EAST JORDAN, MICHIGAN, FRIDAY, MARCH 8, 1946.

NUMBER 10

Aims and Hopes of Young Farmers

ESSAYS WRITTEN BY E. J. H. S. AGRICULTURAL STUDENTS SETTING FORTH THEIR IDEALS

Mr. Lisk:

These essays, or articles were written by East Jordan High School boys who are members of agricultural classes in the High School. Each student has written his aims and hopes for his farm home, in ten years.

ESSAY NO. 1

By Francis Zitka

Our farm contains about two-hundred and sixty acres of land; about one-hundred and forty acres are tillable; the rest of it is in woods. The soil is mostly loam, sand, silt and some clay. This soil is in good condition, but I believe it can be made much better by fertilizing and careful planning of rotations of crops from year to year. I think that a farmer should have a map of his farm and keep track of what he plants, the amounts and kinds of fertilizers used in each field so that the next year he won't be all mixed up. Every soil lacks something and if a careful study is made of the soil the missing ingredients can be found and put back. Different forms of fertilizers should be used so that bigger and better crops can be grown in the future to supply the millions of people in this world.

A wood lot on a farm is also very important and a farmer should take good care of it. Trees are used for many purposes such as posts, fuel, lumber, windbreaks, to prevent erosion, shade, and beauty. If nobody takes care of the trees they will die off until there will not be enough of them left for the many things we use them for. A farmer can save his wood lot by cutting out the dead and diseased trees from year to year and leaving the healthy ones to grow; also by replanting new trees in thinned out places. Fire also has a lot to do with a wood lot, so all farmers should take the greatest care in a wood lot and not pile brush and debris on that it can catch fire easily.

Livestock is very important on a farm. Without livestock many farmers would fail. Livestock provides food and profit for a farmer as well as for many other people who live with livestock. To have good livestock a farmer needs good buildings especially a barn, to keep them in. Livestock must have sufficient light, warmth, feed, water and fresh air to survive and obtain full growth. Barns and other buildings must be kept clean and free from germs and insects that harm the livestock. Most livestock is easy to raise if a person goes at it right. To raise livestock a person must first learn something about farm animals, otherwise a person will make one mistake after another and end with a considerable loss.

Fencing is another important part of a farm. A farmer that keeps his fences in good condition will make more profit from his farm than if he lets his fences rot and fall apart. It isn't hard to keep a fence in good condition if we don't let the work pile up so we have a lot to do at one time.

Cooperation among neighbors is very important. By cooperating with our neighbors we can plan bigger and that we know and we can give each other advice. Also we can exchange machinery and equipment if necessary and help our neighbors that way. Also sometimes a farmer had hard luck and needs help which he cannot afford and if the neighbors cooperate they can help him to get started again.

(Note — The second essay will be published in The Herald this coming week.)

TO TAKE PRE-INDUCTION EXAM.

The following named men have been ordered to report at the City Hall, Charlevoix, Michigan, March 14, 1946, at 8:30 a. m., EST, for transportation to Detroit for pre-induction examination.

Earl Rae Seaman, Boyne City. Edgar A. J. Howard, Boyne City. William Robert Blekkenk, B. Ct. James Ira Keltis, Boyne City. Leo Jack Sommerville, East Jordan. Robert Lee Dixon, East Jordan. Donald Glennard Kolecheck, Charlevoix. Anthony Dvoracek, Charlevoix. Lawrence John Malloy, St. James.

Mr. and Mrs. Gerald Barnett are visiting friends and relatives in Detroit.

Regular meeting Mark Chapter No. 275, OES, Wednesday, March 13, 1946.

Study Club Activities

The East Jordan Study Club met with Gladys Davis, Tuesday, February 26. Lillian LaCroix and Florence Swoboda were on the refreshment committee.

Miss Fera of Levering gave a talk on "Care of the Home." A discussion followed.

On Tuesday, March 12, the Club meets with Erdine Rogers with Martha Collins and Isabel Walcutt assisting.

J. M. Tice, Former E. J. H. S. Superintendent Dies at Milwaukee, Wis.

J. M. Tice, superintendent of the East Jordan schools in the early 1900's died in a Milwaukee hospital, December 22, while awaiting an operation. Previous to his retirement in 1939 he was penmanship instructor on the Whitewater faculty for nineteen years.

THE SCHOOL BELL

HIGH SCHOOL BOWLING LEAGUE
After five weeks of bowling the High School Leagues are still going strong. In fact they are stronger than ever. "Nobs Knockers" is leading the league so far with the "Night Owls" holding second place. The league consists of six teams with five players on each team. They bowl every Wednesday night from four to six o'clock. The teams and their captains are: Nobs Knockers — Niles Hill; Night Owls — Bob Nemecek; Hack's Hicks — Charles Hitchcock; Alley Cats — Dick Adair; Spareribs — Sally Campbell; Pinpushers — Pat Wesley.

FUN FOR EVERYONE

Here is just the thing you have been waiting for. Just what the doctor ordered. A night full of fun for old and young alike. There is plenty of excitement being planned, and to top the evening off there will be a big amateur program with everyone who wishes taking part. Prizes will be offered for the two best numbers offered. All of this plus bingo, dancing, games, refreshments, etc. will be had at the big Penny Fair to be held March 20th starting at 6 p. m. Don't forget that date. Mark it on your social calendar and plan now to attend. March 20 at the High School Gym.

EAST JORDAN HIGH SCHOOL GIRLS DEFEATED BY BOYNE GIRLS

Facing each other for the first time last Thursday night on Boyne's floor the East Jordan Girls were defeated by a score of 8 to 0. Here's hoping more of these games will be held and give the girls the chance to play basketball as well as the boys.

TOURNAMENT HELD IN PETOSKEY, MARCH 6 - 9

The District Tournaments will be held in Petoskey from March 6 to March 9. East Jordan will play Thursday night, meeting their old enemies Boyne City at 9:15 p. m. Our boys will need a big crowd to support them so how about everyone turning out for this game. Good luck boys, and here's hoping you win.

SOPHOMORES PRESENT GOOD PLAY

The Sophomore Class did a good job of presenting the play "China Boy" before a large audience last Thursday. Congratulations to all the participants and especially to Miss Stone for her fine job of directing.

MARRIAGES

Kidder — Stanek

Miss Hildred B. Kidder, daughter of Mr. and Mrs. H. F. Kidder of East Jordan, and Stanley J. Stanek, son of Mr. and Mrs. Paul Stanek, 2798 Livernois, Detroit, were united in marriage at the Holy Redeemer Church in Detroit at 9 a. m., March 2.

The bride, who was given in marriage by her father, was gowned in white net and satin, and wore a finger tip veil, her bouquet was of white carnations and snapdragons.

Helen Burrows, sister of the groom, was matron of honor. She was dressed in a chartreuse net gown, and wore a picture hat, her bouquet was of pink carnations and blue iris.

The bridesmaid, Janet Stanek, wore a pink net gown with blue accessories. Her bouquet was of pink carnations and blue iris. John Siedelman served as best man.

A reception was held at the home of Mr. and Mrs. Paul Stanek of 2798 Livernois, Detroit.

Mothers of both bride and groom wore corsages of yellow roses.

The out-of-town guests were: Mr. and Mrs. H. F. Kidder, East Jordan; the Misses Virginia Bischoff and Betty Hoas of Coldwater.

The bride is a graduate of the East Jordan High School in the Class of '45.

Red Cross Fund Raising Campaign

RED CROSS EAST JORDAN OFFICERS AND COMMITTEE ASK YOUR CO-OPERATION

The Charlevoix County Red Cross Chapter officially opened its 1944 Fund Raising Campaign, March 1, with an announcement from East Jordan's City Chairman, Howard Taft, that the East Jordan quota is \$1000.00. Funds will go for the maintenance of Red Cross services to the armed forces, services to veterans, disaster preparedness and relief, and community services in Charlevoix County.

The following seventeen volunteer workers will take part in the Fund Raising Campaign here, Taft announced. Divided into twelve sections, they will cover industry, business and residential contributors in a fast but intensive campaign.

Mrs. William Archer, Mrs. Frances Benson, Mrs. Victor Black, W. G. Boswell, Mrs. Mary Dolezel, Mrs. Robert Campbell, Ole Hegerberg, L. B. Karr, Mrs. James Lilak, Mrs. Alta Meredith, Mrs. M. B. Palmiter, Mrs. Beryl Scott, Mrs. Chas. Strehl, Mrs. Wm. Swoboda, H. A. Taft, Merle Thompson, Mrs. Lester Walcutt.

If the public only realizes that the Red Cross are here to serve, that they need money to serve, and that they are turning the contributor's money back to him in the form of community service, we are sure, that they will contribute freely.

Farm Topics

ED. REBMAN
County Agricultural Agent

RURAL CARAVAN

A simple box, known as the Michigan Community Nest is actually an egg factory provided you have the laying hens to go with it. It is the modern nest, community style. It saves the work and expense of constructing an elaborate battery of individual nests. With the lid down, the nest is dark and prevents birds from fighting. It produces cleaner eggs and saves work in cleaning and nest care. This size nest will accommodate 75 hens. It will be a part of the Michigan State college poultry department display in the Rural Progress Caravan which will be in Petoskey for a one-day showing next Wednesday, March 13th.

The emergency farm labor exhibit shows the right and wrong ways of doing several hand jobs of harvesting. One panel shows faster methods, one shows easier methods, and one shows ways of saving labor.

The entomology department exhibit will include four panels illustrating the right and wrong ways of using the new DDT insecticide. The various DDT mixtures and the particular uses of which each is adapted are pointed out. Included are a half dozen "DDT Don'ts" that will prevent misuse of the chemical.

But the caravan exhibits won't be entirely devoted to the hard facts of farm and home work life. Color photos and models will show how a well landscaped farm home should look for greatest eye appeal. The display suggests that good landscaping leaves areas open for play and recreation and arrangements reduce work of caring for the lawn and shrubbery.

BANGS COMMITTEE

Dr. George Weaver and Mr. Everett Benton of MSC, East Lansing, met with an interested group of men representing the agricultural interests of Charlevoix county. The topic of discussion was the present Bangs law which requires before a dairy animal is sold for dairy purposes that she must have been tested for Bangs disease within thirty days prior to the date of the sale and found clean or else originate from a herd that was tested and found clean within ninety days. Because of the low incidence of Bangs disease in Charlevoix county and because of the slowness of having blood samples tested at the laboratories at Lansing and because Dr. Heaton, the local veterinarian, has more than he can do, a Bangs committee was set up to discuss these items. The committee is composed of the following men: Joseph Stutzman, Master Charlevoix Grange, Elmer G. Lyon, President Farmers Union, George Klooster, Dairy farmer, A. J. Bolhuis, Chairman, Agricultural Committee of Board of Supervisors, Kenneth Leckrone, Vocational Agricultural Instructor, and Ed. Rebman, County Agricultural Agent, Chairman.

