The square dance sponsored by the East Jordan Community Chest at the Tourist Park Wednesday night after the drawing was very well attended and everyone had a grand time. Plans are being made to have another dance Wednesday, August 2nd.

Midjet and Junior Teams Beat Boyne City

The Midget and Junior baseball teams defeated Boyne City in a doubleheader Thursday at East Jordan. Both games were very well played. The midgets came from behind to win their game while the Juniors led all the way.

On Saturday the Junior team played the Rock Elm Grange team in another good game. The Rock Elm boys were playing their second game with the East Jordan Juniors since the formation of their team. Keith Evans had a home run, a double and a single in three times up, to pace the winners.

Adult Softball

Sunday night the East Jordan All Stars travel to Charlevoix for a game with John Knight's Charlevoix team. This should prove to be a very good game. "Duffy" Daugherty, football coach at Michigan State College, who has several no hit games on his record of pitching, will probably take the mound for a couple of innings for the East Jordan boys. Bob and Bill Carey spark the Charlevoix team.

The second round of the Softball league opened Tuesday night with the Co-ops beating the merchants 16-5. The Co-ops are composed largely of last years high school baseball team and along with the East Jordan Iron Works appear to be the strongest teams in the league.

Phil Malpass Takes First Place In Chain of Lakes Race

Phillip Malpass of East Jordan topped first place honors in the Third Annual Chain-of-Lakes Marathon last Sunday at Elk Rapids.

Malpass, who used an aluminum boat powered by ten horse-power Mercury motor, was the first boat to finish in the whole field and also the first boat in his Class B field.

The course was originally planned to cover a distance of eighty miles. Because of the roughness of the water on Torch Lake, the portion of the run up to Eastport was eliminated from the course. This cut the course distance down to approximately fifty miles.

In the class A division, Stuart B. Meach of Traverse City took the first place bows. Bob Switzer of McHenry, Illinois, held the second place spot. Switzer was the first place boat in the Midget Marathon held at Central Lake on Saturday. Dick Cunningham of Grand Rapids, took the third place berth. Cunningham was the youngest and smallest man in the whole race but he handled his boat like a seasoned veteran.

Malpass took first place in Class B with James Manning of Whitmore Lake holding down the second place spot. Third place went to W. D. Snyder of Detroit.

In class C, it was W. R. Magel of Jackson in first place with Hawthorne of Detroit in second and Robert Findling of Detroit coming in third.

F.ank Huebner was first in Class D but he was disqualified for missing a bouy at Alden so he got the third place honors. First place went to Mike Crane of Owosso. Crane has taken the first first place all three years in his class. Second place in Sunday's Class D went to James A. Murphy of Detroit.

Trophies were awarded to the first three drivers in each of the four classes. Sweepstakes prizes went to the three drivers who made the best time. Malpass took the first place sweepstakes prize of a hot water heater, Manning received a trailer dolly and winch from the Tee Nee Trailer Co. for coming in second, and Crane won a gift certificate for a propeller from the Michigan Wheel Co. of Grand Rapids.

Bud Grable of Grand Rapids won five dollars from Del's Tavern in Traverse City for having the worst luck in the race. His boat and motor caught fire and was completely destroyed. His boat was valued at approximately \$800. It was the only fire in the race but several of the boats, tipped over.

Auxiliary Meeting

The American Legion Auxiliary Unit 227 held a short meeting Tuesday evening, July 11, at the Legion Home. Edna Wilkins presided. Several fine committee reports were given.

We were all very proud to learn that Marcella had been honored with the office of Clerk for the 1950 Girls' State. Marcella thanked the Auxiliary for giving her the privilege of attending Wolverine Girls' State and she wished all girls might have the same opportunity. The Unit is happy to be able to send girls from our community to this fine institution of learning and hope that what Marcella learned there will be of great value to her.

The meeting was followed by a bingo party which was well attended by friends as well as members and everyone had an enjoyable evening.

Cyclists Amazed By Chocolate

PARKER SEILER AND LYN NEAL GIVE ACCOUNT OF THEIR TRIP

These lads left Mt. Pleasant in June on a 2,500 mile bicycle trip. Below is an account of their trip so far.

