

First of a series

Wetlands—a statewide concern reflects on county

BY BARB CRUDEN
AND JIM SILBAR

Up to a few years ago, the many swampy areas around Lake Charlevoix, as well as other swampy areas inland, used to be just waste places left to grow wild, or else the land owners would fill them in so that the land could be used. But no more.

In 1979, the Michigan legislature passed an act, called the Goemaere-Anderson Wetland Protection Act that went into effect in October of 1980. The passage of the act, recognized hitherto unseen values in these water soaked acres along shorelines and in upland sites throughout the county as well as the state.

Twenty years before the act was

passed, the word wetlands wasn't even in dictionaries. Wetlands were known as swamps, fens and bogs. Few even today know what the word wetlands stands for, or understand the ruckus that the word is causing throughout the state.

Wetlands do provide untold benefits that no other environment can provide, according to information being distributed by the state and the University of Michigan Biological Station.

The main functions they list are that wetlands protect water quality in lakes and streams, provide temporary water basins, provide wildlife habitat and recharge underground water supplies.

Preserving those values brings the state into conflict with those

who see economic values of waterside and wild woodside real estate.

The aim of this series of articles is to inform and to help decide a balance between the two factions.

The state has long been known as a place that had many acres of wetlands, going back to the time of the first English and American explorers who came into the land known as Michigan.

In the original surveys, done about the time of the presidency of Thomas Jefferson, early surveyors said the swamps made the state useless for agriculture.

In fact, some even said that the whole state was worthless for anything because swampy areas seemed to cover the whole state.

We know differently now, as the

State of Michigan now has some of the best land for growing a great variety of crops. In this, Michigan has shown that both wetlands and economic factors can live together.

According to the environmentalists, however, there is a long range economic value in protecting the three million acres of wetlands left of the eleven million that Michigan once had.

To consider the first of the four functions of wetlands, it helps to go down to the lakes and streams to watch as the waves drive sediment shoreward. Or to observe sedimented streams flowing into the lake.

Wherever a wetland borders these waters, the plants in the wetland waters slow down water flow, thus allowing the sediments to drop

of the water. Plants also take up nutrients they find in the sediment. These two actions slow the aging of the lake. Eutrophication is the scientific word used to describe this aging as a lake or pond gradually becomes choked with water plants and algae partially because of inflowing nutrients and sediments.

As a lake or pond gets older, plants algae and sediments are continually filling in the lake. As more sediment comes down from the hills surrounding the water and settles into it, more plants are able to make a foothold in the low lying areas. After plants stabilize the shoreline, brush and some species of trees that are water tolerant can then begin to grow. Eventually the wetland becomes dry as the plants and trees use

the water and in the process, aid in drying out the lands.

Eutrophication is a natural process but not desirable to those home owners along the Lake Charlevoix shore, for instance. Charlevoix County's Lake Management Committee has set maintaining clear water as its first priority.

Thus, in a sense, use is made of a natural process (wetland functions) to prevent another natural process (eutrophication of the lake).

In wetlands grow plants and trees that will not grow anywhere else. Proper forestry practices, says the Natural Resources Commission, permit important commercial use of the wetlands' red maple, northern

25 Cents

Taxpayers went to Boards of Review throughout the county this week, trying to figure out how they could get lower assessments. While this picture was taken at

Boyer City, many other towns and townships had a steady stream of taxpayers wanting to determine their place on the tax rolls.

EJ budget being reviewed

Hoping that the federal revenue sharing won't be cut, East Jordan, like all cities, is treading lightly in its budget plans for the up-coming year.

With a total proposed budget of \$842,459, for 1985-86, the city is including \$50,000 on anticipated revenue from the federal government's revenue sharing. Treasurer Glendora Murphy said the figure is down from the past year's \$60,438 because if the federal cut is ap-

proved, it will take effect January 1986. Murphy said the \$50,000 takes the cut off into consideration.

The tighter budget this year could be even tighter, then, in the following year.

Last year's budget, also scaled down, was \$936,632, which makes this year's \$94,173 tighter. Over and over down the columns of the detailed '85-'86 budget the line items repeat or reduce last year's

allowances.

Anticipated revenues include, beside the revenue sharing, \$297,600 in property tax, \$140,000 in state revenue, \$38,000 in interest, and the rest in fees and township contracts.

The public hearing for the 1985-86 budget will take place Friday, March 22. A second public hearing on final amendments for 1984-85 will be held Tuesday, March 19 at 7:15 p.m. The first was on March 12.

BC's Old City Park marked for improvements

The trend for improving Boyne City continues as commissioners approved Tuesday the submission of a pre-application for funds to build a riverside walk, stabilize the river banks, erect a gazebo, and landscape, all in Old City Park.

City manager Randy Frykberg

said the total cost would be about \$130,000. The city is applying to the state's Land and Water Conservation Fund for a 50-50 grant. Part of the city's \$65,000 share would be made up by Soil Conservation Service for remedying river bank erosion, Frykberg said.

In other business, the city commissioners agreed that abuse of the two-hour parking limit on Water and South Lake Street had come to the point where tickets will be issued after two more weeks of warnings.

Jordan teachers approve a one-year contract

Teachers in East Jordan voted approval of a new one-year contract with the school on March 8. School board member Mary Jason said this was the first step in the total approval process.

The contract goes next to Northern Michigan Education Association, the regional bargaining council, to assure that no concessions go beyond union policy. NMEA will vote on Thursday, March 21.

If approved, Jason said, the contract will then go to the East Jordan

school board for its vote. Jason said she saw no obstacles to final acceptance of the contract. At that point the conditions can be made public.

The staff of about 60 teachers have worked without a contract since August 31, 1985 when their two-year contract ran out. Since then their representatives, Bob Snyder, Rodger Ransom and Phil Goebel met with school board negotiators Larry Chioda, Herb Griffin,

Mary Jason, and Tom Rossler in about 19 formal sessions.

The last three sessions involved Traverse City mediator Robert Rombouts, and Leonard Staley, representing NMEA assisted the teacher team in a number of the meetings.

Probably by the last week in March contract conditions will be made public and, for one thing, parents and students will find out if the snow days will be made up.

Lillis named to board slot

Eighteen-year-old Heidi Lillis, a senior at Boyne City High School was named Monday night by the Char-Em school district to fill the vacant spot on the Boyne City School Board. The spot on the board was caused by the resignation of Dr. Gary Mellon.

Lillis, who was elated at her being named to the school board, has been involved in school activities through being on the student council for the past four years. She is serving this year as an officer.

Lillis is also the student council representative to the school board and has attended almost all of the meetings of the board for the past year and a half.

Lillis' name was picked by the Char-Em board from four that were considered, according to the announcement that was made at the Monday night school board meeting.

Lillis was also at a Monday school board meeting when the message was brought into the meeting and given to Superintendent, Rich Kelly.

Kelly flashed the high sign across the tables to Lillis while a presentation was being heard about special education within the school system.

After a short recess, Lillis took her place on the board. She will serve in the position until the June election.

BC schools okay elections, math policy

Boyer City schools okayed a resolution for the upcoming special election that will ask the voters to approve operating millage for two years. They are asking for 21.3 mills which is the same as it is presently.

The motion to ask for the millage renewal was made at Monday night's Boyne City School Board meeting.

The board also approved its new policy requiring math competency testing in the middle school before a student is allowed to take the next class of math.

Testing will be given at the end of the 5th, 6th, 7th and 8th grades. A student must pass with a score of 80 percent. Those who don't pass the test, will be required to take remedial programs to bring them up to the class level in which they were tested.

If the student fails the test in the eighth grade, they will be scheduled into a regular math class and the basic mathematics class and possibly receive remedial assistance until the student passes the test. The test is to be given before the end of the last marking period so that the student will have to make up the test if it is failed.

If the student doesn't pass the test by the time he begins the ninth grade, he will report to the middle school during the next year for one period a day and will be included in the basic mathematics classes or

receive remedial assistance until he or she passes the test.

Along the same vein, the board also approved a math honors program in the high school. That program will give a new weighted grade to those who will be completing the program.

Basically, the program calls for the teaching of three years of math subjects in two. According to Rick Casper, the high school principal, "We are looking for a commitment from the students who want to get into the program. If a student wants to drop out of the accelerated classes, their grade point would not be weighted and would be the same as students who were not involved with the classes."

One advantage, said Casper, is the senior level trigonometry class would be moved to the junior class level and calculus as well as statistics will be added to the curriculum.

The program has all ready started in the high school and the approval from the board okayes the classes for the next years.

The board then thanked some of the volunteer coaches for the work that they helped with in the schools giving certificates to each of them. Honored were Dorothy Crandell, president of the All Sports Boosters; Jamie Vroman, eighth grade girls

Boyer City Commission candidates state stands

Next Tuesday, voters in Boyne city will be asked to choose between five candidates for the vacant seat on the Boyne City Commission. Below are listed their accomplishments within the city and their aspirations if they get elected.

Robert Dunnette

Bob Dunnette has run for the post of city commissioner before, ending up as the the person with the most votes gathered of those who did not end up elected to the post last November. Dunnette works for the County Road Commission and has served on the city's Parks and Recreation Advisory Board for the past three years. He is serving his second term on that board.

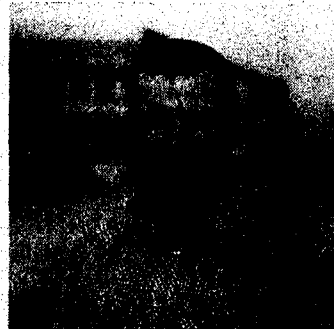

He was appointed by the City to be part of a special weir committee that was looking into the feasibility of placing a fish weir in the Boyne

ROBERT DUNNETTE

River last year. "I would like to see our industrial park develop a little faster than it has been," he said, "Although I don't have any set goals for the city."

The city is running pretty smoo-

KENNETH DELL, SR.

thly right now, he continued. But if any problems happen, a lot of it could be blamed on the people for not getting involved with the city by not letting their city representatives know of the problems.

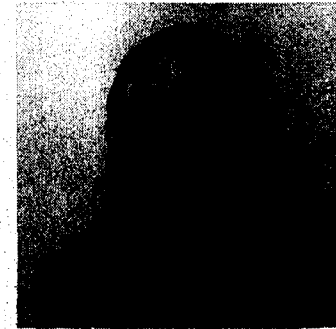

He said he would be representing

RUDOLPH FLORENSKI

all of the people in the city as well as special interest groups that are for the betterment of the city.

Rudolph Florenski Rudy Florenski, a self employed carpenter, is another who has run for the office before. Florenski said:

ROGER SMITH

"Even if I don't win, I want the city to know that I am around watching their actions."

Florenski was a former County Commissioner and is presently not serving on any of the city boards. Florenski told the Press that if he

CASIMIR TOTON

has any grudges, they are in the way the city does its business, and that he wants it to be out in the open and fair to all concerned.

Cooking

BREADS

From an old cookbook, "Who hath not met with home-made bread—a heavy compound of putty and lead." Hood.

A few years ago, the above quote would have sounded extremely funny to me. However now it is no longer a joke and I am in trouble. My friends laugh when I tell them that my bread and rolls are too heavy to carry out to the garbage in one load.

