## Red Devils Down The Pellston Football Team 39-6

### PELLSTON'S WELL-KNIT TEAM DEFEATED BY RED DEVILS. CHARLEVOIX THERE TODAY

A big, rugged, Pellston football team returned home Friday smarting from a 39-6 defeat at the hands of East Jordan.

Although Pellston, with a squad of close to sixty boys presented a well-knit team, the hard hitting Red Devils completely demoralized them with a touchdown parade that started in the first five minutes.

Don Cutler led the scoring as he reeled off one long run after another. Probably the most sensational was a 59 yard gallop in the last quarter behind some beautiful downfield blocking. Cutler scored twice in the first quarter and from then on Pellston had its back to the wall, gamely fighting all the way.

Cutler crossed the goal line five times while Red Evans tossed in another touchdown. Red Evans and Joe Hammond also plunged for extra points.

Al Chanda and Dan Thomas stood out in the line which lacks weight but makes up a lot in fight.

East Jordan and Charlevoix tangled at Charlevoix, Friday afternoon at 3:00.

Coach Devine would only say, "It should be a great game between two good teams. We don't intend, however, to go over just for the ride."

Line up is the same as last week.

### Hopeful Sportsben To Hunt For Antlerless Deer

Approximately 14,000 hopeful sportsmen already have applied for permits to hunt antlerless deer in four Lower Peninsula areas during a special gun season Dec. 1-10.

In all, 21,800 such permits may be issued for the four areas.

Deadline for mailing applications for permits to the conservation department is Oct. 10. If applications exceed the total of permits, as seems likely, selections of names will be made Oct. 20.

Forty-five hundred permits will be issued to hunt antlerless deer in Charlevoix, Antrim and north-eastern Traverse counties; 15,000 in Leelanau, Benzie, Grand Traverse and Manistee counties; 800 in a portion of Allegan county; and 1,500 in Newaygo county north of highways M-46 and M-82.

Owners, leasees or sharecroppers who derive major portion of their livelihood from farms in areas in which they request permits to hunt during the special season are granted permits on receipt of applications.

### Labor Leaders On A & P's Side In Trust Case

A deluge of telegrams from the nation's labor leaders and thousands of messages from consumers, all voicing opposition to the anti-trust suit against A & P Food Stores, have flooded the company's New York offices, an official of the food chain said today.

Union heads representing butchers, meat cutters, clerks, warehousemen and truck drivers, began sending wires as soon as news of the suit calling for company dissolution reached the press. At the same time, thousands of consumers have swamped A & P headquarters with phone calls, telegrams and letters praising the company's operations and criticizing the anti-trust charges.

The labor chiefs brand the suit an attack against organized labor and a threat to current living standards. All oppose the action of the anti-trust lawyers and pledge support of A & P's plan to defend its low-price retail policy.

Reflecting the sentiments of thousands of organized workers in food and allied industries, the messages stress A & P's high wage scales and excellent working conditions.

Earl W. Jimerson, president of the Amalgamated Meat Cutters & Butcher Workmen, an A. F. of L. affiliate, in regretting "the action taken by Attorney General Howard McGrath," said his union was ready "to aid your company in any way we can."

Jimerson's wire referred to A & P as "almost thoroughly unionized," and assailed the action as a sinister move to single out the Great Atlantic & Pacific Tea Co. Stating that "the whole suit is merely a blast at organized labor," the message added that the company meets union wage rates throughout the country.

"This friendly attitude," it continued, "is reflected in your company's dealings with practically all other unions affiliated with the American Federation of Labor."

A wire from the teamsters' union, Boston, said that "in view of our excellent labor relations with the A & P, Local 829 will do all in its power to publicize that the A & P pays the highest wages and provides the best working conditions for all of its employees," and "is one of the largest contributors to the high standard of living the American public now enjoys."

The message was signed by John E. Hamilton, John J. Greely, and John C. Harrington, business representatives of Local 829.

Similar statements were contained in telegrams from all parts of the country where A & P operates.

## Marriages

### Barkley — Kowalske

The Methodist parsonage at Boyne City was the scene of the marriage of Miss Betty Arlene Barkley, daughter of Mrs. Edna Heaton and Carl Barkley of Boyne City, and Lyle V. Kowalske, son of Harry Kowalske, East Jordan, Sept. 23, at 8:00 p. m. Rev. H. C. Alexander read the single ring ceremony.

The bride chose a street length dress of navy slipper satin. She wore a corsage of yellow roses. Pat Walker, bridesmaid, wore a street length dress of blue taffeta and her corsage was of pink carnations. The groom was attended by Robert Anderson of East Jordan.