Dear Editor:
We are at this time in New York City taking in the sights. We spent 18 days enroute and covered 923 miles with our bicycles.

We will have a few pictures of interest to send in the next letter for you, as you mentioned, it is while traveling.

In Pittsburgh, we visited the Homestead Steel Works. This plant holds the world's production record although it is second in size to a sister plant in Gary, Indiana.

The huge plant covers 350 acres and employs 12,500 workers. To our surprise they burned fuel oil instead of coke in the open hearth furnaces, using 100,000 gallons daily.

The tapping was a spectacular sight. We had to wear dark glasses in order to watch the flaming molten steel as it poured from the open hearth furnaces into 250-ton ladles. Another interesting sight was in the rolling mills. There we found monster-like machines rolling out 30-ton blocks of steel (ingots) into thin sheets which are then cooled and shipped to various industries.

It wasn't until we neared Akron, Ohio, that we encountered our first challenging hills. We later discovered that these were but mere "bumps" in the road compared with crossing the Allegheny mountains in Pennsylvania. Even so, we managed to ride all but a very few of the inclines.

At the Hershey Chocolate plant in Hershey, Pa., we saw how candy is processed. Hershey is the largest chocolate plant in the world, employing between three and four thousand workers. An interesting fact is that two-thirds of these employees are women. They can pack a box of candy as "quick as a wink".

The plant uses over a million pounds of milk daily and turns out about 750 tons of chocolate products in the same period.

It was like walking through Fairyland, for everywhere you looked you would see chocolate kisses, candy bars, or cans of syrup.

We are meeting many curious people along the way. In Lansing, Mich., a policeman yelled out, "Great stuff, I could use 100 miles of that myself."

Another fellow weighing about 250 pounds said he would like to quit his job and come along with us.

A few think we are crazy but many others give voice to their envy of our adventures. Several have gone out of their way to be hospitable, such as the caretaker near Toledo, Ohio. He invited us over for bacon and eggs one morning as we awoke from sleeping in our tent.

Yes sir, this is a great way to see and meet America.

Sincerely,
Parker Seiler and Lyn Neal

WHAT IS A BOY?

Between the innocence of babyhood and the dignity of manhood, we find a delightful creature called a boy. Boys are found everywhere—on top of, underneath, inside of, climbing on, swinging from, running around or jumping to. Mothers love them, little girls hate them, older sisters and brothers tolerate them, adults ignore them and Heaven protects them. A boy is Truth with dirt on its face, Beauty with a cut finger, Wisdom with bubble gum in its hair and the Hope of the future with a frog in his pocket.

Never miss an opportunity to make others happy, even if you have to leave them alone to do it.

When firemen arrived, it was almost impossible to enter the house. They had to crawl on their hands and knees into the living-room in order to drag out the furniture and personal belongings.

After fighting the fire for almost an hour, the Central Lake fire truck, which is equipped with two high pressure hoses, was gradually diminishing its water supply. Spence cut his hand while putting a garden hose through the basement window to run water from there back to the truck.

Adolph Kowalske, 71, Dies at His Home in Rogers City

Adolph Kowalske was born at Manistee July 20th, 1879, and passed away suddenly from a heart attack at his home in Rogers City July 13, 1950.

When a boy he came to East Jordan with his parents. When a young man he went to Sault Ste. Marie where in 1906 he married Dolene Fabin, where their children, Russell, Alice, Raymond and Doris were born. For the past 25 years he lived at Rogers City.

He was a member of West Minister Church and the Rogers City Masonic Lodge.

Funeral arrangements were made at McWilliams Funeral Home. Surviving besides the widow, are two sons, Russell and Raymond; and two daughters, Alice and Doris. Two sisters, Mrs. Grace Bartlett, East Jordan; Mrs. A. a Richardson, Billingham, Washington; A brother, Fred, Melbourne, Fla.

Funeral services were held Sunday, July 16, from the West Minister Church, conducted by the pastor, Wm. J. Lachaw. Interment in Rogers City Memorial Park. Grave services under the auspices of the Masonic Lodge.

