PLANT LEGUMES ON WHEAT LAND MSC RECOMMENDS Farmers who are finding their

wheat acreage much below the acres they intended to plant to wheat this comfortable in hot weather can ex- fall may find it an appropriate time to make a legume seeding. Early August is the best time to plant to get a good stand of legumes in normal years.

Ground which was being prepared for wheat seeding this fall but which cannot now be planted because of allotment regulations, can easily be prepared for a good alfalfa seedbed. A good firm seedbed is required for an alfalfa-brome seeding. The soil should be tested for lime needs and that lime, if neded, be applied at once and worked in ahead of seeding

time. The best recommended seeding

practice is applying the fertilizer in one operation and the seeds in another. Fertilizer needs to go deep-at least three or four inches beneath the fair. surface. About 400 lbs. of 0-20-20 fertilizer for are average soils is recommended for a legume seeding. In the seeding operations, 8 lbs. of good adapted alfalfa seed and 4 lbs. of brome grass seed to the acre is adequate. Mix the brome grass seed plishing in this 4-H Club program. with about a half-bushel of oats to It's building farmers and homemakget better coverage. All seeds can be ers of the next generation that will planted on top of the ground if the seeder is follower by a cultipacker. It is very necessary that the alfalfa go on the surface as the tiny seeds will not germinate if they get too deep into the soil.

Early August seedings usually get well established when early fall rains come and are not troubled with weed competition like spring seedings of legumes.

WEEKLY NEWS ANALYSIS **Truman Signs North Atlantic Pact; Brannan Farm Plan Beaten in House: British Clamor for A-Bomb Secrets**

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

ENVOY TO COSTA RICA SWORN IN . . . Joseph Flack (left) of Doylestown, Pa., places his left hand upon the Bible as he takes oath of office and is sworn in as new ambassador to Costa Rica from the United States. He succeeds Nathaniel P. Davis. The wife of the new envoy is looking as Stanley Woodward, chief of protocol officer at the state department in Washington, D. C., administers the oath.

BRANNAN PLAN: Loses Trial

The house approved a measure continuing the farm price-support program in its present form. The bill was slated to go to the senate. The house vote was 383-25.

The retention of the 90 per cent of parity supports killed the Aiken law, passed by the Republicancontrolled 80th congress and which was scheduled to go into effect Jan. 1.

The administration gained a partial victory in eliminating the Aiken law but saw defeat in being denied a test run of the controversial Brannan agricultural plan.

Under the Brannan plan, perish-able crops would be allowed to sell at what the market would pay; then the government would pay the farmers the difference between the support level and the average price the farmers got.

The Pace bill, which embodied provisions for a trial run on three farm products of the Brannan plan, lost out, 222-152.

A substitute for the Pace bill, the Gore measure, suspending the Aiken law and continuing the present farm program, won by a final vote 383-25

One of the surprises of the session was the very few votes cast to keep the Aiken law alive.

Corridors of the house office building where the meeting was held were filled with lobbyists for

various farm organizations. Police had the area roped off. Democratic Leader I

INCOMES: Profits Decline

Net corporation income, according to the securities and exchange commission dropped to an esti-mated two billion, 400 million dol-lars after taxes, in the first quarter of this year. THIS INCOME

was approximately 16 per cent below the profits for the corresponding quarter of 1948 and 18 per cent below the preceding quarter.

The drop in sales, the report said, more than offset lower costs and expenses.

Experiencing the largest declines in net earning were the large corporations. These lower profits were said to have been reflected in lower rates of return on stockholder's equities.

The SEC reported: "The ratio of profits after taxes to stockholdequity for corporations over 100 million dollars in assets dropped from an annual rate of 18 per cent in the fourth quarter of 1948 to 14.4 per cent in the first quarter this year." SMALLEST-SIZE CLASS corpor-

ations with less than \$250,000 in assets showed an increase from a small loss to 8.4 per cent. All but two of 22 industry groups

showed declines in profits after taxes from the fourth quarter of 1948 to the first of 1949.

ARMISTICE: Israel-Syria Accord

Syria and Israel have signed an armistice agreement that will keep their military forces behind their international frontiers and established demilitarized zones in the contested areas.

THE CEREMONY, taking place between the Israeli and Syrian fighting lines in north Galilee, will lead, it is hoped, to an early settlement of issues between Israel and the Arab states in the Lausanne. Switzerland, talks of the UN Palestine conciliation commission.

Israel has signed armistices with all the Arab countries that took part in the Palestine conflict-Egypt, Lebanon, Iraq, Jordon and Syria.

The agreement is another tribute to the skill of Dr. Ralph Bunche, UN mediator, and Brig. Gen. William E. Riley, US chief of staff. IT HAS been agreed that un-restricted civil life may be re-sumed in the demilitarized zones pending final peace negotiations when an international boundary will be clearly defined.

