# Char-Em ISD special education millage renewal on the ballot May 7, 2024

CHARLEVOIX – Voters in Charlevoix, Emmet and northern Antrim counties will be asked to consider renewing the long-standing Char-Em ISD special education millage on May 7, 2024. Polls will be open from 7 a.m. to 8 p.m. at your usual voting location.

"This millage was originally approved by voters in 1980 and has been renewed every four years since," said Char-Em ISD Superintendent

Scott Koziol. "This millage impacts the lives of thousands of students and their families in

our region, from newborns to students up to age 26, including their lives beyond school. It provides critical services

to students with disabilities in every Char-Em ISD district."

Char-Em ISD serves more than 1,330 students with special needs in 11 public school districts, two charter academies, and 5 private schools each year. Of that total, 124 infants and toddlers with disabilities receive direct and classroom-based instruction, and 107 students with significant emotional needs attend ISD-operated classrooms. Across the region, 16 special education classrooms, including 2 early childhood classrooms, are operated in the ISD's 2.5 county service region.

Students in Char-Em ISD special education programs participated in the "Arts are for Everyone" performance at the Great Lakes Center for the Art in spring 2023.

a market value of \$100,000, it would cost the taxpayer about \$75 per year.

Koziol said funding from this millage goes directly to local schools to reimburse about half of their special education expenses, as well as to Char-Em ISD-operated classrooms and the Patricia A. Taylor School in Petoskey. It also provides specialized training for teachers, evaluation services and highly specialized transportation for students with disabilities, along with career and college readiness preparation. In Michigan, special education services begin at birth and are provided until a person with a disability reaches the age of 26. Koziol noted that ISDs are mandated by state law to provide special education services, as well as support to local districts serving students with disabilities. Costs associated with providing those services not covered by the millage are

## Tip of the Mitt Watershed Council Calls for Volunteers for Spring Stream Monitoring

Tip of the Mitt Watershed Council is excited to kick-off this year's Volunteer Stream Monitoring (VSM) program with the highly anticipated spring training session scheduled for Saturday, April 27, from 10:30 a.m. to 1:00 p.m. The training session will be held at the Watershed Council's downtown Petoskey office and lunch is provided before participants embark on an immersive field training session along the Bear River.

The VSM program offers an unparalleled opportunity for individuals to become citizen scientists, actively contributing to the health and preservation of our waterways. Volunteers will receive comprehensive training on collecting macroinvertebrates and identification and sorting techniques. This crucial data collection aids in assessing the ecological health of streams and rivers within our community. Christopher Knickerbocker, the Watershed Council's 2023 Volunteer of the Year, expressed his passion for the program, stating "I enjoy Volunteer Stream Monitoring because it is citizen science in action. We get together as a team and get to catch and identify aquatic life. We can demonstrate if a stream is healthy or in need of help based on trends of what macroinvertebrates are present or missing. The information we collect is important and I feel like I am doing something worthwhile when I volunteer with Tip of the Mitt Watershed Council." To register for the VSM spring training session and delve deeper into the program's details, interested individuals are encouraged to visit the Watershed

supported by state, federal, and other local dollars and grants. Without this voted millage, districts would need to reallocate funding from existing student programs to comply with state and federal laws that mandate the provision of special education services, Koziol said. ## **COMMUNITY LEADERS BLACK BIRCH DESIGN & BUILD GET INVOLVED!**

Justin Roberts is a highly regarded architect in Northern Michigan. With his partner, Matthew Chaperon.

they lead the Black Birch Design & Build, a firm which they founded in 2017.

Justin is a native from East Jordan. When he graduated from high school, he went on to Lawrence Tech, where he majored and received his masters degree in architecture. Graduating in the midst of the Great Depression in 2009, Justin was among the very few from his graduating class that immediately received a job offer from a future-forward architectural firm downstate, Designhaus. He got know Matthew, who had received his civil engineering degree from Michigan State. Both of their fathers were builders. Justin and Matthew knew that our area needed a firm that designs and builds, as so many houses are commissioned by owners who are seasonal, and so a firm that does it all is advantageous, e.g., one phone call versus numerous.

In fact, Black Birch also offers interior design and landscaping design, so again, it simplifies the building process for out-of-towners, i.e., one phone call, and Justin and Matthew have control and keep a project on track and on budget.

**Black Birch Design & Build team** 

Justin talks about our community, and how it is critically important to be involved. He feels our area could become even more of a known vacation area, and that will mean the need for more hotels, larger marinas and airports - and absolutely, the necessity to protect our watershed, lakes and streams.