The relatives from East Jordan who attended the funeral were: Mr. and Mrs. Ira Bartlett, Mr. and Mrs. Norman Bartlett, Mr. and Mrs. Bruce Bartlett, Charlevoix; Mrs. Ed Kowalske and Mr. Rudolph Kowalske.

The right is reserved by the Common Council of the City of East Jordan to accept any proposal, to reject any proposal or to waive irregularities in proposals.

First Presbyterian Church Edward O. DeHaven, Pastor

The closing program of the Community Vacation Church School will be held in the Presbyterian Church Friday evening, July 21, at 8:00 p. m.

The Sunday Church School meets Sunday morning at 9:45 a. m. with classes for all ages.

Carl Spence Home Partly Burned in Pleasant Valley

The Central Lake Fire Department battled a fire for more than two hours at 9:30 a. m. Sunday at the home of Carl Spence in Pleasant Valley.

The fire gutted the main section of the house destroying the living room and bedroom on the main floor and one of the two bedrooms directly above these rooms.

The fire broke out in Spence's bedroom while he was taking his children to Sunday School. He had left a nine year old son asleep at home. The boy discovered the fire and summoned his father.

When firemen arrived, it was almost impossible to enter the house. They had to crawl on their hands and knees into the living-room in order to drag out the furniture and personal belongings.

After fighting the fire for almost an hour, the Central Lake fire truck, which is equipped with two high pressure hoses, was gradually diminishing its water supply. Spence cut his hand while putting a garden hose through the basement window to run water from there back to the truck.

Levi Donaldson and Pete Wieland arrived with the Ellsworth fire truck to assist the Central Lake crew. A fish bait truck was brought up to replenish the Central Lake truck's water supply.

The bathroom, kitchen and other rooms in the south section of the house were not damaged by the fire. The Central Lake truck remained at the scene until 1 p. m. to extinguish the fire if it should happen to break out again.

The Community Vacation Church School Closes This Week

We will bring to a close this week one of the finest ventures in co-operation and service that the churches of this community has thus far promoted. This is the Vacation Church School. There has been a wonderful experience of co-operation in this endeavor and it has been very fruitful.

If one is to judge by the interest and regularity of the children this has been well-appreciated by them. For the first week we had an average attendance for the week of 92 daily. The children have been interested and helpful in every respect.

Friday evening we are having the closing program for the School in the Presbyterian Church and we are inviting the public and the parents to join us in this program. We are sure you will be delighted in the accomplishments of your children. As a part of this program we have received an offering each day which will be sent to some agency to help in Christian work elsewhere. This is a part of the teaching of sharing with other boys and girls.

The expenses for this school will be taken care of by an offer-

WEEKLY NEWS ANALYSIS
United States Ground Forces Sent Into Korea; Uneasy World Fears Crisis May Lead to New World War

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

KOREA WAR: U. S. Fights

Eight days after the Communists of North Korea invaded United States sponsored South Korea the people of the democratic nations were breathing a little easier, with only an occasional shiver of fear sweeping down their spines.

Developments in the crisis, which could yet plunge the world into World War III, came quickly after the initial invasion.

Using tanks and planes which the southern forces lacked, the Communists swept through Seoul and within 12 miles of Suwon, important air base of South Korea.

The army of South Korea made stand after stand, but could not halt the Russian made tanks and planes used by the Communists. Within 48 hours after the opening attack South Korea was in a difficult position and for a time it appeared the invaders would sweep south with less and less opposition.

Then came the historical order of President Truman sending United States navy and air force units to the aid of South Korea. It was followed two days later with an order sending U.S. troops to the battle line.

Military operations developed quickly and with surprising efficiency. Observers throughout the world were astonished at the speed with which the United States got fighting forces into the field.

Following the President's first order, the air force in Japan and naval units in that area, were put under command of General MacArthur. The planes immediately attacked Communist troop concentrations, tanks and planes. The navy blockaded the Korean coast.

Within 24 hours after the second order, troops had landed in South Korea and were well on their way to the front.

Meanwhile, the South Korea army had rallied and established a temporary line along the Hon river. The Communist army crossed the river at one point and advanced toward Suwon.

General MacArthur has at his disposal in Japan four U.S. infantry divisions, consisting of 15,000 men each, a number of tanks and heavy guns. Whether or not he will use all of them depends upon developments within the next week or two, observers reported.

