Pasteurization Law In Effect

MICHIGAN FIRST STATE IN UNION TO HAVE SUCH LAW

On July 1, 1948, Michigan became first state in the Union to have a state wide pasteurization law. Michigan's unprecedented step in the protection of its 5 1/2 million milk drinkers from the dangers of milk born epidemics places the state far out in front in the enactment of progressive health and dairy laws according to Charles Figy, Director, Michigan Department of Agriculture. The effective date of the law was also well set to coincide with the great influx of tourists who require increased supplies of milk in the resort areas during the summer vacation months.

Michigan laws apply the protection of pasteurization not only to milk but to butter, cheese, cottage cheese and ice cream. Michigan consumers and tourists can be assured of pasteurized milk and cream unless they go direct to the farm and buy raw milk. Sales made at the farm where produced are exempt.

Sales are also exempt from pasteurization in the cities of Ypsilanti and Manistique where a few quarts of raw milk are distributed. The sale of raw milk is permitted within the limits of these two cities by a referendum which carried at the spring election. The law also exempts some types of cheese that are properly stored and aged before sold to the public.

The gaining of state wide pasteurization of all dairy products has been a gradual improvement. It moved rather slowly until the last few years when more was learned about the relationship of animals and human diseases such as undulant fever, tuberculosis, typhoid and septic sore throat, according to F. M. Skiver, Chief of the Bureau of Dairying.

In 1928 there were over 2,000 raw milk distributors in Michigan. Much of the butter and ice cream was made from raw milk and cream and very little cheese of any kind was safeguarded by pasteurization. At the present time there are less than 100 raw milk distributors in the state, most of which plan to discontinue or sell only pasteurized milk after July 1, 1948. All of the millions of pounds of butter made in the state is made from pasteurized cream. All of the cottage cheese and Italian cheese is made from pasteurized milk. Most of the milk going into American type cheese is now being pasteurized. The Michigan Ice Cream Law effective since 1931 requires that all milk products in ice cream be pasteurized.

Department of Agriculture dairy inspectors have contacted all raw milk distributors in the state and advised them of the effective date of the new pasteurization law and how it will affect such dealers Mr. Skiver states.

Application forms for the licenses due July 1, 1948 will not be mailed to raw milk dealers as in the past, but such dealers as are approved by inspectors will be licensed to sell raw milk at the farm. Persons selling milk to the public regardless of whether they are required to pasteurize or not are required to meet the sanitary standards and obtain a license from the department.

An All-Black Deer

An all-black deer—more rare in Michigan by far than even the pure albinos—was seen 10 miles east of Grayling on the south downriver road by Byron Nichols, who reported the unusual sight to district game manager Otto Failing, Nichols, a Detroit, has a cabin on the main stream of the Au Sable below McMaster's bridge, has hunted this region for years and knows his deer.

Solid black deer have been reported before in Michigan, but their occurrence is difficult to confirm. Failing is welcoming reports from other vacationers in the vicinity who may see this rare specimen.

Esther Shepard, 58, of Wilson Twp. Suddenly Passes

The community was shocked by the sudden passing of Esther Shepard on Friday, June 25th, from a heart attack, at her home in Wilson Township at the age of 58 years.

She had been a life long resident of Arton community, born Sept. 3, 1889 on the Bob Shepard Homestead where she lived throughout her life. She was the daughter of Robert and Rosie Shepard. An older sister Agnes, passed away in 1908.

Esther Shepard had been a member of the Wilson Grange for 40 years and of the Pomona Grange for nearly as many years. She was also an Honorary member of the Farmers Cooperative and Educational Union, Wilson local for three years.

She will be missed in her community as she had always been a faithful and willing worker in both fraternal organizations, giving both her strength and worldly goods where and when ever she could to help others in need. She is survived by an only brother, Edward Shepard of East Jordan, and other relatives and friends. Services were conducted Monday by Rev. Moore at the Watson Funeral Home. She was laid to rest beside her mother in The Todd Cemetery, Wilson Township.