They are both givers! Just a few examples of community involvement are supporting as needed day care for young families, sponsoring scholarships for Camp Daggett, sponsoring East Jordan's Scholarship Pageant, Charlevoix Youth

Soccer, our treasured Women's Resource Center, specifically their "Women Can and Women Do" Event, and St Francis Xavier School in Petoskey. Justin served on the East Jordan Downtown Authority and Matthew the Planning Commission.

By the way, I have previously written about Josephine Roberts, Justin's wife, definitely one of our county's treasured community leaders!

It was a pleasure to visit with Justin, meet Matthew, and Kara and Kevin, also on the Black Birch Design & Build team.

## News Participate in the Broadband, Equity, Access, and Deployment **Map Challenge**

#### **BY DAVE BARAGREY**

According to current mapping, Northern Michigan is only partially covered by high-speed internet access, and we need community support to cover the remaining unserved and underserved areas.

Here is a breakdown of Northern Michigan Counties and the percent of addresses with full broadband coverage.

Alpena County - 80.87% Antrim County - 75.27% Charlevoix County - 88.15% Cheboygan County - 81.03% Crawford County - 50.2% Emmet County – 93.01% Kalkaska County - 54.75% Montmorency County - 59.06% Oscoda County - 57.2% Otsego County - 63.17% Presque Isle County - 52.63% Michigan was awarded over 1.5 Billion dollars from the NTIA's Broadband, Equity, Access, and Deployment (BEAD) Program to fund connecting our homes, businesses, and institutions. The Michigan high-speed Internet Office is urging communities to ensure their maps are accurate regarding 'who has high-speed internet' and 'who needs high-speed internet'.

We urge you to take a moment to go to their Internet Map and help us verify connectivity!

You can learn more about BEAD by visiting the website at www.michigan.gov/leo/bureaus-agencies/mihi/ funding-opportunities/bead/bead-challenge-process.

You can simply visit the BROAD-BAND MAP and type in an address in the bar on the top left and it will show whether it is listed as connected or not. If no service, inadequate service, or provider service is wrongly listed

you may issue a 'CHALLENGE' by clicking the 'REPORT SERVICE IS-SUE' button at the bottom of the page. In this way, BEAD funding is

hoping to identify gaps in connectivity and then direct funding to these locations.

All homes, businesses, and community anchor institutions are eligible and encouraged to double-check the map.

## City Commission moves ahead on water pipes and housing

The Boyne City Commission held its regular meeting Tuesday and awarded a contract for Water Service Material Investigation field work to the low bidder Monchilov Sewer Service in the amount of \$89,575. The water pipes of some city water users will be inspected this summer as part of a statewide Drinking Water Asset Management grant program to help communities locate and identify lead/galvanized drinking water service lines. The city sent letters to 20% of water users via a random number generating process, in order to obtain statistically significant data that

can be used for possible replacement of lead pipes.

City staff updated the Commission on progress towards possible future development of housing on city-owned properties. Per the direction of the City Commission at a March 15th special meeting, staff is following up on these items regarding the two properties near the DPW facility off West Court and **Robinson Streets:**

## **ASK LAURA** YOUR DOSE OF POSITIVITY AND INSPIRATION Refilling the Glass: A Lesson in Perspective

Dear Readers, recently, I came across a quote that truly inspired me: "The glass isn't half empty or half full; it's refillable." This got me thinking beyond the usual 'half full' mindset I've embraced for years. Life, indeed, is full of choices and endless opportunities.

I had the chance to impart this wisdom to my college-aged son, Donny, during an unexpected situation this week. He was involved in a minor fender bender near campus.

While he was understandably shaken, and more so at the thought of filing a police report, my immediate reaction was gratitude

Laura Jasurda

that nobody was hurt.

This was when I shared the "refillable glass" quote with him. To my delight, it resonated, cutting through his nervousness and sparking a bit of inspiration. Later the same day, he shared an experience that he thought truly embodied the concept of the 'refillable glass.' In preparing for his police station visit, he realized he didn't have his current insurance card in the car. This prompted him to call the insurance company, get a new copy, and avoid potential future issues had he not had the card. The fender bender, a seemingly half-empty moment, turned into an opportunity to prepare better - his very own experience of a silver lining.

Witnessing my son grasp and apply this 'refillable glass' perspective was another highlight of my day. It's moments like these that

remind us of the fluidity and the resilience of life.