The military picture in Korea remains confused and the future depends almost entirely upon what the Russians decide to do in the way of aid to the North Korea army.

Responsible sources report American and South Korea forces, using tanks, planes and heavy guns which the United States will provide, should check and then drive out the Communists. Experience and material throws the advantage to the democracies—that is, if the Soviet Union decides not to take an active part in the affair.

MURDER: Admits Arson

Newspaper readers throughout the country forgot the Korean crisis long enough to express horror over the confession of a 20-year-old Circleville, O., youth who admitted setting the Ringling Brothers circus fire in Hartford, Conn., in 1944 that killed 168 persons and injured 412 others.

The youth, Robert Dale Segree, also admitted that he was personally responsible for the slaying of four persons.

The youth admitted setting between 25 and 30 major fires in Portland, Me., between 1939 and 1946 and other fires in New Hampshire and Ohio.

He confessed killing a watchman who caught him setting a fire in a warehouse in Portland, Me., March 16, 1943; a 12-year-old boy, strangled to death on the beach at Cape Cottage, Me., in 1943; a 9-year-old girl, beaten to death with a stone during a fit of anger, and a Japanese boy, killed in Japan in 1949 while Segree was in the United States army of occupation.

Segree gave this explanation of the fires:

A flaming red Indian horseman awakens him at night and tells him to set the fires. Then his mind goes blank and the next thing he remembers is that the fires have been started. The red Indian then is off his horse. He drives Segree away with taunts and sneers.

Red Amazons

These poker-faced girls, held at a South Korea guardhouse, were members of a Communist guerrilla band that crossed the border and which was finally driven back. The girls said they were conscripted as guerrilla fighters when they proved too weak to help pull plows.

EUROPE: A Case of Shakes

Europe suffered a severe case of "shakes" following the outbreak of the Korean conflict. Europeans saw the horrors of World War II as it progressed across that continent from east to west, and what they saw will not soon be forgotten.

With this memory and a strong belief that Russia had finally come from behind the iron curtain to fight World War III, the nerves of Europeans were, at the breaking point for the first week of the crisis.

As the situation developed, however, the tension eased, but by no means vanished. In many areas, Berlin for instance, the majority felt World War III had begun. In other sections the thought persisted that it was a dangerous situation, but with hopes it would not set the world afire with war.

Some of the reactions: Vienna—Austrians were beginning to breathe easier after the first week of war jitters, but there remained widespread fear of war. There was a notable surge of growing confidence in the United Nations and the United States.

Frankfurt—The Germans, both east and west, were plainly scared at the possibility of the Korean struggle drawing Europe into a shooting war.

Berlin—War fears in Berlin apparently were worse than at the start of the Soviet blockade of Berlin two years ago.

London—Extremely disturbed over the possibility of war, but approved the action of the United States. The thought persisted that the Russians are not ready for a full scale war.

UNITED STATES: A United Front

More than anywhere else in the world, the Korean incident was uppermost in the minds of Americans. There was a great fear of war in all sections of the country. But most surprising reaction was the united front presented to the rest of the world.

Americans in every walk of life approved of President Truman's action. One and all approved the decision that told communism that the United States would stand by its commitments and the point had been reached where democracy would make a stand against totalitarianism.

Even congress, which has presented a confusing picture of inconsistencies during the Truman administration, approved of the chief executive's action.

Senator Taft of Ohio, apparently unwilling to rise above the political view, took the opportunity to demand the resignation of Secretary of State Acheson. Many observers found his senate speech untimely. He demanded the resignation of Acheson on the grounds his policy in the Far East had been reversed completely by President Truman and he had, therefore, been operating under the wrong policy. For that reason he insisted Mr. Acheson had outlived his usefulness.

Rep. Vito Marcantonio, noted for his Communist leanings, added his voice of protest, but most people were inclined to consider the source and let it go at that.

Politics

A new movement was seen in the Republican party following a meeting in Philadelphia of representatives from 10 states and issuance of a "declaration of principles."

