

# Charlevoix County Herald.

## Battle of The Ballots

**STATE SCORES REPUBLICAN. BROWN TO CIRCUIT COURT. WHITEFORD MAYOR**

In one of the lightest votes ever cast in Michigan, the Republican Candidates were all elected.

For Circuit Court Judge, Charles L. Brown was elected by some 1500 votes over Robert B. Murchie, according to unofficial returns.

In the City, interest in the election was centered around that of Mayor, Vern J. Whiteford received some 421 votes in the three wards to 183 received by Henry J. Drenth.

For Alderman in the wards, in the first ward Nowland received, unofficially 54 votes to 53 for Charles H. Strehl. In the second, Griffin 106, Hayes 63. In the third, Clark 171, Dennis 148.

On the two local propositions submitted, the one to raise funds for street improvement lost by 293 No; 254 Yes. On sale of lake frontage it was carried by 348 Yes, 226 No.

**Amendment Ballot**  
Proposition No 1 — Yes, 186; No 195  
Proposition No 2 — Yes, 236; No 241

## Milk Producers to Meet at Boyne City

Several counties in northern Michigan have recently organized a county milk producers association. This has been done not only from the financial standpoint but also from the standpoint of finding a way that the farmers can work more closely with the processors in times of shortages and also during periods of surplus. In addition to these county associations, a federation of these associations for the northern part of the Lower Peninsula is being formed.

With this in mind all fluid milk producers in Charlevoix county are invited to a meeting to be held in the basement of the Library at Boyne City on Tuesday evening, April 15th at 8:00 p. m. At this time, Mr. Arthur Howland from MSC will discuss the advantages and purposes of such a dairy association. If the producers desire an association in Charlevoix county may be formed. Ed. Rebmman, Co. Agr'l Agent.

**THE WEATHER**

**East Jordan Library LIBRARY HOURS**  
Evenings — 2:00 to 5:00 o'clock  
Afternoons — 7:00 to 8:30 o'clock  
Except Tuesdays and Fridays:  
On those days we will be open in the afternoon from 12:30 to 5:00 o'clock and will NOT be open in the evening.

We received three gift books from Mrs. Dick Dicken.  
**Books for Adults**  
Thunder out of China — White and Jacoby: China 1939-45.  
Amateur boat building — Crosby: Small boats.  
Modern Farmers' Cyclopedia of Agriculture — Wilcox.  
Tackle Tinkering — Taply: Book on fishing tackle, lines, etc.  
World Almanac for 1947.  
Holdfast Gaines — Shepard: Historical novel, Colonial.  
Out on a limb — Baker: Humorous autobiography.  
**Juvenile Books**  
Golden book of Bible Stories.  
New copy of Walt Disney's Pinocchio.

## Funeral Services for Mrs. Sherman Conway This Thursday Afternoon

Funeral services for Mrs. Sherman Conway were held this Thursday at 2 o'clock in the Methodist Church. Mrs. Conway passed away Tuesday evening at her home here in East Jordan.

## Sportsmen's Club To Meet Next Wednesday

The Sportsmen's Club will meet in the basement of the City Building at 8:00 p. m., Wednesday April 16th. This meeting is open to all and all who can are urged to be present. The directors met Tuesday night and outlined a program.

## Joseph LaValley Dies Following Two-Weeks' Illness

Burial services for Joseph LaValley age 65 who passed away Wednesday morning April 2, 1947 following an illness of two years from a heart disease, were held Saturday afternoon at 1:00 o'clock from the Watson Funeral Home. Fr. Jos. Malinowski officiating. Mass at St. Joseph church at 8:00 A. M. Monday April 7, 1947.

The bearers were Ed Kamradt, Harrison Kidder, Merle Thompson, Harry Simmons, Charles Strehl and Albert Lenosky. Burial was made at Calvary Cemetery.

Mr. LaValley was born June 2, 1881, in Saginaw, Michigan. On February 1, 1910 he was united in marriage in East Jordan to Miss Anna C. Burney, who survives him. After marriage they lived in Pontiac several years coming back to East Jordan in 1932 where they have since made their home.

He was a member of the St. Joseph Catholic church.

Besides the widow he is survived by a brother William LaValley, Saginaw. Relatives from away here to attend the funeral were John Burney, Whitehall, Mich., Mr. and Mrs. David Burney and daughter Mrs. Marjorie Tidwell and Harold Burney, Berkley, Mich., Wm. Burney, Flint, Mr. and Mrs. A. Nat Burney and Clifford Burney, Detroit; and Mr. and Mr. Charles Bishaw, of Traverse City.

## Christ Lutheran Church

Services at Christ Lutheran Church, Wilson Township will, on the next two Sundays, center about the Centennial of the Missouri Synod Lutheran Church which this year observe its 100th birthday. The Rev. Norman Kuck, Pastor will deliver sermons on both Sundays which will lead up to the observance of Centennial Sunday, April 27th.

## Army Week Now On

The fact that Army Day this year followed immediately after Easter Sunday is symbolic of the act that only by maintaining our strength of arms can this country be assured of a peaceful future. Strength is the only factor recognized by aggressor nations.

Sometime during that day, each of us must have paused in commemoration of a buddy, son, brother or husband who gave his life to preserve our democracy. DON'T LET HIM DOWN, NOW.  
If you are eligible, enlist in the Regular Army, the Organized Reserves of the National Guard this Week. Remember that "A Strong America is a Peaceful America."

## AN APPRECIATION

I wish to thank the voters of the Second Ward for their election of me to the office of alderman. I will try to make you feel justified in your choice.  
Adv. 15x1 Archie Griffin

## P-L-E-A-S-E

Will those sending in changes of address, please give us the OLD address as well as the new one?

An illustration of our trouble: "I am back in East Jordan so please send my paper to Mrs. John Doe, East Jordan, Mich., R. 1."

Now we know of Mrs. Doe well enough, had changed her paper when she left, but where do we not remember.

So Please! The Publishers  
15atf

## Antrim Co. Farm Bureau Met at Central Lake

The regular monthly meeting of the Antrim County Farm Bureau Board of Directors was held at Central Lake, April 3rd. The secretary now reported 424 members in Antrim County. Mr. Ken Sage of Traverse Bay Telephone Company presented the telephone situation as it is at present and told about the plan he has in mind to rebuild the system. The board voted to support his program.

A committee was appointed by the chairman to meet with the Elk Rapids Village Council to discuss the situation in regard to the railroad spur to Elk Rapids. A resolution was drawn up to be presented to the supervisors of Antrim County. The Farm Bureau Board of Directors go on record as requesting an equalization of assessed valuation of resort properties, also an increase in resort valuation 15 per cent above farm valuation and an increase of 10 per cent above farm valuation for sportsmen's holdings where posted. The Agricultural Dept. will be requested to increase Antrim County's rating which is now four. Ray Lyons gave a report on the dairy meeting to form an organization.  
Robert Hubbell, Secretary.

## Farm Topics

**GARDENS AND WEEDS**  
With the time for home gardens not far off, the ever-present problem of weeds also appears. New weed control measures have been developed, but there are a few rules that should be followed.  
B. H. Grigsby, specialist in botany at MSC, warns gardeners not to try to weed their gardens with the new weed-killed, 2,4-D. It's proved very effective in ridding lawns of broad leaf weed pests, plantain, and dandelions. But 2,4-D won't settle garden weeding problems.

Home garden vegetables such as tomatoes, peas, and beans, are very sensitive to 2,4-D. If you're killing weeds in lawns or along roadsides with 2,4-D, and a little of the spray drifts onto your vegetable plants, you may say "good-bye" to your promising garden plants.

Spraying equipment that has been used with 2,4-D to kill weeds in the lawn should not be used for other types of sprays—unless, of course, spray equipment is first thoroughly cleaned with warm ammonia water. Two teaspoons of household ammonia to a gallon of warm water makes a good solution to clean the equipment after 2,4-D has been used in it.

Some garden weeds can be killed by chemical control measures. Weeds in beets, for instance, can be killed with salt solutions made with 2 pounds of salt per gallon of water. If you want to be really sure that the weeds in your garden don't bother the vegetable plants, hoeing, pulling and other tillage operations are always effective.

**ARTIFICIAL BREEDING:**  
Members of the Michigan Artificial Breeders Cooperative, meeting recently in East Lansing, learned that the organization had a 92 per cent increase in membership and serviced 86 per cent more dairy during 1946 than in 1945.  
A. C. Baltzer, extension dairy

## WITH THE ANTRIM COUNTY AGR'L AGENT

W. Kirkpatrick, Extension Agent  
**CAPACITY CROWD ATTENDS 4-H ACHIEVEMENT PROGRAM**

A capacity crowd attended the annual 4-H Spring Achievement Day which was held at the Community Hall at Bellaire on Thursday, April 3. Several Department of Conservation films were shown starting at ten o'clock in the morning instead of the regularly scheduled movie which was delayed in transit and did not arrive until in the afternoon.

The afternoon program started promptly at one o'clock with the Address of Welcome by Reverend Louis Ellinger of Bellaire, Alma Powell of Ellsworth gave the Response.

The Dress Revue followed with Mrs. Henry Ruis of Ellsworth narrating and Miss Barbara Homan of Mancelona accompanying on the piano.

## "Girls Night" at the Legion Hall

"Girls Night," to be sponsored by the American Legion Auxiliary, will be held Friday night, April 11th between 7:00 until 10:00, at the Legion Hall.

There will be no charge for this evening of entertainment and refreshments for the girls between the ages of ten and sixteen. So girls plan on Friday night at the Legion Hall for an evening of fun.

## AN APPRECIATION

I wish to express my appreciation to friends and neighbors for their many acts of kindness during the illness and death of my husband Joseph LaValley. I also wish to thank the city employes who worked to open the drive in the cemetery.  
15x1 Mrs. Joseph LaValley

## KLONDIKE KATE'S STRANGE LOVE IDYL

Meet the fabulous queen of the Yukon. Read about her mail order marriage, one of the strangest, most intriguing, most unusual love stories of our times. Read of Klondike Kate's amazing love idyl, one of many absorbing features in The American Weekly with this Sunday's (April 13) issue of The Detroit Sunday Times.

## STORE EGGS CORRECTLY

Success in cooking with eggs depends a lot on the temperature at which the eggs are stored. Specialists in home economics at MSC suggest that you check on your egg storage. Here are the temperatures that they recommend:  
1. For separating raw eggs into white and yolks—50 to 60 degrees F. If eggs are colder than this, the white clings to both shell and yolk and separation is difficult. On the other hand, when an egg warms up to 75 degrees, the yolk flattens out and is likely to break in separating. By removing eggs from the refrigerator about half an hour before separating, the temperature is just about right.

2. For whipping egg whites—keep the eggs at room temperature. They'll whip more quickly and whip to a greater volume.  
3. For using as baking ingredients—eggs should be at room temperature—about 70 degrees F.  
4. For separating hard cooked eggs from the shell, cool the eggs as soon as they are cooked. Running water is the best method of cooling.  
5. When using yolk for mayonnaise dressing—keep them cold. Eggs right out of the refrigerator will make a smooth emulsion with the oil.  
6. If you're going to cook eggs in hot water, have them at room temperature before putting them in the hot water. The shells do not break so easily then. A better cooking method is to put the eggs in cold water and bring the eggs and water to simmering temperature together.  
Ed. Rebmman, County Agr'l Agt.

## Cub Scout Organization Meet This Friday Night at E.J.H.S. Band Room

A Cub Scout Organization meeting, sponsored by the P. T. A., will be held this Friday, Apr. 11, at 7:15 p. m. in the band room of the East Jordan High School.

Boys in the 9-10-11 year age group and their parents are invited to attend. Roy Willard, Boy Scout Field Director of this district will be present and show motion pictures on Cubbing. He will then discuss this project with those present.