So, dear readers, remember that life is filled with moments that can be seen choose to refill our glass.

Braiden enjoys utilizing the gym to play football, basketball and thoroughly enjoys hanging out with his favorite teachers and his best friend, Kaiden.

#### **Staff Comments:**

Throughout this year, Braiden has exemplified what it means to be responsible, respectful, and dedicated to his academic pursuits. Despite facing numerous challenges, he has demonstrated unwavering determination and resilience, always striving to be the best version of himself.

Braiden's commitment to his studies has been truly commendable, as he has worked tirelessly to ensure his graduation before May. Moreover, his willingness to lend a helping hand in the classroom and serve as a positive role model for younger students is both inspiring and uplifting.

We are incredibly proud of Braiden's achievements and the remarkable efforts he has shown. As he prepares to embark on the next chapter of his journey, we have no doubt that he will continue to excel and make a positive impact in all his future endeavors.

Congratulations, Braiden, on being named our Student of the Week! Your dedication and hard work are truly deserving of this recognition. Keep shining bright!

To be a highly effective leader, we must motivate our people. Some may say that people should motivate themselves; that it is their responsibility to do well.

It is important for us to realize that we can help our people by inspiring them, and is our responsibility! Isn't this what leaders do?!

It is important that we learn and commit to what people want and need from us as their leader. It goes a long way in helping us heighten their motivation. *Here is what people want:* • To feel appreciated

To feel that they are an important member of the teamTo feel they are heard

To know their ideas matter
To have the assurance that they are being helped to advance and succeed

Our people need to know we genuinely care about them, their success and well-being.

Let's have conversations with the people doing the work of our business – each of them – of all levels. This is how we help our people truly engage with our work, team, and mission.

President John F. Kennedy was visiting the Space Center at Cape Canaveral in the early 60s. He was walking past a janitor, stopped, and asked him about his work, to which the janitor thought and replied, "I am helping to put a man on the moon." This is the attitude and spirit we want, that everyone is positive and pitching in, with enthusiasm and pride!

In order to foster this spirit, we need to realize that as a leader, we

#### John Keyser

need to demonstrate to our people that we genuinely care about them. We need to spend time in conversations, even short conversations with our team members. We need to ask questions and listen attentively to understand and appreciate. They will do their best if they believe we genuinely care.

We should also share information as much as possible. This helps people feel trusted and valued.

If they sense they are in the dark that could cause them to feel a lack of trust and lessen their enthusiasm. *Other principles and practices to bear in mind are:* • Be kind. Kindness helps us gain and maintain the respect of our people. • Thank people for their dedication and good work. • Celebrate successes, even small ones, without seeking credit.

• Do what we say we will, even the small things.

Empower others with work and responsibilities so they may learn and grow.

And be a giver. It is true that we cannot be the sole source of motivation for others, yet we can help inspire a positive commitment to do their best. To have this influence, we have to connect with them. This is our responsibility as a leader!

## East Jordan Rotary Club Plans 15th, and Final, Variety Show

After 15 years, the curtain is coming down on the Rotary Club of East Jordan's annual Variety Show. This year's show, the 15 th annual, will be the Club's last. The final shows will be held on Friday and Saturday, May 3 rd and 4 th. Held at the Community Auditorium at East Jordan High School, show time is at 7:00 p.m. each night, and doors open at 6:00 p.m. "We're not getting any younger," said Chip Hansen, the Show's longtime Master of Ceremonies, adding, "and our audience is changing, too, so we just felt like this year should be our last, and we should go out on top."

Judy Zorn is the show Director and, with Mark Penzien, selects the chorus medleys and puts the music together. The show features the fabulous Rotary Chorus, supported by a great band. "The chorus and the band headline the show." Penzien said, noting, "the medleys will have you dancing in your seats." "Bob Bryan and the Rotary Show Band basically play a pre-show concert too," Zorn commented, "so if you like great music, come early!"

Tammy Jackson coordinates the Production Team, which writes the skits and crossover acts, manages the rehearsals, and, in general,

plans the entire show. "The show will feature our trademark slapstick comedy," Jackson said, adding, "and we guarantee an evening full of belly laughs!"

