Nyland-Addis Vows Spoken In St. Joseph Rectory

Miss Joyce Ann Nyland, daughter of Mr. and Mrs. Howard Nyland, and William James Addis, son of Mr. and Mrs. Lawrence Addis, both of East Jordan, were married Oct. 4, at 12 o'clock noon, in the St. Joseph rectory with the Very Rev. Joseph J. Malinowski officiating.

They were attended by Mr. and Mrs. Donald Ager, friends of the couple.

The bride was attired in a green checked gaberdine suit wearing brown accessories and a corsage of pink and white carnations. Mrs. Ager chose a gray gaberdine suit with black accessories and a corsage of white carnations.

Following the ceremony a luncheon was held at the home of the brides' parents. The linen covered refreshment table was centered with a four-tiered wedding cake decorated with white rose buds, topped by a miniature bride and groom, which was made by the bride's sister, Mary Lou Nyland.

Assisting with the luncheon was Mrs. Harold Nyland, aunt of the bride. Mrs. Alfred Larsen served the wedding cake. After a short wedding trip through Northern Michigan the couple will make their home with the bride's parents for the present.

The groom is a graduate from the East Jordan High School class of '51 and is now employed by the Superior Electric Co.

Those from away to attend the wedding were: Mrs. Cora Nyland and Miss Lois Nyland, Kalamazoo; Mr. and Mrs. Garrit Hoffman, Grand Rapids; Mr. and Mrs. Harold Nyland, Central Lake; Mrs. Paul Doctor, Mrs. Harold DeYoung and Mr. and Mrs. Joseph Hoffman, Atwood.

Ward — Shields

Word was received here of the marriage of Miss Virginia Ward, formerly of East Jordan, and William M. Shields, of Detroit, on September 11, 1952. The wedding took place in Fort Lauderdale, Florida, and they are now residing at 5005 North Miami Avenue, Miami, Florida, where they will make their permanent home.

Methodist Rally To New Power!

This is the time of year when Methodists stir themselves to put new life into folks who have leanings toward Methodism, but for some reason have not affiliated themselves with a Church Home. There are two forces behind this Mission of Methodist evangelism. One is the Minister. He is the leader and guide, and a powerful influence for good indeed. The other even greater force is the closely banded group of people who are the church members. In reality, they are All Lay Leaders. Their inspirational privilege is to strongly encourage all the immediate community who are Methodist minded to join the assembly of Active Church Membership.

We all want to exercise the tremendous spiritual conquering influence which is far stronger than the army, navy, and air force combined. We realize that the United Spiritual Energy which each of us possesses individually, can make America irresistible in its God Directed task of feeding the bodies, minds, and Souls, of those peoples who cannot see Light in the future.

Remember, we are All Leaders, whether we want to be or not. One of our former great Presidents of the United States, once said, "A Leader is a man or woman who sees something that needs doing, and then does it."

A life-guard at the bathing beach is recognized as a fine leader. But he, like the local Minister, could do nothing if he did not trust other people, and above all, trust the water which holds his body as he swims to rescue folks. We Lay People have the stability to support the Leadership of our Pastor.

"What Has God Wrought" To Be Given at SDA Church, Oct. 14th.

Elder M. F. Grace, director of Seventh-Day Adventist Sabbath schools in the state of Michigan, will be the guest of the East Jordan Adventist Church, Tuesday evening, October 14, at 8 o'clock. At that time, Elder Grace will present the cinecolor Sabbath school centennial feature film, "What Hath God Wrought."

Elder R. H. Clausen, pastor of the East Jordan Seventh-Day Adventist Church, will assist Elder Geau in the planning and presentation of the evening's scheduled anniversary activities.

East Jordan Auxiliary To Send Gifts For "The Veteran's Gift Shop"

As in the past few years the American Legion Auxiliary Unit 227 will participate in the "Veteran's Gift Shop" program, all gifts must be valued at \$1.50 to \$3.00 and must be turned in by Oct. 15, they may be turned in to Glenda Maxwell who will see they are given to Helen King, Rehab. Chairman. Our Unit has done a fine job in the past on the project and hope to do even better this year. Anyone who wishes to may donate to this worth while program.

The Legion and Auxiliary are organizing a mixed chorus which will be under the direction of Mrs. Alta Drapeau, and Auxiliary member who is interested contact Thora Kotowich, Singing Chairman. The group will meet every Wednesday evening 8:00 at the Legion Home. So if you like to sing be sure and join the Legion and Auxiliary chorus.

Commander and Mrs. Frank Stucker have been attending the Legion Fall Conference held at Lansing, Michigan. Mr. and Mrs. William Bennett also attended the conference. Mrs. Bennett is the Auxiliary President.