## X-Ray Clinic Next Thursday

An X-ray clinic, sponsored by the Michigan Tuberculosis Association, will be held Thursday morning, 9 to 12 o'clock, April 17th, in the High School Gymnasium, East Jordan. There will be no charge. For information call or write the District Health Dept. in Charlevoix, telephone 421.

## Daughter of Mr. and Mrs. Lawrence Schumacher Laid To Rest

The home of Mr. and Mrs. Lawrence Schumacher was saddened Wednesday April 2 at 1:15 p. m. when their little nine month old daughter Sunny Jean passed away after only a few hours illness from a flu infection.

She was born at Charlevoix hospital on June 29, 1946. She is survived by her parents, Mr. and Mrs. Lawrence Schumacher and a brother Larry Jay at home.

Funeral services were held at the Watson Funeral Home Saturday April 5 at 3:00 o'clock. Rev. Kuck of Boyne City officiating. Interment at Sunset Hill.

Relatives and friends here from away to attend the funeral were a great grand father B. E. Basney, Detroit; grand mother and grand father Mr. and Mrs. Geo. Simons, Center Line; great aunts and uncles Mrs. Leo Jean, Miss Wanda Basney, Floyd Basney, Joseph Basney and Milton Basney, Detroit; Mr. and Mrs. Frank Lawrence, Mr. and Mrs. Ewald Redemer and children, Hazel Park; Mr. and Mrs. Darrel Simons, Royal Oak; Miss Medlyn Simons, Miss Elizabeth McAllister and Miss Dora McAllister of Center Line.

## Zanzibar Leads in Cloves

Zanzibar supplied nearly four-fifths of the world's demands for cloves in a recent year.

## Sailed by Stars

Sailing by the stars was an art known to most ancient sea peoples. It was supplemented by observation of the flight of birds. Noah's dove, which brought him news of the receding of the great flood, had its counterpart in later centuries. For example, the saga of Floki the Viking, who set forth from the Shetland islands for Iceland, a truly terrifying journey into totally unknown waters, recounts: "Floki, son of Vilgerd, instituted a great sacrifice and consecrated three ravens which would show him the way; for at the time no man sailing the seas had lodestones up in the northern lands." A lodestone is a piece of magnetite, a kind of iron ore which has been magnetized by nature. A needle made of this metal, when balanced at the center, will swing so that it points north-south. It is pulled into this position by the magnetism of the earth.

## Better Philippine Standards

While under the United States flag, the Philippine Islands occupied a unique position in this country's trade with the far east. The Philippines had their own tariffs against imports from other countries, but enjoyed free trade with the United States. Consequently, these islands carried on a larger trade with the United States than did many countries with larger populations. In the late 1930s, the Philippine Islands came to be the seventh best customer of the United States. As trade with the United States became increasingly important over the years production in the Philippine Islands increased and the standard of living rose. This trade, however, resulted in a concentration by the Philippines upon a few export industries.

## Fisherman's Paradise

The many rivers, lakes and streams of southern Chile are stocked with rainbow, brown and brook trout. The trout, having thrived in the mountain lakes and crystal clear streams fed by melting Andean snows, are so huge and plentiful that fishermen hooking fish less than 15 inches in length usually toss them back. A fair day's catch after returning the "Chicos" will be anywhere from 15 to 50 fish, ranging in size from 15 to 30 inches. Rainbow trout weighing as much as 44 pounds are a matter of record. The climate is temperate and there are practically no mosquitoes, gnats or black flies. The season runs six months.  
15x1 Edna Mae Clark

## Spring Concert Next Wednesday

**GIRLS GLEE CLUB TO PRESENT FORMAL SPRING CONCERT NEXT WED. EVENING**

The Girls Glee Club of the East Jordan High School will present a Formal Spring Concert on Wednesday evening, April 16th at 8:15 in the High School Gymnasium. The program will consist of selections from Strauss, Victor Herbert, Malotte, Hahn, MacDowell, McKinney, Jacob, with solo, duet, quartet and chorus arrangements.

The program is directed by Mrs. Alta Drapeau assisted by Mrs. Howard Moore accompanist, and Mrs. Lottie Clyde.

The public is cordially invited to come and hear this program.

## Wilson Farmer Cooperative Union Meet

The Wilson Farmer Educational and Cooperative Union of America met at the Wilson grange hall Thursday evening April 2. There was a large attendance present, some were there from two other locals besides county members, there was a good business meeting followed by a pot luck supper and visiting session.

We hope next meeting to have an even larger crowd. All farmers are invited to attend all meetings are open meetings, all farmers invited to join if they so desire. The more that join the stronger the union gets the more they can help the farmer. Next meeting Wilson Local will be at the Wilson grange hall, May 7th.  
Lonie Adkins

## That Housing Shortage

The housing shortage is no new problem for song birds. They face it every spring and householders furnishing the finest accommodations first are most likely to attract the cheery summer guests.

Conservation department ornithologists say April is the month to get bird houses up. The shelters can be quickly, simply and cheaply made. And the maker is rewarded with the birds' songs and antics with definite help battling insect garden pests.

Some elementary facts bird house builders may keep in mind are: Robins prefer roofed platforms without sides. Houses for wrens should have an entrance hole no larger than a 25-cent piece. Ventilation should be considered. Roofs should be substantial, may even be insulated to ward off excess heat. Houses built of slabs with the bark still on them look artistic, but an old straw hat tacked to a wall may serve as well.  
Best locations set nearby shrubbery where the male can perch and sing. And care should be taken that the fledglings are not easy prey for housecats.

## American Red Cross Fund Campaign Completed

"The 1947 Red Cross Fund Campaign has been completed," Rev. W. B. Wood, campaign chairman, announced today.

Charlevoix county with a quota of \$5000.00 succeeded in contributing \$6724.21. There are one or two out lying districts from which reports have not been received to date.

Following are the latest tabulations:

Charlevoix	\$2301.79
Boyer City	1543.43
Boyer Falls	103.00
Wallowan	286.50
Rural Area	276.50
East Jordan	2232.99
Total	\$6724.21

## Notice of Annual Meeting

**TO STOCKHOLDERS OF EAST JORDAN COOPERATIVE COMPANY**

You are hereby notified that the annual meeting of the East Jordan cooperative Company is called at the warehouse in East Jordan, MONDAY APRIL 14th, 1947, at 8:00 p. m., with adjournment to the High School Auditorium for purpose of submitting the report of last year's business; electing three directors for a term of three years each, to elect one delegate to attend the annual meeting of Michigan Potato Growers Exchange; to elect one delegate to attend the annual meeting of Farm Bureau Services, Inc.; and to transact any other lawful business. Refreshments served after the meeting.  
East Jordan Cooperative Company  
Chas. Shepard, Secretary.

## AN APPRECIATION

I wish to express my appreciation for the flowers, cards and many other acts of thoughtfulness by neighbors and other friends, during my stay at the hospital.  
15x1 Edna Mae Clark

## W.L.S. Melodeers Here April 19th

A big night is being planned for April 19th commencing at 8:30 p. m. when the Senior class will present the W.L.S. MELODEERS under the direction of Bill Carson. Many of you will remember this group from last year and want to get your ticket immediately.

The likeable music of Bill Carson's Melodeers is suitable for young and old, and a good time is guaranteed to all attending. You'll especially like Art Gunton, prominent singing caller, and Lee McCann, vocalist with the band.  
Don't forget to reserve this night

to come to the Gym and have the time of your life. The admission for this dance is only \$1.00 (tax included). Remember the date — April 19th. The time — 8:30 to 12 p. m. The Place — H. S. Gym. The entertainers — Bill Carson's Melodeers Presented by W.L.S.

Attention all Masons! Special Communication of East Jordan Lodge No. 379, F. & A. M., Saturday, April 12. Alpha lodge will put on the M. M. degree in its entirety. Work to commence at 4:30 p. m. Supper promptly at 6:30 p. m. served by the Eastern Stars. Second section of degree will be conferred after supper.

Discolored Paper

# NEWS BEHIND THE NEWS

By PAUL MALLON

Released by Western Newspaper Union.

## PEOPLE'S INTEREST TURNS TO RELIGION, PHILOSOPHY

WASHINGTON.—Three or four of us were sitting around chewing the fat, and an ex-marine said right to my face he wondered if people were really interested in reading columns any more. He said the old Washington chit-chat about who was fighting whom, or prophesying dire things which never happen—well that sort of stuff did not seem to be wanted by so many people in these perilous times. I failed to blush, but put on my best puzzled expression. He went on to say he had dropped past a bookshop, and had found the window filled with literature about mental health and happiness, and how to get along in the kind of world we live in—get along pleasantly as we can by our inspirations and thoughts, religions, ideals. Philosophy was what the people wanted, he said, good, simple every day reasoning on the plain philosophy of life. They all looked at me.

My philosophy is to keep quiet about such matters and profit in my own thoughts by what others say, but they were in earnest and troubled about questions such as whether there will be another war, whether the unions have captured the Republicans, or vice versa, and where is it all going anyway, so I suggested we get together to see if we could agree on a recipe for the troubled ex-serviceman. We started with questions and answers.

### HOW ABOUT WAR?

Q.—Will there be another war?  
A.—Wars arise from the desires of men. Within each man normally there is a desire to get ahead, to excel and conquer. Now man has not been able to civilize these desires within himself to an extent where he can live in peace at home. How can he do on an international scale what he cannot do on a national, state or local scale? We agreed wars always have arisen, the last few from weak nations but many from strong nations, and it would be impossible to prevent wars by simply making strong nations weak or weak nations strong. We agreed that, yes, there always will be wars.

Q.—Is education essential to happiness for man?

A.—The questioner was nearly shouted down. Of course not. The happiest people most frequently are the least educated people. One fellow said he never had seen a discontented cow. But we also agreed that education enables man to attain higher appreciations of life, to enjoy more things.

Q.—What is the best religion?

A.—This stumped us for a while. We finally agreed that it was whatever religion you believed in. If you were born in it, you would very likely seek in its realm for your inspirations and spiritual solace. But one of our group held out against a unanimous decision without reservations (in a way like the Supreme court, which writes three concurring opinions). He said he believed in the religion of nature.

### GOD AND THE UNIVERSE

Q.—What in the world is the religion of nature?

A.—The theory of God as manifested through Christ and the scriptures, but not necessarily by any particular church. It is the theory that God created the universe in which there exists the spirits of both good and evil. Nature itself is a struggle for survival, a struggle for existence in a well balanced conflict. It is a test, you might say. Its elements are both good and evil. In man himself there are both good and evil inclinations. Thus nowhere in this world is there perfection, only a conflict of these simplest forces in which every man must be tested.

Q.—But is this a religion or simply an observable philosophy?

A.—It is the foundation of all religion, except anti-religions like atheism which teaches that man is god. Therefore all religions are philosophically good and teach a sound philosophy of life urging man to improve himself. We all agreed man must believe in something or he will lack inspiration totally. If he believes man himself is god, or in a religion of self alone, he will lack any greater inspiration than himself that would only answer the yearnings of ego, which is a dangerous thing, whereas religion answers the yearning of man for a greater inspiration.

### RUSSIA HAS COLLECTED

The American news dispatches from the Moscow conference said our delegation was "embarrassed" and "the Americans shifted uneasily in their seats" when Molotov pulled from the secret files of the past, the Yalta agreement, promising Russia half of 20 billion dollars reparations from Germany. There was no valid reason for any reasonable person to be embarrassed. The truth is Russia probably has taken more than her allotted half already.

