### Despite event cancellation, over \$65,000 raised by Boyne Thunder

Despite the cancellation of the 17th Annual Boyne Thunder Poker Run due to COVID-19, the event raised over \$65,000 in 2020. At the virtual presentation of checks, the benefitting organizations, Camp Quality, Challenge Mountain and Boyne City Main Street reported being able to maintain socially distanced and virtual programming with help from the funds received.

"When the decision was made to cancel the event, it was really important to the committee to still support the benefitting organizations as much as possible. The generosity of everyone involved is a great testament to the event and our community. This is truly amazing," said Kelsie King-Duff, Executive Director of Boyne City Main Street.

The event has now raised almost \$1.2 million total since its inception in 2004. This year, over \$57,000 was donated by sponsors and participants who had signed up for the event. Over 400 official event t-shirts were also sold.

Boyne Thunder is coordinated by Boyne City Main Street and supports Camp Quality, a non-profit organization serving children with cancer and their families by providing year-round programs, experiences, and companionship, Challenge Mountain, a non-profit organization dedicated to enriching and improving lives for the mentally and physically challenged through outdoor recreation and Boyne City Main Street.

The poker run showcases 120 high performance boats from all over the country, roaring through the waters of Lake Charlevoix and Lake Michigan on a 130-mile excursion in search of the best poker hand. The 2021 event will take place on July 9 & 10. For more information about Boyne Thunder, visit [www.boynethunder.com](http://www.boynethunder.com).

Over 73 total close contacts identified, notified, and instructed to quarantine

Lisa Peacock, Health Officer for the Health Department of Northwest Michigan, acknowledged today that there is a lot of uncertainty in the face of the last week's Michigan Supreme Court ruling that Governor Gretchen Whitmer exceeded her powers during the coronavirus pandemic. "We want to remind residents that the underlying issues to containing the spread of COVID-19 haven't changed. This public health emergency continues to exist even without an official declaration in place. We are still living in the midst of a global pandemic which has

taken the lives of over 1 million people worldwide. In Michigan we have seen over 127,000 cases and over 6,800 deaths", she said.

"There are many legal complexities related to the Governor's Executive Orders and the ruling of the Michigan Supreme Court but while those are being sorted out, we want to implore our businesses and residents to continue to protect the community through the mitigation measures that continue to be in place," she said. "For example, masking protects those around us from our respiratory droplets, distancing of 6 feet or more protects us from close contact with someone who might not know they are infected, screening customers and employees serves to provide the safest environment for work and commerce, and adhering to gathering limits prevents rapid spread of the virus through multiple people into the community."

She added, "Without a vaccine or a cure, COVID-19 continues to be a threat to our health and well-being and the only tools we have to fight it are isolation, quarantine, and these safety precautions we all can take. Although we know that the confusion around these complicated legal matters poses a risk to continued protection, we believe in the people of Northern Michigan. We have learned so much and we have come so far together, now is the time to continue on and protect each other whether it is required by orders or not!"

Because of the recent Michigan Supreme Court ruling on the Governor's executive order authority, Charlevoix County Sheriff Chuck Vondra would also like to remind people of the law, stating "Private business owners have the authority to choose to ask people to continue to wear masks while patronizing their businesses. If someone is asked to wear a mask or to leave, they must do one or the other. If the person chooses not to comply, they are subject to criminal trespass and will be prosecuted as such".

As of 4 PM on October 5, the Health Department of Northwest Michigan is reporting:

Positive COVID-19 cases in the following counties: Antrim - 63, Charlevoix - 102, Emmet - 159, Otsego - 166

Recovered COVID-19 cases in the following counties: Antrim - 54, Charlevoix - 71, Emmet - 110, Otsego - 122

Confirmed COVID-19 deaths in the following counties: Charlevoix - 4, Emmet - 4, Otsego - 12.

The State of Michigan is reporting 142,726 cases and 7,139 deaths.

## Climate and Health Adaptation Planning Guide for released for Michigan Communities

As part of Gov. Gretchen Whitmer's MI Healthy Climate Plan, the Michigan Department of Health and Human Services (MDHHS) released the Climate and Health Adaptation Planning Guide for Michigan Communities.

Developed by MDHHS' Michigan Climate and Health Program (MICHAP) with the Michigan State University (MSU) School of Planning, Design and Construction and MSU Extension, the guide was created to be accessible and flexible for the unique situations of communities across the state.

"Combating the effects of climate in Michigan is a team effort. MDHHS has made this effort easier by developing this guide for Michiganders across the state," said Governor Whitmer. "The health and safety of our families is directly related to the health

of our climate. This guide will help us implement the MI Healthy Climate Plan I announced last week and improve our overall public health."