At the joint Executive Board meeting held Tuesday Sept. 30, plans for a Halloween party were discussed as well as other topics of mutual interest.

Fires Reduced In State

BUT LOSS HITS PEAK ACCORDING TO STATE FIRE MARSHAL

Increased property values caused Michigan's fire loss to reach a new high in 1951, but the downward trend in the total number of fires continued for the third consecutive year, according to the annual loss report just released by the fire marshal division of the Michigan State Police.

State Police Commissioner Joseph A. Childs, who is also state fire marshal, pointed to the reduction as reflecting in part at least the emphasis placed on the annual observance of Fire Prevention Week, which this year began October 5.

The report shows that 50,670 fires resulted in a loss of \$29,760,609 in 1951. The previous high was \$29,618,534 in 1948, when there were 59,958 fires.

Childs said, however, that 221 persons, including 81 children, perished in fires last year, which was second only to the all-time high of 257 in 1950. The monetary loss in 1950 was \$24,964,345.

Total loss on buildings, including 16,316 dwellings, amounted to \$16,681,148 in 1951, while the loss on contents was \$12,534,348. Loss in other fires was \$545,112.46.

A breakdown of various types of fires included: automobile 7,115, aircraft 47, dry cleaning plants 102, bulk storage plants 97, house trailers 281, schools 96 and theaters 27.

Careless smoking and misuse of matches alone caused 4,062 fires. Other leading causes were were faulty electrical wiring and appliances 3,735; defective chimneys and heating equipment 3,437, and overheated heating equipment 1,723. Lightning was responsible for 555.

There were 343 incendiary fires, 150 set by adults and 193 by minors.

Childs urged all Michigan residents to observe Fire Prevention Week by eliminating hazards.

"It is obvious," he said, "that even with a considerable reduction in the total number of fires, there should be increased prevention efforts to avoid needless losses. Home fire safety should be stressed. Most fires are due to carelessness and neglect. So be extra careful, clean up rubbish and remove other hazards to save both property and lives. Fire Prevention Week is a good time to start."

Graveside Services Held

Graveside services were held Tuesday morning Sept 23, at Suttons Bay for Lt. John Gunderson Jr., who was killed September 12 on a jet plane flight from his base near Anchorage, Alaska. Burial was in Lutheran cemetery. In charge of last rites was a Chaplain from the air base at Oscoda, Mich. Member of the firing squad and the pallbearers also were from Oscoda base.

Lt. Gunderson who had been in the Air Force two years, leaves his wife, June, to whom he was married, three months ago, and his parents, Mr. and Mrs. John Gunderson of Mio, formerly of Suttons Bay.

Bangs Re-test Due Soon

Charlevoix county dairy farmers will soon experience another retest in the program for the control and eradication of bangs disease, Ed Rebman, county agricultural agent, announced today. This program is joint between the Federal-State and county. Charlevoix county, in the past has been an accredited county and only by retesting can the dairy farmers hope to control bangs disease.

Rebman states that the forth coming county-wide retest program will be altered somewhat to include the use of the milk ring or ABR test. This ABR test is conducted only on composite herd samples of milk or cream and is used to locate probable infected herds.

Herds demonstrating any reaction to this ABR test will be blood tested as in the past. The procedure following the blood test will also be the same as in previous tests. Farmers are urged by county agent Rebman to assist the department in making the retests in order that this dreaded disease may be controlled and possibly eradicated.

FARM FACTS
from your
County
Agricultural Agent
Ed. Rebman, Co. Agr'l. Agent

Mr. Farmer, would you like to take the gamble out of getting a good seeding of clover or alfalfa next spring? Well, who wouldn't! Then collect soil samples from the fields you will be seeding next spring before the freeze-up or snow comes this fall. This will make it possible to have the samples tested in your local soil testing laboratory during the fall and winter months, advises Ed Rebman, county agricultural agent.

It is estimated that fully a third of the legume seedings made in Michigan each year result in failure. Many other seedings are "spotty" and fail to produce satisfactorily. Think of the losses involved — not only in the cost of the seed used but also in the value of the hay or pasture which might have been grown, Rebman reminds.

Most seeding failures as well as poor production are the result of acid or low-lime soils and lack of abundant quantities of plant food according to E. D. Longnecker, Michigan State College extension specialist in soil science. Only by soil testing can one learn positively whether lime and extra plant food are needed. So test, don't guess, he stresses.

