Rayders fall to Grayling

Strong Viking second half difference in contest

By Chris Fiel

Grayling 45, Charlevoix 8

GRAYLING — The Rayder football team took a big step last week with their victory over Coleman, only to take a minor step back following a 45-8 non-conference loss to Grayling on September 19.

Charlevoix, 2-2 overall, took an 8-6 lead following a Viking score as senior quarterback Nate Moon hooked up with junior Austin Putman on a 58-yard scoring strike, followed by a successful two-point conversion.

After that, the Rayders cooled off but Grayling was able to find the endzone two more times in the first half for a 19-8 lead headed into the break.

Following intermission, the Vikings would score three times in the third quarter to open up the game with a 39-8 cushion. Grayling would add another score in the fourth for the 45-8 final.

Offensively for the Rayders, Moon finished 8-of-13 passing for 81 yards and a touchdown, but was picked off three times.

Putman finished with three receptions for 69 yards to lead the receivers, while Sam Hovie rushed eight times for 42 yards; Ben Boss tallied 43 yards on six carries and Will Telgenof gained 48 yards on three attempts.

Charlevoix opens up Northern Michigan Football League II play on September 26 at Kipke Field as the Rayders host Suttons Bay, 3-1, 2-0.

In the second game against the Chiefs, Charlevoix got an early jump and controlled the match for the most part to a 21-13 Rayder lead, Cheboygan made a late run, but the Rayders closed the game out for a 25-17 win.

"We had watched the St Ignace vs Engadine match and it was tight the whole way thru both sets and they were battling back and forth and I thought my girls need to have their game together to beat either team, but the girls played very really well together, which was a good sign moving into bracket play," Rayder coach Audra Randall said.

Once in bracket play, the Rayders continued to take care of business, downing Inland Lakes, 25-10 and 25-8 to reach the semifinals and finals.

The opposition awaiting Charlevoix would be Pellston and Cheboygan, a pair of quality opponents that had defeated the Rayders in the finals the previous two years.

The Medicare Prescription Drug Donut Hole

This article will provide some information about the Medicare Part D prescription drug donut hole, also known as the coverage gap. How does a Medicare beneficiary get in it? How does it affect medication costs? What can be done to reduce your costs? How does the Affordable Care Act address the donut hole? Where can I get help?

The donut hole has been a component of Part D plans since Medicare first started offering drug coverage in 2006. The donut hole is reached once the incurred cost for all medications reaches a certain dollar amount threshold. The incurred cost is defined as the full cost of a prescription drug, not the out-of-pocket amount. The figure for 2014 is \$2,850. Once a beneficiary incurs this amount, they will be in the donut hole and their costs will increase, some-times substantially. The out of pocket cost will rise to 47 1/2 % of the full cost of brand name drugs; and 72% of the full cost for generic drugs. Beneficiaries who take several expensive brand drugs will find they reach the donut hole early during the calendar year and end up paying a substantial amount of money for the balance of the year.

A few examples will demonstrate how significant

these costs can be. The full cost of Humalog, a common diabetic medication, is about \$200 per month. The copay with one selected Medicare Part D plan will be about \$40. The cost in the donut hole will be 47.5% of the full cost, or about \$95. Another example is the Advair Diskus, frequently pre-scribed for respiratory issues. The full cost of Advair is \$300 per month. The copay before the donut hole is \$40. The cost once the gap is reached increases to about \$140.

The Affordable Care Act has a provision to reduce the copays for beneficiaries who reach the donut hole. The reduction is staged to take place each year through 2020 when the cost once the gap is reached will be 25% of the full cost of both brand name and generic drugs.

The next step beyond the donut hole is the catastrophic level. In 2014, once beneficiaries spend \$4,550 out of their pocket for medications, their copays will be reduced significantly. To use the examples cited earlier, one of the

Part D plans will charge about \$10 per month for Humalog; and \$15 for the Advair Diskus, once the catastrophic level is reached.