Following the ceremony a reception was held at the home of the groom's aunt, Mrs. Robert Kowalske, for friends and relatives. The refreshment table was centered with a four-tiered wedding cake, topped with a miniature bride and groom. The refreshments consisted of sandwiches, wedding cake and coffee.

The bride and groom spent the week end at Pontiac. Mr. and Mrs. Kowalske are at home at one of the B and B cottages at Boyne City.

### LaPeer — Petrie

Marriage rites of Caroline May LaPeer, daughter of Mr. and Mrs. Clyde LaPeer, and Robert Petrie, son of Bertrand and the late Sadie Swain Petrie, both of R. 3, East Jordan, were solemnized at the Pleasant Valley church, Saturday, Oct. 1st, by a candle light ceremony, in the presence of a large number of guests. Rev. Howard G. Moore, pastor of the East Jordan Methodist church, officiated at the double ring ceremony, against a background of autumn leaves and baskets of gaily colored flowers.

The bride, given in marriage by her father, wore an aqua gown with short puff sleeves and slim skirt. Her corsage was of pink roses and white baby chrysanthemums. Matching flowers on a foundation of dark veiling formed her headdress.

Neva Wilson was bridesmaid and wore a gray dress with full skirt and low neckline. Her corsage was of yellow roses and white chrysanthemums. Bryce Petrie, cousin of the groom, acted as best man.

Darlene Brooks, niece of the bride, and Judy Gilkerson, cousin of the groom, were ring bearers, and Susan Petrie, cousin of the groom, was the flower girl. All three wore pastel dresses fashioned alike. Lou Ann Wilson sang "Because" and "Always" and was accompanied at the piano by Anne Warkman.

The bride's mother chose for her daughter's wedding, a beige dress and her corsage was yellow and white chrysanthemums. The groom's grandmother, Mrs. F. W. Swain, wore a corsage of chrysanthemums, and Mrs. Rex Petrie, aunt of the groom, wore a corsage of roses.

A reception was held after the ceremony and the young couple left immediately on a trip through the Upper Peninsula before going to Lansing where they will reside.

Guests who attended from a distance were: Mr. and Mrs. Geo. Brooks and daughter of Detroit, Mr. and Mrs. Russell Petrie of Detroit, Mr. and Mrs. Henry Swain and Mr. and Mrs. Otto Spence of Lansing.

### Blossie — Poe

Katherine Anne Blossie, daughter of Mr. and Mrs. Albert Blossie of East Jordan, became the bride of Myron F. Poe, son of Mr. and Mrs. Lincoln M. Poe of Highland Park, Michigan, Saturday, Sept. 10, at 2:30 p. m. in the Chapel of Trinity Methodist Church, before an altar of lighted tapers, Rev. Shigeo Tanabe performed the double ring ceremony. The bride was given in marriage by her brother, Kenneth, of Detroit. Traditional wedding music was played by the organist, Helen Summers, including "Because" and Mendelssohn's "Wedding March."

The bride chose a gown of white taffeta with a marquiset inset at the neck and a fitted bodice. The skirt had straight lines in the front and a fullness in the back which terminated in a circular train. She wore a two strand necklace of pearls. Her finger-tip net veil was held in place by a tiara of orange blossoms. She carried a white Bible with a cascade of gardenias and baby mums.

Margaret May Blossie was her sister's maid of honor and only attendant. She wore a dusty rose

## President Truman Says to Give Generously

### COMMUNITY CHEST CAMPAIGN STARTS OCT. 17th LOCALLY

President Truman appealed to all Americans last Friday night to band together in support of the \$185,000,000 Community Chest campaign starting Oct. 17th. He urged every citizen to give generously.

Our East Jordan budget of \$4,528.25 seems very small compared to the millions to be raised nationally. However it is a large budget for this community and we will indeed have to give generously. \$3,796.00 of this sum is to be used in East Jordan and its school district, much of this amount supporting Betty Robinson's health program and Dan Devine's recreation program. There is enough included to take care of relief and emergencies.

Our United County budget is small in comparison, only \$732.25 for all its services. This includes funds for the revived U. S. O. which President Truman has asked to have put into our drive as an essential element for our national security. "It provides a home away from home for more than a million and a half young men in the nation's armed forces." Speaking of the varied services furnished by the community chest agencies, the

president stressed the co-operative method under which the different communities were united in a single drive.