Your Old Home Town -- East Jordan in 1886

As evidence of the above picture please note it was taken before the Methodist church was erected — 62 years ago. During the same year — it is said — the town hall was built. Up on the terrace and near the center of the picture is a square frame residence — present site of the

Sloan residence. The picture was evidently taken from the top of the former "Little Mill" — at rear of the Drenth & Sons lumber yard — and does not show Main St.

The Herald is attempting to compile a file of old scenes of East Jordan, its industries, groups of old-time residents, etc. Anyone having pictures of this nature is invited to bring them to the Herald Office, or else phone 32 and we will call for them. These pictures will be copied photographically and returned un-

harmed.

At Ed's Boats

Mr. and Mrs. William Manthei from Jackson are spending their two weeks vacation at Ed's Boats.

Mr. and Mrs. William Popp from Bay City are spending their vacation at Ed's Boats and have had some nice bass. Mr. Popp has made use of the new archery course.

Mr. and Mrs. Herb Dean from Bay City have returned to their home after a successful week of bass fishing. Mr. Dean manufactures Target tackle and gets a great deal of sport using his own tackle.

Mr. and Mrs. Thomas Lafton are spending their two weeks honeymoon at Ed's Boats.

Judge Krause, Gordon Wilson and Dr. V. R. Richards of Detroit, had a good day of trout fishing on the Jordan one day last week.

Big Homecoming Opens Tomorrow

MANY OLD RESIDENTS ARE RETURNING FOR IT

East Jordan's big July Fourth and Homecoming celebration gets under way here this Saturday, July 3rd. The Registration Headquarters, in the City Hall, will open at 10:00 a. m., and the parade will start at 11:00 a. m. From then on the celebration will be under way and will continue until Monday evening.

Many of the stores already have their old time pictures in the windows. These have always attracted a lot of attention, especially among the younger generation and our summer people who never knew the city when it was one of Northern Michigan's largest lumbering and manufacturing centers.

The carnival and rides are under the sponsorship of the American Legion Building Fund.

Ed. Gerner Recovering From Lapse of Memory Suffered Last Week

Ed. Gerner was reported as missing to Chief of Police Simmons at about 10 p. m., last week Tuesday. Following a diligent search, Mr. Simmons found him at 11:00 a. m., Thursday, near Sunset Hill in a comatose condition. Mr. Gerner was taken to the County Infirmary where he is slowly recovering from shock and exposure.

He is 69 years of age. Troubles of late may have been the cause.

Farmer's Union Met At Wilson

The Charlevoix County Unit of Farmers Educational and Cooperative Union was held with the Wilson Local, June 22. There was a large attendance. All Locals were represented at the meeting. Had several visitors. After the meeting a cake walk was held by Wilson Local. It brought the sum of \$10.00 from five cakes. The quilt that was raffled, went to Mrs. Carl Bergman. She held the lucky number.

We of the Wilson Local, wish to thank all who participated in the sale of the quilt. The proceeds are to go to help swell the budget fund of Farmer Union, so to defray expense of State Farmer Union and they can help organize more Locals, therefore being more help to all farmers. Wilson Local has closed till time for first meeting in October, but county meeting will be next time, 4th Tuesday in July, at Walloon Loelas Hall. Hope to see a good attendance there. All meetings open meetings. All farmers and families invited to attend. Ice Cream and cake after meeting.

Charlevoix Fishermen on Lookout For Marked Lake Trout

With two dozen claims for the \$2 marked trout bounty paid so far this month, commercial fishermen at Charlevoix now are inspecting their lake trout catches with extra care.

The marked trout were planted in 1944, 1945 and 1946 as fingerling with a different combination of fins clipped each year. More than 400,000 of the clipped fish were planted, about 12 per cent of the total plant in the three years—and it was expected they might show up in the catch over a 10-year period.

For each marked fish or fin scar submitted for evidence, the conservation department pays \$2, because of the value the returns have in estimating the worth of lake trout plantings. The number bountied annually so far has been small, but more of the fish now appear to be reaching a size readily taken in commercial and sport fishing gear.

