

Snowscope, your guide to winter, included in this issue.

Rocks, rocks, rocks

Several truckloads of these big boulders are being received daily at the Harborage Condominiums in Boyne City. The rocks will be used to extend the breakwall at the condominium boat harbor and will also be placed at the water's edge to prevent further wave damage to the Harborage's lawns and beach. Further down the shore, some of the rocks will be used in the construction of Boyne City's Peninsula Beach.

News Briefs

First Lady Paula Blanchard announced a Sesquicentennial awards program to recognize 150 Michigan women for their contribution to the state. She is hosting four workshops for local communities to explain the nomination process with the closest one being in Clare, Thursday afternoon, March 5.

The Cooperative Extension Service will be holding an educational program in the court room at the Charlevoix County Building in Charlevoix for those interested in learning about Michigan's property tax structure. Dr. Alvin House, a tax specialist will be the speaker. House will talk about the declining values of farmland, and why it isn't being reflected on local property tax assessments. Monday, March 9, starting at 7:30 p.m.

Because of the warm weather, the Boyne City ice skating rink is closed until the weather cooperates by dropping a few degrees. The warm weather is melting the ice surface, and then refreezing each night with lots of rough ice. Until the city can smooth out the surface and the weather stays cold enough to make more ice, the rink will be closed.

Are you a polio survivor? If you are, the Michigan Easter Seal Society is assisting the Polio Coalition by taking names, addresses, and phone numbers of those who call their hotline. The coalition is trying to find out who the survivors may be as many post-polios are developing new symptoms and may be wondering what to do about them. The toll free telephone number is 1-800-292-2729.

Boyne City starts sewer research

Boyne City started tackling one of the problems with the infrastructure, the sewers and water lines at their noon meeting Tuesday when they authorized the starting of the design work that is needed to separate the sanitary sewers from the storm sewers.

They agreed to hire the Granger Engineering firm for \$19,000 to do the study.

The study and the design work will have the company take television pictures of the inside of the sanitary and storm sewer lines to see where the problem areas are, where the sewers are broken letting in the ground water and sand into the sanitary lines, where the connections are that will have to be separated, and where the locations for the connections between the two will have to be broken.

City Manager Randy Fryk-

berg told the commissioners the work has to be done when there is little flow going into the lines due and before the annual spring runoff starts.

He said the city tried to do the same thing last fall, but the rains were the heaviest in years and kept the city from starting the survey.

When asked by Commissioner Steve Moody as to whether this should be done outside of the bond issue vote coming up March 17, or not, Frykberg said that regardless of the outcome of the vote, this would have to be done.

Frykberg continued saying that last fall the waste water treatment facility was over capacity for several weeks due to the rains, and with the amount of groundwater and storm sewer water being treated, it would have to be done to keep the city's treatment plant working.

Moody said after agreeing to the authorization, "The work could save us that much money."

Much of the work will be done on sections that were determined to be trouble areas from previous dye testing. Many of the sections that will be looked at are in the same priority areas as those that would be fixed if the bond issue were to pass. If the bond issue is passed, the money that was

committed from the capital improvement fund for this project would fall back into the capital improvement area to help pay for bonds that would be issued.

Frykberg told the commissioners that the "work has to be done", and they agreed.

The commissioners then reappointed Dr. Gary Mellon to another three year term to the Boyne City Board of Review. His

appointment will last until March 1, 1990.

In commissioners' comments, two commissioners said they were receiving calls concerning the sale of the Northwestern State Bank parking lot to the Burns Clinic saying they have been asked by several merchants in the downtown area if the city could possibly arrange for the

See Noon Meeting/Page 5

DNR expected to have EJ weir by fall

Just as soon as the fine details can be worked out, the Jordan River will begin to receive the first application of a major facelift and restoration operation. The first step of the project will be the installation of a permanent weir at the mouth of the river in downtown East Jordan. The installation of the weir will enable Michigan's Department of Natural Resources to begin to repair damage the river has suffered over the period of time that salmon have been running the Jordan River.

Although the weir will be a permanent fixture, both the DNR Water and Land Management Division and DNR Fisheries and Enforcement Division point out that the weir will be operational only when the salmon runs are on in the fall. The weir will be open through the remainder of the year.

At an informational meeting held Tuesday, Nov. 17, DNR Representatives, Brad Wilkins of the Water and Land Management Division and Steve Swan, fisheries biologist, presented the plans for the weir and informed the public of what could become of the Jordan River after things get rolling on the plan.

Intended to be operational this fall, the weir will prevent mature salmon from entering the stream, while the spacing of the barrier will allow a three pound fish to pass through. This will enable young jack salmon to migrate upstream along with steelhead and German brown trout. With the elimination of heavy salmon fishing pressure in the upper reaches of the river system, sand traps can be better maintained to provide better spawning areas for steelhead, browns and brookies.

While the salmon build up in front of the mouth of the river, a virtual fisherman's paradise will develop as thousands of salmon are expected to congregate within easy casting distance from

the newly erected fishing pier in East Jordan. Boat fishermen will be kept at a set distance from the weir and violators will be prosecuted. Snagging will also be prohibited in the area, and with the location of the weir, enforcement of a no snagging law should be highly efficient.

Also in the plans for the weir will be an optional installation of lamprey eel barrier. Currently, attempts at controlling the undesirable parasites have been with chemical lampricides, an extremely detrimental chemical to natural larvae that feed many fish in the river. A lamprey barrier demands a 12 to 18 inch head to prevent adult lamprey from entering the river to spawn. Other methods of lamprey control are to be experimented with this fall on the Oqueok River. This method utilizes a DC shocking system that is expected to enable DNR biologists to eliminate lampreys.

Commercial harvesting of salmon on the Jordan River has become common practice in recent years, but that will be left up to Michigan's fishermen this year. DNR officials expect the fishermen to harvest nearly all of the salmon at the mouth of the river, something that has been a futile effort with a weir further upstream.

Salmon plantings will not disappear from the Jordan River area as the DNR intends to continue plantings yearly. DNR officials expect that some of the returning salmon will stray to the Boyne River and possibly to Medusa near Charlevoix, but that the majority of the fish will return to the mouth of the Jordan yearly.

More efficient plantings returns of brown trout and steelhead are expected after the weir is constructed, but plantings of rainbow trout are expected to slack off as they are not reproducing as efficiently as expected.

Putting on the third patch in three feet at this water main break at the corner of Cedar and Pleasant Avenue, Lance Johnson finishes up tightening the clamp that holds the system together. The city crews are fixing an average of two leaks a day in the aging water system. Boyne City voters will be asked to approve a bond issue that will help

replace and repair some of the water mains that are causing the most trouble throughout the city on March 17. Presently the city is spending about \$80,000 a year on the patches and the time of the men to fix the leaks. City officials figure that money could eventually be used to expand the water system to more users after the bond issue is paid off.

County transit to get new bus

The Charlevoix County Public Transit System will be the recipient of \$32,695 in state funds for the purchase of one mini van and \$240,000 in federal money from the Urban Mass Transportation Administration (UMTA) matched by \$60,000 from the state, to fund construction of a maintenance/operation facility, Rep. Ralph Ostling (R-Roscommon) said today.

The vehicle will be arriving in Charlevoix County about mid-

summer, said Carol Norris, Michigan Department of Transportation's deputy director for urban and public transportation. "The new vehicle will make riding safer and the new equipment will improve efficiency of services for more than 100 million passengers who ride Michigan buses statewide," she said.

MIDOT will distribute a total of \$4,105,665 to non-urban transit agencies throughout the state for the purchase of new buses and

equipment. "1986 figures show ridership on the Charlevoix County public Transit System was 73,644," said Rep. Ostling. "This new equipment will help keep our transit system up-to-date and assure safe, dependable service for all of our citizens."

The Department has granted \$9 million to match \$21 million in federal funds to purchase new buses and related equipment for 58 transit systems throughout the state.

PATTI ANN TISON

Patti Ann Tison, 53, died Feb. 22, 1987, at her Boyne City home.

Funeral will be 10 a.m. Wednesday at the Stackus Funeral Home, Boyne City. The Rev. Michael Conklin of the United Methodist Church, Boyne City will officiate. Interment will be in Boyne Valley Cemetery, Boyne Falls.

The former Patti Ann Golding was born Dec. 1, 1933, in Batavia, N.Y., the daughter of Ralph and Dorothy (Anthony) Golding. She resided in New York until 1966 and then moved to Grand Rapids where she resided until 1976, when she moved to Boyne City.

She was a member of the Boyne City Eagles.

Survivors include: one son, Thomas Aquino of Batavia, N.Y.; five daughters, Deborah Regazzi, Bridget Aquino, Julie Ann Aquino and Pamela Karenak all of Milwaukee; Christine Marie Aquino of Batavia, N.Y.; eight grandchildren; her mother, Mrs. Ralph (Dorothy) Golding of Batavia, N.Y. and Florida; two brothers, Charles Golding of Washington D.C. and Ralph Golding of Batavia, N.Y.; one sister, Barbara Kruetz of Delton, Fla.; one step brother, Frank Gregory of High Springs, Fla.

CLEO ELIZABETH HOSMER

Cleo Elizabeth Hosmer, 74, of Boyne City, died Feb. 17, 1987, at Grandvue Medical Care Facility, East Jordan.