When you support your Community Chest this year you will be giving to the Michigan Chapter of the Arthritis and Rheumatism Foundation. This Foundation is working to find and make available an effective treatment for this terriblecrippler whose victims number 7,000,000 in the United States. The Michigan Chapter is now sponsoring clinical research projects in six hospitals and is seeking funds to pay for more.

Those interested in the United Health and Welfare program will want to read the full-page editorial in the October 1st Saturday Evening Post, as well as the editorial in the Oct. 1st Detroit Free Press.

You will be interested to know that the American Cancer Society has accepted the funds raised last year by our United County Drive. The National Foundation for Infantile Paralysis refused our money as it did that which was offered by Midland and many other towns in the state. These two big national organizations as well as Red Cross are planning separate drives for this county. Funds for them are not included in our United Red Feather Drive.

### Legion District Convention at Mancelona

The American Legion and Auxiliary District Convention was held at Mancelona, Sunday, Oct. 2nd. The parade formed at the Legion Home and marched down town to the Oddfellow Hall, where the Auxiliary held their meeting.

The meeting was called to order by the president of the Mancelona Unit and then was turned over to the Past District President, Rose Humphrey. The minutes of the previous meeting were then read. A report was given by Rose Humphrey on the National Convention.

The meeting was then turned over to Emma Lund Allen, our 4th Zone Vice President, who installed the District officers. The District Officers installed were: District President — Hilda Bathke, East Jordan.

District 1st Vice — Mrs. Coil, Wolverine.

Sec. and Treas. — Mildred St. Charles, East Jordan.

Historian — Rose Humphrey, Cheboygan.

Chaplain — Mrs. Voight, Boyne City.

The incoming officers were taken to their places and our District President, Hilda Bathke, then took over the meeting. She appointed Mrs. Coil as Membership Chairman.

Reports were given by the committees. A report was given by Marie Lamarr of Alpena, past Historian, on her book.

The meeting was adjourned for refreshments at the Legion Hall.

### First Presbyterian Church Edward O. DeHaven, Pastor East Jordan, Mich.

Our Sunday Church School begins at 9:45 a. m. with classes for all age groups. We are still Growing. We made another good gain last Sunday in our Church School and we are gratified to know this. There are still some missing, however. We will soon be starting our second year of the Christian Faith and Life program in our Church School. Our teachers are now being briefed on this program so that when we begin it they will be able to do excellent work with our children. They have a lot of enthusiasm about it and are working hard. We are sure that the children and young people will derive some fine knowledge and excellent training in the Christian life this year. So we are urging every home where there are children who do not have any church home or who have not been attending Church School to avail themselves of this fine opportunity to learn from God's Word these excellent lessons for life.

The Church Worship service begins promptly at 11:00 a. m. The Sermon subject for this coming Sunday will be, "Jesus and Men". The Christian is a citizen of two worlds; the world that now is and the world that ought to be. He is a part of the existing order with all its imperfections and shortcomings and heartaches. Yet he can never accept the present order as final. He owes allegiance to the way of life as set forth by Jesus in the four Gospels. Come and worship with us on Sunday morning.

The Westminster Youth Fellowship will meet at 6:30 p. m. promptly. Marianne DeForest will lead the Worship Service.

The Session will meet Thursday evening, Oct. 13, in the Manse at 7:30.

The Choir will rehearse on Thursday evening of each week now.

### Careful Check Urged To

Avoid Fires in Homes

With the advent of fall, State Police Commissioner is urging householders to carefully check cooking and heating equipment to prevent home fires.

Leonard, who is also state fire marshal, pointed out that according to past experiences such fires will claim a heavy toll of lives within the next few months unless every precaution is taken.

"Last year 164 persons lost their lives in fires in Michigan," he said. "The majority of these deaths occurred in homes and most of the victims were children."

"There were 15,000 dwelling fires with a loss of \$7,000,000. More than 8,500 resulted from cooking and heating equipment. The greatest number of deaths was due to the use of a petroleum liquid, such as kerosene, to start stove or furnace fires."

"With the arrival of colder weather heating equipment again comes into use. All such equipment should be carefully checked and every defect repaired. Combustible material should be removed to a safe place. Take every precaution to protect your home."

Leonard said the recent Noronic disaster in Toronto was a horrifying example of how quickly fire can bring tragedy. The commissioner visited the scene to assist Michigan survivors and aid in identification of Michigan dead.

