#### Austin Overholt Killed In Auto Accident **Enroute to East Jordan**

A bad auto accident took place Sunday afternoon, July 14, at West Branch where Austin Overholt of

Mr. and Mrs. (Matha Freiberg) Overholt and daughter Marilyn were enroute to East Jordan to spend their vacation with relatives. A family dinnes was being prepared at the Frei-berg cottage on Lake Charlevoix when the word came.

The accident occured when the car went out of control and over-turned, Mr. Overholt being killed and Mrs. Overholt and daughter bruised and badly shaken up.

Sixty nine 4-H Club members spent four of the happiest days of their lives at the Charlevoix County 4-H Camp held at the Church of God Camp grounds from July 9th until July 12th. The program was varied and included educational features and recreation so that club members were busy all of the time. Recreation consisted of soft ball, volley ball, horse shoes, a weiner roast, and treasure hunt. Since the camp ground is located approximately two miles from Lake Charlevoix, Mr. Fred Willis of the Charlevoix Cooperative Company transported the entire camp group to the lake with his truck. Many of the parents came out to the evening programs. Besides enjoying the program they visited with their children.

State club leaders Verne Freeman and Miss Ada Hough conducted judging contests in several club projects. The boys visited the Oakley Saunders farm and the Robert Wilson farm where classes of cattle were judged and some of the interesting things relating to dairying discussed. The girls participated in Food Prepara-tion and Clothing judging.

ňs:

The camp was so successful that it is to be planned as an annual event for those participating in the 4-H club program. The use of the camp grounds was donated by the Church of God Camp committee. Its' facili-ties were ideal for a 4-H camp. Whether the camp will be held there next year has not yet been decided. Mrs. Ruth Hair, a county club lead-er was in charge of craft classes in which the youngsters made plastic and plaster articles and decorated them with enamels| Miss Emma Fero. Home Demonstration Agent and Miss Effie Newsome were in charge of feeding the campers. Mrs. Anna Warner chaperoned the girls while K. C. Festerling and Ed. Rebman acted as camp managers and conducted boys' activities. A list of

those attending camp are as follows: Charlevoix — Dale Boss, Gloria Jon Henry, Zella Murphy, Wilma Gregory, Quinella White, Joyce Mc-Ghan, Marilyn Ikens, Lois Jeanne Dykstra, Virginia Smith, Dale Suomela, Vane Smith, Charles Donald-son, Howard Pearl, Annette Donaldson, Velma May, Barbara Jean Roff, Patricia Murray, Luanna Bambach,

**Presbyterian Picnic** on This Friday The Presbyterian Church and Sun

lay School will have its annual picnic today (Friday) at Whiting Park. Those who can go for the afternoon will meet at the church at 3:30. Those who cannot go then are to plan to be there for pot luck supper at 6:30.

Hinz Chop House Changes **Owners** The Past Week

The Hinz Chop House, local restaurant, formerly Grace's Pie Shop, and later Fenker's Fine Food, was sold the past week by Mr. and Mrs. Mel Hinz to Mr. and Mrs. Carl Finstrom

of Harrison. Mr. and Mrs. Finstrom have had some sixteen years experience in the restaurant business, part of the time operating on US-27 near Harrison. Mrs. Finstrom was for several years in charge of the Nash-Kelvinator Cafeteria at Detroit. Mr. and Mrs. Hinz go to Marine

City where they own a cottage.

## Make Sure of **Rubber Supply** New Policy Insures That

#### U.S. Will Never Again Be Caught Short

WASHINGTON. — A government rubber committee has set forth a program that insures that the United States will never again be caught short of rubber. Operation of the nation's war-built synthetic industry at "a high level"

as long as natural rubber remains in short supply was urged. The committee recommended that synthetic plants capable of producing 60 per cent of the present capac-ity be kept in permanent operation

or stand-by condition. It urged "broad research pro-grams" in the synthetic-rubber field and stockpiling of natural rubber.

Major Objective. It set up a shift of the synthetic industry to private ownership and operation as "a major objective." The committee, of which William The committee, or which which L. Batt is chairman, divided its recommendaitons into two groups, one for the "short-run" period of this year and probably most of 1947 during which natural rubber is ex-pected to continue in short supply, the other for a long-term program

The short-term recommendations included continuance of international pooling and allocation of natural rubber.

Government powers to allocate rubber to manufacturers and to control specifications of rubber products should be continued, the report said, as long as the demand for natural rubber exceeds the supply. Synthetics Needed.

Noting that some of its proposals may require legislative action, the committee's long-term recommendations included:

There should be continuously maintained in production and use, regardless of cost, sufficient syn-thetic rubber capacity to meet at least one-third of our rubber requirements.

The committee was made up of representatives of the departments

on this proposal.

lov. 5. First, election of Kim Sigler, graftbusting crusader, who is the Republi-can nominee for Governor. Second, election of Murray D

"Pat" VanWagoner, former gover-nor who made his reputation on better highways and who is now the Democratic nominee for Governor. Each nominee is pledged to purify ansing. That in itself is a co-incidence which makes the forthcoming campaign of novel interest.

At the Democratic state conven-tion in Lansing, VanWagoner pillor-ied the Republican state administration under Governor Harry F. Kelly as being ridden with graft and corruption. Here is a quotation: "This period in our history (three and one-half years) has been marked y one scandal after another, by mal feasance and misfeasance in high public office and by graft and corruption in high administration office and in the halls of the state legisla

ture." And while Pontiac "Pat" was toss ing brickbats through Republican windows, he warned voters that "the opposition will certainly drag many a red herring across the trail . . . The same methods of vilification and defamation will be used this time for

the very simple reason that attention must be detracted from the manner in which the government of our state has been conducted the past three and one-half years." The Republican "vilification"; of ourse, would consist of counterharges of graft and corruption, et al. The late Lieut. Governor Frank Murphy, for example. Politics is such

a clean sport, you know. When it comes to throwing out the rascals, Sigler is no amateur.

