Harasewicz tosses one-hitter; East Jordan sweeps Charlevoix & Inland Lakes

By Chris Fiel

East Jordan 4-11 Inland Lakes 1-7

INDIAN RIVER — The East Jordan Red Devils seem to be reaching their stride as they finished the week with another sweep of Inland Lakes, 4-1 and 11-7 on May 4.

East Jordan senior Austen Mellios had a stellar night at the plate with five hits, including three doubles in leading the Red Devils to the non-conference victories.

Mellios singled twice to go with a double in game one, Aaron Peck had two hits, including a double, Wyatt Werner doubled and Zak Shepard singled to pace the East Jordan offense.

Jordan Harasewicz earned the win, tossing 4 2/3 innings of three hit ball, fanning seven and walking one, Peck picked up the save in 1 1/3 innings of work.

The Red Devils jumped out to an early first inning 2-0 lead, and then added solo runs in the third and sixth innings. The Bulldogs scored their lone run in the bottom of the fifth inning.

In the nightcap, Matt Bolser

tossed four innings of one-hit ball, allowing one run and striking out six. Mellios and Peck both pitched in relief for East Jordan.

"Inland Lakes played us tough in the first game," Red Devils coach Al Stallard said. "In game two, we got an early lead and then got a little sloppy. I have to give Inland Lakes credit though; they did not quit and played aggressively to make it pretty close."

Skyler Gibson, Mellios and Tim Schutt, all finished with two hits, including doubles to lead the Red Devil offense, while Jake Graham, Peck and Werner all singled twice and John Richards doubled.

Werner knocked in three RBI's, while Graham and Schutt had a pair each and Mellios and Richards finished with one RBI apiece.

Charlevoix 0-3, East Jordan 1-5

EAST JORDAN — What a way to come back from an injury.

Red Devil Jordan Harasewicz, in his first appearance since spraining his ankle a week prior, fired a one-hit shutout against rival Charlevoix on May 1.

Harasewicz fanned five and walked a pair in the victory, out-dueling Charlevoix ace Coby Herriman. Herriman only allowed three hits while striking out 12 and walking one in taking the loss.

With the win, East Jordan stands at 11-5 overall, 8-2 conference and Charlevoix falls to 3-6 overall, 3-5 conference.

"It's a shame either team had to take a loss in this game," East Jordan coach Al Stallard said. "Coby Herriman pitched a great game and Jordan Harasewicz came back from a sprained ankle and pitched great also. Our defense made all the plays behind him. Neither team had an error. Great game."

East Jordan scored the only run of the game in the bottom of the third with two outs, when senior Watt Werner bunted for a single, stole second and crossed the plate when fellow senior Austen Mellios knocked him in with a single.

"We didn't have many hits, but we got the most out of them," said Stallard.

Zak Shepard had the other hit for the Red Devils.

Charlevoix's only hit against

Harasewicz came off the bat of Noah Certa.

Game two featured another pitcher's duel, as East Jordan's Austen Mellios and Charlevoix's Andrew Potter took to the hill to do battle.

Mellios struck out two, walked two and gave up four hits for the win in five innings of work, while Aaron Peck notched a save in one inning of duty.

Potter allowed six hits, walked four and fanned three in a losing effort.

Mellios helped his own cause at the plate with two hits, including a two-run homer in the bottom of the third that gave the Red Devils a brief 3-1 lead before the Rayders scored solo runs in the top of the fourth and fifth innings. He finished the game with two RBI's.

Shepard put EJ back in front in the bottom half of the fifth with a two-out two-run single to the left-field fence. Werner added a pair of hits, and Peck singled.

Charlevoix was led at the dish by singles from Luke Klinger, Nate Moon, Shane Sutherland and Tommy Zipp.

"These were two big wins for us," Stallard noted

In the opener against Newberry, Charlevoix committed a season high six errors.

"Poor defense (season high six errors) killed us," Rayder coach Allen Telgenhof said "We got home last night at midnight from Alpena then 6:30 am bus time may have caused us to be a little rocky early on."

Zipp took the loss for the Rayders, giving up three runs on two hits, walking one and striking out one in two innings of work. Jesse Drost gave up two hits and fanned one in two innings of relief.

Sutherland had three hits for Charlevoix, while Klooster finished with two. Herriman, Moon, Potter and Telgenhof all singled. Moon and Klooster had RBI's.

With the game tied after six innings of play, the international tie-breaker rule was applied, with each team starting their half of the inning with a runner at second base.

New fishing license now available (and required)

LANSING — The Department of Natural Resources reminds anglers that a new license season began April 1. Anglers have a choice of a variety of licenses and prices are unchanged from 2011. Fishing license options include:
 * 24-hour license (good for all species).
 * 72-hour license (good for all species).
 * Season-long restricted license (good for all species except trout, salmon, lake sturgeon, lake herring, amphibians, reptiles or crustaceans).
 * Season-long, all-species license (good for all species). An additional (free) lake sturgeon tag is required of anglers who fish for or target lake sturgeon.