Center Stage is Under Way

"JOHN LOVES MARY" NOW PLAYING AT H. S. AUDITORIUM

Tonight (Thursday) is the gala opening of Center Stage '48, East Jordan's new summer theatre.

When the curtain parts for the opening scene of "John Loves Mary", people of this area will receive their first glimpses of what is probably the finest company of summer theatre which has ever played this section of Michigan.

With a splendid cast, under the direction of Marilyn Lief and Bernice Loren, plus special settings by Jean Thomas and the lighting effects planned by Cylvia Gilbert, "John Loves Mary" promises to be a high calibre professional production. It will run Thursday, Friday and Saturday evenings, with a matinee Saturday afternoon.

It will be followed next week with "Arsenic and Old Lace", a riotous comedy by John Kesselring.

Here is interesting sidelights on more members of the group.

Mrs. Mildred Yarusso: Center Stage's business manager and house mother. Was in theatre for a number of years but retired to become a housewife. She worked for Broadway producer Max Gordon and George White, producer of the famous "George White Scandals." Her son, David Young, is a member of the group.

Harry Adler: studied at Brooklyn college and the Dramatic Workshop of the New School for Social Research. Has done radio work over two New York City stations. Versatility is Harry's major trait. He has played in Russian, Chinese and contemporary English and American plays. Was with military intelligence during the recent war and is holder of the Bronze Star medal.

Tone Holley studied dramatics in Hollywood under Salvatore Cudia, former director of Twentieth Century Fox Studios. Was a member of a theatre group in New York City which performed at Carnegie Hall. Helped found the Unique Players in Detroit before the war. After four years in the U. S. Navy, he has been working in radio in New York.

Len Lesser studied at the American Theatre Wing and played vaudeville and night clubs for several years. Played two seasons in stock at Hunterdon Hills, N. J. and one in Rhode Island. Spent a year touring in the road company of "The Milky Way." Played in New York in "The Petrified Forest" and "Our Town." Spent four years in the Army and, since then, has been engaged in stage, radio and television work.

Last Call For Scout Camp

The second period of Boy Scout Camping at Camp Greilick starts July 1, and finishes July 20th. The cost of the 10 days is \$17.00.

All Scouts not already registered but wishing to go should make it known to Scoutmaster Hamerski at once.

CORRECTION

Due to an oversight on the part of the Supt. of the Vacation Bible School the name of Miss Helen Larson, one of the workers, was unintentionally overlooked.

Handbook On Fish-Bait of Value to Sports Fishermen

A handbook for fish-bait dealers in the lake states, a product of the joint efforts of fisheries research men of Michigan, Minnesota, Wisconsin and the U. S. Fish and Wildlife Service, presents detailed dissections for all phases of the business, from building minnow ponds covering several acres to raising earthworms in a box in the basement or crickets in a garbage can in the garage.

The ever-increasing popularity of sport fishing has put such heavy demands on bait dealers that local wild supplies often have been inadequate, and some dealers have turned from collecting to growing their own. Pioneer work in raising bait minnows in ponds has been done in recent years at Michigan conservation department fish hatcheries.

While directions for wholesale propagation of minnows may interest only dealers, the individual angler may be interested in the facts about raising and keeping earthworms, crayfish and crickets, and the collecting of leeches, hellgrammites, caddis fly larvae, horn borers, catapla worms, white grubs, goldenrod gall worms and wood borers.

Printed by the U. S. government printing office, the 116-page bait dealers' handbook is entitled, "Propagation of Minnows and Other Bait Species." Copies are obtainable from the conservation department in Lansing at 35 cents each.

Licensed Life Guard at Tourist Park

The City of East Jordan in cooperation with the Red Cross are employing a Life Guard and Swimming instructor at the bathing beach at the Tourist Park, starting this Saturday.

Robert Benson just finished a two weeks intensive training course, under auspices of the Red Cross at Ludington, and will be at the Park each day of the week except Friday from 1:00 to 5:30 p. m.

This should be of great interest to parents particularly, and the public in general, that a licensed guard will be on duty each afternoon for the protection of the dozens of youngsters, and adults, that use the swimming beach.