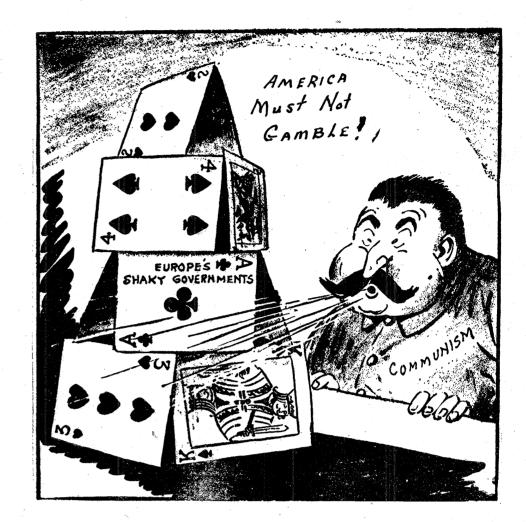

The agreement calls for the withdrawal of defensive forces to a line three and a half miles deep on either side of the armistice line. This keeps the Arab legion and the Israeli troops out of grenade-tossing distance of each other.

GUATEMALA: Rebellion Off

A military revolt in Guatemala against the government of President Juan Jose Arevalo died out. Calm spread over the capital after 24 hours of fighting that followed the assassination of Col. Francisco Javier Arana, chief of the armed forces.

Do You Believe In Americanism?

Do You Believe In Communism?

Who Wants To Be A Communist?

Beware of the poker shark

Nations and individuals seek their own ends and little less than attack by a treacherous enemy has brought them into united action. Yet today, at the dawn of a new era—the era of prosperity the challenge to Americanism is stronger than it was in war time. We know that the very existence of true Americanism depends on how each individual holds the basic principles of democracy.

Governments are instituted among men; deriving their just powers from the consent of the governed. Government is not man's master; on the contrary government is man's servant: chosen by man to protect the God-given rights of mankind. Humanity today is bound with chains of steel-greed and personal and selfish immorality holds mankind in a state of thraldom.

Who is an American?

CRAZY FISH Searchers after the unique can find the "screwiest" fish acquar-

ium in the world at the University of Toledo, Ohio. As a by-product of research into means of boosting the stock of fish in the nation's lakes and rivers, Floyd J. Brinley, physiologist, has developed the following:

Thirty-three-eyed brown trout. Trout with extra transplanted hearts outside their bodies which continue to pulsate after the fish have died.

Trout babies which, in the interest of determining the effect of oxygen on the heart action of fish, live in oxygen "tents."

ATOM DATA: **England's Needs**

Reports say the administration has investigated the possibilities of sharing atom-bomb secrets with Britain by executive agreement without action by congress. Some law-makers have sought to tie the President's hands.

The idea has been discussed but no decision has been reached to carry it through. It is considered a matter of the senate-house atomic committee, the state department, the armed services and the atomic energy commission. A secret meeting at Blair House was thought to have been called by Fruman to discuss the matter. The United Kingdom and Cana-

da co-operated in atomic development during the war and are be-

(Mass.) argued that opponents of the Pace bill were obligated to offer some kind of alternative.

"I'm concerned about the consumer," he said. "When he reads about millions of bushels of potatoes being burned under the present farm program, he wants to know what's wrong."

WARNING:

Pact Okayed

Russia received a warning that any further aggression in Europe will be considered an attack upon the United States. The warning came in the form of an 82-13 ratification of the Atlantic pact by the senate.

It was the first time in American history that a peacetime pledge had been made that the United States will take action (military action. if necessary) if certain other nations are attacked.

UNDER the north Atlantic treaty this nation and 11 other nations pledge that an attack upon one will be considered an attack upon all. The pact also pledges that the 12 members of the treaty shall prepare for mutual defense before the need for military action actually arises.

A small minority waged bitter opposition to the pact during the 13 days of senate debate upon it. Three Republicans, Wherry of Nebraska, Taft of Ohio and Watkins of Utah, tried to write a reservation into the treaty, specifying that ratification did not impose upon the United States the moral or legal obligation to supply arms to the other 11 signers.

The heavy vote for ratification and the impressive vote against arms reservations were victories for the senate bipartisan foreign policy. Only two Democrats voted against ratification—Johnson

Some sources say Great Britain can produce an atom bomb of its own if it decides to concentrate on the problem.

Britain may have threatened the United States with loss of uranium ore from British-owned Belgian Congo mines if the U.S. refuses to yield atomic secrets. Britishers have been resentful

that their observers were not allowed at the Eniwetok bomb test. Roosevelt established the precedent of presidential co-operation with Britain in things atomic without congressional authorization.

HOUSING: Modest Home

A modest home may be built for \$5,900, federal rent director Tighe Woods has proven. He was trying to solve the military's housng difficulties.

The over-all size of the house is 15 by 38 feet. The price includes sewer and water systems.

Chairman Vinson (D., Ga.) of the house armed services committee said he was going to examine Wood's home near Fort Belvoir. Va. The committee has studied a military construction bill authorizing the armed services to spend more than 449 million to house 7,795 military families.

THE BILL would limit homes in the United States to \$16,500 cost each with no limit on those built abroad.

FORT GUARDIA DE HONOR the seat of the revolt, was regained by loyal troops and civilian volunteers. All fighting ceased.

Forty persons were reported killed, according to the police director. No United States citizens were among the casualties.