A Lenten Message

The future will not belong to the organizers, or to the statesmen of the traditional type, although they have their place.

The future will belong to the saints and the prophets (those who live by faith in Jesus Christ.) They are the creators of the true values. The most that others can do is to set up a framework for human society; the breath, the spirit, it must come from God.

A distinguished German thinker insists that a religious revival can come in Germany only by the leadership of one who has felt it in his own body and mind all the suffering and agony through which his people are passing, and who yet transcends it.

That is true of all countries. "He (Jesus) was bruised for our iniquities — with his stripes we are healed."

"God forbid that I should glory save in the Cross of our Lord Jesus Christ." The Cross will dominate the future.

Each week during Lent there will be a message from some member of the East Jordan Ministerial Association. The message this week is from Rev. C. W. Sidebotham, President of the Association.

Increased Markets Seen for State Cherry Crop

The nation's increasing appetite for canned red pitted cherries indicates stable markets for that Michigan crop, which furnished the country with 2,350,339 cases of canned red pitted cherries in 1944, according to G. H. Kellogg, vice president of American Can Company.

Mr. Kellogg said that a study made by his company revealed that per capita consumption of cherries in the United States increased from .59 of a pound, canned weight, in the crop year of 1936-37 to 1.08 pounds in 1940-41, last normal, prewar crop year, a gain of nearly 100 per cent. Industry figures revealed that while in 1938 the Michigan pack amounted to 687,771 cases of red pitted cherries, the pack in this state alone climbed to 1,968,207 cases in 1940, last normal prewar crop year, a gain of 300 per cent within three years in a normal prewar market, Mr. Kellogg said.

This committee has already drawn up a resolution requesting Charles Figy, Director of Agriculture of the State Department of Agriculture that a regional laboratory be established in the northern part of the lower peninsula to expedite the testing of these blood samples and returning the reports. The other two items will be discussed in the near future at the local meetings of the Granges, the Farm Bureaus, and the Farmers Union.

SOIL TESTING

We now have a soil testing outfit in the County Agent's office. This is furnished by the Soils Department at MSC and the tests will be free of charge to anyone who would like them. It would be a very good idea to have your soil tested if you are considering putting on lime this spring, in order to see if you have a deficiency of calcium or not.

To obtain a soil test drop a card to Ed. Rebman, County Agr'l. Agent, Boyne City, Michigan, and arrangements will be made to collect your soil samples and bring them in for testing.

PRESSURE COOKERS:

A little foresight won't come amiss as the canning season starts looming up in the not-too-far-off future. The first spring greens will go into the jars in just a few weeks. So, the need for checking the pressure cooker to see that it's in good trim for the kitchen canning production line is timely.

Many of the older pressure cookers need new parts such as gaskets, valves, lugs or even gauges. If the recipe book that comes with the cooker is available, it contains a list of parts and prices. Sometimes it is necessary to send the cover back to the factory for such jobs as rethreading. The address of the factory is generally stamped in the cover.

It may pay to change gauges on your cooker. Two types are manufactured—the geared and gearless. Geared gauges have a clock-hand in the center and stay accurate longer than the gearless. As they are interchangeable on all cookers, it is a simple process to install a more efficient type.

Aluminum pressure cookers bought at the beginning of the war contained no inset pans for cooking vegetables. These are now available.

Cpl. A. G. Rogers left Wednesday for Ft. Sheridan, Ill. Cpl. Rogers has re-enlisted in the U. S. Army.

A Call To Prayer

On Friday, March 8, the church bells will ring as a reminder to us all to pause a moment in our work, and breathe a reverent prayer at 8 o'clock. Let us pray for a fresh endowment of God's spirit and strength to do our Father's will on earth.

At 10 o'clock: Let us lift our hearts in Thanksgiving for blessings. At 12 o'clock noon: May we pray that our Father God will forgive us for having failed in the matter of brotherly love, and allowing human distinction of class and color and race to divide God's children. Pray that we may: "Join hands then brothers of the faith, whate'er our race may be, who serves my Father as a son is surely kin to me."

United Council of Church Women.

BOWLING

Ladies League	Won	Lost
Bank Rollers	58	14
Cals	45	27
Recreation	44	2
Coffee Cup	37	37

Portsidlers	44	44
Spot	43	45
Canning Co.	40	48
Auto Owners	34	54
Post Office	34	54
Monarch Foods	30	58

In the feature match of the week Cal's Tavern beat the Bank 3 points after a poor start. They bowled games of 900 (second high single game of the season) and 966 — for 2716 (also second high three games). Spin Chalk had 612 on games of 160, 212, 242. Cy Dolezel and high single game for the night. A 256 game which is second individual game for the season.

Last week's bowling featured a new tournament in which 16 men competed in a sudden death individual bowling match. Each contestant drew an opponent and loser were eliminated and so on until but two bowlers competed, and Rev. J. J. Malinowski bowled against Joe Wilkins in the finals with Malinowski winning out 156 to 153.

Attention Dairymen!

Are you acquainted with the Bovine Bang's Disease Law? Do you think it is a fair law to be imposed on Charlevoix County dairy farmers? If not, how can it be changed to meet the conditions of our county?

Come to the next Farm Bureau meeting to be held at the home of John Addis, Tuesday, March 12, at 8 p. m. where this subject will be discussed in full.

Council Proceedings

Regular meeting, Common Council, City of East Jordan, held March 4, 1946.

Present: Mayor Whiteford; Aldermen Bussler, Malpass, Sinclair, Hayes, Nowland and Thompson.

The minutes of the last meeting were read and approved.

The following bills were presented for payment:
County Road Comm. \$ 18.56
A. R. Sinclair 26.68
Ray Russell 13.75
Win. Nichols 51.60
Mich. Public Service Co. 250.50
Benson's Hi-Speed Service 10.18
John White 20.00
Gidley & Mac 1.00
Ernest W. Kopkau 27.75
East Jordan Iron Works 39.40
West Side Service Station 2.56
Barney R. Milstein 16.10
Mich. Bell Telephone Co. 26.70
Harry Simmons 85.00
M. Shaw, sal. & expense 41.28
G. E. Boswell, sal. & expense 90.00
Moved by Malpass, supported by Hayes, that the bills be allowed and paid. Carried, all ayes.

Moved by Bussler and Supported by Sinclair, that the City of East Jordan accept lease of Bural and Bridgewater Service for five years of City Airport. Carried all ayes.

Moved by Sinclair and supported by Nowland, that the City of East Jordan adopt Ordinance No. 62. Carried.

The following appointments were made by the Mayor for the Planning Commission: Clyde Goodman, Howard Porter, James Gidley, and approved by Council.

The following names were appointed by Mayor for Library Board: Isabelle Sidebotham, R. A. Campbell, E. K. Reuling, and approved by Council. The Mayor appointed Blanche Thompson, Wm. Aldrich, Leo LaCroix, Thomas Whiteford and Bert Bennett to act on Election Board. Approved by Council.

Jordan River Fishing Costly

OUR CONSERVATION OFFICERS ROUND UP QUARTETTE DYNAMITING RIVER

East Jordan and vicinity has always taken pride in extolling the Jordan river as one of the best trout streams in this part of the state.

But illegal fishing on this stream existed for many years and unless our Conservation officers clamp on the lid, it will continue in a wanton manner.

Thanks to work of our Conservation officers, four men were arrested for illegal fishing, and before Justice Banowski at Bellaire recently, each man was assessed a \$100.00 fine plus a cost of \$6.85.

The four, who paid a total sum of \$427.40 for their "outing", were Ed. Kotalik, Wm. Rebec, Marshall Shepherd and Leslie Kolin. Conservation officer Leslie Miles made the arrest Feb. 27, when he apprehended the men with four rainbow trout in their possession. Some sticks of dynamite were found nearby, and, it is said, the men acknowledged dynamiting the river.

WITH THE ANTRIM COUNTY AGR'L AGENT

W. Kirkpatrick, Extension Agent

NEW POTATO CUTTER TO BE DEMONSTRATED

A new Potato Seed Cutter will be one of many exhibits to be shown at the Rural Progress Caravan at Central Lake on Tuesday, March 12. The Potato Seed Cutter is electrically driven and has been devised so that the knife is sterilized after cutting each potato. Not only will the cutter speed up the process of cutting seed potatoes but will also do the very necessary job of sterilization of the cutting knife which is so important in keeping down the spreading of potato diseases.

FRUIT AND VEGETABLES GROWERS TO ORGANIZE FOR LABOR

Representative from nine West Michigan Fruit and Vegetable grower Organizations met at Shelby, Michigan on Monday to discuss the organization of an overall organization for recruiting labor. The area represented at the meeting and to be served by the organization, extends from Berrien County on the South to Charlevoix County on the North.

For years, migrant labors from out of the State have been coming into southwest Michigan. It is thought that through a State-wide organization, the movement of these folks could be much more orderly and better controlled to secure the most possible work.

Those attending Monday's meeting from the Antrim-Charlevoix Growers association, were Ezra Hollenbeck, Kewadin; R.E. Youmans Central Lake; Darius Buell, Elmira Elmer H. Rood Ellsworth; Walter Kemp, East Jordan; Alex Sinclair, East Jordan; Ed Redman, County Agricultural Agent, Charlevoix County, Boyne City; Howard Brumm, Charlevoix; Ray L. Olney, Emergency Farm Labor Assistant, Bellaire; and Walter G. Kirkpatrick, Antrim County Agricultural Agent, Bellaire.

IN MEMORIAM

In loving memory of our dear wife, mother and grandmother, Sarah H. Gaunt, who passed away March 12, 1945.

Dear Mother, thou has left us, Thy sufferings are now o'er At the dear old home no longer Can we gather as before.

For our family tie is broken. You have found the heavenly fold, You have won the heavenly glory Which your family has yet to do.

Your busy hands are resting. Your work on earth is done, Your worries are all ended, Your heavenly crown is won.

Oh, let us think of all you said And all the kind advice you gave, And let us do it now you are dead And sleeping in your lonely grave.

Our hearts still ache with loneliness, Our eyes shed many a tear, God only knows how we miss you As it ends the first one year.

David Gaunt and children. 10x1

Marital menace of the mom complex. Thyra Samter Winslow has written a brilliant essay on that old mother-in-law menace whether it's on the bride's or the husband's side. She cites case histories of marriages wrecked on such reefs and also some instances where common sense intervened to prevent disaster. Read her illustrated story in The American Weekly, the magazine distributed with next week's Chicago Sunday Herald-American.