TAXES: House Votes Cut

The 1950 tax bill, much to the amazement of Washington observers, won the approval of the house of representatives with a top-heavy vote of 375 to 14. As the measure went to the senate, observers were not making any predictions.

The bill calls for \$1,010,000,000 of reductions in the excise taxes annually paid on furs, jewelry, luggage, toilet articles, admissions, communications, transportation and many other items.

The revenue loss, however, is offset by provisions to increase corporation taxes \$433,000,000 annually and close loopholes in other tax laws.

Observers were making no predictions about senate action because of complexities stemming from the Korean war. Many senators have indicated the tax problem would be much different and any relief might be ruled out if the situation developed demanding increases in this country's military budget.

The Republicans have been fighting the measure because of the proposed increase in corporation taxes.

Also in the tax news, federal revenue in May soared nearly half a billion dollars above that of the same month a year ago.

But the total for the first 11 months in the fiscal year ending July 1 was still more than a billion below that of the corresponding period of the preceding fiscal year, the internal revenue bureau reported.

The revenue in May from individual and corporation income taxes and from employment taxes was well up last year. For example, the individual income taxes collected in May were \$1,878,357, 644, as compared with \$1,604,794,824 in May, 1949.

DRAFT LAW: Boys Must Register

President Truman signed the draft bill into law. It gives him unrestricted authority to order inductions resumed at any time and empowers him to put the National Guard and the reserves on active duty any time he sees fit to do so.

The law runs until July 9, 1951, and males from 19 to 26 are subject to induction.

Observers were not much surprised at the extension of the selective service law after the Korean incident hit the headlines. Before that, however, congress was in a knock down drag out battle over the bill.

When first considered last spring there was considerable doubt that the lawmakers would grant a continuation. At the minimum, they wanted to limit the President's power to start inductions going again. The Korean situation, however, brought about quick agreement.

GAMBLING: Blow to Bookmakers

A senate subcommittee investigating gambling throughout the country has released the names of more than 2,000 subscribers to racing news wire services.

The move was newsworthy in that it should prove "useful" to local law enforcement officials in combating gambling.

Senator Ernest W. McFarland, chairman of the committee, said his group had no proof that any particular individual on the list was a bookmaker. He pointed out that some listings—for newspapers, radio stations and the like—obviously fall outside the gambling realm.

But he added: "I believe the majority of those listed are bookmakers."

The committee has announced plans to hold hearings this month in Miami, St. Louis, Kansas City and Chicago.

Nominated

Willis Smith and Mrs. Smith cast their votes in the North Carolina run-off primary. Smith defeated Sen. Frank Graham, one of President Truman's southern supporters. The Democratic nomination is tantamount to election in North Carolina.

EMPLOYMENT: Near Record

Employment in the United States in June soared to the highest levels reached since the record month of July, 1948, statistics from the bureau of the census revealed.

Agricultural employment rose to 9,046,000 compared with 8,062,000 in May. Nonagricultural employment rose by 750,000 to a total of 52,436,000 between May and June. For five straight months the employment has increased.

AMERICAN YOUTH CRIES OUT FOR LEADERSHIP

There is mischief as well as piety in the faces of these choir boys. Can you resist them?

Boyish voices singing praises to God! What a far cry from gamin shooting craps in back alleys and mouthing vileness and curses in corrupt places!

Are you concerned about juvenile delinquency? Negative programs will never correct the defects in which youth problems breed. The Churches have the answer in positive programs, in worthwhile things to do, in boy choirs, scout troops, clubs, Sunday School classes, and other church-sponsored activities which build character.

But activities are not enough in themselves. There must first be a training in reverence and worship. And then there must be the development of Christian comradeship and unselfish service. Activities laid upon such foundations in the church program are the things which save.

Offer your services this week to your home church. You will have the time of your life, and share in the saving of America. Our youth of today will be American's citizens tomorrow.

Farm Facts

POTATO MEETING SET: Potato farmers who want to find out more about the current potato situation should plan to attend a special meeting on the Michigan State College Campus, Monday, July 24, at 1 p. m. There will be talks on potato marketing agreement and price support programs. Another item of business will be a discussion of whether or not they should form a state organization.

Fires, falls, machinery and livestock cause nine out of ten fatal accidents on Michigan farms. Most of these accidents are preventable or avoidable.