Another quotation, "The art of making good bread has as much to do with the peace of a community as the art of diplomacy." Prof. Gray. In former times I might have been an asset to the community, but not recently. For the last couple of years I have been having trouble getting my bread to rise, and I have not yet found the reason. Sometimes it will double in bulk on the first rising then not do a thing on the second rising. Any ideas? Last week I tried whole wheat bread using the new fast yeast, the same sad story.

So now I am making delicious quick breads, muffins and biscuits and my family cannot believe that I buy their dinner rolls at the bakery. My friend, Nony Irey, of Pawcatuck, Conn. took a trip to Ireland a couple of years ago and brought home this recipe.

IRISH SODA BREAD

Bake 45 minutes at 350 degrees in a greased 9 x 13 pan or 60 minutes at 350 degrees in a spring form pan.

Sift all of these dry ingredients together

- 3 cups flour
- 2/3 cup sugar
- 1 tablespoon baking powder
- 1 teaspoon soda
- 1 teaspoon salt

Mix the following ingredients together and add to the above mixture

- 2 eggs
- 1 3/4 cups buttermilk
- 2 tablespoons melted butter
- 1/2 cup raisins

Do not mix too much. Just flip-flop in a bowl. Serve this with any dinner. Nony's family loves it and so do I. Bring warm to the table with lots of soft butter. Eureka! Maybe my luck has changed. I am not

ready to give up and so I decided to make my favorite Parker House rolls. This is an old recipe that I took out of an old Magic Chef cookbook that came with a new stove many years ago. This recipe has never failed me.

PARKER HOUSE ROLLS

- 1 cup milk
- 1 pkg. yeast
- 4 tablespoons sugar
- 4 cups flour
- 1 1/2 teaspoons salt
- 1 egg, beaten
- 4 tablespoons fat

Scald milk, cool to lukewarm, add yeast and sugar. Mix well. Then add 1/4 of the flour. Gradually add rest of the flour and knead into a smooth ball and put in a greased bowl, turn over to grease the dough, cover with waxed paper and a towel. Put in a warm place to double in bulk. When double, smooth out on a floured board to 1/4 inch thickness, cut with a small biscuit cutter, let stand a few minutes then crease with a knife just a little to one side of the center of each roll. Brush the smaller side with melted butter and fold. Place on baking sheet, cover with waxed paper and towel and let rise to double in bulk.

Bake 400 degrees, 15 to 20 minutes. I made these Parker House rolls using the new instant dry yeast mix method with instructions on the yeast package and they were perfect. I still do not know what was wrong with my whole wheat bread unless the flour was inferior. I most likely will never know. I guess we can't make things perfect all of the time as the old poets stressed.

Top ten bridge teams listed

The East Jordan ladies have completed six months of their tournament bridge playing. As of February 28 the top ten teams are: Marie Shepard-Pat Ruhlman 38,070; Marge Smith-Evelyn Gidley 33,970; Ruth Gerda Toni Jeffery 29,230; Esther Porter-Jean Pardee 28,490; Ruth Bell-Edna Nielson 28,480; Linda Poole-Jean Peters 26,770; Betty Boswell-Leva Cole 26,140; Fran Pletz-Cyg Riley 25,740; Jo Bisbee-Katie Sowers 25,310; Phyllis Malpass-Martha Matthews 25,300.

with Nancy Northup 582-9174

Eleanor Sutliff underwent surgery on Thursday at the Charlevoix Area Hospital.

Mrs. Gerrie Green of Capac spent a week here visiting her mother Mrs. Myrtle Schott at Litzemburger Place.

Stella Clute had the misfortune of falling on Friday and breaking her leg in two places. She is in room 268 at Northern Michigan Hospitals.

Mrs. Helen Urman of Litzemburger Place was honored on her 65th birthday on Saturday afternoon with about 60 relatives and other friends there to share in the celebration. The party was hosted by Helen's children, as all enjoyed a luncheon buffet and ice cream and cake. Helen received many lovely cards as well as calls from those who were unable to attend.

New arrival

Mr. and Mrs. Richard (Catherine) Sattler are the proud parents of a son, Matthew Charles Sattler, on Feb. 14, 1985 at Decatur General Hospital in Decatur, Alabama. Proud grandparents are Mr. and Mrs. F. H. Sattler of East Jordan, and Mr. and Mrs. Leo Knouf of Bark River, MI.

attended schools there.

In 1906, she married Clair H. Brooks in Boyne City. The couple lived in Boyne City and Mr. Brooks preceded her in death in 1968.

Mrs. Brooks was also preceded in death by a son Gordon and a daughter Geraldine.

Mrs. Brooks was a member of Boyne City Presbyterian Church; a member and past noble grand of Rebekah Lodge 365 and a member of the Royal Neighbors.

She is survived by one daughter, Mrs. Svend (Helen) Madsen of Gaylord; nine grandchildren and 23 great-grandchildren.

East Jordan Council Minutes

PROCEEDINGS OF EAST JORDAN CITY COUNCIL

The East Jordan City Council met in regular session, March 5, 1985 at 7:30 p.m., Mayor Sweet presiding. Minutes were accepted, transfer of funds was made and authorization was given to pay \$37,300.35 in bills.

After a lengthy discussion on parking with local merchants, Council adopted a resolution authorizing the Mayor and Clerk to sign a lease agreement for the Civic Center to the Chamber of Commerce for Wednesday evening bingo.

Council supported a proposed plan for the Sportsman's Park and supported preapplication for a grant to fund the project.

Council granted the rental of the Civic Center to the Freedom Festival Committee for use on July 4, 5, & 6, 1985.

A public hearing was set for March 22, 1985 at 7:00 p.m. for the purpose of receiving comments on the 1985/86 proposed budget in conjunction with the use of Federal Revenue Sharing funds.

Council went into executive session to discuss labor negotiations on the D.P.W. Union contract. In closed session, Council advised the D.P.W. Committee to continue negotiations.

Meeting adjourned at 9:15 p.m.

A copy of the official minutes of the above meeting is posted in City Hall for perusal during normal business hours.

City Clerk

funeral of her aunt, Mrs. Millie Semyne.

The Merry Musical Singers of East Jordan were privileged to open the basketball tournament by singing the Star Spangled Banner. They also opened the games on Thursday and Saturday at the East Jordan High School gym.

Nicky Patton celebrated his birthday on Sunday, Feb. 17. He was 4 years old and celebrated with his relatives.

Melissa Bergmann turned one on

her birthday Feb. 23, and her grandmother, Mrs. Sharon Sutherland, celebrated both their birthdays together with a dinner. Sharon's birthday was March 3rd.

Mrs. Dorothy Sutherland has returned home from a 3 week visit with her sister, Mrs. John Beechum of Pontiac. While there she visited her sister-in-law, Mrs. Audrey Brooks of Union Lake, her daughter, Mrs. Marvin Ball of Waterford, and her son, Donald Gretsinger of Royal Lake.

Opinions

We approve proposals but need you to vote

While we are not thrilled with the cause of forcing a special election on the taxpayers of the community, we feel that in spite of our thoughts, everyone should get out and vote March 19.

The ballot for this election in Boyne City involves the election of one city commissioner to replace a deceased member, and two other questions on which the city fathers are asking the voters for direction.

The first question is whether or not to increase the taxes by one mill for one year so that the city's historical commission can get enough money to be able to purchase land and a building for the start of a Boyne City historical museum.

We urged the passage of this same proposal in the November election and we agree with it today. One of the many reasons we are in agreement with this

proposal is the tremendous interest that many citizens have concerning the past of the community.

If a museum is funded, then the children of today and tomorrow could see some of the many reasons why the city came into existence, how it developed into a great lumbering center, and how it survived after the lumbering days were gone.

We think it is important to remember our heritage so that maybe some of the mistakes that were made in the past can be corrected in the future. A museum, while it may not point out mistakes of the past, will help guide the city in the future as it gives residents a chance to reflect upon the past.

We again urge a yes vote on that proposal.

The second proposal asks the citizens to approve a request from the Boyne City

Pilots' Association so that they can lease some property at the Boyne City airport and construct some additional hangars for pilots to use.

The leased property would return to the city at the end of 25 years, along with the hangars that are to be constructed on the land.

While we have a few questions, we feel that the proposal would provide some benefit to the city in that they would be able to get further use, possibly, from the airport if the hangars are used by those owning airplanes.

The city found itself in a predicament because the land in question was deeded to the city for public use. Because of that, the city is asking that it be allowed to change that small portion of property so that the Pilots' Association could build additional

hangars. We feel that this change should be allowed.

As to who we feel should represent the people of the community on the Commission, we are not recommending any one person. We do feel that in any special election, the person who will get elected gets there because he or she has motivated more people to vote for him than the others running for the same office.

If more would spend a few minutes to vote, that could mean that a small element would not control an election.

We only urge all residents to get out and vote in the election in Boyne City next Tuesday. The polls open at the city hall at 7:00 a.m. and close at 8:00 p.m. That should be enough time for everyone in the community to get out and vote.

Jottings

BY JIM SILBAR

I see by one of the morning newspapers that some lady gave the City of Milwaukee 40 million dollars just so they could have a sports stadium.

My mind started to wonder what the city of Boyne City, or even East Jordan could do if someone gave them 40 million dollars to build something.

Now the cities have been playing with the idea of starting a wishbook for those who wish to donate to the city, and I can't think of something better to give than money.

If Boyne City had 40 million dropped into their lap, almost all of the many plans that have never seen the light of day would become possible.

Paved streets on every block in town. Or The industrial park that is on the books could be finished with sewers, water, streets, and buildings, all ready to go for any businesses that want to come to town.

Taxes for everybody could be dropped for several years, maybe a life time if the city just took the money and invested it. The interest alone could be as much as four million a year. And I would think that could put a very large dent in the city budget. Could almost run the whole city.

But then, those who are running the town would probably think up more ways to spend money than we have snowflakes on the ground.

And the money would be gone too quickly to help any of us.

If you want to make up a list of what you think the city needs, just send it in to us, and we will see that the city involved will get it so they could start their thinkin' about how to spend their imaginary millions.

Me, I could use it just to pay off the bills that seem to accumulate like mad in the wintertime.

And then I would go to Florida where I would attend the annual Boyne City-All Florida picnic and tell stories about the weather that the old town is having.

While I get a sun tan of course.

One of the privileges of being an editor is that you get to go to all the grand openings of businesses throughout the area. Last week was one example, where the Holiday Inn remodeled their bar and restaurant.

What a change from the old. The new place has lots of different levels for seating and standing, lots of bright neon and what could become a place for lots of fun if you are so inclined.

It's also a place where you can actually talk while the music is playing. That's why the speakers for the music system are directed straight down from the ceiling over the dance floor. The dancers can really get into the music while they are boogying, and those standing or sitting alongside can enjoy some good old conversation. You hear the-

music, but it isn't so bad that you can't hear the person across from you.

The place is being billed as a high-energy bar, but to me, after looking at all the special effects that the local dj can put together for the dance floor, I would call it a high-tech place.

Besides neon lights that can blink on and off, they have miniature strobes that can be flashed, rotating light bars, swinging spotlights, and smoke.

When they fired off the smoke effect, you had a hard time to see

the dancers, there was so much fog in the room. But, due to the smoke eaters built into the ceiling, the place cleared up in a couple of moments.

I don't know what the restaurant part of the remodel job is going to produce, but the room looks pleasant enough with dining on three levels.

All in all, the place is probably going to become the center of activities for the younger set. I don't think I could take it as a regular item on my diet.

