## Red Devil Reserves Showing Good

AT PETOSKEY LAST MONDAY, OCT. 13TH

(By Bill Kamradt)

Monday night October 13th, the Red Devil reserve team played the Petoskeys, under the lights of Petoskeys Stadium.

Coach Damoth started the freshman team, and these boys played all of the first half and into the third quarter holding Petoskey to 13 points. It was from this point that East Jordan substituted the more experienced reserves, and after Max Somerville running 30 yards on an intercepted pass, Fred Holland caught a long pass to make the East Jordan touchdown. The ending score was Petoskey 13, East Jordan 6.

I might add that those Red Devils play Charlevoix on Charlevoix's field at 2:30 P. M. Friday, October 17th, and the reserves again play Petoskey here at 4:00 P. M. October 27th. We hope to see all of you out there cheering for these fellows.

## Carl Stroebel, Well Known Former Citizen, Passes Away at Detroit

Carl Stroebel was born in Saginaw, Mich. August 18, 1868 and passed away at his home in Dearborn Sept. 29, 1947, at the age of 79 years 1 mo and 11 days. He had been ailing for a year and was taken seriously ill three days before passing away from arterio sclerotic heart disease.

Mr. Stroebel was in business in Marlette for several years and in 1899 located in Central Lake later at Sault Ste. Marie. He came to East Jordan in 1904, and with his brother Wm. A. Stroebel owned and operated the Stroebel Bros. Hardware store until 1923. He was a hardware merchant most of the time until he went into the resort business at East Jordan in 1939.

He was married March 18, 1900 to Miss Grace E. Richmond at Bellaire, who survives him. He was born and raised a Lutheran and was a member of East Jordan Lodge F. and A. M.

Surviving besides, the widow are one daughter, Mrs. Helen Phillips of Grand Rapids and one son Mark of Dearborn, and four grand children, one sister, Mrs. Margaret Bralley of Saginaw and two brothers Wm. A. Detroit and Ben at Saginaw.

Funeral services were held Oct. 1 at 2:30 P. M. at McFarland Funeral Home, Dearborn, and Oct. 2, at 2:30 P. M. at Watson Funeral Home, East Jordan. Rev. Paul Boecler of the Lutheran church of Dearborn conducted the service. Bearers at East Jordan were Alfred Rogers, Sam Rogers, Earl Clark, Mason Clark, D. W. Bechtold and Harry Simmons. Interment in Sunset Hill cemetery East Jordan.

Relatives and friends who were here to attend the funeral were: Mrs. Carl Stroebel, Dearborn; Mr. and Mrs. George Phillips, Grand Rapids; Mr. and Mrs. Mark Stroebel, Dearborn; Mr. and Mrs. Wm. F. Roberts, Central Lake; Mr. and Mrs. Thomas Clayton and son, Tommie, Detroit; Mr. and Mrs. Ralph Lampher, Dearborn; Mr. and Mrs. Harry Hale and Mrs. Orvin Gippert, Interlochen and Mr. and Mrs. Herman Meyer of Petoskey.

## A New Insured Loan Now Offered By Farmers Home Adm.

The Antrim County Committee of the Farmers Home Administration met this week in County Agent Kirkpatrick's office in Bellaire. The committee is composed of three farmers, Lyle Rusnell of Alba, Glade Berg of Bellaire and Wren Chellis of Ellsworth. Mr. Chellis just received his appointment as a committeeman from Mr. Roswell G. Carr, the state Director for Farmers Home Administration. Each committeeman is appointed for a term of three years and is not eligible to succeed himself. The committee met for the purpose of reviewing applicants for real estate and operating loans. Nine applications were reviewed and two were laid on the table for further investigation.

Mr. Rusnell as chairman of the committee announces that the Farmers Home Administration is now providing a new insured loan for the outright purchase of a farm or the enlargement or development of presently owned farms. This service is available to veterans or other experienced farmers to help them buy a farm or add to their present farm in the way of land or improved buildings, fences, orchards or other real estate development. The loans are made only to applicants who are unable to get satisfactory credit from local sources at not more than five per cent interest.

Under the insured loan program the money is advanced from local sources and the Federal Government guarantees the loan 100 per cent Mr. Rusnell states. He also stressed the point that applicants must be able to make a down payment of 10 percent of the total investment in the farm if he is buying a new farm. He must have an equity of at least 10 per cent of the total investment if he is enlarging or developing a farm. Mr. Rusnell stressed that loans are not made to applicants unless local sources refuse to extend adequate credit and that no loan is made for the sole purpose of refinancing an existing debt.