"The sight of the blackened and contorted bodies in the morgue was a stark reminder that fire can be a deadly enemy as well as a friend. The impact was all the greater when one realized that, unless the rules of prevention are followed, what happened on the Noronic will happen in many, many Michigan homes, but the accumulated effect in loss of lives and property will be even greater. Now is the time to take that ounce of prevention."

Fire Danger Greater In Rural Dwellings Than In City Homes

A call to all farmers for extra efforts in fire prevention was made this week by agricultural extension specialists of Michigan State College in preparation for Fire Prevention Week, Oct. 9-15.

Citing that danger of loss of life by fire is greater in a farmhouse than in a city home, the specialists urged farmers to make sure that their farms will not become another figure on the annual toll.

Fire losses in Michigan last year included 164 lives and almost 30 million dollars worth of property.

While house cleaning this Fall, check your house for possible fire hazards in each room. Oiled rags, old papers, and even your oiled dust mops stored away in closets, attics or basement are a fire hazard.

Potatoes are full of vitamin C and are the most inexpensive year-around source of the vitamin in Michigan. They also contain certain B vitamins and some iron according to home economists at Michigan State College.

A better cooking method for boiling eggs than using hot water is to place them in cold water and bring the eggs and water to a simmering temperature together.

For whipping egg whites—keep at room temperature and they'll whip more quickly and to a greater volume advise home economists at Michigan State College.

Lauder new towels before using them to increase their absorbency advocates Gertrude Mueller, head of the laundry at Michigan State College.

Good coffee can be made only in a clean pot. Cleanse with a baking soda solution frequently and rub soda around well in the seams, spout and lid.

# A&P, TOO, TAKES OFF ITS HAT TO MR. C. WHIT BLOUNT OF WAYNESBORO, GEORGIA

## Competitor Denounces Suit Against A&P

THE BOLD three-column advertisement in the current issue of the Waynesboro True Citizen catches the reader's eye. We quote it in full.

To our notion that advertisement by C. Whit Blount states the economic and governmental aspects of the case against A&P with a clarity and forcefulness that most of the editorial comment has lacked.

Also it strikes us as a fine example of sportsmanship in business.

Incidentally, it is about as effective an advertisement as could have been written for Mr. Blount's "Grocery".

Makes you sort of wish you were in Waynesboro to trade with him, doesn't it?

### A Word For Our Competitor The Great Atlantic & Pacific Tea Co.

There has been a move by the anti-trust department of the Federal Government to destroy our leading competitor, the A&P Food Store.

It may seem odd, but we are opposed to this move.

The A&P Co., is definitely our strongest competitor - they keep us hopping. But, we are still in business - And Expanding. We do it by selling quality merchandise, buying at a close margin and selling at CLOSER margin.

The so called "trust-busters" charge that the A&P Co. control some of the production and processing ends of the food business. As a result, they hold the cost price down on foods.

#### WELL, WHAT'S WRONG WITH THIS??

If A&P holds the costs down, it makes our suppliers hold their costs down to the same competitive level. They can sell cheaper, AND SO CAN WE.

We intend to continue to try to sell better merchandise than A&P; We also will continue to have competitive prices.

BUT, We don't believe the government, or any individual should try to break up a firm that is doing a good, clean, efficient job of serving the people of this country.

WEEKLY NEWS ANALYSIS

Red Delegate Urges U.N. Accord; World Awaits Pound Cut Effects; Walkouts Plague Major Industry

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

RUSSIA:

A 'Sweet' Note

The Russian theme in international accord was growing a little sweeter, if Andrei Y. Vishinsky, Soviet foreign minister could be taken at his word.

WEARING a broad smile, Vishinsky had urged United Nations members to cooperate. The gesture was made by the chief delegate as he arrived in New York by plane to attend the fourth United Nations general assembly sessions.

Dismissing the usual brusque "no comment" for reporters, Vishinsky was almost voluble. "The Soviet delegation," he said, "is fully confident that the United Nations is—as the head of the Soviet government, Stalin, said—a serious instrument for the maintenance of peace and international security."

Then he added: "There can be no doubt that the general assembly would be able to solve the important problems before it providing the nations of the U.N. show a sincere desire to cooperate with each other and in accordance with the principles of the U.N. charter."

Other delegates, advised of this and remembering the almost innumerable Russian "vetoes" in matters where cooperation might have been most valuable, decided to await development at assembly sessions to see just how far the Russian affable manner would go.

DEVALUATION:

Wait and See

To say that reaction to Britain's devaluation of the pound sterling was mixed, would be an understatement. Instead, reaction ranged from hope to fear, from confusion to jubilation. "I told you so's" from all those who had held that devaluation was the only answer to Britain's current economic crisis.