"While climate change is recognized as one of the greatest threats to public health, few models of climate and health planning currently exist," said Dr. Joneigh Khaldun, chief medical executive and chief deputy for health. "This guide uses a health in all policies approach to help communities in Michigan develop a climate and health adaptation plan or to integrate climate and health concepts into existing planning and decision making"

Michigan is getting measurably warmer and wetter due to climate change. Those changing conditions result in more extreme weather including heat, heavy rain and

winter storm events. Major climate-related health impacts in Michigan include heat-related illness, waterborne diseases, mental stress, respiratory illnesses, vector-borne diseases and physical injury from extreme weather events.

As communities are unique in their makeup, systems and needs, planning for climate and health adaptation can be complex. The guide focuses on core principles upon which each community can build.

Those include:  
 -Centering on health and equity.  
 -Engaging diverse partners reflective of the community, especially vulnerable and marginalized populations, along with technical stakeholders and decision makers.  
 -Incorporating locally relevant climate and health data in decision making.

-Establishing a shared vision for what successful climate adaptation means to the community.

The process was piloted in Marquette starting in 2017. Marquette was chosen as the pilot site due to the community's demonstrated capacity for climate planning with existing assessments of the environment and infrastructure completed, and access to local expertise. The project brought together stakeholders from across 1,873 square miles representing nearly 30 local units of government, agencies and organizations to address climate and health adaptation.

The pilot resulted in more than 100 potential recommendations and metrics for enacting adaptive planning and environment changes, and prioritization of the recommendations for short- and long-term planning.

"Using Marquette County as the pilot for this guide, gave us an opportunity to bring together stakeholders including, local government agencies and non-profit organizations, the resources of MSU Extension and expertise from the MSU School of Planning, Design and Construction. Local leaders are passionate about improving the quality of life and addressing the climate and health challenges for future generations," said Wayne Beyea, senior outreach specialist, MSU School of Planning Design and Construction. "We know that other Michigan communities are just as passionate, and look forward to expanding the capacity through our work with the Department of Health and Human Services."

Over the next year, MICHAP will continue to

work with MSU to develop a plan for testing the guidebook in other communities across Michigan. MICHAP will work with partners to promote the guide and, as MICHAP capacity allows, provide technical assistance to communities wishing to implement climate and health adaptation plans or best practices.

MICHAP will also work with the Michigan Department of Environment, Great Lakes, and Energy Office of Climate and Energy to integrate the guidebook's lessons into the Catalyst Communities program which seeks to provide education, training, planning and technical resources to local public officials as they prepare for climate impacts on emergency response and public health.

## Health Dept #10 responds to MI Supreme Court ruling

In response to the Michigan Supreme Court ruling on October 2, regarding Governor Whitmer's State of Emergency declaration and subsequent executive orders, Kevin Hughes, Health Officer for District Health Department #10 (DHD#10), issued the following statement:

While we process the rulings from Michigan's Supreme Court, DHD#10's leadership team is in consultation with our legal team, our Board of Health, the Michigan Association of Public Health, and the Michigan Department of Health and Human Services to determine next steps for our 10-county jurisdiction. We ask for your patience as we work to interpret the rulings and establish the best course of action to protect the health of the public.

In the meantime, we stand behind the mitigation measures given since the beginning of the COVID-19 pandemic to prevent spreading the virus, including:

-Wear a mask to protect others from you in the event you are unknowingly contagious

-Social distance by 6 feet or more from others

-Wash or sanitize your hands frequently

-Stay home if you are ill or have flu-like symptoms

- Avoid large gatherings, especially if you are at high risk for contracting the virus

Our role in public health is to promote and protect the health of people and the communities where they live, learn, work and play. Preventing and controlling the spread of infectious diseases is at the heart of what we do. Just like influenza and other infectious diseases, COVID-19 can have a devastating impact on human health. Until there is a vaccine and effective treatment to prevent further spread, DHD#10 will continue to promote prevention strategies that will lessen the impact on our communities. We will remain focused on our public health efforts of encouraging testing, case investigation and contact tracing, and promoting compliance with safety precautions. We will share additional information as it becomes available.

### DEAR EDITOR,

October's Domestic Abuse Awareness Month began more than 40 years ago to support and connect advocates working with survivors. Over the years its purpose has evolved to focus on community members and building awareness, understanding and prevention.

In this moment, domestic abuse may seem overshadowed by other issues that distress our communities and devastate lives. In reality, the issues playing out in our streets and on our screens are profoundly connected, because the same attitudes and behaviors in our culture that allow for domestic abuse and sexual violence are reinforced and rooted in racism, sexism and other forms of oppression.