All real estate loans cost the borrower 3 1/2 percent annually and are repayable in 40 years or less. Annual payments are amortized so as to include both interest and principal. National banks are now authorized to advance funds for insured loans.

Mr. Rusnell states that the committee will appraise all farms on which loans are made taking into consideration the long time average prices and productive capacity of the farm. He states that they have available the service of a state appraiser from the Farmers Home Administration and that they also use his valuation in deciding whether a loan shall be made in any instance. Mr. Rusnell informs us that interested farmers may file an application with any member of the committee or mail an application to the Farmers Home Administration office in Bellaire. All personal calls regarding these loans should be made at the office of the county agent on Monday afternoons only.

In Charlevoix County the office is in the Postoffice Bldg, open on Tuesdays.

## MARRIAGE

Bartlett — Patrick

Miss Lois Bartlett daughter of Mrs. A. E. Bartlett, East Jordan and William R. Patrick of Lansing were united in marriage at the Parsonage of the Church of God in Charlevoix Tuesday evening October 7, 1947. Rev. W. D. Wood read the single ring ceremony. Their only attendants were Mr. and Mrs. Floyd Holt's nephew and niece of the bride.

The bride wore a grey suit with a pink blouse and her attendant wore a yellow suit.

Mr. and Mrs. Patrick spent the week in Lansing where they will make their home at 1602 Linnal St.

## American Elms Take Honors in Big Tree Contest

Michigan's "big tree" population seems to run largely to American Elms. In fact, the first three winners in Michigan State college sponsored big tree contest are American Elms. Grand daddy of all trees in Michigan appears to be the tree located three-fourths of a mile north and two and one-fourth miles west of Benford. It is 22 feet seven inches in circumference at breast height and is estimated to be possibly 200 years old. The tree was reported by Clifford Walters of Battle Creek on June 27. Mr. Walters is official winner of the contest. Also reporting the tree on July 14 was Ernest Rose, RFD 4, Battle Creek, on whose property the tree stands.

The prize for reporting the tree, a half-gallon of maple syrup, will be presented to Mr. Walters by Paul Herbert, head of the Michigan State college forestry department.

Second place tree, also an American Elm, is located one mile west and one-quarter mile south of Volinia in Cass County. It is 20 feet nine inches in circumference.

An American Elm 20 feet in circumference took third place. It is located on the Max Smith farm three and one-half miles north and west of Lawrence in Van Buren county.

In all, there were 65 trees reported by 200 people. Every large tree was reported more than once. Six persons reported the same pine tree at Hartwick Pines near Grayling. However it was not a prize winner.

## HOME EXTENSION LEADERS TO MEET TUESDAY, OCTOBER 21

The Antrim County Home Extension leaders will meet on Tuesday, October 21 at the Court House in Bellaire beginning at 10 A. M. for the purpose of securing their second homemaker's lesson of the year. This lesson will be on the making of "Handmade Rugs" and will be taught by Miss Jessie Marion, Extension Specialist in Home Management, Michigan State College.

The lesson promises to be very interesting one and all leaders are urged to attend or have a substitute in their stead.

## DAVE WIEMAN ADOPTS SOIL CONSERVATION PROGRAM

Dave Wieman, for 34 years a farmer in Forest Home Township west of Bellaire, has just recently adopted a soil conservation plan for his farm through the assistance of the Antrim Soil Conservation District. Dave started strip cropping last spring with 26 acres established with alternating strips of hay and row crops. Hay and grain were not established because it is difficult to start on open fields and get into alternate strips of hay the first years. This normally takes 2 to three years. Following the past storms Dave said, "The strips did an excellent job of holding water. I believe when I get my alternate hay strips the job will be 100 percent effective."

The watershed east of the building has always created a problem of water around the building but I have now established 650 feet of diversion ditches which I feel will divert the water away from my building. This was done with a five foot terracer belonging to the District which I rented for \$1.00 per day.

I find the soil capability map very useful, because it gives me the area suitable for cropping, pasture, and reforestation.

This month we completed 20 acres more of strip cropping which is one more step towards completion.

It is too bad the Soil Conservation program wasn't started 30 years sooner.

## Cub Scout Activities Open This Saturday With Outing at Point

The 1947-48 Cub Scout activities will be officially opened Saturday, Oct. 18, at 2:30 p. m. with an outing for all Cubs at Lone Tree Point.

