## Director's CORNER

### Medications: Dementia Safety

If you are living with dementia or caring for a person living with dementia below are some of the common dementia medication risks and tips to help.

#### Early Stages - Risks

Forgetting to take or taking too much medication. Forgetting to refill prescriptions.

Mixing up medications like taking morning medications at night.

Organization mistakes like putting too many of one pill into one pillbox slot.

#### What Caregivers Can Do

People in early stages typically need ways to help organize medications. The amount of help needed will depend on the person.

Watch for signs. For example, are the number of pills in the bottle not going down? Is their behavior out of the ordinary?

Talk to their doctor or pharmacist. They can review the medications with you and how they're supposed to be taken. Learn what each medication is for and what could happen if mistakes are made.

Create a routine. It will help them remember to take medications on time and in the right way, like with food. Write it down and keep it in a place where they'll see it.

Monitor from a distance. If they organize their own pills, watch carefully to see how they're organizing their medications. You can also organize nonmedical home health services for ongoing support.

Use reminders. Call to remind them or leave post-it note reminders.

#### Tips

Keep a steady supply. Enroll in a pill refill service or have medications dropped off.

Do it together. Meet once per week to help organize pills. Or, line up something in your routine with their medication time.

Make it simpler. Some examples include:

Automated pill dispensers or pill boxes with alarms or locks for dosing. Get blister packs from the pharmacy.

Set alarms with labels like "give mom morning pills."

#### Safety Tip

Medications should be regularly reviewed by a doctor or pharmacist to check for safety risks like duplicate medications, drug interactions, or side effects like dizziness.

The Charlevoix County Commission on Aging wants to help support you in this process.

We have available Medication lock boxes and Medication disposal pouches!

You can also take your expired medications to the local Sheriff's office and dispose of unused medication in the Pill Pods.

The Commission on Aging is an underutilized resource for support as you age. Pick up the phone, or stop in and see what we are all about. You can also follow us on Facebook and Instagram for the most up to date happenings and events.

We are changing what aging feels like and looks like in Charlevoix County and what you to have all you need to be successful in living a fulfilled happy life as you age!

**Beaver Island Wellness Check Program**  
 The Charlevoix County Commission on Aging and the Charlevoix County Sheriff's Department are collaborating their efforts on Beaver Island with respect to the safety and wellness of our Seniors on Beaver Island. The COA has created a program with the Sheriff's Department that will provide free, periodic wellness checks for aging residents of Beaver Island, aged sixty (60) and older due to the limited resources on the island.

**Voucher Meal Program**

Available for June, July & August at  
The Shamrock Only

Monthly special meals will restart in October.

Please call Lonnie or the COA Office on the Mainland for all the Other Beaver Island Fun Activities planned like the Tai-Chi, Cardio Drumming, BINGO, Crafts and More!

We are always looking for more ways to meet you where you are in you aging process.

Reminder: The BI Meal Voucher Program is for Charlevoix County Tax Paying Seniors, 60 years old and older only. Voucher can be purchased individually or up to 10 a month. There is NO reimbursement for any unused vouchers.