## WEEKLY NEWS ANALYSIS

# FBI Chief Warns of Communist Burrowing Against Government; Congress Acts to Aid Refugees

Released by Western Newspaper Union.  
(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Her husband among more than 100 miners lost in an underground explosion at Wamac, Ill., Mrs. Stanley Teckus is consoled by solicitous friends after long vigil at mine shaft. Miners' wives kept chins up during long hours of waiting for word from rescue crews.

## DISASTER:

### Pass Buck

Charges and counter-charges flew thick and fast in the wake of the disastrous mine explosion at Wamac, Ill., which claimed the lives of over 100 coal miners.

As repeated warnings of state and federal inspectors about hazardous conditions in the mine were bared, Gov. Dwight H. Green's state administration was accused of laxity in enforcing safety regulations and the federal mines administration, as technical operator, was rapped for failing to correct safety violations.

Administrative inefficiencies promised to provide John L. Lewis with additional ammunition for his demands for federal supervision of safety regulations in the mines when he resumes bargaining with operators for a new contract.

Meanwhile, federal, state and local officials mapped three investigations to take off some of the heat. The federal inquiry was scheduled to follow senate passage of a resolution introduced by Senator Brooks (Rep., Ill.).

## REDS:

### Threat to America

More so perhaps than before, eternal vigilance is the price of freedom, FBI Director J. Edgar Hoover warned the nation in describing the Communist threat to the American form of government.

Addressing the house un-American activities committee, Hoover declared that the Reds in this country constitute a small but closely knit group seeking to overthrow our democracy and substitute an iron-clad dictatorship denying the principles of religious worship, political freedom and economic opportunity. He pointed out that only 25,000 Reds worked the Russian revolution in 1917 and there is a larger proportion of Communists at present in the U. S.

Hoover called for relentless prosecution of the Reds found violating the laws of this country. Putting

J. EDGAR HOOVER  
Reds Await the Revolution

Americans on their guard, he said the Reds were unceasing in their efforts to subvert labor unions; spread Communist doctrines in the schools, and prey upon foreign language groups.

Besides infiltrating established radio channels, they also are trying to set up outlets of their own. Under direction of party leaders, they are prolific letter writers and expert at organizing pressure campaigns for some cause favorable to leftism.

Since 1935, they have been especially active in the movie industry, Hoover said. In addition to trying to take over Hollywood unions, they have sought to get a foothold in the writing and productive ends of the

## BUILDING:

Builders completed 59,300 new permanent dwellings in January, 1947—more than three times as many as were completed in January of last year, according to estimates of the department of labor.

These figures do not include such structures as converted dwellings, trailers and temporary re-use accommodations, regularly included by the national housing agency in its reports on the progress of the veterans' emergency housing program.

business with a view toward influencing the thoughts of millions of theater-goers.

## U. N.:

### Celebrate With Veto

Andreï A. Gromyko, Russian delegate to the United Nations security council, celebrated the first anniversary of the U. N. with a veto—the 10th the Reds have employed since the international organization came into being to block action against themselves or Soviet-sponsored puppets.

With the Polish delegate siding with him, per custom, Gromyko wielded the veto on a resolution that would have charged Albania, a Soviet satellite, with part guilt for the sinking of a British vessel by a mine in Corfu channel last fall. Effect of the charge would have increased Albania's liability for damages being sought by the British for the mishap.

As it was, the U. S., France, China, Australia, Brazil, Colombia and Belgium, which voted for the resolution, watered down the original British charge that Albania was guilty of either laying the mine or conniving in planting it. Instead, they accused Albania of possessing knowledge of the presence of the mine and failure to clear the channel.

## REFUGEES:

### U. S. Aid

Having already generously provided relief and financial assistance to war-stricken areas abroad, congress moved to help the 1,037,000 displaced persons and refugees in Europe by joining the United Nations International Refugee organization.

Under the proposal first approved by the senate and then sent to the house, the U. S. would furnish 75 million dollars the first year, representing 45 per cent of the total operational costs.

Before agreeing to passage of the measure, the senate insisted on insertion of an amendment which would protect U. S. control of its immigration policies. Senator Revercomb (Rep., W. Va.) asserted that the Roosevelt and Truman administrations have permitted the entrance of 750,000 aliens on temporary visas, and Senator Hawkes (Rep., N. J.) charged 2,000,000 aliens have entered the country illegally within the last few years.

## SHIPPING:

### U. S. Future

The U. S. should develop a clear-cut maritime policy now to assure continued mastery of the American merchant marine, Pres. Harry Lundeberg of the AFL Seafarers International union, declared at its third biennial convention in Chicago.

Declaring that the U. S. merchant marine has dwindled to 30 million tons from its wartime peak of 50 million, Lundeberg attributed the decline to transfers of American ships to Panamanian registry, sales to foreign governments and removal of vessels from service. If necessary, the union is prepared to boycott ships transferred to Panamanian registry for operation under lower wage and working standards, he said.

Lundeberg also assailed continued British and Russian use of American ships obtained under lend-lease. Built with U. S. money and employing cheap foreign labor, these ships are directly competing with American vessels, he declared.

## Behind the Iron Curtain

In an effort to boost lagging farm production throughout the Russian zone of Germany, Marshal Sokolovsky has ordered drastic changes. First of these will be a general pardon for farmers sentenced to prison for failure to fulfill their abnormally high production quotas. Direct assistance will be given in the form of supplies. One hundred and twenty thousand tons of nitrate fertilizer, three times the amount used last year, will be distributed, as will 50,000 tons of phosphate.

## ATOM CONTROL:

### New Plan

As congressional conservatives continued their fight against appointment of David E. Lilienthal as chairman of the national atomic energy commission, bills were introduced for the creation of a new board to be headed by Secretary of State Marshall.

Under the plan introduced in the senate by Senator Malone (Rep., Nev.) and five colleagues and in the house by Representative Jenkins (Rep., O.), other members of the new board would include the secretaries of war and navy and two persons named by President Truman.

Conservatives seized upon the critical international situation to attempt to sidetrack Lilienthal, former TVA chairman who has been accused of countenancing the presence of Communists in the power agency. In proposing establishment of the new board to govern all phases of domestic atomic production, Republicans, joined by southern Democrats, declared that the Greek-Turkish crisis indicated the need for close political and military control over nuclear energy for national security.

## GOP:

### New Tax Plan

Heeding the demands of some Republican congressmen for more substantial tax cuts for the lower income groups, the house passed a modified version of the Knutson proposal for a straight 20 per cent reduction.

Under the new bill, present rates would be cut 30 per cent on taxable income up to \$1,000; from 30 to 20 per cent on income between \$1,001 and \$1,395; 20 per cent on income up to \$302,396, and 10 per cent on all earnings above the latter figure. Over 24 million persons in the lower brackets would benefit from the increased reduction.

Speaker Martin threw his full support behind the new modified measure. Said he: "These tax cuts are entirely practicable while at the same time payments are made on the national debt. . . . People in the lower income brackets must have relief from crushing taxation and unbearably high prices. . . . Venture capital must have a chance for a reasonable return as an incentive to invest in order to make more jobs at good wages, increase production, improve quality and bring down prices for all. . . ."

## Business on Big Scale

The year 1946 proved a banner year for big business, with heavy demand, increasing supplies of materials and settled periods of production after earlier labor disputes resulting in peak operations.

SEARS ROEBUCK: Continuing its progressive advance under Chairman Robert E. Wood, the big mail order and retail organization enjoyed sales of \$1,612,596,050 and profits of \$100,098,516. Sales were almost 60 per cent greater than in 1945. More than \$225,000,000 was returned to catalogue customers, but with the increasing supply of goods most orders should be filled this year.

U. S. STEEL: The giant of the industry, U. S. Steel corporation showed sales topping \$1,400,000,000 and profits \$68,622,475. Because of rising costs of labor, material and equipment, profit was reduced to 6 per cent of the sales dollar, leaving a smaller percentage than ordinary for reinvestment, corporation officials declared.

CONSOLIDATION COAL: Reporting sales of \$145,438,658, Pittsburgh Consolidation Coal company showed profits of \$5,694,692. As a result of the use of new and better tools and the increasing skill of the workers, miners produced more coal per day in 1946 than in the preceding year.

## MOSCOW:

### Future Reich

At odds on most phases of post-war politics, the U. S. and Russia came to grips again in Moscow on the future pattern of the German government.

Boiled down, the differences amounted to U. S. proposals for a system of strong state governments working through an adequate central authority and Russian recommendations for a strong central government with the states subordinate.

The U. S. proposals advanced by Secretary of State Marshall are designed to give the German people a closer check on their government through the state level and diminish the possibility of a strong central authority like the Nazi regime assuming full, controlling power. In this respect, the U. S. plans embodied American principles of states rights and state representation in congress through the senate.

## MINERALS:

The enormous drain on United States ore sources during the war period has left the country short of 22 of the 33 essential materials for waging war, experts warn. Seven of the 22 scarce minerals can be supplied in part by Canada and Mexico.

Among seven minerals that must be imported, if we are to have adequate stock-piles, are copper, mercury, cadmium, bauxite, quartz crystals, flourspar and flake graphite.

# Washington Digest

## Marked Historical Import Attached to Aid Program

By BAUKHAGE  
News Analyst and Commentator.

WNU Service, 1616 Eye Street, N. W., Washington, D. C.

WASHINGTON.—One of the hardest things to recognize is history in the making. We often live through moments of catastrophic and cataclysmic significance, yet while the vital seconds are ticking off, our only immediate impression is the limited effect on ourselves or on our close surroundings.

We have all lived through a period which has been filled with some highly significant events, beginning—say—

with the outbreak of World War I. We celebrated the Armistice on November 11, 1918; we watched the progress of the peace conference, and then came the train of international events which culminated in V-E and V-J Days and the founding of the United Nations.

All this was background for another event which took place as the idea of March, 1947, approached. I refer to the enunciation of a new American foreign policy—which may prove to have far greater historical significance than any of the other happenings I mentioned.

As one observer put it: "If the President's message (urging aid for Greece and Turkey) is implemented to the full of its implications, it may be another Monroe Doctrine overshadowing a pax Americana with a hundred years peace—such as the pax Britannica provided—or, it may be a declaration of World War III."

Either eventuality would make it the most important event in modern history. If it should establish a hundred years of peace, it could easily foreshadow permanent peace. If, on the other hand, it signalled another World War, it would mean the twilight, if not the sunset, of civilization.

President Truman and his advisors felt the policy must be enunciated. And far-seeing people realized that America must shoulder the major responsibilities that Britain had carried so long as the most powerful of the English-speaking family of nations, and which she no longer is able to carry.

True, we have started to create an organization—the United Nations—which is supposed to make it impossible for any single nation or group of nations to disturb the peace. But to carry out its job, the United Nations must have an international police force. Until the United Nations has the force to back up the will of the majority, that single nation which can muster such power will decide the course of the world.

We have that power. Potentially, so has Russia.

The proposed American foreign policy has behind it only one idea. That is to keep the power for peace in the hands of what we call democracy.

There has been doubt expressed by some as to whether the program outlined by the administration would serve this objective. The majority of leaders in both parties however seem to be convinced that there is no better method presently at hand; that if we are to maintain our democratic way of life until the United Nations has become an effective organization, we have no other course to pursue. If we take no action, we simply turn the world over to Russia. That would mean war eventually. Implementing the Truman policy may avoid it.

I heartily believe in the United Nations, and I feel positive that if a major conflict can be put off long enough, the United Nations eventually can be made strong enough to outlaw aggressive warfare effectively.

Pledging our wealth and sinew to protect Communist-threatened countries seems our only hope.

## Many Back Saving Of Primitive Areas

Now facing Uncle Sam's Chief Forester Lyle F. Watts is a question almost as hotly disputed as German reparations at the Moscow conference. As guardian of the nation's great national forest wilderness areas, he has to give a yes or no answer fairly soon.