Cubs will meet at their respective Den Mother's homes by not later than 2:30 p. m., from where they will be gathered up by car and taken to the point. Each Cub is requested to bring 15c to help defray the cost of weiners, buns, pop, etc. The Den Dads will go along with the Cubs.

The outing is expected to break up by around 6:30 o'clock and the Cubs will be returned to their respective Den Mother's homes where their parents can call for them.

## Pack Committee Meeting

The Cub Scout Pack Committee will meet on Monday, Oct. 27, at 7:30 p. m. at Theo. Scott's home on the West Side. All Pack Officials and wives, and Den Mother's are urged to be present to get the season's activities properly organized for a successful year of activities.

## Dist. American Legion To Meet In East Jordan Next Year

The 11th District confereuse of the American Legion and Auxiliary was held at Cheboygan Sunday Oct. 12.

The joint meeting of the Legion and Auxiliary was called together by the Cheboygan Post Drum and Bugle Crop and was opened by the 11th District Executive Committeeman, Gilman of Petoskey, introducing Dept. of Michigan Commander Clark, who addressed the group and also reported on the National Convention and District meetings that he has attended.

After Commander Clark's address, the local Commander of Cheboygan, Commander Leslie, outlined the program of the day.

J. H. Gilman adjourned the meeting and the auxiliary retired to the Legion Hall for their business meeting.

The Jr. American Legion Base Ball team made the trip as guests of the Rebec-Sweet Post.

The game between the Detroit Tigers and Cheboygan featured the pitching of our own "Chuck" Saxton who showed his usual good form and Chas Dennis as umpire.

After the game the boys were served refreshments at the Cheboygan Legion Home. The game was won by the Detroit Tigers 8 to 2.

Plans are being made for the Northern Michigan Jr. League next year. The District meeting will be held in East Jordan.

## CHECK YOUR GRAIN FOR WEEVILS

Weevils and bran beetles are causing trouble on a number of Antrim County farms state Walter G. Kirkpatrick, County Agricultural Agent.

The infestation is usually worse in grain which was damp when placed in the bins. Because of the dampness, heating has occurred and caused the insects to multiply rapidly. The first line of defense is to ventilate, dry and cool the grain. If it is definitely found that the insects have infested the grain, steps must be taken to fumigate.

When fumigating, use a mixture of three parts of ethylene dichloride and one part of carbon tetrachloride. This should be used at the rate of five gallons of the mixture per 1000 bushels. Don't breathe the fumes any more than necessary and remember that ethylene dichloride can be poisonous if not handled right. DDT and similar materials should not be mixed with the grain to control the insects.

The granary or bins should be tight and better control can be expected if a water-proof tarpaulin is fitted over the grain. Don't fumigate if the temperature of the grain is below 65 degrees fahrenheit.

When mildew or musty wheat conditions are present farmers are advised to ventilate the grain as soon as possible in order to lower the moisture content and temperature.

With grain of all kinds becoming more valuable daily, farmers should be ever alert and on the watch for signs of insects and also rodents. These too can spoil much grain in a short time.

## Farm Topics

### CHARLEVOIX — ANTRIM D.H.I.A. ORGANIZED

A group of interested farmers from Charlevoix and Antrim counties met last week, and organized the Charlevoix-Antrim Dairy Herd Improvement Association. Mr. L. S. Johnson, extension dairyman from Michigan State College was present at this meeting and assisted in the organization of the association. Mr. Lee Cook of Levering, who is our tester, was also present. At this organization meeting the following were elected to the Board of Directors: Archie Murphy, East Jordan; Vern McCahn, Charlevoix; Bernie DeYoung, Charlevoix; Ernest Brown, fronton; Elias Sommerville, Central Lake. This board elected the following for officers: President, Bernie DeYoung; Vice President, Vern McCahn; Secretary Treasurer, Archie Murphy.

The association started its operations Wednesday, October 1, with the Ernest Brown herd in fronton. They have about a full schedule of herds, but a few more could be worked in. The fees that are to be charged are as follows: Membership, \$2.00 for a new member and \$1.00 for old members. For a ten cow herd or less, the fee will be \$5.00, and for each over ten, 15c each.

This cow testing association is a step toward better dairy management. For the past two years a group of farmers have been continually asking for this association, these farmers believe that by belonging to a DHIA they can do a better job of culling in their dairy herd, a better breeding program, and produce dairy products more efficiently.

