

Charlevoix County Herald.

Predatory Animal Control Program

TRAPPER INSTRUCTORS NOW AVAILABLE FOR THOSE HAVING TROUBLE

The Department of Conservation's Predatory Animal Control program, made possible by appropriation of monies by the last legislature, is progressing satisfactorily.

Under this program the Department has employed nine trapper instructors whose main function is to investigate complaints of damage caused by fox, coyote, bear or other predatory animals and to teach those who suffer such damage the technique of trapping. (This will enable those who have received such instruction to take immediate action on future damage.) Three trapper instructors are assigned in the Upper Peninsula, three in the North one-half of the Lower Peninsula and three in the South one-half of the Lower Peninsula.

Mr. Ralph Fisk, West Branch, trapper instructor has charge of the work in this area. Phone 358W1. County Agricultural Agent Ed. Reisman, Boyne City, 11, is cooperating in the program and will accept complaints of damage and forward them to Mr. Fisk.

Those who suffer damage from predatory animals and desire relief should make complaint to Conservation Officer Edward Starback, Boyne City to the County Agricultural Agent Reisman, Boyne City, 11.

Complaints of damage are also accepted at any District Conservation Headquarters or the Roscommon Regional Conservation Office.

Although the program has been in effect in this area since August 1, trapper instructor Fisk is pleased to report that quite a good number of farmers and others have availed themselves of this service and are obtaining remarkable results.

In addition to teaching the technique of trapping to those who suffer damage, Mr. Fisk will be pleased to meet with any group such as Sportsman's Clubs, 4-H groups, or any other group who may be interested in predatory animal control either by trapping or hunting.

X-Ray Services By Dist. Health Dept. For Charlevoix County

District Department of Health No. 2 advise that the Michigan Tuberculosis Association of Lansing, Michigan has arranged the November program so as to conduct X-ray service for the benefit of Junior and Senior High School students in Charlevoix County during the day of November 14th.

During this time the Michigan Tuberculosis Association is especially anxious to give X-ray service and further study to all "Re-actors" and all "Known Contacts."

The X-Ray Mobile unit will serve Charlevoix County at Charlevoix High School on November 14th.

Inductees

The following men have been ordered to report at the City Hall, Charlevoix, Michigan, at 8:30 a. m., EST, November 14, 1945, for transportation to the Detroit Induction Station, for Preinduction Physical examination. William Herbert Seals, Boyne City, John William Grippen, Boyne City, Francis Robert Karr, East Jordan, Durant Lee Bennett, East Jordan, Arthur Richard Goebel, East Jordan, Bernard Jerome Wojciechowski, Boyne Falls.

Jack Melvin Meads of Boyne City and Robert Vrataniina of Charlevoix were accepted by the Army at the Detroit Induction Station, October 23, 1945.

IN MEMORIAM

Bashaw — In loving memory of our dear mother who passed away Nov. 7, 1942. Three years have passed and gone Since one we loved so well. Was taken from our home on earth With God in heaven to dwell. The flowers we placed upon her grave May wither and decay But the love for her who sleeps beneath Will never fade away. Mrs. Roscoe Smith Frank Akins.

Salt of the (future) Earth

ARE HIS WAR BONDS—Little Henry Kingsley Cookson, 16-months-old son of Coast Guard Lieut. and Mrs. Henry J. Cookson, is the proud owner of \$500 in War Bonds and he wants you to know his pop is "thum day." The father knows that his son's educational future will be aided by the War Bonds. The family lives in Washington, D. C. (Coast Guard Photo.)

Of Interest To Returning Veterans

Returning veterans and service men are making increased use of cooperative, farmer-controlled organizations to obtain credit for farm production purposes and to purchase farms, says I. W. Duggan, Governor of the Farm Credit Administration. "To date, 3,480 veterans and service men have borrowed from production credit association to purchase livestock and equipment necessary to carry on their farming operation," says Duggan. "And we expect the number to increase materially by next spring when more of them will have returned to agriculture."

The production credit association, besides farmer-control and cooperative set-up, feature a low interest rate and convenient repayment terms, including repayment in installments. They also make budgeted loans in which the borrower gets a commitment from the production credit association at the beginning of a crop year for the full amount needed throughout the season. The funds are advanced to him as he needs them, but interest is charged on the money only while he has it.

Governor Duggan says that at this date he can not see much increase in activity in the farm real estate market due to G. I.'s returning, but he expects sales to veterans to pick up by spring. More than 700 veterans and men still in service had obtained long time loans for \$1,800,000 by September 30 from the local cooperative national farm loan associations. These land bank loans are made on very favorable terms—from 20 to 30 odd years—and bear low interest rates.

"To buy a farm with the assistance of a land bank loan," says Duggan, "the veteran should be able to make a substantial downpayment and should have the necessary stock and equipment and experience in farming. If he has these three requirements and the selling price is not too inflated, he is likely to be accommodated through the local national farm loan association."

Duggan advises all veterans, service men and war workers, unless they are entirely familiar with the farms and area where they wish to operate to counsel with the County Farm Advisory Committee or the secretary-treasurer of the local national farm loan association. He also adds, that an independent appraisal by a land bank appraiser of a property which a veteran contemplates buying a fully worthwhile, especially if the purchaser expects to pay for the farm from profits derived from operating it.

WATCH HUNTERS

A total of 275 conservation officers will be on duty during the coming deer season, the state conservation. The regular officer force will be reinforced by 40 southern Michigan officers and 70 northern Michigan fire wardens.

Ferry Service For Deer Hunters

The State Highway Department will be ready to provide special ferry service for deer hunters across the Straits of Mackinac again this year and has arranged for restaurants at Mackinaw City to serve lunches to hunters in their cars when they are required to wait for passage across the Straits. Highway Commissioner Charles M. Ziegler announced.

Last year the Highway Department estimates about 14,500 hunters crossed the Straits, only a slight decrease from 1941, last pre-war year, when an estimate 15,000 crossed. It is expected this year will bring the hunter traffic back to the pre-war figure.

Four Highway Department ferry boats will be available for service when the rush of hunters hits the Straits area and will operate 24 hours a day as often as needed. The four ships will be able to provide departures approximately every 35 minutes. A fifth vessel, the car ferry Chief Wawatam, will be called into service during the daytime if conditions warrant, the Commissioner said.

Last year, the longest wait during the peak of the hunters' rush was 3 1/2 hours which is the best record. The Highway Department ferries have made during hunting seasons in the past. The Department hopes this year to do as well or better.

If the hunters will leave a little early this year and get across the Straits well in advance of the opening of the deer season, we may avoid the usual peak rush and spread out the hunter traffic so that waits at the Mackinaw City dock may be reduced even below last year, the Commissioner added.

WITH THE ANTRIM COUNTY AGR'L AGENT W. Kirkpatrick, Extension Agent

POTATOES ON CONTOUR STRIPS
Conrad Klooster, Atwood farmer, had contour strips laid out on his place in early spring for potatoes. This strip was checked to determine yield. He stated, "My yield was 700 bags, which at one bushel and one peck per bag, field row, means 411 bushels per acre, on a two and one-eighth acre strip."

Mr. Klooster felt that the amount of rain we had this year did not interfere with crop yield, — in fact he felt that the conservation of water on the strips increased the yield, also the type of soil we have in this county that is adapted for potatoes will not accumulate too much water as some farmers have felt.

Mr. Klooster used a two-row digger with a mechanical picker. With this size equipment he did not have any difficulty, except on a sand pocket where he felt one would get slip-page of any heavy equipment.

East Jordan Wins from Boyne 7-0

EAST JORDAN NOW TIED FOR SECOND PLACE WITH MANCELONA

A touchdown gallop by Hitchcock East Jordan halfback, gave East Jordan a 7 to 0 victory and a tie for second place with Mancelona in the Northern Michigan Class C. Conference Saturday with Boyne City at Boyne City field, Boyne City.

The Ramblers fought back for three quarters against the East Jordan eleven that threatened to score seven times. Just before the fourth quarter score that decided the game, Boyne had put East Jordan back deep in its own territory through the medium of an unexpected punt on first down.

East Jordan and Mancelona have each lost one game, to the champion Charlevoix eleven. In the first game of the season the two teams played a tie, circumstances which compelled them to share second place honors this year.

MARRIAGES

Hancock — Strehl

Betty Jo Hancock, daughter of Mrs. Effie Hancock Clinard of Jackson, and S-Sgt. Frank J. Strehl, son of Mr. and Mrs. Edd Strehl of East Jordan were united in marriage Saturday afternoon, Oct. 20, in St. Mary's Rectory, Jackson, Mich., Fr. Paul DeRose officiating.

The bride was dressed in a light beige two-piece dress with black accessories, her corsage was of pink roses.