Funeral was held Friday, Feb. 20, at the Stackus Funeral Home, Boyne City. The Rev. Michael Conklin of the United Methodist Church and the Rev. Dennis Stilwell officiated. Burial was in Maple Lawn Cemetery, Boyne City.

The former Cleo Elizabeth Kent was born June 26, 1912, in Evangeline Township, the daughter of Cyrus and Lilly (Bates) Kent. She lived all her life in northern Michigan and attended Wildwood Harbor elementary school and Boyne City High School.

On Aug. 5, 1934, she married Edward G. Hosmer in Traverse City. He preceded her in death May 2, 1952.

Mrs. Hosmer was employed at Wildwood Harbor summer resorts on Walloon Lake for a number of years. From 1961-74 she was a sales clerk for the Fox Variety (now Ben Franklin) store in Boyne City.

Mrs. Hosmer is survived by: two sons, David Hosmer of Dexter and Allen (Bo) Hosmer of Boyne City; two daughters, Mrs. Benjamin (Suzanne) Kucharek of Gaylord and Mrs. James (Eleanor) Stackus of Boyne City; 15 grandchildren; 16 great-grandchildren; two brothers.

Dale Kent and Frank Kent both of the tenants of Litzemberger Place enjoyed a card and games party hosted by the Eta Nu Chapter of Beta Sigma Phi. Prizes were given and refreshments were served.

Leona Thayer was transferred from Northern Michigan Hospitals Inc. to Grandvue this past week.

Patti Tison Gay passed away at her home on Sunday morning.

Nancy Anthony and three children of Rochester were here for a ski weekend and to visit her parents, Bill and Jean Korthase and family.

About 12 of the Northern Slopes Farm Bureau met at the Ron and Bea Reinhardt home on Saturday night for their regular monthly meeting. Their topic of discussion was "What Is An Endowed Chair—The Elton R. Smith Chair?"

The Taylor Free Methodist chorale were the guests of the Boyne City Free Methodist's morning worship service on Sunday. In the afternoon, the Boyne City F. M.

The former Violet F. Silver was born Feb. 6, 1917, in Toronto, Ontario, Canada. She moved to Detroit and resided there for a number of years before moving to Manchester. She worked in the glass manufacturing division of Ford Motor Co. before retiring in 1980 and moving to Boyne City.

Her husband, Grover Koenig, preceded her in death. Mrs. Koenig is survived by several cousins.

Cooking

KID'S COOKING

There is nothing like cooking to demonstrate one's creative ability. I believe that to be one reason that kids like to cook. They soon learn how to make their own grilled cheese sandwiches or scrambled eggs and they might need a little encouragement to go further. If they can make something that the whole family and friends can enjoy it encourages them to really get "into this cooking bit." While still very young, my granddaughter impressed her family with cheese cake made from a mix. Now she will try anything. It is easy for Barb to cook for her own little family, or a family reunion and she enjoys it.

I believe in making dinner a special occasion when the young ones cook. There is nothing a cook

likes better than to be complimented on what he or she prepares. Kid's learn that cooking is more than just putting food on the table. It is pleasing people and that people are more important than the food. I am of See Cooking/Page 4

Sevenski to chair Bike-a-Thon for St. Jude's in Boyne Falls

The Central Regional Office of St. Jude Children's Research Hospital announced today that Mrs. Barbara Sevenski has agreed to chair the St. Jude Children's Research Hospital Bike-a-Thon in Boyne Falls.

St. Jude Children's Research Hospital was founded by entertainer Danny Thomas. The institution opened its doors to the public in 1962 to combat catastrophic diseases which afflict our children. St. Jude Hospital is non-sectarian, non-discriminatory, and provides total medical care to over 4,200 patients.

At St. Jude, scientists and physicians are working side by side seeking not only a better means of treatment, but also the causes, cures and prevention of these terrible killers.

All findings and information gained at the hospital are shared freely with doctors and hospitals all over the world. Thanks to St. Jude Hospital, children who have leukemia, Hodgkin's disease, sickle-cell anemia, and other child-killing diseases now have a better chance to live.

We sincerely appreciate the concern that Mrs. Barbara Sevenski has for our work and we hope the citizens of Boyne Falls will support the Bike-a-Thon this spring to help provide the funds that are needed to preserve the world's greatest asset... "Our Children."

MSU graduates

Michigan State University lists 1,826 graduates for fall term 1986.

Commencement ceremonies were held Dec. 6, 1986, for 1,207 bachelor's degree candidates and 619 advanced degree candidates.

Included from this area are: Michele T. Hollow, BA Communication and Sally J. Westenbroek, BA Advertising. Both are from Charlevoix.

LAST DAY OF REGISTRATION SCHOOL ELECTION

NOTICE OF LAST DAY OF REGISTRATION OF THE ELECTORS OF

Beaver Island Community School, Charlevoix County, Michigan
Boyne City Public Schools, Charlevoix and Antrim Counties, Michigan
Boyne Falls Public Schools, Charlevoix and Antrim Counties, Michigan
Central Lake Public Schools, Charlevoix and Antrim Counties, Michigan
Charlevoix Public Schools, Charlevoix and Antrim Counties, Michigan
Cross Village Public School, Emmet County, Michigan
East Jordan Public Schools, Charlevoix and Antrim Counties, Michigan
Ellsworth Community School, Antrim and Charlevoix Counties, Michigan
Harrow Springs Public Schools, Emmet County, Michigan
Littlefield Public School, Emmet County, Michigan
Pellston Public Schools, Emmet and Cheboygan Counties, Michigan
Public Schools of Petoskey, Emmet and Charlevoix Counties, Michigan

TO THE ELECTORS OF EACH SCHOOL DISTRICT:

Please Take Notice that the Boards of Education of the above school districts, pursuant to a directive from the Intermediate School Board of Charlevoix-Emmet Intermediate School District, Michigan, have called special elections to be held in each of the districts on Tuesday, April 7, 1987.

TAKE NOTICE that the purpose of the special elections is to vote on the following proposition:

SPECIAL EDUCATION MILLAGE RENEWAL PROPOSITION

Shall the one mill limitation (\$1.00 on each \$1,000.00) on state equalized valuation on the annual property tax previously approved by the electors of Charlevoix-Emmet Intermediate School District, Michigan, for the education of handicapped persons be increased by 1.2 mills (\$1.20 on each \$1,000.00) on state equalized valuation for a period of 3 years, 1987, 1988 and 1989 (.8 mill of the above increase being a renewal of .8 mill for special education purposes which expired with the 1986 tax levy and .4 mill being additional special education millage)?

THE LAST DAY ON WHICH PERSONS MAY REGISTER WITH THE APPROPRIATE CITY OR TOWNSHIP CLERKS, IN ORDER TO BE ELIGIBLE TO VOTE AT THE SPECIAL INTERMEDIATE SCHOOL DISTRICT ELECTION CALLED TO BE HELD ON TUESDAY, APRIL 7, 1987, IS MONDAY, MARCH 9, 1987. PERSONS REGISTERING AFTER 5:00 O'CLOCK, P.M. ON MONDAY, MARCH 9, 1987, ARE NOT ELIGIBLE TO VOTE AT THE SPECIAL INTERMEDIATE SCHOOL DISTRICT ELECTION.

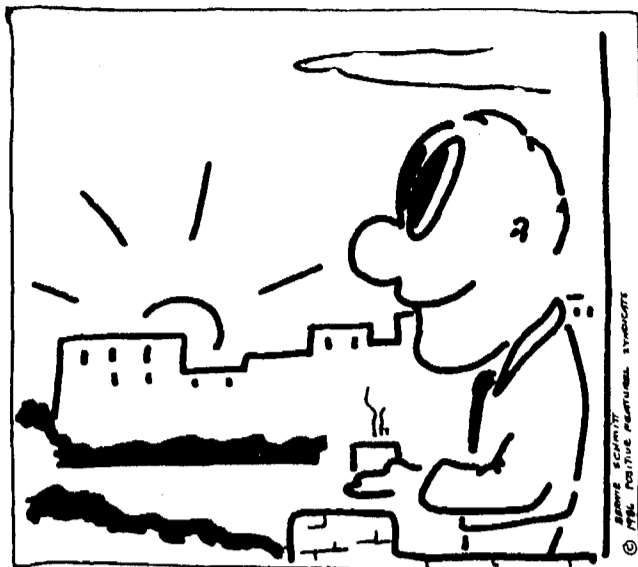

Persons planning to register with the respective city or township clerks must ascertain the days and hours on which the clerks' offices are open for registration.

This Notice is given by order of the Boards of Education.

The Positive Side

"See something positive everyday - Look for the good and you'll find it."

Jottings

BY JIMSILBAR

I think I am going to pull a Brazil and stop paying interest or principal on all of the mortgages, notes, I.O.U.'s, bad bets, good bets that I lost, monies owed or anything else.

What the heck, if a country can't back their credit, then I can't either. And if they can get away with it, I feel I should be able to also.

According to what I have read in the real newspapers of the nation, the banks holding the most money include some of the top names in the business.

Like Chase Manhattan. I know what that bank would do to me if you or I owed them any money, they would foreclose, or repossess whatever I owed them. Now if a nation can just tell the banks they are not going to pay, and the banks just let them do it, what is going to happen to the credibility of the bank?

Are you willing to tell your banker he is not able to do anything about your loan that you are not going to pay?

Is the bank going to try to repossess the country?

And if they do, are they going to have to feed and cloth all of the people of the nation?

Are the bankers thinking of running a legal ad that would allow them to sell the country to the highest bidder on the courthouse steps in downtown New York?