### BOYNE CITY ARTIFICIAL BREEDERS ASSOCIATION TO ORGANIZE

The proposed Boyne City ABA will officially organize next Thursday evening, October 23, in the Boyne City Library at 8:30 P. M. Mr. George Parsons, extension dairyman from Michigan State College, in charge of the artificial breeding, will be present. He will discuss advantages and disadvantages of artificial breeding and will assist in the organization of this association. Mr. Curtis Nicloy, of Boyne City, who is to be the Inseminator Manager and who is now, at the present time taking the course at Michigan State College, will also be present. This is an invitation to anyone who is interested in improving their dairy enterprises, to attend this meeting.

### NEW FEATURES ADDED TO NORTHERN MICHIGAN POTATO AND APPLE SHOW

A number of new features have been added to the 12th Annual Northern Michigan Potato and Apple Show by the Board of Directors, according to Walter G. Kirkpatrick, Secretary of the Show.

This year's Show will feature a Potato and Apple Machinery Show, an Apple Pie Baking Contest with separate sections for girls under 21 and for ladies 21 and over. The Pie Baking Queen for Northern Michigan will be chosen from the pies entered and may be from either section.

A separate program for apple producers and one for potatoes producers has been arranged. Judging and Identification Contests have been arranged for 4-H members, F.F.A. students, Rural Agricultural students, Veterans Institute students, and adult growers.

Premium Books are now available through your local County Agricultural Agent, Ed F. Rebman. He will also assist you in getting exhibits to the Show.

All growers are urged to begin selecting now your apples, Potatoes and legume seeds.

### RED DANISH CATTLE

A number of farmers have been interested in Red Danish Cattle. The second annual sale of Red Danish Cattle will be held on Tuesday, October 21, 1:00 P. M. at the Springport Dairy Farm, located 1 1/2 miles south of Harrisville on U. S.-23 or 95 miles north of Bay City. 85 head of Red Danish Cattle will be offered, consisting of 16 cows and 19 bred and open Heifers.

If anyone is interested in obtaining some of these Red Danish Cattle, this may be the opportunity you have been waiting for.

Ed Rebman  
County Agr'l Agent

Some examples of increased costs since 1939, affecting railroad operation

Increased freight rates since 1939 have increased the revenue from hauling the average ton of freight one mile **only 15%**

SOME PEOPLE get along under higher prices by using less or doing without. Some have more income to help meet higher costs. All can adjust outgo to income, to a large extent.

But a railroad cannot skimp or do without and still provide good, efficient and safe service — adequate to the needs and desires of the public.

The chart at left shows why the Eastern Railroads have had to ask for an increase in freight rates. The simple reason is that the increases allowed since 1939 are nowhere near enough to meet today's costs. The revenue the railroads get for hauling the average ton of freight is only 15% more, whereas the cost of operating the railroads has increased more than 63% in that period.

Only recently, for instance, an arbitration board added another \$468,000,000 to our annual bill for wages and wage taxes, of which \$187,000,000 is borne by the Eastern Railroads. This brings the increase in these items alone to more than 75% since 1939.

All the railroads ask is what the law says they should be allowed to have. That means just and reasonable rates. The law says there is need in the public interest for adequate and efficient railway transportation service at the lowest cost consistent with furnishing such service.

In other words, all the railroads ask is sufficient revenue to enable them, under honest, economical and efficient management, to provide the kind of service people want.

## Creative Power of Faith

Lesson for October 19, 1947

THIS lesson takes us to the Westminster Abbey of the Bible—Hebrews, eleventh through the thirteenth chapters—to meditate for a season upon the valiant souls in the long ago who obtained a good report as they stood at the passage of destiny and sounded the trumpets of triumph, even the trumpets of faith.

Dr. Newton

The reader will be richly rewarded to stop right here and open his or her Bible and read these three chapters. Your attention will be riveted to the word, faith.

"Now faith is the substance of things hoped for, the evidence of things not seen. For by it the elders obtained a good report. Through faith we understand that the worlds were framed by the word of God, so that things which are seen were not made of 'things which do appear.'" Hebrews 11:1-3.

### A Journey to a New Land

I WANT the boys and girls to look at the passage which describes how Abraham, "when he was called to go out into a place which he should after receive for an inheritance, obeyed; and he went out, not knowing whither he went."