Generally one or two samples per field is enough — one sample from each major soil area. Samples should represent the entire plow layer — not be scraped from the surface. Each final sample should be a composite of a half dozen or more samples taken from scattered locations in one general soil area, the county agent suggests.

Clean tools should be used in collecting soil samples. Likewise, the samples should be placed in clean paper sacks, cans or boxes for shipment, he adds.

Each sample should be labeled so that it can be properly identified later and taken to the county agricultural agent for testing, he invites.

The proper use of seed cleaning equipment for elevators and farms will be a special feature of this year's seed section of the Northern Michigan Potato, Apple and Seed Show, says Ed Rebman, county agricultural agent.

A large commercial manufacturer of seed cleaning equipment has agreed to set up elevator size equipment and farm size equipment at the show. Throughout each day at the show, periodic demonstrations of the use of the equipment will be made. It is a known fact that equipment now in the area is capable of doing a much better job of cleaning, if properly used. There are so many little adjustments with such equipment that affect the job being done. A special day for elevator operators is being planned. The cooperation of elevators and farmers in securing seed samples for the show is being solicited.

This year show will be held in the new 4-H Community Center on the Emmet County Fair Grounds in Petoskey, November 4th to 7th.

The seed section of this year's show has been expanded to include cereal grains; oats, wheat, barley, rye and corn; field beans; red kidney, yellow eye and white pea and field peas, in addition to the legume seeds such as alfalfa, the clovers; red, manouth, alsike, ladino and sweet and also vetch. An eight pound sample of a particular exhibit is needed for an entry. The exhibits can be certified or uncertified seed.

Not all seedlings going into state forests this fall are being planted by mechanical tree planters. Where vegetation is too thick, terral, rocky, or in isolated spots, it is more economical to prepare soil and plant by hand. Here in Higgins Lake forest, conservation department tree planter Claude Johnson scalps with a "Swede hoe" to remove bracken which would compete with seedling for light, moisture and soil nutrients. "Michigan planting bar" (left foreground next to pall of red pine seedlings) then is shoved in cleared space to create V-shaped hole for seedling insertion. Bar is removed and pushed into earth closely behind seedling to close gap and firmly secure tree in place. Some 16,300,000 department nursery trees now are being planted in private reforestation projects and state forests.

Michigan Mirror

Battle lines are being drawn over who is to control the Michigan Legislature—CIO labor leaders of four counties or the citizens of Michigan in 84 counties.

And if you don't think the CIO is wheeling big guns into the fight, look at the battle-plans the labor bosses have charted in Muskegon County alone.

They've earmarked \$9,000 to be spent in that county—in fact, mainly, in only 17 precincts within the cities of Muskegon and Muskegon Heights!

In as detailed-plans as a general has on D-minus-1, the CIO has drawn up its field strategy.

They'll spend \$2,400 for workers in those 17 precincts in the final three days of registration for the general election. On election day they'll hire seven crews to distribute campaign literature, with supervisors getting \$16 per day and boys hired at \$5 a day.

On election day they'll hire 180 field workers for \$2,880 to haul voters to the polls and will spend over \$300 just to pass out campaign literature.

That's just one county. Figure out for yourself—by comparing Muskegon County to Wayne, Oakland, Genesee and Kent — just how much money the CIO is willing to spend in this, their golden opportunity to capture the Legislature as they've captured the governor's post.

Here's how the labor bosses plan to take over. On November 4, Michigan voters will choose between two amendments setting up a new system for allocating the seats in the State Legislature.

Amendment No. 2 is sponsored by the Michigan CIO. Governor G. Mennen Williams has given it his blessing; the Democratic Party put it into their state platform.

Amendment No. 3, sponsored by business, professional and farm interests, has the endorsement of Republican nominee Fred M. Alger Jr. and Republican legislators.

The CIO amendment would make population the key to the whole Legislature.

Reapportionment Plan No. 3 would follow the system of the United States Constitution where by geographic areas as well as population assures against domination of our federal legislators by the sheer weight of population.

CIO labor populous counties would be able to dominate the Legislature by sending a majority of senators and representatives to Lansing. Four counties—just four—would be able to control Michigan.

They're Wayne, Oakland, Macomb and Genesee. All have membership. Add Kent, with its big Grand Rapids industries, and Muskegon and perhaps Saginaw and the labor bosses have plenty of insurance.

Gov. Williams is sympathetic to the CIO to put it mildly. He sees as a perfect solution to the impasse that arose when the GOP Legislature consistently opposed his

The School Bell ...

First Grade — Mrs. Stokes

Four weeks of school are gone already. The tree outside our window has changed color from green to green, orange and yellow.