Fishing license dollars fund a variety of activities, including fish management work on Michigan's waters, habitat rehabilitation and protection, fish stocking, information distribution, education and outreach efforts to anglers and the public, and much more. Fisheries Division does not receive any general funds and depends on angler dollars, through license sales and federal excise tax dollars for fishing tackle, to manage Michigan's fisheries. Buying a fishing license even if you do not plan to fish can make a big difference to the future health of Michigan's prized freshwaters. There are three simple ways to pur-

chase a fishing license in Michigan: Visit your local license retailer or DNR Operations Service Center and make a purchase in person. Use the E-License system to buy a license online 24 hours a day, seven days a week. Just visit www.mdnr-elicense.com to get started. Visit the Mobile Fish website on your smartphone (www.mi.gov/fish) to buy a 24-hour all-species fishing license. All you need is your driver's license number and a credit or debit card. DNR lowers state campground fees for 2012

LANSING — Department of Natural Resources Director Rodney Stokes informed the Natural Resources Commission at its April meeting that the DNR was lowering many fees at state forest campgrounds to align them more closely with fees at state parks and recreation areas offering similar amenities. Most state forest campgrounds will have a \$13 per site, per night fee rate (a reduction of \$2). Campgrounds identified as equestrian state forest campgrounds, those associated with ORV trails, and the semi-modern Houghton Lake state forest campground will charge a \$17 per site, per night rate (a reduction of \$3). Rates for group camps - identified either as a canoe camp, trail camp, or group camp - will remain at a fee of \$6

per person, per night, while cabins remain at the \$65 per night fee. Approximately 270 campsites at a variety of state forest campgrounds spread over 11 counties can be reserved through the state's on-line reservation system. For more information, visit www.midnr-reservations.com. “The goal is to create a quality atmosphere for a rustic camping experience in state forest campgrounds at an appropriate fee,” said Ron Olson, DNR Parks and Recreation chief. “Also new this year will be the requirement to purchase a Recreation Passport to access all state forest campgrounds, in addition to Michigan state parks, recreation areas, and state-administered boating access fee sites.” The Recreation Passport, which re-

placed motor vehicle permits, is also required at non-motorized state trail parking areas. This new way to fund Michigan's outdoor recreation opportunities helps preserve state forest campgrounds, trails, and historic and cultural sites in state parks. Also, the Passport will improve funding for state park infrastructure and rehabilitation and provide park development grants to local communities. The Michigan Department of Natural Resources is committed to the conservation, protection, management, use and enjoyment of the state's natural and cultural resources for current and future generations. Do Your Part to Prevent Underage Drinking

By Amy Speigl, Substance Abuse Prevention Educator, Health Department of Northwest Michigan

Spring is an exciting time of year for high school students. For many of our area high schools, prom and graduation are right around the corner. Along with these exciting events, parents and caring adults should be aware that the end of the school year is also a high-risk time for underage drinking. In fact, statistics show that one third of the alcohol related fatalities involving teens occur during prom and graduation season. However, being informed and prepared can keep our children safe. That is why the Michigan Department of Community Health (MDCH) is encouraging all adults to "Do Your Part" to prevent underage drinking.

Although most teens will choose not to drink, according to the Michigan Youth Risk Behavior Survey, 69% of Michigan high school students in grades 9 through 12 reported having at least one drink during their lifetime. So, how can you "Do Your Part" to prevent alcohol use among teens?

Set clear rules about not drinking and consequences for breaking them.

Help your kids identify alcohol-free activities or offer to host an alcohol-free post prom or graduation party.

Talk to other parents about post-event activities to ensure alcohol won't be present.

Remind them never to get in the car with a driver who has been drinking.

April is Alcohol Awareness month, and the perfect time to have a conversation with your children about the dangers of underage drinking. All concerned community members can take part in local Alcohol Awareness Month activities during the month of April. Visit www.michigan.gov/mdch-bsaas to find local events or Town Hall Meetings.

Springtime is best time to test your drinking water well

While most wells provide a clean, safe supply of water, there is always a chance that you could have contaminants polluting your system. Your water may be crystal clear and still contain pathogens, microbes, and/or bacteria that is harmful to your health. That's why the U.S. Environmental Protection Agency recommends getting your well water tested annually. The best time to test water is in the spring following a rainy period.

"Unlike public water systems, there are no water quality monitoring requirements for private wells, and many never get tested," said Scott Kendzierski, Director of Environmental Health Services for the Health Department of Northwest Michigan. "It is up to well owners to make sure their drinking water is safe for consumption. Fortunately, it's easy, quick, and inexpensive to test drinking water."