Like all of us, survivors of domestic abuse and sexual violence are multi-dimen-

sional people who have overlapping identities of gender, race, class, ability, ethnicity, faith, sexual orientation, nationality and socio-economic status. A survivor is more likely to come up against structural barriers to support and justice – or even belief in their experience and story – depending on their overlapping identities.

Where do we go from here? How do we lift the structural obstacles that feed into individual challenges for so many survivors to create better communities for everyone? Here are four ways you can help:

Celebrate the inherent value, dignity and rights of everyone.

Call out inequity and inequality wherever you see them particularly in conversations with family and friends.

Recognize and speak out

against the harmful impact of sexism, racism, ableism, ageism and other forms of oppression.

Build stronger communities through empathy, equality, respect, kindness and inclusivity.

To solve domestic abuse and other societal problems, pledge to work together to elevate the status and dignity of all people. Together we can rise to new heights.

To learn more or find support, call Women's Resource Center of Northern Michigan's 24-Hour Help and Information Line at (800) 275-1995 or visit [wrcnm.org](http://wrcnm.org).

Sincerely,  
 Megan King  
 Violence Prevention Coordinator

Women's Resource Center of Northern Michigan

### TO THE EDITOR,

Prior to 1983, social secu-

urity was not taxable. In 1983, Joe Biden voted in favor of taxing 50% of social security and it passed. In 1993, Joe Biden doubled down and was the deciding vote in raising the percentage taxed on social security from 50% to 85%. Joe Biden is not a friend to working folks, and certainly not to retirees. His voting record on social security over the years is one slap in the face to retirees after another.

Now he wants to tax our 401k and IRA's (it's on page 78 of the Dem's platform) and he also wants to introduce a 3% annual tax on our homes. The record of Joe Biden shows he never misses an opportunity to raise a tax or introduce a tax to hurt the middle class and retirees.

spread of COVID-19 in nursing homes. I signed an order months ago requiring testing for all residents and staff and new residents, and my administration has helped get nursing homes thousands of tests. Federal leadership on this issue has been absent, which is why I created a nursing home task force to ensure Michigan at least has

coordinated and steady leadership on this critical issue. We still need the president to do the right thing and develop a national strategy to protect our families, front-line workers, and our most vulnerable populations from COVID-19."

Executive Order 2020-191 maintains the strong infection control protocols in nursing homes the governor put in place at the outset of this crisis, and protects residents from eviction and employees from retaliatory action for staying home

when exhibiting symptoms.

Following recommendations from the Nursing Home Task Force, the order, along with a DHHS policy bulletin released today, establishes Care and Recovery Centers to help patients requiring a skilled nursing level of care rehabilitate from COVID-19. Care and Recovery Centers will be care units dedicated exclusively to caring for and isolating COVID-19-affected residents.

Executive Order 2020-191 also requires enhanced transparency and communi-

cations from nursing homes, expanding notification requirements for positive cases to include legal guardians, health proxies, prospective staff and residents.

In order to improve resident well-being, the order lifts the previous prohibition on communal dining and instead requires both communal dining and group activities to be conducted consistent with CMS and DHHS guidance.

## Charlevoix completes comeback over Ramblers

**FOOTBALL RESULTS**

BY CHRIS FIEL

**CHARLEVOIX 28, BOYNE CITY 20**

BOYNE CITY – When Boyne City and Charlevoix meet up, it's always a treat for those in attendance.

In another physical, down to the last play, classic contest, the Rayders trailed by six points entering the fourth quarter and pulled out a 28-20 victory over the Ramblers.

This game had it all, starting with homecoming festivities for Boyne City, cool fall weather, trading scores, big plays, bigger hits, and key turnovers.

The Rayder victory, their third of the season, was the second consecutive win over the Ramblers (1-2) and third in the last five seasons.

Boyne got into the scoring column first as junior running back, Bobby Hoth crossed the goal line on a 3-yard run and following a successful Allie Herrick extra point, it was 7-0 Ramblers, a lead they would maintain throughout the opening quarter.

The Rayders would get on the scoreboard in the second as junior quarterback, Caleb

Stuck took off on a designed play and would rumble nearly untouched for a 45-yard touchdown. The conversion attempt would fail, and Boyne led 7-6.

Charlevoix would stay on the offense, pulling ahead as Stuck completed a 30-yard pass to Evan Solomon for the score, before adding the conversion as Stuck found an open Luke Snyder to make it 14-7.