The pre-show begins at 6:00 p.m., so guests are encouraged to come early to enjoy music provided by the Rotary Show Band. General admission tickets are priced at just \$10 each and are available in East Jordan at Charlevoix State Bank and from any member of the Rotary Club. Reserved seats for each show are available for \$15 each plus fees at

www.mynorthtickets.com . Tickets may also be available at the door, but in very limited quantities. According to Jackson, the show normally sells out. "The show has a following," she said, "so it's important to

## You're a Great **Big Brother**

#### Dear Dave,

My mother died about a year and a half ago, and she left me and my younger sister \$75,000 each. My sister is 16, and she plans on enlisting in the military after high school, then using the G.I. Bill to pay for college afterward. She won't receive the inheritance money until she's 18. What advice can I give her to ensure she makes good decisions with the money?

#### -Davis

#### Dear Davis,

I'm truly sorry to hear about your mom. At the same time, I'm so proud of you for stepping up to help your little sister. You know, \$75,000 sounds like a lot of money-especially to a teenager. But that kind of cash can disappear in a heartbeat if she's not careful. And then, all she'd have left where her inheritance is concerned is a lifetime of regret.

If she'll be smart with

She'd have millions waiting for her. The point is that investing a big lump sum of money, and leaving it there for her golden years, is a great idea.

Now, I'm going to give you some homework, Davis. I want you to talk to a bunch of rich, old folks. Learn what they did to build wealth and hang onto it. Also, make sure the friends and family you both have around you are quality people-the kind who have your best interests at heart. Remember, the Bible says, "In the multitude of counsel there is safety."

Your sister is very lucky to have a big brother like you. Walk her through this advice. Be there for her. Look out for her. She needs you right now, and she'll need vou in the years to come. God bless you both!

## **Sports** Take black bear precautions in the spring **Remove bird feeders and grills**

Spring brings blooms, bugs and black bears.

This time of year, bears are leaving their dens and will be searching for food sources to replenish their bodies after eating very little since last fall. To prevent a bear encounter in your backyard, take bird feeders down, bring garbage cans inside and remove outdoor pet foods.

As bears leave dens, they will first pursue water and fresh vegetation to flush their systems. While those foods are abundant and accessible, the calorie-rich offerings of bird seed, garbage, beehives and pet foods are a mighty prize to a hungry black bear.

Allowing bears to eat from food sources near homes can often lead to problems for both the people who live there and the bears. Feeding from these types of food sources can turn bears into repeat visitors that may lose their fear of humans, cause damage to property or create dangerous situations for people, livestock and pets.

"The spring is a critical time to think strategically about your backyards and outdoor spaces." said Rachel Lincoln, Michigan

Department of Natural Resources wildlife outreach coordinator. "Removing

The Michigan Department of Natural Resources encourages northern Michigan residents to remove food sources like bird feeders now to help keep black bears at a distance and prevent bear conflicts. (courtesy of DNR)

they attract wildlife can save you time, money and stress, and keep wildlife food sources now before safely foraging at a distance for the rest of the year."

Lincoln said that, fortunately, avoiding problems with bears and other wildlife is easy if you take a proactive approach, and suggested the following steps.

#### **Remove bird feeders**

Birds will soon have an abundance of natural food sources available. If you enjoy watching birds in your

yard, consider replacing feeders with bird baths or nest boxes or planting native flowers and grasses to attract birds year after year. Visit the Audubon website to learn more about native plants that birds love. Bring in outdoor pet foods and keep grills and patio furniture clean

A bear's nose is so strong it can smell food up to a mile away. While you may not be able to smell the spills on your patio, a bear certainly could. Secure garbage cans indoors overnight

Taking the trash out in the morning may seem inconvenient, but it's far easier than cleaning up scattered trash from a torn bag left out overnight. Protect beehives and small apiaries with electric fencing

Apiaries – locations where beehives are kept - are a calorie jackpot for bears. Keep your bees and beehives safe by installing an electric fence.

Bears are an essential species in our ecosystems because of their critical roles as seed dispersers. As spring arrives and we spend more time outside, keep in mind that human behavior affects bear behavior.

Don't wait until you see a bear to act. Remove food sources now and keep Michigan's black bears at a distance.

To learn more about preventing conflicts with bears this spring, visit Michigan. gov/Wildlife or contact the DNR Wildlife Division at 517-284-9453.

It was 1903 when George "Stormy" Kromer watched another wool cap blow away as his head protruded from his R.R. engine car. A problem solver, Stormy decided to "engineer" this problem away. The one-time minor league baseball player returned home and had his bride Ida sew an ear flap onto the back his wool baseball cap. As a result, the cap not only stayed on, it kept him warm. Coworkers and others asked where they could get one. Ida kept sewing... and sewing! The iconic Stormy Kromer was born.