Marshall Sayles

Now that the State of Michigan has enacted an obscenity law, I am afraid to watch prime time movies at night for fear the cops will come by the house and arrest my television set.

In spring a young man's fancy turns to thoughts of love.

Now, that fancy-turning can be a wonderful thing or a conniving thing, no matter how many deep sighs are heaved in a glad, free life amid fleecy clouds during the first blush of warm weather.

I say conniving because a friend put a bug in my ear about what spring can do to a person when his head is screwed on backwards.

It seems that my friend sighed something fierce every spring until he finally gave in to a wild and uncontrollable desire to wed a sweet young gal of merit. Only then did he quit making a circus of himself. No more imaginary swallow tail coats and orange blossoms dancing in his head.

He said that when spring sprang the following year, he discovered for the first time that sigh heaving wasn't the cloud nine stuff poets often lied about.

My advice to young people is go ahead and sigh anyway, for there is a fifty-fifty chance that something good may come of it.

The other day when age and I turned the corner, friends told me to drink up and be merry for one does not know what the morrow may bring. I told them no, because over the years my zest for whooping it up had caught the droops. My dotage, I had to admit, was stumbling up Marshall Road and would be here before I knew it.

What a mistake that was. For when I awoke the next morning I found myself to be the same thirsty old grouch I would have been if I had sipped and danced in accordance with my friends' druthers.

I went downtown the other night

and there wasn't a soul around. Not a car in sight. It's kind of eerie down there in the dead of the night when there are no sounds.

Suddenly, out of the gloom of Boyne City's horizon, came the wild, tremulous, heart-broken wail of a merchant whose tax had come due.

After that I wasn't scared at all.

No one has asked about this. That's why I've got to tell them:

My writings will not go down in history like William Shakespeare's. He paid particular attention to the saying of funny things that would be remembered for hundreds of years. On purpose, I do not write like he did. I write light, airy stuff that may produce belly laughs and be forgotten the next day. In this way peoples' heads are not full of the things that I have written. They are empty and in condition to receive fresh stuff as I think it up. In fact, I know many readers who are just sitting there waiting for me to fill their heads for them. As I said, a lot of people don't know what I am up to.

If I were a working man I would look forward to retiring. It's a full time job.

Letters

Warns snowmobilers

Dear editor:
Now that the snow has settled, some snowmobile owners think that they can drive over our farm as they did years ago, or, until I cornered them taking down a "No trespassing sign". They decided to let the sign alone and to stay off our place.

We planted trees here and several were damaged by snowmobiles. We won't tolerate that.

Those who pass over our place keep far away from the house but not out of the trees. Once at a demonstration, I disabled a Chevrolet motor by putting a civil war mini-ball in the boiler room.

Praises hospital, doctors

Editor:
I want to praise the doctor, the staff, and the nurses for their care at the Charlevoix Area Hospital. I just can't put into words all they've done for me—the whole staff. We can be thankful for such a great facility in our area.

Timothy Hoffman
East Jordan

Barbara Cruden

Whether it seems to be one big misfortune or a picket fence of little ones, one after another, sooner or later I have to notice how I'm feeling. Then there is one more big problem.

First, like everybody, I guess, I try not to bother with feelings. After all, there's the Situation to deal with. Well, that works two times out of seven.

Then there are the other five times. And also Recollection after the Situation has been dealt with.

I used to think animals were so inured to misfortune that they could just pick up and go along again. That was before I heard the red squirrels' Recollection period.

They sit up in a tree, scolding chuck-a-chit-chit for a long time, angry over and over.

During my Recollections I remember the red squirrels' bad example, and institute Reform by mentally shouting "Enough!" in hopes of scattering the red-squirrel thoughts that try to chew over the Misfortune, over and over. "Enough!"

Of course, I was taught also to

count my blessings. Sometimes I think that's kind of sissy, but it has

brave and honest value. At least I wind up being ashamed of the feelings of self-pity, self-righteousness, and self-whatever-else.

Then there is making comparisons. It always seemed less than kind to think about how much worse others' misfortunes are, but it has sure worked wonders.

Recently I began thinking how riled up a person can be over a trifle. Or how depressed. We can go chuck-a-chit-chit for even days over a spill on a rug, or what so-and-so said to us.

Maybe some of us are living in a private hell, made of other more serious matters, and the spill or the comment were little matches setting off the big head of pressure.

On the other hand, maybe we are living the boring life of the perfectly-supplied American well-to-do consumer.

When such of us feel aggravated or sorry for ourselves, darned if I don't think of misfortune in starving Africa, tortured Middle

East, or stifled elsewhere.

I know my own misfortunes, as they say, pale into insignificance when I think of those of so many, many others. In fact, in view of that, what a weird state of mind it is for me to chuck-a-chit-chit at all.

Not that I intend to sink out of sight under any sea of troubles. Just—ah, just to swim back to land and, wiser, to fare farther.

And what a strange twist, when those in so much need have done this thing to me—to give me the gift of more steadiness and durability when it is I who should be giving to them.

Letters

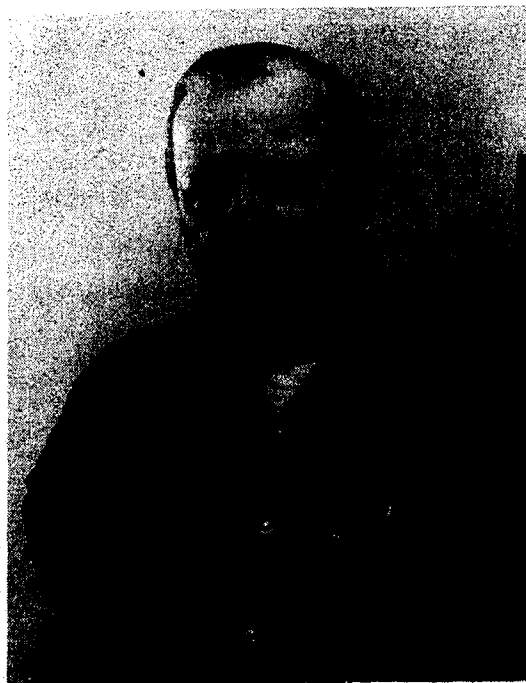

Letters to the editor, handwritten or typed, are a welcome and important part of this paper. They should be under 750 words in length and signed by the writer, although he or she, for special reasons, may request that the name not be printed. The paper reserves the right to edit material.

City of Boyne City INDUSTRIAL PRETREATMENT ORDINANCE Ordinance No. A-65

and/or operational facilities required to comply with this Ordinance. Direct costs for review will be billed to the Discharger regardless of whether construction is initiated or not.

5.05 - PERMIT OR CONTRACT MODIFICATIONS

The City of Boyne City reserves the right to amend any Wastewater Discharge Permit, Contract, or Waiver issued hereunder in order to assure compliance with applicable laws and regulations. Within nine (9) months of the promulgation of a National Categorical Pretreatment Standard, the Wastewater Discharge Permit of each Discharger subject to such standards within the timeframe prescribed by such standards. All National Categorical Pretreatment Standards adopted after the promulgation of this Ordinance shall be adopted by the City of Boyne City as part of this Ordinance. Where a Discharger, subject to a National Categorical Pretreatment Standard, has not previously submitted an application for a Wastewater Discharge Permit as required by 5.02.2, the Discharger shall apply for a Wastewater Discharge Permit from the City of Boyne City within 180 days after the promulgation of the applicable National Categorical Pretreatment Standard by the U.S. EPA. In addition, the Discharger with an existing Wastewater Discharge Permit shall submit to the City of Boyne City within 180 days after the promulgation of an applicable National Categorical Pretreatment Standard, the information required by Section 5.02.2. The Discharger shall be informed of any proposed changes in his permit at least 30 days prior to the effective date of change. Any changes or new conditions in the permit shall include a reasonable time schedule for compliance.

5.06 - PERMIT OR CONTRACT CONDITIONS

Wastewater Discharge Permits or Contracts shall specify no less than the following:

- a. Fees and charges to be paid upon initial issuance;
- b. Limits on the average and maximum wastewater constituents and characteristics regulated thereby;
- c. Limits on average and maximum rate and time of discharge and/or requirements for flow regulations and equalization;
- d. Requirements for installation and maintenance of inspection and sampling facilities;
- e. Special conditions as the City of Boyne City may reasonably require under particular circumstances of a given discharge including sampling locations, frequency of sampling, number, types, and standards for tests and reporting schedule;
- f. Compliance schedules;
- g. Requirements for submission of special technical reports or discharge reports where same differ from those prescribed by this Ordinance.

5.07 - PERMIT OR CONTRACT DURATION

All Wastewater Discharge Permits or Contracts shall be issued for a three-year duration, subject to amendment or revocation as provided in this Ordinance. A permit may be issued for a shorter or longer period or may be stated to expire on a specific date.

5.08 - LIMITATIONS ON PERMIT OR CONTRACT TRANSFER

Wastewater Discharge Permits are issued to a specific Discharger for a specific operation and are not assignable to another Discharger or transferable to any other location without the prior written approval of the City of Boyne City.

5.09 - SPECIAL REPORTING REQUIREMENT, NEW DISCHARGE OR NEW PRETREATMENT STANDARDS

Within 90 days following the date for final compliance by the Discharger with applicable Pretreatment Standards set forth in this Ordinance or 90 days following commencement of the introduction of wastewater into the POTW by a new Discharger, any Discharger subject to this Ordinance shall submit to the City of Boyne City a report indicating the nature and concentration of all prohibited or regulated substances contained in its discharge, and the average and maximum daily flow in gallons. The report shall state whether the applicable Pretreatment Standards or Requirements are being met on a consistent basis and, if not, what additional O & M and/or pretreatment is necessary to bring the Discharger into compliance with the applicable Pretreatment Standards or Requirements. This statement shall be signed by an authorized representative of the Discharger, and certified to by a qualified engineer (licensed to practice in the State of Michigan).

5.10 - PERIODIC COMPLIANCE REPORTS

1. Any Discharger subject to a Pretreatment Standard set forth in this Ordinance, after the compliance date of such Pretreatment Standard, or, in the case of a New Discharger, after commencement of the discharge to the City of Boyne City shall submit to the City of Boyne City during the months of June and December, unless required more frequently by the City of Boyne City, a report indicating the nature and concentration of prohibited or regulated substances in the effluent which are limited by the Pretreatment Standards hereof. In addition, this report shall include a record of all measured or estimated average and maximum daily flows during the reporting period reported in Section 5.09 hereof. Flows shall be reported on the basis of actual measurement; however, where cost or feasibility considerations justify, the City of Boyne City may accept reports of average and maximum flows estimated by verifiable techniques. The City of Boyne City for good cause when considering such factors as local high or low flow rates, holidays, burst cycles, or other extenuating factors may authorize the submission of said reports on months other than those specified above.
2. Reports of Dischargers shall contain all results of sampling and analysis of the discharge, including the flow and the nature and concentration, or production and mass where required by the City of Boyne City. The frequency of monitoring by the Discharger shall, as a minimum, be as prescribed in the applicable Pretreatment Standard of this Ordinance. All analyses shall be performed in accordance with 40 CFR, Part 136 and amendments thereto.

Where 40 CFR, Part 136 does not include a sampling or analytical technique for the pollutant in question, sampling and analysis shall be performed in accordance with the procedures set forth in the EPA publication, "Sampling and Analysis Procedures for Screening of Industrial Effluents for Priority Pollutants, April, 1977," and amendments thereto, or with any other sampling and analytical procedures approved by the Administrator of the U.S. EPA.