WEEKLY NEWS ANALYSIS

Reds Charge Canada With Bad Faith in Atom Row; Strive to Hold New Stabilization Line

Released by Western Newspaper Union. (EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Pointing up army warnings of short food supply in reich, Germans are shown scouring rubbish pile behind allied barracks in Berlin for edibles.

ATOM SPIES:

Russ Reply

Canada's disclosure of an atom spy ring had tickled diplomatic ramifications with Russia's angry protest against the dominion's announcement of the news without prior consultation with Moscow with a view toward correcting the situation.

Though admitting that the soviet military attache had received atomic information from Canadians, Moscow said the data was of a minor nature and the recipient official had been recalled when it learned of his activities. It was hinted that dominion's action was calculated to impair Russian prestige at a time when the Reds were advancing the cause of independence for subject people in the United Nations organization.

In discussing the atomic information its military attache received, Moscow declared that it consisted of data already compiled by Russian scientists or included in a book by Dr. Henry Dowlife Smyth of America. A consultant to the army on manufacture of the A-bomb, Smyth detailed atomic developments from the 1920s through the war, but omitted vital figures in the formula for producing the necessary materials.

As the Canadian case developed, pressure in this country increased for added safeguards for protecting America's secret of manufacturing the A-bomb. Declaring that more atomic information had been divulged since the introduction of the A-bomb than during actual work on the project, army men were said to have charged some of the leaks to scientists' discussions.

STABILIZATION:

New Rules

In determining wage adjustments under the new stabilization program formulated by the administration to clear the hurdle for postwar production, the stabilization board will permit pay increases within a pattern set for an industry, as in the case of oil, steel and automobiles where the figure of approximately 18 cents an hour was established.

To speed settlement of current disputes, the new order also permitted employers to grant wage increases without prior government approval in industries where pay patterns have been formed, or where only so-called "fringe" adjustments involving vacation and holiday pay and shift premiums are involved. Wherever any advances are made the basis for applications of higher

ceilings, however, they must be submitted to the stabilization board for an o.k.

While only firms employing eight or less persons were exempted from the new stabilization regulations, government officials revealed that other companies may also be excluded if their wage adjustments do not have an inflationary effect.

While Stabilization Director Bowles admitted that the new wage-price policy constituted a "bulge" in the line against inflation, he declared that there would be no big

Reflecting increased provision against a rainy day and potential purchasing power, national savings jumped 20 billion dollars in 1944 for a total of 142 billion, the Institute of Life Insurance reported. Holdings included U.S. bonds, insurance, bank deposits, postal savings and accounts in savings and loan associations. The 142 billion dollar total exceeded record consumer purchases in 1945 by 40 per cent.

While only firms employing eight or less persons were exempted from the new stabilization regulations, government officials revealed that other companies may also be excluded if their wage adjustments do not have an inflationary effect.

While Stabilization Director Bowles admitted that the new wage-price policy constituted a "bulge" in the line against inflation, he declared that there would be no big

While Stabilization Director Bowles admitted that the new wage-price policy constituted a "bulge" in the line against inflation, he declared that there would be no big

break and ceilings would only be increased in cases where pay adjustments necessitated such action.

Because labor outlays make up a relatively smaller item in such goods and services as food, clothing and rent, Bowles said, major living costs should remain comparatively stable. In the metal industries where labor expenses are higher, however, prices can be expected to show appreciable increases.

Congressional reaction to the new policy in congress was mixed. House Speaker Rayburn (Dem., Texas) declared it was a step in the right direction but could not be expected to solve all our economic problems. Rep. Case (Rep., S. D.) said it was regrettable President Truman had been "backed against a wall where he thought it was necessary to toss collective bargaining and freedom out of the window and resort to totalitarian methods again."

EMPIRE:

Diplomatic Test

Continued, costly political rioting in Egypt and India pointed up the pressing problems facing postwar British diplomacy in the preservation of important military and economic outposts in the far-flung empire.

Led by student agitators, crying for retirement of British troops from strategic coastal bases and the re-joining of Sudan with the Egyptian government, mobs stormed through Cairo, smashing windows, desecrating Christian churches and attacking military barracks. Known for his strong inclination to order, new Premier Sidky Pasha, while professing sympathy with national aspirations, threatened to use an iron hand in restoring calm.

In India, mobs took the mutiny of native imperial seamen as an occasion of wild rioting, looting shops, burning busses and street cars and destructive stoning. In rebelling in a number of royal naval installations, the Indian sailors charged discrimination in demobilization and pay allowances and fought pitched battles with British forces seeking to regain seized positions.

Meanwhile, Foreign Minister Bevin told commons in a review of the international situation: "I am not prepared to sacrifice the British empire because I know that if the British empire fell the greatest collection of free nations would go into the limbo of the past."

ROME:

Church Program

Calling for international spiritual unity, Pope Pius XII presented the Catholic church's program for peace during ceremonies creating 32 new cardinals, including Francis J. Spellman of New York, John J. Glennon of St. Louis, Samuel A. Stritch of Chicago and Edward Mooney of Detroit.

Stating that only through spiritual unity tying men together in mutual respect could mankind be expected to resolve its common problems, the Holy Father decried political imperialism which aimed toward the seizure of material riches and human oppression.

Vigorously denying that the Catholic church sought temporal sovereignty, the pope said that its program called for spiritual unity, with dignification of the individual the basis for preserving his liberty and advancing the welfare of state and family. Pointing to the world-wide representation in the college of cardinals, the pontiff declared it reflected the aspirations of all peoples.

War Plants for Sale

Over 500 of a total of 628 government-owned industrial plants employed by the war department have been declared surplus and have been or are in the process of being disposed of, it was revealed.

Of the 504 plants, 439, representing an investment of approximately \$3,815,000,000, have been formally released to the War Assets Corporation for sale, lease, or other disposition.

GERMANY:

Private Relief

As a result of President Truman's approval of the establishment of a private relief council composed of religious, labor and social agencies, needy Germans may receive up to 2,000 tons of supplies each month if shipping and port facilities allow.

Set up after heavy pressure had been exerted for the alleviation of starvation and privation in the conquered Reich out of humanitarian considerations, the new council, known as CRALOG, will include the American Friends Service committee, Brethren Service committee, Christian Science War Relief committee, Church Committee on Overseas Relief and Reconstruction, International Rescue and Relief committee, Labor League for Human Rights (AFL), Lutheran World Relief, Inc., Mennonite Central committee, National CIO Community Service committee, Unitarian Service committee, and the National Catholic Welfare conference.

With the U. S. army in over-all control, and a CRALOG representative checking on distribution and surveying needs, shipments will include evaporated and powdered milk, sugar, fats, clothing and shoes and medical supplies.

Relief Racket

With the shipment of private relief packages to European countries outside of Germany growing into a big business, the OPA moved against fraudulent operators in New York City accused of overcharging clients for food deliveries to Europe.

Begun four months ago when government officials noticed the discrepancies between the prices and contents of packages, investigations reportedly disclosed that cheaper foods were being substituted, items listed were not enclosed, excess postage was charged and insurance fees were asked on uninsured parcels.

With several hundred companies already engaged in the business, firms are now shipping packages at the rate of 3,500,000 a year.

Connie Still Bosses A's

As the major league baseball teams, strengthened once again by return of their stars from the service, opened spring training in the sunny southern and western climes, 83-year-old Connie Mack was on hand to greet his Philadelphia Athletics at West Palm Beach, Fla.

Manager of the A's since 1901 and winner of nine American League pennants and five World Series, the

Connie Mack greets A's.

soft-spoken, balding diamond wizard gathered a group of hustling youngsters about him in another effort to develop a championship club from promising raw material. So he built up his great teams of 1910-14 and 1929-31 and so he would try again, leaving the other clubs to build around expensive stars purchased around the circuit.

As the A's settled down to work, interest centered on 6-foot 4-inch Dick Fowler, who pitched a no-hitter against the Browns last year, and Eddie Collins Jr., a Yale graduate and son of the former great second baseman who paced Mack's famed 1910-14 aggregation.

VETS:

Unemployment High

Speaking at a meeting of the American Legion's national employment committee, designed to spur community services for vet hiring, Gen. Omar Bradley declared that 13 per cent of the G.I.s in the labor force remained jobless, with 1,035,000 receiving unemployment compensation in the early part of February.

The relatively high percentage of unemployed vets contrasted with the general rate, Bradley said, stating that only 5 per cent of males in the labor force were out of work, and the total jobless approximated 4 per cent.

Employment of disabled vets has similarly lagged, Bradley said, with the hiring of handicapped G.I.s three times behind applications in September and even lower in December and January.

WHEAT:

When flour mills, under new wheat conservation measures, begin milling flour containing 80 per cent of the wheat, this country still will have a lower milling percentage than most of the rest of the world, the department of agriculture reported.

In practically all of Europe and Russia, wheat flour extraction rates for bread are 85 to 90 per cent, according to reports received by the Office of Foreign Agricultural Relations.

444 New Ideas Are Granted Patents

Sandwich Making Machine Is An Important One.

WASHINGTON.—A sandwich making machine, and a method of making a hard wax directly from sugar cane were among 444 patents granted recently by the United States patent office.

A fumigating method for treating insect infested grain stored in bins was patented by Fred W. Fletcher and Guene Kenaga of Midland, Mich., and assigned to the Dow Chemical company of Midland. A volatile fumigant composed of a solution of from 2 to 20 per cent of ethylene bromide in carbon tetrachloride is injected in the top of the bin and onto the surface of the stored grain.

Two tables of different heights are utilized in the sandwich making machine patented by Bengt A. Arvidson of Villa Park, Ill., and assigned the Miller Wrapping and Sealing Machine company of Chicago. A conveyor on the higher of the tables has pockets for bread slices, and as the bread moves along, every other slice is spread with the filling for the sandwich. Then the bread steps off to the lower table, the coated slice falling first. The plain piece of bread falls right on top, and there's the sandwich—butterless.

Production of sugar cane wax, patented by Werner F. Goepfert of Oradell, N. J., is accomplished by heat and chemical treatment of sugar cane mudds.

A convertible attachment that makes a bicycle a four wheeler was patented by Clyde R. Kutil of Sioux City, Iowa, and is unassigned. The spares are attached to the rear wheel of the bicycle and are the same size as the other wheels.

Mammoth Telescope Will Make Map of Universe

PASADENA, CALIF.—A photographic map of the universe will be the first job, scientists disclosed recently, of the nearly completed 48-inch Schmidt telescope soon to be installed atop Palomar mountain. The Schmidt scope, now being readied by California institute of technology experts, will be used as a companion instrument with a 200-inch telescope which also is to be installed on Palomar when completed.

The Schmidt, with its wider range, will discover objects for the father-ranging giant instrument to investigate.

Dr. Edwin P. Hubble, astronomer recently returned to Caltech after serving as chief ballistics for army ordnance, said the job of mapping the whole sky would take the 200-inch telescope 1,000 years. The Schmidt, however, he said, could cover the universe photographically in five years.