The groom, a graduate of the East Jordan High School, has been in the armed forces for 5 years, eighteen months of which he served in the ETO.

Looking Backward

November 4, 1905

In the school notes a Lyceum program lists instrumental duets given by the Misses Margaret McKay and Edith Smatts, and by Bert Sheldon and Homer Maddock. Floya Haire sang a solo, accompanied by Emily Malpass on violin and Irma Hurlbert played a piano solo. The affirmative team, Phyllis Hurlbert, Enga Berg and Glenn Roy won over Austin Sheldon, Florence Carr, and Ida Price, on the question: "That the West has better resources than the South, for a man of limited means."

William A. Lanway and Miss Mary A. Anderson were married Tuesday evening, Oct. 31st at the Methodist parsonage.

November 6, 1915

Four columns of the front page are devoted to a report of the County Sunday School convention.

Miss Leone Miles and Sgt. James D. Cook were married at the Methodist parsonage Wednesday evening.

The infant daughter of Mr. and Mrs. D. Parmiter of Buttons Corners was buried Sunday in the Densmore cemetery.

Miss Alice Rosetta Sheppard and Orvie Gunsolus were married in Charlevoix Oct. 30th.

Mrs. Mary Jackman, oldest child of Mr. and Mrs. Theodore Zess, aged 61, died at a sister's home in South Haven Oct. 27th. Burial was at East Jordan. She was the first of a family of 11 children to die.

November 6, 1925

George Herbert, aged 8, son of Mr. and Mrs. Marshall Griffin Sr., died in a Petoskey hospital from heart paralysis November 1st.

Harry Vallean, aged 30, died in Hurley hospital, Flint, October 29th. He had been struck by an auto two days before, suffering a fractured skull. He was married to Mary DeWitt in 1916 with two daughters, survives him.

A Tokyo dispatch reads: "The imperial review and banquet was suddenly cancelled on account of the poor health of Prince Regent Hirohito."

Mrs. W. J. Weikel, aunt of Mr. P. Ramsey and Mrs. Otis J. Smith, died at her home in Charlevoix November 3rd. Burial was in Sunset Hill.

Beginning November 15th, 1925, Charlevoix county will be closed for deer hunting for a period of five years.

Jacob Quick is taking treatment in an Oshkosh, Wisconsin, hospital.

From Alumni notes in Western Normal Herald: "Jennie Franseth of East Jordan, who graduated from Western State Normal in 1923, is most enthusiastic in her work as County Helping teacher in Oakland county."

Miss Helen Ward left Thursday for a visit with relatives in Lansing and Pittsburgh.

Birthday Party

Mrs. Bert Lewis entertained Friday, Nov. 2, honoring her daughter Kathleen (Katie's) twelfth birthday. After school eight school mates gathered at her home. Much fun was had in playing games and stunts.

At 6 o'clock dinner was served, featuring a lighted birthday cake, after which the group attended the movie.

Our Citizens Asked To Help Homeless European Babies

An appeal is made now to the women of America to prepare and contribute clothing for children of the war stricken countries of Europe.

It is now that help must be given. If we put off our gift of clothing beyond next winter, it may come too late.

What can be done? Out of adults worn underclothing and remnants of donated materials, sewing groups should start immediately to make underwear and night garments for the little children of Europe.

From worn outer garments of adults, coats, suits, dresses, can be cut and sewn into outer garments for boys and girls.

Groups working for children can make additional layettes for the new born babies of Europe.

Alumni and other women's groups may collect and donate underclothes, night garmets and simple shoes for people working in Europe, China and Philippines.

Babies diapers are non-existent in many areas so newspapers have to be used. Serviceable diapers can be made from old sheets, shirts and blouses.

Enclose safety pins, needles and thread with package of clothes.

Any organization or individuals who can provide clothing for infants, young children, or for those who are caring for children, should begin work immediately.

All donations may be left at the St. Joseph's Parish Hall, from 1 to 5 p. m. each day, and not later than Dec. 1st.

Maurice M. O'Gorman Dies at Boyne City Burial at Sunset Hill

Maurice McMann O'Gorman was born in Memphis, Mich., April 25, 1858. At the age of five his family moved to Hillman, Mich. At a very early age he learned the Blacksmith trade in the shop of his father, Judge John O'Gorman. At seventeen he took his first job at his trade in the north woods. Several seasons were spent, after his return to Hillman, driving on the Thunder Bay River.

When he was 31 he was united in marriage to Rosamond May MacLead of Hillman. To this union thirteen children were born. Maurice O'Gorman of Grayling; Vern, who died at the age of 33 a victim of gas in World War I; Milton who passed away at the age of 5; Frank of Muskegon; Violet Conway of Bay City; Orvin of Muskegon; Goldie of Flint; Adele at Boyne City; John, Grand Rapids; Lillian of St. Clair Shores; Melvina of Jackson; Art Grand Rapids; and Harold who died in infancy.

There are 27 grand children and thirteen great grand children, 13 of the grand children were in service in various parts of the world.

He worked for many of the early lumber companies at Luiston, Loulis, DeKard and East Jordan Lumber Co. He also operated a shop of his own for a number of years in East Jordan. Mrs. O'Gorman passed away seventeen years ago.

For the past fifteen years he has made his home here in Boyne with his son-in-law and daughter Mr. and Mrs. Floyd Schneider, where he passed away after a very brief illness Nov. 2.

Funeral was held at the Stackus funeral home at 2:30 Monday, Nov. 5th. Burial at Sunset Hill East Jordan. Bearers were sons Frank, Art, Maurice O'Gorman, son-in-laws, Virgil George, Floyd Schneider and Jack Davis.

Those from out of town to attend were Mr. Sam Tracy, Alpena; Mrs. Albert Tracy, Alpena; Miss Flossie Small, Alpena; Mrs. Violet Conway and daughters, Jill and Jeanne of Bay City; Mr. and Mrs. Lee Linstad and daughter Diane Bay City; Mr. and Mrs. Willard Conway Bay City; Mr. and Mrs. Fred Vogler, Flint; Mr. and Mrs. Clyde Beckley, Muskegon; Mr. and Mrs. A. Ward, Muskegon; Mr. Harry Novak, Muskegon; Mr. and Mrs. Virgil George and daughter, Colleen of Saint Clair Shores; Art O'Gorman, Grand Rapids, Frank O'Gorman Muskegon; Mr. and Mrs. Maurice O'Gorman, Grayling.

— Boyne Citizen. Every man has three characters—that which he exhibits, that which he has, and that which he thinks he has.

The Victory Loan Now On Here

OUR CITIZENS ASKED TO BUY LAST AND BIGGEST OF SERIES

For the last time East Jordan and all America are being asked to buy extra Bonds to fill a mighty Victory Loan quota of 11 billion. East Jordan's quota of \$98,000, although much smaller than previous loans, will require some real effort to attain. With the Victory campaign under way now for a full week the total purchases of Bonds is slightly under the \$6,000 mark and it is obvious that to fill our quota things will have to MOVE during the remaining four weeks of the drive.

Of course the war is over. . . . We came through the greatest danger in our history, to our greatest victory.

The price of that victory — in blood and money — was high. We can thank God that the price in blood is paid in full. There will be no more deaths in battle, no more new casualties.

But The Price In Money Is Still Not Quite Paid!

Your money is still needed by the men who helped to pay in blood. Hospitalization for the wounded, the disabled, Artificial limbs for the men who have given real ones. And help for the wives and orphans of the men who gave everything.

Your money is still needed for the education and training of our veterans—to help them find a real place in the America they saved for all of us.

Just as the money you lent (at interest) in the seven American War Loans helped pave the way for Victory, the money you lend now in the Victory Loan will help secure the fruits of that victory.

Not only for our veterans and casualties — but for you. For these Bonds are still the world's safest investment. They are still the way to insure yourself the security and peace of mind that come from safe, substantial savings!

This is the last time you will be asked to buy extra Bonds. It's a great opportunity to help yourself while saying "Thanks" in a very important way to the men who made our victory possible!

For the eighth and last time then let's make this Victory Loan the mightiest of them all. All together, East Jordan — our fighting men have finished their job — let's finish ours! Buy Victory Bonds and help make our quota today!

Elder Ernest Burt to be a Guest in East Jordan

Elder Ernest Burt of Onaway, will be in East Jordan Sunday, Nov. 11. He is widely known throughout this part of the country. Many will enjoy meeting him again. Everyone is invited to come and hear him speak. He will preach during the afternoon service at the LDS church at 2:00 p. m.

Turkey Population Grows in Michigan

A wartime procedure will be reversed this year and turkey growers will be seeking buyers instead of buyers searching for turkeys, according to C. L. Borum, statistician for the federal-state crop reporting agency.

The turkey population in Michigan this year totals 826,000,35 percent above last year and 78 percent above the prewar average. The national population is 44,150,00, 22 percent above last year and 44 percent above the prewar average.