5.11 - MONITORING FACILITIES

Each discharger shall provide and operate at the Discharger's own expense, a monitoring facility or location for inspection, sampling, and flow measurement of each sewer discharge to the City of Boyne City. Each monitoring facility shall be situated on the Discharger's premises, except where such a location would be impractical or cause undue hardship on the Discharger. The City of Boyne City may construct with the facility being constructed in the public street or sidewalk area providing that the facility is located so that it will not be obstructed by landscaping or parked vehicles.

There shall be ample room in or near such sampling facility to allow accurate sampling and preparation of samples for analysis. The facility, sampling, and measuring equipment shall be maintained at all times in a safe and proper operating condition at the expense of the Discharger.

All monitoring facilities shall be constructed and maintained in accordance with all applicable local construction standards and specifications. Construction shall be completed within 120 days of receipt of a Permit or Contract by an existing Discharger and prior to initiation of operations by a new Discharger.

5.12 - INSPECTION AND SAMPLING

The City of Boyne City may inspect the monitoring facilities of any Discharger to determine compliance with the requirements of this Ordinance. The Discharger shall allow the Authority, the Department of Natural Resources, or their representatives, upon presentation of credentials or identification, to enter the premises of the Discharger at all reasonable hours, for the purposes of inspection, sampling, records examination, or records copying. The Authority, Department of Natural Resources, or their representatives, shall have the right to set up on the Discharger's property such devices as are necessary to conduct sampling, inspection, compliance monitoring, and/or metering operations.

5.13 - CONFIDENTIAL INFORMATION

Information and data furnished to the City of Boyne City with respect to the nature frequency of discharge shall be available to the public or other governmental agency without restriction unless the Discharger specifically requests and is able to demonstrate to the satisfaction of the City of Boyne City that the release of such information would divulge information, processes, or methods of production entitled to protection as trade secrets or proprietary information of the Discharger. When requested by a Discharger furnishing a report, the portions of a report which may disclose trade secrets or secret processes shall not be made available for inspection by the public but shall be made available upon written request to governmental agencies for uses related to this Ordinance, the National Pollutant Discharge Elimination System (NPDES) Permit, State Disposal System Permit, and/or the pretreatment programs; provided, however, that such portions of a report shall be available for use by the State or any State agency in judicial review or enforcement proceedings involving the Discharger furnishing the report. Wastewater constituents and characteristics will not be recognized as confidential information. Information accepted by the City of Boyne City as confidential shall not be transmitted to any governmental agency or to the general public by the City of Boyne City until and unless a ten-day notification is given to the Discharger.

CHAPTER 6

ENFORCEMENT

6.01 - EMERGENCY SUSPENSION OF SERVICE AND DISCHARGE PERMITS, CONTRACTS, OR WAIVERS

The City of Boyne City may for good cause suspend the wastewater treatment service, the water supply service, electrical service, and/or the Wastewater Discharge Permit, Contract, or Waiver, of a Discharger when it appears to the City of Boyne City that an actual or threatened discharge presents or threatens: a violation of the NPDES Permit; an imminent or substantial danger to the health and safe of persons; an adverse impact to the environment; interference with the operation of the POTW; violation of any pretreatment limits imposed by this Ordinance or violation of any Wastewater Discharge Permit, Contract, or Waiver issued pursuant to this Ordinance. Any Discharger notified of the suspension of the City of Boyne City wastewater treatment service, the water supply service, the electrical service, and/or the Discharger's Wastewater Discharge Permit, Contract, or Waiver shall, within a period of time, as determined by the Authority, cease all discharges, or be subject to utility cut-off or sewer blockage by the Authority. In the event of failure of the Discharger to comply voluntarily with the suspension order within the specified time, the City of Boyne City shall notify the Department of Natural Resources and commence judicial proceedings immediately thereafter to compel the Discharger's compliance with such order. The City of Boyne City shall reinstate the Wastewater Discharge Permit, Contract, or Waiver and/or the wastewater treatment service and terminate judicial proceedings upon proof by the Discharger of the elimination of the noncomplying discharge or conditions creating the threat as set forth above.

It is the intent of this Section of the Ordinance to authorize the City of Boyne City to order in person, or by signed document, the immediate, but orderly shutdown of any operation, discharge, or facility, or any part thereof, for good cause shown. Orderly shutdown means consideration is to be given to protection of human safety and property of both the City and the Discharger. It does mean that the responsible person for an offending discharge will immediately initiate discussion with the Authority and will initiate the orderly actions required to stop the offending discharge and not wait for the next shift, weekend, or other convenient time. Orderly shutdown recognizes that consideration is to be given to the Discharger for protection of human safety and property of both the City and the Discharger. For example, if the offending discharge source can be isolated, only that part of a facility need be shutdown. A discharge may need to be continued from a furnace or reaction vessel during cool-down to prevent injuries or damage. Reduced flows may be allowed, for example, to provide fire protection, refrigeration to protect food inventories, or to provide heat during the winter. Such consideration is not to be construed to relieve the Discharger of any liability for damages caused before or during the orderly shutdown period.

6.02 - REVOCATION OF PERMIT, CONTRACT, OR WAIVER

The City of Boyne City may revoke the Permit, Contract, or Waiver of any Discharger which fails to:

- a. factually report the wastewater constituents and characteristics of its discharge;
- b. report significant changes in wastewater constituents or characteristics;
- c. refuses reasonable access to the Discharger's premises by representatives of the City of Boyne City or the Department of Natural Resources for the purpose of inspection or monitoring; or
- d. violates the conditions of its Permit, Contract, Waiver, or this Ordinance, or any final judicial order entered with respect thereto.

6.03 - NOTIFICATION OF VIOLATION - ADMINISTRATIVE ADJUSTMENT

Whenever the City of Boyne City finds that any Discharger has engaged in conduct which justifies revocation of a Wastewater Discharge Per-

mit, Contract, or Waiver pursuant to Section 6.02 hereof, the City of Boyne City shall serve or cause to be served upon such Discharger a written notice either personally or by certified or registered mail, return receipt requested, stating the nature of the alleged violation. Within 10 continuous days of the date of receipt of the notice, the Discharger shall respond personally or in writing to the City of Boyne City advising of its position with respect to the allegations. Thereafter, the parties shall meet to ascertain the veracity of the allegations and, where necessary, establish a plan for the satisfactory correction thereof.

6.04 - SHOW CAUSE HEARING

Where the violation of Section 6.02 hereof is not corrected by timely compliance by means of Administrative Adjustment, the City of Boyne City may order any Discharger which causes or allows conduct prohibited by Section 6.02 hereof, to show cause before the City of Boyne City or its duly authorized representative, why the proposed revocation action should not be taken. A written notice shall be served on the Discharger by personal service, certified or registered, return receipt requested, specifying the time and place of a hearing to be held by the City of Boyne City or its designee regarding the violation. Any the enforcement action is to be taken, the proposed enforcement action, and directing the Discharger to show cause before the City of Boyne City or its designee why the proposed enforcement action should not be taken. The notice of the hearing shall be served no less than 10 days before the hearing. Service may be made on any agent, officer, or authorized representative of a Discharger. The proceedings of the hearings shall be considered by the City of Boyne City, which shall then enter appropriate orders with respect to the alleged improper activities of the Discharger. Appeal of such orders may be taken by the Discharger in accordance with applicable local or State Law.

6.05 - JUDICIAL PROCEEDINGS

Following the entry of any order by the City of Boyne City with respect to the conduct of a Discharger contrary to the provisions of Section 6.02 hereof, the Attorney for the City of Boyne City may, following the authorization of such action by the City of Boyne City, commence an action for appropriate legal and/or relief in the appropriate court.

6.06 - ENFORCEMENT ACTIONS ANNUAL PUBLICATION

A list of all significant Dischargers, which were the subject of enforcement proceedings pursuant to Chapter 6 of this Ordinance during the twelve (12) previous months, shall be annually published by the Authority in the largest daily newspaper, published in the municipality in which the Authority is located, summarizing the enforcement actions taken against the Dischargers during the same twelve (12) months. Those violations remained uncorrected 45 or more days after notification of non-compliance; or which have exhibited a pattern of non-compliance over that twelve-month period, or which involve failure to accurately report non-compliance.

6.07 - RIGHT OF APPEAL

Any Discharger or any interested party shall have the right to request in writing an interpretation or ruling by the Authority on any matter covered by this Ordinance and shall be entitled to a prompt written reply. In the event that such inquiry is by a Discharger and deals with matters of performance or compliance with this Ordinance or deals with a Wastewater Discharge Permit issued pursuant hereto for which enforcement activity relating to an alleged violation is the subject, receipt of a Discharger's request shall stay all enforcement proceedings pending receipt of the aforesaid written reply. Appeal of any final judicial order entered pursuant to this Ordinance may be taken in accordance with local or State Law.

6.08 - OPERATING UPSETS

Any Discharger which experiences an upset in operations which places the Discharger in a temporary state of non-compliance with this Ordinance or a Wastewater Discharge Permit issued pursuant hereto shall inform the City of Boyne City immediately upon first awareness of the commencement of the upset. Where such information is given orally, a written follow-up report thereof shall be filed by the Discharger with the City of Boyne City within five (5) days. The report shall specify:

- a. description of the upset, the cause thereof, and the upset's impact on a Discharger's compliance status;
- b. duration of non-compliance, including exact dates and times of non-compliance; and if the non-compliance continues, the time by which compliance is reasonably expected to occur;
- c. all steps taken or to be taken to reduce, eliminate, and prevent recurrence of such an upset or other conditions of non-compliance.

A documented and verified bonafide operating upset shall be an affirmative defense to any enforcement action brought by the City of Boyne City against a Discharger for any non-compliance with the Ordinance or any Wastewater Discharge Permit, Contract, or Waiver pursuant hereto, which arises out of violations alleged to have occurred during the period of the upset.

CHAPTER 7

PENALTIES

7.01 - CIVIL PENALTIES

Any Discharger who is found to have violated an Order of the City of Boyne City or who has failed to comply with any provision of this Ordinance, and the regulations or rules of the City of Boyne City or orders of any court of competent jurisdiction (or permits issued hereunder), may be subjected to the imposition of a civil penalty of three hundred dollars (\$300) per day for each day the violation occurs and a penalty of double an economic gain made by continuing operations during a violation.

7.02 - RECOVERY OF COSTS INCURRED BY THE MUNICIPALITY

Any Discharger violating any of the provisions of this Ordinance, or who discharges or causes a discharge producing a deposit or obstruction, or causes damage to or impairs the City of Boyne City's storm water or wastewater disposal system shall be liable to the City of Boyne City for any expense, loss, or damage caused by such violation or discharge. The City of Boyne City shall bill the Discharger for the costs incurred by the City of Boyne City for any supervision, investigation, sampling, administration, cleaning, repair, or replacement work caused by the violation or discharge. Refusal to pay the assessed costs shall constitute a violation of this Ordinance enforceable under the provisions of the City Charter and/or Article 6 of this Ordinance. In addition to the foregoing, the charges which are made pursuant to this Ordinance are hereby made a lien on all premises served thereby. In case any bill, together with all penalties thereon, shall not be paid within six (6) months of the date on which said bill is due and payable, the delinquent bill and all penalties thereon shall be a lien on the premises served. The City Assessor shall then

place such charges on the next general tax roll and the same shall be collected in the same manner in all respects as provided by law for the collection of taxes by the City.