Watts' headache concerns the San Geronio primitive area in Southern California's San Bernardino National forest—one of America's few remaining remnants of honest-to-goodness wilderness which conservationists hope to preserve for future generations.

For several years, the skiers who like to ride up-hill so they can get the most out of their down-hill sport have fixed their sun goggles on the fine snow slopes deep within this primitive area. Not all skiers, mind you—some like San Geronio as is—the deep, cool woods, a large green meadow, Dollar and Dry

lakes, icy streams, a challenging vista of Mt. San Geronio and the lofty summit of the peak itself—and they like to ski there. But others prefer a touch of civilization—ski-tows, a highway into the place, a hotel-resort near by. So the California Ski association, with help from the National Ski association and the California State Chamber of Commerce, sponsored a proposal to build the highway and accommodations for a big ski resort. It looked as if San Geronio would be about as primitive as television and cooking with electronics.

But the Forest Service was keeping an open mind. After all, it might be better to devote San Geronio to more primitive skiing. So last December the service announced a 90-day intention of changing the area's classification as "primitive." This cleared the way for going ahead with the skiing developments. The Forest Service principle is "the greatest good for the greatest number in the long run," and most of those who knew about the issue concluded that, based on such a thesis, this bit of the primitive was gone with the mustache cup and the Model T.

The service called a public hearing in San Bernardino which turned, somewhat to their surprise, into what Variety calls a "boff" performance. So many people showed up that the civic auditorium had to be engaged for two days instead of one—and, as in congress, the sessions lapped over until evening. Supporting the skiers' proposal were the California State Chamber of Commerce, the California Ski association and 18 ski clubs. That was about as expected.

It was the determined opposition that raised eyebrows. The opposition included the skiers who like their sport in the raw, along with church group representatives with summer camps at the edge of the primitive area; spokesmen for water companies who wanted the area kept in wilderness so as to conserve its watershed values for orange growers down the valley. In between were the hikers, the sportsmen, women's clubs, nature lovers, natural science groups (the area has six forms of plant life that grow nowhere else) and civic clubs.

Then there were the letters pouring in from all parts of the country—so many that the Forest Service both in its California office and in Washington had to resort to the mimeograph machines to answer them. The letters voted overwhelmingly against civilizing the area via ski-tows and hotels. Now it's up to Watts.

"We think now that the primitive area will surely be preserved," says Howard Zahner, editor of the magazine, "The Living Wilderness," "and with a victory in this issue we shall certainly be all the better able to muster support for the Forest Service in guarding other threatened areas in our national wilderness system. But we have no quarrel with skiing. We want to see it develop further. We hope that San Geronio will become even more attractive for wilderness skiing than it is."

Leaping in front of railroad trains was the favorite form of suicide in Japan last year. What, no hari-kiri?

## Aids Seal Sale

Mrs. Dwight D. Eisenhower smiles at 3-year-old Betsy Harris's proficiency in walking. Betsy has been practicing at the crippled children's training center in her community—a center maintained by the National Society for Crippled Children and Adults through the annual Easter seal sale. The little girl is one of 336,040 children in this country between 5 and 19 years of age who are so handicapped as to need special education. Someday Betsy expects to walk without mechanical aids.

evening. A son of M. Frazer won the comic prize.

John Boosinger, who withdrew from the partnership with his brother Fred a year ago, has regained his health and has re-entered the partnership.

Job Jackson has been appointed keeper of the Poor Farm.

Ivan Hathaway, aged 16, died at Alden and the remains were brought here Friday for burial.

**February 23, 1917**  
(This issue drew a blanket for news of interest in 1947.)

**February 25, 1927**  
"Instead of forming a Rotary Club that was talked of during the fall, a number of business men, expecting to join the dinner Club, in discussing the matter quite thoroughly just before sending in the final organization papers decided it was not the type of organization needed in East Jordan.

These same men, after paying in their ten dollars decided to get as many business men together as possible to discuss the proposition of organizing a Business Mens' Club to meet every two weeks.

Fifty-two men put in an appearance last Friday evening and after partaking of a big chicken dinner, proceeded to organize a Club to be made up of any men who have East Jordan's interests at heart.

As organized the other evening, a man pays \$2.00 in advance which simply takes care of two good meals and leaves a little profit in the treasury for the organization. All the details have not been worked out as yet but will be made known in a few days. Its objects are the promotion of East Jordan's interests, industrially and socially. Officers elected are H. P. Porter, president; Roscoe Mackey, vice president; Walter Cornell, secretary; G. W. Bechtold, treasurer.

Horace B. Hipp, aged 70, resident of this region since 1876, died at his home February 20th.

Henry Nowland, aged 82, pioneer resident of Charlevoix Co., died at the home of his daughter, Mrs. Earl Clark February 22nd. He came to this region in 1868.

## "Stolen" Air Saves Tire Change

Latest entry in the "what-won't-they-think-of-next" sweepstakes is the handy gadget illustrated here, euphemistically known as "Spare-Aire," a Chevrolet accessory. Designed to "steal" air from the spare tire to inflate a punctured or slowly leaking flat, this accessory eliminates tire-changing when within reasonable distance of a service station. Since approximately 90 per cent of all flat tires have leaks so slow that an emergency inflation will suffice, the new inflator will eliminate most roadside tire changes. It will pipe half the air from the spare, and a few pounds from each of the other tires, if necessary. Women drivers, especially, will appreciate this new convenience.

### NOTICE OF MORTGAGE FORECLOSURE

Default having been made in the terms and conditions of a certain First Real Estate Mortgage bearing date the 5th day of January, 1934, given by William Slough and Clara L. Slough, husband and wife as Mortgagors to Rose Slough as Mortgagee which said mortgage was recorded on February 13th, 1936 in liber 71 of mortgages on page 52, in the office of the Register of Deeds for Charlevoix County, and, is a first lien on the East one-half of the Southwest quarter of Section seven, Township thirty-two North, Range Seven West, South Arm Township, Charlevoix County, Michigan, and,

No payment having been made on either interest or principal on said mortgage from the date thereof to the present leaving, as of this date, an unpaid balance of One Thousand One Hundred Three Dollars and five cents (\$1103.05) which is the total of \$500 due on principal, \$455 accrued interest to the date hereof, and \$158.05 taxes and accrued interest thereon paid by the mortgagors,

NOTICE IS HEREBY GIVEN that said mortgaged premises will be sold at public sale to the highest bidder on Monday, the 28th day of April, 1947, at the Northwest door of the Court House in the City of Charlevoix, Michigan at ten o'clock in the forenoon on said day.

## For Sale

STORE BUILDING in East Jordan. This is 100 feet deep with full basement with cemented floor, steam heat. A brick building with extra lot adjoining. All for only \$6500 cash.

80 acres near town. House, two barns, good hen house. Lots of fruit. This must be sold. Priced for quick sale. About half plowland. Few rods from pavement.

80 acres north of town near pavement. A-1 modern house with lights, bath and new furnace. Good large barn, tool shed, two hen houses, double garage, work shop. Water in all buildings. Orchard, small woods, trout stream in pasture. Here is one of my best at \$6500. Stock and tools possible at a little extra.

80 acres just south of town. About all plowland on school bus road. Good house, barn, garage, granary, new hen house and new roofs on all. Here is a good farm for \$5200.

160 acres south of town near M-32. 40 acres cleared with large house, small barn, orchard. 120 acres woods with two trout streams, 100 acres extra good trees here. \$3500.

80 acres on M-66 about half, dark, rich plowland. Good house, old barn and pigpen. Some fruit and woods with stream here. \$3200.

40 acres on M-66 south. Large house, barns, hen house, lots of fruit and flowering shrubs. Overlooks the highway. \$2250.

40 acres about all woods with good trout stream south of town. Five room house, barn and 4 acres good garden soil around the house. School bus road. \$2250.

80 acres on old M-66 south. Few acres plowland on highway, balance heavy woods; stream. Only \$1250.

2 acres on Boyne City road with two story house with 5 rooms each. Separate entrance above. House stands in maple grove. One acre garden spot in rear. Near lakes and river. Good home with income possible. \$3200.

120 acres, over half heavy rich plowland, on schoolbus route. Good large house with water and lights. Large basement barn, cemented floor with stanchions and water in. Two older barns, granary, hen house, garage, pump house and other buildings. Good woods and pasture with trout stream. \$8,000 with all stock and tools extra.

LOG COTTAGE on the Jordan just south of town. This is new and modern with 3 acres of land ideal for cottages. Fireplace, and cold water, etc., etc. \$7,000 with terms.

40 acres west of town with old house, other buildings. About 30 acres cleared, good rich soil. Good well. Only \$1500 cash.

All of the above are just outside of East Jordan. If they are vacant I have the key. These will not last long. New listings are welcome. We get CASH for these.

## Frank J. Nachazel

East Jordan, Mich.  
402 Williams St. Phone 73

How the constantly growing financial needs of local governments can be met in the period of inflation is one of the aggravated, acute problems now confronting the Michigan State Legislature in its fourth month of sessions.

There appears to be two ways whereby additional funds could be raised through taxation. The first would be new taxes, created by the State Legislature and collected by the State of Michigan. This has been the favorite way to finance new public services by local governments. Since the sales tax was adopted, state expenditures have increased \$168,000,000, of which \$138,000,000 were returned to local units of government and \$30,000,000 retained by the State for direct state services to the people.

As these new needs developed from time to time, the State Legislature has been in the habit of seeking new or added taxes such as the intangible tax, the 10 per cent liquor tax, the tax on horse racing, and other levies whereby substantial revenues could be derived to finance the new public services by local units of governments. For every \$100 of new taxes collected, the State of Michigan retained \$18 and turned over \$82 to local governments for their needs.

A second way whereby public services by home governments are financed in other states is that of special local taxes. The local collection of local taxes has a peculiar virtue of bringing the taxpayers close to the agency which is expending his tax dollar. Much of the breakdown in tax responsibility has been due to the fact that an increasing large amount of taxes has been received from sources not within the community, either Lansing or from Washington, and hence had the illusion of being money from someone else's pocketbook and not our own.

This aspect was crystallized recently by Governor Thomas E. Dewey of New York who declared: "Without close correlation between the spending of public money and the responsibility for collecting it through taxes, local responsibility for government will degenerate rapidly and we shall have an all-powerful, centralized government."

Governor Dewey has had the courage and daring to propose specific new taxes or local units of governments might finance the increased cost of public services at the present time. For example, county governments in New York State would be empowered to levy a retail sales tax of not more than 2 per cent on tangible personal property. Owners of motor vehicles would pay a tax of not more than 5 per cent per passenger vehicle and not more than \$10 for a commercial vehicle. Trucks used exclusively for farming would be exempted.

The county government would be authorized to levy a tax of 3 per cent on restaurant meals and drinks over \$1. Counties could tax alcoholic beverage licenses at not more than 25 per cent of the amount of the state license fee. Counties could tax admissions to theatres not more than 5 per cent. Vending machines would be licensed by the county at not more than \$10 per machine per year.

It is the conviction of Governor Dewey that the above taxes, if levied by county governments in New York State, would realize a total of more than \$84,000,000 per year to make possible some of the improvements such as higher salaries for teachers, new or improved school buildings, and other public benefits.

Cities of at least 100,000 population or more would be given new additional tax powers, and New York City would be segregated whereby additional taxes could be levied on meals, admissions to amusement, liquor licenses, ownership of motor vehicles, including commercial trucks.

Governor Dewey summed up the problem of new taxes for local governments by pointing out "there is no magic to the production of government revenue. They arise only from being extracted from the pockets of the taxpayer."

In one of the two above ways, the Michigan State Legislature must work out some solution to financing new needs of the State of Michigan and of local governments. The problem is great, and the solution is not easy.

Flavors Sauce  
Diced onion adds character to cream sauce for peas, or to the sauce in casserole mixtures.

