## **2015 Jeep® Renegade:** Most Capable Small SUV Expands the Brand's Lineup

The 2015 Jeep® Renegade expands the brand's vehicle lineup, entering the growing small sportutility vehicle (SUV) segment, while staying true to the adventurous lifestyle and 4x4 capability Jeep is known for. Renegade delivers a unique combination of best-in-class off-road capability, open-air freedom and convenience, a segment-first nine-speed automatic transmission that contributes to outstanding on-road and off-road driving dynamics, two fuel-efficient engines, worldclass refinement, and a host of innovative safety and advanced technology offerings. The result is an efficient vehicle created to attract youthful and adventurous customers around the world to the Jeep brand. "The all-new 2015 Jeep Rene-

renowned American design, ingenuity and innovation, marking the Jeep brand's first entry into the small SUV segment," said Mike Manley, President and CEO — Jeep Brand, Chrysler Group LLC. "Renegade expands the brand's product portfolio and targets the rapidly expanding small SUV segment with a best-in-class combination of fuel efficiency and off-road capability, while at the same time delivering outstanding driving dynamics and

gade symbolizes the brand's

expect from Jeep." From the start, Jeep designers

the open-air freedom customers

knew the Renegade would need to deliver best-in-class off-road capability with city-sized proportions that exuded the brand's rugged style while at the same time enhancing versatility, maneuverability and style. Additionally, designers were tasked to create an all-new SUV that would symbolize the Jeep brand's renowned American design and ingenuity, as it would mark the brand's first entry into the small SUV segment in more than 100 markets around the globe. Last, Renegade had to offer the openair freedom that dates back to its 1941 roots, with the Willys MB Jeep.

The result is the 2015 Renegade, a vehicle that builds on the Jeep Wrangler's powerful stance, and features fresh new styling with rugged body forms and aggressive proportions, which enable best-in-class approach and departure angles purposely designed to deliver best-in-class offroad capability. And for segment-exclusive panoramic views, two available "My Sky" open-air roof panel systems conveniently stow to provide passengers open-air freedom with ease.

True to the Jeep brand, the allnew Renegade will offer customers a best-in-class combination of fuel efficiency and off-road capability, including two MultiAir four-cylinder engines that provide more than 30

miles per gallon (mpg) on the highway:

2.4-liter Tigershark engine with MultiAir2 Efficiency and refinement also are hallmarks of Chrysler Group's 16-valve, 2.4liter Tigershark I-4 engine with the MultiAir2 electro-hydraulic fully variable valve-lift system. The high-tech engine produces 184 horsepower, 177 lb.-ft. of torque and is paired exclusively to the segment's first nine-speed automatic transmission on 4x2 and 4x4 models. The 2.4-liter engine's MultiAir technology uses a column of oil in place of the traditional mechanical link between the camshaft and intake valves to maximize intake manifold pressure and significantly reduce pumping losses. Multi-Air2 takes the innovation further by simultaneously controlling both valve opening and closing events to more effectively manage combustion quality and compression ratio, all to improve fuel economy and performance.

An Eco Mode is also available on the all-new Jeep Renegade, for fuel-efficient drivers.

Designed in America and crafted in Italy, the 2015 Renegade continues the Jeep brand's dedication to the global marketplace and demonstrates the depths of its available resources. The final assembly location for the Renegade will be at the Melfi Assembly Plant.

### Getting prepared to move is half the battle

Part 4 of 5 1 WEEK FROM MOVE DATE:

Set aside valuable items and keep those with you. Clean before moving and leave your house or apartment as clean as it was when you moved

Tip: Make sure the details for paying the moving company are taken

care of. Some will require money orders or cashier's checks upon delivery; know their policy in advance to avoid stress on moving day.

A Timeline for Your Summer Move

Tip: Start eating all the frozen foods you have, or give them to a neighbor or friend. This way you won't have to throw them away on moving day, or worry about packing an ice chest.

Tip: Also think about necessities for managing moving day like confining your pets and anticipating the amount of time you will need.

Tip: Place necessities such as toi-

letries, toilet paper, rags, "musthave" cooking supplies and organize them in boxes marked "open first" so it's easy to find the initial items you'll want handy on those first few days of being in your next home. Don't forget the flashlight!

Tip: If possible, take one last tour of the new location and identify water and gas shut off locations, as well as the electrical breaker box just in case something happens in the first few days so you're prepared. Might be smart to drop off a fresh box of light bulbs too!
