## Question & Answers About Selling Real Estate

# Summer Moving Tips PT. 1

Compliments of Mike Stark, Stark Realty, Inc. (231) 536-7700

How to prepare for a seamless transition

If you're moving this summer, the busiest season for moving, you know how daunting it can be. But if you create a blueprint for your move, the transition from house to house will go more smoothly.

Here are the first 2 of 10 things

you can do to prepare for a seamless transition.

1. Full serve, partial serve or a do-it-yourself move. Can you do it alone or should you hire a licensed moving company for a full-service or partial-service move? This is one of the first and often most difficult questions soon-to-be moving households face. The answer depends on your lifestyle, household size, budget and amount of time you have to

get everything accomplished. Get written quotes from at least three licensed moving companies so you know you're getting the best deal based on your specific moving needs. Moving yourself or doing a partial-service move? Packing calculators can make it easier to estimate the amount of boxes and packing materials needed.

2. Plan to unpack BEFORE you pack. Take photos of each room

in the new home before you arrive with furniture, plants, appliances and family in tow. Write down on a clip board where each item should go in your next home before packing, and carry it with you on moving day. List out the major items that need to be assembled first. As you place each item in its new room, cross it off the list and you will be one step closer to enjoying your new home.

THE LOOK OF SHINGLE · THE PROTECTION OF STEEL.

**WE BEAT OUR COMPETITION'S  
PRICE BY ALMOST 50%!!!**

**“** Steve and Scott are a very professional and experienced team and we couldn't be happier with the whole experience. The decision to go with steel shingles isn't an easy one but we felt the increased protection from fire, high winds and hail was well worth the cost. Just contrast cutting the steel shingles with the thin asphalt and the strength of the new system is obvious. Any asphalt shingle will fail eventually, steel is permanent and in the long run the added price is worth it. The daily attention to detail and effort to keep the site clean was also appreciated and helped make this a five star experience. **”**