With time ticking away in the half, the Ramblers knotted things up at 14-14 as sophomore quarterback, Jack Neer found Aidan Brehm for a 27-yard scoring strike. The extra point was not successful.

Following the halftime break, the Ramblers added to their lead as Hoth scored once again from 3-yards out and another failed extra point would make it 20-14 BC, a score that would stay until the fourth.

Charlevoix would not go away and with Stuck under center, there is always a chance for a big play either through the air or on the ground and he would find Solomon for a 40-yard gain and then the duo connected for an 8-yard score. Stuck and Snyder would again hook up for the conversion, pushing the Rayders in front 22-20, just minutes into the final quarter.

Most of the remaining quarter, the two teams took turns giving the ball back and forth before Stuck

plowed his way in from 5-yards out for a 28-20 lead. Trying to put the game out of reach, the Rayders went for two and were unsuccessful with just over one minutes and 30 seconds remaining in the contest.

The Ramblers took over, moving onto the Rayder side of the field before Ethan Putman picked off Neer to seal the deal, as Charlevoix ran out the clock.

Stuck had a great all-around game for Charlevoix, going 10-of-17 for 170 yards and two scores and an interception through the air and added 59 yards and a touchdown on 14 carries.

Snyder added five receptions for 79 yards and picked up another 55 on the ground on 11 carries and a score and Solomon hauled in three passes for 81 yards and two touchdowns.

On the defensive side, Snyder hit early and often, racking up 14 total tackles, Dimitrii Bell-Chavez added 12 tackles and three sacks, Patrick Sterrett and Putman each picked off a pass.

For the Ramblers, Bobby Hoth ran all over the Rayder defense, racking up 195 yards on 22 carries and two scores.

Neer finished 6-of-19 passing for 106 yards and a TD and two interceptions, Brehm hauled in the score on a 27-yard strike, Kaden Jewett had two receptions for 21 yards and Aaron Bess caught a pass for 48 yards.

# Rayders roll through Inland Lakes quad

BY CHRIS FIEL

INDIAN RIVER -- It's rare that you encounter a volleyball match on a Friday night, but on October 2, that is exactly what you got when Charlevoix traveled to take part in the Inland Lakes Quad.

The end result was pretty much the same as it has been all season, the Rayders came away unbeaten, going 3-0 at the event.

Charlevoix opened with Inland Lakes, downing the host team 25-14, 25-16, behind the strong serving and aggressive net play led by Avery Zipp and Grace Lentz picking up seven kills apiece.

In the second match the Rayders faced the power hitting Oscoda team. The Owls took an early lead of 12-8, but with a run by the Rayders with Lentz in the front row and Taylor Petrosky at the serving line the team recorded three kills by Lentz, going hand-in-hand with three aces by Petrosky.

The two squads battled back and forth, going on short runs each, and with the Rayders ahead 24-22, the Owls committed a serving error, giving the win to Charlevoix 25-22.

"It was a great test of power hitters on both sides of the net and a very exciting set," Rayder coach Audra Randall said of the Oscoda match.

ing of Oscoda 25-7.

In the third and final match, the Rayders welcomed Johannesburg-Lewiston, and the Cardinals proved to be an even bigger test for the team.

Coach Randall noted that the first set was very exciting and the team had to adjust to the power of the JoBurg middle hitters. The two teams went back and forth with a 10-10 score and then the Cards jumped ahead to a 19-12 lead but the Rayders were not going to let this set go and crawled back in and got it to 21-18 over Joburg.

Cam Turklelson stepped to the serving line and helped

capitalize to push Charlevoix ahead to a 22-21 lead before Joburg tied it up with a big kill. A Cardinal hitting error and kill by Petrosky put Charlevoix back up 24-22 before the team closed it out with a big win of 25-22.

The second set was not much different, other than JoBurg pulling out a competitive 25-18 victory.

"We made a few too many errors at critical times and really never made a run back into it," coach Randall noted. "The third set I told the girls we have to make a jump early in the set to capture this win. They did just that!"

The Rayders took the third set 15-11.

Lentz finished with 21 kills, three blocks and six digs, while Zoe Brodin added 41 assists, 14 digs, a block, and an ace. Avery Zipp chipped in with 15 kills, six aces, 23 digs, 21-of-22 serve receptions.