7.03 - FALSIFYING INFORMATION

Any person who knowingly makes any false statement, representation, or certification in any application, record, report, plan, or other document filed or required to be maintained pursuant to this Ordinance, (or Wastewater Discharge Permit), or who falsifies, tampers with, or knowingly renders inaccurate any monitoring device or method required under this Ordinance, shall, upon conviction, be punished by the imposition of a civil penalty of not more than \$500 or by imprisonment for not more than 90 days or by both.

CHAPTER 8

RECORDS RETENTION

All Dischargers subject to this Ordinance shall retain and preserve for no less than three (3) years any records, books, documents, memoranda, reports, correspondence, and any and all summaries thereof, relating to monitoring, sampling, and chemical analyses made by or in behalf of a Discharger in connection with its discharge. All records which pertain to matters which are the subject of Administrative Adjustment or any other enforcement or litigation activities brought by the Authority pursuant hereto shall be retained and preserved by the Discharger until all enforcement activities have concluded and all periods of limitation with respect to any and all appeals have expired.

CHAPTER 9

MISCELLANEOUS (Optional)

9.01 - REMOVAL CREDITS

Where applicable, the Authority may elect to initiate a program of removal credits as part of this Ordinance to reflect the ROW's ability to remove pollutants in accordance with 40 CFR Part 403.7.

9.02 - NET/GROSS CALCULATIONS

The Authority may elect to adjust Categorical Pretreatment Standards to reflect the presence of pollutants in the Discharger's intake water, in accordance with 40 CFR Part 403.15.

CHAPTER 10

SEVERABILITY

If any provision, paragraph, word, section, or chapter of this Ordinance is invalidated by any court of competent jurisdiction, the remaining provisions, paragraphs, words, sections, and chapters shall not be affected and shall continue in full force and effect.

CHAPTER 11

CONFLICT

All other ordinances and parts of other ordinances inconsistent or conflicting with any part of this Ordinance are hereby repealed to the extent of such inconsistency or conflict.

This Ordinance shall be published within ten (10) days after enactment and shall take effect fifteen (15) days following enactment.
This Amendment shall take effect on March 27, 1985.

Academic scholarships awarded at Albion

Albion College has awarded 150 academic scholarships to freshmen and transfer students attending Albion this year. Presidential Recognition Awards and Webster Scholarships are awarded on a competitive basis. Students receiving the scholarships, which are based on the student's academic record, ACT and SAT scores and demonstrated leadership ability, usually rank in the top 10 percent of their high school graduating class. Presidential Recognition Awards are up to \$2,500 and Webster Scholarships range from \$500-\$2,000. All scholarships are renewable for up to "Skate to beat diabetes". Here is an opportunity to help a great cause "Skate-to-Beat Diabetes," Saturday, March 23, from 12 noon until 4 p.m. at the Water Wonderland Rink in Petoskey. This annual event is a benefit for the American Diabetes Association. Diabetes is the third leading cause of death by disease, leading cause of new cases of blindness, and is a contributing factor in stroke, heart and kidney disease, and gangrene. Persons of all ages are welcome to join the "Skate-to-Beat-Diabetes." Entry forms are available for the asking at Water Wonderland.

Two to be selected for Washington trip

Two high school students from the area will be chosen by the Top O' Michigan Rural Electric Company for an all-expense-paid trip to Washington, D.C., scheduled for June 9-14.

The selected applicants will join 1,000 other young Americans from all over the country for the annual Rural Electric Youth Tour.

Activities during the busy week-long stay at the capital include visits to historical sites and congressional offices, a dance and an "Energy Battle" competition among the various state delegations.

Only sophomores or juniors will be considered for the trip. Interested students must write a letter, in 500 words or less, explaining why they want to represent Top O' Michigan and, secondly, what it means to be a rural electric co-op member. Send letter by May 1, to Dave Guzniczak, Top O' Michigan, P.O. Box 70, Boyne City, MI 49712.

The Michigan Electric Cooperative Association in Lansing is arranging travel plans and accommodations for participating rural electric state co-ops. Chaperones will accompany the Michigan delegation.

In Washington, the National Rural Electric Cooperative Association will coordinate the tour's special program. NRECA has directed the tour for over 20 years.

On deans' list

Albion College recently named 360 students to its dean's list for the fall semester.

Students must maintain at least a 3.5 grade point average (based on a 4.0 system) while carrying a full schedule of classes, to earn a position on the prestigious roster.

Albion College, founded in 1835, is located in the south central Michigan town of the same name.

Marc C. Mentel, son of Mr. and Mrs. Charles Mentel, Boyne Falls, is on the dean's list.

In service

Pfc. Thomas A. Thompson, son of Ronald L. and June E. Thompson of Boyne City, has completed basic training at Fort Jackson, S.C.

He is a 1981 graduate of Boyne City High School.

Wetlands, once scorned as wasteland, now protected by law for their environmental contributions, are favored by water fowl and required by northern pike. The Canada goose in this Department of Natural Resources photograph is doing her part in protecting wetlands.

Wetlands create problems, solutions

(Continued from Page 1)

white cedar, ash, and black spruce.

Wetlands provide much more of an economic value as nesting and breeding grounds for such species as northern pike. They feed and shelter carp, Canada geese, and many varieties of ducks. Muskrat fur comes from wetlands, too.

And toads cross fields to mate in the wetland areas. The economic value of a toad has been placed at about \$120 per toad per year as their worth in gulping insects.

This is only a brief look at the value of wildlife. A third value listed by the university in its brochure about wetlands is flood control. While flooding in the sense of rivers overflowing is not a prime factor in the wetlands surrounding Lake Charlevoix, the rising and lowering of the lake levels are. Where is water to go if the shorelines are filled in, but to rise into the developed real estate.

The news of expensive flooding would not be so frequent if the wetlands were left to absorb some of the rising water that we have seen on Lake Charlevoix through the years.

The university brochure explains briefly that a fourth value, lies in the fact that one acre of marsh is capable of absorbing, storing, and releasing 300,000 gallons of water which can recharge underground supplies during dry periods.

Tom Bailey, executive director of Little Traverse Conservancy says the effect of the loss of wetlands is subtle and gradual. Sometimes people don't realize changes are taking place until it's too late.

Of course, natural processes can and do cause the wetlands to fill in over a period of decades or more. But in many more areas we have interfered, said Bailey.

Man made efforts to benefit the environment have sufficiently often produced disasters, as in the case of Florida's flood control program. An unknown amount of information is still to be collected before man knows the full value and/or the problems of wetlands, says the Natural Resources Commission in their brochure on Michigan wetlands.

Michigan is not the only state

with a wetland law. According to Dick Sikkenga, regional supervisor for the state's Division of Land Resource Programs, a few other states have similar laws.

Sikkenga pointed out that the Michigan Act concerns wetlands that are contiguous to the Great Lakes, their feeder systems of streams and rivers and inland lakes more than five acres in size.

Almost all of Charlevoix County is included in the law because of the lakes and streams that feed into the Great Lakes system.

The wetlands in the county are subject to an inventory that is in the process of being completed within the county.

That inventory is substantially completed, according to Sikkenga, but has not had the public hearings with the county officials so that it can be enforced.

The DNR is authorized to enforce the act, and has been reviewing requests for changes made in the wetlands of Charlevoix County.

Next week a second article will explore the effects of the act on property owners.

Area teachers attend conference

Nearly 400 teachers and administrators from northern Michigan attended the Ninth Annual Reading Conference held last Thursday, Feb. 28 at the Charlevoix High School. The conference, sponsored by the Northern Michigan Reading Teachers Association, featured book displays from many reading publishers, book stores, as well as companies for teachers to purchase supplies for their classrooms. Dinner was served by the Charlevoix school commercial foods department. Centerpieces for the dinner tables featured art work done by Charlevoix elementary students.

Keynote speaker Dr. Mary Bigler entertained and informed the audience with many ways to help students learn to enjoy

reading and writing. Dr. Bigler quoted Gandhi "Your student's most important

textbook is his teacher" and encouraged teachers to act as a role model for all students.

Most important, she said, "Keep a sense of humor. Enjoy what you do."

Dr. Mary Bigler drives off the teachers' winter blues with a rapid fire delivery on how to keep classes on their toes.

Every nook and cranny is being used in a building they have really outgrown, but they are striving to make the library a learning center for everyone in East Jordan.

BC schools

The association is trying to get the state to rescind some of the monies that the state had asked for when the state experienced financial troubles.

They then agreed to offer a salary adjustment to Maxine Bates, a secretary-bookkeeper in the superintendent's office. She was offered a 5-6-7 percent raise over the next three years.

Kelly then told the board that nominating petitions are available for the June annual election. Three seats will be open at that election, two four-year terms and one one-year term. Petitions have to be returned to the school system prior to April 8 at 4:00 p.m.

ideas as the cassettes purchased on behalf of Margaret Stokes birthday by her friends, rather than giving her one more "what not." The majority of the reference books were given many years ago by the Foote Estate. (The library is presently attempting to update these books.)

Some new policies beginning March 1, 1985, limit time on the computer to a half hour, stopping library privileges when book fines reach \$5, (reinstatement when the fine is paid), return postage is paid by patron, when ordering through Library Interloan, and books will be checked out for three weeks, with no renewals on new books.

As if all of the above was not enough, the ladies will also gladly help you learn a new craft (they happen to have a tremendous knowledge as all of them are usually involved in some project) and will help you locate information, if they aren't yet started on that particular craft!

Continued from Page 1

basketball; Ted Penny, seventh grade girls basketball; Gregg Halstead, eighth grade boys basketball; Beno Archey, seventh grade boys basketball; Terry Reinhardt, sixth grade boys basketball and Darla Evans, middle school cheerleader coach.

They also approved the naming of coaches for the spring sports. Bob McCullough and Marty McCullough will be the high school boys and girls coaches, Fred Rice will handle tennis while Dave Bricker will be the middle school track coach. Bricker will be assisted by Sara Hildebrandt.

The board approved joining of the Michigan Out of Formula District Association until June of this

The youngsters are required to read one book a week, but are engaged in other related activities also.

About this time of the year (March) the high school students begin doing research on subjects for their major term paper. Mrs. Hamerski commented, "This year we are really excited about some of the subjects they are inquiring about, such as bionics, book censorship, steroids in sports, heart transplants and others. It keeps us hustling to help them."

Other special groups are also served very well by the library. Patrons who are shut-in or who cannot get to the library due to handicaps have books delivered on a regular basis. If they simply call with the book names, they will soon be reading their choice.

For the person of limited reading ability, there is a fine selection of high interest, low vocabulary level books available. By merely mentioning your problem to one of the librarians, you will surely leave with an armload of material!

Adult education classes regularly use the library, giving a new group of readers a special invitation to take advantage of the services available.

Blind or other special handicaps will also find efforts made on their behalf, once the librarians are aware of the need. Special materials are available and will be ordered on request, such as financial aid forms for college applicants and I.R.S. tax forms.

Where have all the materials and equipment come from at this library? There are many donations made by individuals and organizations. Because of increased costs, donations are playing a greater role in funding library needs. The computer was purchased by local donors; the computer printer was gained by monies given by the Bowling Alley Proprietors' Assn., the computer disk drive was given by the local Bridge Tournament. The American Legion has donated high interest, low vocabulary books for young adults. (According to Barb Alger, there has been plenty of need and use of these.)