I would be willing to be one of the bidders. I would also be one of

the millions who would possibly bid, trying to get a whole nation as cheap as a tenth of a cent on the dollar.

Just think, if you won the bid, you could control the coffee cartel, have a strong voice in the steel business, sell cars below the cost of American costs, own several hundred multi-national companies, and most importantly, have a lock on the swimsuit business.

The swimsuit business? Sure, I read somewhere that the beaches of Rio are where all of the trends are set as far as swimsuit fashion world knows about. I mean, that is where Sports Illustrated sends their swimsuit editor to ferret out the new fashions for their special issue.

You see, they have summer down there almost every day of the year. Here, we only have it about one or two days a year.

The rest of the time we just have good and bad sledding according to those who head south every year in our fall.

And every year about this time, when the sun comes out and makes a tan only face level, we have a tendency to think the days are short till the ski season is over and everybody can make that trip to the south or the west and get away from here.

I probably won't get very far because I would not be able to borrow any money after defaulting on all my loans like Brazil has done.

Letters

Seabee backs Reagan

Editor,

I was a resident of East Jordan, Michigan for 21 years before I decided to join the United States Navy "Seabees" and defend my country. My quest started on 19 November 1975 and I'm still defending my country to this day.

In my 11 years of naval service I've been to countries that don't have it as good as we Americans. The poverty is well below our level in the United States and freedom is an unspoken word. These countries are ruled by dictatorships and martial law. We as

Americans are very well off compared to these countries, because the American life style revolves around freedom. Here is my reply to Everett K. Sayles' letter of 28 Jan. 87.

"To be or not to be free"

It's our right as American citizens! The freedom to bear arms and freedom of the press, these rights are in our constitution. The freedom to live and work where one pleases are two more rights that we have as Americans. The right of travel, to go to other countries without harm, plan a vacation and see the

Remembrances

While logging was on the decline in 1920, William Korthase and Henry Korthase managed to sled in 2100 feet of white pine to the mills around the area on this load. The picture was taken in the winter of 1920 of both the Korthase brothers. Henry ran logging camps for the White and Porter Company during the time.

Marshall Sayles

I overheard and understood a group of men criticizing Michigan. They reminded me of a snowstorm. No two flakes are alike.

The problem here in Florida is that most people I've met do not understand that Detroit is not Michigan.

Our nation is in the throes of an earth-shaking mental collision over whether or not certain things should be advertised on television.

Years ago certain things included whiskey. It was barred from TV advertising. A few years later certain things included tobacco. It was barred from TV advertising.

Today's certain things flap has added fresh grease to the blaze. So, to find out which way the wind was blowing the strongest, one company conducted a survey. A finger was dampened and thrust into the air and the results noted.

A survey of household heads showed that thirty-eight percent were in favor of certain things being advertised on TV.

Twenty-two percent turned thumbs and fingers down, saying that now they were old they didn't give a hoot about certain things and were interested only in keeping social security alive until they were dead.

That left forty percent of those surveyed. (It happened because thirty-eight and twenty-two pile up to sixty in most household heads.)

When the forty percent of those heads were asked about the TV advertising of certain things, they rolled their eyes heavenward and sought sanctuary in the nearest religious temple, hoping the world would come to an end as quickly as possible.

Thus a certain company found, with a finger still to the wind, how certain people felt about certain things being advertised on television.

I have no idea how the company will react to this survey. Perhaps some night when we are eating supper and watching the news we will be struck full in the

face with the sickening answer.

Now the average reader is wondering what in the name of old broken down sewer and water mains has the above got to do with Boyne City and its bold adventures into life's fast lane.

Nothing, really.

It is just that I have had it much in mind lately to open the bag and shake out the hassle over whether or not certain things should be dragged from the closet and flung across the TV

screen for all to see and faint.

Next week, to the delight of many, I plan to stay above ground and perhaps discuss the importance of sewer and water to a community that just recently received an excellence award.

IF

you, as a retiree, and over 65, think a YES vote on the city's bonding issue may cost more, did you know that your property tax is limited to 3.5% of your income?

● Regardless of your home value

● Regardless of your income

● Regardless of the number of mills taxed in the community

The Michigan Property Tax Exemption provides you this tax advantage, so. . . .

VOTE YES

to all three proposals in Boyne City's Special Election on March 17, 1987.

● KEEP PROGRESS GROWING IN BOYNE CITY!
KEEP OUR WATER SYSTEM SAFE!
KEEP OUR SEWER SYSTEM SECURE!

BYGAIL WARE

Forecast-Cloudy

Every once in a while, it seems like the right thing to do, for the sake of good form, to take a look at the economy. And since a lot of information floats around about it in the first couple of months of each year, this is as good a time as any to pay attention to it.

The almost daily bulletins out of Washington about the shape the country's economy is in are too fragmentary for most people to make much sense out of. They need an interpreter for the many words about the national debt, the trade deficit, the value of the dollar, the GNP-what all this means to their dollars and their dreams.

Enter the economists. They take the jumble of information, pieced it together, summarize it and make predictions. And everyone listens very carefully. They listen not only because the economists are the only ones who seem to understand what's going on, but because economists are considered scientists, which gives them an aura of authority.

The problem with this, with their being considered authority figures, is that what they're scientists-of-economics-lacks the solid, true-every-time base of most sciences, like mathematics or physics. Granted, economists do use numbers as a basis for their predictions, but there are statistical numbers which don't amount to a hill of beans in this case according to economist Ludwig Edler von Mises. He put

it in more scholarly language of course. What he said was: "Statistical figures referring to economic events are historical data. They tell us what happened in a nonrepeatable historical case."

Then there's Milton Friedman, a respected, contemporary economist. His definition of the science upon which he's built his career hardly gives one reassurance about its reliability. In his 'Essays in Positive Economics' he said, "Economics

as a positive science is a body of tentatively accepted generalizations about economic phenomena that can be used to predict consequences of changes in circumstances."

Nevertheless, the economists go forth and predict. But because of the squishy nature of economic theory, their forecasts vary depending on who's speaking. In fact, in the space of a week, one economist can make two predictions which seem to be at odds with one another, which is his

right after all but does shake up his followers considerably.

By and large, the predictions that have come in this year show that 1987 will be a middling year. A couple of fellows have predicted a recession, which they say will come from the citizenry having overdone the use of plastic cards instead of using real money to pay for their holiday goodwill offerings. This will result in forced frugality on their part in the months ahead, causing the predicted downturn. But the

rest of the economists feel that the year will move along decently well with no big ups and downs.

That should suffice for a look at the economy. Doing the right thing doesn't require dwelling endlessly on the matter. Besides, a quick survey shows what a more thorough inspection would. And that is, that no one really understands what makes it tick, which is why just every once in a while is plenty often enough to look at it-even for those who are sticklers for good form.

Cooking

Continued from Page 2

the opinion that good cooks love people and people love good cooks.

Refrigerator Cookies

A good start in baking is to make cookies from the rolled ones in the refrigerator section of the super market. They are so very good and fun to make. All they have to do is to slice them, put on a cookie sheet and bake according to directions. It teaches them to follow directions, the use of the oven and how to handle hot pans; and they can't wait to eat the results.

Kids love to make candy. Esther Welch gave me this recipe that has been making the rounds this winter. You do not even have to cook this fudge-just melt the ingredients and put into a pan.

Cheese Fudge

1/2 lb. cheese (1" of a 5 lb. block)
1/2 lb. margarine
1/2 teaspoon vanilla

Melt the above together
Add:
2 lbs. powdered sugar
1/2 cup cocoa (omit the cocoa for white fudge)

Mix all together good and pat on ungreased cookie sheet using a paper towel to absorb excess moisture. That's all; it will harden as it cools.

This next recipe is a little more advanced than heating up a can of soup or making a sandwich. It is a fun recipe to put together though. I would suggest that mom has the chicken cooked and cubed for the young cook. She might want to prepare the crumbs ahead of time also, and be sure that all of the ingredients are available. You will need these ingredients for

Chicken Crescents

3 oz. cream cheese
2 tablespoons melted butter or margarine

1 tablespoon diced onion
1/2 teaspoon pepper
2 tablespoons milk
2 cups diced chicken or turkey
1 can crescent rolls
Another tablespoon melted butter
Crouton crumbs (mash croutons in plastic bag with rolling pin)

In a small bowl, cream together the cream cheese and melted butter; this can be done with a fork. Then stir in the diced onion, salt, pepper and 2 tablespoons milk. Add the 2 cups of diced chicken or turkey. On a mixing board separate the crescent triangles. There will be 8. Spoon the mixture on each triangle and roll up. Lay them in a greased cookie sheet and brush each one with melted butter and sprinkle with the crumbs. Bake at 350° 20 to 25 minutes until golden brown.

While they are baking you

could heat up a can of either cream of mushroom or cream of chicken soup mixed with 1/2 cup milk for a gravy sauce to pour over these crescents. Very good, but not necessary. They are delicious just the way they are!

Still too cold for an outdoor garage sale? Sell those items with one of our classifieds at 10 cents per word!

world without worry is another right. All these and many more rights are the American way of freedom.

I'm a firm believer in President Reagan, I'm very sure that the freedom of our people is his utmost concern when he makes a decision in office concerning our involvement with the rest of the countries in the world. His decisions affect the people in East Jordan and Boyne City as well as it does the hostages in Lebanon, and other people of the world. President Reagan has challenged all foes that want to try and take our right of freedom away from us. He has taken chances to preserve the American way. Without him taking chances in Libra, Iran, and Grenada, our great country might falter. Instead we should weigh the pros and cons of his accomplishments.