Densely Populated  
The most densely populated country in the world is the Netherlands. Figures for 1944 show 712.3 persons per square mile. At the same time the United States had 45.5 persons per square mile and Greenland, the least densely populated, only 0.6.

From where I sit... by Joe Marsh  
And That Ain't Hay — Or Is It?

I guess all of us secretly hanker, and come home by way of Pound Ridge... nine miles in all. Not very exciting, you might say. But from where I sit it's not excitement that we need these days—but those simple country pleasures that are part and parcel of America—the old-fashioned hayride, with its song and jollity; the horseshoe games; the friendly glass of beer; and the good companionship that they engender.

Easter Sunday guests of Mr. and Mrs. Wm. Archer Sr. and Mr. and Mrs. Wm. Archer Jr. were Mr. and Mrs. LaVern Archer and son Larry, and Robert Archer of Muskegon; Mr. and Mrs. Frank Archer of Grand Rapids.

Can't Trust Those Things!

A certain rather plausible colored man down in Alabama, with a rather meager knowledge of carpentry and general building, but with an unlimited amount of nerve and enterprise, has lately set himself up as a rejuvenator of dilapidated edifices. Recently he was called upon to make some badly needed repairs on a small Negro church.

The work was nearing completion, when a deacon representing the building committee, came to make an inspection. The confident, smiling contractor sought to divert a too close scrutiny of the work by favoring the official with a choice line of guffawing, back-slapping double-talk. He did very well until the deacon's gaze fell upon a plumb line attached to one corner of the roof. As the old man's eye followed the line down to the plumb hanging near the ground, his face took on an expression of anxiety and doubt.

"Look heah, Brothah Slapley," he questioned, "ain't dat buildin' leanin' ovah—look at dat plumb line!"

"No, suh, Descon, no sah," countered Slapley, thinking fast. "Dat buildin' am all right—dat's jest an old plumb line an' it ain't reliable, dat's all."

### OUR FUNNY LANGUAGE

"Mother," said Charlie, "is it correct to say, 'water the horse' when he is thirsty?"

"Why, certainly, dear," replied his mother.

"Well, then," said Charlie, picking up a saucer, "I've just milked the cat."

### No Trade-in

Business was a bit dull in town, so the carpet sweeper salesman thought he'd try a rural neighborhood.

When he began his customary sales talk the hillbilly interrupted with, "Don't waste your breath. I got a carpet sweeper."

The salesman was ready for his reply. "Good," he said. "Then I can make you a generous allowance on your old sweeper in part payment on a splendid new model."

The hillbilly seemed tempted, then shook his head. "No," he said, "I can't make that kind of a deal. After all I took her for better or wuss."

### Destroying Borers

Corn borers can be effectively destroyed where farmers will work together on a program of clean plowing. One farmer working alone can make little headway against borers, since the moths which produce them fly from field to field and farm to farm in the spring.

Mr. and Mrs. Robert Crowell, Mrs. Merle Crowell and Mrs. Pearl McHale were Traverse City visitors Thursday.

Bake Pie Sale, Saturday, April 12, at Quality Food Market, sponsored by East Jordan Extension Club. advx1

Wm. Simmons was home for the week end from Pontiac visiting his parents, Mr. and Mrs. Harry Simmons.

Mrs. Isabell Sidbotham and Mrs. R. G. Watson were guest of friends in Grand Rapids Thursday and Friday.

Mr. and Mrs. Fay Sonnabend and son Larry were over the week end guest of the latter's parents, Mr. and Mrs. Frank Newman.

John Lenosky of Dearborn arrived Thursday morning to spend the week end with his parents, Mr. and Mrs. Albert Lenosky.

Wm. Saxton returned to Alma, Monday, where he is attending Alma College. He has been home on a two week's vacation.

Miss Ethel Vance of Washington, D.C., and Patricia Vance of Mason were over the week end guests of Mr. and Mrs. Vernon Vance.

Mr. and Mrs. Morris Vance of Flint are here and are redecorating their home on the West Side. They plan to move here after school is out.

Miss Evangeline Cutler, Jack Selter, Mr. and Mrs. Claude Carney, all of Rockford, were Sunday evening guests of Mr. and Mrs. Wm. Archer Jr.

Mrs. Westley Staley of Traverse City visited her sister and brother-in-law, Mr. and Mrs. Ashland Bowen, Tuesday and Wednesday of last week.

MYF will have a paper collection Saturday, April 12. Get in touch with Mrs. Jess Robinson or Mrs. A. Blossie or any of the members for particulars.

Mr. and Mrs. Wm D. Walker, students at Cornell University, Ithaca N. Y., are spending the week guests of her parents, Mr. and Mrs. John J. Porter.

### JORDAN....

(Edited by Mrs. Tom Kiser)

Mr. and Mrs. Ole B. Omland, Olaf Omland, Mr. and Mrs. Abert Omland and sons, Mr. and Mrs. Tom Kiser and son Ted, gathered at the home of Mr. and Mrs. Frank Kiser to have Easter dinner and to celebrate four birthdays. Those were Mrs. Albert Omland of March 28, Mrs. Lela Reeves April 4, Bobby Omland April 14 and Mrs. Frank Kiser April 15.

**QUALITY POTATO PRODUCTION URGED:**  
Higher quality potatoes for the 1947 potato crop are possible through the use of certified seed and following other good production practices, according to H. G. Moore, potato specialist at MSC.  
At this time, the varieties of certified seed that are available include: Russet Rural, Sebago, Menominee, and Chippewa.  
Moore warns that this year, many lots of ordinary potatoes are affected with ring rot—a potential loss maker at harvest time. By planting certified seed potatoes—produced from vigorous, healthy fields and relatively free from disease—farmers can help to guarantee good harvests.  
Growers are urged to place their orders for certified seed as soon as possible, he supply of most varieties is rather limited. Sources for certified seed can be obtained from the offices of county agricultural agents or from the Farm Crops department, MSC, East Lansing, Michigan.

**MASTITIS CAN BE REDUCED:**  
Mastitis, one of the great menaces of the dairy herd, can be reduced by treatment—but it must be coupled with an efficient program of herd management.  
Veterinarians of the U. S. Department of Agriculture, and several state agricultural experiment stations report that penicillin proved highly valuable during the past year in mastitis control. Dr. C. S. Bryan, veterinarian at MSC, who first announced use of penicillin in Michigan in 1945 warns, however, that a mastitis control program is also important.

Laboratory examination of milk from suspected cows is the first step. All infected cows should be treated whether they show symptoms of mastitis or not. It is important to treat according to the type of mastitis infection shown in the test.  
Even though a cow has been treated successfully, she can become reinfected with mastitis-producing bacteria. Improper use of a milking machine or rough hand milking make it easy for mastitis bacteria to get in the udder. Injuries from cramped, small stalls, high door sills, jagged stumps around the barn-yard, and the like, increase the danger of infection.  
Here's a final word of caution: never add replacements to your herd until you are sure they are free from mastitis infection.

**MICHIGAN GUARDS AGAINST THE LATE TOMATO BLIGHT:**  
Late tomato blight, which caused damage to the tomato crops in many parts of the country last year, is

**CONTRACTING OF SUGAR BEETS**  
**STARTED THIS WEEK**

As a result of the interest shown by farmers at two meetings recently at Central Lake, Ellsworth, and Charlevoix with officials of the Isabella Sugar Company of Mt. Pleasant, the company has agreed to come into the Antrim-Charlevoix area to contract acreage for the 1947 crop. Verne McGhan of Charlevoix, R.R. 1, has been engaged by the company as their field representative for this area. The actual contracting of acreage was started this week by Mr. McGhan. A minimum of five hundred acres is needed and the acreage will be held to seven hundred acres for the first. Generally, Sugar Beets require a year about the same culture as potatoes. They do not require spraying as do potatoes and need to be sowed in clean fields. Sugar Beet tops are a good cow feed and yield about half as many tons in tops as the crop of beets. The top can be silaged for winter feeding. Many farmers have expressed a desire to shift some of their surplus potato acreage into Sugar Beets.

Subscribe To The Herald

being gurded against in Michigan this year.  
L. Carl Knorr, plant pathologist at Michigan State college, says that central Michigan escaped serious damage last year due to the drought conditions. However, in southeastern Michigan, many fields were badly affected.  
In northern states, the fungus which causes the blight lives over winter in potato tubers and in tomato plants in greenhouses. Wind and rain then carry the spores of the fungus to the plants in gardens and to tomato fields. Cool, wet weather causes the blight to spread rapidly.  
The Plant Disease Survey of the U. S. Department of Agriculture has set up a warning service this year to protect tomato growers. Cooperators in 32 states will gather information on the earliest occurrences and progress of the blight. These reports will be assembled and spraying recommendations and control measures issued. Ed. Rebman, Co. Agr'l Agt.

Cornelius Quack—alas and alack!—  
Has moved to another state,  
But his rural line neighbors are undismayed  
At this fortunate twist of fate.

For telephone etiquette he ignored—  
As he giddily prattled away  
About this and that and nothing at all  
From the earliest light of day.

Now the rural line's free when it's needed.  
The neighbors, with conscious restraint,  
Avoid calls in series and keep their calls brief—  
There's no longer cause for complaint.

Good rural line neighbors are thoughtful,  
For it's better to share, they agree;  
Then all of them get better service—  
When they need it the line is left free.

<p>① <b>What do you think railroads make?</b></p> <p>The public thinks we make 15%</p> <p><b>15%</b></p>	<p>② <b>What do you think they should make?</b></p> <p>The public thinks 10% would be fair</p> <p><b>10%</b></p>	<p>③ <b>What are the facts?</b></p> <p>Actually the railroads earned only 2 3/4% in 1946.</p> <p>To provide the service you want, railroads need to earn at least 6%. But estimates indicate that even with the recent freight rate increase, the return for 1947 will be only about half that requirement.</p> <p><b>2 3/4%</b></p>
--	--	--

**Why it takes 6% to make the grade...**

Impartial research polls show that, on the average, people think we make 15%. They also think a fair return would be 10%.

**What We Make**

But for the year 1946, with the biggest peace-time traffic in history, the railroads earned only... 2 3/4%. This is less than one-fifth of the comparable earnings for other industries.

The reasons for this low return are not hard to find. Since 1939 railroad wages have increased 52 1/2% and the prices of fuel, materials and supplies have gone up 61 1/2%.

But freight rates have just recently been increased an average of only 17 1/2%—a year after the effective date of the last big wage increase.

**What About This Year?**

It is estimated that the return for 1947, even with the recent freight rate increase, will be only about half the 6% minimum return required to provide the improvements and service needed. This will be because of increased costs of materials and supplies; because certain wage increases granted in 1946

were in effect for only part of 1946 but will be in effect for all of 1947; because of increased special payroll taxes on railroads; and because of a decline in passenger business.

**What Does This Mean To You?**

The answer is "Plenty!" Your standard of living is the highest in the world because of MASS PRODUCTION. But mass production would not be possible without MASS TRANSPORTATION, which the railroads provide at low cost.

**Why 6% Is Needed**

The kind of service your standard of living requires takes a lot of money for new equipment and improvements. To carry out the post-war improvement program for better equipment, tracks, terminals and modern safety devices, a minimum return of 6% is needed.

So when the railroads make only 2 3/4 cents on each \$1.00 of their net property investment, it concerns you.\*

The funds for future new equipment and improvements must come from railroad earnings and also from investors. They will furnish money on reasonable terms only if they have confidence in the future earnings of the railroads.

**You Have Another Stake In This**

Even if you do not own any railroad stocks or bonds, insurance companies and savings banks do. So you still have a special interest in seeing that the railroads are allowed enough to do a good job... for you.