Something about this cap works well since its been around for 120 years. Long known in hunting and lumber camps throughout the Midwest, especially northern Michigan and Wisconsin, it has slowly spread nationwide. Born in the north woods, it's proudly made in the USA in Ironwood, Michigan, a small upper peninsula (UP) town. The family run business continues to produce the cap protecting the noggins of outdoors men and women, including famous folks as diverse as actor Jeff Daniels and Ned Flanders from the Simpsons!

CEO and manager Gina Jacquart-Thorsen, one of two daughters of Bob Jacquart, the cut and sew manufacturing mill owner,

George "Stormy" Kromer

keeps the tradition alive. Many legends surround the Stormy Kromer. One of the best, confirmed by Gina, involves the classic/ traditional red and black plaid cap which sports a "six point" pattern with checkerboard squares coming together forming a 6 pointed star. "Back in the day" R.R. engineers traveling the country, proud Stormy Kromer owners, would enter a local bar or saloon and call out: "Any six pointers in here?" If so, they would gather and enjoy conversations... and more than one "ginger ales"!

If so inclined, maybe become a stormy Kromer owner and proudly call out "Any six pointers in here?" Who knows who you might meet?!

## PET OF THE WEEK LESTER

This droopy faced fellow is Lester! Lester found himself with us after being transferred from another county. He has the sweetest face and will win you over with his big loving eyes. Lester is pretty short but stocky, weighing in around 65 pounds. Lester seems to walk well on a leash. He is not a fan of being picked up or having his paws touched so we think Lester would do best in a home without young children, and one without other dogs. Lester is around 2 years old, neutered and up to date on all vaccinations!

Summer is just around the corner and who wouldn't rather be earning money while spending their days enjoying all that Boyne City has to offer instead of being trapped inside all day or evening! Boyne City has opportunities for seasonal summer and part time employment in the City's marina, parks, public works and water/wastewater departments. The majority of this work is outside and includes lawn maintenance, trash removal and other types of outdoor and light maintenance work that keeps Boyne City looking and running great.

Boyne City is looking for people with an exceptional work ethic, the ability to work alone or with others, self-initiate and follow through with tasks while interacting with the public in a positive, professional manner, have a valid driver's license and in most cases be 18 or older.

The Public Works, Parks & Water/Wastewater work schedule is generally Monday - Friday, with few nights or weekends. Marina positions, require evenings and weekends but can provide flexible week to week scheduling, and also calls for strong communication skills, some computer familiarity and includes a variety of daily duties. Training provided for all successful candidates.

Join us and be part of the team that takes pride and works hard to provide essential, highly visible services to Boyne City. Appli cations are available online and can be emailed to info@boynecity.com, taken or mailed to City Hall or placed in the drop box EOE

#### PART 2 OF 2

#### **Bedrooms and Bathrooms**

Three and four bedroom houses are the most popular among homebuyers, so if you can stick in that range you will have more potential buyers when it comes time to resell. Five is okay, too, as long as you do not have to pay too much extra for the additional bedroom.

There should always be at least two bathrooms in a house, preferably at least two and a half. One bathroom with a place to wash up for day-to-day visitors, one for the master bedroom, and at least one to be shared by the other bedrooms.

#### Closets, Garages, and Laundry

Walk-in closets are extremely desirable for the master bedroom. For the rest of the house, just be sure there is plenty of closet space. Don't forget space for linens and towels.

Garages add to the resale value and you should always make sure to get at least a two-car garage. Lately, three-car garages have become desirable in some areas of the country.

The laundry facilities should be located somewhere convenient on the main floor of the house, but not in a place it will create an eyesore. Think about whether you want to walk up and down stairs when carrying loads of laundry.

#### The Kitchen

Family activity centers around the kitchen, so this is the most important room of the house. Larger kitchens are better, and they should be provided with modern appliances. Obviously, the dining room and breakfast nook should be located adjacent to the kitchen. In newer houses, the family room should also be extremely close to the kitchen.

There should be easy access to the back yard, as there will be occasions for barbecues and outdoor entertaining. In addition, it should be a short trek between the garage to the kitchen so hauling groceries in from the car does not become a horrendous chore.

#### Fireplaces

The only room where you absolutely have to have a fireplace is the family room. A fireplace in the living room may be nice, but you pay extra for it and will probably rarely use it. At best, it serves as a focal point of the living room, but does not add much in real value.