Persons interested in buying land court house, Petoskey at 10:00 a.m., or lots fronting on a state trunkline were today cautioned by Highway Commissioner Charles M. Ziegler Thursday, Aug. 1st. A complete list of these properties including those in Charlevoix Coun-ty, is on file at The Herald office. against making such a purchase without first inquiring about access reg-ulations. Ziegler emphasized three Those wishing to are welcome to consult same by calling at this office. ## IN MEMORIAM

**Farm Topics** ED. REBMAN County Agricultural Agent

FARM SAFETY WEEK

Let's face facts. Four thousand five udred persons died last year as a result of farm accidents - and that number doesn't include deaths from accidents in the farm home. Four thousand five-hundred persons died while working on their farm lands. This year our crop production goals are at an even higher level than they were during the war years. That means every farmer has to be on the job. Accidents will keep him from his job.

July 21 is the beginning of farm safety week. It's a reminder that safe farm practices should be the rule fifty-two weeks a year. Check your home, your barns, your machinery, your grounds for possible hazards. Start preventing accidentsdon't regret them.

CUSTOM RATES

Many farmers, who never made a business of doing custom work, are doing jobs for their neighbor noweither because the neighbor can't buy a new machine or because he hasn't got enough labor. But rates are a problem. What's a fair rate to charge for

plowing? How much should you charge a neighbor for disking the corn ground? What's a fair price to pay for combining small grain?

If you're asking these questions, get the bulletin "Custom Rates in Michigan." It's bulletin F. M. 358, and you can get it from the farm management department at MSC or from your county agricultural agent. 4-H SCHOLARSHIPS

Thirty winners of MSC scholar-ships for outstanding work during the past winter in 4-H club work have been announced by A. G. Kettunen, state 4-H Club Leader, East

Lansing. Included in the list was Theodore Melin, Charlevoix, who won an award in Handicraft. It was reported today by Ed. Rebman, county agricultural agent.

The scholarships are given by the state board of agriculture and a-mount to \$95.00 in fees and tuition at Michigan State college. The thirty winners in the state went to those doing outstanding work in handicraft, poultry, swine and home economics.

#### FREEZER LOCKER

From 30 to 40 percent of your freezer storage space can be saved if meat is boned before packaging. Boneless cuts are easier to wrap, matery \$210 minutes, the set of t meat loaves, chili and hamburgers. Ground meat does not store as 5.50 well as steaks or roasts. If pork sausage is to be frozen and stored, it is recommended that all of the seasoning ingredients except salt be mixed in with the meat. The salt can be added during the cooking process. Salt accelerates the development of rancidity and should not be added to the pork sausage before freezing. Cured meats do not store well in

a frozen condition because of the All meat should be tightly wrapped with a moisture-vapor proof material that is elastic, tough and pliable. Beef and lamb supplies should be consumed in six or seven months, while pork and veal should not remain in lockers over three or four months. This, will insure the meat being at the best quality. Ed. CONTOUR STRIP CROPPING

Water erosion was controlled on the farms where contour strip cropping was in effect following Sunlay's, June 30, hard rain.

Losey & Edgar Wright of Bellaire checked the strips which were laid out on their farm this spring and found no visable evidence of erosion, while many farms in the showed erosion loss up to 30 and 40 ons of good top soil per acre.

Farms that had contour strips but were not established in alternate strips of hay between row crops or grain, showed soil erosion but not nearly as severe as ia would have

been under regular farming methods. A farmer can lose fertility such as nitrogen, phosphorous, and potash which would more than equal his profits on this years crop in a rain sim-ilar to Sunday, July 7th.

Farmers interested in Soil Conservation plans should contact W. G. Kirkpatrick, County Agricultural Agent, or the directors of the Antrim Soil Conservation District.

THE CHARLEVOIX COUNTY HERALD, EAST JORDAN, MICH.

BOMB RESULT . . . Pictured is the heavy cruiser USS Pensacola with her superstructure damaged by the atomic bomb in Bikini lagoon.

#### WARSHIPS:

#### Safe From Atom?

Ships cannot be built with steel thick enough to protect their crews from the terrific lethal radiation of from the terrific lethal radiation of a close atomic explosion, Col. Staf-ford Warren, Bikini safety officer, has declared after an inspection. Some of the 73 target vessels re-mained dangerously radioactive even a week after the atomic bomb, he declared, after the ball-of-fire blast sank five, heavily damaged nine and affected 59 warships. Radi-ation released by the bomb was "ter-rific," Colonel Warren told newsmen.

Colonel Warren believes that if the target fleet had been manned, the blast would have rendered it helpless, since "many not killed by the blast would have been unable to carry on their duties because of ill-ness from radiation," quoting Cap-tain George Lyon also of the safety staff.

#### **OPA ENDS:** Lid Is Off

When President Truman vetoed the OPA extension bill, declaring it was not a true "price-control" measure, the house of representa-tives passed a resolution extending OPA for a 20-day period. Then the senate balked. Result: No OPA.

The reaction was immediate in cattle, hogs, grain and dairy products. Prime cattle shot up to \$22 a hundred pounds on the Chicago market for an all-time high within hours. Two-dollar wheat was seen for the first time since 1925. Milk went up about 2 cents a quart. Women in Washington, D. C., reported butfer at 94 cents a pound.

butter at 94 cents a pound. Many merchants all over the United States, however, pledged a hold-the-line policy. In a few cases, prices were lowered to "start healthy competition." But generally prices began moving up, despite President Truman's appeal to hold down inflation until a new price con-trol bill could be passed by the con-gress.