The increased supply is expected to bring the price below the ceiling for the first time in two years.

TRAGEDIES OF SOCIETY . . . BY LINDA LANE

Wrecked dreams and ruin come to the upper crust as they do to humble folks. Linda Lane begins, in The American Weekly with this Sunday's (Nov. 11) issue of The Detroit Sunday Times, a series of articles on famous tragedies that stunned the 400. Get The Detroit Sunday Times.

WEEKLY NEWS ANALYSIS

Congress Fashions 5½ Billion Dollar Tax Reduction for 1946; Ponder Postwar Army Training

Released by Western Newspaper Union.
 (EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

With freedom of speech assured under Allied orders, former Japanese political prisoner addresses gathering in Tokyo. Under proposed liberalized constitution, all Nipponese elements would be afforded opportunity for recognition in nation's governmental councils.

TAXES:

Good News

Though the senate and house had yet to compromise their differences, John Q. Public could look forward to substantial reductions in income taxes in 1946, and American business was assured generous relief for the immediate postwar period.

No less than 2½ billion dollars was expected to be lopped off of individual income taxes as a result of provisions for permitting \$500 exemptions for dependents before payment of the normal 3 per cent levy and the scaling down of surtax rates.

Close to another 8 billion dollars was scheduled to be pared from corporation income taxes through substantial reduction or total elimination of the excess profits assessment; repeal of the declared value excess profits and capital stock levies, and graduated decrease in surtax rates on companies with less than \$60,000 net return.

In addition to income tax reductions, the use tax on automobile and boats was expected to be dropped. Solons were divided on the question of wartime luxury levies, however, with the house for cutting present rates to prewar levels July 1 and the senate against the action.

With reserves well over 6 billion dollars, both houses were unanimous in freezing present social security payroll taxes at 1 per cent on employee and employer alike and forestalling an automatic increase to 2½ per cent piece January 1.

Under the tax relief bill drawn up by the senate, G.I.s would not be required to pay taxes on service compensation during the war years, and officers would be permitted to spread tax liabilities over a three year period interest free.

LABOR:

Setting Pattern

With both Henry Ford II and United Automobile Workers' leaders expressing confidence in settlement of a wage adjustment at the company, government officials held high hopes that an agreement might result in the establishment of a post-war pay pattern and clear the way for speedy reconversion.

Government optimism was a welcome note in the dreary labor picture, pointed up by the deadlock in negotiations between the UAW and General Motors over the CIO union's demands for a 30 per cent wage increase to maintain wartime "take-home" pay and the corporation's resistance to the demands because of possible effects on prices.

Setting the pattern for other CIO unions, the UAW declared that General Motors was well able to dip into alleged huge wartime profits to carry over any losses accruing from higher wages until future production reached big volume levels. Reflecting industrial sentiment for its own part, General Motors denied exorbitant wartime earnings and declared any withdrawal from reserves would crimp expansion plans.

As the companies and unions clashed, the administration worked on a reconversion wage policy designed to guide negotiations through the troublesome days ahead. Strongly influenced by labor, the government reportedly favored substantial wage boosts to maintain wartime "take-home" pay while freezing prices at prewar levels, except in hardship cases.

Giving both capital and labor its say in the formulation of a reconver-

sion pay program, the government moved slowly in the establishment of policy. Hopes ran high that the forthcoming management-labor parley would result in the voluntary creation of machinery for settlement of important disputes.

MILITARY TRAINING:

Await Response

Having received President Truman's recommendation for one year of postwar military training for American youth 17 to 20, congress adopted a cautious attitude on the question, with one ear perked for popular reaction and the other for military argument.

Personal congressional response to the President's request varied, with Senator Revercomb (Rep., W. Va.) declaring "... I am open minded—I want to hear both sides of this..." while Representative Celler (Dem., N. Y.) exclaimed "... We

President Truman asks congress for military training for youth.

want no truck with compulsory military conscription...."

Meanwhile, it was estimated that about 975,000 youth would be called up for training each year under the President's program, with 250,000 rejected for physical or mental deficiencies. Because of weather considerations, the largest number of camps undoubtedly would be located in the south, with regular army officers and non-commissioned officers in charge. Fewer routine tasks, such as kitchen police, would be in store for reservists, military sources said.

JAPAN:

Reform Imminent

Her military machine smashed, Japan's highly developed economic monopolies, designed for foreign as well as domestic exploitation, also faced imminent dissolution as part of the Allied program to strip Nippon of her war-making potential and democratize the country.

The losers figured to be the five great financial-industrial families of Japan, which, as the dominant civilian powers, had exercised strong pressure on the nation's foreign policies. Backed both politically and financially by the government, the big five, known as the "zaibatsu," were heavy investors in overseas development.

By smashing the "zaibatsu," the Allies planned to loosen their grip over Japanese politics and permit more liberal and democratic elements to exert influence over government direction. At the same time, destruction of the great combines promised freer opportunity for economic development in the country.

As steps were taken for the dissolution of the "zaibatsu," the political transformation of Japan slowly gained ground with new parties in the development stage and more liberal political institutions impending in the rewriting of the national constitution.

Huge Postwar Market for Autos Looms

Potential demand for automobiles by domestic consumers next year should amount to 9,843,000 cars, after allowing for 331,000 cars to meet the increase in population, says the Alexander Hamilton Institute.

At the beginning of 1942, the number of passenger automobiles in operation in the United States was at a record peak of 27,364,000, results of an extensive survey showed. As the result of the stoppage of production during the war, the prospect is that there will be only 21,921,000 cars in operation at the beginning of 1946. Taking into account the increase in population since 1942, the number of passenger automobiles in operation at the beginning of 1946 will thus be 9,768,000 cars below the normal level and in addition 2,744,000 cars may be scrapped in 1946.

AGRICULTURE: Global Pact

First permanent body of the United Nations, the Food and Agriculture Organization (FAO) came into existence in the grand ballroom of the Chateau Frontenac in Quebec, Canada, with 30 nations formally signing its constitution.

Though possessing no executive powers over member nations, FAO seeks, through voluntary interchange of information and effort, to improve agricultural production, raise nutritional standards and better the living conditions of rural populations. Indicative of the big job FAO has on its hands, two-thirds of the world's population is estimated to be ill-fed, with many facing periodic starvation.

Signatories to the FAO constitution include Australia, Belgium, Canada, China, Denmark, Dominican Republic, Egypt, France, Greece, Guatemala, Haiti, Honduras, Iceland, India, Iraq, Liberia, Luxembourg, Czechoslovakia, Mexico, Netherlands, New Zealand, Nicaragua, Norway, Panama, Peru, Union of South Africa, Philippines, England, United States and Venezuela.

FRANCE:

Left Swing

With their fundamental platforms at variance, France's three great political parties—the Communists, Socialists and Popular Republican movement—prepared for the establishment of a new constitution as demanded in the recent election.

As the three major parties and a smattering of smaller organizations moved to write a new political charter for the country, the Popular Republican movement, backed by General De Gaulle, loomed as a counterweight between the Communists and Socialists. Known as a Catholic Liberal party, and led by Foreign Minister Bidault, the PRM's surprising demonstration of strength in the elections was indicative of the quick defense thrown up by moderate elements against the threat of extreme radicalism.

The new alignment found France's political picture characteristically mixed, with the Socialists joined with the PRM for a western bloc of European nations against Communist opposition; the Communists committed to a swift program of nationalization of industries; the Socialists favoring more study of such an undertaking and the PRM for a moderate course.

FIRE RAIDS:

U. S. Vulnerable

Back from a tour of war-ravaged Europe, Anthony J. Mullaney, chief fire marshal of Chicago, Ill., and a noted authority on fires, declared that investigations showed that no great city could withstand concentrated explosive and incendiary raids and domination of the skies overhead was the only assurance of safety.

In making his disclosure, Mullaney cited the obliteration of Hamburg, Germany, where all walls were of brick, numerous firebreaks existed, no skyscrapers reared up and an efficient fire department operated. In a contrast indicative of the vulnerability of American cities, Mullaney cited localities dotted with frame buildings, wood lathed and plaster construction, tall buildings, and few empty spaces for allowing a sweeping fire to peter out.

In burning out Hamburg, Mullaney said, great squads of Allied bombers first dropped explosives to rip up structures, with incendiaries then being loosed upon the open wreckage. Towering flames licked up the oxygen to create a vacuum into which air from surrounding areas then rushed in, creating fierce "fire storms." With instruments recording temperatures of 1,400 degrees F., over 40,000 persons were said to have died from the flames, heat inhalation or asphyxiation.

NAVY:

Speed Releases

With nearly 300,000 enlisted men and officers already released since V-J Day, the navy planned for the demobilization of an additional 800,000 by the first of next year through a reduction in discharge scores.