East Jordan has been very fortunate in past years by having no accidents at the Park. This program is real insurance against accidents in the future. An insurance the City cannot afford to be without.

The Guard will also conduct a class in swimming, arrangements for which will be announced later.

AN APPRECIATION

We wish to sincerely thank the many friends for their cards and gifts sent to our daughter, Terry Myers, during her long stay at Lockwood hospital, Petoskey.

From where I sit... by Joe Marsh

Pampered Farmers

If the folks in our town were less tolerant, they'd be really burned up over that nationally circulated article on "pampered farmers," describing them as living off the fat of the land.

From where I sit the farmer is anything but "pampered." If he's better off today than twenty years ago it's because he's worked hard to improve the quality and quantity of his production.

Take Bert Childers, for example. Bert is up at four in the morning, to get the milking finished—and

ploughing or harvesting, depending on the season, until sundown. In the evening he finally relaxes with the misus over a moderate glass of beer.

And the farmer today's not only temperate in his habits, like Bert's evening glass of beer... but tolerant in his opinions. So he'll probably say of that article, "somebody got the facts wrong," and just let it go at that.

Micaiah, A Prophet of Israel

Lesson for July 4, 1948

WE BEGIN a new series of studies this quarter—a series of lessons based on less known Bible characters that have much to offer us. Such a character is found in Micaiah, a boy whom we learn in 1 Kings 22:1-40.

Dr. Newton

Ahab, king of Israel, planned an expedition to recover the city of Ramoth in Gilead, which the Syrians had taken. He invited Jehoshaphat, king of Judah, to join him. Ahab relied upon his court prophets to predict victory; but Micaiah, the prophet of God, whom Ahab had shut up in prison, when he was summoned, at the insistence of Jehoshaphat, told Ahab the truth—the unpleasant truth—which subsequent events verified.

BRAVE ENOUGH TO TELL THE TRUTH

THE first blessing in the study of this obscure Bible character, Micaiah, is to discover a man who was brave enough to tell the truth when he knew it was unpopular.

It is always the best policy to tell the truth, though there be many in today's world who deny this principle. It is not enough to say that we will tell the truth because it pays. That is true, but it is a by-product of doing what is right. One must tell the truth because it is right to tell the truth. Men swear with their hand upon the Holy Bible that what they testify is the truth and nothing but the truth. But, alas, such men often tell anything but the truth. They have been carefully coached to evade the truth.

Micaiah told the truth, because he was speaking for God. It hurt him, but it must needs be the truth which he spoke to Ahab.

TRUTH DISREGARDED

AHAB scorned the words of Micaiah, and ordered him thrown back to prison. But scarcely had the prophet of God been thrust again into prison, until Ahab was bleeding to death in his chariot.

Men not only take their own lives in their hands when they disregard the truth, but, like stubborn Ahab, they bring grief to countless others. Had Ahab heeded the words of truth which Micaiah proclaimed, Ahab might have lived. Indeed, had Ahab heeded the words of truth, he might have recovered Ramoth, and more beside.

Truth may appear forever on the scaffold, wrong forever on the throne, but time always proves a hard taskmaster to the man who regards wrong instead of truth.

THE SOURCE OF TRUTH

God is the source of truth—all truth. If we miss this, we miss the lesson of the lesson. Note the words of the golden text, "As the Lord liveth, what the Lord saith unto me, that will I speak," said Micaiah.

Let us remember that it was God speaking through his prophet. Ahab could not have doubted that Micaiah was speaking what God had told him to speak. But Ahab did not want to hear the truth. He wanted to hear pleasing words that would encourage him in his evil plan.

God speaks the first and last word on every subject, because God is truth. "I am the truth," said Jesus. And he went on to say, "Ye shall know the truth, and the truth shall make you free."

THE PENALTY OF DISOBEYING THE TRUTH

HORRIBLE, indeed, was the penalty which Ahab suffered for disregarding the truth. The way of the transgressor is hard—always hard. The wages of sin is death. Be sure your sins will find you out.

Take down your cherished books of history. What do they say to you? That the straight line of truth is the only safe way in which to walk. It is applicable for the individual, for the family, for the community, for the nation, for civilization.