AND that was the chief rub—was the solution one that would solve just the current situation, or was it the entire answer? The bulk of the thinking on that angle was that it was not the long-range panacea, with most observers preferring to "wait and see" before committing themselves to any analysis of the devaluation effect.

Meanwhile Canada had joined the parade of English-connected nations devaluing the pound.

THE DEVALUATION move was a two-edged sword in the British dollar crisis, for just as it might result in increased buying of British goods by Americans because of lowered costs, it would mean, too, that the English would have to pay more for the items they bought at home. The pound value was cut from \$4.03 to \$3.07, an action which alarmed most importers.

While expressing fear the move would cost them a great deal of money, most traders said they "didn't know a thing" yet and couldn't speculate until they had some word from British manufacturers.

SOME DEALERS and importers declared they would take a beating on the reduced values of their inventory of British goods already bought and paid for at \$4.03 to the pound.

Fire Hazards

Of course one can live in a fire-trap—but the question is: How long?

The National Fire Protection association, calling attention to Fire Prevention Week October 9-15, poses this question and points out that 11,000 people lost their lives in fires last year. More than twice

Dry roof is vulnerable.

that number were seriously injured. One-third of that number, the association reported, lived on farms.

Reporting that a few structural hazards account for at least half of all farm fires, the NFPA urged farmers to take steps now to eliminate such hazards. These steps were listed as: checking of wiring systems; wetting down of inflammable roofs in dry weather; inspecting heating plants and chimneys, and protection of main buildings with lightning rods.

MARSHALL PLAN FUNDS

Money Helps Fight Disease in Europe

Critics of the Marshall plan could find little fault with one phase of it, at least. For the record showed that through this means the United States was throwing the full weight of modern medical science into Europe's battle against war-spawned disease and malnutrition. This was disclosed by ECA officials in Paris.

Through the Marshall plan,

New Justice

Judge Sherman Minton, of U. S. circuit court at Chicago, was named by President Truman to succeed the late supreme court Justice Wiley B. Rutledge.

WALKOUTS:

Cars, Coal, Steel

American industry, fighting to regain pre-war stability, was facing parlous times. John L. Lewis' coal miners had left the pits. The United Automobile Workers union had handed the Ford Motor company what amounted to a strike notice, and now the steel industry was next.

WITH these basic U.S. industries all down, production suspended, millions of workers out of jobs, the national industrial and economic picture appeared dim indeed.

President Truman was coming in for some blame in the steel industry dispute, with critics charging he had "fumbled the ball" in efforts to prevent a strike.

Four days before the deadline for start of the strike, federal conciliator Cyrus Ching had reported no progress in negotiations. Neither side would budge on the key point in negotiations.

The union contended that since it had agreed to forego its demands for a pay raise, the steelmakers should accept the presidential fact-finding board's recommendations for a company-financed welfare fund. While this seemed to satisfy steelworkers, it didn't please the UAW.

ON the other hand, the steel industry was buying newspaper space to claim that it was agreed at the outset that the presidential board's findings would not be binding on either party, and that if a strike resulted, the union would have to assume the responsibility.

Steel leaders took the position, too, that the workers should contribute to the pension-insurance plan costing 10 cents an hour for each man.

BOMBERS:

Gives Reds Pause

The declaration came from a man whose qualifications entitle him to the rating of expert—Gen. Henry H. Arnold, wartime chief of U.S. air forces. The statement, made in a book, "Global Missions," was that it isn't armies or navies that Russia fears, but only far-reaching bomber strength.

"Let's put it this way," the general wrote. "Russia has no fear of an army, she thinks hers is just as good and bigger than any other in the world; she has no fear of a navy since she can't see how it could be employed against her; but she does fear our long-range strategic air force which she cannot as yet match, or as yet understand. In the strategic air force, coupled with our atomic bomb, at this writing we hold the balance of power in the world."

"But," he warned, "by tomorrow the picture may change."

Arnold minced no words in the dim view he takes of the Russians. "The Russians," he says, "would have none of the American proposal that the American air force be allowed to build B-29 bases in Siberia to attack Japan." Similarly, he recalled that agreement for bases in Russian territory to be used for shuttle-bombing of Germany, was ended after a short time by Moscow.

The air force, in the current squabble over armed-service prestige as a result of the unification bill, could take much solace and encouragement from General Arnold's statements.