Although termed a 48-inch telescope, the Schmidt has a 72-inch mirror. It takes its label from its 48-inch correcting lens, similar in function to the aperture in a camera.

The mirror has been finished. It weighs almost 3,000 pounds and is 9 inches thick. The correcting lens, a thin sheet of special plate glass, has not yet been completed.

Report Hitler, Eva Had Son; Secret Well Kept

NEW YORK.—The Brazzaville radio said that a son was born to Adolf Hitler and Eva Braun at San Remo, Italy, on December 31, 1938. The broadcast said it has been established that Eva Braun was living in seclusion then at a villa in San Remo and that "Italian journalists" knew that she had given birth to a boy but were forbidden to mention the matter on orders from their foreign office.

The Brazzaville radio added that a year later, in the early morning hours of January 1, 1940, a German foreign office member was arrested by the Gestapo in Munich for "having stated during the festivities: 'Today, the Fuehrer's son celebrates his first birthday.'"

Boost in Standard of Living in 1946 Seen

BUCK HILL FALLS, PA.—The real standard of living for American families residing in cities "ought to increase" this year despite the probability of price boosts, a department of labor official told delegates to the Home Mission Council of North America.

Charles D. Stewart, chief of the occupational outlook division, bureau of labor statistics, asserted the standard of living will rise "because of reduction in personal taxes, wage rate increases through collective bargaining and voluntary increases that are now being made in many instances."

Radar Guides 'Blind' Ship in Thames Fog

LONDON.—A convincing demonstration of how radar can increase the safety of ocean navigation was given when a 3,000-ton ship steamed "blind" up the foggy Thames estuary, guided only by the "magic eye" of its radar equipment.

Unerringly the vessel maneuvered past shipping.

Washington Digest

Radio Fills Economic, Social Needs of Farm

Programs Keep Listeners Up on Latest Doings And Aid Work, Marketing; Music, Plays Welcome Diversion.

By BAUKHAGE

News Analyst and Commentator.

WNU Service, 1616 Eye Street, N.W., Washington, D. C.

When farm folk want to cut a rug, via the radio, they'll do it to the strains of "Turkey in the Straw," not "Chickery Chick." Farmers turn a cold shoulder on hot live. However, both the musical gobbler and the syncretized hen play second fiddle as farm radio favorites to the good old-fashioned hymns, like "Rock of Ages," "Onward, Christian Soldiers." But, down on the farm, the all-time top favorite on the radio hit parade is NEWS. The farmer and his wife prefer the news broadcast to any other type of radio program.

These interesting preferences were brought to light recently by a survey published by the department of agriculture—a survey undertaken at the request of the Federal Communications commission to find out if radio was important to rural people, and why; and what programs rural people tuned in in hope, and tuned out in despair.

Rural people are convinced radio is here to stay. When asked if he would miss his radio set, should something happen to it, nearly every rural radio owner said something like this:

"It would make an awful difference. It would be just like going back to old-fashioned lights."

"We need the radio very much—we have a mile of bad road between the house and the mailbox, and sometimes get the mail only once a week."

"That would be terrible! It'd be just like having a corpse in the house!"

Of course there were dissenters. There always are. And the dissenters weren't backward about expressing their unfavorable opinions of radio.

For example:

"If it weren't for my family, I'd throw the radio out. It wouldn't bother me a bit."

"Makes no difference whatsoever. All you hear is junk and commercials and murder mystery."

3 to 1 For Radio!

But the radio enthusiasts among farmers vastly outnumber the gripers. It's radio three to one as they say in a certain radio commercial. Three out of every four rural radio owners attach a great deal of importance to their radios . . . and only one in eight wouldn't care if Junior took the thing apart and never got it together again.

It appears, from this survey, that radio performs a special service for rural people who may live some distance from town and amusements, or even from the nearest neighbor, and who may often be without access to daily newspapers or telephones.

Rural people have four very definite reasons to explain why radio is important to them: 1. it's a source of news; 2. a source of information, other than news; 3. it provides entertainment; and 4. it's become a habit to listen to the darn thing.

Their comments are illustrative:

"We would feel terribly isolated without the news."

"Wouldn't know how the occupation in Germany is coming. I have a son over there, and I want to know what's happening."

"You get the news quicker on the radio."

"I don't have much time to read the papers or magazines."

Commentators, it appears, are the apple of the farmer's eye. Farm audiences are proved by this survey to be faithful to and enthusiastic about news broadcasts and news broadasters. As we mentioned earlier, the radio announcement, "We now bring you the news" makes farmers sit up and take notice. Rural radio listeners rate news tops as their favorite program, and also say it's the type of program they'd miss most.

Next comes religious music. Rural listeners, especially in the South, could use more of it, and more radio sermons, too. The reason may be that religious broadcasts provide a substitute for attending church for some inconveniently located farmers.

Old-time musical programs are the farmer's favorite kind of radio entertainment. He eschews "long-hair" music. . . . opera and classical, saying frankly in many cases that he doesn't understand it. And he turns thumbs down on swing-and-sway dance music and the current juke box favorites. In the South where this dislike of dance music is most pronounced, it doesn't matter whether the person questioned is a portly Kentucky colonel, or a teen-age southern belle. They'll take the old-time tunes any day of the week.

The weather once again proves its durability as a conversational topic—even on the radio. Naturally, weather reports are "must" listening on the farm.

It's the same way with farm talks and market reports. Commodity reports are about as fascinating to city folk as a lecture on relativity, but the farmer says he finds them a definite and practical help in selling his products. In this respect—by giving him weather reports, farm talks, and market data, radio becomes a sort of junior partner, advisory capacity, in the farmer's business.

There's Room For Improvement

Having read this far in the survey, radio executives might be inclined to pat themselves on the back and figure they've done a good day's work. They've "sold" the farmer, haven't they? He likes what they've got to offer, doesn't he? Seems to them the farmer has given radio an A-plus, or in radio parlance, "a Fibber McGee Hooper rating."

We-ell, not exactly. There are some radio programs some farmers don't like, and serial stories are one of them. It is surprising what a hearty dislike 25 per cent of the farmers (AND their wives) express for some of the so-called "soap operas," which city folk seem to adore.

There is no other type of program toward which there is such divided feeling among rural radio owners as the serial program or soap opera. While one-fourth of the rural listeners say they dislike serials, calling them "foolish" or "silly," many of these same people (particularly the women listeners) say they'd miss the hero and his matrimonial mishaps or the heroine and her troubles. It seems that although, in many instances, the listeners don't enjoy or aren't entertained by these programs, they've become used to listening to one or another, and they feel they just have to find out what's going to happen next.

It's interesting to note, too, that the people who dislike serials value radio more for the specific information they get from it, and depend less on it for "company" . . . or to "keep from getting lonely." Also, the critical ones who turn up their noses at the serial story tend to be somewhat older and to have had more education than those who like soap opera.

Most farmers shy away from the up-and-coming radio mystery-meller-drammer. They dislike finding corpses in their own living rooms, so to speak, and being forced to sit through harrowing screams, creaking doors, howling owls, and the spooky collection of sound effects which is apt to accompany microphone mayhem. Some farmers, explaining why they dislike such programs, say it's because of moral, not morale, reasons.

As is usually the case, the survey revealed more likes and dislikes than suggestions. Not even the ones who don't care much for radio at all had any ideas on how to improve the programs. More than half the rural people who have radios cannot think of any type of program they'd like to hear more of than the ones they listen to . . . and when suggestions are offered, they are scattered over such a wide field, it's hard to put a finger on any one type of program which is being neglected. In other words, there don't seem to be any important specific discrepancies between what the rural listener wants and needs . . . and what he's getting.

BARBS . . . by Baukhage

Is Germany really changing heart? I don't know but I know they have had to change one thing, their daily beer. There is no beer for Germans today.

The Twentieth Century Fund says it costs as much to raise a child and put him through college as it does to buy a house—but children are easier to find these days.

The plight of many Americans today is that they can't get a car for their spare parts.

Congress seems ready to send the homes-for-veterans bill to the floor with no ceilings on the homes. The administration thinks this will mean veterans may have roofs to stop precipitation, but not inflation.

'Better Living Conditions' for Birds, Beasts Is Objective of American Wildlife Institute

By WALTER A. SHEAD
WNU Washington Correspondent.

BELIEVE it or not, there is an organization in Washington which has no propagandist, no high-powered publicity staff, and is non-profit and non-political.

It is the American Wildlife Institute, formulated back in 1911 under the name of the American Game Protective association and incorporated in 1935 under its present name, but with the same backers and sponsors, headed by former Senator Frederic C. Walcott of Connecticut, "daddy" of much of the conservation legislation which has been enacted into law during the past quarter of a century.

So the American Wildlife Institute is a non-profit, non-partisan corporation, supported by the voluntary contributions of industries, organizations and individuals interested in the preservation of American wildlife and conservation of natural resources in all its phases.

Its objectives are three-fold: (1) to encourage co-operation and coordination of effort of all groups and individuals interested in conservation of natural resources; (2) to assist in finding and presenting to the public facts about wildlife and these natural resources; and (3) to provide facilities for training young men in the latest scientific methods of game management and conservation.

In carrying out these objectives the American Wildlife Institute has become a central co-ordinating agency in liaison and co-operation with and between such organizations as the Izaak Walton League, the American Forest association, the Audubon society, Zoological and Biological Associations, State Departments of Conservation, Land Grant Colleges and Universities, the U. S. Fish and Wildlife Service, and the Conservation Division of the department of agriculture.

Work on Broad Front.

It spends its money to obtain these objectives by the publication of books and technical pamphlets at no profit, for the benefit of all phases of conservation; by sponsoring and financing the annual North American Wildlife conference;

Research, training of young men for administration in game management and conservation, and scientific experiment for the conservation of all our natural resources are objectives of the American Wildlife Institute.

led to the undertaking of an ambitious scientific research project of what happens to migratory birds when they reach Mexico and other Central American countries where they winter.

So for two years this study has been going on, largely financed by American Wildlife Institute, but conducted by the Pan American Union, an international organization composed of representatives of the Central and South American Republics.

In its zeal to train young men in scientific knowledge in all phases of conservation, the Wildlife Institute has fostered and helped finance schools for this purpose at the land grant state universities in Alabama, Iowa, Maine, Missouri, Ohio, Oregon, Pennsylvania, Texas, Utah and Virginia, while, through the influence of the institute, schools also have been established at Purdue university in Indiana and in New York.

Quarter Million to Schools.

The institute has expended approximately \$250,000 in the establishment and maintenance of these schools. In so doing, it operates through the U. S. Fish and Wildlife Service, the State Departments of Conservation of Wildlife and the universities. Approximately 500 trained men are now engaged in various phases of wildlife conservation and land use. Many are holding important government and state jobs in forestry, wildlife management, with zoological and biological gardens and organizations.