Thus every great prayer must be, "Thy will be done." God's will is the way of truth. Micaiah declared it. Every true prophet must declare it. It is the only way to peace and joy in this world.

On Believing

All over the world now there is a reaction from the superficial talk that it does not make much difference what a man believes. We have learned our lesson. What a man believes makes a world of difference not only in what he does, but what happens to him.

WEEKLY NEWS ANALYSIS

Uneasy Truce Prevails in Palestine; No Talks With Russia, Truman Says; Draft Machinery Set to Begin Work

By Bill Schoentgen, WNU Staff Writer

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

HOLD FIRE

Still No Peace

For a little while the dove of peace drifted over Palestine on frayed and weary wing as Arab and Israeli armies were observing, more or less loosely, a four-week truce in the war for possession of the Holy Land.

At best the United Nations-supervised truce agreement was a fretful and uneasy affair. Before the four-week mediation period was two days old both Arabs and Jews had begun charging each other with violations of the pact.

Count Folke Bernadotte, U.N. truce negotiator, was investigating the accusations, but it looked very much as though another security council cease-fire order might go unloved, unhonored and unobeyed.

Actually, it is difficult to see how any synthetically imposed truce could succeed in Palestine. There are no basic grounds upon which a genuine interruption of hostilities could rest. Both sides profess military proficiency and the ability to keep on fighting and winning.

And more important, each side is fanatically opposed to modifying its demands: Israel is determined to retain its sovereignty and to have unlimited immigration of Jews into the state. The Arabs are just as determined to erase the state of Israel from the map.

Thus, there is little confidence in the security council's truce plan and its power to effect peace. And that pessimism was heightened by the knowledge that no U.N. cease-fire edict has worked yet.

Aside from the seriousness of the struggle for Palestine itself, deepest significance of the affair lay in the fact that it is raising once more the old question of whether any world peace organization of nations ever can succeed in the task it sets for itself—the maintenance of peace and order on earth.

Pressure of world opinion—which is all the U.N. security council can bring to bear, lacking both military teeth and the power to bring economic sanctions against offending nations—apparently is not going to be enough, at least in the case of Palestine.

One inference which may be drawn is that the U.N. will need more power of one kind or another before it can prevail against the fetish of blind, militant nationalism that has hurled the world into two major wars already in this century.

PRESIDENT: About Russia

Forsaking for the moment the political whiplash he has been using on congress during his western tour, President Truman issued a major enunciation of U.S. foreign policy, bounded on all sides by an indictment of Russian tactics, in a speech at Berkeley, Calif.

His address was the clearest cut answer thus far made to the recent spurious but widely publicized Soviet offer to talk over Russian-American differences and the issues of the cold war.

Although the Soviet overture patently had been made as a last-ditch effort to derail the European recovery program and also slow down

Bingo!

In addition to taking rapid-fire pot shots at congress during his points west tour, President Truman sharpened up his target eye by blazing away at some clay pigeons on his stopover at Sun Valley, Ida. In contrast to congressmen, the clay pigeons couldn't snipe back.

INFLATION AND TAXES

Vacations Cost More This Year

If you haven't been on a vacation since 1940 and you are planning one for this summer, you're probably in for a shock—the kind that makes the bankroll tingle.

For depending on the kind of vacation you take and the brand of recreation you prefer, vacation costs in 1948 have jumped from 20 to 100 per cent over comparable

the U.S. military preparedness program, it undoubtedly carried a great propaganda impact abroad and, to a smaller extent, inside the U.S.

President Truman's Berkeley speech was a creditable reply. His theme was that the Soviet Union is acting as an aggressor and obstructor of world peace, and he postulated the theory that there is no likelihood of settling disputes between the two nations by negotiation so long as Russia continues to wield international communism as a weapon to influence the course of world events.

The American intent, he said, is to deal with the East-West cleavage by deeds, not propaganda.

"We shall judge the policy of every nation by whether it advances or obstructs world progress toward peace and we wish our own policy to be judged by the same standard."