We are publishing this and other advertisements to talk with you at first hand about matters which are important to everybody.

\*On total property investment, the railroads made only 2.18%.

# Soldier Come Home

BY BETTY ZANE WATSON

Saving his grandmother, Jennifer Martin, from her burning home, Johnny Davis is astounded to learn that his cousin, Basil Martin, has assumed credit for the rescue in order to gain in the old woman's eyes. Johnny loves Kit Willett, a reporter on his father's newspaper, but she is engaged to Basil and they announce their intention to wed soon. Jennifer, town doctor, has threatened to marry Murphy, town doctor, several times to gain revenge from Mrs. Martin for his father's accidental death at Martindale. Basil asks Kit to persuade Mrs. Martin to change her will, cutting out Johnny. When she is indignant, he threatens to transfer her old uncle to a laborer's job unless she acquiesces.

## CHAPTER XII

They were driving toward her uncle's house and Johnny stopped the car in the middle of the road, turned it to face the other direction and drove toward Martindale. When Kit looked questioning at him he kept his eyes straight ahead and answered emphatically, "I've got something to say to you and we're going to the Park for you to hear it now!"

Kit knew what Johnny was going to say to her before they came to the clearing in the grove they called their own private property. She knew and she didn't want to hear it because she knew that now it would make no difference to her life.

She had become too deeply entangled with Basil and the Martin family to change her plans now—even if she wanted to. She had told Basil that she would do as he asked, but only after she had married him—not before. She did not know exactly why she had specified this condition—only that it gave her a little more time. She had talked Basil into waiting until the east wing was finished before having the wedding and as near as they could tell it would be completed the middle of December. It was nearly the end of November then.

Johnny lifted her up on the rock and pulled himself up beside her.

"Kit, do you remember that first day I came in the office after I got back?" He laid his hand over hers. "Remember how Handley tried to throw me out and you—you came to my rescue right away?" He smiled at the thought of it.

"I remember, Johnny. You acted like somebody's lost puppy. I got there just in time, didn't I?" She smiled too at the picture they had drawn from memory.

"When I saw you that day I—well, put it this way, Kit, remember when you were a kid and you wanted something real bad—a sled or a bike—and you looked around every place for just the right one, some were the right style but the color wasn't it and you looked and looked and finally there it was and you knew that was it—that nothing else would do—that had to belong to you? Remember, Kit?"

She nodded her head, smiling a little sadly.

"Well, that's how it was with me that day, Kit. I looked at you and then I knew that you were the one. I knew the girl I'd dreamed about in those foxholes and farther back than that even, I knew that she had hair that fell down over her shoulders like yours." He touched her chin with his finger and held her face close to his. "I knew that when I kissed her it would be like—like this."

"I'm doing the best I can. She won't ask her before then. You know her. She does things just when she pleases!"

grandmother I never had and always wanted and she really loves me. What would happen to her?" She drew a long breath and pressed his hand.

"Darling Johnny, there's just one way to see it and that's the way it is. Our roads branch here. I go this way and you—that way—and we can't change them, Johnny. They were made for us, not by us, perhaps. But we must follow them." She got down from the rock and turned to him, smiling.

Johnny looked at her and shook his head sadly. He got down and stood beside her, his hands on her arms.

"Some day, darling, I hope you find out that what we have is bigger than anything that could stop it. And when you do—well, I'll be waiting."

"You mustn't, Johnny! Find somebody else—you'll forget me soon." There was deep concern in her voice.

"There could never be anyone else, Kit. I'll never forget you."

"You mustn't remember this but—you should know it, darling. I'll never forget you either, Johnny, nor what you've meant to me." She started walking towards the car and Johnny fell in step beside her. Neither of them spoke again.

Up in the house on the top of the hill three people were sitting in

"I knew that when I kissed her it would be like—like this!"

the large living room talking in quiet voices.

Basil was seated on the couch across from his parents. Jennifer Martin had retired earlier, but each of them cast anxious glances toward the hall as though she might have come back to listen to their conversation.

"But why does she keep putting it off? Why wait until you're married before she talks to her about changing it?" Henry asked indignantly.

"Yes, really, son, we decided it should have been discussed a long time ago, didn't we?" Mrs. Martin added.

Basil got up nervously and lit a cigarette.

"I'm doing the best I can. She won't ask her before then. You know her. She does things just when she pleases!"

**A New Park Site Is Discussed**

"But suppose the old—suppose mother dies before then?" Henry corrected himself.

"Don't kid me. She'll live to be a hundred and ten!" Basil predicted bitterly.

"Oh, I wouldn't say that. She may decide she doesn't want to stay around long after we get her to change over things our way," Henry smiled wisely.

The drapes of the archway moved silently. No one saw Thomas go up the stairs a moment later.

When Johnny returned from lunch he found Kit in J. D.'s office, the two of them seriously discussing something. Johnny hesitated to interrupt them, thinking perhaps it was something that did not concern him. J. D. pulled a chair closer for him, however, and he soon found out they were talking about the park.

"Look, Johnny," Kit quickly included him in her plans. "You know the old Johnson estate out at the end of High Avenue?" She waited until Johnny nodded and then continued. "Well, you remember the old man died last month and his wife is going to sell the place and go live with her sister?"

Johnny looked puzzled. "Well—what does that mean?"

"Just this." Kit's eyes shone with this new excitement. "It would be a grand place for the park! We could—I mean, you could have the old house torn down and there would be plenty of room for a pool and everything." She noticed Johnny estimating in his mind the room that would be available. "Oh, of course, it wouldn't be as large as the park site below Martindale, but it's—well, it's better than nothing, Johnny, isn't it?"

"Sure—I guess it is!" He looked at J. D., who had remained silent since he joined them. But his expression was blank; he could not

tell how this new idea had struck him. "What do you think, Dad?" he asked.

"Well, Kit's right about it being better than nothing, son. But the question is whether the kids will walk that far to play their football and games. It might still be easier to keep on playing right in the middle of the streets like they do now. That's about ten blocks from the Settlement, you know." He pursed his lips, studying the possibilities and the disadvantages of the new site.

"Well, at least they'd go there to the pool, J. D.," Kit argued.

"And it would be there for them if they did want to use it," Johnny backed her up.

Kit turned to him smiling. "Then you like the idea, Johnny?" she asked enthusiastically.

"Yes—I think I'm beginning to, Kit. When did you think of it?"

"At lunch. I only wanted a coke and it was so nice out I thought I'd take a little walk. I wandered out that way and—" She shrugged her shoulders.

"But are you sure about them wanting to sell the house and all?" Johnny asked eagerly.

"Aunt Anna is a close friend of Mrs. Johnson and she's the one that told her this morning while I was having breakfast—only I did not think anything about it then."

"Hey, wait a minute, honey." J. D. stopped her. "How much will she want for it? It would have to be cheap if it's to be torn down, or the council would never stand for it, you know."

"Oh, I don't know. That would have to be all worked out when the time came." She thought a minute. "I could have my aunt find out, though."

"Kit—" Johnny looked at her directly. "Maybe this is none of my business, but you seem to want this park almost as badly as Dad and I do and—" He hesitated and his hand went nervously to his chin.

"Since you and Mrs. Martin are such good friends, why have you never asked her to finish it?" The thought had been in his mind for some time, and while he would never have suggested that she ask her why, he wondered why she had not done so.

Kit did not answer immediately. When she did speak she looked out the window and kept her eyes away from Johnny and J. D.

"I—I did ask Mrs. Martin once." She knew they were both eager to know what she had said. "I asked her, but it was no use. She stopped me before I had time to tell her our side of it. She's so very bitter and the wall she's built around her just can't be broken through where that's concerned."

Johnny looked down at the floor. "Well, I guess that's that! We don't need to have any more fancy ideas about that; if she wouldn't listen to you, the rest of us haven't got a chance. So—what?" he asked discouragedly.

"So—the Johnson place," Kit reminded him cheerfully.

"Yeah—I guess that's it," he decided, not too enthusiastically.

"I'll find out about the price. Mrs. Johnson might raise it if she thought she could get more from the town," Kit guessed shrewdly.

"There's a council meeting tonight. If I knew a little more about the thing—the price they're asking and about the labor," J. D. looked from Kit to Johnny, "I could get their reaction, anyway."

"Wonderful, J. D.," Kit cried. "I'll go home and see if my aunt can't find out this afternoon."

"And I can run out to the Settlement and see if the men are still ready to back us up!" Johnny exclaimed.

"Go to it, you two! Wouldn't be surprised if we'd have a park yet!" J. D. watched them going out the door.

Kit grabbed her coat and followed Johnny from the office. He offered to drop her at her aunt's and she climbed in the old car beside him.

"I almost forgot to wish you a happy birthday, Johnny," she reminded him as they were driving down Main.

**Plans for the Park Move Ahead**

The thirtieth of November, he thought. He had honestly forgotten it was his birthday until she had congratulated him. They had never made an issue of it, he and his father, for Johnny knew that it was also the anniversary of his mother's death, and when J. D. had tried to make some sort of celebration for him during his childhood he had understood how hard it was for his father to try to be happy on that particular day and so he had discouraged any future celebrations.

The park was deserted twenty-four years ago this day. It was fitting then that plans for a new park should be started this day almost a quarter of a century later.

Johnny found that the men would go along with him on the new park plans. They were not so enthusiastic at first, arguing that the site was too far away from most of their homes, but when Johnny explained that it was either here or no place, they agreed that it would be best to go ahead.

(TO BE CONTINUED)

## IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By HAROLD I. LUNDQUIST, D. D., Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

### Lesson for April 20

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

### THE KINGDOM STRENGTHENED AND ENLARGED

LESSON TEXT—II Samuel 5:6-10, 17-25. MEMORY SELECTION—David waxed greater and greater; for the Lord, the God of hosts, was with him.—II Samuel 5:10.

David was the great king of Israel. His life and reign are of unusual interest and the Bible gives much information about him. In the rapid survey of Israel's history which we are making in our lesson series, we have just one lesson on David's reign and that is concerned more with the nation than with its king.

This unique man was by God's choice placed over Israel. At first he received only the allegiance of the southern division of the kingdom, Judah (see II Sam. 2:4). But by showing himself friendly (Prov. 18:24) he won the hearts of the people of the north, Israel, and they too recognized him as king (II Sam. 5:1-5).

Thus united, the kingdom was ready to move forward, by the blessing of God—and that is the story before us in our lesson.

#### I. The Lord Was With Them (vv. 6-10).

A united people! How important that is in the affairs of the nations. Nothing is more disturbing or a greater hindrance than internal friction. We ought to deal quickly and decisively with any group or force in the life of our nation which is clearly divisive or disloyal.

Think, then, how important it is that God's people in the Christian church stand together in undivided loyalty to Christ, our King, and in loving devotion to one another.

Jerusalem, which was to be the "city of David," and which figures so prominently not only in history but in prophecy, had to be wrested from the hands of the heathen Jebusites, and be established as the sacred city and the capital of the Jewish nation.

Note that the kind and considerate king was not a weakling. He knew how to fight and to win. Verse 8 is difficult to interpret, but evidently does not mean that David was cruel. The Jebusites taunted him by saying that their blind and crippled could hold the wall against David's men. Then they doubtless put their best soldiers on the wall, and David said to his men, "Let us take these cripples."

We see in verses 9 and 10 that David was not only a fighter, but also a builder. He began then the development of Jerusalem, the great city of which we are yet to hear wondrous things.

#### II. The Lord Delivered Them (vv. 17-21).

The Philistines, Israel's constant enemy, had control of much of the land west of the Jordan. As soon as they heard that the people were now united under a young aggressive king they laid plans to destroy his power almost before he could start.

The Philistines were clever, but they reckoned without God. David was smart; he counted God into his plans. He asked the Lord what to do and the answer was, "Go up. I will certainly deliver the Philistines into thy hand," and he did!