In view of the situation, Senate Majority Leader Barkley warned that two or three weeks probably would be required to get even a temporary continuation resolution through the senate. The 20-day ex-tension passed by the house will have passed before then. The majority leader told President Truman the senate would attempt to work

Blandy, task force commander, says there is no reason to believe the day of the carrier and de-stroyer is done. So the navy isn't convinced that the atomic bomb has put it out of business. PEACE:

#### Parley July 29

Vyacheslav M. Molotov, the Soviet foreign minister, finally agreed to a general peace conference, being privately persuaded by Secretary of State Byrnes to stop postponing the actual date. A general peace conference of 21 nations will be held in Paris beginning July 29.

Delegates of the invited powers will assemble in Paris to make peace as they made war. They will sit throughout the month of August to perfect the peace treaties with Italy, Hungary, Romania, Bulgaria and Finland—all former Axis satellites.

#### STRIKES:

#### If Prices Rise

Even if inflation comes, workers must eat. That is the gist of labor unions' comment. "Employers failed to keep their word, and so did the government. We are no long-er bound to keep our word not to strike."

Blaming the house and senate for not holding the line on prices, many labor leaders have indicat-ed that if prices go up—and prices are going up—then demands for in-creases in wages will come. And if those demands aren't met there will be striked be strikes.

#### HOBBS' BILL:

#### **Restricts** Labor

Although he signed the Hobbs bill, which applies heavy federal anti-racketeering penalties to labor un-ions, President Truman attempted to safeguard legitimate rights of or-ganized labor by a simultaneous message to congress limiting the impact of the law.

The message stated that the Pres-The message stated that the Pres-ident signed the act only on the un-derstanding, asserted by Attorney General Clark, that the law would not molest "the great legislative safeguards which the congress has established for the protection of la-hor in the average of its fundabor in the exercise of its funda-mental rights."

#### FOURTH OF JULY:

New Republic Born A crowd of 100,000 packed the greensward of the historic Luneta

#### \$2.50 CURE:

Hyperthyroidism

It used to cost \$150 for a surgical operation to cure hyperthyroidism, but there is now a cure costing only \$2.50, contained in a drink of water. That is what Dr. Earle M. Chap-man of the Massachusetts General hospital, Boston, told the American Medical essention meeting in San Medical association meeting in San

Francisco recently. The curative agent is a timy pinch of radio-iodine, one of the atomic medicines. It is not new, having been used experimentally for years. But the new thing about it is that it has been accepted by doctors of medicine in place of the more expensive and more serious surgical process. Atomic ovens can produce the cyclotron product inexpensively and it should become plentiful shortly, said Dr. Chapman.

#### TAX RISE: If Prices Soar

In Washington, John W. Snyder, secretary of the treasury, told a news conference that an increase in tax rates may be asked by the administration next year if there is sharp inflation in prices following the ending of OPA. The additional tax would be levied on individuals and corporations when congress meets after the first of next year. Mr. Snyder gave flat assurance, however, that the administration would propose no new tax levies during 1946.

The-U. S. treasury, Mr. Sny-der stated, had over 14 billion dollars cash balance, but has temporarily halted its program of retiring the public debt through cash redemption of ma-turing securities. To redeem these securities now would add to buying pressure. The treas-ury has taken this step, it was learned, as an anti-inflationary

step. Mr. Snyder clung to his promise, given upon taking office a few weeks given upon taking omce a rew weeks ago, that he would 'try hard'' to balance the 1947 budget. But he added that "we're going to have pretty tough sledding" to achieve the goal because there have been "elements injected into the picture we weren't looking for."

SCRAP PLANES:

Sell for Less

Airplanes cost a lot of money when they are new, but when the government sells the scrap the price is down. For \$3,900,000,000 worth of scrap war planes the government received apparent high bids total-ing \$6,582,156, or some three billion dollars less than cost.

Sale of these scrap planes will pir-tually clean out such government aircraft, except for another 15 million to 18 million pounds of alumi-num scrap now in Hawaii to be sold in August.

The surplus bombers, fighters and other tactical ships sold for scrap are located at five air fields in the United States. The fields will be leased to buyers for \$1 per year while scrapping operations are in progress.

HOMES:

406,000 Started

Wilson W. Wyatt, national hous-ing expediter, is confident that the 1946 goal of 1,200,000 housing units will be met. He has also reported that 406,000 dwelling units have been started so far this year, this figure representing approximately 34 per

representing approximately 34 per cent of the goal. The housing expediter, in his first report to the nation on the hous-ing program, said that "prices for new homes and rentals are still too high to fit the purses of many veter-ans." He called for the erection of more rental housing and promised more rental housing and promised that all construction will be carefully inspected to insure both good quality and fair prices. He strongly implied

Firestone

ut a permanent law instead of temporary makeshift.

#### ATOM BOMB: **Results** Are Argued

The wrath of the atomic bomb was unloosed, but goats kept on eat-ing, palm trees waved their fronds, and birds still flew over Bikini lagoon. To many eye-witnesses the pyrotechnic display was colorful and gorgeous, to others the whole show was a dud. Arguments have already started and will continue for weeks and months, or even years. Is atomic energy so fright-ful as we supposed? Is the modern battle-wagon still mistress of the

But five ships were sunk, 6 were wrecked, 25 were badly damaged and possibly all the rest of 73 in the and possibly all the rest of 73 in the naval fleet bear scars. However, not a capital ship was sunk by the atomic blast, although havoc wrought by the bomb's might was evident on every hand. Fires raged aboard at least eight of the vessels, including one ship two miles from the target center. Vice Adm. William H. P.