Another instance of conservation fostered and largely financed by the institute was the restoration of the salmon fishing industry on the Atlantic coast. Fifty years or so ago, Atlantic salmon disappeared from Maine due to the destruction of spawning grounds in the Maine fresh water rivers by the lumber industry. Sawdust coated the bottoms of streams and tannic acid from the sawdust polluted the water to such an extent the salmon were killed off and a flourishing industry died.

In 1940 a fellowship was established in the University of Maine for the purpose of studying the possibilities of restoring the Atlantic salmon to the important streams in the Northeast. Through these studies and co-operation with the institute, a method so easy and inexpensive was devised, that the sponsors are amazed at the results. Huge "egg beaters" were attached to small boats sent into the Machias, the Denny's, the Narraganset and the Penobscot rivers. These egg beaters, operating in the spring of the year at high water, churned up the beds of these rivers so thoroughly that the sawdust caking was washed out and into the sea. Then millions of salmon eggs were brought down from New Brunswick and installed in troughs for hatching in the rivers. This spring saw the first return of the Atlantic salmon for spawning and they swarmed back into these four Maine rivers by the millions.

The American Wildlife Institute is particularly interested in land use on the theory that if land and water are utilized properly we will automatically have wildlife. Clinton R. Gutermuth, executive secretary of the institute, who occupies a mod-

est office in a downtown Washington building, declares, "we can't have wildlife without the co-operation of farmers."

"Most certainly," the Hoosier-trained secretary said, "we can't take good farm land, and by the same token, farmers should not attempt to farm land fit only for reforestation or as cover for wildlife."

Thousands of acres of land in this country have been stolen from its natural state and thousands upon thousands of dollars of public money has been spent in the vain attempt to make farm land out of submarginal and other land fit only for its natural state.

One such area, it is pointed out, was the Kankakee marshes in northern Indiana and Illinois. The two states and the federal government spent many thousands of dollars in the attempt to convert these thousands of acres of marshes into farm land. When it was found the land would not raise crops, after decades of frustration, the land is now being allowed to return to its natural state. And during the past few years, the financial return from the recreational and other features of this natural wildlife habitat each year has been more than was realized by farmers in all the years cultivation was attempted.

Another such area is the so-called grand flats in Wisconsin, an area thousands of acres in extent where a few years ago nothing but abandoned homes were seen for miles, and much of which is now being allowed to return to its natural state.

Grow Cover Where Possible.

Mr. Gutermuth believes that every farmer can correlate his land into the two schools, natural and agricultural. For instance, along the woods lot on almost every farm there is 50 or more feet which will barely raise a crop. This land could be permitted to grow into cover. The banks of ditches and streams would, within a few years, become a natural habitat for wildlife if permitted to grow into a natural state. And reforestation of some land, suitable for that purpose, will not only reap a rich harvest for farmers in the way of lumber and wood, but will also provide natural cover for wildlife.

The American Wildlife Institute is also vitally interested in proper land use of rolling land, in erosion and in contour plowing and cultivation to retain the rich top soil and the natural wealth of farm land. It has aided in much research in this phase of conservation.

The North American Wildlife conference staged each year by the institute is the forum where technical men in all branches of conservation meet and exchange information and where results of the year's research are made public to teachers, professors, laboratory technicians, administrators and supervisors and to the general public.

Approximately 1,000 delegates from every state, Mexico, Canada, England and France are expected to attend this year's conference at the Hotel Pennsylvania in New York. The general theme will be "The Place of Wildlife in a Changing World."

Star Dust

STAGE SCREEN RADIO
Released by Western Newspaper Union.

By VIRGINIA VALE
TAKE it from Charles Drake and Lois Collier—"Don't come to Hollywood as a contest winner!" Teamed as romantic leads in David L. Loew's "A Night in Casablanca," both learned that a loving cup is just something to hold flowers. Drake won a personality contest in New London, kicked around Hollywood for five years before he got anywhere. Lois won a beauty contest, but movie moguls ignored her till she'd made a name on the radio and the stage. Linda Darnell won a contest, went home to school for a year, then tackled Hollywood successfully. Ann Sheridan fought her way through menial acting jobs before a press agent dubbed her "The Oomph Girl."

Natalie Wood, six-year-old International Picture starlet, will never forget "Tomorrow is Forever," in which she made her screen debut; she went to New York for the pre-

NATALIE WOOD

miere—her first trip on a train; her first glimpse of snow. But she is looking forward to getting home, because a new baby was expected soon after her return, and Natalie is hoping it'll be a baby brother.

Six ravishing beauties are needed for "Bel Ami," which will star George Sanders. But they must fit into the 1880 period of the story. Reproductions of lovely ladies pictured by Renoir, Manet, Degas and Toulouse-Lautrec will be used as a guide in choosing the girls.

Joan Edwards, who sings the nation's top tunes on the "Hit Parade" each Saturday night, is booked to star in Republic's forthcoming picture, "Hit Parade of 1947," which will be one of the most expensively produced films made by the company this year.

The "Green Room Award" on the Andrews Sister's "N-K Musical Showroom" over CBS Wednesday nights has become so popular that the girls will star in a movie to be called "The Green Room," with their guest stars.

Leo Gorcey, as Bob Burns' stooge on Bob's Thursday night program, is a dim-witted oaf, but he's quite different in real life. One of the original "Dead End Kids," Gorcey has just finished his 46th picture, and is under contract to make four movies per year. A shrewd business man, knowing a lot about show business, he acted as associate producer and writer on his last picture.

Kate Smith, who celebrates her 15th anniversary on the air May 1, has broadcast all her programs on CBS. As the first lady of the air, she's won a staggering list of awards. Her war bond sales topped the \$200,000,000 mark, and in a one-week air campaign she brought 25,000 other Smiths to blood plasma stations. Ted Collins says she made more than 6,300 personal appearances for worthy causes.

We've had a lot of nice ghosts in the movies—Cary Grant and Constance Bennett in the "Topper" films, Spencer Tracy in "A Guy Named Joe," Robert Montgomery in "Here Comes Mr. Jordan," Edward Everett Horton joins the ranks in "The Ghost Goes Wild."

Drew Miller, former master sergeant in the U. S. air force, got a bit role in "Till the End of Time" because of Producer Dore Schary's insistence on using war veterans in bit roles. Then Miller got a factory job pressing phonograph records. After seeing how he made his small role stand out, RKO tracked him down, signed him up, and plans a romantic build-up for him.

ODDS AND ENDS—A symphony orchestra of 115 pieces will perform in Warner Bros. "Humoresque," starring Joan Crawford and John Garfield. . . . Orson Welles lost 20 pounds in 20 days, then had to put it back on in a week for a one-minute scene which had been added to "Tomorrow is Forever." . . . Sonja Henie, who owns one of the largest collections of emeralds in the world, consented to their being used in one of the bouillabaisse sequences of "The Countess of Monte Cristo." . . . James Burke grew such a fine crop of whiskers for Paramount's "Easy Come, Easy Go" that John Farrow, the director, kept him on for "California."

Okapi Seems Made Up of Giraffe, Horse, Zebra, Ox

If naturalists of the 19th century believed they had discovered all of the world's large animals, they were mistaken. The rare and remarkable okapi was not found until 1900, in the deep forests of Belgian Congo. The okapi is a walking puzzle. It has the legs of a zebra, the head of a giraffe, and the thick neck of a work horse. Its body is that of an antelope, and its tail and hoofs like those of an ox. The strange creature has a two-foot-long blue tongue. And its skeleton is precisely the same as that of a prehistoric beast which lived on the island of Crete in the Mediterranean sea 10,000,000 years ago.

AROUND THE HOUSE

Put spices, seasonings, baking powder, cream of tartar and the like on a cookie sheet and keep on a shelf in the kitchen cabinet. When cooking or baking, take out the cookie sheet and make your choice.

Wrap gold and silver evening bags and slippers in dark-colored cloth to prevent tarnish.

Immediate patching of worn spots may add years to the life of a roof if it is, on the whole, still in good condition. It is, however, usually poor economy to do a patchwork job on a roof that is well worn.

To make a good wire splice, lay the ends side by side, pointing in opposite directions until the doubled portion is about two inches long. Grasp firmly right in the middle with the jaws of a pair of pliers. Wrap one free end firmly about the splice at the left, and the other in reverse about the splice at the right. The result is neat, easily taped, and won't pull apart. Such joints should be soldered, particularly if the wire is part of an electrical unit.

For sweeter music, give your phonograph records a bath now and then, using warm water and mild soap.

New York City Buries Its Paupers in Big Trenches

New York City buries weekly an average of 200 bodies of paupers, unknowns and still-born babies in its potter's field on Hart's island, says Collier's. As about 65 of them a year are later sought by relatives or friends for reburial in a private cemetery, the city maintains a descriptive record of all bodies and a numbering system so they can be readily located and exhumed.

They are buried in large trenches, each of which contains the coffins of 200 adults or 6,000 infants.

If you have a favorite piece of jewelry which cannot be worn because it discolors the skin, try this: After cleaning it, give the back a coat of colorless nail polish.

Grease glass baking dishes before putting food in them to bake and they will be much easier to wash.

"ASTHMADOR"
—Makes Life Worth Living—
Steady DR. R. SCHIFFMANN'S
Thousands of ASTHMADOR is a dependable, effective inhalant, easy to use. ASTHMADOR'S rich, aromatic fumes help reduce the agony of bronchial asthma, aid in relieving distressed breathing. ASTHMADOR powder more convenient for home use and for children. ASTHMADOR cigarettes and pipe mixture for pocket or purse. Sold by druggists everywhere under our money-back guarantee.

star of "True to Life" a Paramount picture, is one of the many well-known, well-informed Hollywood stars who use Calox Tooth Powder. McKesson & Robbins, Inc., Bridgeport, Conn.

GALOX TOOTH POWDER

EXTRA TASTY BREAD!

BECAUSE IT'S FULL-STRENGTH—this active fresh Yeast goes right to work. No waiting—no extra steps! And Fleischmann's fresh Yeast helps make bread that tastes sweeter, is lighter, finer-textured every time.

IF YOU BAKE AT HOME—be sure to get Fleischmann's active fresh Yeast with the familiar yellow label. Dependable—America's time-tested favorite for more than 70 years.

Always fresh—at your grocer's

After an absence of more than 50 years Atlantic salmon have returned to spawning grounds in four Maine rivers, after American Wildlife Institute had cleaned out the Maine rivers ruined as spawning grounds by the lumber industry.

by the establishment of chairs and schools of wildlife conservation in colleges and universities for training young men in every phase of natural resources, for technical research and in methods of game management and conservation; by conducting research itself and in co-operation with other organizations in wildlife and land management and use, stream pollution, and by bringing about better co-ordination and co-operation between groups and individuals engaged in the production, administration and use of natural resources.