Following establishment of lower scores November 1, the navy contemplated an even further cut December 1, with male officers' point requirements pared to 44; enlisted male personnel to 39; WAVE officers to 30, and enlisted WAVE personnel 24.

In cutting its discharge scores, the navy left its point computation unaltered, with one-half point for each year of age; one-half point for each full month of service; 10 points for dependents regardless of number, and one-fourth point for each month of service outside of the U.S., since September 1, 1939.

TURKEYS:

G.I.s and civilians alike are assured of ample supplies of turkeys for the Thanksgiving and Christmas holidays even though the size of turkey may be smaller than usual due to growers' speeding up production upon government demand.

Purchasing turkeys as early as last August, the army quartermaster corps assured plentiful stocks for service personnel. Most of the birds already have been dressed and stored in warehouses or are in process of shipment overseas.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D., Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for November 11

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education, used by permission.

THE FRUITS OF PUBLIC WORSHIP

LESSON TEXT—Isaiah 6:1-8; Ephesians 5:15-21.
 GOLDEN TEXT—Praise ye the Lord. I will praise the Lord with my whole heart, in the assembly of the upright, and in the congregation.—Psalm 111:1.

The center of every community should be the church. The house set aside for the worship of God is the gathering place of His people. There they find fellowship as they meet their Lord. He is in their midst exalted and mighty, but ready to enter every humble and contrite heart.

Our lesson shows us how the worship of God brings blessed results as His people meet.

I. Recognizing God's Presence (Isa. 6:1-4).

King Uzziah, who had begun well but had forgotten God, was at the end of his life a leper because of his sin and dying in disgrace. Israel which had known unprecedented prosperity under God's blessing now hardened its heart nationally against God and was also about to go into eclipse. God needed a man to speak for Him in such an hour, to bring to His people a message of judgment and also of blessed invitation. To prepare that man, the great Isaiah, God gave a remarkable manifestation of His glory and power.

It is essential that the man who speaks for God should first see the Lord high and lifted up and to hear of His holiness and glory. The negative tone of the present-day message, the lack of enthusiasm and interest in holy things, the low standards of personal holiness, the failure to preach boldly the truth regarding God's holy standards are to be explained by the fact that there has been no vision of the eternal holiness and glory of God.

II. Renewing by God's Power (vv. 5-8).

To see the holiness of God is to be immediately conscious of one's own sin and unworthiness. The obvious conclusion which one draws from that fact is that anyone who is proud, who is not concerned about his own sins and the sins of his people, is living far from God and has either never known or has forgotten about His divine holiness.

Isaiah spoke of the pollution of his lips, thereby confessing that his heart was not right. Whereof the heart is full, thereof speaketh the mouth, for we read that "out of the abundance of the heart the mouth speaketh" (Matt. 12:34). Remember that even though Isaiah was a believer he recognized the need of cleansing.

"Then" (v. 6)—what an important word! When Isaiah called out in humble confession, "then" he was cleansed. The turning point is right at that place for any life. Only when we come to the place of confession and contrition which Isaiah knew, can we expect the Lord to send the cleansing fire and the enabling power.

Reformation, turning over a new leaf, character development, all commendable in their place, are not sufficient. There must be a divine cleansing of the life if there is to be a commission to service.

III. Realizing God's Will (Eph. 5: 15-17).

The ministry of the Church of God can serve no greater purpose than helping men and women to know the will of God. That wisdom (v. 17) comes through the teaching of God's Word and through the ministry of the Holy Spirit, both in the church and in the individual.

The Church (and that means every member) is to recognize that the evil day in which we live is a challenge to holy and effective living. Time is not to be wasted, or casually used. It is to be redeemed—every moment to count for God.

The walk of the believer is to be circumspect, that is, with "pains-taking attention to details, under a sense of their importance" not a foolish walk, but a wise one.

IV. Receiving God's Spirit (5:18-21).

God wishes to fill His children with the Holy Spirit in such mighty overwhelming power that they are entirely under His control. Such Spirit-filled believers find their joy and satisfaction in the fellowship of those who sing the praises of God from the heart.

Being a Christian is not a depressing, sorrowful business. It makes you glad. It is God's people who sing and make melody. Some of us who have failed to appreciate this truth should begin now to "get happy" about our religion.

The Holy Spirit leads believers into a life of humility and self-denial (v. 21). Pride and self-exaltation are definitely ruled out. Do not neglect the note of thanksgiving found in verse 20. The Church of Christ has so infinitely much for which to be thankful that actually ingratitude is a sin. How much blessing is lost because of it! Let us "give thanks always for all things."

Best Suds
 Don't use too much soap. A suds about two inches thick has proven best for washing clothes clean.

 Requires no special diet. Burns any kind of coal, coke or briquets. Semi-automatic, magazine feed. Start a fire but once a year.

SEE YOUR DEALER—and have him show you the remarkable features of this distinctly different coal heater... that outells all others.
 LOCKE STOVE CO., 114 West 11th St., KANSAS CITY 6, MO. (CV-43)

IF PETER PAIN HAMMERS YOU ... AND SORE MUSCLES SCREAM...

..RUB IN Ben-Gay QUICK

Here's why gently warming, soothing Ben-Gay acts fast to relieve muscular soreness and pain... Ben-Gay actually contains up to 2½ times more methyl salicylate and menthol—those famous pain-relieving agents known to every doctor—than five other widely offered rub-lins. So insist on genuine Ben-Gay for soothing, quick relief!

BUY VICTORY BONDS!

*A Pledge
for all of us*

I pledge allegiance to the flag of the United States of America

(And I'll back up that pledge with Victory Bonds — plenty of them!)

And to the Republic for which it stands

(My country — the land that yields my crops, that gives a living to me and mine. I'll put my dollars to work for her.)

One nation indivisible

(I'll keep it one nation — prosperous and happy.)

With liberty and justice for all

(And a good living for all — the living that my backlog of Bonds will make secure in the years to come . . . for me, for my community, for the boys who will be coming back from fighting in their country's service.)

The lobby will be open during the day, and mail distributed and pouched as usual. Windows closed all day. The State Bank of East Jordan will also be closed Monday.

Council Proceedings

Regular meeting, common council for the City of East Jordan, Nov. 5, 1945.

Present: Mayor Whiteford; Aldermen Bussler, Malpass, Nowland and Thompson. Absent: Sinclair and Hayes.

The following bills were presented for payment:

E. J. Public Schools	\$146.52
Healey Sales Co.	29.68
Harry Simmons	85.00
M. R. Shaw	40.00
G. E. Boswell	87.44
John Whiteford	72.20
Theo Scott	2.50
Bremmeyr-Bain Co.	52.65
Benson's Hi-Speed Service	13.54
Standard Oil Co.	5.46
Yard-Man Inc.	4.96
Al Thorsen Lumber Co.	10.34
Mich. Public Service	323.10
B-W Controller Corp	12.28
Mich. Bell Telephone Co.	19.65
Badger Meter Mfg. Co.	45.22
Ray Russell	33.00
Ted Kotowich	5.00
Win Nichols	75.60
Alex LaPeer	52.25
J. W. Bussing	3.00
Contractor's Machinery Co.	308.00

Moved by Thompson and supported by Nowland that the bills be paid. Carried all ayes.

Moved by Thompson and supported by Malpass, that the following people be given building permits: Harrison F. Kidder, Bill H. Drenth, Jack R. Craig and Orval Davis. Carried all ayes.

Moved by Malpass and supported by Bussler, that the following portion of Esterly St. be absolutely abandoned and discontinued, said portion of Esterly St. being within the corporate limits of the City of East Jordan, County of Charlevoix, State of Michigan, and more particularly described as follows: "Commencing at the south east corner of Lot Twelve (12), Block Three (3) of the original plat of the Village of South Lake; thence south six-tenths (.6) feet, thence west to a point six (6) feet east of the east rail of the Railroad Track now constructed on the west side of said lot 12, and three and five tenths (3.5) feet south of the south line of said Lot 12; thence north to the south line of said Lot 12; thence east on the south line of said Lot 12 to the place of beginning. Carried, all ayes.

Moved by Bussler and supported by Thompson, that the city accept advance planning money for sewer system with necessary lift stations. Carried all ayes.

Moved by Thompson and supported by Nowland to accept the following resolution:

Whereas the Federal Works Agency is prepared to advance \$1,980,000 to pay for the City's share of the State Planning Commission contract No. 15-C-48-2R for sewer extensions wherein the State approved grant is for a like amount,

Therefore be it Resolved that Vern Whiteford be authorized to execute the necessary documents of the Federal Works Agency including form 405, Application No. 20-P-116 according to the regulations applying thereto.

Adopted all ayes.