Underneath the leadership of President Reagan our great country can stay what it says we are in our national anthem, "Land of the Free and the Home of the Brave."

Grief Recovery Program started at CAH

Personal recovery from grief is the topic of a five-week program being held at Charlevoix Area Hospital which started Monday, February 23. The program, co-sponsored by the hospital and Charlevoix County Hospice, will continue on Monday evenings through March 23.

This program was first offered in Charlevoix County by the hospice and hospital in 1985. The Rev. Michael Conklin, pastor of the United Methodist Church in Boyne City, was the moderator of the program at that time, which was very successful, and will repeat in that capacity for the upcoming sessions.

According to the Rev. Conklin, loss of a loved one can have a serious impact on a person's life. The hardship can be particularly severe, he said, for someone without family or friends close at hand to share their grief in a meaningful way.

The upcoming program is aimed at anyone who has suffered a loss through death, divorce, separation or otherwise. It is a highly structured program developed in California using small group interaction and step-by-step methods to recover from loss both physically and emotionally.

There is no cost to participants and people may attend the first session to find out more about the program without committing themselves to attending the next four weeks.

For more information call Margaret Lasater in East Jordan at 536-2842, Michael Conklin in Boyne City at 582-9776 or Dave Knight in Charlevoix at 547-4024.

BAY TOWNSHIP

The Bay Township Board of Review will meet Tuesday, March 3, 1987 at 7 p.m. for the purpose of reviewing the 1987 assessment roll at the residence of Carl Skornia on Zenith Heights Road.

Residents may examine their property assessments before the Board of Review on March 9, 1987 and March 10, 1987 from 9 a.m. to 12 p.m. and 3 p.m. to 6 p.m. in the township hall.

The Bay Township tentative ratio and multiplier is subject to change by the assessing officer, board of review, county equalization and state equalization.

Spring steelhead runs to make up for slow fall season

While heavy rains virtually washed out the fall steelhead season, spring runs should be bolstered by a strong return to parent streams by 3- and 4-year-old steelhead, reports AAA Michigan.

The first push of spring steelhead runs started in early February in many southern Michigan streams but slowed

later when temperatures dropped.

Generally, steelhead runs peak when the water temperature reaches 45 to 60 degrees. Traditionally, best results are from late March to mid-April in southern Michigan, from mid-April to early May in central Michigan, mid-April to early May in northern Lower Michigan and mid-

April to mid-May in the Upper Peninsula. The 1983 and 1984 steelhead plantings should be returning to the streams in good numbers this spring and weigh between 8 and 15 pounds. The 1985 plants, which now should weigh up to 5 pounds, will be entering the streams for the first time.

Most improved results are expected

in Lake Huron tributaries from Au Gres to Rogers City and in Lake Michigan streams from Benton Harbor to Muskegon. Department of Natural Resources field officials said that runs in the rest of the 44 streams in AAA Michigan's 1987 Steelhead Guide should equal 1986.

In west Michigan,

best runs are expected on the St. Joseph, Grand, Rouge, Muskegon, Little and Big Manistee, Betsie, Platte and Bear rivers.

The East Branch of the Au Gres River, the Pinnebog River in the thumb and the Au Sable River and its feeder creeks should be the top steelhead

streams in east Michigan.

The Huron River is the best bet for southeast Michigan steelhead runs.

Streams in the U.P. expected to provide above average spring runs include the Big Cedar, Manistee and Whitefish rivers off Lake Michigan; Huron and Big Two Hearted rivers off Lake Superior; and the Carp River off Lake Huron.

When in the streams, steelhead do not like direct light so they usually are found near deep holes; behind or next to submerged objects, such as rocks, stumps or submerged logs; or in dark areas under stream banks. Spawning steelhead generally stay in the main flow of the river, in a moderate to fast current over a pebbled river bottom in around 4 feet of water.

Snowfall has been less than usual in the northern two-thirds of the state, and river levels there may be lower this spring. Where spring stream water is high and muddy, anglers should use brightly colored lures, including weighted spinners; bright silver, gold and fluorescent colored blades; and heavy spoons, such as Little Cleos, K. O. Wobblers and Krocodiles.

When steelhead are located, slowly drifted bait and flies often work best.

In the lower sections of tributaries, fresh steelhead and salmon spawn are favored baits. However, as the spawning fish move upstream and are not actively seeking food, fluorescent yarn can be added to the bait or

artificial spawn may be used to attract the fish.

The minimum size for "keepers" remains the same as last season. Steelhead must be at least 8 inches on Lower Peninsula streams and 7 inches in the U.P. The daily limit is five in any combination with salmon and other trout species.

The 1987-88 Michigan Fishing Guide contains the rules for specific waters and streams. Most are open year-round, but some open on April 1 or April 26. Because upstream limits sometimes change, anglers should check the guide. The guide is available free when a new fishing license is purchased or it can be obtained directly from the DNR or one of its field offices.

The Michigan Department of Public Health says that contaminant levels in Great Lakes fish have dropped in recent years, but children and pregnant or nursing women should be discouraged from

eating steelhead. Others should refrain from eating more than 26 pounds of

steelhead from Lakes Huron or Michigan or Saginaw Bay in one year.

170 ski racers to compete at state meet

Over 170 high school ski racers from throughout Michigan will be on the slopes of Crystal Mountain on Monday, March 2 for the 13th annual Michigan High School Athletic Association's state final meet.

Regional competitions were held at 5 sites throughout the state—Mt. Brighton, Pine Knob, Schuss Mtn., Caberfae, and Marquette Mtn.—to determine the final meet qualifiers. The top two boys' and girls' teams from each regional advance to the finals. Additionally, the best four individual skiers who are not members of a qualifying team also earn a starting berth in the final.

Defending state champions Traverse City High School swept

both the boys' and girls' divisions in 1985 and 1986. The Trojan boys have won the State title six times in 12 years, while the Trojan girls have been crowned State ski champs four times in that period.

Skiing is one of only two high school interscholastic sports played in Michigan where the final competition is not divided into school class sizes. Athletes in skiing and gymnastics compete in an "open class" format, irregardless of their school size.

"Crystal Mountain has had the privilege of hosting the meet 6 times since the competition began back in 1975," observed Crystal's lodge manager, Steve Kermode-Petritz. "We look forward to having this exciting event here once again."

Health Dept. still concerned about measles

District Health Department No. 3 and No. 4 are warning parents of the continuing danger of childhood diseases and urging them to make sure that all of their children are fully immunized.

Brian Youngs, M.D., Medical Director, is especially concerned at this time because of the suspected measles (rubeola) cases reported in the area. Measles is an acute, highly communicable disease characterized by fever, cough, runny nose, red eyes, red spots in the mouth and a rash. Measles can be a very serious illness complicated by middle ear infections, pneumonia and inflammation of the brain. Measles may be prevented by properly immunizing children. Due to the reported cases of measles in the state, it is important children age 15 months and older are protected against measles.

A vaccine can prevent measles in 95 out of 100 immunized individuals. Dr. Youngs feels that four groups of people have the greatest risk of developing measles: 1. Individuals who have not been immunized and were born after 1956;

2. Individuals who received an immunization prior to 12 months of age;

3. Individuals who received an immunization along with immunoglobulin;

4. Individuals who were immunized with a killed vaccine, or a vaccine of unknown type, between 1963 and 1967.

The Health Department recommends a series of immunizations that should be started at 2 months of age. The schedule for active immunizations by 4-6 years of age includes a basic series of five (5) doses of diphtheria and tetanus toxoid and pertussis (DPT), and four (4) doses of trivalent oral polio vaccine (TOPV), and one dose each of measles, rubella and mumps (MMR), and the Haemophilus Influenzae Type b vaccine. Parents/guardians should check each child's immunization record to insure they are properly immunized against all preventable childhood illnesses, especially measles.

Immunizations are offered in each county by the health department. For information about immunizations, contact your physician or any office of District Health Department No. 3.

For further information concerning this release, please contact Bert Petoskey 616-347-6014.

Volunteers needed to pass the word

Thanks to the efforts of many individuals and organizations across the country, there has been a dramatic increase in public awareness of the adult illiteracy program. Outstanding progress is being made towards meeting the needs of our new adult readers.

Although we are making substantial gains, one restraint in northern Michigan is the insufficient number of certified Literacy Tutors. Currently, there are approximately twenty active tutors in Otsego, Emmet and Charlevoix Counties. This is not enough to meet our communities' needs! New students are being put on a waiting list, which threatens their receiving the help they seek.

Here's an opportunity for you to

become involved. The Retired Senior Volunteer Program of Gaylord is sponsoring a Laubach Literacy Action Tutor Training Workshop on April 10 and 11. Upon completion of the twelve-hour training session, participants are certified literacy tutors prepared to work one-on-one with adult non-readers.

The workshop will be open to 20 participants. Call the RSVP office in Gaylord (517) 732-6232 or in Petoskey (616) 347-5070 for further details.

Tax assistance available

Free tax assistance is available through TCE, Tax Counseling for the Elderly Program sponsored by the Retired Senior Volunteer Program.

Watershed develops wetland ordinance possibility

The Tip of the Mitt Watershed Council has developed a sample wetland ordinance and has made it available to townships and counties in northern Michigan. The Watershed Council hopes that it will be adopted by local governments.