**FREIGHT RATES:** 

#### Up in Some States

Several Middle West states regulatory commissions have approved new freight rate increases on in-trastate commerce similar to the general boost authorized by the in-terstate commerce commission. Kansas and Missouri have placed in effect temporary increases, the same as authorized by the ICC. Nebraska granted increases except on sugar beets, beet sugar, final molasses and wet beet pulp.

in Manila on July 4 and faced the grandstand where 3,000 special guests and notables had gathered. Gen. Douglas MacArthur was there; so was Paul V. McNutt, now U. S. ambassador to a new republic, amoassador to a new republic. The occasion was the birth of a new republic, when the Philippine Islands, a territory of the United States, became the Republic of the

#### CONGRESS: Tribute to FDR

The late Pres. Franklin D. Roosevelt was brave, steadfast and a man who "saw the facts and faced them," said John G. Winant, former ambassador to Great Britain, who spoke at the solemn service on July 1 when President Truman and members of the congress paid trib-ute to the departed leader's mem-

Mrs. Eleanor Roosevelt, FDR's widow, attired severely in black, sat directly behind Mr. Truman. With secre her were Josephus Daniels. tary of the navy in World War I, her son and his wife, Mr. and Mrs. Elliott Roosevelt.

Winant concluded his tribute with these words:

hese words: "God give us heart and will to take this nation forward as he meant to take it to a new, more daring future, a new world of peace."

## SENATORS:

Throughout the Great Plains region and the western part of the United States are several old frontier posts, or forts, which were built from 50 to 100 years ago during Indian insurrections. Gen. Dwight D. Eisenhower has

decided to abandon some of these old forts because there's no longer any danger of Indian attacks.

#### Higher Paid A year ago members of the

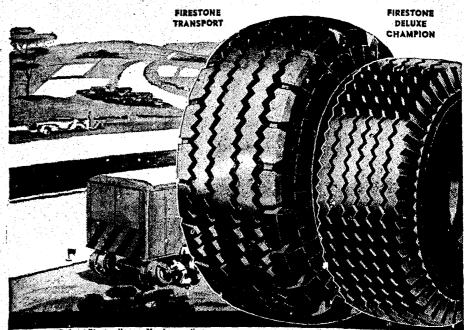

house of representatives voted themselves a \$2,500 annual expense account. At that time the senators account. At that time the senators refused to give themselves a sim-ilar expense account. But they changed their minds about it and recently voted themselves similar auxiliary funds.

Members of both houses of con-gress get a salary of \$10,000 a year nlus secretarial help.

THE STORY THUS FAR: Meg ch-fared the house quicity, when she re-dured from alding Martha. Jim Mac-Tavish swalted her, declaring she had, hees, out, with tom Fallon. "You are in lave with him." Jim again attempted to get her to sell the farm, but she re-fused angrily. The next day Larry came for lunch and atterward they walked to-gether to the ridge. Larry told her that he knew she loyed the old farm, for he boyed its too. He told her had the twant her to sell the piace, and declared he THE STORY THUS FAR: Meg caby to add the picket, and declared he wanted to marry her whether they lived in Bissanan Grove or in the county seat. He tigset as the the they lived in Bissana Grove or in the county seat. He tigset as the her to be added as the bissan of the seather the se give all this up."

#### CHAPTER VIII

They went hand in hand up the path and to the flat zock that crowned the very top of the hill. Megan sat down and Laurence followed her to the rock. They sat close together for a moment, looking out over the scene spread below them.

Megan knew the thought that was in his mind, and she tried hard to marshal all her arguments so that he could understand; but when he turned his head and looked at her, and smiled, he said quietly, "I can't say I blame you for not being will-ing to give all this up! We are go-ing to be very happy here."

Megan felt as though she had tak-en a step in the dark and plunged headlong into space. She could only stare at him, wide-eyed, her mouth open a little. Laurence laughed and leaned forward and kissed her.

"Did you think, darling, that I've "Did you think, darling, that I've known you almost your whole life and been in love with you since I was fifteen, and didn't know what your own land meant to you?" he asked her quietly. "I admit that I was fool enough to hope, for just a little while, that you loved me enough to be happy in Meaders-ville. But when you telenhoned me ville. But when you telephoned me in alarm because you had been offered what we both know is a very generous price for the land, and you didn't want to take it-well, I faced facts then and got busy to see about just what could be done. Because make no mistake about it, my love-you're going to marry me, whether we live in Meadersville or ·leasant Grove!'

There were quick tears in her eyes, but she smiled tremulously. "Thank you for understanding,

Larry," she told him huskily. "It's -a tremendous relief."

Laurence frowned as though not quite sure that he liked that.

"You, mean you didn't think I would understand?" he protested. "Well, for Pete's sake, why not? After all, we've grown up together. These last years since your mother died, I've watched you fighting drouth and flood and hail, boll weevil and corn borer and blue mold and chinch bug-when it would have been so much easier to give up and sell out. Don't you suppose during those years, I've come to un-derstand what the place means to you? And to be frank with you-I'm kind of fond of the old place myself! Never having owned a square foot of real estate in my life, hav ing grown up on a sharecropper's place-the thought of becoming a landowner-in partnership, anyway -seems pretty swell!"

He grinned at her and said hastily "Not of course that I want you to get the idea that I'm merely marrying you for your farm-perish the thought! I'd marry you if you didn't have a foot of land!"