We may well learn the lesson that prayer, consultation with God, must come before any successful campaign for him. Inquire of him to be assured of victory.

Note also here that there are battles in which the Lord expects us to go up boldly right into the face of a mighty enemy, and take the victory by faith!

Sometimes we are afraid to meet the enemies of the cross with boldness, choosing rather to compromise for the sake of peace. It never works. That is the way of defeat.

#### III. The Lord Went Before Them (vv. 22-25).

Defeated once so decisively that they had to run away from their sacred images (v. 21), the enemy rallied for another attack.

It is ever thus—and foolish is the Christian who thinks that one victory wins a war. After spiritual victory Satan redoubles his efforts and strikes while the believer is resting on his laurels—if he is foolish enough to do it. Here again we say, be on guard!

Observe that the Lord worked differently this time. David inquired again, but this time the word was, "Thou shalt not go up." Israel was to come up from the rear of the Philistines, and not to attack until the wind in the treetops told that God had gone before to smite the enemy.

There is a time for straight out frontal attack on the enemy. There is also a time when God wants us to stand back and watch him work out our deliverance. Sometimes that is harder to do than to attack, but we must obey his word.

How shall we know which to do? By asking God. Prayer must always precede action—and then action will be right!

## HOUSEHOLD MEMOS... by Lynn Chambers

Let Vegetable Chowder Be Your Spring Tonic! (See recipe below.)

### Vegetable Tonics

Instead of dousing yourselves with sulphur and molasses or whatever preparation is your favorite spring tonic, why not make a complete change in the menu and concentrate on vegetable dinners for spring?

The vitamin and mineral riches of these dinners will do much for your morale and their gay and lovely colors will perk up wilted appetites.

Vegetable dinners can be substantial if planned around a hearty main dish. You also can substantiate them with a good protein food like eggs or add delicately broiled bacon to complete them if you want

a taste of meat.

#### Fried Tomatoes in Cream Gravy. (Serves 6)

- 6 large, ripe tomatoes
- 4 tablespoons flour
- 1/2 teaspoon salt
- 1/2 teaspoon pepper
- 4 tablespoons butter or substitute
- 1/2 cups milk
- 1/2 teaspoon granulated sugar
- 3/4 teaspoon meat sauce
- 1/2 teaspoon prepared mustard

Cut tomatoes in half, crosswise. Sprinkle with 1 tablespoon of the flour, 1/4 teaspoon of the salt and pepper combined. Saute in butter until golden brown and tender on both sides. Arrange all but two slices on a hot platter. Stir remaining 3 tablespoons of flour into the butter and tomatoes left in skillet. Add remaining salt and other ingredients. Cook until creamy. Pour over tomatoes and serve at once.

#### Stuffed Onions. (Serves 6 to 8)

- 8 onions
- 1 cup bread crumbs
- 2 tablespoons tomato pulp
- 2 tablespoons butter
- 2 teaspoons parsley, chopped
- 2 tablespoons pimiento, chopped
- 2 egg yolks
- 1/2 cup cooked celery
- 1 teaspoon salt

Wash and peel onions. Cook until slightly soft in boiling water. Rinse in cold water to make firm, then push out centers. Place onions in a well-greased baking dish. Mix remaining ingredients together and fill each onion cavity with the mixture. Bake in a hot (400-degree) oven for 20 minutes.

#### Baked Carrot Loaf. (Serves 6)

- 1 1/2 cups sliced, cooked carrots
- 1/2 cups cooked or canned peas
- 1/4 cup finely chopped onion
- 1 1/2 tablespoons melted shortening
- 3 eggs, well beaten
- 1 1/2 cups soft bread crumbs
- 1/2 cups milk
- 1 1/2 teaspoons salt
- 1/2 teaspoon pepper

Combine all ingredients in order given. Pour into a well-greased loaf pan or square dish and set in a pan of water. Bake 50 to 60 minutes in a moderate (350-degree) oven or until knife in center comes out clean. To serve, cut in squares. This may be served with cheese, white or egg sauce.

#### LYNN SAYS: Use Hints to Make Housework Easier

To brighten gilt frames, take enough flower of sulphur to give a golden tinge and add 1 1/2 pints of water. In this boil 4 or 5 onions for a short time, then let cool. Strain off liquid and, using a soft brush, scrub gilding which needs restoring.

Do not push together shower curtains immediately after bathing. Let them spread until dry or they will mildew.

### LYNN CHAMBERS' MENU

- \*Corn and Vegetable Chowder
- Wafers
- \*Tropical Salad
- Boston Cream Pie
- Beverage
- \*Recipe given.

#### Creamed Asparagus on Toast. (Serves 2)

- 1 tablespoon butter or substitute
- 1 tablespoon flour
- 1 cup milk
- 2 hard-cooked eggs
- 8 cooked asparagus tips

Melt butter, add flour and milk, cooking and stirring until thickened. Add sliced eggs. Place asparagus on toast and pour sauce over all.

A chowder made with a milk base and plenty of vegetables can also take the place of a meaty main dish. Serve this with a salad and your main course will be complete.

#### \*Corn and Vegetable Chowder. (Serves 6 to 8)

- 4 slices bacon
- 2 tablespoons flour
- 2 cups potatoes, cut in 1/4-inch cubes
- 1 cup string beans, cut
- 1 1/2 cups water
- 2 1/2 teaspoons salt
- 3 cups milk
- 1 cup carrots, cut in strips
- 1 cup celery, cut in thin slices
- 2 tablespoons diced green onions
- 1 No. 2 can cream style corn
- 1/2 cup smoked cheese, rolled in balls

Saute bacon in large saucepan until crisp. Drain on absorbent paper, crumble when cool. Drain off all but 2 tablespoons of the fat. Stir flour into the fat.

Combine potatoes and string beans with fat and flour. Add water and simmer for 10 minutes. Add salt, milk, carrots, celery, green onions and corn. Simmer for 10 to 15 minutes more, or until the vegetables are tender but not mushy. Stir occasionally. Serve with cheese balls which have been rolled in bacon bits and dropped into hot soup.

Any remaining bacon bits may be added to the hot soup. Serve with wafers or crisp crackers.

#### \*Tropical Salad. (Serves 6)

- 1 package mint gelatin
- 1 cup boiling water
- 1 cup cold water
- 1 apple, sliced
- 1 banana, sliced and diced
- 3 slices pineapple, diced

Add boiling water to gelatin and stir until dissolved. Add cold water and fruits. Pour into mold and chill. Serve on lettuce with mayonnaise thinned with fruit juice.

#### Brussels Sprouts with Mushrooms. (Serves 6)

- 1 qt. cooked brussels sprouts
- 1 cup sliced mushrooms
- 1/2 cup butter
- 1/2 cup water drained from sprouts
- 1/2 teaspoon beef extract
- 1/2 teaspoon salt
- Few grains cayenne

Saute sprouts and mushrooms lightly in butter. Cook butter and sugar until well browned, stirring constantly. Add stock and stir in sprouts and mushrooms.

Released by Western Newspaper Union.

Rub cut glass with a piece of lemon to restore its luster.

Use a suds of mild soap and water rather than oil or polish for cleaning leather-covered furniture.

To clean white paint, rub with a damp cloth which has been dipped in oatmeal.

To ice cake easily, keep dipping the knife in hot water while applying the icing.

### Thomas Hears Another Conversation

"No, Johnny. There would be too many to find a way for. Oh, Johnny, don't tell me it would be easy because even though I might want to believe you I know differently. And my uncle—what would become of him, Johnny? After they've taken me in their home I couldn't do a thing like that to them. Maybe you could get him a place at the office; but Johnny, he's old and can't learn something new at his age. In a few years they'll retire him and he and Aunt Anna can live happily for the rest of their lives. And Mrs. Martin. . . Oh, I suppose she has been mean and fanatic, darling, but I love her. Can you understand that? She's the

**Wage Steady Campaign to Eradicate Costly Cattle Tick**

After 40 years, time is running out for the cattle fever tick, according to the department of agriculture. The work of eradicating the tick from the southern states, in progress since 1906 under the direction of the Bureau of Animal Industry, and later undertaken in Puerto Rico, and the Virgin Islands, is now nearing completion. Beneficial results of this work are felt throughout the south in the way of better herds of beef cattle and the fostering of a rapidly growing dairy industry. Annual losses from the disease have been reduced from \$40,000,000 to less than \$400,000 last year.

The eradication campaign, which in the early days aroused much skepticism and even violent opposition, has been carried out with the close co-operation of state and county authorities and cattle owners. When the work began, the cattle disease, then commonly known as Texas fever, transmitted through the bite of the tick, was one of the most serious diseases of livestock. For many years the cattle industry of the south was retarded and hampered by this parasite and the resulting poor condition and quality of the cattle raised in the tick-infested areas.

The marketing of cattle from nearly one-quarter of the country was impeded owing to quarantine restrictions necessary in handling ticks in separate portions of public stockyards, and the requirement that such cattle be sold for slaughter only. These embargoes were essential, as the infestation of northern cattle with the cattle-tick produced in them the fatal disease known as splenic or tick fever. The quarantine area now is much less than 1 per cent of its original size.

**Start of Heating Season Increases Peril of Fire**

Firemen are kept busier than ever saving lives and putting out fires in fall and winter weather, warns the National Board of Fire Underwriters. Census bureau figures averaged for six years show deaths from fire increase almost 150 per cent from August to January. Destruction of property by fire mounts up 50 per cent in the same months.

One cause of this jump in destructive fires is starting furnaces and stoves for the cold weather season without first checking them for defects and cleaning pipes and flues. Under heavy winter use more equipment becomes dangerous and causes fires.

The following safety steps are recommended before real winter sets in: Inspect heating plants and chimneys. Clean out soot thoroughly. Look for worn, damaged or rusted parts in equipment and have them replaced or repaired. Check the smokepipe for holes through which sparks might fly; replace if necessary. If chimney is cracked or if mortar is damaged, have repairs made. Look especially for burnable material blackened from radiated heat because of insufficient space between stove and wall. The minimum safe clearance is 18 inches.

**Rubber Discovery**

The rubber jungles in the upper reaches of the Amazon river valley have again rewarded plant explorers, the department of agriculture reports. This time it is through the rediscovery of a small rubber tree with stiff leaves, a poor relative of the great hevea brasiliensis, now the principal source of the world's rubber. A British botanist, Richard Spruce, first found the small hevea more than 100 years ago near the confluence of the Vaupes and Negro rivers in northwest Brazil and botanists of USDA's Agricultural Research Administration co-operating with Brazilian jungle explorers, recently found other specimens of Spruce's discovery. Occurring sparsely, it grows apparently only on dry, granitic hills and sandstone mesas where small streams tax the unpromising land for additional dribbles to add to the amazing river. The rubber plant investigators do not expect the rare rigidifolia to yield commercial rubber, but they say "its unusual characteristics, including disease resistance and drought resistance, make it valuable for primary crosses in the long-range breeding program."

**Important to U. S. Trade**

As a rich source of raw materials, the Netherlands East Indies has long been important to United States foreign trade. The value of our imports from the Netherlands East Indies in 1937 was about 115 million dollars, with exports to the Indies totaling about 25 million dollars. In 1937, trade with the Netherlands East Indies ranked fourth in value for both exports and imports in the total United States-Far Eastern trade. In that year, the United States took 18 per cent of the total value of the Netherlands Indies exports and supplied 10 per cent of the country's imports, as against 26 per cent from Japan and 19 per cent from the Kingdom of the Netherlands. From 1938 to the outbreak of war with Japan, trade between the United States and the Netherlands grew rapidly, largely because of the necessity of accumulating stockpiles of strategic materials for defense purposes by this country.