According to Gail Gruenwald, Staff Attorney and Wetlands

Project Coordinator for the Watershed Council, the ordinance does not involve the issuance of permits locally but rather serves to notify landowners of the need to contact the Michigan Department of Natural Resources (MDNR) prior to beginning any construction activity. Under the ordinance,

a township or county must identify wetland areas and include them in its zoning plan or map.

"The ordinance plays a very important notification and education role," explains Gruenwald. "Landowners are forewarned of the need for a permit to dredge or fill wetlands. We hope that it will help avoid permitting controversies and prevent unauthorized fills."

The wetland ordinance was developed by Gruenwald with the assistance and approval of the MDNR. Hayes Township in Charlevoix County was the first to adopt it.

The ordinance is part of a comprehensive wetland evaluation and protection program launched in 1985 by the Watershed Council under a three-year grant from the C. S. Mott Foundation.

Gruenwald explains the goals of the project. "Wetlands play a critical role in

protecting water quality and wildlife habitat. Because much wetland has already been lost to development and agriculture, protection of the remaining areas is especially important."

Noon Meeting

Continued from Page 1

purchase of the lot.

Frykberg told the commissioners that with all of the other priorities of the city, the commissioners would have to make that decision. He said the matter would come up in front of the city planners on March 9, and that was the place where the residents of the city could voice their concerns.

The city may start to look at a skateboard and bicycle ordinance in the downtown after Police Chief John Talboys asked the commissioners if they thought such an ordinance was needed. Talboys also asked if the city would consider an ordinance to give some control to the truck route through the city.

Both will be considered as the commissioners agreed to have the city attorney give them a recommendation.

We like letters

The Press encourages letters to the editor on issues of interest and concern to our communities. We do ask, however, that the following guidelines be followed:

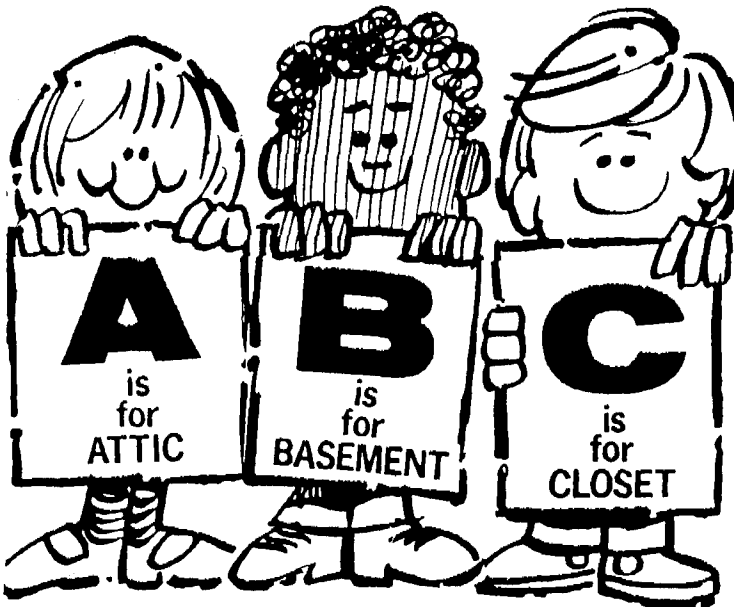

-All letters must be signed, and contain the address and telephone number of the author, for reference purposes. Names will be withheld for legitimate reasons only.

-Letters must be in our office—at 108 Groveland, Boyne City, P.O. Box A—by no later than 10 a.m. Monday for publication in that week's issue.

-We reserve the right to edit letters for libel, clarity, and length. Letters should be no longer than 500 words in length.

-Letters regarding election issues or candidates will not be published in the issue immediately preceding that election, in interest of fairness to all involved, and in order to provide time for those of an opposing view to respond.

It's time to think about your A,B,C's!

Start the search . . . in the attic, in the basement, in the closet . . . and collect those things you no longer need or use. A simple phone call starts your Classified ad on its way to people who are looking for your "don't needs."

No matter what you have to sell, Classified ads do the trick quick.

Call 582-6761 to place your ad for next week's NEWSPAPER!

We'll be happy to help you write a money producing classified ad.

NOTICE CABLE TELEVISION SUBSCRIBERS OF BOYNE CITY AND EAST JORDAN

Please bear with us — we're improving for you.

Due to the electronic rebuild needed to add new channels, cable television service for the Boyne City and East Jordan area will be interrupted at times between 6:00 a.m. and 5:00 p.m. from February 23rd through March 31st, 1987.

The rebuild will be completed by approximately April 1st, and your local cable system will then be offering these programming services as part of the basic service: WTBS, PASS, CABLEVALUE NETWORK, THE DISCOVERY CHANNEL, THE NASHVILLE NETWORK, LIFETIME, AMERICAN MOVIE CLASSICS, C-SPAN, THE WEATHER CHANNEL, and MTV. We will also be offering Disney as a movie channel, which will be at an additional cost per month.

Many of you have been asking for more channels over the past years and now we're bringing them to you. Watch for further information which you will be receiving in the mail soon.

BOYNE CITY LANES PRESENTS ITS BOWLERS OF THE WEEK

KAREN McCARY

Karen couldn't have picked a better time to roll her highest 600 series ever. Bowling in the singles event of the Women's Cities Association Tournament, Karen shot the lights out with a beautiful 640 actual set, with a game high of 235. Taking her 153 average into tourney play, Karen ended up being 181 pins over average for the night, which was good enough to win the singles event.

The 181 pins over average is the 2nd highest pin total rolled by a woman bowler this season. Super job, Karen!

JOHN GASCO

If we had a bowler of the month award, John would win it with ease! Having raised his average up to 189 the past few weeks, John finished off the month with his first 700 series of the season, a super 711 set, with a high game of 243, which put him 144 pins over average for his effort. John says that, "The new Columbia U Dot he bought has helped tremendously, plus a few tips from Steve at Boyne City Lanes." The major part of the credit goes to you, John. You're rolling the ball real good! Keep it going!

CONGRATULATIONS.

EJ downs Charlevoix Rayders

BY DENNIS SKROCKI
On Tuesday, February 17, the East Jordan varsity basketball celebrated a rare victory over cross-county rival Charlevoix. The Red Devils were in control from the opening minutes and did not let up as they were victorious by the final score of 83-75.

The Rayders gained control of the tip-off and put the game's first points on the board. Sophomore Matt Bishop countered for the Devils to tie things up at two. Charlevoix took over from there and outscored the Devils 10-4 in the next two minutes, causing a Red Devil timeout at the 4:22 mark with the Rayders up by six, 12-6. The Devils controlled the last three minutes of the quarter as a Jim Raymond free throw brought EJ to within one, 16-15, with :33 remaining. A Bishop jump shot at the buzzer gave the Devils their first lead of the contest, 17-16.

Behind an eight point effort from Bishop in the second stanza, the Devils continued to display dominance as they extended their lead to nine, 27-18, during the first three minutes. The Rayders fought back and cut the deficit to 35-30 with 3:03 left to play. The two teams matched each other nearly point for point in the remaining minutes with the Devils possessing a 40-34 halftime lead. The main reason for the surprising Devil advantage was in the rebounding department. The Jordanites out-rebounded the Rayders on a 3:1 ratio (32-11).

Charlevoix cut the deficit to two, 40-38, in the first minute of the third period but from there it was all East Jordan. The Devils mounted a fierce offensive attack that allowed them to outscore the Rayders 22-12 in the remaining five minutes to take a 62-50 lead into the final stanza.

The final period brought much excitement as the Rayders cut the commanding Devil margin to seven, 73-64, with three minutes remaining in the contest. Two Bishop free throws at the 2:34 mark extended the EJ lead to 77-68. The home crowd was a big factor in the final minutes, and despite scoring runs by Charlevoix that threatened an East Jordan victory, cheers from the many fans gave the Devils the needed motivation to pull out the upset.

On the night the Devils hit 31 of 59 (53%) from the floor and 21 of 29 (72%) at the free throw line. The Red Rayders connected on 31 of 53 (58%) shots from the field and 13 of 24 (54%) at the line. Defensively the Red Devils out-rebounded the Rayders 53-32. Individually, Bishop led the Devils offense with 24 points as Greg Kitson added 24 and Shannon Olstrom chipped in 14. Also contributing in the victory were: Mark Moore (11), Kevin Molby (8), and Jim Raymond (6).

Kitson was the leading Devil defensively with 12 rebounds as Olstrom added 11 and Raymond came up with nine. Also turning in strong defensive performances were: Bishop (8), Molby (8), and Moore (6).

Shannon Olstrom (12) of the East Jordan Red Devils goes up for a possible two pointer over these Charlevoix defenders. Olstrom netted 14 points against the Rayders in one of the biggest wins the Devils have taken this year.

EJ frosh drop two games

BY DENNIS SKROCKI
The East Jordan freshman basketball squad had a rough go of it last week as they

dropped games to Charlevoix and Inland Lakes by respective scores of 61-54 and 68-65.

On Monday against the Red Rayders from Charlevoix, the Red Devils shot 23 of 63 (36%) from the floor and 8 of 18 at the free throw line. The Rayders bested the Devils in both categories shooting 28 of 59 (47%) from the field and 5 of 7 at the charity stripe.