She laughed and let him kiss her And at first, that seemed quite sat-isfactory to Laurence; but after a little he let her go, and sat looking down at the rich dark earth, where his heel was

-I don't know anyone else," she | but after a few moments ne said pointed out. "That's not quite flattering," he

assured her, and now he seemed amused at her confusion and her bewilderment: "Never mind, darbewiderment: Never mind, dat-ling. We'll let it go, for now. But I wouldn't want you to marry me, Meggie, unless you felt a little about me as I feel about you. I guess I don't quite expect you to be-well, as much in love with me as I am with you; the wise people who claim to know about such things claim that one person in every marriage cares more deeply than the other. don't mind a bit if I love you more than you love me. Maybe that's the way it should be. I'm afraid I'm not wise enough to decide that. I only know that unless you're-more

than just fond of me—it wouldn't work out." Megan said faintly, "You mean you want to break off the engage-

ment, Larry?' "Do you, Meggie?" he asked

quietly. uelly. "Why-why-no, Larry-of course tt," she stammered, and put out band in a helpless gesture. "I-I

not," a hand in a helpless gesture.

She shot Megan an oblique look and then came out frankly with what was on her mind.

think I've always expected that we'd be married some day. It's-well, I've sort of grown up with that thought. Maybe-could it be that that's the reason you don't think I love you enough?"

"It isn't that I think you don't love me, Meggle - I know you don't," he told her. "I've tried to kid myself that you did, and tried to hope that once we were actually engaged, you'd—well, warm up to me a little. But when you thought of setting a date for our marriage and realized that you couldn't give up the farm or the dogs and cats and ws and chickens, to make a new life with me somewhere-or anywhere!--that was all I needed to convince me that you're not ready to marry me yet. If you loved me as I love you, Meggie, nothing in the world would be as important to you as being with me-anywhere,

anyhow. He broke off as though searching for words with which to make his thoughts clear to her. "It isn't that I'd want you to make even the smallest sacrifice to be with me, Meggie," he pointed out. "It's just that if you loved me the only way I could want you to-you'd willing to sacrifice anything and everything just so that we could be together. Do you understand, Meggie?

but after a few moments ne said briskly, "Well, Larry, my koy, I hope you've been able to persuada this girl of mine to be sensible." Laurence answered lightly, "I'm not sure I feel that she needs any persuasion along such lines, I've always considered Maggie a very

always considered Meggie a very sensible young woman!" Jim tried to laugh, patting his crisply barbered gray mustache lightly with his napkin. "Sensible

"Oh, I'm a very sensible young

"Oh, I'm a very sensible young man," Laurence assured him pleas-antly. "And sensible young men don't go in for a lot of romantic nonsense, nowadays." "Don't they, now?" Jim was elab-orately surprised. "Well, of course, things have changed a lot since my day! But seriously, I feel that we have a splendid offer for this place, and since you and Meggie won't be and since you and Meggie won't be able to run it yourselves, and a tenant is very unsatisfactory..."

"Megan seems to feel that it would be best for us not to be mar-ried for another year," Laurence said gently. "And therefore, she will want to run the place herself this year, at least."

this year, at least." "Another year, eh?" he said at last. "Sorry-thought you two were in love with each other and had been waiting several years for you to get a start so that you could get married!"

"As I said before, we are sensible young people, Meggie and I. Slow and sure is our motto," Laurence told him.

Jim's jaw set and he made a pre tense of eating, but after a little he looked at his watch, thrust his chair back, and asked to be excused un-der the plea of an engagement. They heard the outer door close behind him with a bang that threatened its

old-fashioned glass panel. "I'm afraid he's upset," Laurence's words were wry with un-derstatement. "He won't try to make things difficult for you?"

"Goodness, no-and if he does, it won't matter. I'm not in the least afraid of him!" She laughed at the very idea.

Laurence nodded. "But if there should ever be anything to well, to make you feel you need hatp-you'll remember my telephone number?"

he reminded her. "Of course-didn't I yell for you the minute I thought Matthews was going to insist on that commission?" In the next few weeks, life in Pleasant Grove, on the surface at least, was entirely normal.

The draft called up more and more young men for the armed services; several girls registered for the Cadet Nurses' Training Corps; Bud Harrison's oldest girl, twenty-year-old Marianna, jained the WAC; Preacher Martin, beloved and feared for his "straight taff-ing"; to evideors and the like, fell on his front steps and broke his leg; the Jordans, over behind Turkey behind Turkey Bend, had another baby.

But there were currents underneath that popped above the sur-face now and then, and to no one's very keen surprise, Alicia Steven-son seemed to have a large part in them. Her malicious tongue, her sly little smile that hinted at so much she did not say, the way she had of always being in the very middle of any untoward event, filled people with angry unease.

"It's got so a body ain't safe in their own home nights, with that woman snoopin' around," Mrs. woman shoopin around," Mrs. Stuart complained to Megan one afternoon as they sat sewing before the fire that the chill rain made very welcome. She shot Megan an oblique look and then came out frankly with imagine what your paw sees in her,

NEW YORK .- Some of Manhattan's best known tummies are shrinking in a reducing derby.

'Shrink Derby' Is

It all started when about 500 heavyweight New Yorkers banded together in a "dollar-a-pound-club." If they don't lose a pound a week, they kick in with a dollar to New York's famine emergency commit-

"The race has been running for about a month now," Anthony Drex-el Duke said, "and I have collected already about \$200."

Duke, whose blood is as blue as ink, helped organize the club after Printer Herman Jaffee, who weighed in at 289, thought up the idea.

The two have signed up such not-ed names as Newbold Morris, former president of the New York City council and one of the losers to Mayor William O'Dwyer in the last elec-tion; Col. Anthony J. Drexel, the marine expert on use of the bayo net; Mike Jacobs, the fight promoter; Joe Louis, the heavyweight champ, and Billy Conn, the challen-ger-along with such topnotch Wall street lawyers as Charles C. Mc-Veigh and John Jackson.