Moved by Malpass and supported by Thompson that the following resolution be accepted:

Whereas the State of Michigan Planning Commission has approved a grant of \$1980 to the City of East Jordan for Sewer Extensions under Contract No. 15-C-48-2R, and

Whereas the Federal Works Agency has agreed to advance \$1980 to pay for the City's share of the State Contract,

Therefore be it resolved that Herbert C. Bucholz, Registered Engineer, be given the contract to complete the required plans and specifications according to the rules, regulations and provisions of the Michigan Planning Commission and Public Works Agency, and according to all State and Public Health Department requirements for the above total amount of \$3960, payable in amounts as approved by the State and Federal Agencies, 20 per cent to be paid when preliminary plans and data upon which final plans are based are submitted and approved, and Federal Funds received.

Adopted all ayes.
 —Merritt Shaw, City Clerk.

Michigan Mirror

Outstanding in the preservation of historical landmarks.

Such is the experience of nearby states such as Indiana, Wisconsin, Illinois and Ohio, all of which have purchased and are maintaining unusual historical sites and properties as a part of the state's recreational service to the public.

Michigan, the leading tourist state in the Mid-West, has lagged in this field. As we pointed out last week, historic Fort Mackinac at Mackinac Island is under state ownership and control and is perhaps the best known tourist spot of the entire state. It provided the setting for the 1945

governors' national conference last July.

Through the efforts of county boards of supervisors, local historical societies and interested citizens, many historical sites in Michigan have been suitably marked and thus memorialized with tablets & monuments. But few original properties have been preserved.

In addition to Old Fort Drummond and to the old Mormon printing house at St. James, Beaver Island, which we publicized last week as affording opportunities for preservation of unique historical landmarks that would appeal greatly to Michigan people and to outstate tourists, there is a stretch of the old Clinton-Kalamazoo barge canal between Utica and Rochester which still survives today as a relic of a century-old pioneer period.

Part of this waterway is being utilized by the Utica Milling company, Utica, for purpose of waterpower.

It would be very simple for the State of Michigan to set aside a portion of this canal as a historical memorial. Canal land has been purchased already by state conservation department in its development of the Southeastern Michigan recreational program.

This canal was started in 1839 as part of an ambitious state improvement program designed to provide transportation by boats from Lake St. Clair to Lake Michigan via the Clinton and Kalamazoo rivers. Michigan boy governor, Stevens T. Mason, headed the movement. When money ran out, the canal was abandoned.

Our column research this week revealed the fact that the Indiana department of conservation is acquiring a 14-mile stretch of the old Whitewater canal between Brookville and Laurel for preservation as a historical memorial.

Formal transfer of the property, financed by the Whitewater Canal association is expected to be completed this month. Announcement was made Nov. 1.

In Indiana the state government, through the department of conservation, is "cashing in" on public interest in early Indiana history. The

state has acquired the following properties and is preserving them as recreational tourist spots: George Rogers Clark memorial, Nancy Hanks Lincoln memorial, Corydon State Capitol memorial, James F. D. Lanier memorial, old Goshen Church memorial, Pigeon Roost memorial, Tippecanoe Battlefield memorial, and the

Wilbur Wright birthplace memorial. The Whitewater canal memorial would be added to the above.

In Wisconsin the preservation of historical landmarks is conducted under auspices of the conservation department as the operating agency for (Continued on last page)

QUESTION:

Do rates charged for telephone service have a bearing on the quality of service?

ANSWER: They certainly do. The future quality of your telephone service depends on telephone rates sufficient to produce earnings attractive to investors. Too long a continuation of inadequate earnings would weaken our ability to meet expected post-war telephone needs.

QUESTION: But, isn't it true that Michigan Bell is taking in more money than ever before?

ANSWER: Yes, because we are doing the biggest business in our history.

QUESTION: Then you're making more profit, aren't you?

ANSWER: No. Our net earnings are below the pre-war rate — far below the earnings of other industries. The reason is that our wages, taxes and other costs have gone up faster than our revenues.

QUESTION: With that unfavorable situation, what kind of telephone service can I expect in the future?

ANSWER: We want to give you more service and better service, whenever and wherever you want it.

QUESTION: How can you expect to do that?

ANSWER: We already have started work on a 5-year \$120,000,000 post-war program of expansion and improvement.

QUESTION: Where will you get the money you need?

ANSWER: We must get it from the savings of thrifty people willing to invest in Bell System securities.

QUESTION: Will they be willing to invest their money in your securities?

ANSWER: Only if telephone earnings are sufficient to assure reasonable dividends now and in the future. If prospects for future telephone earnings are unattractive compared with those of other companies, people will place their savings elsewhere.

Michigan Bell customers want good service. The telephone bill is so small an item in their regular expenditures that customers want really good service even though it might cost a trifle more than they would need to pay for inferior service.

Find Irradiated Yeast

Helps Hogs Gain Weight

A small amount of irradiated yeast appears to speed up the growth of pigs in winter. If irradiated yeast continues to give as good results as it has in the limited work done with it at the University of Wisconsin, then it may become a "must" in winter hog production.

In one of the experiments for example, pigs that received 4 ounces of irradiated yeast in each ton of feed, and had the run of the cow yard, out-distanced all others. They made average daily gains of 1.51 pounds per head and required only 775 pounds of feed to produce each 100 pounds of pork.

In the same trial, pigs getting irradiated yeast as the only vitamin supplement came in second, making slightly faster and more economical gains than those whose vitamin supplement was cow manure only.

The effect of irradiated yeast is ascribed to its vitamin D content, since the type used assays \$4,000,000 U. S. P. units of this factor to the pound, and since it contributes only traces of the B vitamins when used at the level of only four ounces to the ton of feed.

Farmers Have Less to Worry Them This Time

Washington, D. C.—Farm prices stand at 200 per cent of the 1909-1914 average—higher than the prices of 1918—and will drop again but not as sharply as in 1921 because the Government is required by law to maintain support prices of at least 80 per cent of parity for two full calendar years following the year in which the war ends. The Department of Agriculture has announced.

The announcement indicates the farmer will not be a victim of a drop in prices similar to that which followed the last war in 1921 when prices hit the low of 115 per cent of the May, 1920, level which was 235 per cent of the 1909-1914 level. Thus the farmer will have more money than after the last war.

War Finance Committee officials said that in addition to the maintenance of the price level for two years, that non-farm families already have, and are accumulating, weekly savings through the Payroll Savings Plan of the War Finance Division of the Treasury. This, they claim is proof the non-farm front will be much better able to support itself than after the last war during the normal lull of reconversion. Buyers of farm products will have the money to buy, it was said, and farmers should avail themselves of the opportunity to acquire War Bonds during the Victory Loan so as to have the money with which to modernize and handle the non-farm market demands that will be backed with cash to pay sustained prices during the two years after fighting ceases.

The Payroll Saving Plan has sold \$18,000,000,000 in War Bonds to wage earners, that great bulk of non-farmers who will, if need be, enjoy the fruits of their savings in the reconversion period and have the cash with which to support themselves.

Secretary of Agriculture Clinton P. Anderson adds that "prosperity of the farm depends primarily on purchasing power in the city."

Some Victory Loan Facts

Washington, D. C.—Victory Loan facts, honoring the men and women who won the war, are as follows:
Dates: October 29 through December 8.
Quotas: \$11,000,000,000; 4 billion in individual sales, 2 billion in Series E sales, 7 billion from other non-bank investors.
Reason: Treasury balance will be drained by December. Money is vitally needed for hospitalization, rehabilitation, retraining, feeding and clothing men overseas, transportation home, payment of munitions already used.

Good Brakes Essential

For Driving Safety

Records of the National Safety Council show that every year 4,500 farm people lose their lives in vehicular accidents, many of them the result of faulty brakes.

Entering a highway from a farm roadway demands absolutely dependable brakes for safety. In the open country, main highway traffic travels at speeds of 50 to 60 miles per hour. A car travelling 60 miles per hour will cover 440 to 490 feet during the usual time for a farm car or truck to move on to the highway from a driveway. Furthermore, a car with very good brakes requires an additional 250 to 350 feet to stop, depending upon the tires, condition of the roadway, and the speed of the driver's reaction. Ordinarily, a driver usually requires from one-half to two-thirds of a second to apply the brakes after realizing the need to stop. Because so many farm people are continually fatigued from overwork, their reaction time may be as high as one second or more, long enough to result in a fatal accident if brakes are faulty.

Advance Health Program

Improves Amazon Region

Construction of hospitals, health centers and sanitation works is nearing completion in an inter-American health program designed to speed the development of Peru's upper Amazon region and the Pacific port of Chimbote.

The work is being done under a cooperative arrangement between Peru and the United States, through the Institute of Inter-American Affairs, extending into 1947. It is part of the inter-American health and sanitation program in which 18 of the other American republics are participating.