Bill Gotts was the Devil's leading scorer in the contest with 18 points as Don Cutler added 17 and Ted Sherman chipped in 10. Also contributing were Mike Rebec and Pat Muma with three points each and Steve Shepard, two.

Cutler led the way defensively with eight rebounds as Sherman crashed the boards for eight. Other Devils obtaining rebounds were: Shepard (6), Rebec (3), Gotts (2), Sherman (2), Jimmy Downey (2), Mike Cam (1) and Muma (1). Gotts and Muma also added four steals each.

In the Inland Lakes

contest the Red Devils were once again outdone from the floor shooting 28 of 83 (33%) as compared to the Bulldog's 27 of 63 (42%). The teams both hit 42% of their shots from the free throw line with the Red Devils making 9 of 21 and the Bulldogs converting 14 of 33.

Offensively Cutler led the way with 21 points and three assists as Sherman added 17 and Gotts contributed ten. Also scoring for the Devils were: Pat Russell (6), Rebec (4), Jamie Chambers (2), Muma (2), Downey (2), and Ryan Clark (1).

Cutler was also the leader defensively with 11 rebounds and eight steals. Sherman also turned in a strong defensive performance with eight rebounds as Russell came up with six and Shepard added five. Gotts also contributed seven steals.

The freshman Devils will conclude their season this week facing Bellaire on Monday and Harbor Springs on Thursday.

Red Devils bow to Snowbirds

BY DENNIS SKROCKI
After obtaining perhaps their biggest victory of the season on the previous Tuesday against Charlevoix, the East Jordan varsity basketball headed into Friday's game with hopes of upsetting 7th ranked (class D) Gaylord St. Mary's.

After gaining control of the opening tip and striking first, the Snowbirds jumped out to an early 10-2 lead before the Devils brought it to within two, 10-8, with three minutes remaining in the quarter. St. Mary's outscored the Devils 8-5 in the remaining minutes to post an 18-13 score at the period's end.

The second stanza was played in much the same fashion as the first. A Greg Kitson jump shot brought the Devils to within three, 21-18, with 4:51 remaining in the half. This turned out to be the closest the Devils would come to taking the lead as the rest of the contest was all St. Mary's. The Snowbirds held a 37-30 margin at the halftime intermission.

The third period saw the Snowbirds outscore the Devils 12-0 in the first three minutes to take a commanding 49-30 lead. St. Mary's upped their substantial margin to 20, 54-34, at the 2:11 mark, forcing Red Devil coach Steve Hines to call a timeout in order to re-group his squad and plan a comeback. The Devils gained little ground in the period's final minutes as Gaylord took a 60-42 lead into the final quarter.

The Devils were unable to mount a successful comeback attempt as the Snowbirds continued to display their dominance through-

out the final stanza from both offensive and defensive standpoints. With the sounding of the final buzzer, the Snowbirds claimed an 82-62 victory.

Kitson was the Red Devil's leading scorer with 21 points as Kevin Molby added nine and sophomore Matt Bishop contributed eight. Also putting points on the board for E.J. were: Jim Raymond (7), Shannon Olstrom (7), Mark Moore (6), and Kelly Harchis (4).

Defensively Kitson also led the way with nine rebounds as Olstrom came up with six and Molby crashed the boards for five.

On the night the

Devils shot 23 of 63 (37%) from the floor and 16 of 23 (70%) at the free throw line as the Snowbirds hit 35 of 68 (51%) shots from the field and 12 of 19 (63%) at the line.

The Devils will wind up their regular season this week traveling to Bellaire on Tuesday and hosting Ellsworth on Friday. The Red Devils will participate in the district tournament that will be held in Boyne City. The tourney will begin on March 9 and conclude on March 14 with the winner advancing to the regionals. As of this time, a schedule has not been drawn up.

In the service

Airman William S. Kraemer, son of Maurice P. Kraemer of 513 N. Maple St., East Jordan, Mich., has graduated from Air Force basic training at Lackland Air Force Base, Texas.

During the six weeks of training the airman studied the organization and customs and received special training in human relations. In addition, airmen who complete basic training earn credits toward an associate degree through the community college of the Air Force. He is a 1986 graduate of East Jordan High School.

NOTICE TO BIDDERS

The Charlevoix County Road Commission will receive sealed proposals at their offices at 1051 East Division Street, Boyne City, Michigan 49712, until 10:00 a.m. (EST) Monday, March 9, 1987 for furnishing 1987 requirements of the following:
Bituminous Materials

STATE OF MICHIGAN in the CIRCUIT COURT for the COUNTY OF CHARLEVOIX

IN THE MATTER OF VACATION OF A PORTION OF MAIN STREET, A PART OF THE PLAT OF SOUTH BOYNE, A RECORDED PLAT OF THE CITY OF BOYNE CITY, CHARLEVOIX COUNTY, MICHIGAN

File Number 87-326-11 CE
McTAGGART & ARNER
By: William R. McTaggart (P-17558)
Attorney for the City of Boyne City

NOTICE OF HEARING ON APPLICATION TO ABANDON AND DISCONTINUE A PART OF MAIN STREET FRONTING ON LAKE CHARLEVOIX, CITY OF BOYNE CITY,

area, will enable the Beach to be expanded and with automobile parking on the City-owned area of the former Federal Oil Property next to Front Street and with access to the Beach from the north side of the Beach area.

2. If the area of Main Street is vacated as proposed, the present end of Main Street which abuts Lake Charlevoix will then be reconveyed to the City, to be included as part of the Peninsula Beach area, so that the City will retain all of its water frontage now encompassed by the end of Main Street if the proposed vacation of Main Street is approved, in addition to acquiring the above described portion of the "Federal Oil" Property to be added to Peninsula Beach.

3. The City Commission of the City of Boyne City has approved the proposed vacation of the portion of Main Street on the condition that the described areas from the Federal Oil Property will be conveyed to the City. The vacation will not finally be approved until the City acquires good title to the parcels from the Federal Oil Property to be added to the Public Beach.

This notice shall be published for three (3) consecutive weeks in a newspaper published in Charlevoix County, and this notice shall also be posted in three (3) public places in the City and served upon the State Highway Commissioner.

Testimony will be taken on the date and time above stated (or such adjourned date and time if the Court adjourns the date) on the part of the Petitioners and any interested persons in the Application, and if it shall satisfactorily appear to the Court that there is no reasonable objection thereto, and that it is necessary for the best interest and welfare of the public that such street be abandoned and discontinued as prayed for in the Application, or if it shall appear to the Court that such street should remain as established, an Order shall be made and entered in the Record of the Court in accordance with such determination.

Ramblers hold off Saints

After building a 19 point lead late in the third period, the Boyne City Rambler varsity basketball team held off a 26-12 fourth period deficit to defeat the St. Ignace Saints 68-65. The win marks the second time the Ramblers have beaten the Saints, the first meeting being a one point win in St. Ignace.

Friday night on the Ramblers' floor, Boyne City coach Rick Fowler wanted "run em (St. Ignace) a little bit", and to "go with the outside shot". Fowler also felt that the Ramblers could board with the Saints saying,

"We did it before, we should do it again."

Despite a slow start, the Ramblers did get running after falling behind early in the first period, 9-4. Balanced scoring as a team eventually earned Boyne City a lead by periods end, 18-13, with the Ramblers scoring directly from rebounds and driving to the hoop.

Aaron Richards opened the second quarter for the Ramblers, getting two quick hoops that got Boyne City rolling for a 30-17 lead with four minutes left in the half. St. Ignace applied the press com-

binated with a backcourt man-to-man defense and chipped away at the Rambler lead, pulling within six points by quarter's end, 40-36.

Fowler's running game became a clear advantage through the third period as the Ramblers pressed continually, holding the Saints to just five points in the quarter. Mike DeSchryver scored 14 of the Ramblers' 16 points through the quarter, beating the Saints on the fast break when the press gave Boyne the ball.

The Saints went back to man-

to-man defense to open the fourth quarter, and put Rambler mistakes to use. The Saints cut a 17 point Rambler lead in three and one-half minutes as the Ramblers comfortably substituted, holding off a late St. Ignace scoring surge for the win.

DeSchryver led all scorers with 34 points while Kyle Fitzpatrick and Scott Beebe scored 14 and 10 points respectively. Other Rambler scorers included Richards with 8 points and Steve Sutton contributed 2 points from the charity stripe.

Dean Alger (54) of the Boyne City freshman basketball team had his biggest night of the season Monday, pouring in 16 points and being a dominant rebounder throughout the game against Inland Lakes.

Boyne City Middle School posts large list of honor roll students

The following students are on the honor roll for the 1st marking period. In order to be placed on the honor roll at Boyne City Middle School a student must earn a B or higher grade in all academic subjects for the nine week period. Students who receive all A's are designated with an asterisk. Students who are on the honor roll each of the four marking periods for the year will receive an award at our honors assembly the last day of school.

5th Grade: Mollie Angel, Theresa Babcock, Amy Barkdoll, Timothy Behling, Heather Belford, Christina Blackburn, Rebecca Bragg, Michael Christensen, Daphne Crozier, Bowdye Crumpler, Katie Drury, Chad Ernst, Aaron Fisher, Kim Goebel, Jeff Greetis, James Hamilton, Gina Howard, Melanie Hubble, Charity Huff, Donovan Huff, Charlene Hunt, Christy Johnson, Vicki Kroush, Traci Lewis, Stephen May, Lisa Niedling, Dale Owens*, Jerry Petriw, Michael Pittiglio, Megan Rader, Jamie Reinhardt, Jennifer Rolston, Kenda Schroeder, Brandon Stadt*, Jilaine Towne, Brook VandenBrink, Bob VanTreese, Joshua Wright and Kale Zimmer.