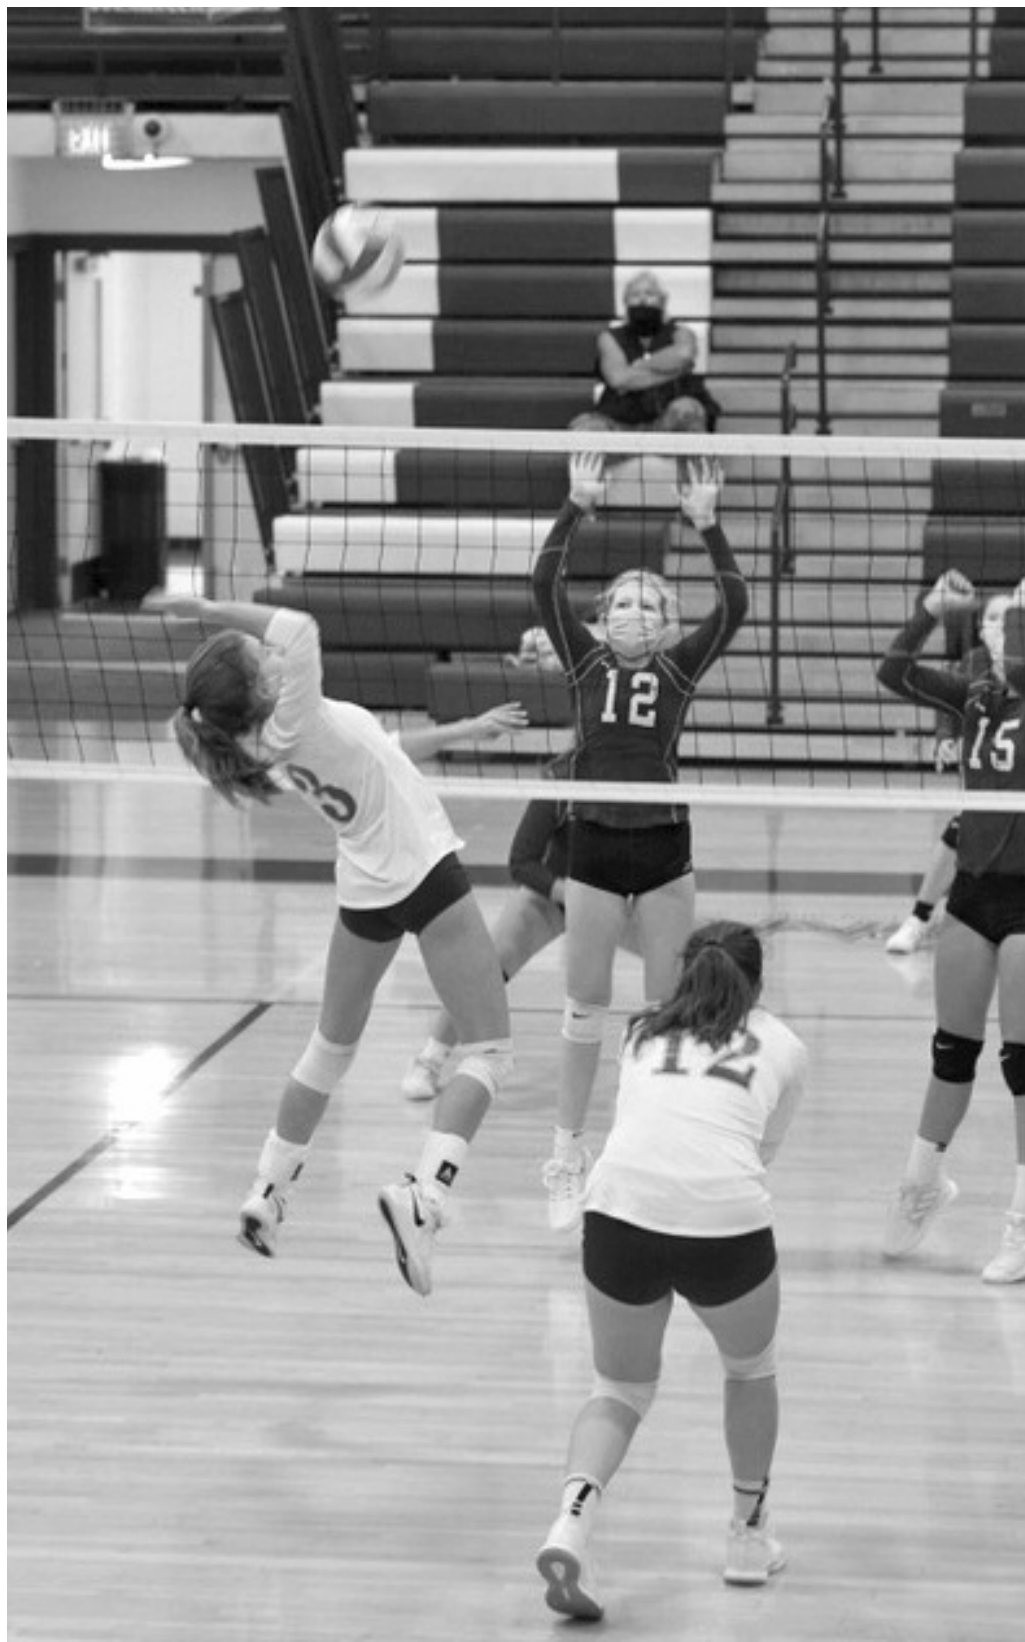

Petrosky added seven kills, four aces while 28-of-28 serving, 22 digs, 16-of-16 serve receiving and two blocks; Claire Scholten seven kills, five aces, 26 digs, block; Lauren Shepard one kill, one dig; Patria Muriel two aces, 24 digs, two kills; Anna Haf five digs; Cam Turklelson 17 digs, one ace; and Isabelle Kenwabakise four digs.

"So proud of the girls staying strong and finding ways to win," coach Randall said. "Each match they are tested they come out a better version of a Rayder Volleyball Team. We are always trying to improve and take the next step."

Following the Quad, the Rayders stand with a record of 22-1 overall.

dividends in a close matchup. That would be the case once again for the Charlevoix volleyball team as the Rayders took down a young Boyne City team in four sets in Lake Michigan Conference play on Sept 29.