Fourteen United States doctors, engineers and other specialists are working with more than 100 Peruvian health officials, doctors, engineers and administrators in a pioneering medical program unique in the history of Peru's vast trans-Andean territory.

With the construction of highways across the Andes, and the extension of air transport in the remote Amazon country, the region is considered ripe for faster development of its tropical resources, including rubber, lumber, cinchona and food staples.

Like Butter

When lend-lease between the United States and Russia was first inaugurated, our government officials who have been determined to substitute oleomargarine for butter, sent their high praises of oleo to the Russians with the suggestion that Russia accept oleo rather than the butter which they had requested through lend-lease. Russia's classic reply was to the effect that if oleo was such a wonderful product, it be conserved for us Americans while Russia would strive to get along with dairy butter. The Russians have further demonstrated their unflinching belief that milk and its products constitute the best basis for an adequate diet by distributing one million milk cows and milk goats to families returning to the liberated area in 1944. These animals were all moved into the liberated area "on the hoof" to conserve transportation facilities vitally needed for movement of military supplies. The total mileage traveled by these milk animals in reaching their new homes was in excess of 25,000 miles and 7,000 Russian herdsmen were in charge of the mass distribution of animals to provide fresh milk for the rebuilders of Russian agriculture.

Historic Route

The Moravian pass is a break in the mountains of the Sudeten and Carpathian ranges of northern Czechoslovakia. On one of Europe's historic travel routes, it is part of a convenient natural trench that cuts through the uplands of central Europe by way of numerous river valleys and mountain openings. It has seen the north-south flow of traffic since the early days of the Baltic amber trade. The Moravian Gate extends for about 20 miles through ranges of northeastern Moravia. At its narrowest point, between 1,000-foot hills, it is about four and a half miles across. It is relatively low, with an altitude of between 700 and 800 feet. The military significance of the Moravian corridor has long been recognized. Both Napoleon and Bismarck rated it as highly important in the control of central Europe.

Mushroom Culture

Mushrooms have no chlorophyll and can not manufacture their own starch and sugar. They must therefore be grown on a medium rich in nitrogen which has carbohydrates in such form that the mushrooms can take them up easily. Since there is no chlorophyll present in mushrooms, light is not necessary in their culture. Mushrooms, therefore, are usually grown in the darkness, not because they grow better, but because it is easier to regulate the temperature and the moisture in a dark place. The spawn consists of the mycelium or roots of the mushroom plant in an arrested stage of development. They are grown in a medium made up of horse manure from grain-fed animals which has been worked over and composted until its pH is under 8.

Inexpensive Funerals

—Now Are the Rule

Despite high earnings by civilians, American workers are not splurging upon expensive and elaborate funerals for their loved ones, a survey of the National Selected Morticians revealed. The survey showed that more than 85 per cent of the funerals cost less than \$500, including cost of casket, embalming, mortician's professional services, use of the chapel, music, the coach and a limousine for mourners. Only 14.4 per cent, or 4,045 of the 28,057 funerals studied, cost over \$499.

The N. S. M. official asserted that the present reasonable cost of burial, including the services listed, is shown graphically by the fact that the greatest number in any single price category were the 4,848 funerals costing from \$101 to \$199, inclusive, and that 13,341 others, or 47.8 per cent of the 28,057 funerals, cost from \$200 to \$399, inclusive. Thus a total of 17,989, or 64.6 per cent of all, cost less than \$400.

The decrease during the war years in the very inexpensive funerals, those costing less than \$100, has been largely due to the increased purchasing power created by war payrolls. The growing tendency for people to make their own funeral arrangements in advance and to arrange specific insurance to cover funeral costs also has been an important factor.

Believed Numerous Evils

Were Caused by Comets

Comets were believed by the superstitious in the 16th century to be heralds of evil, portending such disasters as floods, famine, earthquakes, wars, and pestilence, says Dr. C. Doris Hellman of Columbia university.

One writer of the time commenting on the comet of 1577, she said, wrote that "he thought all historians would testify that comets have always had some great task to perform in the world, but that usually they have aroused dryness and heat in the air, strong and destructive winds, and in some places uncontrollable floods and in others, horrible earthquakes and the spoiling of the grain and fruits of the earth."

"Comets are followed by plagues, fevers, pestilence, and poisoning of the air from which men and beasts perish; and they point to great disunity among rulers, war bloodshed and deaths of chiefs. This comet would have no less effects than the previous ones, especially because of its size and its saturnine aspect," this writer concluded.

Dr. Hellman said "records of comets go back as far as the beginning of the third millennium B. C., when a comet was observed in China; and interest in comets has continued through Chaldean, Babylonian, Egyptian, Greek, Roman and medieval and modern times up to the present."

Nutritional Spices

Paprika and chile are exceptions to the rule that spices furnish flavor but no food value. Paprika, the red spice from a mild-flavored pod pepper, has long been known to contribute important amounts of vitamin A to Hungarian diets in which it is used lavishly. Even after drying and powdering paprika rates high in vitamin A. In recent years chile powder has increased in popularity generally and now stands about tenth on the list of spices according to the amount consumed. Recent tests at the New Mexico experiment station show that chile may contribute both vitamin A and vitamin C to those diets in which it is used generously. Products made from chile peppers differ widely in vitamin content. Fresh and canned chile peppers offer the most in both vitamins A and C. Dried red chile and sauces made from dried red pepper are rich in vitamin A but lacking in vitamin C.

Tanning Substitute

A special mission sent by the United States to Mexico to investigate sources of substitute substances suitable for tanning leather has reported that the buttonwood tree and the red mangrove, both abundant there along the Gulf of Mexico, may provide new sources of suitable tanning extracts. Many of the vegetable tanning extracts used by the United States in the production of a large variety of military leathers came from far distant places, and since the outbreak of the war new sources of supply were needed to guard against shortages. Previously research by Dr. Alfred Russell at the University of North Carolina indicated that a suitable tanning material could be extracted from the buttonwood tree.

New Minerals

Two new minerals of the pyrite family have been discovered from the heart of the Belgian Congo. They are a nickel mineral and a cobalt mineral which are chemically the same as pyrite except that nickel or cobalt is substituted for iron. Sent in the Belgian Congo for identification here, one is being named after M. Cattier, president of the Union Miniere, and the other after M. Vaes, mineralogist of the Union Miniere. Pyrite or fool's gold is iron disulfide, a brass yellow mineral with a bright metallic luster. It is one of the minerals known for centuries.

PROBATE ORDER
Appointing Time for Hearing Claims

State of Michigan. The Probate Court for the County of Charlevoix. In the Matter of the Estate of Bert L. Lorraine Deceased.

At a session of said Court, held in the Probate Office in the City of Charlevoix, in said county, on the 30th day of October, 1945.

Present: Rollie L. Lewis, Probate Judge.

The above estate having been admitted to probate and Claude L. Lorraine having been appointed administrator.

It is Ordered, That two months from this date be allowed for creditors to present their claims against said estate for examination and adjustment, and that all creditors of said deceased, are required to present their claims to said Court, at the Probate Office in the City of Charlevoix, on or before the 2nd day of January, 1946, at ten o'clock in the forenoon, at which time claims will be heard.

It is Further Ordered, That public notice thereof be given by publication of this order for three successive weeks previous to said day of hearing in the Charlevoix County Herald, a newspaper printed and circulated in said county.

ROLLIE L. LEWIS,
Judge of Probate

NOTICE OF SALE — SURPLUS
GOVERNMENT FARM REAL
PROPERTY

The Federal Farm Mortgage Corporation, 346 Jackson Street, St. Paul, 1, Minnesota, hereby gives notice that it now has available for disposal under the Surplus Property Act of 1944 and Regulation No. 5 of the Surplus Property Board, the following farm real property which has been declared surplus by the Government: approximately 96 acres in various tracts, all located in the state of Michigan, as follows: Approximately,

10.37 acres in Washtenaw County located in Sections 4 and 9, Twp. 3 South, Range 6 East; Approximately 4.38 acres in Charlevoix County located in Section 12, Twp. 32 North, Range 7 West; Approximately 30 acres in Kalamazoo County located in Sections 20 and 29, Twp. 2 South, Range 10 West; Approximately 26.75 acres in Saginaw County located in Sections 27 and 28, Twp. 13 North, Range 5 East; Approximately 24.37 acres in Alpena County located in Section 29, Twp. 31 North, Range 8 East; together with any improvements or easements not reserved, such parcels having been acquired and used as National Guard Target Ranges. Terms and conditions of sale and all necessary information concerning property and the method of exercising priorities and submitting offers will be available on and after October 17, 1945 at the office located closest to each of the above described tracts: National Farm Loan Office, 201 E. Liberty St., Ann Arbor, Mich. National Farm Loan Office, 613 Third St., Bay City, Mich. National Farm Loan Office, Gaylord, Mich. National Farm Loan Office, 124 1/2 N. Main St., Three Rivers, Mich. Mobiloil

Start Your Car Off Right This Winter—
Keep Your Engine Mobiloil Clean

What do we mean by *Mobiloil Clean*? . . . Just this: keeping rings, pistons, valves freer than ever before from power-wasting, fuel-wasting, and oil-wasting deposits!