**Sympathy Where Deserved**

A woman social worker called on a poverty-stricken housewife with a brood of dirty, hungry children and a drunken husband. A woman-to-woman talk ensued, during which the poor mother unfolded her miserable story—hunger and privation, two boys headed for the reform school and a drunken husband who loafed and stole the rent money. To make the unfortunate woman more comfortable, the social worker had confided a few minor details of her own personal life, including the fact that she was a spinster.

Hearing of her visitor's unmarried state, the housewife was filled with pity and compassion.

"Oh, deary," she sobbed, "I can feel for you. Ain't it awful to be an old maid?"

**OR A MINK**

Alice—Ever since Virginia married that rich man, she's been putting on the dog.

Mabel—If he's really so rich, she should be wearing a silver fox, at least.

**Home, Sweet Home**

Little Loraine was rather cranky one day, and her mother said angrily: "If you can't behave, you'd better move!"

Loraine felt just contrary enough to agree. Picking up her hat and coat and her doll, she walked out the back door.

A neighbor saw her and asked: "Where are you going?"

Loraine answered: "My mommy told me to leave home because I wouldn't behave myself."

The neighbor assured Loraine; "Well, don't worry. If you behave you can live with me."

"If I wanted to behave," retorted Loraine, "I could live at home."

**A Long Hike**

The honeymoon had waned, the gilt had worn off the wedding and it was their first real quarrel, with each trying to get the last word.

"If I'd known what I know now," he said coldly, "I'd have walked as far as a pair of shoes would have carried me before I married you."

Eagerly she grabbed her chance. "And if I'd known," she snapped, "I'd have seen to it that you got a good pair."

**The Final Straw**

The new warden of the prison was finding it difficult to get a telephone call through to a friend on the outside. Exasperated, he shouted to the operator:

"My dear young lady, do you know who I am?"

"No," came the sweet reply, "but I know where you are."

**Precaution**

A Hollywood hostess, giving instructions to a new maid just before a party, cautioned: "Now remember, Marie, when you serve my guests, don't wear any jewelry."

"I haven't anything valuable, madam," answered the maid, "but thanks for the warning just the same."

**SOUNDS LOGICAL**

Teacher—Take this sentence, 'Let the cow be taken to the pasture.' What mood?

Dumb Pupil—The cow.

**How About Vest?**

The farmer was trying to sell his horse and was giving a good sales talk. "And just look at that coat, isn't it a thing of beauty?"

"Coat's all right," said the prospect, "but I don't care so much for the pants."

**Worked at It**

"You are charged," said the magistrate, "with having voted eight times."

"Charged?" muttered the prisoner. "That's queer, I expected to be paid for it."

**Qualified**

"Say, young man, have you had any experience at gardening?"

"Why, sure. I was a waiter in a roof-garden for two months."

**Right!**

Nit—Do you know who some of the greatest leaders of men were in the last 25 years?

Wit—Sure. Women.

**Too Devoted**

"Darling, I could sit here and do nothing but look at you forever."

"Yeah, that's what I'm beginning to think, too."

**Danger Ahead**

She—Kiss me once more like that, and I'm yours for life!

He—Gosh, thanks for the warning.

**Vigorous Centenarians Found In Balkans and Near East**

While modern scientists grope for means to lengthen human life, scores of hardy and vigorous centenarians are living examples that life can be extended long beyond the traditionally accepted span. These noted oldsters are spread through Bulgaria and other Balkan countries, the Near East, and many parts of Asia. They reach phenomenal ages without displaying the senility that so frequently marks the final years of the aged in more "civilized" surroundings. Medical books tell of one man of 140 years, who worked side by side with his sons, 104 and 100 years old.

The mystery of these relatively primitive people have found such longevity may lie, scientists believe, in certain microbes, the tiny microscopic organisms that work alchemy in organic matter by changing it to other forms through fermentation. Taken into the human body, these "good" microorganisms destroy the "bad" ones and act as a general tonic.

One noted centenarian known to scientists as "The Weaver of Minsk" was well over 100 years old and practiced his craft until he finally died. He ascribed his continued vigor and good health to a diet of yogurt, a fermented milk product, and sauerkraut, which he ate almost constantly during the day, dipping it from a bowl kept by his work bench.

**Sugars and Proteins Listed As Sources of Blood Sugar**

Common sugars, carbohydrate derivatives, and proteins are the principal sources of blood sugar, but recent evidence has practically eliminated fat as such a source, Professor Harry J. Deuel Jr. of the University of Southern California Medical school, Los Angeles, has stated. In diabetes, the power to build up carbohydrate stores from the diet is lost, and the diabetic is also unable to change carbohydrate into fat; according to experiments with animals.

"All the common sugars such as glucose, fructose, sucrose or starch have been shown to be very satisfactory sources of carbohydrates," Professor Deuel said. "Certain carbohydrate derivatives like the sorbitol, which is the alcohol of glucose, and such intermediates as lactic acid, glycerol and glyceric acid are also shown by tests to be sources of sugar."

"About 58 per cent of the protein molecule is transformable to sugar. This effect resides in certain of the amino acids which are components of proteins, but not in all of them. Some amino acids have been shown to yield from 60 to 100 per cent of their molecule as extra glucose."

**Cancerous Agents**

"Approximately 300 physical, chemical and infectious agents have been found to produce cancer, Arthur H. Wells, M.D., chairman of the Committee on Cancer of the Minnesota State Medical society, states. Many authorities admit that there is an ever increasing variety of agents being discovered which will initiate cancer growth with study also involving the factors within the cancer cell that are responsible for its nature and its unlimited growth capacity. Listed among the cancerous agents are aniline dyes, petroleum products, illuminating gas, coke, mineral and lubricating oils, textile products, radium bearing ores, cobalt and arsenic, chromates, nickel, carbonyl, asbestos, mesothorium, anthracene oil, aromatic amino compounds, benzol, ultraviolet rays, roentgen rays and others. These products are found in industries and necessitate protection of those exposed to the products."

**Appliance Operating Cost**

The cost of operating any piece of equipment is based upon the kilowatt hours used, multiplied by the cost per kilowatt hour. A kilowatt hour is 1,000 watts used for one hour. To illustrate, if a refrigerator consumes 200 watts and runs for one hour, it would use 200 watt hours, or one-fifth of a kilowatt hour. All electrical bills are calculated on the basis of kilowatt hours, so the refrigerator would use one-fifth of a kilowatt hour for each hour it runs. Based on a cost of 2 cents per kilowatt hour the cost of operation would be one-fifth of two cents, or two-fifths of a cent for each hour it actually operates. The same method is used to calculate the cost of operation of any piece of equipment.

**Early Compasses**

The compass was probably the first instrument sailing men devised to help them steer a true course. First direct written reference to the compass which has survived is that of Alexander Neckham, an abbot of St. Albans, in England, who described it as a magnetic needle "six ynces long, or longer, on a pinne" that was thrust crosswise through a straw or splinter of wood and floated on the surface of water in a bowl. It was the compass which sustained the courage of Columbus, Vasco da Gama and the other great discoverers. But compasses often stuck, and when a vessel hit rough seas, the oscillations of the needle rendered it useless. It showed direction, but did not help the mariner to discover where he was.

**PENINSULA... (Edited by Mrs. E. Hayden)**

Miss Arlene Hayden spent the week end at Pleasant View farm from her position at Charlevoix.

A. B. Nicloy and son Curtis of Sunny Slopes farm took four fine beef cattle to the Gaylord market, Wednesday p. m.

There was a small party at the Star Community Building, Saturday evening, in spite of the road condition and storm.

Mr. and Mrs. Jack Craig and son Gerry and Mr. and Mrs. Elmer Faust of Three Bells Dist. were week end guests of Detroit relatives.

The faithful faw, Miss Dorothy McDonald, superintendent, and six little folks, had Sunday School Easter Sunday in spite of the bad weather.

D. D. Tibbitt of Cherry Hill is very proud of his first grandchild, Dean Douglas Clark, who arrived Mar. 31 at Lansing, born to Mrs. Alberta Tibbitts-Clark.

Mr. and Mrs. Charles Arnott and family of Maple Row farm were Easter Sunday dinner guests of Mrs. Arnott's parents, the Ray Loomis family at Gravel Hill, north side.

Mr. and Mrs. A. Reich of Lone Ash farm returned home Thursday evening after spending 2½ weeks visiting relatives at Muskegon, Flint, Lansing, Dearborn and Detroit.

Mr. and Mrs. A. G. Reich who have been occupying the Beal cottage in Advance the past year or more, moved to the Geo. Jarman farm, at Gravel Hill, south side, Star Dist., Saturday.

The first robin to call at Orchard Hill was Monday morning, Mar. 31, and the weatherman came right along with Robin winter on April 6. No one was tempted to wear their new Easter bonnet as it rained and snowed all day.

The chemical truck was at Orchard Hill, Wednesday, to take away one of the farm horses which had been ailing for some time. Fortunately Cash Hayden had purchased a tractor the day before so he will not be held up with his farm work.

Mr. and Mrs. F. K. Hayden and family of Pleasant View farm were Easter Sunday guests of Mrs. Hayden's parents, Mr. and Mrs. Richard Beyer and son Herman near Horton Bay. Other guests there were their son John of Sault Ste. Marie and Leo Beyer and family of near East Jordan.

Mrs. D. D. Tibbitts and infant daughter of Cherry Hill motored to Detroit, Tuesday. She was accompanied by Mrs. Bert Gould and two daughters of Boyne City who went to Wyandotte to visit his mother, Mrs. Caroline Neverman, who is an arthritis victim and unable to get around at all. They plan to return

April 12th.

Mr. and Mrs. Charles Healey who have spent some weeks in Florida, returned to their home, Far View farm, Monday, and had for dinner guests, Sunday, their grandsons Fritz and

Terry Healey of Willow Brook farm. They also brought the news Mr. Arthur Alexander, a resident of what is now known as the C. A. Crane place, had died at his home in Lake Wales, Florida, Feb. 4.

Look what Grandma got for a penny when she was a little girl—a trained dog act! Towser grips the coin in his iron jaws, leaps merrily through the clown's hoop, and deposits the little red cent neatly in the little red barrel.

Quite a show for a penny! But nothing to the show your present-day electrical penny puts on for you. That penny does a lot. It will:

- Tell you the correct time for 4 days,
- or vacuum-clean 6 large room-size rugs,
- or bring you an evening's radio entertainment,
- or run your sewing machine for 8 hours,
- or wash 3 heaping tubfuls of clothes for you!

Grandma's gay little bank may be a collector's item today, but electricity puts on a bigger and better show as it takes more and more work out of your housework.

It costs so little—and it does so much! Dollar values for penny prices—that's the record of the friendly folks in this company, under sound business management.

Listen to the New Electric Hour—the HOUR OF CHARM. Sundays, 4:30 P.M., EST, CBS

**MICHIGAN PUBLIC SERVICE CO.**

Everywhere, you hear it said

**ONLY CHEVROLET GIVES BIG-CAR QUALITY AT LOWEST COST**

The new and even bigger-looking, better-looking Chevrolet for 1947 is the only car in its field with all these Big-Car advantages:

- Big-Car beauty, comfort and safety of Body by Fisher**
- Big-Car riding-smoothness and road-steadiness of Unitized Knee-Action**
- Big-Car performance and dependability of a Valve-in-Head Thrift-Master Engine**
- Big-Car safety of Positive-Action Hydraulic Brakes**

Moreover, in addition to being the only car that brings you all these enviable features of BIG-CAR QUALITY AT LOWEST COST, Chevrolet also stands out as the lowest-priced line of cars in its field!

Place and keep your order with us for a new Chevrolet—product of America's largest builder of motor cars. Meanwhile, let us give you skilled service on your present car now and at regular intervals.
