besides those we have already mentioned as having been home during the past week, we have also seen DALE GEE, and AL PENFOLD and have heard that STAN HALE is also in town. Besides these, the hearsay is that marine TOM ST. CHARLES has left the isles of the Pacific and is on his way home, and who should bid him farewell but his own brother-in-law, BASIL MORGAN. . . . Once again, we too will bid you farewell with the hopes that Hollis' ending of last week "We'll be seeing you next week", will come true for him next week.

Always your friend,
Henry Drenth.

Farm Topics

(continued from first page)
inability to hire veterinarians it has been impossible to test herds as often as is necessary to maintain a fully accredited status. Recently two herds have been tested; one that showed up nine reactors and another one with eight. Another factor has been the movement of cattle back and forth from farm to farm. Under the stress of war production farmers have been quite careless in their purchases. Very little thought has been given to the disease problem so as a result we are somewhat suspicious that there is an increase in Bangs Disease.

We have been assured that just as soon as sufficient help can be obtained that a county-wide test will be made in Charlevoix County for Bangs Disease. In the meantime if dairymen feel that they may have this disease as indicated by abortions, high death loss of calves and breeding difficulties, arrangements have been made whereby a permit will be given our local veterinarian, Dr. H. J. Heaton of Boyne City to do this work. The cost of the test must be paid by the dairymen but if reactors are found the state will pay the indemnity. Now this is not exactly what we would like but it seems to be the best solution of the problem for the present. If you desire to protect your interests and have your herd tested at your own expense contact either Dr. H. J. Heaton direct or your county agent who will obtain the necessary permission from the state.

Lola Bell Green, Assistant State 4-H Club Leader Visits Clubs.
The 4-H Club Program receive a boost last week Thursday when Miss Lola Bell Green accompanied by Karl C. Festerling met with several clubs during the day and evening. In the first place it had been planned to have a training meeting that afternoon and meet with all 4-H Club Leaders in the county. However, due to a conflict the meeting was cancelled and the day spent in making personal visits. The following schools or clubs were visited, Horton Bay, North Bay, Walloon Lake, Bay Shore, Charlevoix and Boyne City. We are pleased with the greater interest shown by club members and the number of projects in handicraft and sewing which have nearly doubled that of last winter. The biggest need right now is for leaders who will work with the youths and not youths as they are interested but just need the proper leadership to come through with flying colors. It may be announced now that the spring achievement day will be held in Charlevoix on Tuesday, May 8th. Already the young folks are making plans to show the public what they have accomplished and to enjoy the activity of the day.
B. C. Mellencamp, Co. Agr'l Agt.

LEGAL

CHANCERY ORDER

State of Michigan, In the Circuit Court for the County of Charlevoix, In Chancery.

Anthoinette Washburne, Administratrix of the estate of Marie Louise Johnson, deceased, plaintiff,

vs.

Nehemiah Joy, Mary C. Joy, Sarah M. Joy, Royal N. Joy, and their unknown heirs, devisees, legatees, and assigns, defendants.

124-4. Order of Publication on Bill to Quiet Title Under Statute.

At a session of said court held at the courthouse in the City of Cheboygan in the county of Cheboygan on the 4th day of January, 1945.

Present: Hon. Ward I. Waller, Circuit Judge, presiding.

On reading and filing the bill of complaint in said cause and the affidavit of Albert T. Washburne attached thereto, from which it satisfactorily appears to the court that the defendants above named, or their unknown heirs, devisees, legatees and assigns, are proper and necessary parties defendant in the above entitled cause, and,

It further appearing that after diligent search and inquiry it cannot be ascertained, and it is not known whether or not said defendants are living or dead, or where any of them may reside if living, and if dead, whether they have personal representatives, or heirs living or where they or some of them may reside, and further that the present whereabouts of said defendants are unknown, and that the names of the persons who are included therein without being named, but who are embraced therein under the title of unknown heirs, devisees, legatees and assigns, cannot be ascertained after diligent search and inquiry,

On motion of Albert T. Washburne, attorney for plaintiff, it is ordered that said defendants and their unknown heirs, devisees, legatees and assigns, cause their appearance to be entered in this cause within three

months from the date of this order, and in default thereof that said bill of complaint be taken as confessed by the said defendants, their unknown heirs, devisees, legatees, and assigns.

It is further ordered that within forty days plaintiff cause a copy of this order to be published in the Charlevoix County Herald, a newspaper printed, published and circulated in said county, such publication to be continued therein once in each week for six weeks in succession.

WARD I. WALLER
Circuit Judge.

No Primary Election In Jordan Twp.

Owing to no contest, no Primary Election will be held in Jordan Twp., Antrim County, Feb. 19, 1945. The following candidates have filed their petitions with the Township Clerk:

Supervisor — Joseph L. Chanda.
Clerk — Geo. W. Stanek.
Treasurer — Francis Nemecek.
Justice of Peace (full term — Geo. C. Craig.
Justice of Peace (full term) — Fred Sweet Sr.
Member Board of Review:
2 year term — Frank Trojanek.
4 year term — Frank Kortan.
GEO. W. STANEK,
Jordan Twp. Clerk.

No Primary Election

To the Voters of South Arm Twp: There being no opposition of candidates on the Township Ticket for the biennial Township Primary Election scheduled for February 19, 1945, said Primary will not be held.
LAWRENCE ADDIS,
Clerk of South Arm Twp.

No Primary Election In Wilson Township

Inasmuch as there is no opposition for the various township offices, the primary election, scheduled to be held Feb. 19, will not be held.
AUGUST KNOP, Twp. Clerk

Dog Tax Notice

Dog tax roll will be returned to Charlevoix, March 1st, after which date the fee will be doubled.
G. E. BOSWELL,
City Treasurer.