How could Abraham leave his pleasant situation in Ur? Through faith in God, and that alone. A memory verse is here suggested: "I will trust, and will not be afraid," Isaiah 12:2. Abraham might well have been afraid of unknown enemies, of disease, of poverty. Men do become afraid of these things, unless their faith is in God. But Abraham believed in God—had faith in God. And he went forth, holding the hand of God.

There is creative power in such a faith. Abraham discovered that every step he took was accompanied by God. He built altars. He talked with God, and God talked with him. Such will be the experience of every boy and girl who takes his or her all upon implicit faith in God.

### What Faith Can Do

INTERMEDIATES are considering what they will do with their lives. It is the vitally important period when they are wistfully considering a life career. This lesson would seem to clearly indicate that God has a purpose and plan for each life. He will reveal that plan to those who trust him for guidance. Faith in God at this point is absolutely essential if we are to live victoriously.

Read again the eleventh chapter of Hebrews and see how these heroes of faith in the long ago cast themselves wholly into the will of God for their lives. We can have no doubt about their ultimate success.

Parents and teachers are here reminded of their solemn responsibility in pointing intermediate boys and girls to the truth of Sunday's lesson. Life is too valuable, too fleeting, to be frittered away in purposeless drifting.

Faith is the bright shaft of God's presence and power to guide young people into his will. It is the unflinching light to direct their steps daily. It is the creative power to sustain them each step of the way.

### This Power at Work

TAKE any one of the characters portrayed in these three chapters of Hebrews and see how faith in God produced men and women who changed the course of history. Young people are interested in biography. I would commend to you the lives of the great men and women of modern times, who lived in the creative power of faith in God.

John Wesley, for example. There was a man whose life, when strangely warmed by the spirit of God, lifted England from the depths of secularism and set her feet once more on the highway of worthy achievement.

Martha Berry is another splendid example. Miss Berry devoted her life to God's will and purpose to open doors of opportunity to the under-privileged boys and girls of the southern mountain areas. Today, at Mt. Berry, stands a school with the largest campus in the world—a school which reveals what one life can accomplish when that life is built by the creative power of faith in the Living God.

"Take my life and let it be, Consecrated, Lord, to Thee."

Henry Robinson, aged 64, a resident of this area since 1889, died at his farm home in the Rock Elm district Oct. 16th.

Miss Jessie Stark of Ann Arbor is the new 5th grade teacher.

Rev. Fr. Timothy Kroboth, pastor of St. Joseph's church has been transferred to the charge at Sutton's Bay. Rev. Fr. J. W. McNeil of Big Rapids has been appointed in his place.

October 21, 1927

During a heavy fog Tuesday morning a car driven by the Misses Harriet and Helen Chaddock, enroute to their classes at E. J. H. S., and the Boyne City Bakery truck, driven by Mr. Towns, collided near Sunset Hill cemetery. The truck was demolished, having turned over several times on its way to the ditch, and the car was badly damaged but all escaped serious injuries.

Miss Bessie Stenke and Rev. Henry J. Strom were married at the home of the bride's parents Oct 12th.

The E. J. H. S. team chalked up its third victory this season last Friday by defeating Frankfort 27 to 0.

The Charlevoix Co. S. S. Assn. which was reorganized three years ago, met in East Jordan Thursday afternoon and evening. Dr. Harry M. Crooks, president of Alma College, spoke in the evening on the subject,

"The Cost of Not Having."

At the annual October meeting of the County Board of Supervisors the sum of \$1,000 was appropriated for the city of East Jordan bridge over the south arm of Lake Charlevoix.

Miss Minnie V. Cincush and Henry Steenhagen were married Saturday evening, October 15th at the home of the groom's parents.

It's to your interest to know about this proposed  
**feather-bedding!**

For sheer feather-bedding, this mock work proposal takes the cake. But it is only one of 44 "rules" demands filed by the leaders of the operating unions. If all these demands were granted, they would cost the railroads an added BILLION DOLLARS A YEAR.

### Increased Wages, Too

On top of these "rules" changes, the leaders of the operating unions have filed an additional demand for a wage increase of over 30 per cent. If granted, this would be an added cost to the railroads of \$400,000,000 a year.

### \$468,000,000 To Non-Operating Employees

In addition to this, an Arbitration Board has just granted a wage increase of 15 1/2 cents an hour to the million employees represented by the 17 non-operating unions. This will cost the railroads \$468,000,000 a year.

### Where Will The Money Come From?

Where will all the money come from to pay these increases? They total several times as much as the railroads made in 1946 or will make in 1947.