Other donations come from novel

East Jordan library, the busiest place in town

BY ELOUISE ROSSLER

Walk in the doors of the East Jordan Library and you will find yourself in one of the busiest places in town. Three ladies will be bustling about getting someone started on the computer, checking in and out books, showing movies to a group of youngsters, or answering the incessantly ringing phone.

Louise (Mickey) Hamerski, Barbara Alger, and Marietta Walden are the librarians in the East Jordan Public Library.

The average number of books checked out a month is 1500 to 2000, which is only the beginning of the services offered.

Did you know that you can trace your ancestors in their genealogy file or check up on local history from their data? It is also possible to order virtually any book you want from libraries as far away as California through an interloan program.

And books are only the beginning! Do you need a Polaroid camera? The East Jordan library has one available for loan, just as they would a book. You can watch a movie on their movie disc player. This has been a popular thing with the younger set on snow days, as the librarians would show a movie if 6 to 10 youngsters were interested.

The complete cataloging system of the library is now computerized on a program designed and copyrighted by Rick Warden. This has made the whole job much easier and more efficient. The computer is also available to the public to be used for a half hour at a time (appointments needed) with supervision from the library staff. The local high school students have made tremendous use of this opportunity.

The library has many tapes, records, and cassettes which you can use at the library or check out. These range from children's "Look and Listen" stories for pre-schoolers to classical music for older listeners.

A summer reading program is run for 5-6 weeks each year to keep the interest extended beyond the school year. This for children 5 to 12 years old and usually revolves around a theme of interest to that age group.

COMMISSION ORDER

(Under authority of Act 230, P.A. 1925, as amended)

GEAR RESTRICTIONS FOR STREAM FISHING DURING SALMON AND STEELHEAD RUNS

Under the authority of Section 1 of Act 230, P.A. 1925, as amended, being Section 300.1 of the Michigan Compiled Laws, the Natural Resources Commission, at its August 10, 1984 meeting, approved the following gear restriction for a period of five years beginning April 1, 1985, through March 31, 1990. This order supercedes subject order of July 11, 1980, CFI-103.50.

Double or treble pointed hooks exceeding 3/8 inch between point and shank and single pointed hooks exceeding 1/4 inch between point and shank may not be used on any stream except St. Mary's, St. Clair, and Detroit rivers before May 15 or after August 31 of each year.

How can a small premium save your business from a big loss?

No problem.

The Econ-O-Pak Umbrella will protect your independent business and personal liability all in one policy at reduced rates. So for one small premium, two very important areas are thoroughly protected from a loss due to a lawsuit.

Just ask your "no problem" Auto-Owners agent to tell you how the Econ-O-Pak Umbrella can mean no problems for you.

Charlevoix takes districts easily...

BY JERRY FROATS

It was predicted to happen, but no one expected it to turn out quite so easy as the Charlevoix Red Raiders won the 1985 class C District Tournament hosted by East Jordan High School. Charlevoix was matched with the Lincoln-Alcona Tigers for the championship game and both teams held 20-1 win-loss records, but it may have been a Tiger 1-20 record for all Charlevoix cared as they soundly defeated Lincoln-Alcona 80-52.

The game opened with the half crazed capacity crowd standing and roaring their

intentions of winning back and forth. The Raiders matched up man-to-man on defense and hung to their respective opponents like a dose of the four-day flu as they built a 20-2 lead with two minutes left in the quarter. Charlevoix's quick shot offense was on and rarely missed a shot. Lincoln-Alcona's spectators were quiet and subdued after their coach had called for two time-outs in an effort to cool the hot hands of the Raider offense. Brent Cole and Jody Putman were instrumental in gaining the Raiders huge lead as they put quick hands

in front of Tiger passes to set up blistering fast breaks while Doug Sloan and Will Syvertson controlled the boards. As time expired in the first quarter the Raider fans were delirious and sang "good bye" to the Tiger spectators who were wondering if they had put their real team on the floor. Charlevoix led 24-12 going into period two and never had to worry about the score for the remainder of the game.

Lincoln-Alcona tried to press, tried to run a zone, tried to rebound, and just tried to score, but the Raiders would not be stopped as they

continued to dominate the Tigers in every way and looked as though they were playing against JVs. At intermission the Raiders were completely in control 46-26 and the Charlevoix fans gave a thundering ovation as their team took to the locker room.

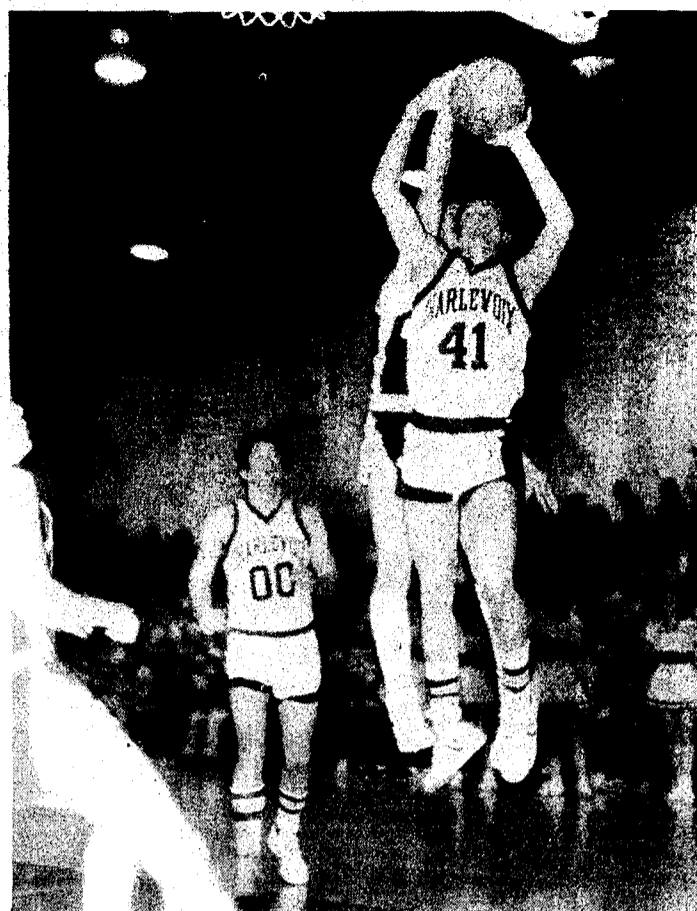

In the third period Charlevoix stuck with the man-to-man matchups while Lincoln-Alcona stiffened their press. The Tigers sank a short series of hoops, but Raider coach Dave Smith called for time out and the Tigers lost their momentum. At mid-quarter Lincoln-Alcona went man-to-

man, but that move proved to be disastrous as Charlevoix utilized their superior speed and left the Tigers behind as they streaked down the court for multiple hoops on fast breaks. When third period action ceased, the Raiders led 61-42.

Charlevoix froze the ball through most of the fourth quarter and slowed the action down. This put the Tigers into a frenzy as they tried to get the ball, but only committed fouls for their efforts. This made for

repeated trips to the charity stripe where the Raiders hit both ends of one-and-one four times.

Charlevoix put four players into double figures with Cole holding top honors with 19 points. Sean Furguson canned 16 points while John Pearl and Putman had 12 and 11 points respectively. Packy LaBlance scored nine points, Syvertson was good for five points, and Jim Martin added two points from the top of the key in the fourth quarter.

Jody Putman [41] of the Charlevoix Red Raiders goes up for a shot while a Lincoln-Alcona Tiger goes over his back. Jim Martin [00] follows up for a possible rebound.

Knocks off East Jordan on way while...

BY JERRY FROATS AND STEVE GEE

In Friday night action of the class C district tournament play, state ranked Charlevoix had to come from behind to knock off the Ski Valley Conference champion East Jordan Red Devils, 86-74.

The two teams met twice during the regular season with Charlevoix coming out on top on both occasions. On December 7, the season opener for both

teams, the Raiders won 71-59. On February 19, the Raiders blew away the Devils 87-64.

The Devils proved to be up for the game as they hung tough and gave the Raiders a run for their money.

In opening period action, the game was relatively close as both teams played a zone defense, but Charlevoix had better position under the boards and were more consistent

converting to points. Brent Cole got the first field goal of the game as he stole the ball and dashed downcourt for an easy score. The Raiders had already chalked an earlier free throw and led 3-0. Charlevoix's half court press had held East Jordan scoreless for nearly two minutes when Todd Nachazel moved in on the ball for a steal and assisted to Scot Hart on a fast

break for the Red Devils first score. The Raiders came back with two buckets from the key by Will Syvertson and Cole to lead 7-4 and kept that margin intact until they stretched it out with a hoop from Doug Sloan at the top of the key and another from Sean Furguson.

The Devils had gone cold for nearly three minutes as Furguson added more points from the left sideline for a 17-10 Raider lead. Near quarters end Mike Goebel got going as he pushed an offensive rebound through and popped from the right side of the key to bring the Devils within three points again at a 17-14 score.

In the second period East Jordan started with a bang as Gary Coolman hauled in his own missed shot and put it through to pull the Devils within one point, and sank a turnaround jumper in the key after Cole had scored for the Raiders. When things settled down a little, East Jordan switched their defense to man-to-man pressure and turned the tide in their favor. Goebel connected on a pair of hoops to pull the Devils within one point again, but Charlevoix got a three point play from Sloan as he slid along the baseline for a bucket and sank the ensuing charity toss to give the Raiders a little breathing room. East Jordan came right back at them as James Price assisted to Hart for a 26 point tie with five minutes remaining in the half.

The Raiders retook the lead shortly after, but went cold as the East Jordan defense got tougher than ever after a timely time-out by coach Steve Hines. Charlevoix was put on ice for a while as Goebel turned on the juice for the Devils hitting from all over the floor and sinking free throws as he put East Jordan on top again 34-30.

Charlevoix got another three point play as Syvertson missed the second half of a one-and-one, and Furguson grabbed the carom and put it back up for a two pointer. The Devil defense did its job again, holding the Raiders down while Goebel poured more points through for a 38-33 lead with just under a minute to play in the half.

Charlevoix pulled within one point by half-time with four straight tosses from the line by Jody Putman.

The third period opened with the Devils showing a 2-1-2 zone defense while the Raiders elected to apply the press. Hart took the ball to the hoop on a drive to the key for a Devil 40-37 lead, but the Raiders tied it up shortly after with Sloan hitting both ends of his free throws. East Jordan found that they could dribble through the Raiders press with fancy handwork from Nachazel and Price as Goebel and Hart scored three buckets to give East Jordan a 48-40 lead. Charlevoix began a monumental defensive effort at that

point as they held the Devils down while Putman and Sloan scored four hoops in a row to tie the score at 48 all. East Jordan called time out again, but the Raiders would not cool off as they finished the period with a 9-2 scoring streak to lead 57-50 going into the final quarter.

Fourth period action opened with Charlevoix hustling on the man-to-man while East Jordan played a point zone defense with double pressure on the ball. The Raider press took control of the game as Cole turned pressure steals into fast breaks while Sloan put one through on an offensive rebound and the Raiders held a 67-54 advantage.