ARMS BILL:

Meddling Feared

The 1.33 billion dollars arms-aid bill had a stalwart supporter in Sen. Arthur Vandenberg (R., Mich.) who termed it a bargain-price peace insurance policy against Communist aggression.

He said he feared that any "meddling" with the bill might impair its force and effect.

Vandenberg, chief Republican spokesman in the senate on foreign policy, declared that the arms-aid program might be regarded either as life insurance or fire insurance and said that in any case it is a bargain policy as far as peace is concerned.

Referring to the North Atlantic defense pact, he said that pact included a pledge to maintain forces that can resist armed attack. Too, he pointed out, European allies have weaknesses that the arms bill would help overcome.

Vandenberg declared that it would be in "honorable keeping" with U.S. treaty obligations to adopt the arms bill. "I think it is definitely and specifically in the interests of our own national defense," he went on. "I think it is a discouragement to war... I think it is prime and vital peace insurance."

He argued that the plan to send American tanks, guns and planes to Europe falls squarely within the commitments of the North Atlantic pact which the senate ratified by a vote of 82 to 13.

He denied sending arms abroad would mean the start of an arms race between the East and West.

Vandenberg's active support for the measure was expected to help it materially in winning final adoption in the senate, since many dissident Republicans would probably go along on the basis of Vandenberg's admitted stature in the field of foreign policy and because of his prestige in the senate.

U.N. TOP MAN:

Soviets Object

Over Soviet protest, Brig. Gen. Carlos P. Romulu, anti-Communist campaigner from the Philippine islands, was elected president of the fourth United Nations general assembly. Only the five nations of the Soviet bloc opposed his election.

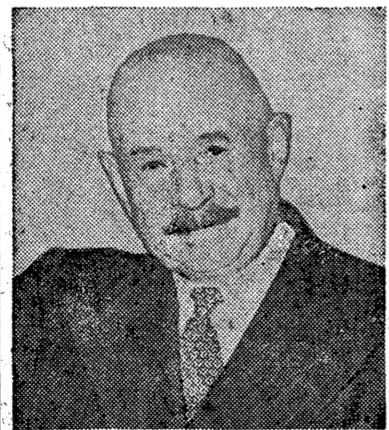

IGNORING the Soviet attitude, Romulu's first act was an appeal that the delegates make this gathering a real "peace assembly."

According to newsmen, Yugoslavia apparently voted against the Soviet bloc for the first time, in the secret ballot for president, but declined to admit it publicly.

The new president, acknowledging that many obstacles to peace still exist, said the danger of a new war had abated and that the delegates must press this advantage.

HE CALLED upon them to move forward boldly in the spirit of international cooperation called for by the Mexican resolution approved unanimously in Paris last year. Romulu's choice as chief of the assembly was seen as indicating friction in debate on issues as the Soviet bloc could be expected to fight the anti-Communist leader at every turn where opposition could be maintained. Top Russian delegate Vishinsky had also spoken out for harmony, but on the basis of past performance by the Russians, his attitude was open to doubt.

Anti-Red

Karl Peyer, one of the most courageous oppositionists to defy communism in the Hungarian parliament, is shown beaming happily on his arrival in New York.

RAILROADS:

One Fireman

The Brotherhood of Locomotive Firemen and Enginemen wouldn't like it, but nevertheless, there would be only one fireman on diesel locomotives. The presidential emergency board had ruled that a union demand for a second fireman on these locomotives was out of line, rejected the demand.

THE BOARD said simply that there is no need for an extra fireman on diesel-powered locomotives now in use.

TRADE BODY:

Carson Okayed

Despite some vigorous Republican opposition, John J. Carson was confirmed by the senate as a member of the federal trade commission. The Truman appointee was confirmed by a vote of 45 to 25. Carson's economic views came under heaviest fire from the Republicans, with many charging him with lack of sympathy for the American free enterprise system. Carson, 59, is a former newsman.

# The School Bell...

Because of sickness, Mrs. Brooks was not able to meet with her first grade group the first three weeks of school. Mrs. Watson substituted for her. She returned to school this week.

We have nice flowers. We do nice work. We take walks. We like school.

## SECOND GRADE — Agnes Johnston

We had much fun in our reading classes last week. Group two prepared to dramatize the story, "Who Will Ride", taken from their reading book. The wagon and dolls used in the story were furnished by group one. If we can prepare the story well, we may give it for an assembly some day.

It was fun coloring and folding the P-T. A. programs that we took home to mother. We were happy so many of our mothers and fathers were able to attend the P-T. A. Harvest Supper.