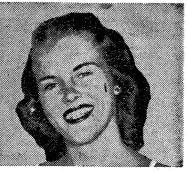

Observers said the colonel was killed because he refused to lead an uprising against the government, and then his death was used as an excuse to attack the government.

Among those fighting were many who belonged to a political party backing Arana for president. All state ministers were loyal to the president.

THE GOVERNMENT armed large groups of civilians for the battle against the rebels. Several United States citizens

were endangered by the fighting but none were injured.

Queen

Is there anyone to dispute the decision of the judges in selecting Janice Harvell, 18, of Caro-Beach, N. C., as queen of lina the Lions? The smiling miss the title in competition won with beauties of other nations. The crowning occurred at the 32nd annual convention of Lions International at Madison Square Garden, N. Y.

PROTEST:

Reds Denied

Russia protested against Italian membership in the north Atlantic alliance, but her protest was denied by secretary of state Dean Acheson. Russia claimed Italy's participation was a violation of a treaty she had with Russia and other allies after the war that she would join in no alliance directed against any of the victors. Acheson denounced the Soviets.

A true American believes in liberty as defined at its highest source and democracy in its purest sense. A real American believes in free enterprise, th encouragement of small and large business; free from any transitory or false notions of security.

Upon the firm foundation of the following truths: God is the creator of all men; that personal rights of men are God-given. The glory and prosperity of our beloved country has steadily risen through the years as the crowning wonder of the world. These truths have made America great.

Singing Holidays

Lesson for August 14, 1949

TF A CITIZEN of the U.S.A observed all the holidays that are officially counted' as legal, somewhere in his wide country, he would

have 43 days off every year. Holidays are a national habit in all countries. Not content with what the law gives us, we take our personal vacations besides. But how many holidays do we sing about?

(One might even Dr. Foreman dare to ask, how

many are worth singing about?) In the United States, there are known to this writer no New Year songs, none for Decoration day or Labor day, none for Armistice day, none for the various birthdays celebrated hither and yon. (Who ever heard of a song to commemorate Thomas Jefferson?) We may not even sing on our personal vacations, we are too busy working up a sun-tan. On the other hand, we could hardly think of Independence day, Thanksgiving, Christmas and East-er without being reminded of the songs that go with them—**The Star** Spangled Banner or America the Beautiful for the Fourth of July, Now Thank We All Our God in November, and all the Christmas and Easter carols.

God and Country

T looks as if some kinds of holidays produce songs and others don't. It appears to be a general If the holiday is specially rule: patriotic or religious, then people sing; otherwise they don't. God and country, in short, arouse emotion and enthusiasm which (for example) the memory even of a great man like Jefferson, or the planting of a tree, does not. This is generally true throughout the world. It was true in ancient Israel, for many of the Psalms are holiday hymns, festival songs. Some years ago a religious denomination issued **a** new hymn book. One minister roundly denounced the book because it had introduced a few patriotic hymns. "My Country, 'tis of Thee" has no place in public worship, he said.

If that man had been a closer student of the Psalms, he would not have made such a criticism. Most patriotic hymns are really prayers for one's native land: Psalms 105 and 106 are only two of a number of Psalms which are in the best sense of the word patriotic.

federal housing subsidies must eliminate slum dwellings in an amount

equal to the number of public housing units provided. A Washington business service has

assured home builders that the federal housing program will call for only about 15 percent of the housing industrie's total capacity of one million homes per year. As subsidized rents are limited to low-income workers, it is the intent of Congress that the program will meet a demand almost nover filled in the past by private builders.

Governor Williams may have had this in mind when he declared builders had failed to do the job. Home builders do not agree.

In the long run, the public wll be the judge.

If the reader will look through the Psalms for himself, noting all the references to God and to Israel. remembering that Israel was the name of the poet's country, he will be convinced that in those times as in these, love for God and love for country are singable.

Hallelujah

O^{UR} word "Hallelujah" is Hebrew, and comes from the Psalms. It means "Praise ye the Lord!" Incidentally, it is a religious word, and should not be used, as it so often is, irreverently or lightly. Psalms 111-118 ' in our Bible were sung as a group, and called the Hallel, or the Praise. The Hallel was sung regularly at the three great holiday festivals: Passover (near our Easter time), Pentecost (in early summer, ancestor of our Whitsunday), and Tabernacles (in the fall).

When our Lord had his "Last Supper" he and his friends would sing these very Psalms. The "hymn" they sang before they went out was very probably the latter part of this group, 116-118, always sung at the end of the Passover meal.

The note of praise in these Psalms is very strong. They are not in a minor key.

Parodies

A SAD FACT today wis that the un-Christian world, which does not understand religion at all, has taken over our religious holidays but leaves the religion out. The result is a parody, something without rhyme or reason. Take a look, next winter, at Christmas greeting cards for sale. You will find scotty pups, all sorts of things, more easily than you will find true Christmas messages.

For people who are not Christians, Christmas is only Xmas, a time for exchanging useless presents, a time for shopkeepers to make money.

And as for Easter, there are cities where the big items are only the bunnies and the parade, neither of which has the slightest thing to do with the real Easter.