"We went to the president of a chain store restaurant here in New York," Jaffee said, "and we asked him to cut down his three-decker around 60,000 a day, and you can figure out how much bread that gobup.'

The restaurant man liked the idea.

Then Jaffee and Duke slipped in

"You don't need that extra dough," they said. "How about giv-ing it to the famine fund?" "All right," said the president, and he did. It'll hit a clip around \$250 a. mode \$250 a week.

"Then the club really got going," said Duke. "We got about 25 of New York's top clubs signed up. I didn't know people were so honest, Every man is on his honor, you know. They keep rolling those dollars every time I turn around."

British Might Hit

Peak in June, 1945 LONDON. — Britain's armed forces reached a peak strength in June, 1945, of 4,683,000 — approximately 10 per cent of her population — during the war in which service and civilian casualties totaled 732,627.

A government white paper published recently listed 357,-116 killed, 6,244 missing and 369,-267 wounded as final casualty fig-

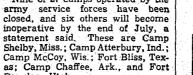

ures. Servicemen's deaths totaled 264,443, including 144,079 in the army, 69,606 in the royal air

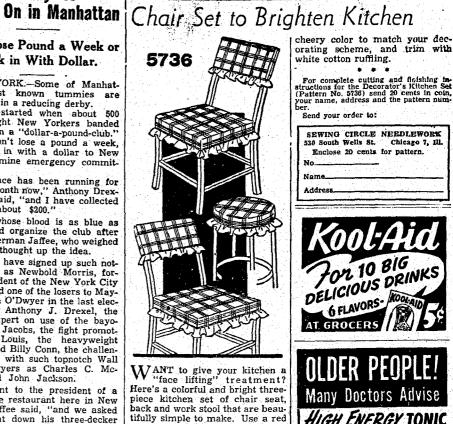

force and 50,758 in the navy. Altogether 5,896,000 served the forces during the war. Of this total 3,788,000 went into the army, 1,185,000 into the RAF and 923,000 into the navy.

Separation Centers Are

Being Reduced by Army WASHINGTON.-With more than 7,000,000 men released by the army since V-E Day, the war department

announced that more than half its separation centers have been closed or ordered to shut down. Nine of 27 camps operated by the army service forces have been closed, and six others will become

young woman? That hardly sounds as loverlike as I would have expect ed under the cirumstances!"

hole

"Then you're not in love with me, after all," he said quietly, and there was a note in his voice that caught at her heart.

She stared at him, blinking in amazement.

"What in the world-why de you-" she stammered.

"I'm not exactly a blind fool, Meg gie," he said evenly. "I admit I don't know a heck of a lot about women; but I do know that when a girl is in love, she is not only kissed -but kisses, in return."

The color burned in Megan's face but her eyes met his straightly.

"I-kissed you, Larry," she told him unsteadily. He shook his head.

"You let me kiss you, Meggie,' he returned. "There's a big differ ence

There was a silence, and then she said unevenly, "I'm-sorry, dear."

"There's nothing for you to be sorry about, Meggie. If you don't love me, you don't, and it's plain that you don't." His voice sounded tired

"I'm-very fond of you, Larry,

Megan said quietly. "Thanks, Meggie," he answered quietly. "But I'm afraid that's not quite enough."

And then, taking her breath away by the unexpectedness of it, he asked, "Is there someone else; Meggie?"

de-eyed, she met his glance. "But-how could there be some

one else? she protested. "I'm asking you," he reminded

ber.

"It's-it's a crazy question, Larry

She was still for a moment, and then reluctantly she nodded and said faintly, "Yes, darling - I under-stand."

"Then we'll leave it at that, for the present." said Laurence as he stood up and drew her to her feet. "And now Annie will be sending out a searching party for us if we don't hurry," he added, smiling, deliberately breaking the growing tension, struggling for a lighter tone. Suddenly, a mist of tears in her

eyes, Megan turned to him impul-sively, put her hands on either side of his lean, pleasant brown face and stood on tiptoe to set her mouth, cool and fresh and sweet, on his, Involuntarily his arms went about her, holding her close and hard against him. His mouth on hers was urgent, demanding, seeking a response that, after a moment, he knew with a sick certainty, was not there. And then he released her, smiled at her, his face pale and set and half under his breath he said

huskily, "Thank you, darling."

Annie was just finishing the last preparations for the midday dinner when they reached the house, and Jim came in, well-groomed and deb-onair, quite as usual, as they were ready to sit down.

He greeted Laurence with an urbanity that was almost patronizing

anyhow." Megan dropped the tablecloth she was mending and stared at Mrs.

Stuart. "My father?" she gasped incredu lously. Mrs. Stuart sniffed and set an

unusually sharp stitch in the diaper was hemming for the newest "Jordon youngun.

"Well, if you don't know that the way your paw's runnin' after that Stevenson woman is the talk of the town, it's high time you was finding out, I say," she snapped belliger-ently. "They're always ridin' ently. "Inty re always ridin" around in that car o' hers-and where she gets the gas, nobody seems to know, but folks say it'a 'black market' and she gits all she can pay fer-or what your paw can pay

Megan said curtly, "My father does not patronize 'black markets' for gasoline or anything else. And I doubt very much whether he has seen Mrs. Stevenson more than half a dozen times-

"Half a dozen times would be a-pienty, with some folks," Mrs. Stuart cut in as curtly.

Later, when Mrs. Stuart had gone Megan got up and went out to the kitchen. She thought Annie looked at her covertly, but she couldn't be sure until suddenly, as though she could no longer keep her words to herself, Annie said, "Miz' Stuart's right, Miss Meggie-folks is talkin about Mist' Jim an' dat Miz' Ste venson-

"That will do, Annie," said Me gan sharply.