6th Grade: Sandy Bauman, Jake Bernthal, Carrie Bricker,

Alice Brooks, Anisa Clark, Amy Cook, Denise Coon*, Kimberly Cotton, Erika Davis, Alexis Erreca, Lisa Goebel, Kurt Harvey, Celeste Hoover, Melissa Hubble*, Susan Karkosak*, Tara King, Matt Kosc, Dennis Moore, Wendi Noeske, Erika Omiatek, Richard Poole, Donovan Rainey, Brian Sobleski, Barrett Streu*, Mark Sulak, Lisa Thompson*, Andy Vondra, Melissa Williamson and Jennifer Winter.

7th Grade: Lauri Adams, Roy Angel, Ricka Casper*, Kris Crozier, Tim Fall, Phil Golke, Brad Hammontree*, Travis Johnnecheck, Kathleen Johnson*, Jason Jones, Cari Knight, Annette Knipe, Aulani Kuheana, Bob McCullough*, Jason Moody*, Marc Moore, Troy Peck*, Michelle Pittiglio*, Heather Robinson and Jamie Salisz.

8th Grade: Dawn Archambault, Stacy Bryan, Amy Cadaret, Kelly Copeland, Brooke Coveyou, Andrea Davis, Christa DeGrow, Mike Feagan, Gunther Fineout, Crissy Gervasi*, Missy Gregware, Justin Griffin, Shane Heberling, Michelle Hubble, Kelly Jankowski, Carolyn King*, Kevin Lockman, Christina May, Melissa Sobleski, Kim Stadt, Anna Taylor and Brett Williamson.

BC frosh win two

Boyne City's freshman basketball team took two more games this week, one in Harbor Springs, a two point win that came in overtime, and on Monday night the Inland Lakes Bulldogs became victim number 16.

Thursday night in Harbor Springs the Ramblers fell behind in the first half, trailing 8-14 after one period, and 9-10 at the

half. Boyne City outscored the Rams 14-10 through the third period and 14-11 in the fourth quarter to send the game into overtime, where the Ramblers emerged as the 47-45 victor.

High scorer against the Rams was Jim Abney with 18 points while Scott Hammontree had 10 points. Other Rambler scorers included Wayne Avery and Bo

Williamson with 8 points each, Jason Hunt with 2 points, and Dean Alger added one point.

Monday night the Ramblers jumped out to a 17-10 first quarter lead after trailing late in the period. The Ramblers proceeded to put on the pressure through the remainder of the game to lead 38-21 at the half, 57-30 after period

three, and wound it up with a 65-31 win.

Hammontree and Alger led the Ramblers in scoring with 16 points each. Scott Knipe scored 10 points, Williamson scored 9 points, Jeremy Babcock netted 5 points, Eric Richards and Shawn Vondra had 4 points each, and Stacy Ernst contributed a free throw.

BF honor students named

The following students maintained an 8.0 grade point average for the first semester. *Denotes all A's, 10.0 grade point average. These G.P.A. averages based on an 11.0 scale.

7th Grade - *Christine Barnadyn, Rebecca Carson, Robert Freck, Shani Hawes, Liegh Red-

mond, Mark Reynolds and Joseph Westbrook. 8th Grade - Lori Burkhardt, Tracy Danbert, Chad Hanes, Kethe Harmon and Ellen Reynolds. 9th Grade - Karen Bearss, Beth Conklin, Ryan Giem and Missy Massey. 10th Grade - Patty Bearss, Kelly Beaudin,

Claudine Crego, Linda Dowson, *Robert Hausler, Nicki Kerridge, Sandy Koeman, Jacob Robinson, Lynn Seelye, Glen Wasylewski and Kim Wilson. 11th Grade - Jeff Bragg, Kristy Burkhardt, Jennifer Conklin, Christine Jarema,

Linda Koeman, Anjanette Massey, Kelly Payton and Pam Skop. 12th Grade - *Beverly Howard, Joseph Kondrat, *Chanda Randstadler, *Renee Reynolds, *Chad Robinson, *Lisa Topolinski and *Lisa Winhusen.

Falls Star Awards earned

Star award winners were named at the Boyne Falls School Monday for this school year. The awards were started this year to recognize those students who achieved high grade point averages of nine or higher on an eleven point scale, along with school attendance of 95 percent or higher, cannot receive over two detentions during the school year and

the maintaining of five out of six academic courses within the year.

Students will receive a certificate of Achievement, a Boyne USA/Boyne Falls honor shirt, gift certificates from local merchants a parent luncheon and a weekend ski pass to Boyne Mountain.

Those honored from the ninth grade include Ryan Giem

and Missy Massey. From the tenth grade: Claudine Crego, Linda Dowson, Robert Hausler, Nicki Kerridge, Jacob Robinson and Glen Wasylewski.

From the eleventh grade the first semester winners included Jenny Conklin, Chris Jarema and Linda Koeman. In the twelfth grade: Joseph Kondrat, Chanda

Ranstadler, Renee Reynolds, Chad Robinson, Lisa Topolinski and Lisa Winhusen were the winners.

Those students with a 10.5 or higher grade point average will be getting honor sweaters as well as the other prizes. Those winners included Giem, Reynolds, Topolinski and Winhusen.

Fanning goes to state

Although the big guns of high school skiing took home all the marbles at the regional ski meet held last Thursday at Schuss, Boyne City's Todd Fanning showed he could finish with the big boys when he skied to a third place in the slalom event.

Boyne City's boys' team finished in sixth place in the 17 team match up, while the Boyne girls finished in seventh place.

Fanning led the team, finishing the slalom in 50.92 seconds. He was followed by Shane Baxter in 24th, Derek Smith in

37th, Jamie Coon in 51st, Kevin Beebe in 73rd and Pete Smith in 82nd. All of the boys finished, which helped the team towards their sixth place.

In the giant slalom, Baxter came in first for the team finishing 25th. He was followed by Pete Smith, 38th; Beebe, 39th; Derek Smith, 41st; Coon, 63rd and Fanning, 81st.

For the girls, Trish Fanning was the first finisher for Boyne City taking the 20th place followed by Coleen Toton in 52nd, Girl Scout cookie

sales to begin

The annual cookie sale is a major source of funds for local Girl Scout troops and for Girl Scout activities throughout the eleven counties of the Crooked Tree Girl Scout Council. The sale teaches girls about marketing, selling, distribution and finances.

Girls will begin taking orders for a two week period from February 27 to March 14. Cookies will be delivered after April 12.

Putting a rebound back up for two points is Bo Williamson (32) of the Boyne City freshman basketball team. Williamson is currently one of the most improved players on the team this year.

Char-Em screening clinic slated

There will be a developmental screening clinic for all children who will be entering kindergarten in the fall of 1988. This clinic is sponsored by the Charlevoix-Emmet Intermediate School District. The purpose of this clinic is to provide information

regarding normal child development, an opportunity to interact with parents of other three year old children, and to have your child informally screened in order to identify any potential learning difficulties which may arise during the school years. This is a free

service with appointments made on a first come, first served basis.

The clinics are scheduled as follows: Boyne City/Boyne Falls, on March 11, 1987 at the Presbyterian Church, Park Street, Boyne City. East Jordan on April

29, 1987 at the East Jordan Elementary School, 304 Fourth St., East Jordan.

(This will be the last screening for the 1986-87 school year.)

If you are interested in attending the above clinic, contact Pat Gauthier, 547-9947.

Skier/chefs prepare for region's first Grand Marnier Race

On Sunday, March 8, more than 100 chefs and restaurateurs from Cleveland to Kalamazoo will put on a most unusual ski racing uniform — chef's jacket, toque blanche (tall white hat) and apron—to compete in the first Midwest Regional of the Grand Marnier Chefs Ski Race at Boyne Highlands, Michigan. The giant slalom race will be held on the NASTAR race course upslope of the Boyne Highlands base lodge, from 10 a.m. to approximately

3 p.m. Spectators are welcome.

One of the nation's most popular, colorful and uninhibited amateur sporting events, the Grand Marnier Chefs Ski Race was conceived in 1975 at New York's Hunter Mountain. There, about two dozen top New York chefs, outfitted in the eccentric racing uniform, competed in honor of noted colleague Jacques Pepin, who had been injured in a car accident. The original racers included New

York Times food columnist Pierre Franey ("The 60 Minute Gourmet"); Andre Soltner, owner/chef of Manhattan's prestigious Lutece; and Jacky Ruette, the dynamic sailor-turned-restaurateur who conceived of and organized the event.

Twelve years later, the race has grown from 25 intrepid racers to more than 1,000 competitors in five regional events nationwide, attracting the finest—and fastest—chefs,

restaurateurs, cooks, pastry chefs, caterers, culinary students, instructors and other food professionals from Maine to California. Entrants cover the range of the culinary spectrum—from country inns to country clubs, from elegant urban eateries to home-style family restaurants.

Despite the whimsical racing uniform, the Grand Marnier Chefs Ski Race is a serious slalom competition following NASTAR guidelines. Entrants are divided

into five age categories for men (21-30; 31-40; 41-50; 51-60; 61 and over) and three for women (21-34; 35-40; 41 and over). After morning trials, the top four finishers in each male, and top two in each female, category compete toque-to-toque in afternoon dual slalom finals, with age handicapping.