Fire fatalities can be prevented by disposing of rubbish before it can accumulate by keeping brush cut back from buildings; by having spark screens on chimneys and fireproof roofing; by never starting a fire with kerosene; by keeping matches far out of reach of children; by replacing frayed wiring and defective electrical equipment; by never refueling a heated tractor; by having a fire extinguisher and the fire department number handy; and by never leaving your children at home alone.

Falls can be prevented by keeping stairs in good repair, well-lighted, uncluttered, and protected by handrails; by keeping ladders in good repair and seeing that they have secure footing and

"MY SON IS INNOCENT!" Bear the dramatic story of a boy unjustly accused of stealing and expelled from school, a disgrace to all except his mother. Read how her grim determination turned him into a hero, as told in "Let Right Be Done" in the American Weekly with this Sunday's (July 23) issue of Detroit Sunday Times.

LATE BLIGHT WARNING: Michigan potato and tomato growers should be alert for late blight infection in their fields. E. A. Andrews, Michigan State College extension plant pathologist, says that the southern blight situation appears as bad as 1946, a record year for infection.

Reports coming to MSC from Ohio and Indiana which indicate that the blight has his tomatoes a month earlier than usual. Heavy rains and cold weather are an aid to the spread of spores.

Andrews believes that blight may get started in Michigan fields earlier than usual this year. He recommends a thorough spray program to help cut down losses.

New growth should be kept covered with Bordeaux mixture or fixed copper solutions. Two new fungicides, nabam and zineb, are also effective and should be used according to manufacturers' directions. Ed Rebmam, county agr agent, reported that Charlevoix farmers have been fortunate in the past in that there has not been too much blight in this county. However, prevention is the only safe measure.

POULTRY SCHOOL SET: Raising chickens is more than just gathering eggs. The technical side is important to growing healthy birds, too. To help train people in flock selection and brood testing, the week of July 24-28 has been set for this topic at Michigan State College.

Howard Zindel, Michigan State College extension poultryman, reports that a comprehensive program has been set up for the flock selection and blood testing school. Topics to be discussed include opportunities in the poultry industry, disease control, economic trends, sanitation, selection and blood testing techniques.

Information on the school can be obtained by writing to the Poultry Department, Michigan State College, East Lansing, Mich.

National Farm Safety Week July 23-29

TO ELIMINATE HAZARDS AND UNSAFE PRACTICES ON YOUR FARM

Farming is one of Michigan's most dangerous occupations. One-fourth of all who are killed at work are killed on farms.

"Use National Farm Safety Week, July 23-29 to eliminate the known safety hazards and unsafe practices on your farm," the Michigan Department of Health is urging Michigan farmers.

"If every Michigan farm person will eliminate just one known hazard, just one unsafe practice during Farm Safety Week, hundreds of Michigan people may be saved from accidental death and thousands of others can be saved from being scarred, maimed or crippled for life or from spending needed money for prolonged and costly treatment," the Department said.

Fires, falls, machinery and livestock cause nine out of ten fatal accidents on Michigan farms. Most of these accidents are preventable or avoidable.

Fire fatalities can be prevented by disposing of rubbish before it can accumulate by keeping brush cut back from buildings; by having spark screens on chimneys and fireproof roofing; by never starting a fire with kerosene; by keeping matches far out of reach of children; by replacing frayed wiring and defective electrical equipment; by never refueling a heated tractor; by having a fire extinguisher and the fire department number handy; and by never leaving your children at home alone.

Falls can be prevented by keeping stairs in good repair, well-lighted, uncluttered, and protected by handrails; by keeping ladders in good repair and seeing that they have secure footing and

a good slope; by putting guards around open chutes or stairs; by making sure that porch rails are strong and window screens securely fastened; by putting non-skids on little rugs; by wiping up liquids or grease from the floor as soon as they are spilled; by building racks for farms and garden tools and having places for brooms, mops and dust-pans, and seeing that they are kept in their places.