As a measuring stick for that principle Mr. Truman suggested that Russia begin the demonstration of her good intentions, if any, by halting the perilous strife in Greece and Korea.

Thus, both Americans and Russians know where the U.S. stood. And from this side of the ocean it looked to be as good a place as any.

DRAFT: Machinery

Peacetime selective service actually had been all but a reality for months before President Truman put his signature to the draft bill.

The gears, wheels and levers of the draft machine needed but a flick of the finger to start turning out citizen-soldiers for the benefit of the nation.

So much spadework has been done that the office of selective service records estimated that it could have inductees on the way in '60 to '90 days after the law becomes effective.

Those 19-to-25 year olds eligible for service can expect something like this:

There will be no hoop-la or goldfish bowl drawings. Instead of being determined by lottery the order of induction probably will be figured out according to age groups.

It is likely that 21-year-olds will start the proceedings. After the registration, all men over 21 and under 22 would be classified. Those not exempt would be put into Class 1A as eligible for immediate induction. Whether the first age group selected would be exhausted before another is called up had not yet been decided.

Military authorities estimate that about two out of every three men in the 19-through-25 bracket who are single and non-veterans will have to serve in the army, navy, air force or marines, either as draftees or volunteers. Roughly, there are about 1,552,000 single non-veterans in that age group.

The whole business will have a familiar ring for Americans who can, without half trying, remember the details connected with getting an army together for World War II.

U. N. SITE: Changeable

Not that it's an original idea, but another move is reported to be getting under way quietly to switch the United Nations headquarters from the U.S.

Geneva, Switzerland, is being mentioned as the substitute site, although nations supporting the idea are taking no open steps and are confining their efforts currently to laying groundwork for the real drive which may be expected to emerge this fall at the Paris assembly.

The whole plan might go down the drain, however, if congress were to approve the 65-million-dollar loan to the U.N. for building the projected skyscraper headquarters in Manhattan.

As usual, there is a play of forces behind the scenes on this question. The Arab states favor moving the U.N. to Europe, primarily because they are bitter over the success Zionist Jews have had in influencing the U.S.

Britain originally wanted a European site and might, under certain conditions, revert to that stand. Russia, another question mark, is expected to grasp the opportunity to attack the U.S. for failure to keep promises should congress fail to approve the loan.

City Parents

Mr. and Mrs. Girard Van Bar-kaloo Hale of Santa Barbara, Calif., "adopted" the war-ravaged French village of Maille in 1946, subsequently sent 12,000 gifts of food and clothing to its inhabitants. Now they've gone to Maille to receive the personal thanks of the 366 persons whom they shepherded through the hard years.

AID CASH: And Politics

Although its funds were still in a state of confusion as a result of a combination of congressional economy and GOP political machinations, the economic cooperation administration nevertheless managed to toss off the biggest bundle of foreign relief cash so far.

Paul G. Hoffman, ECA administrator, approved the assignment of \$95,610,605 for 10 European countries, including Trieste, and China. The action brought total Marshall plan authorizations from available funds to \$393,737,029.

Countries sharing in the new approvals were Great Britain, The Netherlands, France, French zone of Germany, Austria, Denmark, Italy, Norway, Greece, Trieste and China.

The assignment of almost 96 million dollars in foreign aid funds served to point up the squabble set off in congress when the house voted to spread the recovery funds over 13 months instead of 12, thereby producing the effect of slashing aid appropriations by one to two billion dollars.

While the senate restored the appropriations cut, many U.S. leaders were gravely worried about another possible significance of the house action.

Theory was that the house, by cutting ECA appropriations, demonstrated that Republican organization bosses are determined to fight, and reverse if possible, the line of foreign policy represented by the Marshall plan.

It was thought to be part of a larger plan to gain control of the Republican party and to defeat the new postwar GOP leaders—Vandenberg, Dewey, Stassen and Warren—by chipping away the cornerstone of the foreign policy they all profess.

The situation had the outward appearance of chaos, but behind it lurked the business of playing election year politics while permitting the rest of the world to go hang.

MIDDLE INCOME: That's \$2,920

Any American family which could add up the wages it received in 1947 and get \$2,920 for the total had earned a "middle income," according to the way the federal reserve board has it figured out.