Jim Martin gave the Raiders an extra boost with his abilities on the man-to-man defense and momentum boosting hustle. Cole nearly tore the net from the hoop as he put shot after shot through for the Raiders while Goebel played as if he could beat Charlevoix single-handedly as he also connected on numerous shots from the floor. The Devils never gave up the ship after they had slipped behind by ten points. They kept up a stiff press right to the final horn, but the Raiders had the win well in hand.

Charlevoix sank 33 field goals, were 20-30 from the free throw line, grabbed 39 rebounds, blocked four shots, and committed 15 personal fouls.

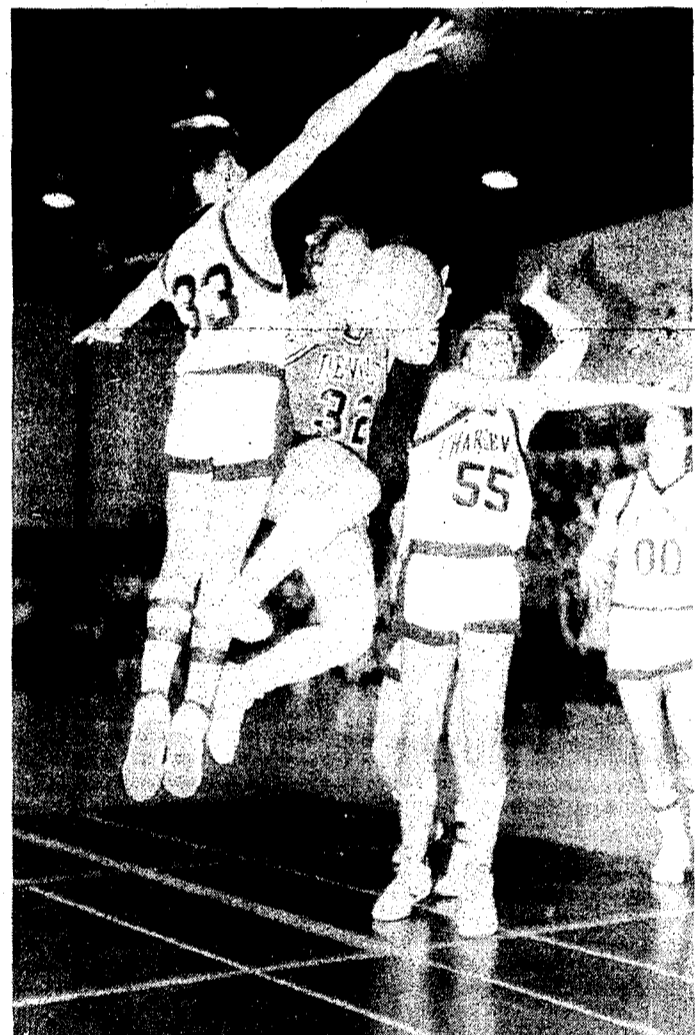

Brent Cole led the scoring attack with 30

points (8-9 from the free throw line), Doug Sloan totaled 21, Jody Putman scored 15 (5-5 from the free throw line) and Sean Furguson added 12. The rest of the scoring came from Will Syvertsen with seven and Jim Martin with one. Putman led all scorers with 39 points. Scot Hart totaled 15 and Gary Coolman added 14 points. The rest of the

East Jordan sank 31 field goals, were 12-19 from the free throw line, grabbed 45 rebounds, blocked seven shots, and committed 20 personal fouls.

The Red Devils received an excellent game from junior forward, Mike Goebel, who led all scorers with 39 points. Scot Hart totaled 15 and Gary Coolman added 14 points. The rest of the

scoring came from Todd Nachazel with six points. Nachazel also passed out eight assists. Hart led the rebounding with 14. Goebel grabbed 13 and Coolman totaled 11 caroms. Fouling out for the Devils was Hart. The Devils ended their season with a 17-5 record while the Raiders took their 20-1 record on against the Lincoln-Alcona Tigers.

Will Syvertson [55] and Sean Furguson [33] try to stop Scot Hart [32] of the East Jordan Red Devils as he soars in for a lay-up.

EJ knocks off Boyne

BY STEVE GEE

In class C district tournament play Tuesday night, the East Jordan Red Devils won impressively, 77-59, over the Boyne City Ramblers. East Jordan received an excellent game from senior guard, James Price, who contributed a team leading 20 points.

East Jordan took the opening tip in for a quick two points. The Red Devils then built up an 18-7 lead midway through the first period. East Jordan had an abundance of steals in the first period and built a commanding 20 point lead, 32-12 at the period's conclusion.

The Red Devils continued to be red hot from the field in the second period. East Jordan's biggest lead of the game came when they led 44-19. At the halftime intermission, the Red Devils held a 52-30 lead.

Boyne City came out at halftime and put on a full court press which started to unravel the

Red Devils. The Devils 22 point lead had suddenly been cut to nine at 57-48. With 32 seconds left in the period, the Devils poured in six straight points to take a 63-48 lead going into the final quarter.

East Jordan outscored Boyne City, 14-11 in the final period to hold off the Ramblers, 77-59. The big difference of the game was the fact that East Jordan sank 23 free throws while Boyne City only made nine. East Jordan's strong performance from their guards also opened up the Ramblers defense.

East Jordan hit for 27 field goals, were 23-34 from the free throw line, pulled down 47 rebounds, blocked seven shots, and committed 11 personal fouls. James Price, Todd Nachazel and Mike Goebel each had six steals for the Devils.

Price led the team with his 20 points (6-7 from the free throw line), Mike Goebel totaled 15 as did Todd

Nachazel (9-10 from the free throw line) and Scot Hart added 12 points. The rest of the scoring came from Gary Coolman with seven, Tom Galmore with four, and Aaron Spence and Thom Ashton with two each. Goebel and Coolman each grabbed 12 rebounds and Hart pulled down eight.

Boyne City sank 25 field goals, were 9-14 from the free throw line, grabbed 31 rebounds, blocked two shots, and committed 24 personal fouls.

Nick Redman led the scoring attack with 15 points and Mike Gabos totaled 14. The rest of the scoring came from Scott Penny with eight, Tony Napont with seven, Steve Rickard with six, Kevin Snyder with five, Dino Franchino with three, and Chris Jenkins with one point. Redman pulled down nine rebounds, Penny grabbed five and Napont had four. Fouling out for Boyne City were Gabos and Rickard.

Todd Nachazel [10] got Steve Rickard [22] to leave the floor on this play as Kevin Snyder looks on from the key.

Olympics of the Mind set to start at EJ

One hundred seventy-three teams, including 1,200 students from schools throughout northwest lower Michigan and all of the Upper Peninsula, will take part in the Region III Olympics of the Mind Tournament on Saturday, March 16, at the East Jordan Public Schools, East Jordan. The participating teams represent a 66-percent increase over the number of teams which took part in last year's regional tournament.

The O-M creative problem solving competition, patterned after varsity sports competition, allows teams in three grade categories to test their skills in solving one of five long term problems as well as on-the-spot spontaneous problems. The public is encouraged to attend the colorful and exciting pre-state competition,

beginning at 10 a.m. running through 4 p.m. Only the spontaneous problems are closed to the public. Nine long term competition sites will be set up in the East Jordan High School and the Elementary School.

Teams have been working all year on long term problems, as well as honing their creative responses to the competitions' spontaneous problems. Participation is broken into division one for students in grades K-5, division two for students in grades 6-8, and division three for grades 9-12.

This year, teams in all three divisions could choose from three long term problems. "Hi Tech - Smarty Pants" requires the design of a robot which can do students' math, science, social studies and geography schoolwork. In

geography, for example, the robot must point to a correct answer while a light on the robot also lights. The robot must also pick up and deposit trash, hand in a term paper, and deliver a get well card to a sick student in the nurse's office. Around 29 robots will attempt to perform these tasks at the regional.

"Music, Maestro, please" requires the use of one or two classical music selections to accompany a performance or a visual presentation, with the classical music being an integral part of the presentation. Teams in this competition can choose from: the composer's reaction to a current event of his time, a dramatic idea or story, a natural phenomenon, the promotion of an idea or product, or a fantasy presentation.

In service

Airman Michael L. Bennett, son of Connie E. Marshall of Traverse City, and Stanley I. Bennett of East Jordan, has been assigned to Sheppard Air Force Base, Texas, after com-

pleting Air Force basic training.

During the six weeks at Lackland Air Force Base, Texas, the airman studied the Air Force mission, organization and customs

and received special training in human relations.

Michael is a 1983 graduate of East Jordan High School.

Loggers dumped by Vandy in districts

The Boyne Falls Loggers went down in tournament action at the hands of the Vanderbilt Yellow Jackets. Here Brian Bennett [31] lost the ball while his teammates look to see what develops.

BY JERRY FROATS

The Boyne Falls Loggers closed out their basketball season in Vanderbilt, going down to the Class D district champions, the Vanderbilt Yellow Jackets 57-81.

Vandy jumped to a quick 14-2 lead as they opened the game with a stiff press and getting good outlet passes downcourt for deep burns against the Loggers. Boyne Falls got rolling in the quarter after Bill Sparks hit nothing but net from the left side of the key.

Sparks followed up with another hoop from the same spot to pull Boyne Falls within ten points, 6-16, while Ross Payton put two more hoops through, one coming on an assist from Norm Hausler who spotted Payton slipping into the key near the baseline. With two seconds left in the

quarter Kelly Harmon popped from the right sideline and the Loggers trailed 12-18 at period's end.

Boyne Falls came out hustling in the second quarter, but two blown fast breaks were a good indicator of how things were to go for the rest of the half as Vandy took a 30-18 lead with three minutes showing on the clock. Payton put a turn-around jumper through to break the Logger cold streak and Brian Bennett followed up with a nice baseline drive, but Vandy was hot and could not miss a shot all period.

Vandy hit from way outside with time running short in the half and led 38-25 when time expired.

Vandy opened the second half with their full court press and continued to pour points through the

hoop as they led 58-35 at the end of period three. Sparks hit from the left sideline with five seconds left in the half.

Boyne Falls scored 22 points in the fourth quarter with Sparks, Payton, and Steve Jar-ema getting most of the buckets. James Bears came up with a three point play after he was fouled scoring on an offensive rebound, and Harmon hit well late in the quarter.

Sparks led the Loggers in scoring with 14 points after a whole season of not reaching double figures. Payton was right there with 13 points, Harmon collected seven points, Bears had five points, Hausler and Jar-ema had four points each, while Ron Reynolds and Dave Gillespie added two points apiece.

East Jordan takes aim on Sportsman's Park improvement

Tourists and local residents have made the East Jordan Sportsman's Park a popular spot. Now the city is seeking funding to improve the riverside acres. The main goal is to raise the level of the land to prevent the frequent flooding that has spoiled previous efforts at park improvement.

Cost of this along with the addition of paved parking for 30 cars, restrooms, landscaping, a board walk, and a foot bridge across the Jordan to a gazebo on the opposite side all comes to an estimated \$70,000, according to city superintendent Mike Dionne.

The city is applying for a 50-50 grant to the state's Land and Water Conservation Fund, an agency of the Department of Natural Resources.

Dionne designates the proposal as Phase I and targets 1986 for actual work to be done.

He noted that the city's goal is in line with that of the Sportsman's Club which leases the park. The club stated in its letter to the city that its foremost desire is the preservation of wildlife in any use of the park land.

