Dear Editor:

After reading your editorial a couple weeks ago I was very gratified to find that I was not the only one with the idea-that East Jordan is dving a slow death. But I was very surprised to find that a good deal of the businessmen were too conceited to realize the truth. Some went as far as to cancel their subscriptions to the Herald for publishing the truth. Don't take my word, just thtumb through this issue of the Herald. How many ads do you find? Number two, take a look at your dock, yes, a good look. Now sometime when you're in Boyne City take a look at theirs. There's no hurry, it'll be there for a long time. How long do you think your's will last? That dock cost the government in the neighborhood of \$15,000.00. The citizens of Boyne had to match that. As a result, a brand new

I never gave much thought to the matter until I graduated in 1949. Henceforth I had to travel to our neighboring town of Boyne City to get a year-around job. They have already got one industry this year and a possibility of

I am very grateful that a man would stake his business and reputation on telling the truth to the businessmen of this town. I hope most of the people have slept long enough, anyway is high time they woke up.

And to close, dear editor, vou have my deepest sympathy for all the ungratefulness you have received. I think if some of the other people of this town would look around themselves as you did they would feel just a little bit asham ed of themselves by now. Thank you.

During our language periods we have been talking about table manners while we are eating. Jolly Jingo, a character in our Weekly Reader, suggested we all join the Neat Eaters Club. We think his suggestion is a fine one, and one that can be put to practice every 11th, which started with a potluck day when eating our noon lunch, supper, followed by a cake walk,

From where I sit ... by Joe Marsh

Wrong "Train" of Thought

Most of us knew the streamliner stopped about four miles from town last Thursday we didn't know why . . .

Seems the train was hurrying along, then came the screeching of brakes - some fellow had pulled the Emergency Stop cord. When the conductor saked him why he did it, he said, "The train was just going too fast—I wanted

to get you to slow down." From where I sit, that streamliner has been going at that speed for the past seven years with a perfect safety record and

the passengers have always been pleased. Now-along comes a fellow who wants the train to go at his speed. Some people are like that. Some still would begrudge another person's right to a temperate glass of beer even though that person wouldn't dream of fiashing a "Stop" sign on their preference for, say, milk, coffee or tea. Respecting the rights of others is the only way we can keep "on the right track."

auction for this area was discussed by interested farmers and business

men at a meeting at Ellsworth Friday, February 20. Mr. and Mrs. Carl Weaver of Kingsley were present and told how they would like to start a David Smith stayed all night sale in this vicinity in addition to the one they already operate at

Mr. Weaver has a good record of protecting the farmers from loss by stock being sold at low prices caused by too great a supply and not enough demand. He stated he would follow that policy here. Weaver has considerable experience in buying and selling livestock, having spent five years buying calves for Armours.

Mr. and Mrs. Weaver formerly operated a sale near Benzonia. This sale burned out several years ago on March 15th, On May 17 they had their first sale at Copemish. They borrowed money from the village, and farmers loaned \$100 each & donated considerable labor in the effort to get the sale going again in record time.

The meeting was in charge of Mr. McDaniel, president of the East Jordan Businessmen's Ass'n, who acted as chairman, Many angles to this subject were

brought up among which were: The Charlevoix County Fairgrounds is "out" as a site, because of State regulation complications, and the disease risk involved in cattle. The E. Portz property mentioned at a previous meeting was felt not suited and too high priced for the condition of the land. Little sales are either on the way out or the owner must be financially able to protect the farmer and unload the livestock elsewhere. Lots of buyers make for a good sale. Buyers go where they can make the most money (same as the farmers do). and they want volume enough so they can purchase a full truck load Farmers have a tendency to overrate their livestock. Top cow ette and not a cow. Livestock raising in the Copemian area picked up considerably in the past six years due to a close-by sale. Farmers ideas of grain-fed vary considerably the term "grain-fed" is considered in the trade as meaning not less than six months

grain feeding.
At the Copemish sale an outlet for farmers products such as fruits and vegetables is provided. Farmers. set up their own stands adjacent to the sale and sell their own products. "Junk" is also own products. "Junk" is also auctioned at this sale, but by another auctioneer and separate from the livestock sale.

When asked for a show of hands of those present as to whether or not they actually wanted a sale in this area or not, the vote was Pfc Don Graham left Thursday 100 per cent in favor of having a sale started in this area.

Agricultural agents from both Antrim and Charlevoix counties were present and both pledged their support if farmers and businessmen show sufficient interest. Walter Kirkpatrick, Agr'l Agent

for Antrim County, stated that he would like to see something different than just a regular sale, and believed that, if the sale was to be located near East Jordan, East Jordan businessmen should provide a considerable portion of the apital in the form of a loan to get the sale started. He stated there are now 52 sales in operation in Michigan with an average in-

vestment of \$40,000 each The meeting closed with Walter Kemp being appointed chairman of a committee to represent farmthe committee. Chosen at the genuity for preparing meatless meals," says Miss Purdom. She has some pointers or fish meating were Henry Heeres of Ellsworth and John Wieland of Norwood Township. stated he would contact East Jordan businessmen and find out how they felt about supporting sale in the East Jordan area.