For several years the American Wildlife Institute has financed the research into migratory fowl at the Delta duck station in Manitoba, Canada, in conjunction with the University of Wisconsin and Michigan State college, with James F. Bell, famous authority on migratory fowl, as superintendent of the project. In 1943, Ducks Unlimited became a co-operator. This scientific study of migratory ducks and geese has to do mostly with these wild fowl in their breeding grounds. Other studies of the birds in their migration across the United States has

Streams and their steep banks are not suitable for pasture or cropland. It is much better to plant a broad strip along each side of the creek with clover or other rough, strong cover. Some willows or other trees that thrive near water should be set out too, both for cover and to help keep the banks from washing away. In Illinois and northern Indiana great areas of marshland were returned to their natural state after many unsuccessful years of attempted farming.

WANT-ADS

WANTED

WANTED — Used cement mixer. Condition unimportant. — PAUL LISK, East Jordan.

WANTED — 3,000 Bolts of White Birch. — MILLER BOAT CO., Charlevoix. 5tf

WANTED TO BUY — Jig Saw and small wood-turning Lathe. Phone 186, East Jordan. 10-1

WANTED TO RENT — Small house, apartment or light housekeeping rooms, furnished or partly furnished, by reliable couple. No children or dogs. Inquire at HERALD OFFICE, East Jordan. 9A

WANTED — Clean rags for cleaning purposes. Urgently needed NOW. Will pay 5c per lb. for rags free from buttons, etc., and not less than 1 sq. foot in size. Cannot use heavy material like overalls, etc. THE HERALD OFFICE. 3-

WANTED — Used Electric Motors. What have you? — PAUL LISK, East Jordan.

WANTED — Real Estate, especially Farms, Lake and River Frontage. The old reliable Strout Agency, the largest farms selling organization in the United States, Offices Detroit, Chicago, Cleveland, New York, and many other large cities. — WM. F. TINDALL, local representative, PO box 58, phone 303, Cozy Nook Farm, Boyne City, Mich. 7tf

WANTED BUSINESS PROPERTY: I have a list of buyers waiting with the cash for the following: Stores, Beer Gardens, Cabin Courts, Hotels, Gas Stations, Boat Liveryes, Resort Properties, Movie House, Barber Shop, Restaurants, Sporting Goods Store, Meat Market & Grocery Store, Garages. Write or phone collect if you have such for sale. — NILES I. YANSON, Alba Mich. Realtor. Phone 24. 9-tf

FOR SALE — MISCELLANEOUS

FOR SALE — Johnson Twin Cyl. Outboard Motor, 2 1/2 h. p. Runs like new. Will sell for \$50.00 cash. — Inquire BOB MILES, at East Jordan Co-ops. 9x2

LOST — Pick-up License Plate No. 349358, together with stop tail light. Will finder kindly notify the owner, EDWARD PORTZ, Phone 127, 303 Water st. East Jordan. 10x1

For Sale!

LARGE HOUSE and four lots in Alba, electric, water inside. 40 acres near town goes with this. \$3,000 cash.

29 ACRES with comfortable four room house, small barn, shed two overnight cabins, electric in all. On US-131 at edge of town. \$2250.

2 ACRES with large six room house, water and lights in. Other buildings, school bus, good road near town. \$1,400.

80 ACRES near Gaylord. House, barn, two garages, other buildings, electric line, 15 acres woods. Only \$2,200.

80 ACRES crossed by M-66 with trout stream and trees for trout pond and the very best cabin site on this highway. \$3,000.

80 ACRES on Harwood Lake with trout stream also. Near US-3. Few like this. \$3,000.

120 ACRES dark loam, all stock tools. Large Farmall with tools, 4 milch cows, 11 young cattle, heavy team, other numerous items. Woods, trout stream. Large house, shady lawn, dairy barn, two barns, granary, coops, abundance of fruit and garden. A buy at \$8,000.

I am finding buyers for the places that I offer for sale. All it costs you to get one of these buyers is a penny post card or letter mailed me. Call me by phone, collect, if you wish.

NOW!
1/2 MILE FREE LINE-CONSTRUCTION
for new rural telephone subscribers

Effective March 1, the Michigan Rural Telephone Construction Plan was further liberalized.

Now we will extend our rural lines an average of one-half mile* for each new subscriber with no construction charge! Under the revised plan, a large majority of the farm homes in Michigan Bell territory can get service without any charge for construction.

This liberalization was recommended by the Michigan Rural Communications Committee, a group of agricultural leaders who helped us design the present construction plan.

As rapidly as more materials become

available, such additional free line-construction, together with small monthly payments for construction beyond the half-mile allowance, will mean more farm families with telephones... more people you can reach from your telephone.

And that's only part of Michigan Bell's vast 5-year \$13,500,000 rural expansion and improvement program. Construction of more lines will mean fewer parties per line for many customers. And dial systems will be installed in many more rural sections. All of which will add up to better, faster and more satisfactory service for more Michigan rural folks.

*Formerly the allowance was 3/10 of a mile.

Dedicated to
MRS. P. A. WILLIAMSON
Who was 88 year old March 2, 1946

From the time I was a babe,
She was there at my command
When my path in life was rough
She was there to hold my hand.

That firm faith in me she had
Never questioned through the years
Sharing days of want and hunger
Sharing days of wealth and plenty

Sharing days of joy and cheer
Also days of trouble and tears
Though the miles might separate us
When I called she would be there.

She was always understanding
And her voice to me was dear.
Always cheerful, never complaining
She helped my load she shared.

She was never one to profit
From the deeds she did each day
I know she laugh if she hear me say
That helping folks was her religion.

Though the miles they separate us
No one my Mothers place can fill.
She has been to me a darling,
And I have loved her and love her still.

THE OLD JUDGE SAYS...

OLD JUDGE: "Hank, you're a big grain producer...let me ask you a question or two?"

HANK: "Glad to have you, Judge."

OLD JUDGE: "Do you think the grain used by distillers is wasted as some folks are saying?"

HANK: "I certainly do. As a matter of fact, it is just the opposite."

OLD JUDGE: "How do you figure that, Hank?"

HANK: "From my own experience and from reports I've read. For the year endin'

last June, the distillers produced over 1,200,000,000 pounds of distillers' dried grains...the best feed supplements we can lay our hands on. They are rich in nutrients. Why...I've never had such fat dairy cows, livestock and poultry as I have since I've been usin' these dried grains."

OLD JUDGE: "How do you use them, Hank?"

HANK: "I blend them in with original grain. This balanced ration has far greater feed value than the original grain itself. I can cut down on my whole grain feeding about 20% and still get better results."

Tomorrow is Forever

by GWEN BRISTOW

THE STORY THUS FAR: Spratt Herlong, motion picture producer, met and married Elizabeth, whose first husband, Arthur Kittredge, was reported killed in World War I. The Herlongs had three children, Dick, 17, about ready to enter the service, Cherry and Brian. Arthur had not been killed, but taken to a German hospital, badly disfigured. He did not want to live, and wanted Elizabeth to believe he was dead. When Dr. Jacoby started treating him, Arthur was almost helpless. He recovered, hid part of his facial disfigurement behind a beard and went to Hollywood. He soon started to work for Spratt, under the name of Kessler.

CHAPTER XII

What was left of Arthur quivered with rage. "You brute," he said, "you damned brute." He continued with epithets worse than that. He had never been addicted to profanity and was surprised to find such language coming so readily to his lips. But the words were there and he used them, and continued using them every time he saw the doctor.

Later he asked Jacoby if he had understood anything of what he had been saying then. Jacoby smiled with the grim humor Arthur had learned to recognize. "Not the vocabulary. But I did not need the vocabulary to understand what you were saying to me, and just then I did not blame you."

But at that time Jacoby paid no attention to the protests. He simply left Arthur there to contemplate his shattered body and go wild with the prospect of being forced to live in it. There was nothing else Jacoby could do. He was working eighteen hours a day, on a pittance of food that in pre-war Germany would not have been thought enough for an idle man. Besides, since he knew so little English and Arthur knew no German at all, he had to let Arthur go on believing what he believed.

There was no way then for Jacoby to explain that four years of this war had almost annihilated his faith in the human soul. There was no way for him to say that he too was on the edge of despair, searching desperately for some reason to believe that men could be saved from the evil they had wrought.

These were the four years he had just lived through. The physical wrecks brought to him had been dreadful enough, but they were not the worst.

Arthur had been brought to him when he had begun to feel himself giving in to a brutal cynicism. When he examined Arthur, he suddenly felt that here was a man who could prove the ultimate test, not of a human body to recover, but of human courage to overcome disaster. When this American realized what had been done to him his mind would be black with hate and horror, even if it had never been before. At first he had wondered if he had the right to prolong such a life as this. But after several of those examinations under which Arthur had screamed and cursed at him, Jacoby had convinced himself that with labor and patience he could guarantee that his patient would not be helpless. Arthur would have something to work with. If he could be made to use what he had, and with it regain any wisdom or generosity in spite of what he had lost, Jacoby promised himself that he would take it as meaning that humanity could do the same. As he worked with him, as he saw Arthur's fury and despair, Arthur became to him a symbol of the world's wreckage. If this shattered American could come back, there was hope. The damage of the war was done to the world as it was done to Arthur, but if Arthur could be made to go on, there was a reason for living. By this time Jacoby was not sure that there was. But he was going to find out.

Arthur still hated him. He had ceased to doubt that Jacoby meant exactly what he said: Jacoby was not going to let him die, but was going to restore as much as he could of what had been lost. That there was so much he could not restore made no difference to his eagerness. Much of the work was necessarily experimental. "But it's the sort of experiment he looks for," Arthur told himself bitterly. "It's not often he finds a patient who simply can't be any worse off, no matter how many mistakes he makes. When he gets one like that he gives him the works. One man is better than a thousand guinea pigs. I can see the reasoning. Only I never thought of its happening to me."

When he did have a chance to talk to Arthur again, Jacoby's difficulty with the language was so great that he could tell him very little. But after many attempts he managed to say,

"When you were begging me to let you alone, I was trying to make sure you would keep your right arm. Believe me, Kitt, if you had lost both arms, or if there had been blindness with all the rest, I should have done what you asked me."

Arthur said angrily, "Why don't you do it now?"

Jacoby gave him a look of real surprise. "Do you still want me to?"

"Yes. I do not want to be a subject for vivisection."

"Kitt, do you still think that is what I am doing to you?"

"You know it is."