Douglas, Utah.

Eighteen separation centers are still in operation with facilities to reduce the army's strength to the required figure of 1,550,000 by July 1. it was stated.

#### Enemy's Loss Greater on West Front, Records Say BERLIN.-Statistics compiled by

the armed forces division of the American Military government, with the aid of captured. German records, showed that, counting prisoners. German armed forces lost far more men to the western Allies during the war than to the Russians.

The figures compiled on the dead and wounded are incomplete, but reckoning the civilian bombing casualties there was also an indication that the western forces killed more Germans than did the Russians. According to captured files of the German bureau for notifying next of kin casualties, the army had 17 million men, including the air force, during the war.

finger over the top edge, and then washed in hot soapy suds and

Pressure Cooker Desirable

Although the time table at the top

of the column gives time for proc-essing in the hot water bath, it

should be remembered that the pressure cooker is the only method

accepted by most authorities includ-ing the department of agriculture. Why is this, you ask? First of all, there is danger of botulism in foods that are not prop-

botulism in foods that are not prop-erly processed. This particular type of poisoning comes from the soil, and when present in the food and not destroyed by processing, they produce a toxin which is a deadly poison. A pressure canner is re-garded as the only means of pro-prividing the provide pro-

viding temperatures high enough to kill the botulinus bacteria.

You may also ask why the pres-sure canner is recommended for

vegetables and not considered essen-tial (though it is desirable) for to-

matoes and fruits. The answer is that vegetables, and also meats and

fish belong to the non-acid group. In acid foods, the bacteria can be killed in a reasonably short length

of time by boiling-water bath tem-perature, but in non-acid foods, much higher temperatures, as you get in the pressure cooker, are nec-

Use of Pressure Cooker.

Prepare the raw vegetable as di-rected on the chart given at the top of this col-

Home-Canned Vegetables

Yes, that canning season has come around again. Gardens all over the country

are bursting and blooming with their bounty of peas, corn, green beans, beets, car-rots and greens. It's time to stop the being proverbial grasshop-

visions for the winter.

Well-laden shelves give a wonder ful feeling of plenty when the earth becomes bare and unproductive. You can simply go down to your canning cellar and select the vege-tables that go best with the meal. There's particular joy in this if you've raised them yourself and watched them grow by degrees, but even if you haven't done your own gardening, you'll enjoy those handpicked foods.

When we speak of canning vege-tables, we often use the word processing. This simply means that you can the food, placing it in sterile jars and apply a high enough tem-perature to kill the micro-organisms and then seal the jars so no more

can get in. If you're new at this canning business, remember these two impor-tant points: get produce as fresh as possible (this is where having a as possible (this is where having a garden of your own helps so much) and trying to observe to the letter the rule of getting the vegetables from garden to can in two hours. Rule No. 2 is to have all your equipment ready so that there will be no time lost once you start the vegetables on their work of the ince vegetables on their way to the jars.

IMPROVED UNIFORM INTERNATIONAL UNDAY SCHOOL Lesson By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago Released by Western Newspaper Union.

#### Lesson for July 21

Lesson subjects and Scripture texts se-lected and copyrighted by International Council of Religious Education: used by permission.

#### JESUS AND TRUE WORSHIP

LESSON TEXT-Deuteronomy 8:11-14, 18-20; Isaiah 40:30, 31; Mark 12:23-34. MEMORY SELECTION-God is a Spirit: and they that worship him must worship in spirit and truth,-John 4:24.

The one true God is worthy of the wholehearted worship of all men. The second commandment, which we studied last week, forbids all and every idolatry and thus requires exclusive worship of god. It really means something in the life of a man to worship God in sincerity and truth. It makes life worthwhile both here and hereaft-

I. Worship Balances Life (Deut. 8:11-14).

Prosperity is usually thought to be a blessing. We fear depression and poverty. The Lord through Moses warned his people that prosperity was dangerous. It still is, because material things have the power to so satisfy the natural desires of man as to make him for-get his spiritual needs,

Is it not true that material prosperity usually brings with it a corresponding decrease in spirituality. Life values are weighed in gold, silver, wheat and iron instead of beviewed in the light of God's Word.

Word. Worship of God will balance life for it will keep man from forget-ting God and his laws. In the wil-derness Israel had to call on God for daily bread. Now that they were to come into the promised land they would be apt to think they produced their own food Worship Protects Life (Deut. II.

8:18-20).

One of the most mischievous mis-takes of life is the idea that man is the maker of his own money. Only God can give man the power of hand and heart, of muscle and mind, which brings forth wealth, and then he can only draw it out of God's resources in mine or field of

sea. This fallacy of man leads him astray, and he begins to worship the very powers he uses and finds pleas ure in the gods of this world. That way leads only to eternal destruc-tion, to spiritual death. How is man to be delivered from

this awful destructive force? By a right relationship to God, by wor-ship of and devotion to the Lord. Israel had a covenant with God, and in the keeping of it they would find deliverance from all which would pull down and destroy--yes, and from the judgment of God (v.

20). We who are believers in Christ are under the new covenant of grace. If we have been born again we have the promise of God that we have eternal life. But let us be clear that it is possible for a Chris-tian to so forget God and his cov-enant with the Lord as to lose his fellowship and joy, and to be use-less and fruitless. III. Worship Strengthens Life

(Isa. 40:30, 31).