Machinery fatalities can be prevented by keeping the tractor and machinery in the best repair; by keeping a watchful eye on combines, threshing machines, corn pickers and shredders, cutting equipment, shafting, belting and gears and seeing that their guards are in place; by never wearing torn, loose or floppy clothing while operating revolving machinery; by oiling, adjusting or cleaning out clogged machinery only when it is entirely shut down; by never letting your small child ride on the tractor and by keeping him away from all harvesting machinery.

Livestock accidents can be prevented by getting rid of temperamental and unruly horses and bulls; by approaching even the gentlest farm animal with care, a pat and a reassuring word and using special care around animals with young; by building a strong bull pen; and by making sure that harnesses, whiffle-trees and all horse-drawn equipment are in good repair.

Traffic kills or maims many farm people. Cut down the brush that obscures your view of the roadway, use care in entering highways and observe all traffic signs. Be sure that all equipment you take onto the highways during hours of darkness or at dawn or dusk is properly and plainly lighted. Transport your slow-moving farm machinery at the hours of least traffic and give speedy passenger cars plenty of room in which to pass.

You are less apt to be hurt when you are physically and mentally alert. Get a good night's rest every night. Plan your farm work to avoid tensions. Don't work until you are exhausted. Get some rest and recreation. Eat three good regular meals a day. Cover your head when you are in the sun. Drink plenty of cool, not cold, water. Tired people, hurried, irritated, nervous people, hungry people and faint people are the ones to whom most accidents occur, the State Health Department said.

At Our Tourist Park

On Wednesday evening, July 12th, the park recreation building accommodated the VanderArk families. There were approximately 75 in attendance. This gathering was highlighted by the presence of Dr. Lena Holkeboer, missionary to China for thirty years. She is unable to return to China now, since United States Government does not recognize the China government. She plans to leave this next September for Java where many of her Chinese friends have immigrated due to Communist intervention. Dr. Holkeboer, in a very interesting talk, gave many exceptional illustrations of life & conditions in China. Another honored guest was August VanderArk who happened to be celebrating his 27th birthday while home from a Tennessee College where he has one more year before he becomes a Baptist minister. Guests were from Holland, Grand Rapids, Newaygo, Ellsworth and East Jordan. The group disbanded after a short impromptu program and a lunch of ice cream and cake was enjoyed.

The tenants in our park are wondering if we have been misinformed as to the laundry room to be installed. We heard work was to be started immediately, but that was a month ago. We are keeping our fingers crossed and hoping.

Monday evening the Mancelona Rotarians treated their wives to a lovely dinner on the dining room porch. The best part of all was that it was all prepared and served by Mrs. Chase who operates a restaurant in Mancelona.

Also on Monday evening the local firemen and their families enjoyed a co-operative dinner in the recreation building. Besides shuffleboard, the group was entertained by Ole Hegerberg and his performing bear.

Our park is beginning to fill up with trailers at last. Among the latest tenants to arrive are Mr. and Mrs. Willis Tiffany and two sons of Manton, Mr. and Mrs. Alfred Pearson of Sparta, Mr. and Mrs. Eugene Shangles of Sparta, Mr. and Mrs. Joe Simpson of Ypsilanti and Mr. and Mrs. A. M. Brothers of Cincinnati, Ohio.

Mrs. Arthur Henderson of Bay City, a former park tenant, called at the Meredith home one day last week.

Guests at the Gordon trailer home are Mr. and Mrs. John Lancaster of Poneto, Indiana.

Tuesday evening over one hundred attended a co-operative dinner in the recreation building when the married couples of the Atwood Reformed Church with their families met. The shuffleboards were over-crowded the whole evening and the park was alive with gaiety.

Mrs. Harold Whiteford and son are entertaining her brother and wife, Mr. and Mrs. Donald Harrod and daughter, Carol Mae, of Flint who are staying in one of the Vance cabins; Mrs. Gertrude Crosssett, Mrs. Pearl Handyside, nurse in Grace Hospital, Detroit, and Mrs. James Handyside of Flint who are occupying one of Shedina's cabins. On Thursday evening Mrs. Whiteford entertained them to a picnic dinner. Her mother-in-law, Mrs. Thomas Whiteford, was also a guest.

Eight young ladies from Ellsworth gathered here during the afternoon and evening for a weiner roast in honor of Miss Avis Muelman, who with her family is moving away this summer.