Jacoby shook his head. He fumbled for words. He said, "I watched you for many days. I fought a battle. I cannot say it well. Perhaps in English I cannot say it at all. You are a man, Kitt, but also you are mankind. You must live. You must want to live. You must—do you understand me?" He spoke so intently that he was almost fierce. "Kitt," he exclaimed, "let us try!"

Though he did not realize it then, Arthur remembered later that his own resistance was gradually being worn away by the power of Jacoby's determination. As time went on, he came to recognize the enthusiasm Jacoby was feeling. He had felt it himself when there was some almost impossible job to be tackled. "If I can do this, I can do anything," He knew what it meant to roll up his sleeves, saying that.

What he did not realize at the time was that this was not what Jacoby was saying. Jacoby was saying to himself, "If he can do this, I can do anything."

The first time he began to understand that Jacoby was not merely a cold scientist was the day when Ja-

"Kitt, if you will tell me—spell it slowly—the name of the woman—"

Jacoby came to his bedside with a slip of paper and a pencil.

"Kitt, if you will tell me—spell it slowly—the name of the woman you kept talking to when you were delirious—"

Arthur groaned. His impulse was to grip Jacoby's hand, but he could not do this. He could only say, "Jacoby, be merciful! If you've made up your mind to do this to me I can't stop you. But don't do it to her."

Without looking at Arthur, Jacoby said, "I thought it might be possible to get her a message. Through the Red Cross."

Arthur did not answer. After a pause Jacoby asked,

"You do not want to tell me who she is?"

Arthur said, "She is my wife."

Jacoby turned his head toward the bed then, involuntarily. He knew no words to speak and even if he had been using his own language there could have been nothing to say so eloquent as the pity he could not keep out of his eyes.

He crumpled the slip of paper in his fist. There was a silence. At length Jacoby said, "Very well." He turned and went away.

and enjoying the rewards of it. Not even Jacoby's genius could restore him the sense of knowing he could take care of himself no matter what happened, the old happy forthrightness of being able to look the whole world in the face and tell it to get out of his way. Jacoby could never restore him his marriage. He could never give Elizabeth the children she wanted, or even the security and companionship she had had with him. Lying in a helpless huddle on his cot in the intervals of being fed and washed by strange hands, Arthur had nothing to do but look ahead into the sort of life-sentence he would be giving her if he let Jacoby communicate with her. No doubt he had been reported missing in action. When they found him, the Red Cross would have means of notifying Elizabeth he was still alive. After the war, as soon as Jacoby had repaired him sufficiently to make it possible for him to go home, he would have to go.

And then, Elizabeth would offer him everything she had. She was too loyal, and she loved him too much, to dream of doing otherwise. She would work, and use everything she could earn for his support. She would spend her life nursing him, himself a broken wreck of a creature who could give her nothing in return except a doglike gratitude. Her splendid vitality would be spent in a twilight of half-living until she was dry and withered like fruit that had been broken off the tree before it had had a chance to ripen. As he thought of it he knew more and more surely that no matter what would become of him, he could not let this happen to her.

His decision was not entirely unselfish. Arthur was too clear-headed to imagine it was. Not only could he not do this to Elizabeth, but he could not do it to himself. Bearing his tragedy alone would be easier than requiring her to share it.

He knew, almost as if he were with her, what she would suffer at being told of his death. But that would not last forever, though at the time she would undoubtedly think it was going to. She would pick up the broken pattern of her life and set about putting it together again. Elizabeth was young, vital, alert, and there would be another man who would find her as lovable as he had found her. She would have again the sort of mating she should have. He tried instinctively to clench his fist with decision, and the pain that went like a bayonet-thrust into his shoulder, reminding him that he was not even able to make such a simple gesture, served to strengthen his resolve. When a man dies, he told himself, with more fierceness in his mind since there could be none in his body, it is like taking a teaspoonful of water out of a river. The water closes up, it is gone, and after an instant, nobody notices it any more.

When Jacoby came in again, Arthur told him what he had decided to do. He had to speak slowly, repeating often and waiting until Jacoby's intelligence had limped through to comprehension. The effort to make Jacoby understand took his attention away from the bleak import of what he was saying.

"I will make you a promise, Jacoby, if you will do one thing for me. Do it, and come back and tell me you have done it."

"I understand you. Go ahead."

"When I was brought in here, you found the metal tag of identification? And other things, maybe? Take those to the International Red Cross. Tell them your stretcher-bearers brought in an American who died of his wounds. You do not know his name. But you took these objects from his body. You will sign a death certificate, or whatever you have to sign. The American army will take care of the rest. If you will do this, and bring me some sort of proof that you have done it, I promise you that I will let you do whatever you please to me. But if you will not do it, I swear to you that I'll make you do it because I'll end my life as soon as I have a usable hand to do it with."

Deliberately, further to relieve his attention, he fixed his eyes on Jacoby's eyes, tender as the eyes of a mother; on Jacoby's strong, wise, gentle face; and while he repeated his sentences he noticed again what a thin face it was, the skin showing the waxiness of malnutrition, and guessed as he had guessed before that this man was denying himself part of his own rations to provide more nourishment for the men he was trying to save. At last he said, slowly and carefully, "You understand me? You will do what I ask, Jacoby?"

Jacoby used one of the precious night hours when he should have been asleep to rig up a sort of shelf across Arthur's cot, and set the dictionary up on it. "My English is so faulty, Kitt, and I have no time to improve it. Why do you not learn to talk to me?"

He read the first words aloud to him, slowly, so Arthur could begin to learn their pronunciation. While he was taking a hasty meal of turnips and potatoes Jacoby drew rough sketches of various objects in the room, writing their names beside them, and set the sheet up for Arthur to study during the day.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for March 10

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

A PEOPLE IN CONFUSION

LESSON TEXT: Judges 2:7, 11, 16-23. MEMORY SELECTION: The Lord is my helper, and I will not fear.—Hebrews 13:6.

Confusion is a word well suited to describe the world today. With the end of the war we had hoped for peace and goodwill, and what have we? We may learn from the experience of Israel the reasons for such confusion. They, too, had come into their land and should have had only peace and prosperity. Instead there were turmoil and disorder. Why?

The success or failure of both nations and individuals is ultimately determined by their attitude toward the law of God. He is always right and true. The constant factor in a world order that swings wildly from one extreme to another is his law, which is perfect and eternal.

God is no respecter of persons. Even Israel, his own chosen nation, found that observing God's law meant blessing, and failure to do so brought judgment and sorrow. No man is great and powerful enough to ignore this rule, and none is exempt from its operation.

I. The Cause—Forgetting God (vv. 7, 11).

The Lord had promised the land to them as they went in and possessed it by faith in him. He fully kept that promise in the measure that they believed him. They never did take the whole land, but that was because of their failure, not God's.

As the people of Israel took possession of the land, they went forward in the way of blessing as long as Joshua, and the elders who remembered God, kept them steady and true. We have here an excellent illustration of the power of a godly example. It is far stronger than we think.

The fact that a nation has been highly privileged and has been exalted to a place of power and honor will not save it in the day when God is forgotten. Israel no longer had God-fearing men to bring it back to the Lord, and so began its awful drifting.

We Americans are rightly proud of our great land, its mighty resources, its fine past and promising future. But what is the future to be? Oh, we say, the most glorious days are ahead! They may be, but only if we, like our forefathers who established this nation, recognize God. If we do not, America will go the way of the forgotten empires of centuries past, and that in spite of all its past achievements and its present promise.

It is a significant thing that our business and national leaders often come from Christian homes, but it is sad that they themselves are so frequently not Christians. Their lives are shaped by the teaching and influence of godly parents, but what will their children do if they are not brought up in the fear and admonition of the Lord?

II. The Condition—National and Spiritual Confusion (vv. 16-19).

The history of the period of the judges in Israel is incomplete, but what we have shows the awful condition of the nation. Not only were they in separate tribes, but the people as a whole were divided into three groups—north and south of Jerusalem, and east of the Jordan. The moral and spiritual decay were evident in their turning to the immoral practices of Baal-worship.

One would have thought that God would give up a people so set on sinning, but he did not. He provided deliverance for Israel. That gives us courage, for we know that he has not given us up, but has provided in Christ a sure deliverance, if America will turn to him.

It is interesting to note that God works through men. Some of these judges were great men; others were just ordinary men. But each in his appointed place, at the appointed time, was God's man.

Confusion, sin and disobedience cannot be tolerated indefinitely. So Israel stubbornly went on to

III. The Conclusion—Judgment from God (vv. 20-23).

God not only will not hold a back-sliding nation guiltless, but will bring judgment even if he has to turn over his people to a despoiling nation. He has instruments of individual and national chastisement, and he is ready to use them.

Notice that wherever they went the Lord's hand was against them. There is no place to flee from the presence of God. Anyone who thinks he can do it should read Psalm 139:7-12. It can't be done. That is a comfort to the believer, but it is very disquieting to the unbeliever.

They compromised with evil, and lost not only their testimony but their very spiritual life. They forsook God and took into their friendship the enemies of God, only to find that they were their own enemies. We are in danger now of compromise with evil, both in our personal and in our national lives. As we do—and if we do—we may expect only disaster and judgment.

SEWING CIRCLE PATTERNS

Cover-All Apron From One Yard A Youthful, Attractive Two-Piecer

Two-Piece Frock
LEADER in the fashion parade for spring is the attractive two-piece frock. This smart and well fitting version has a youthful U-shaped neckline, ties at the waist for a trim, neat look, and a simple skirt. If you like, have the blouse in a light material, the skirt dark, for a change.

Pattern No. 8990 is designed for sizes 12, 14, 16, 18, 20, 40 and 42. Size 14 takes 3 1/4 yards of 35- or 38-inch material.

SEWING CIRCLE PATTERN DEPT. 530 South Wells St. Chicago 7, Ill. Enclose 25 cents in coins for each pattern desired.

Pattern No. 8977 comes in sizes 32, 34, 36, 38, 40, 42, 44 and 46. Size 34 takes one yard of 36- or 38-inch material; 2 1/4 yards binding to trim.

Name _____ Size _____ Address _____

ASK ME ANOTHER?

A quiz with answers offering information on various subjects

The Questions

1. How long is the Panama canal?
2. What philosopher said: "I think, therefore I am"?
3. Death Valley is how many feet below sea level?
4. What man was "Father of the Atlantic Cable"?
5. Billingsgate is London's what?
6. How many books has the Library of Congress in Washington, D. C.?
7. For whom is the Smithsonian institution in Washington, D. C., named?
8. There is a lake 6 miles long, 4 miles wide in the crater of a volcano. It is 6,000 feet above sea level, yet never freezes. What is it called?
9. How often would a bi-monthly booklet be issued?
10. What is the difference between a mile of railroad and a mile of track?