Sometimes, more frequent water testing is recommended. For example, it is important to test for nitrate in the early months of a pregnancy, before bringing an infant home from the hospital, and again during the first six months of his/her life. Other reasons for more frequent testing are water taste, odor and staining issues. And if you have had a chemical or fuel spill or leak near your water supply, get your water tested right away.

Well water originates as rain and snow that then filters into the ground. As it soaks through the soil and rock, the water can dissolve materials that are

present on or in the ground, becoming contaminated. Some contaminants are naturally occurring from rocks and soils and commonly occur in well water at unsafe levels. Surface water and groundwater can change over time, sometimes rapidly, which can affect the quality of the drinking water supplied by an on-site well. Even if you find your water is safe, testing on a regular basis is a good way to establish a water quality record and maintain your well system.

If after testing you find that there are issues that need to be corrected, you can use this data to make an informed decision about any remedial action is needed, such as inspecting the well to find the cause of the contamination, having the well chlorinated, affecting well construction improvements or modifying a water filtration/purification system.

"Making sure your water is safe by testing it regularly is one of the simplest things you can do to take care of the health and well being of yourself and those you care about," said Kendzierski.

Two types of well water testing kits are available for a nominal fee at Health Department offices in Antrim, Charlevoix, Emmet, and Otsego counties. The fee for the Bacteriological (Coliform) Sampling Kit, which tests for the presence of E coli and other bacteria, is \$16. The Partial Chemistry Sampling Kit tests fluoride, chloride, hardness, iron, sodium, sulfates, nitrites and nitrates, is \$18.

Cheryl Coale, Lab Coordinator, from the Health Department of Northwest Michigan conducts water testing on-site at the Northern Michigan Regional Laboratory in Gaylord. COURTESY PHOTO.

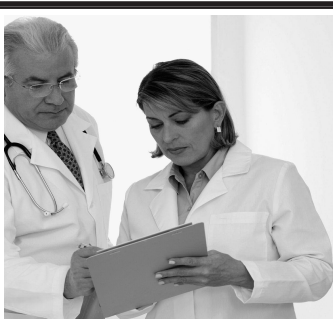

Tests are analyzed at the Health Department's Northern Michigan Regional Laboratory in Gaylord, so results are generally available within two to three days.

Analysis reveals the level at which any of the tested substances were found in your water sample. The mere presence of these contaminants in well water does not necessarily imply that there is a problem. However, when levels

exceed state or federal health standards or recommended action levels, you should take steps to correct the situation. If needed, Health Department Environmental Health staff can provide free consultation to help you develop a plan to resolve the problem.

The Health Department of Northwest Michigan is mandated by the Michigan Public Health Code to promote wellness, prevent dis-

ease, provide quality healthcare, address health problems of vulnerable populations, and protect the environment for the residents and visitors of Antrim, Charlevoix, Emmet, and Otsego counties. For additional information about well water testing, visit www.nwhealth.org or call your local Health Department office.

Question & Answers About Selling Real Estate

Make spring cleaning less of a chore

by following these smarter—and mostly greener—tips for this annual rite of homeownership.

PART 4 OF 4

Living area

Another surface you should consider getting

professionally cleaned is living room upholstery. It can be tricky to know exactly how to deep-clean different types of fabrics, especially if there are stains you can't quite identify. Costs vary widely depending on the size of the furniture piece and

the quality and state of its covering, but a typical sofa might run \$70 to \$90.

Microfiber cloths are great to use in the living area as well. Make sure you have cloths for each area of the house, though, so you're not cross-contaminating bathroom,

kitchen, and living areas. Use a damp microfiber cloth to wipe down windows, wood, mirrors, the tops of bookshelves, ceiling fan blades, and even the plastic housing of electronics for a quick, chemical-free clean.

Outstanding, updated ranch is close to village of Bellaire

By Jim Akans

Situated in a peaceful neighborhood setting, this outstanding, updated ranch home is also within walking distance to the many wonderful shops and restaurants located in the charming village of Bellaire.

Featuring approximately 1,800 square feet of total living area on the main level and expertly finished lower level, this home of-

fers plenty of space for the family. Among the highlights of this home are an open living, dining and kitchen area with a gently vaulted ceiling and gorgeous wood flooring. The spacious, upscale kitchen features a convenient slide out pantry, center preparation island, updated countertops and appliances. This entire space is light filled, open and inviting.

There are three bedrooms and

a full bath on the main floor, plus another full bath and the potential for an additional bedroom space (with egress window) on the finished lower level. The lower level also has a huge family room area, which could also make a great space to set up a game or media room.

Other highlights include and attached two-car garage, central air conditioning, rear deck and a paved driveway and front side-

walk. Located at 176 S. Genessee Road in Bellaire, this updated ranch home is being offered at a listing price of just \$117,900.