Isn't that what you want this winter? Everybody knows a clean engine is an efficient engine. And now this big step up in oil quality comes just when you need it most.

New, free-flowing, double-range Mobiloil can help you beat hard starting, keep your engine free-turning, easy on your battery—yet fully protected after warm-up.

Advanced Clearosol Process gives New Mobiloil greater heat-resisting properties . . . greater ability to keep engines clean, safer, smoother-running.

This new Mobiloil is by far the finest Mobiloil ever offered. It has proven itself in thousands of wartime Civilian Bus and Truck Fleets . . . in Army Combat and Transport vehicles.

The Finest Mobiloil Ever Made

When you were three

Tying your own shoes was a tough job. But your parents knew it would help you to help yourself.

That's always been an American custom. As boy or man, just give an American an even break—a chance to get ahead—and he'll do the rest.

But when government goes into business, in competition with its citizens, the American idea of an even break is destroyed... for government in business takes special privileges that are denied the people.

Consider government power projects, for example. They are not required to pay federal taxes; often get money from the U. S. Treasury at little or no interest; make up losses out of the pockets of the taxpayers.

On the other hand, America's business-managed power companies—owned and operated by millions of folks like you—are on their own. They pay their full share of taxes, and they pay fair interest on any loans.

It is a tribute to American self-reliance that business-managed companies supply over 80% of the electric power used in this country. These companies provide enough electricity to meet even the gigantic demands of war—and, when most things cost more—still deliver this electricity at low pre-war prices.

* Listen to "THE SUMMER ELECTRIC HOUR" with Robert Armstrong and guest stars. Every Sunday afternoon, 1:30, A.M.T., CBS Network.

Come In, Everybody!
 See the New 1946 CHEVROLET

Styled to lead in Beauty
 Outstanding appearance features of the new 1946 Chevrolet include: new Beauty-Leader Styling; luxurious Body by Fisher; new Wide-Wing radiator grille; new hood ornamentation; new two-tone color harmonies; distinctive new instrument panel; and massive new "Car-Saver" bumpers both front and rear.

Engineered to lead in Performance
 Notable engineering features include: Chevrolet's proved Valve-in-Head Thrift-Master Engine for performance with economy; the famous Unitized Knee-Action Ride for comfort; Extra-Easy Vacuum-Power Shift and Shockproof Steering for driving ease; and Positive-Action Hydraulic Brakes for smooth, safe, positive stops.

Built to lead in Economy
 For years, Chevrolet has been the most economical of all largest-selling low-priced cars, from the all-round standpoint of gas, oil, tires and upkeep; and the new Chevrolet for 1946 is designed and built to maintain this reputation for highest quality at low cost. Be sure to see this beautiful new car at your Chevrolet dealer's.

BEST LAUGHS OF THE WEEK

MOPSY by GLADYS PARKER

Wife Worry

Hi—What makes our neighbor pace up and down in front of his house like that?
 Si—He's awfully worried about his wife, poor chap.
 Hi—Why, what's she got?
 Si—The car.

Nobody Home
 Wife—Say, John, the census taker is at the front door.
 Hubby—Just tell him we lost our census several years ago.

Household Cares
 Hubby—What kind of a disposition does the new cook have?
 Wife—She has a very even temper—always mad.

Way Off Base
 Harry—They say his wife drove him out of his mind.
 Jerry—That was just a bunt.

Sounds Good

Father—I want no more of that standing on the porch with that young man.
 Daughter—I only stayed for a second.
 Father—I distinctly heard a third, fourth and fifth!

Stationary
 Cora—The school principal says you have a model brother.
 Dora—Too bad he isn't a working model!

Advice to Lovelorn
 WAC—Do you believe in long engagements?
 Sailor—Yes, I think young people should be happy as long as possible.

Home Sweet Home
 Wifey—And what would you be now if it weren't for my money?
 Hubby—A bachelor.

HOUSEHOLD MEMOS... by Lynn Chambers

Substantial Quality Food a Necessity on Winter Social Menu

Fiesta punch is delicious served either hot or cold. No sugar is required when one of the suggested substitutes is used, and the beverage can be quickly made a short time before guests arrive.

With so many families returning to the old home town, and couples who married during the war finally getting settled together, welcome parties are becoming quite the style. Social engagements books which looked blank are now filled again.

Yes, entertaining is due for a revival. This is the time, because the holiday season is approaching in full glory. Food is not the problem it was last year although there still are restrictions, and it's fairly easy to serve something nice and make the table look its prettiest.

If the group is mixed and there are a number of men (big eaters, now that they have learned to have lots of chow or go to mess regularly), plan to have a substantial casserole dish with some hearty trimmings like big salads and rich-looking cakes or pastry.

Or, if the affair is to be just a snack, serve bread with a choice of fillings and the usual accompaniments like potato chips, pickles, olives, relishes, and punch or some favorite beverage.

Suggestion I.
 Assorted Bread: Oatmeal, Raisin, White and Rye.
 Sandwich Fillings: Nippy Cheese and Peanut Butter.
 Relishes: Olives, Radishes, Carrot Sticks, and Celery Hearts.
 Beverage: Orange Juice or Fiesta Punch.

Nippy Cheese Filling.
 Combine equal parts of cream cheese and butter. Add salt and paprika to taste and 1 teaspoon each of finely minced parsley, pickles, olives and green pepper. Flavor with sardine paste.

Peanut Butter Filling.
 Peanut butter may be served alone or it may be combined with any of the following for a delicious filling: jam, chopped bacon or grated raw carrots.

Fiesta Punch.
 (Makes 1/2 gallon)
 1 cup strong tea
 3/4 cup sugar, honey or corn syrup
 1/2 cup lemon juice
 1 1/2 cups orange juice
 1 cup grape juice
 1 quart water

Make the strong tea by pouring 1 cup boiling water over 4 teaspoons of tea. Dissolve sugar or substitutes in the hot, strained tea. (The tea should steep first for 5 minutes.) For a hot punch, combine the tea with the fruit juices and add the water which should be boiling hot. Serve at once.

For cold punch, chill the tea and combine with well-chilled fruit juices and iced water. Garnish the punch with slices of orange and lemon.

LYNN SAYS

Care for Your Silverware:
 Clean, hot, soapy water is recommended for both flat serving pieces and tableware. Rinse in boiling water after washing and wipe dry as soon as possible.

To remove tarnish, use a good silver polish or wet a little sifted whiting with ammonia and apply with a soft cloth. Let stand until dry, rub off with soft cloth, rinse and polish with a second cloth or chamois.

Silver tarnished with egg should be cleaned immediately.

A small soft brush is best for cleaning ornamental pieces. Silverware should never be heated directly or placed on the range. Serving dishes may be heated over hot water or kept warm on the radiator if an asbestos pad is placed under them.

LYNN CHAMBERS' IDEAL MENU

Oyster Rarebit
 Crackers Jellied Vegetable Salad
 Apricot Cobbler Cream
 Tea, Coffee or Milk

Suggestion II.
 Farm Sausage Casserole
 Combination Salad Crusted Rolls
 Favorite Cake
 Beverage

The main dish for this hearty snack can be made ready before company comes, and then heated about half an hour before serving time rolls around.

Farm Sausage Casserole.
 (Serves 6)

1 1/4 cups broken macaroni
 1/2 cup diced American cheese
 1 tablespoon minced onion
 3/4 teaspoon salt
 1 1/2 cups thin white sauce
 1 cup green peas, cooked
 1/2 cup sauteed mushrooms
 1/4 cup chopped pimiento
 1 pound pork sausages, broiled
 Buttered bread crumbs

Cook macaroni in boiling, salted water until tender. Drain and rinse. Combine with all remaining ingredients, except sausages and bread crumbs. Place in casserole which has been greased. Top with sausages and sprinkle a few bread crumbs over the top. Heat in a slow (325-degree) oven for 25 minutes.

Combination Salad.
 (Serves 6 to 8)

1 head lettuce
 1 cucumber
 2 to 3 tomatoes
 1 bunch radishes
 1 bunch small onions
 1 green pepper
 Celery curls
 Carrot curls
 French dressing

Wash all vegetables carefully and allow to chill. Break lettuce into chunks and line salad bowl. Toss in all other ingredients which have been sliced or cut into pieces and sprinkle french dressing over them.

Favorite Cake.