In July, the railroads filed an application for increased freight rates to close the gap which then existed between wage and material costs, and railroad revenues. Since then it has been necessary, because of further increases in wages and material costs, to supplement that petition and to ask for an additional freight rate

increase. No other course is open.

### Railroads Do Not Run For Employees Alone

Railroads are operated for the benefit of not one, but several groups—shippers, passengers, employees, stockholders, and the general public. The interest of all must be served—and that cannot be done unless the railroads can operate efficiently and economically, and unless they are allowed to earn sufficient revenue to provide the kind of transportation service this country MUST HAVE.

**WEEKLY NEWS ANALYSIS**

**Americans Lean Away From Meat  
As Food Conservation Plan Begins;  
Communists Go International Again**

Released by WNU Features.

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

**TRUMAN DIET:**

**Meatless Tuesday**

The campaign to put weight on the emaciated bodies of hunger-stricken Europeans and to give strength to Europe's equally emaciated economy finally pulled up a chair and sat down at the American dinner table.

President Truman's call for food sacrifices as an American "contribution to peace" came as a surprise to no one. His request for a meatless Tuesday was no great shock, particularly since previous indications all had pointed to some such development.

In addition to one meatless day a week, the newly announced food conservation program included going without eggs and poultry on Thursday and the saving of a slice of bread every day.

The term "self denial" was used in plugging the widespread adoption of these measures in American homes, and since the program was not drastic enough to force "self denial" to the point of unpleasantness, it appeared probable that this nation of trenchermen would cooperate good naturedly with the plan.

Another aspect of the conservation campaign was Mr. Truman's demand that grain exchanges raise the margin (down-payment) requirement on grain purchases to 33 1/2 per cent to thwart what he called the inflationary operations of "gamblers in grain."

Finally, grain conservation even hit America's skid rows as the White House requested that the liquor industry shut down for 60 days.

**How to Eat Wisely**

This is President Truman's "simple" and straightforward program on how to save food in the home:

1. Use no meat on Tuesdays.
2. Use no poultry or eggs on Thursdays.
3. Save a slice of bread every day.
4. Public eating places will serve bread and butter only on request.

**WHEAT BUYER:**

**Less Speculation**

U. S. government may cap its campaign against grain speculation by deciding to purchase corn and wheat directly from farmers, thereby bypassing the grain exchanges, Secretary of Agriculture Clinton Anderson has disclosed.

Plagued with the apparently insurmountable problem of how to increase grain exports to Europe without fostering a domestic price increase, the administration was considering adopting the direct farmer-to-government grain buying program in an effort to curb the inflationary upswing of wheat and corn prices and minimize speculation.

Anderson said the government would "prefer to continue buying through the normal channels of grain trade," and added, "If we can continue to do so, without prices getting out of hand, we will not have to adopt the farm acquisition plan."

The agriculture department would have to buy the 870 million bushels of grain which President Truman set as a goal for shipments to Europe. Actually, only 470 million bushels are in sight as available for export; the other 100 million bushels are expected to be obtained through the citizens food conservation program.

Anderson said that if the direct buying plan were adopted, it probably would contain a clause under which payment for the grain would not be made until the following tax year so that the transactions would not throw the farmer-sellers into higher tax brackets.

**SPOILAGE:**

**No Box Cars**

As government administrators looked myopically around for barrel bottoms which they could scrape to get more food for Europe, a nasty report cropped up that millions of bushels of wheat are lying on the open ground along railroad right-of-ways, threatened with spoilage.

Crux of the matter is that grain elevators are full and a shortage of freight cars has caused a full-grown bottleneck. The same situation prevailed last year, possibly in even more serious proportions.

J. J. Hayden, general manager of the Association of American Rail-

**Republican Twist**

Sen. Kenneth S. Wherry (Rep., Neb.) pointed out with some vehemence that President Truman's food conservation program is a "100 per cent endorsement" of the "eat less" proposal made by Sen. Robert Taft (Rep., Ohio). Said Wherry, "Mr. Truman's speech showed that he is in full accord with Senator Taft."

roads, has reported that latest figures showed 900,000 bushels of grain lying outside along rail right-of-ways in the Southwest and 250,000 bushels in the Northwest. That does not include the wheat lying outdoors on farms.

A Santa Fe spokesman related that at the end of July that railroad's territory had 35,931,000 bushels of wheat lying on the ground, including 641,000 at country elevators. By mid-September, however, most of the urgent wheat was shipped out, he said.