That "middle income," up \$320 from 1946, incidentally, means that half of all the 42 million U.S. families made more than that while the other half made less.

About 69 per cent or 28,980,000 families had a joint income of \$2,000 or more last year. By contrast, in the mid-1930s fewer than 6.6 million families had incomes at that level. But a dollar bought considerably more then than it does now.

Twenty-one out of each 100 families rated incomes above \$5,000 in 1947, while eight of that group got more than \$7,500 a year.

However, not all were in the top money. Of each 100 families 13 had incomes under \$1,000 and another 18 earned between \$1,000 and \$2,000. But even many of the well-to-do were unhappy about the whole thing. They felt that they were becoming worse off financially because of the high cost of living.

According to the federal reserve board's sample survey, those persons who own their own business or manage somebody else's earn the most money. Middle income for families headed by "a managerial or self-employed person" was \$4,500.

Next on the list were professional workers with a middle income of \$4,000. Skilled and semi-skilled workers followed with \$3,000, clerks and salespeople with \$2,900 and unskilled workers with \$1,800.

Weigh Your Words?

Scientists with a will to weigh have developed at the Rahway, N.J., Merck institute for therapeutic research a scales so incredibly delicate that it records the weight of a puff of air from a single wave of the hand.

The scales are being used to weigh potent new drugs and also to weigh the energy spent by animals placed under the influence of medicinal drugs.

5,006 dealers have gone to Standard Oil schools to give your car better service

Add more mileage to your gas supply
HERE'S HOW TO DO IT:

Keep your speed moderate — high speeds mean fast fuel consumption. Avoid "jack rabbit" starts — come to a gradual stop — don't idle your engine unnecessarily. See your Standard Oil Dealer for other ways to save gas — his training can help you. Standard Oil Company.

Anxious to serve you even better than ever before, Standard Oil Dealers eagerly attend our schools for advanced training. 5006 already have completed the course. 250 more start the course every two weeks at the 80 schools we operate. The course features one central idea, "Personalized Service" — for you the personal service you enjoy, for your car the individual attention it needs.

When your Standard Oil Dealer has mastered this training, and daily puts it into practice, he is awarded our Service Specialist emblem. When you see it hanging proudly inside his station, expect a little extra "pep" in his windshield cleaning, a little extra promptness and courtesy, a little extra attention to clean rest rooms. Expect your car to be handled with additional know-how and skill.

 farm. (formerly the Tibbit Fruit
 Farm.)

 a very bountiful crop. Our rains the

SOUTH ARM...
 (Edited by Mrs. Arnold Smith)

Mr. and Mrs. Ed Jacobson spent
 last week end with Mr. and Mrs.
 Harold Goebel and family.

Our Sunday School group meeting
 was quite well attended June 20th
 with about 45 present.

Mrs. George Parsons is spending a
 few days with her daughter, Mrs.
 Archie Murphy.

Rev. and Mrs. Rouse called on Mr.
 and Mrs. Walter Moore Sunday
 evening.

Grandma Moore is spending a
 little time with Mr. and Mrs. Walter
 Moore.

Mr. and Mrs. Roscoe Smith and
 his niece, her husband and children
 of Ferndale were callers at the Ar-
 nold Smith home Monday evening.

Mr. and Mrs. Arnold Smith and
 family were Sunday dinner guests of
 Mr. and Mrs. Harvey McPherson and
 family.

Our Sunday School time has been

changed to 10:00 a. m. hoping we
 would have a larger attendance but
 to my great disappointment my own
 three children and three Cutler chil-
 dren were the whole congregation.
 Why can't the people of South Arm
 start to realize the Sunday School is
 a necessity and send their children
 if they don't feel like coming the
 morning after the night before.
 There is a saying, "Parents send their
 children to Sunday School, but they
 take them to the movies." Well,
 take them to the movies if you wish,
 but also bring them to Sunday School.
 Everyone is welcome. Lets see how
 many we can have out next Sunday.
 It's a good way to start your 4th
 celebration.