1 cup whipping cream
 1 cup sugar
 2 eggs
 1 teaspoon vanilla
 1 1/2 cups sifted cake flour
 2 teaspoons baking powder

Whip the cream until slightly thickened but not stiff enough to hold a peak. Fold in the sugar gently, the beaten eggs and vanilla. Add the flour which has been sifted with the baking powder and a speck of salt. Mix only until smooth. Place in two shallow cake pans and bake in a moderate (350-degree) oven for 25 minutes. Cool. Frost with seven-minute icing and sprinkle with coconut. Or, frost with whipped cream and sprinkle with coconut.

For impromptu entertaining, there's nothing easier to prepare than a tray of sandwich spreads with assorted bread and health drinks of citrus fruit juices in colorful glasses.

Seven-Minute Icing.
 1 egg white, unbeaten
 3 tablespoons cold water
 1/4 cup granulated sugar
 1/4 teaspoon cream of tartar
 1/2 teaspoon vanilla

Place all ingredients in top of double boiler. Beat with rotary beater until mixed, then place over hot water, and continue beating until frosting stands up in peaks (about 7 minutes).

Ahead of the other foods the returned G.I. will look forward to are the good, homemade desserts. Whatever was his favorite when he left is sure to be his favorite when he returns. He has spent many hours thinking and dreaming of that dessert.

Chocolate has been a favorite of the serviceman. His favorite may have been chocolate ice cream, chocolate pie or chocolate cookies. The sizes of portions should be man-size, he has learned how to eat in a big way and will not be at home when dainty portions are passed out. Milk seems to be the favorite beverage of returned servicemen. This might be served with the addition of chocolate or in form of a malted or egg malted drink, all of which will be welcomed. Give him a try with bread, raisin, nut, potato, or best of all a real home baked loaf. He may be tired of dark tack and stale white bread, and anxious to try something new and different.

Released by Western Newspaper Union.

On October 23, LEWIS R. LAVALLEY was promoted from Lieut. junior grade to Lieutenant. His address is: USS Leonard Wood, c-o FPO, San Francisco, Cal.
On October 10, FRANCES J. LENOSKY was promoted to First Lt. in the Army Nurse Corp. Her address

is now: 830 MAES, 591 AAFBU, AAF, Stockton, Calif.
Word has been received from the 4th Division stationed at Camp Butler, North Carolina, that Tyson Kemp has been promoted from the grade of private first class to corporal. Say, why don't someone give us Tyson's address so we can send the Herald to him?

Michigan Mirror

(Continued from page Four)

Like Michigan, Wisconsin has an active state society for historical research and publications. But groups of this kind are not equipped to administer the needs of properties, and hence the conservation department is the preferred medium.

The Wisconsin conservation department is charged with the preservation of the following:

Nelson Dewey Memorial park at Cassville, consisting of original buildings on the farm of Wisconsin's first governor. State purchase, 1935.
Wisconsin's first capitol building at Belmont. Gift in 1924.
Cushing Memorial park at Dalafield to Civil war family prominent in Wisconsin history. Gift in 1915.
Tower Hill pioneer memorial park at Spring Green where lead shot was made. Gift in 1922.

Other potential tourist attractions which would afford a delightful Sunday automobile trip for Michigan residents and an interesting stop for visiting tourists:

Oldest covered bridge in Michigan, a relic of pioneer days.
Oldest remaining pioneer water-powered mill. A historic mill is in the Southeastern Michigan area, having been acquired by the conservation department.

Authentic restoration of lumber camp in north Michigan woods. Tourist access by lumber railroad, a la "Toonerville", trips being financed by small fee per passenger.
Indian mound and Indian historical museum.

That historical landmarks, such as these, would enrich Michigan's tourist industry is our observation. Finances preferably by private contributions and administered by the conservation department, they would be

MICHIGAN HISTORY IN PICTURES

Among first Northwesterners to meet Europeans were the Huron (Iroquois).

Michigan's "Three Fires" met the whites at a period starting after 1608.

Potawatomi remnants moved to eastern Kansas after the Chicago treaty, 1833.

The Three Fires

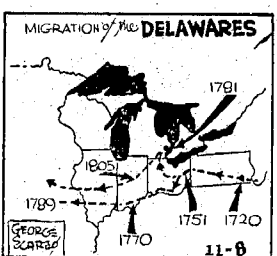

Most numerous tribe of Old Northwest were Chippewa, also called Ojibwa.

The Miami encamped near Detroit for a few years, at Cadillac's behest.

Foxes, "besieging" Detroit in 1712, actually were resisting a plot.

Mt. Clemens was a Delaware town site for a time during the Revolution.

Shawnee brought American captives to Detroit, among them Boone and Kenton.

Other Tribes

sound business investment.

A major handicap, according to Harry H. Whiteley of Dowagiac, a member of the state conservation commission, is an "extreme lack of funds." The state park budget was cut by the legislature from an anticipated \$3,000,000 to \$1,000,000 during the 1945 session.

With approximately 5,000 acres on its hands, the state department finds itself literally strapped for money. Mr. Whiteley points out, "After more or less marking time during the war period, we must now begin to do something that can be sensed by the public." That will require adequate state funds which, to date, according to Mr. Whiteley, have been "stymied by legislative lethargy and indifference."

If historical landmarks are to be acquired and preserved, action must

be taken first by local governments, by privately-raised funds, or by memorial gifts. Later on these acquisitions could be turned over to the state for maintenance as part of the state's recreational program. Such is the outlook today as we see it.

NOV. 21, 1945

AN IMPORTANT DATE FOR THOUSANDS OF ARMY VETERANS NOW IN CIVILIAN LIFE

Between now and November 21, thousands of Army veterans will reenlist in Uncle Sam's new volunteer peacetime Army. Because men who have been discharged between May 12 and November 1 of this year and reenlist on or before November 21 will be able to return to the Army with the same grade as they held when discharged.

Men with six months of satisfactory service discharged as privates will, on reenlistment before November 21, be given the grade of private first class.

Men now in the Army who apply for discharge after NOVEMBER 1 for the purpose of reenlisting in the Regular Army will also retain their present grades, if they enlist within 20 days after discharge and before FEBRUARY 1, 1946.

"BEST JOB IN THE WORLD"

These special privileges are typical of the new law recently passed by Congress. Few opportunities for a lifetime career offer as many attractive advantages.

Can you think of any other job that would give you good pay, your food, clothing, quarters, free medical and dental care, world-wide travel, 30 days' furlough every year, education and training in any of nearly 200 skills or trades, and enable you to retire with a life income any time after 20 years' service?

There isn't any! That's why a job in the Regular Army has been called "The Best Job in the World."

HIGHLIGHTS OF THE NEW ENLISTMENT PROGRAM

- Enlistments for 1½, 2 or 3 years. (1-year enlistments permitted for men with 6 months' service.)
- Men reenlisting retain their present grades, if they reenlist within 20 days after discharge and before Feb. 1, 1946. The same applies to men discharged between May 12 and Nov. 1, 1945, who reenlist before Nov. 21, 1945.
- An increase in the reenlistment bonus to \$50 for each year of active service since the bonus was last paid, or since last entry into service.
- 20% extra pay when overseas.
- Paid furlough, up to 90 days, depending on length of service, with furlough travel paid to home and return, for men now in the Army who enlist.
- Mustering-out pay (based upon length of service) to all men who are discharged to reenlist.
- Option to retire at half pay for the rest of your life after 20 years' service — or three-quarters pay after 30 years. (Retirement income in grade of Master or First Sergeant up to \$155.25 per month for life.) All previous active federal military service counts toward retirement.
- Benefits of GI Bill of Rights.
- Family allowances for the term of enlistment for dependents of men who enlist or reenlist before July 1, 1946.
- Choice of branch of service and overseas theater in Air, Ground or Service Forces on 3-year enlistments.

PAY PER MONTH—ENLISTED MEN

In Addition to Food, Lodging, Clothes and Medical Care	Starting Base Pay Per Month	MONTHLY RETIREMENT INCOME AFTER:		
		20 Years' Service	30 Years' Service	30 Years' Service

THE EMBLEM THAT SAYS...
He served Overseas

That's what it said in 1899 to the veterans who came back from Cuba, Haiti and the Philippines.

That's what it said to the veterans who returned home from France and duty on the high seas in 1919 after the First World War.

That's what it means today to the hundreds of thousands of overseas veterans of this war who are members of the V. F. W.—men who are still

in the fighting areas as well as their comrades who have already returned to civilian life.

Thus the V. F. W. emblem is handed down from one generation of overseas veterans to the next.

Why? Because it is the symbol of a common bond—one that unites all men who have the right to wear the campaign ribbons authorized by the United States Government.

Those Gold Stripes on the left sleeve of your blouse give you the right to apply for membership in the V. F. W.—and the opportunity as a civilian to wear the emblem that will always identify you as an overseas veteran. Mail this coupon today for full details.