Many interesting picture and story books have been brought to school for all of us to see and enjoy. We liked Floyd Holley's book "Snow White". —Susan Giffard brought a book on "Animal Babies." The pictures in the book showed many animals that we

knew. We talked about there baby animals in connection with the movie we saw, "How Animals Protect Themselves".

Mary Joe Olson brought some beautiful pansies to school. They were grown in her own little flower garden.

Jimmy Gidley brought us a few interesting looking gourds to school. We have them on one of our reading tables.

Alfred Nelson had a birthday last week. He was seven years old.

## SECOND AND THIRD GRADES — Adeline Bowerman

Sue Ann Dye left our second grade and will enter school in South Carolina. She gave us a very good report of her experiences in Guam.

Our officers this week are:— Student teacher, Donna Neumann; Safety boy, Roger Sweet; Safety girl, Janet DeHaven; Librarian, Sandra Giffard; Floors, Tony Martinek; Blackboards, Bobby Sherman; Flowers, Jane Campau.

We are enjoying a stereopticon and pictures of Hope Indian Life which we borrowed from the State Library.

Bobby Sherman gave us a very interesting report of a trip he had to Good Hart, Cross Village, to Mackinaw and back. He brought a souvenir Indian Peace Pipe.

For a home project, the girls are dressing their dolls as Indians and the boys are choosing either tom-toms, peace pipes or something made of birch bark.

The two movies which we saw on Tuesday gave us a good idea of the clothing of the Indians, and the one "Fun on the Playground" suggested Indian games we can play.

## THIRD GRADE — Jessie Hager

Barbara brought a coconut to school. Her daddy brought it from Japan.

We have 36 pupils in our room, 12 girls and 24 boys.

We are working hard on our addition and subtraction facts.

## FOURTH GRADE — Mrs. Galmora

We have a chart and we put all different kinds of leaves on it.—Mary Ann Martinek.

We are bringing all kinds of leaves—oak, elm, beech, ash, cherry, walnut and others.—George Derenzy.

The school saw a dog show. The dogs danced and did tricks.—Keith Ogden.

At the P-T. A. we saw a movie in the Band room.—Gerald Green. There is no school Thursday and Friday.—Fred Kamradt.

Mrs. Galmora's and Mrs. Snyder's rooms are putting on a Pet Show. It is going to be Tuesday or Wednesday.—Gene Richards.

Gerald Green is bringing a crow and Suzanne Seaman is bringing a cat to our Pet Show.—Beverly Kent.

We're going to have a Pet Show. I'm going to bring my two dogs and my dad's pet chicken.—Diane Taylor.

I saw a big, black bear at our farm this summer. I have a goat and it knows tricks.—Stanley Scott.

In school we are studying the United States.—Clare Crawford. Our class is making a map showing the Lincoln Highway.—Betty Lou McRoberts.

## FOURTH GRADE — Mrs. Snyder

One day we made rhymes about the leaves that are so pretty now. Here are a few of them:

I had a pile of leaves one day  
All heaped upon the ground.  
I jumped in them while out to play,  
Then no leaves were to be found.

—Donald Russell.

The leaves on the trees  
Are gold and brown.  
When the wind blows  
They're all over town. —Glen Kowalske.

Look at the leaves  
All yellow and brown.  
Soon they will be falling  
Down, down, down. — Judy Taylor.

The leaves are softly falling  
They are yellow, gold and red.  
I covered up my brother  
On a great, big leafy bed. — Wendy Knudsen.

Linda Bustard found a big puffball in the woods, Sunday. She brought it to school to show us.

Last Friday we waxed leaves to decorate our room. Donald Russell brought a hot plate and Mrs. Snyder let us dip the leaves in the hot wax and put them on newspapers to dry. We pinned them up on our bulletin boards. We also colored some leaves and then pressed them with a hot iron. The color was transferred to the paper and made nice designs.

Mrs. Drapeau comes to our room on Tuesdays and Wednesdays for music. We sing lots of songs and have much fun. One of the favorites is "Ten Little Tadpoles".

We are writing to English children. Some of us received letters thanking us for pencils we sent them and we are writing letters back. Nicky Myers has sent hers already. It went to a little boy in Kent. He is 4 years old. Nicky is hoping that he will write to her soon.

## FIFTH GRADE — Sadie Liskum

We have finished the first section of our social science, the Southeastern States. We have studied the main crops and how farming methods have changed.

We have read how each colony was started. All this material has been written up in class and put into notebooks. Each pupil colored a map and drew pictures to illustrate his book.