Charlevoix outlasted the Ramblers in a well-played competitive first set, 26-24.

Boyne would respond in the second set, by playing as well as they did in the first set, taking down the Rayders with a 25-18 win.

Charlevoix would respond in the next two sets behind the experience and veteran leadership of Zoe Brodin, Avery Zipp and Grace Lentz.

The Rayders, despite a hard-fought effort by Boyne would take down the Ramblers 25-16 and 25-17 in the third and fourth sets.

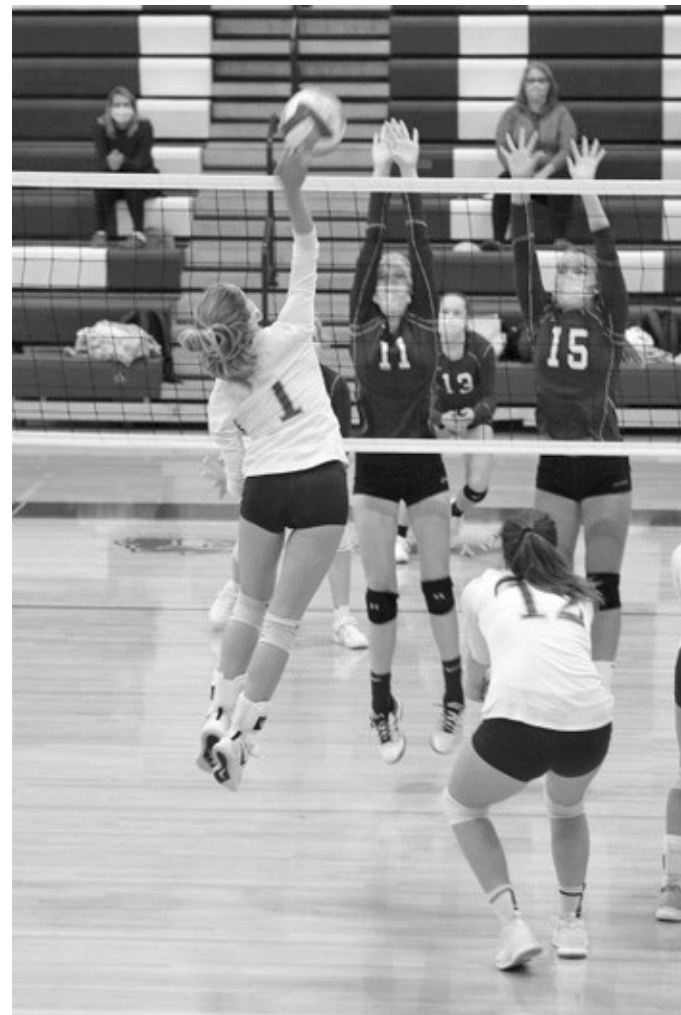

Brodin finished with 42 assists, five kills seven digs and two aces, while Zipp recorded a career high 19 kills and added 16 digs, four aces and was 16-of-17 on serve receive and Lentz chipped in with 15 kills and four digs.