Mr. and Mrs. Lee Armstrong of Pontiac were guests at the Meredith home on Tuesday.

Many family suppers and get-togethers have been held the past week in the smaller kitchens. We marvel at the out of town folks who enjoy the hospitality of our park. Do East Jordan residents appreciate it as much. We wonder.

Everyone here seems to be looking forward to the dancing class to be started this week Wednesday evening in the park recreation building. We hope it will be a big success.

home, the former Howe place, called at the Wm. Gaunt, Sr., home Friday.

WORKING DOLLARS: Americans in all walks of life, who invest their savings in telephone securities, make it possible for us to give you more and better telephone service. Their money is used to expand the telephone system . . . increasing the value of your telephone by providing more telephones that you can call.

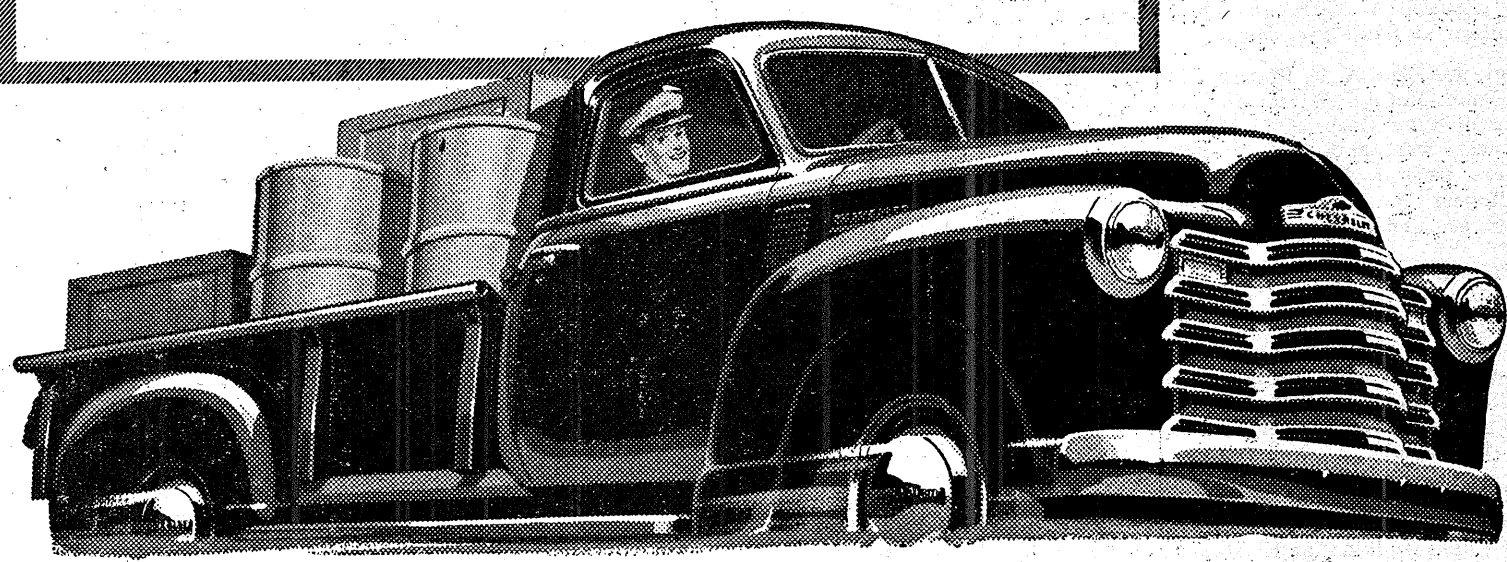

VOICES WITH A SMILE—Many Michigan Bell operators have attended meetings recently to hear themselves talk—in wire-recorded conversations with other girls who took the part of customers. They've learned that the tone of their voices often can make a big difference in the quality of telephone service. Perhaps you've already noticed an improvement in your service as a result of these meetings.

MORE JOBS—Twelve years ago, only one-tenth of the telephones on Michigan Bell's rural lines were dial. Today, more than two-thirds of the rural-line telephones are dial. And yet Michigan Bell now employs more than twice as many operators as twelve years ago.