In arithmetic we are reviewing our multiplication tables. Only three children really know their tables: Sandra Boswell, Deanna Derenzy and Janet Malone.

We are working on three dimension pictures for Halloween.

## SIXTH GRADE — Frank Malone

We had four boys and one girl new to our school this year. They are Patricia Collins, Fred DeHaven, Dennis Wilson, Arnold Musser and Bob Dye. Bob has already left us. He has gone to Charleston, S. C. Bob came the greatest distance, coming from Guam.

We have three birthdays this week: Arthur Prevo, Ralph Wycoff, and Darlene McRoberts. All are 12 years old.

Clarence Hughey is back in school after being absent for two weeks.

Gene LaLonde is out of school with a broken wrist.

## SIXTH GRADE — Alma Larsen

Thurlan, Fred, Gary, Eddie and Dick are going to Charlevoix for the football game. — Jon Jan-kovial.

We elected new officers for our club which is called the "Citizenship". Fred Clark was elected president, Phillip Raymond, Sec'y-Treas.; and I was elected Vice-president.—Margaret Murray.

We had a fire alarm, Tuesday, Oct. 4, during our singing lesson.—Deanna Lehrbass.

We have a new girl, Wanda Chapman, in our room. She came from Fountain, Mich. — Jane Jackson.

## Rev. & Mrs. L. Schloop Tell of Their Trip To Lima, Peru

Letter from Rev. and Mrs. Lloyd Schloop from Conquistador 576 San Isidro, Lima, Peru, to her parents, Mr. and Mrs. Vern Vance:

The trip to Chicago was good and we had a nice week end with uncle Will and aunt Lucillas. We left Chicago a little after midnight. Our trip down was really nice. By air it was beautiful. We could see the millions of lights scattered all over and the towns seemed so close together. We could see the streets and occasionally a car driving down the country road. I didn't sleep much as I was too fascinated looking out the window. We arrived in Dallas a little before 7 a. m. Tuesday. We waited about three hours in Dallas then on to Houston. We stopped at Havana, Cuba and Balboa, All were terribly hot. It was interesting looking down on the Countryside around Havana. It had a beauty all its own. The fields were either square or rectangular and were varying shades of red and green. The soil was reddish color. The countryside was dotted with palm trees.

We arrived in Lima at 5 a. m. Wednesday and most of the general committee of the church were at the airport to meet us. We were brought to the house and found that Treva Overholt of Lansing had hired a maid for us. The Committee had everything ready and flowers everywhere. The houses here have no central heating system, ours has a fireplace. Friday evening there was a farewell party for the Nordruffs. He has been given a fellowship at Columbia for a year's study. He is chairman of the church committee and has done a marvelous piece of work in the mission church and school here in Lima. We went up in the mountains for a picnic lunch, the sun shines there continually and is really hot. Seemed wonderful to be really warmed through again.

Saturday I was initiated in the way of marketing here. The market is large and crowded with booths and piles of food. In Peru there are either the very rich or very poor. The foreigners make up the middle class. Then we saw the places where the people who sell in the markets live and it is almost unbelievably bad. When we stopped the car at the market place a swarm of boys ran to the car. We each picked one to carry the baskets. You pick out the food you want and put it in the basket, then try to understand what the seller wants in money. Of course I would be lost alone.

Saturday there was a meeting of the general committee. In order to make Lloyd a member of the committee it is necessary to change the constitution, submit the change to the congregation and then to the government. The minutes of each meeting of the committee must be sent to the government. Sunday morning the church service consisted of an induction service. Saturday evening I received an orchid from the church to wear on Sunday. It was beautiful.

Seems strange that we are so far from home. Still seems a bit unreal. Will be looking forward to hearing from you.

Patricia and Lloyd M. Schloop

**"And this will be our recreation room!"**  
Jack: "Whatta you mean, 'recreation'? You call that old furnace and all this ductwork fun? Besides, there's no room for a room here!"  
Mac: "Hold on. I said, 'will be.' We're takin' this old battleship out, and replacing it with a modern Lennox Heating System! And a Lennox is so compact it will take up just a tiny corner down here. We'll have plenty of space for a dandy play room."  
Jack: "Go on—and I suppose you're inferring a Lennox can save anybody lots of extra space, and still keep 'em warm and comfortable. You're probably a special case!"  
Mac: "Special, my foot! Why, there are complete Lennox systems that can be installed in small recesses, inside walls, beneath floors, even up in attics! What more d'you want?"  
Jack: "Not a thing, pal—except the name and address of my nearest Lennox dealer."