Other lines reported tight box car situations and up to 200,000 bushels of wheat lying on the ground awaiting shipment.

**COMINTERN:**

**Back Again**

It was in 1943, at the height of World War II, that Premier Josef Stalin announced the disbanding of the Russian Comintern (Communist International) in the interests of allied solidarity.

Now, however, the masquerade is over. Formation of a new international organization linking the Communist parties of nine European nations has been disclosed.

Literally a new Comintern, the group is rallying its followers for a concerted onslaught against what they call U. S. "imperialism."

The Communists baldly state that they intend to wreck, if possible, the Marshall plan for European recovery and the Truman doctrine to combat totalitarianism. Actually, formation of the Comintern amounts to little more than an open statement of aims, since the Communist policy had been self-evident for many months.

Communist party leaders from Russia, France, Italy, Czechoslovakia, Poland, Hungary, Yugoslavia, Romania and Bulgaria formed the organization to do battle against "imperialist politicians" in the United States whom it accused of trying to provoke a new war.

Originally, the Comintern was established in 1919 by Lenin to organize the working class parties of the world. In 1947, it was simply another unpleasant manifestation of power politics in action.

**TREASURE:**

**50 Million**

As long as there is money, there will be treasure hunts, and the latest such investigation to develop is a search by American war crimes prosecutors for a purported 50 million dollars in gold they believe was cached by Joachim von Ribbentrop, Hitler's foreign minister.

They think the treasure probably is buried in churches, on peasant farms, perhaps still tucked away in corners of former German embassies abroad.

Former Ribbentrop henchmen tipped off the prosecutors that their boss might have set aside a few ill-gotten gains in some remote spots; and that they gained credence when American investigators discovered that Ribbentrop's books didn't balance. They showed that a lot of money was not accounted for.

Ribbentrop himself is of no help in the matter. He was hanged in Nuernberg as a war criminal last October 16.

**More Americans Now Are Living on Farms**

At the start of 1947, 27,550,000 persons were living on farms in the United States. That total was 2,360,000 above the January, 1945, figure when farm population hit its low.

However, the 1947 total still was 2,719,000 under the 1940 level of 30,269,000. But at the present, the farm population is increasing.

Men returning to farms from the armed forces have been the biggest addition to farm population in the

**WITHDRAWAL:**

**Palestine Issue**

British decision to withdraw from troubled Palestine was strengthened with the announcement that consultations to fix a date for the retirement have been speeded up, and that the date may be revealed before the end of the present session of the U. N. general assembly.

At the same time, it was pointed out that complete British withdrawal would be contingent on failure of the assembly to find a solution acceptable to both Arabs and Jews.

Such a solution has been, and probably will continue to be, in the realm of absolute wishful thinking.

Possibly the most practical plan—the one which soon will get full attention of the U. N. — proposes the division of Palestine into Arab and Jewish states. Britain will not take any official stand on that issue.

Actually, final assurance of the success of any plan for the Holy Land would have to come from the U. S. and other sizable powers—nations which will have to provide force to implement it.

**BALL FOUR:**

**Won in a Walk**

In devious and often clownish fashion, the New York Yankees won four games, as against the Brooklyn Dodgers' three, to capture the World Series and receive fleeting acclaim as the 1947 champions of what now must be referred to laughingly as baseball.

The series, which well may go down in history as having set baseball back 20 years, combined some of the best and the worst playing

**THE SPECTATORS**

ever seen. The parade of relief pitchers on both teams, for instance, was exceeded in numerical strength only by the batters they walked to first base.

Records fell, but most of them were the slightly disgraceful kind: A total of 68 men was walked by both sides, no starting Brooklyn pitcher got past the fifth inning, the Yankees left 63 men on base.

More pleasant to contemplate was the fact that the series broke both the attendance and biggest money records in the 44 years of the classic. Fans totalling 389,763 paid a gross \$2,137,549 to see the seven games.

**CASUALTIES:**

**Veterans**

World War II veterans may be the next casualties to result from the barrage of soaring prices across the nation.

That possibility was hinted at in an announcement by veterans' administration that government services for ex-G.I.s face curtailment because of high prices.

Officials currently are pondering which of two courses to take: To reduce operations or to ask congress for more money. The agency probably will request additional funds from the next session of congress to carry through this fiscal year ending June 30.