We know all our numbers to 10, but we have been practicing making them just right. We learned our ABC's in kindergarten. Now we are learning what they say.

We are learning new words every day. Some of us have read "We Look and See", the first little book for our mothers.

Second Grade — Mrs. Seiler

We have a new pupil this week. His name is Jimmy Barnes. He came from Muskegon.

Nurse Betty came in and gave us a talk on how to be healthy. Then we went into her office to be weighed.

We have hot lunches this week every day. Some of us have read "We Look and See", the first little book for our mothers.

We have thirteen boys and fourteen girls in Second Grade.

Third Grade — Mrs. Bowerman

Betty Healey gave us a report on her trip to Saginaw for the week end. She enjoyed especially the shows on television.

The appearance of our rooms when we returned on Monday showed that our school cartakers had been very busy while the rest of us enjoyed a few days vacation. After studying about the schools of the Pioneers, we appreciate more our own clean, comfortable school.

Richard Annear brought us some very helpful books on Pioneer life and we are enjoying others from our school library. Several children are making good use of our public library too in helping to find interesting stories and information about the Pioneers. Susan Jeffrey was amused to learn that her birthday was the same date as Daniel Boone.

Have you ever seen broom corn? Eddie Thompson looked like a walking corn shock when he came into the room Monday morning. We would like to put his "shock" on exhibit in a downtown store so you can see what brooms are made of. This corn is a carryover from the Indian project we carried out in our room last year.

Fourth Grade — Mrs. Galmore

Our boys and girls were all happy to have hot lunches start on Monday of this week. It is so pleasant in the lunch room now with the new kitchen and the new tables.

On our leaf chart we have different kinds of leaves and some seeds. We are trying to learn to identify all the Michigan trees that are important to know. We will take a field trip as soon as we have our chart filled.

Our Spelling Workbooks are here. We believe now that we can learn more about our words.

Fifth Grade — Mrs. Liskum

We have studied two poems; "September" by Helen Hunt Jackson, and "Western Wagons" by Rosemary and Stephen Vincent Benet. We drew pictures to illustrate "September".

We have had Standard Achievement Tests to learn what we need to work at the hardest. We are all trying to improve our reading. This week we are emphasizing silent reading with no pointing and no lips moving.

We are happy that our spelling workbooks are here. Our many, many new library books make us happy. Every week we visit the school library and choose a book to keep for a week. Some of us trade books when we finish reading them, and in that way we can read several each week. Mrs. Liskum also chooses several extra books to keep in the room. All this pleasant reading will help us to become better readers.

Next Tuesday evening at 8:00 o'clock our Mothers and Fathers are coming to a meeting in our room. Sometimes the

Mothers visit a room in the afternoon to learn what is especially interesting in their children. We are having our meeting in the evening, so the Fathers can come, too.

The Servicemen's Letter

Hi Fellas:
We are discontinuing the mailing of two papers this week. The one to the last lady of our group and the other to a one-time resident of Korea, Frances Lenosky, who had orders for her discharge on October 18th has been agreeably surprised by having the time of her departure from the Nurses Corps set up by one week. She is supposed to start for home this next Wednesday. Her future plans include marriage to a man already picked out. Howard Evans was in the office today and surprised me in two ways. First, he introduced me to a lady from Battle Creek who said would soon be his wife. Next, he told me that he had immediate orders to report to Camp Kilmer for shipment to Austria. He intends to travel via the Army way but his wife to be will travel on a visa and they will be married over there. Howard has completed almost 10 of his 20 years as a soldier and now has signed up for an indefinite term. He will be in the Army until he retires unless he asks to resign between now and then. If he should ask to resign and should receive permission he would lose all reenlistment privileges. Howard intends to apply for American Customs duty when he gets to Austria.

Herb Griffin has a change of address within the same camp. He is still at Fort Campbell, Kentucky but is now with Headquarters Company of the 2nd Battalion.

Johnny Kershner, who we lost track of last week, now advises us that he is back out at Geiger Field in Washington with his original squadron. His address is: A/1C John M. Kershner, 16 333 955, 87th A. B. Sq. Geiger Field, Spokane, Washington. Congratulations on the promotion to A/1C Johnny.

Norman Beal has arrived overseas. From his address I would presume that he is at the present in Japan. His address is: Pvt. Norman D. Beal, US 55 271 477, Prov Co. SE 1883, APO 613, C/O PM, San Francisco, California.

Jim McLaughlin has the same type of address as Norman. His is: Pvt. James L. McLaughlin, RA 16 404 087, Prov Co., SE 1889, APO 613, C/O PM, San Francisco, California.