The donut hole resets each calendar year starting in January. There are a few pos-

sibilities to either avoid the donut hole or extend the time when it is reached during the year. To start with, beneficiaries can review their medications with their physician to determine if there is a generic substitute for one or more of their brand name medications. Generic drugs are lower in cost and will be a factor in reaching the gap.

Another alternative is to determine eligibility for the Extra Help program that is administered by the Social Security Administration. The cost effect impact of the donut hole may be little to none, depending on the level of eligibility. Part D premiums may also be reduced to as low as \$0.

Eligibility for Extra Help is financially based. The allowable maximum gross monthly income is \$1,479 for singles, and \$1,986 for married couples. Lower income amounts will result in even greater reductions in the cost of medications and premiums. In addition, the asset limits for this program are \$13,440 for singles and \$26,860 for married couples. Countable assets include such items as property that is not considered the primary residence, retirement accounts, investments, and cash.

Finally, beneficiaries should review their Part D plans each year during the

open enrollment period from October 15th through December 7th. As mentioned earlier, there are many plans available. Each one has different characteristics in terms of how they cover the beneficiary's full list of medications. Some plans have better coverage for certain brand name drugs and others may have some additional benefits once the donut hole is reached.

Counselors from the Medicare/Medicaid Assistance Program (MMAP) are available to screen for eligibility in the Extra Help program. Also, MMAP counselors can review drug plans during the open enrollment period and, if needed, furnish suggestions for plan alternatives. Help can be reached by calling 800-803-7174. Representatives will send out a prescription drug worksheet that will begin the process of the Part D plan review for 2015. It is recommended that beneficiaries start calling MMAP in September to start the plan review process for the upcoming year.

Question & Answers About Selling Real Estate

What Do Home Buyers Want?

The must-have amenities in a new home

Compliments of Mike Stark, Coldwell Banker Schmidt Realtors East Jordan. (231) 536-7700

What do home buyers want in a new home? Some of the must-have amenities in a new house are home offices and green features.

Home buyers are willing to give up devoted space to home theaters and other specialized media rooms in order to have a home office. In fact, they'd be willing to forego a formal dining room altogether in order

to have a home office or study.

And they want energy-efficiency in their appliances, windows and insulation.

Other desirable features are large kitchens with an island, though granite countertops aren't necessarily important to all buyers.

Must features also include a main-floor master suite; an outdoor living

room - considered more popular than an outdoor cooking area; ceiling fans; master suite soaker tubs and oversize showers with seating areas; stone and brick exteriors; community landscaping with walking paths and playgrounds; and two or more car garages.

Wonderful Boyne City area ranch home close to Young State Park

By Jim Akans

Location is always a must when looking for a home. This week's feature listing is not only a great ranch home...it offers an excellent location. Situated just outside of Boyne City, this three-bedroom, two-bath ranch is nestled in the trees and it is just a short walk from the beautiful Young State Park. Now that's having nature and recreation literally at your doorstep.

This approximately 1,530 square foot home has lots of gorgeous interior amenities. Highlights include rich hardwood flooring throughout and a completely remodeled kitchen with elegant hickory cabinetry plus a convenient center preparation island, and a large sunken living room with wood stove. The stove is not only a wonderful accent to the room; it is a great complementary heat source.

There is a two-car garage attached to the home, and another large pole building on the prop-

erty as well. So storing vehicles and recreational toys is not a problem here! This home is also close to snowmobile trails, and the terrific shopping, dining and entertainment in downtown Boyne City is nearby.

This wonderful ranch home in an excellent location is at 2842 Boyne City Road near Boyne City and it is listed at just \$169,900. For more information or to arrange a home tour, call Marty Moody or Christopher

Christensen at Lynda's Real Estate Service in Boyne City at 231-582-9555 or email Marty@lyndasrealestateservice.com or Chris@lyndasrealestateservice.com