When the economy-minded congress granted VA its 7 1/2 billion dollar appropriation last session — second largest item in the federal budget—it reminded the agency sternly not to come back for more.

**Pork Prices May Drop**

Possibility is growing that a moderate decline in hog and pork prices may develop through the fall and early winter as this year's spring pigs move to market in greater volume, according to a department of agriculture report.

At the same time, however, little if any decline is foreseen in prices of better grades of cattle and beef, although lower grades may ease off slightly.

From where I sit ... by Joe Marsh

**Mystery of the Missing Farms**

Yep, the number of farms in America is shrinking (by a quarter-million in the last five years!). What's happened to the missing farms? The land has been taken in by other farms, increasing the average size by twenty acres!

Does this growth mean farming's no longer a family enterprise? Just the opposite! More families own farms today than ever—only with labor-saving equipment they can handle more land, more work.

That's as it should be. The family farm is a fortress of democracy—

where our free, American life is secure. Where every member cooperates and shares the work... living together in temperance and tolerance—temperance that prefers a moderate beverage like beer, and tolerance for a taste that may be different from one's own.

From where I sit, our Family Farms (and they're 96% of all farms) are something that this country can be proud of!

## A&P HELPS KEEP YOUR FOOD BILLS DOWN

**NO FOOD STORE HAS MORE LOW PRICES... MORE DAYS A WEEK!**

It's highly important to us to keep our customers' food bills down because, after all, that's what keeps them coming back to A&P. And we believe that the best way to do it is not by marking a few items down one or two days a week and other items up the rest of the week, but by featuring low prices on items after item, day after day. That's always been A&P's policy... a policy we're able to follow, even in the face of today's soaring food costs, because we cut operating expenses and profits to the bone and pass our savings on to you. Come in and get your share today!

**New Features Added To Northern Michigan Potato and Apple Show**

A number of new feature have been added to the 12th Annual Northern Michigan Potato and Apple Show by the Board of Directors, according to Walter G. Kirkpatrick, Secretary of the Show.

This year's Show will feature a Potato and Apple Machinery Show, an Apple Pie Baking Contest with separate sections for girls under 21 and for ladies 21 and over. The Pit Baking Queen for Northern Michigan will be chosen from the Pies entered and may be from either section.

A separate program for apple producers and one for potato producers has been arranged. Judging and Identification Contests have been arranged for 4-H members, F.F.A. students, Rural Agricultural students, Veterans, Institute students, and adult growers.

Premium Books are now available through your local County Agricultural Agent, Walter G. Kirkpatrick. He will also assist you in setting up exhibits at the Show.

All growers are urged to begin selecting your apples now, potatoes and legume seeds.

**SERVE CHICKEN TO SOLVE YOUR MEAT PROBLEM**

Chicken may be your answer to the meat problem. If your family is tired of fried chicken, try roasting one!

Roasting chickens should have a rounded body, a well-fleshed breast, a coating of fat under the skin, few blemishes, and few pinfeathers. For a bird to look well on the table, good shape is important, adds Roberta Hershey, food specialist at Michigan State College.

Stuff the chicken and roast it in a shallow, uncovered pan with a rack in the bottom. Start it either side-wise or squarely on its breast, depending on its shape. Do not add water nor cover with either lid or cloth. Keep the temperature of the oven moderate to slow for the entire cooking period. Turn a medium-sized chicken every 30 to 45 minutes. Baste it with melted fat or pan drippings each time you turn it.

When the chicken is tender and done to the bone, the flesh is slightly shrunken beneath the skin and it gives or bends slightly when picked up by the ends. Joints are no longer stiff when "worked". Plan on one and a half to two hours cooking time, depending on the size of the bird.

If you have a chicken that is intended for stewing, try steaming it and you will be pleased with the results. To steam a bird, prepare it as for roasting. Place it breast up on a rack in a kettle and add water to the level of the rack. Add water as it boils away. It will require three to four hours to cook tender unless you use a pressure cooker. Cool the chicken in the broth and you will have a juicier meat. Steamed chickens have more juice and flavor than stewed ones.

## How many of these does your telephone save you every day?

• Imagine trying to see in person everybody you talk to on the telephone in a single day. Think of the time and the shoe leather... the gasoline or carfare it would take! • We've installed thousands of new telephones in recent years. And thousands are still to be installed for folks now waiting for service. Each new telephone makes your telephone that much more valuable. It means more people you can call—more jobs your telephone can do for you.