The Midwest Regional will follow the pattern of all Grand Marnier Chefs Ski Races: a day of competition and camaraderie on the

slopes, capped by an elegant apres-ski award banquet at the Boyne Highlands base lodge, prepared by Boyne executive chef Roger Cooley.

After toasting chef Cooley's lavish "Taste of Michigan" buffet with a round of Grand Marnier, skier/chefs will learn which eight racers—the top five men and three women representing each age group—will win all-expense-paid trips to compete in the Grand Marnier Chefs Ski Race finals at Taos Ski Valley, New Mexico

April 1-5, 1987. There, the eight Midwestern finalists will compete against teams from the Rocky Mountain, Mid-Atlantic, New England and Far West Regionals for the unique title: Fastest Chef in America. The National male and female winners will also each receive a \$9,000 Rational Combustion Oven Steamer, considered the "Rolls Royce" of professional ovens.

Americans find Searchmont is mountain skiing

BY JIMSILBAR

How many years have you been a skier? Do you remember the good ole times back in the early sixties when you didn't have lift lines? Do you remember watching your favorite ski area develop as the crowds continued to grow?

And now, you can't find your way to a decent place to change out of your after-ski boots because you are afraid to just leave your stuff in a corner like you used to be able to do years ago?

If you are a lot like that, then you may enjoy doing what a group of local skiers did this past weekend.

They got away to a foreign country that is only about two hours from here to do some mountain type of skiing that is just like the old days.

They went to ski Searchmont, located just 20 some minutes north of Sault Ste. Marie, Ontario.

Although the ski area has been around for several years, this is the first year the area has really tried to attract skiers from the states, and according to the area management, they are getting quite a few from our area.

When asked why, they say the folks are

friendly, talking to you on the lifts, to "It's just different than skiing the Boynes."

It is different. First the hill has over 700 feet of vertical which makes the runs all about a mile. The slopes vary from wide open to runs like you would have out east with narrow trails. There is a lot of intermediate terrain, that is where the wider slope is, to a few heartstoppers that were part of the original ski area.

Did I say original ski area? The place was constructed back in the fifties, but has had differing ownerships through the years as each has tried to make money without putting much into the hill.

But with the new ownership that took over this fall, it looks like the area will be busting out of the day area classification.

J. J. Hillsinger, the leader of a group of investors from the Soo area, put together about a million dollars, got a government loan of about five million more and has started to put the ski area into the shape where they think it will start to attract tourists from the states and the area.

The new group took over about the

Driving to the Searchmont ski area makes one think of driving through mountain passes with thousand feet cliffs facing you. The drive to the ski area gives you the

feeling of being out in the big mountains as you go by many stone outcroppings on the winding road along the way.

first of September and have done wonders in a short time to opening of the season last December.

The first thing the group did was to hire "Group Delta" a ski hill engineering firm from Ottawa to do the design work for the ski hills and a ski village.

Then the local group placed an order for a new triple chair lift, started cutting a new intermediate slope to be served by the lift, and started

the process of figuring out what snowmaking system they wanted.

They brought in Jim Dilworth, the area manager of Nub's Nob and a world reknown snowmaking system designer, but ended up using something different than what Dilworth suggested.

They decided to put in a conventional air-water system and ordered the piping and

Searchmont mountain skiing

Continued from Page 2

material on the first of October. Workers started immediately, working on the lifts, the slopes and the snowmaking system all at the same time.

When the snows started falling in November, the management thought they might not be able to have all of the ground work done in time for ski season, but the crews managed to make the start of the season just before Christmas.

The snowmaking system uses water piped three quarters of a mile from the Goulais River before it is pumped up the hill and made into snow.

According to Hillsinger, the owners are going to put the money into the hill first, to make the resort better for skiing

before they start tackling some of the other parts of the development plan like the ski village.

"We have started a five year project," he said to a group of people attending a seminar Monday, "so we will be making major improvements each year."

What is planned slopeside is the development of an entire new hill that will add several additional runs, new lifts to serve the new hill, finish the snowmaking so it covers the entire area and add about 25 kilometers of cross country trails.

If the area management team tackles those parts of the development with the same zeal as this year, they could all be done this summer.

But the important thing is skiing. All of

the management team are skiers, although of different abilities. One investor in the area said that last weekend was the eighth time he was on skis and could now tackle almost any slope. He did admit to being a hockey player for many years and some of the ability on skates has transferred over to his newly found sport.

The area looks like a ski area of your memories, but that is due to change fast as they make the changes.

Hillsinger says the area will be known as the Mountains of the Midwest.

Although the vertical amount of feet available does not make a mountain, the surrounding terrain looks like you are skiing in the mountains.

Even the drive to the ski area seems like you are going through mountain passes as you see lots of vertical rock cliffs along the river side road that you take off of Highway 17 North. The drive to the area is impressive in itself according to some of the downstaters who made the trip into the area.

Those wishing to take the famous Algoma Central Railroad trip will see the same as the road parallels the railroad for much of the trip. Area personnel say they are going to suggest the railroad make a stop to let off skiers who may come from the city each day.

The typical skier going to the area, falls into the intermediate level classification, only because the area has not been able, until this year, to promote skiing for citizens. Sault Ste. Marie, Ont. is a city with about 100,000 people living in and around it.

For many years, hockey was the mainstay of activity in the winter, along with

curling and ice fishing as other outdoor activities.

For most of the Americans heading to slopes, though, the big attraction seems to be the amount of vertical the area offers, along with the longer runs. Of course the money differential, currently at 30 cents to the

American dollar, is another big reason to travel an additional couple of hours.

But don't plan on staying at the area. At this stage, they don't have any lodging facilities at the hill, but there are lots of motels in the city. Some, like the Water Tower Inn, have a

shuttle bus that will take you out to the slopes. And city busses are starting to make the trip, too, arranged by an area ski shop.

All in all, it is not skiing out west, but it is a lot closer than western skiing, a lot cheaper, thanks to the dollar difference, and

in a foreign country where they even speak a different language. Oh, it's English, but you do hear a lot of people speaking it with the delightful Canadian accents.

After you ski the "Big Three", and may want to try something

Continued on Page 5

Enjoying the spring sun are skiers at the base lodge of Searchmont. A group of Petoskey and Charlevoix skiers were there this past weekend and said they enjoyed the area.

Grand Marnier Race has grown because it gives some

Searchmont

Continued from Page 4

else, Searchmont may be what you are looking for, but look fast, because the area is developing quickly and some of the smallness may turn up missing as the area grows.

While every beginner is a snow bunny, we caught a real one as this youngster negotiates one of the obstacles at a winter carnival.

of America's most hardworking men and women a chance to get out of the kitchen, share some friendly competition, and have a lot of fun. One of the ground rules of the Grand Marnier Race is that **everyone** comes away a winner, no matter what the racer's age or skill.

To reinforce this essential principle of fun, the award banquet also includes an extensive lottery drawing, in which skier/chefs have a chance to win donated prizes—skis and accessories, vacations, culinary equipment and dinners for four—regardless of their standing in the race.

This year several new and offbeat prizes have been introduced, to honor racers with more spirit than speed. These will also be awarded at the apres-ski banquet: *The Grand Marnier Golden Egg Beater Award—for the best crash.

*The Battered Sauce Pot Award—for courage in the face of alpine adversity.

*The Spice If Not Speed Award—A hot pepper wreath for the skier/chef who most exemplifies the spirit of camaraderie and

enthusiasm that is the hallmark of the Grand Marnier Chefs Ski

Race. *A chefs Coat Fashion Award—for the most

wildly decorated to the finals in Taos Ski Valley as a spectator. The winner will be awarded a trip.

THE KEELHAULERS

Most turtles deserve their timid reputations, hastily withdrawing their heads, feet and tails into their shells at the slightest sign of danger. But, according to National Wildlife magazine, this act of cowardice has paid off. While more aggressive reptiles, such as dinosaurs, have died out, turtles have thrived for some 250 million years on every continent but Antarctica. Maybe the dinosaurs would still be with us today, if they, like the turtles, had carried their homes with them.

THANK YOU FOR SHARING IN OUR DREAMS.

It is impossible to thank everyone for the support given to the 1987 Jimmie Heuga USA Express at Boyne Mountain on February 11, 1987. You helped raise over \$10,000 dollars. We

sense your committment to reanimate the physically challenged and we thank you for sharing in their dream to live healthy, active and fullfilling lives.

PHONE 1-705-781-2340

The locals and those in the know have been skiing Searchmont for 35 years. Now it's your turn, and to sweeten the experience we're adding a new triple chair and snowmaking to the area this season.

For 1987/88 (next season) we'll have a second double chair serving a whole new mountain, expanded main lodge and snowmaking over 70% of the ski area. Cross country ski trails will also be added.

Searchmont grew from the majestic terrain of the Canadian Shield, providing big mountain feel - more excitement, more vigor. Now we have 15 trails and a 700' vertical with the longest run over one mile.

Searchmont is 25 miles northeast of Sault Ste. Marie on the Canadian border at the northern terminus of I-75. We're 1 1/2 hours from the Boyne area, 4-5 hours from Detroit and about 6 hours from Grand Rapids.

Discover new skiing excitement with friendly, first-class accommodations and restaurants close by in Sault Ste. Marie.

I'd like more information on Searchmont.