The Christian life is not an easy one to live. After all, who wants it easy? There is, however, full provision by God for the power needed to live a life as victorious and exultant as that of the soaring eagle. That power is for those who "wait upon the Lord" (v. 31). It is taken for granted that those

ODDS AND ENDS - Dennis O'Keefe ODDS AND ENDS — Dennis O'Keefe and 'Marguarite Chapman have been set for starring roles in "Mr. District Attor-mey," the Columbia film based on the popular radio show. ... Judy Canoca re-furns to the air August 31. ... Bette Duois has asked her fans not to send her-gifts for her birthday, but to donate the money to making up food packages for Europe's starving children. ... Peggy Ana Garner gets her first grown-up role in "Bob, Son of Buttle."... Samuel Gold-wyn is guthering a new troupe of Goldwyn Girls, to follow their appearance in "The Secret Jife of Walter Mity", with a tour of South America; Danny Kaye plans to go along. go along.

move the jars from the canner; towels; newspa pers, a large kettle for pre-cooking the vegetables, spoons, small par-ing knife, pot holders, and of course You'll see Joe Yule, Mickey Rooney's father, as "Jiggs" in "Bringing Up Father," for Mono-gram. He and George McManus, who draws the famous comic strip, the canner, preferably a pressure cooker. You may also find a fun-nel essential, and it's nice to have a teakettle with a spout so that you can pour hot water into the jars after they are filled.

er they are filled. The day before you actually de-cide to do your canning check over the above equipment list and see that everything is laid out and ready. The jars should be checked for nicks and cracks by running a

LYNN SAYS:

Make canning time run smooth ly: Have the jars ready by fig-uring as closely as possible the number you will need for the amount of fresh vegetables you use. These amounts of fresh veg etables give approximately quart of canned produce:

4 pounds of asparagus; 2½ pounds beets (whole); 2½ pounds of carrots; corn (cut from the cob), 8 ears; 6 pounds of greens; 4 quarts unshelled lima beans; pounds green beans; 2 pounds of string beans; 2½ to 3 pounds of tomatoes; 4 pounds of tomatoes (for juice).

After filling jars, always run a spatula down the sides of the jar to eliminate air bubbles.

Use large pans of water and colanders to make washing and preparing the vegetables easy for canning.

fill the jars. Allow head space of about ½ inch at the top of each

jar except in the case of corn, peas and shell beans which need 1 inch because they swell more during cooking. Also add salt if desired, about 1 teaspoon to each quart. Pour boiling water into canner to

a level of about 2 inches, or follow manufacturer's directions. Seal or partially seal the covers on the jars then place them on rack in pressure canner.

Adjust cover of canner and fasten tightly with clamps. Leave the pet-cock open until a jet of steam comes from it for 7 minutes. Check to see that no steam escapes from where else except the petcock. Then close the petcock and al-low the pressure to rise to designated temperature. Then, and only then, begin to count your process ing time, checking often to see that the temperature does not fluctuate. When processing is finished, turn off the heat and let the pressure gauge the near and let the pressure gauge come down to zero. Open petcock gradually, -remove lid away from you and set jars on several thick-nesses of cloth towels or newspapers, away from a draft.

Never taste home canned vegetables which you think may be spoiled. Your sense of smell is the best guide in telling you if the vegetables are good or not.

If you are still using the hot. water bath for processing, fellow the cooking times as directed, and always boil the vegetables in an open sauce pan for 10 minutes before tasting or using when ready to

Serve. Released by Western Newspaper Union.

who are old may become weary and faint, but the fact is that even the youth have this disappointing experience.

We, leaders in the church and parents, are apt to forget that youth is often a time of great struggle. The young man or woman must make the choices of purposes and ideals which will determine their future. Too often youth, left unguid-ed and without the balance of a real faith in God. makes the wrong choices and winds up in bitter disappointment.

Only God is sufficient for the need of our young people but he is sufficient. Let us teach our boys and girls to wait on the Lord.

IV. Worship Completes Life (Mark 12:28-34).

Here was a man, who, by the testimony of Jesus was "not far from the kingdom of God." He was very near to a full devotion to God in Christ. He knew "all the answers," but he did not follow the teaching which he knew to its proper and blessed conclusion.

It is terrifying to think how close a man can come to entering into eternal life, and yet miss it altogeth-er. It prompts the writer of these notes to ask you, the reader, very earnestly, Have you entered into eternal life through Jesus Christ? 'Almost'' will not avail; you can be almost saved-and eternally lost. The true nature of worship is re-vealed in this lesson as a loving dependence on God at all times and in all circumstances. We recognize him as the one who can supply our every need, spiritual and temporal. We accord to him quick and full obedience. We find in him such complete satisfaction that w ก่อท่ not withhold our love and his love from our fellow men. We worship

-isn't stiff or sticky! Soft-it spreads like face creat

- is actually soothing! Use right after shaving-will not irritate.

-haslight, pleasant scent. No sickly smell to cling to fingers or clothing. -will not spoil delicate fabrics.

Yet tests in the tropics-made by nurse er toss in in topica protects under try-prove that Yodora protects under try-gg conditions. In tubes ar Jan, 10a, 25c, 60a. McKesses & Robbie, Inc., Bridgeport, Cass.

MOGULOID Colloidal is a scientifically engineered product for a lasting seal of block cracks and porous castings. New to the Automotive trade, MOGULOID'S effectiveness has been proved through more than twenty years of industrial use.

HOW IT WORKS-A pure Colloidal, free from dangerous gas-forming ingredients or deteriorating substances such as flaxseed or aluminum powder, MOGULOID Solution contains minute particles of metal which enter a cracked or porous area at its maximum opening and penetrate deep into fissures and invisible pin-hole leaks. Through the Colloidal action of its base successive interlocking layers are quickly built up for a lasting bond all through the metal, not merely in the scale deposit-a bond that will stand up under any degree of heat and any amount of pressure the casting itself will withstand. One pint of MOGULOID Colloidal weighs 24 oz.