The Answers

1. It is 50.4 miles long.
2. Descartes.
3. It is 276 feet below sea level.
4. Cyrus W. Field.
5. Fish market.
6. More than 6,000,000.
7. James Smithson, British chemist, who left \$500,000 to establish the institution.
8. Crater lake in Oregon.
9. Every two months.

Acid Indigestion

Relieved in 5 minutes or double money back. When excess stomach acid causes painful, suffocating gas, sour stomach and heartburn, doctors usually prescribe the fast-acting medicine known as Creomulsion. It is a medicine like those in the Tablets. No laxative. Relieves brings comfort in a fifty or double your money back on return of bottle to us. 25¢ at all drugstores.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

Watch Your Kidneys!
 Help Them Cleanse the Blood of Harmful Body Waste
 Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—to remove impurities that, if retained, may poison the system and upset the whole body machinery.
 Symptoms may be nagging backache, persistent headache, attacks of dizziness, feeling up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength.
 Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
 There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!
DOAN'S PILLS

HOUSEHOLD MEMOS by Lynn Chambers

Serve Cake for Your Sunday Best (See Recipes Below)

Distinctive Cakes

Homemakers will approach the task of deciding desserts more lightly and heartedly when there's a luscious cake stored away in the mysterious recesses of the cupboard. Besides, it's an elegant idea to have cakes on hand in case unexpected guests drop in.
 Then, too, those of you who want to raise money for your church or club group might want to have a sale of home-baked goods. Cakes, of course, will bring handsome profits if the cakes are light and feathery, and frosted beautifully.
 When making a cake, try using a cake or pastry flour. These flours made of soft wheat contain less gluten than all-purpose flour, and will give cake a better, softer texture. Follow the methods given, either that of creaming the shortening and sugar, or using the one-bowl method. Recipes must be tested for each type of method, and it is best to use the directions as they are given here.
 All the cake recipes have been tested for freshness. You'll find they keep exceedingly well when covered or kept in a cake tin.
 From the south comes this yummy cake with the unusual flavor of pecans in its base:

Pecan Cake.
 3 cups pecans, finely ground
 6 eggs
 1 cup sugar
 1 tablespoon flour
 1/2 teaspoon salt
 1 teaspoon baking powder
 1 teaspoon vanilla
 Beat the egg yolks until light, add sugar gradually. Add nuts to the flour which has been sifted with salt and baking powder. Stir in stiffly-beaten egg whites and flavoring. Pour into two eight-inch pans which have been well greased and lined with greased waxed paper. Bake in a moderate oven (350 degrees) for 35 to 40 minutes. Top lightly with sweetened whipped cream and fresh fruit. Bananas, pineapple, raspberries and strawberries are a treat!
 If you want a cake with a melt-in-your-mouth quality try a spice cake made with sour cream and a fine combination of spices. There's interesting texture and flavor given from the mashed bananas that go into the cake itself.

Spice Cake.
 1/2 cup butter or shortening
 1 1/2 cups brown sugar
 4 eggs
 3 bananas, mashed fine

LYNN SAYS
 When You Buy, Take Care: If you are selecting poultry, see that the bird is plump, firm and well-rounded. The skin should be smooth and without discoloration. Clear, even yellow-white color is best. Avoid birds that look extremely blue or gray. Look for a flexible breast bone, smooth feet and claws for roasting, broiling or frying purposes.
 In buying fish, be sure that the flesh is firmly attached to the backbone. This flesh should show no mark when pressed with the thumb. There will be little fishy smell if the fish is really fresh. The eyes should be clear and bulging, not sunken.
 Vegetables should be firm, full-bodied and fresh appearing. Guard against wilted, shriveled tops, and bruises. Any vegetables which are in the pod should be moist, not dry.
 Look for fruits that are as fresh as possible—firm and full-bodied. It is best to buy by weight rather than by bunches or the dozen.

LYNN CHAMBERS' MENU IDEAS

Macaroni-Cheese Loaf
 Tossed Carrot Salad Green Peas
 Whole Wheat Bread
 Jam or Jelly
 Ice Cream with Butterscotch Sauce Beverage

1 cup sour milk
 2 teaspoons cinnamon
 1/2 teaspoon each, nutmeg, allspice, cloves
 2 1/2 cups cake flour
 3 teaspoons baking powder
 Cream together the butter and sugar, add beaten egg yolks and bananas. Sift dry ingredients and add alternately with the milk. Fold in stiffly beaten egg whites. Bake in layer cake pans or large oblong pan.
Marshmallow Icing.
 Combine 2 unbeaten egg whites with 1 1/2 cups granulated sugar. Add 1 1/2 teaspoons corn syrup and 5 tablespoons water. Cook rapidly over boiling water for seven minutes, beating constantly with a rotary beater. Then add 8 marshmallows which have been softened over hot water. Add 1 teaspoon vanilla extract and beat until icing stands in peaks. Spread on cooled cake and dot primly with bits of maraschino or candied cherries.

If you want to save time and energy, you will want to use this frosty lemon cake right away. It's made in one bowl and requires only accurate measurements and a specified amount of beating time.
Frosty Lemon Cake.
 2 cups sifted cake flour
 1 1/4 cups sugar
 3 1/2 teaspoons baking powder
 1 teaspoon salt
 1/2 cup shortening
 1 cup milk
 1 1/2 teaspoons vanilla
 3 egg whites, unbeaten
 Put dry ingredients—flour, sugar, baking powder, salt and shortening—in one large bowl. Add about 1/2 of the milk, then vanilla and beat until smooth. Add remaining milk and egg whites before 100 strokes have been completed. Scrape bowl and spoon often during mixing. The batter will be quite thin, but very smooth. Bake in two greased 8-inch cake tins in a moderate oven (350 degrees) 30 to 35 minutes. Spread lemon filling between the layers and dust with powdered sugar.

Lemon Filling.
 3/4 cup sugar
 3 tablespoons flour
 1/2 teaspoon salt
 1/2 cup lemon juice
 Grated rind of 1 lemon
 1/2 cup water
 3 egg yolks, slightly beaten
 Mix sugar, flour, salt together. Add lemon juice and rind and mix well. Add water and egg yolks. Blend carefully. Place over hot water and cook until smooth and thick, stirring constantly (about 15 minutes). Cool and spread between cake layers.

Chocolate Cake Filling.
 1 square unsweetened chocolate
 3/4 cup milk
 6 tablespoons sugar
 2 tablespoons flour
 1/2 teaspoon salt
 1 tablespoon butter
 1 teaspoon vanilla
 1/2 cup cream, whipped
 Add chocolate to milk in double boiler. When chocolate is melted, beat with a rotary egg beater until well blended. Combine sugar, flour and salt and add gradually to chocolate mixture. Cook until thickened, stirring constantly. Then cook five minutes, stirring occasionally. Add butter and vanilla. Chill thoroughly, then fold in whipped cream.

ARMCHAIR WORKER
 A shiftless individual recently knocked on the door of a certain well-known clergyman and applied for aid, and as proof of his deserving plenty pointed to patches on the knees of his trousers.
 "But," objected the observant minister, "what about those patches on the seat of your pants?"
 "Oh," replied the bum, apologetically, "I have been a backslider."
Talking Sickness
 Patient—Doctor, you told me to show my tongue but you haven't even looked at it.
 Doctor—I know it, but that is the only way I could figure to keep you shut up till I finished writing your prescription.
Bad Start
 Mrs. Brown—With those two it's a real dollar and sense wedding.
 Mrs. Smith—What do you mean?
 Mrs. Brown—He hasn't a dollar and she hasn't any sense.

CAUGHT BY A COPPER
 Old Lady (at edge of crowd gathered outside church)—What happened here?
 Young Scamp—A policeman went in the church and brought the bride out.
 Old Lady—Oh, my, what had she done?
 Young Scamp—Married the policeman!
Badly Hurt
 Mac—Did you hear about Sandy's miracle?
 Tavish—No. What was the miracle?
 Mac—He swallowed a dime and the doc made him cough up two bucks.
Universal Solvent
 Harry—They say she's a pretty hard type.
 Jerry—Yeah, somebody told me the only thing that'll make an impression on her is a diamond.

Add Shelf Units With One for the Corner

IF YOU want shelves on one side of the room only, one or more of the B units shown here with an A unit at each end is a smart combination. If you wish to run the shelves around two sides of the room, a corner unit, shown at C, will also be needed.

All of the units in the sketch are well proportioned with deep shelves and are especially designed to be made by the man who is handy with hammer and saw. Patterns are available with actual-size cutting guides for the curved shelves. Stock widths of lumber are used and the pattern lists all materials needed. Only the simplest hand tools are required.
 The A and B units are made with pattern 270; the C unit for the corner with 271. Patterns are 15 cents each or 25 cents for both patterns mailed to one address. Send requests for patterns direct to Mrs. Spears.

MRS. RUTH WYETH SPEARS

LEGAL

ORDINANCE NO. 62

An Ordinance to create and establish a planning commission in the City of East Jordan, Michigan, to be known as the City of East Jordan Planning Commission, to provide for the appointment of the members of such Commission, to provide for the

term of office of the members thereof, to provide for the removal of such members, to provide for the filling of vacancies in the membership of such commission, and to define and provide for the powers, duties and activities of such planning commission.

The City of East Jordan Ordains:
Section 1. There is hereby created and established in the City of East Jordan, Michigan, a planning commission in and for said City, to be known as the City of East Jordan Planning Commission, pursuant to the provisions of Act 285 of the Public Acts of Michigan for the year 1931, and all acts amendatory thereof and thereto.

Section 2. The Commission shall consist of nine members who shall be appointed by the Mayor of the City of East Jordan and with the approval of the majority vote of the members of the city council. The members shall represent in so far as is possible the different professions or occupations and shall hold no other public office except that one may be a member of the Zoning Board of Appeals. The term of office of each member shall be three years or until his successor takes office, except that the respective terms of three of the members first appointed shall be for one year and three for two years. Members of the Commission may, after public hearing, be removed by the Mayor for inefficiency, neglect of duty or malfeasance in office.

Section 3. The powers, duties and activities of said Planning commission shall at all times be subject to and in accordance with all of the provisions of said Act 285 of the Public Acts of Michigan for the year 1931 and all amendments thereof and thereto.

Section 4. No member of said commission shall receive any compensation as such but the said commission may be allowed such an amount for the expense of said commission as may be deemed advisable and necessary by the council of said city.

Section 5. This ordinance is and hereby is declared to be immediately

necessary for the preservation of the public peace, health, property and safety of the inhabitants of the city of East Jordan and is ordered to take effect and be in force from and after its passage and approval.

Enacted at the Regular Meeting of the Common Council held on the 4th day of March, 1946.
MERRITT SHAW, City Clerk
V. J. WHITEFORD, Mayor.
adv. 10-1

William (Bill) Saxton arrived home last Friday after 11 months in the army. He received his discharge from Camp Beal, Cal.