Here's a letter from Don Dixon, down in Norfolk. "Hi Jake: Well here I am again writing you a letter which I like to do now that I have this typewriter. I get a lot of letter writing done, a lot more than I did when I had to write by hand. I am sending you a poem that one of the boys wrote down here and it tells what it is like down here. It may not be like this in other places around the world and I sure hope not because if it is the rest of the guys are having a H-- of a time. I should know about the third class test that I took last July and here's hoping that I passed it. It will mean a lot more money for me to spend. But I may not get it so will have to get along on what I get now."

The poem that Don inclosed is:

NORFOLK
Just below the Virginia Border,
Norfolk is the spot,
Where we come to serve our hitch,
in this land that God forgot.
Down where the snakes and lizards
grow, we sometimes get
to getting blue,
A thousand miles from nowhere,
and ten thousand miles from you.
We work, We swear, We melt.
It's more than we can stand.
They say we're not convicts, just
defenders of the land.
Just the men of the Navy, drawing
a measly pay,
Defending people with millions,
for two and a half a day.
Living with our memories, writing
to our gals,
Hoping that while we're away,
they won't marry our pals.
No one knows we're living, and
no one gives a damn.
At home we are forgotten, for we
belong to Uncle Sam.
And when we get to heaven,
Saint Peter's going o yell,
You sailors are from Norfolk,
you've served your time in Hell.
The hitch we spent in the Navy,
is the lme of our lives we mis-
sed,
So don't let the draft board fool
you, and for God's sake Don't
Enlist.
Well, that's Dons view of the
Navy.

Jim Pollitt and Jim Rusnell have left Japan and have made a quick trip up to just behind the front in Korea. They have both been assigned to gun crews of the artillery but are with different crews as they trained on different guns. Jim Rusnell's address is the same for the present but Jim Pollitt's address has been changed to — Pvt. Ralph J. Pollitt, RA 16 405 003, 75th FA Bn, APO 301, C/O PM San Francisco, California.
Two more men left the Army last Wednesday. The draft caught up with Gerald Olson and Leo Dipzinski and they left for places unknown on Wednesday, October

1st. I expect to have more news of their destination for you within a week or two.
Ralph (Johnny) Scott is due home from Germany around Christmas, his folks tell me. They haven't had much news from him lately and would sure like a letter or two now and then.

Here's a letter from Eenie Richards with some news in it. "I am now stationed at Manaton Air Force Base. We're only about five minutes from Margate which is right on the channel. We've been working 11 hours a day since we have started.
"There are a couple of changes in my address. My APO is 125-B and I was lucky to make Pfc last week. The weather here is turning colder so I guess winter is on its way."

Thanks for the letter Eenie and congratulations on that promotion. Eemies full address is: Pfc. Kenneth Richards, US 55 187 683, Co. A, 817th E. A. B., APO 125-B, C/O PM, New York, N.Y. That channel he mentioned is the English Channel.
So Long til next week, men.
"Jake" Snyder

MSC Urging Precautions Before Fires

Losses from farm fires, an everyday danger, and possible precautions that should be kept in mind the year long will be stressed in Michigan during national Fire Prevention Week October 5 through 11.
In cooperation with Michigan State College Agricultural Extension Service, representatives of insurance companies, utilities and the Michigan Department of Agriculture have set up a special committee. The Michigan Rural Fire Prevention Committee met recently on the MSC campus to discuss fire prevention means, and ways of getting direct action. The committee secretary is George Amundson, agricultural engineer of the MSC Extension Service.

One direct approach to fire prevention, the 4-H Club Fire Prevention Project, was reported by P. L. Lundin of the Michigan State College 4-H Department. In 1951, with 440 members enrolled, there were 366 projects completed in 25 counties. Safety and fire prevention are stressed also in the 4-H Rural Electrification Project.
Committee members are circulating fire prevention inspection blanks through vocational agricultural teachers, county agricultural and 4-H club agents, farmer discussion groups, rural schools and other agencies.

Use of hay prod thermometers to guard against spontaneous combustion, county fair displays to promote fire prevention interest and creation of honor awards for persons doing an outstanding fire prevention job have been discussed by the committee. They decided to encourage rural service men of utility companies, county agricultural agents, insurance inspectors and other to carry hay prod thermometers at hay harvest time and soon afterwards to help farmers check hay.

All frozen foods are readily subjected to bacterial action as soon as they have thawed. Therefore, it is necessary to use thawed foods immediately, caution MSC food specialists.

Michigan State College foods and nutrition specialists say don't hesitate to can grape juice for later jelly making. Jelly from juice stored up to six months will have a good texture and flavor, they advise.