The purpose of the gazebo, Dionne said, is to provide a view-

point for enjoyment of the birds and fish to be seen in the extensive wetlands along the Jordan River.

"We're staying on the theme," said Dionne. Because much of the Jordan is classified as a protected natural waterway, Dionne said power boats may not be launched in the river. Therefore the idea of a boat launch once proposed for Sportsman's Park was abandoned. A new launch has been built over at the Tourist Park, which will relieve some of the pressure on the public launch site on Lake Charlevoix, across from Sportsman's Park.

Asked if the city had decided to shelve the city harbor project, Dionne said an emphatic "no." He explained that the \$2 million project had to wait on legislative action on the marine fuel tax bill. This 1.75% tax would provide funds for Waterways Division of the DNR, the fund source for the harbor proposal.

Because of the state belt-tightening, Dionne did not hold out any certainty that the Sportsman's Park plans would be realized. He did say at the March 5 city council meeting, however, that "if we're not on file, we're not in the ballgame."

Seelye named winner in BF essay contest

Lynn Seelye, an eighth grade student at Boyne Falls Public School, has been named a local winner in the 16th annual America & Me Essay Contest, sponsored by Farm Bureau Insurance Group.

Lynn will receive an award certificate for the achievement and her name will be engraved on a plaque for permanent display in the school.

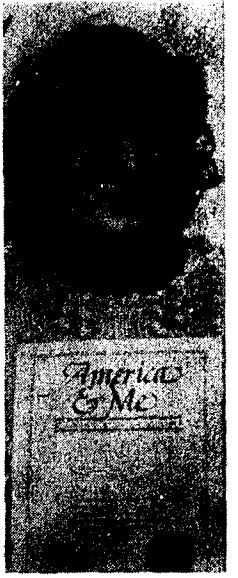

Lynn's essay now advances to the state level competition, from which the top ten essays in Michigan will be selected.

The top ten statewide winners, who will be announced in April, will receive plaques and U.S. savings bonds

valuing in value from \$200 to \$1,000, totaling \$4,000 in prizes for the top ten essayists. In addition, the top ten winners will be honored at a banquet in Lansing and a meeting with Michigan's top governmental leaders.

A team of finalist judges that includes Gov. James Blanchard and Lt. Gov. Martha Griffiths will determine the top statewide winners.

Several thousand eighth grade students from more than 550 Michigan schools participated in the 1984-85 America & Me Essay Contest, which was conducted with the help of Farm Bureau Insurance agents across the state.

LYNN SEELYE

Candidates

City Co-op, says that he wants to serve the entire town, not just some of the voters. This is the first time that Dell has thrown his hat into the ring in a quest to be voted to the city commission. While he has been asked by several special interest groups seeking his favor, he told them that he can do nothing for them, unless he is elected. He told the Press that he is not for any of the special interest groups, but wants to look out for the city's interest in all the actions that the city may take.

Dell told the Press that while the city is growing very fast, he wants to make sure that the growth is not going in the wrong direction.

Roger Smith is also new at trying to win an election as this is the first time he has run for office. He works for Michigan Consolidated Gas and has been around Boyne City all of his life. I really don't have any goals for the city, but if I am elected, I hope to do the best job I can for the city and the taxpayers, he told the Press.

"I can't think of any major changes in the way the city is being run,

but I intend to give input into the decision making process when I learn more about the problems as they occur," he added.

Casimir Toton

Casimir Toton, now retired, is a long time resident of the city. He was instrumental in the conversion of the village to a city as part of the charter commission 25 years ago that formed the rules and guidelines that the city is following today.

He has served on the County Board of Commissioners, and was part of the formation of the Economic Development Board in both the city and the county.

One of the reasons that Toton gave in running for the commissioner's job is that he wants to see the city continue to have good growth in both the commercial and the residential aspects.

He told the Press that perhaps his experience with the county would help the city through some problems that they might get into in the future. Toton said that he will be serving all those residents in the city, and that he hopes to be able to do the job required.

City Park

Continued from Page 1

"It's not the customers," said police chief John Talboys. Violators are typically a few of the merchants, and warnings have not in the past been heeded.

Originally, said commissioner Thelma Behling, the bargain was not to put in parking meters if the public would observe the two-hour parking limit. According to the ordinance, violators will go directly to district court.

With budget hearings coming up, Frykberg noted that the city public library budget allows for donation money to keep it healthy. The city

receives no contract revenue from neighboring townships whose residents do make use of the library.

Those who are aware of this have begun to make their own contributions, which, Frykberg said, the city as well as the library greatly appreciates. The city has also benefited from donations from local residents.

Up for adoption by city commissioners is an amendment to City Ordinance A-43 which would close City Park by the river from 10:30 p.m. to 7 a.m. except for specially designated occasions.

Sixth graders learn game at Boyne Falls

BY JERRY FROATS

The Boyne City sixth graders went to Boyne

Workshop set

Aerobics Workshop with JoAnne Baker begins at the Civic Center in East Jordan on March 25. Classes will run Mondays and Wednesdays for five weeks from 6-7 p.m. Call 536-2111 for more information.

Named to staff

Dance Slimnastics Ltd., a Wisconsin-based aerobic fitness organization, announces the addition of a local resident, Christy Dunne to its staff of qualified aerobic dance instructors.

Bayster, Grunch, Jackson take Miller

Boyer City bowlers dominated the last Miller High Life tournament that was held a week ago last Saturday. They placed one, two, and three in the match at Victory Lanes in Petoskey, while a Charlevoix bowler took the fourth place and a East Jordan bowler finished up in eighth.

Taking the first place was Carl Bayster who was the high scorer in the qualifying rounds with 1282 pins. He finished up with a 196 game in the finals beating out another Boyne City bowler, Ron Grunch. Grunch had 1243 going into the final match, but only rolled a 180 in the championship match to lose to Bayster.

Third place went to Bud Jackson who finished up the qualifying with 1238 pins but lost in a matchup with Grunch and had to settle for the third.

Fourth place went to Randy DeYoung. The Charlevoix bowler rolled a total of 1208 pins in the qualifier. East Jordan's Pat Weiler took the eighth spot while Ken Dell of Boyne City, Wayne Kleinschrodt, and Bill Korthase, other area bowlers, finished in the top twenty.

The final classic

Falls Saturday for a closing season basketball game against the Loggers fifth and sixth graders. The Loggers were on top 24-9 after four periods of action, while the Ramblers took two intermission games 6-1 and 8-2. The Loggers played intermission with their fourth graders.

In the regular matchup, a 2-2 tie closed the first period as Joe Janowski scored for the Loggers and Todd Birmingham shot for the Ramblers.

In period two, Boyne Falls closed the period leading 10-6 with Chad Haynes getting three hoops for the Loggers.

Going into the fourth quarter the Loggers led

16-8 as Haynes added three more buckets.

In the fourth period Haynes hit four baskets to be the only Logger scoring in the quarter.

Haynes came up with a total of 20 points, and Mark Reynolds had four points for Boyne Falls.

For Boyne City Janowski had four points, Randy Huffman scored two points, Gunther Fineout had two points, and Rick Ferris hit one free throw.

In intermission action Matt West scored four points, Aaron Shirk was good for four points, and Ferris got six points.

match will be held here in Boyne City at Boyne City lanes.

When youngsters play basketball everybody wants a piece of the action. Sometimes no one gets the ball as it skids out of bounds after the struggle. The Loggers have some

fine young talent in their school and their coach, Bill Sparks, is helping them to become better players.

NOTICE

CITY OF BOYNE CITY

PUBLIC HEARING ZONING BOARD OF APPEALS

Please take notice that there will be a meeting of the Boyne City Zoning Board of Appeals on Tuesday, March 19, 1985 at 5:00 p.m., in the Office of the City Manager, City Hall, 319 N. Lake Street, to consider the following:

John and Judy Hunt of the Studio One Beauty Shop, 44 N. Lake Street, have requested a waiver of the requirement to provide off street parking at their place of business.

Any citizen is invited to attend this meeting and participate in the discussion, so that the Zoning Board of Appeals may make a decision. For further information, please contact the City Clerk's Office at 616-582-6597.

What's Happening

N.M.S.A.S.

The next regularly scheduled meeting of the Northern Michigan Substance Abuse Services Board of Directors will be held on Monday, March 18, 1985 beginning at 10:00 a.m. at the Holiday Inn in Grayling. For agenda and details please call (517) 732-1791.

The next regular meeting of the Northern Michigan Community Mental Health Services Board will be held on Thursday, March 21, 1985, at 8:00 p.m. in the administrative offices located at 8746 Moeller Drive, Harbor Springs. The public is invited to attend.

HISTORICAL SOCIETY

The Boyne City Historical Society will meet at Pippin's Restaurant on Tuesday, March 19 at 7 p.m.

FATHERS

Fathers For Equal Rights will be holding a meeting at the Petoskey High School library on Wednesday, March 20 at 7:30 p.m. For more information call Rolland Neelands, 1-616-526-5384.

R.L.D.S.

All are welcome to attend the RLDS Church Wednesday night fellowship service, which begins at 7:00 p.m. On Wednesday, March 13, the theme will be "Walking with Jesus". In charge will be Elder Merle Joles. The speaker will be Deacon Harry Roof.

On Saturday, March 16, there will be a workshop for all commission leaders and youth leaders at the Onaway branch, in Onaway. The workshop will run from 10 a.m. to 4 p.m. with Gene Beach and Eleanor West in charge of organizing. Anyone interested, please come. Bring a sack lunch.

TOOTSIE ROLL DRIVE

There are more than 300-thousand mentally retarded children and adults in Michigan, and they need your support. You can help in a special way by making a donation during the Knights of Columbus statewide Mental Retardation Fund drive on March 29, 30 and 31. For

every contribution you will receive a Tootsie Roll... and the mentally retarded in Michigan will receive the support they need so that they, too, can live, learn and develop to their full potential. So watch for your local Knights of Columbus volunteers in your business district, shopping center or main street and contribute generously.

COFFEE HOUSE

Something live, something gospel, every Sat. night at the Open Door Coffee House, next to City Hall, 7 to 10:30 p.m. This Sat. March 16 will be "Toss Salad."

G.M.C.F. AUXILIARY

The Grandvue Medical Care Facility Auxiliary will meet at 2 p.m. Thursday, March 14 at the facility. Phyllis and Mary Glenna Malpass will give a report on their 1984 trip to Oberammergau, Germany, where they saw "The Passion Play."

TOOTSIE ROLL DRIVE

On Saturday, March 16, there will be an organizational meeting of activities for the young adult group, ages 18-30 at 7 p.m. at the RLDS Church on the corner of Lake and Lincoln streets. There will be a potluck and fellowship following meeting. Please bring a dish to pass, own table service and a friend.

On Saturday, March 16, there will be a workshop for all commission leaders and youth leaders at the Onaway branch, in Onaway. The workshop will run from 10 a.m. to 4 p.m. with Gene Beach and Eleanor West in charge of organizing. Anyone interested, please come. Bring a sack lunch.

Middle school seeks encyclopedias

Gordon Howie, Social Studies teacher at the Boyne City Middle School is hoping to find someone who will donate a set of encyclopedia to his classroom. In casual observation the population of Michigan in the tattered set being used is 7.82 million. Actual 1980 census population is 9.16 million people.

If you have a set of encyclopedia lying around not being used, he would appreciate a call at 582-9981. He will pick them up or you may drop them off at the Middle School on Park Street.