Taylor Petrosky added 17 digs, was 20-of-20 serving, six kills, 9-fo-9 on serve receive and added a block;

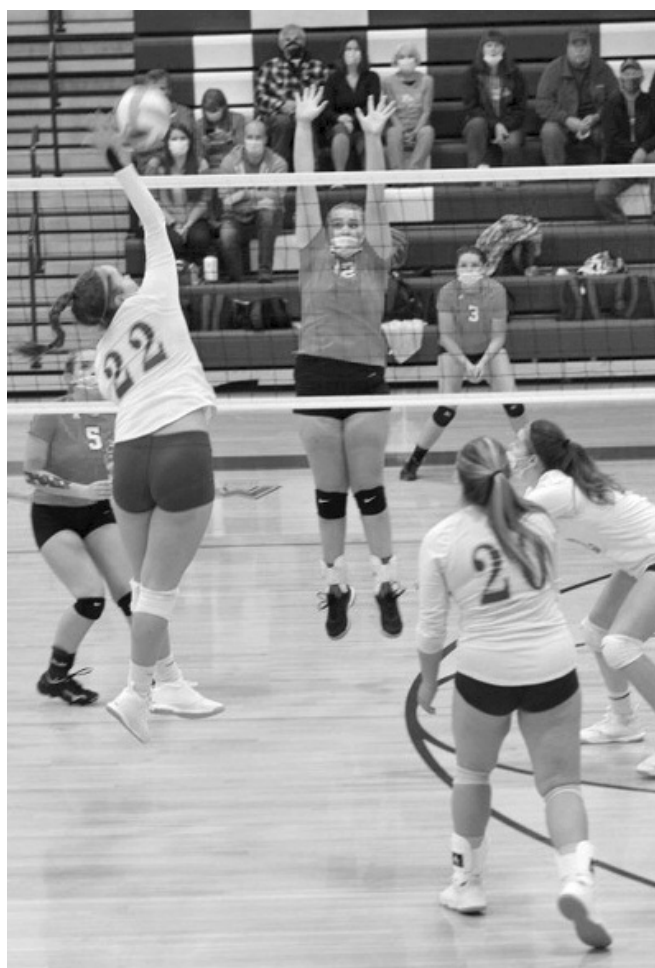

Patria Muriel had 20 digs, 11-of-11 serve receive and was 13-of-14 serving. Also, for the Rayders, Claire Scholten four kills, 19 digs, one ace; Anna Haf 17 digs; Camryn Turklelson 14 digs 6-of-7 serve receive.

Boyne was led by Maggee Behling with nine kills, seven digs; Grace Dawson added four kills, 19 digs, one ace and was 11-of-11 on serve receptions and Ava Tarsi had 20 assists.

Keni Ciesielski added six kills and three blocks; Bella Cosier made 26 digs; Maddie Matthews, 10 digs and Morgan Deming had five kills and three blocks.

# Red Devils take down Trojans, fall to Elks

**EAST JORDAN** -- The Lady Red Devil volleyball team took little time in taking care of business against the visiting Central Lake Trojans on October 1, winning in three straight.

EJ won the match 25-8, 25-10 and 25-20.

"The girls really pulled it together after our dismal match at Elk Rapids," coach Laura Snyder said. "They were focused and played their game at their level, which was really fun to watch. We set goals for our match tonight, which kept them focused on limiting mistakes and scoring points when we needed it."

"They surpassed their goals which was fantastic! As a team they served 95% (only

three serving errors in three sets) passing and communication was great; as was the aggressiveness at the net."

Haley Gibson finished with 25 assists and 10 digs to lead EJ, while Lindsey Cross added seven kills, seven digs, one assist and two blocks. Evelyn Diller had eight kills, five digs and a pair of aces.

Also for the Red Devils Julia Trojanek had 14 digs; Sophie Snyder added five kills, three digs, three blocks and two aces; Kyleigh McDuffie had eight digs; Katey

Black, Rhyen Olsen and Emma Richards each recorded six digs.

Kylie Skrocki had 10 kills, five digs and four aces and Anna Richards added four kills.

**ELK RAPIDS** -- Sometimes, things just don't go your way.

September 29 would be that night for the East Jordan volleyball team, falling in straight sets to the hometown Elks.

Elk Rapids won 25-16, 25-23 and 25-16.

"We struggled tonight, we beat ourselves," EJ coach Laura Snyder said. "It wasn't a good representation of their ability, which is frustrating for a league matchup. There were a few decent plays here and there, but overall we struggled to make plays when we needed them."

Haley Gibson had another good night for EJ with 16 digs, 13 assists and three kills, while Lindsey Cross added six kills, six blocks, three digs and an assist.

Sophie Snyder recorded

four kills, five blocks, three digs and an ace; Evelyn Diller, four kills, three digs and an ace; Julia Trojanek, 10 digs; Kyleigh McDuffie added seven digs; Kylie Skrocki, seven kills and six digs; Katey Black, five digs; Rhyen Olsen and Emma Richards had four digs each and Anna Richards added two digs and two kills.

# East Jordan takes down Saints

## EAST JORDAN 30, ST. IGNACE 6

**EAST JORDAN** -- This is the offensive output that coach Greg Kitson has been waiting for.

After the first couple of week of the offense doing a solid job, coach Kitson knew that the team was close to having a breakout game.

It didn't take long for the team to do that either as Aidan Webb took the first play from scrimmage for the Red Devils and scamper 70 yards to start the scoring and

open the flood gates in the process as East Jordan reeled off a 30-6 homecoming victory over St. Ignace on October 2.

EJ kept the pressure on during the first 12 minutes of play as Granger Kitson added an 11-yard scoring run and a Dawson Olstrom conversion run would put the Red Devils up 14-0

Wyatt Thompson would add to the lead as he rumbled in for a 5-yard touchdown and Olstrom connected with Ethan Antaya on the conversion for a 22-0 lead.

The Saints would get their only score of the night just before the half to cut into EJ's lead 22-6.

After a quiet third quarter where no one entered the end zone, Olstrom would find an open Antaya from 16 yards

out and he would then connect with Ryerson Whitaker for the conversion and close out the scoring for the night.

Coach Kitson credited the offensive line of Ashton Harris, Keenan O'Neill, Caleb Boyer, Zander Johncheck, and Colby Ferguson for controlling the line of scrimmage.

"We were able to get our running game going with over 230 yards and three rushing TD's," the coach noted.

Webb led the team's ground game with 84 yards and a score, while Thompson picked up 82 yards and Kitson added 34, with both players adding touchdowns.

Antaya hauled in five receptions for 41 yards and a TD.

Defensively, Boyer had 10

tackles, with five of those being sacks, while Carter Sherman and Thompson each had six stops with Thompson recovering a fumble. Hayden Peck and Kitson made five tackles each and Peck picked off a pass.

"Again, our defense led the way, really controlling the game," coach Kitson added.

"We challenged the offensive line this week and they responded very well. We set some goals this week and a couple of them were focused on the running game. Because of the play of the offensive line, we exceeded those."

"Homecoming is always a distraction for the kids and I am very happy with how the kids responded and to come out with a win."

**NEW HOUSE OR AN OLD ONE?**

**CONSIDER THE PROS AND CONS TO EACH**

As you embark on your venture to buy a home, one of the first decisions to make is whether to buy new or purchase an existing home. Each choice has its advantages, and there is no single answer that works for everyone.

You may be drawn to the shiny new, energy-efficient appliances, the great room, and the beautiful master suite offered in a new home. But you may also like the charm, the canopy of trees that drape over the sleepy neighborhood streets, and the increasing value of an existing home you've been eyeing.

Here are some things you'll want to ponder as you decide which route to take.

**Existing homes**  
Existing homes offer many considerations for potential homebuyers, including:

- The neighborhood. Many people are drawn to developed neighborhoods for the sense of community that has been established. The mature landscaping and developed trees are often a considering factor.

- Maintenance and repair. If you're considering an existing home, be sure you have a good handle on the working status of all major systems. Hire a professional home inspector to check out the house. As appliances and systems age they naturally require repair and replacement, something which may be reflected in a purchase price.

- Home improvement. If you enjoy small repairs and home improvement projects around the house, then an existing home would be your cup of tea.

- Existing features. When you buy an existing home, you typically

don't have to worry about buying the extras, such as blinds for the window, a security system, or a landscaped back yard.

- Land. In most metro centers, new homes may have less land than newer properties. Why? Because of changes in land-use patterns.

- Location. Existing homes are often found in older, more convenient metro core areas rather than outlying suburbs.

- The opportunity to remodel. In some cases buyers may prefer an older home in a particular location which can be modernized or expanded. In effect, use the existing home as a base to build a unique property.

- Price. In general terms, existing homes tend to be less expensive than new properties. As well, existing homes are likely to come complete with items which may represent new home extras—blinds, landscaping, built-ins, etc.

- Track record. When you purchase an existing home, you know how much the property has appreciated over the years -- in effect, you have an index of sorts which measures the community's marketplace appeal. At the same time, like stocks and bonds, you know that past results do not guarantee future marketplace performance.

Taxes. Depending on your state, you will likely have lower property tax rates. Also, many older households aren't required to pay for local bonds associated with new development, such as schools, parks, or road or transportation improvements.

- Traditional layout. If you like the formal living and dining rooms, an existing home will likely satisfy you.
