### Troop 49 wins Klondike Derby

Members of Boy Scout Troop 49 came home from the annual Klondyke Derby with a first place win among 15 other scout troops who also were involved in the Derby.

The boys from Troop 49 took the win by one point by scoring well in such activities as fire building without matches, first aid, a compass course, emergency shelter building and emergency snowshoe making using available materials found near the cam-

Because of the win, Boyne will be the host for the Klondyke Derby next year and members of the troop are already planning activities for the troops that will be attending. Members of the troop included the winning team of Gene Brooks, Jeremy McCutcheon, Jeremy Thayer and Robert Wozniak. Also attending the Derby was Wozniak's dog, Appol. Others in the troop helped celebrate the win at a meeting held Monday night in the Presbyterian Church.

# Boyne planners recind tax break moratorium

Boyne City Planners took a step back in time and changed their minds over the current moratorium that eliminated the breaks on downtown businesses.

The moratorium was approved last year when the planners decided that a business that closed after having been given a tax break should be reverted back to a full assessment. The planners thought that by eliminating the tax break, they were helping the city.

The idea has changed over the year as the businesses that closed have remained closed with no new business coming in or taking over the structure which has the abatement. The new thinking of

the planning body is that if they were to change the moratorium to a case by case basis, then perhaps the businesses could be sold or a new business could come into the community to occupy one of the empty buildings.

With that new thinking, the planners then agreed to remove the moratoriums on a case by case basis. They learned that at least one sale of a building was contingent on getting the transfer of the tax abatement and hope that several others may become active.

The planners then held a discussion about the creation of the new zoning classification to be called Waterfront/Residential. The intention of the new zoning district was to try to put more controls on the type of building that would be allowed in an area of the city surrounding the lake. The zoning would be applied to portions of the North Boyne area as well as several parcels on the south side of the city hall.

The new zoning would eliminate two-family residences and apply a height requirement of only 28 feet on any building within the zone.

In the discussion, City Attorney Tim Arner explained some of the pros and cons of creating such a

On the pro side, he told the planners, such a district could be used to control density of the area. It could also have language written to include asthetic values as well and could be used to help protect property values within the

The cons asked that if a new district were to be created, could have it been done under existing

zoning requirements? Arner then explained that the controls wanted by the planners could be done by changing the zoning of the area in question to a R-1 classification, which does not allow two-family duplexes or multiple use dwellings.

Arner also said that a new

classification could open the city up for potential lawsuits as the new classification has not been tried in other areas.

Board member Dale Parsons asked if an overlay for the city could be developed that would controls on heights

buildings that are close to the waterfront.

Another board member, Walt Coyle, told the rest of the planners that he would rather use what is on the books than set up a new district. Others questioned the See Planners/Page 2

### Boyne to start emergency repairs

With a permit in hand, Boyne City Commissioners agreed to hire C.H. Smith Company to do some emergency repairs to the riverbank in Old City Park where erosion over the winter has washed a large portion of the bank

The repairs were authorized several weeks ago when the commissioners were alerted to the growing washout problem by Commissioner Bill Grimm. Grimm asked to have the project, which has been undergoing investigation and planning for many years, moved up into an emergency project so that action could be taken to stop the erosion.

The bid for the project includes the installation of stones along the riverbank, some filter cloth and back fill which is all part of a temporary fix. The real project is supposed to get underway this spring when the bank will be filled and stabilized under a plan drawn by the Soil Conservation Service. That plan was approved for funding this year, although the city has been trying to get funding and the plans drawn for the past several years.

C.H. Smith is going to get the work started immediately, according to city officials.

The action was taken during the Tuesday noon meeting of the commissioners who also approved another change work order for

some of the infrastructure work that has been completed.

That change involves both a reduction on the part of one contractor and the addition to another. Part of the material and See Noon/Page 8

### Boyne Falls buys bus

Boyne Falls will be buying a new school bus for their fleet after action taken at Monday night's school board meeting. The bus will feature an International chassis with a 7.3 liter diesel engine and will have a 72 passenger Thomas body. The low bid for the equipment totaled \$36,217.

The board also hired a new teacher to replace Anita Kelly, social studies teacher, who left for another system. Hired was Charlevoix resident Jeff Reynolds, a December graduate of Central Michigan University.

Reynolds was chosen out of a group of 46 applicants and has a speech minor which will help out at the school system. He is currently the director of the Charlevoix

Historical Society and has a large interest in the history of the area.

The board also authorized the **Buildings and Grounds Committee** to release some of the funds the board has been holding back from the contractor who constructed the new classrooms and remodeled the gym for the school.

The money has been held pending the contractor finishing up some of the last minute items that needed to be done to complete the construction of the building. Some of the work will have to be completed when the weather gets better, but the board was happy to learn that the contractor was taking care of the problems and working to make sure they were

From this group of members of the Boyne City High School Snowball Court will come the King and Queen of the winter season at the high school. Members of the court include Andy Vondra, Jake Bernthal, san Karkosak and Hilary Bradford from the freehman class; Tim Fall, Scott Matthews, Kris Crosler and Christy McKenny from the

sophomore class; Gunther Fineout, Charlie Oelfke, Kelly Copeland and Jodie Johnecheck from the junior class; and Brian Adams, Matt Kerr, Daniela Pregmar, and Tammy Kossell from the senior class. The winners will be chosen at the school dance this Friday.

# News Briefs

Solid waste management and recreational grants have been awarded to Charlevoix County's WATCH group for a recycling education effort, St. James and Peaine Townships for the construction of a solid waste transfer station. The grants were announced last week by Sen. Mitch Irwin and were part of the \$3 million given out by the state for such projects.

Give the gift of life...the East Jordan High School and Community Blood Drive will be Thursday, March 1, from 10 a.m. to 3:45 p.m. at the high school band room.

Boyne City headed up the list of governmental units with the most building permits for the county in 1989 with 61 permits issued out of the total of 596 for the county. While most of the permits were for buildings on the western side of the county, townships around Boyne had their share. Eveline had 60, Melrose Township had 33 and East Jordan had 31. The Boyne City total was down slightly from last year but still totaled a value of \$2,378,525 that will be added to the tax rolls. The largest permit was issued for the Brooks-Dietze 32 unit tment addition.

This month commodity food distribution will include butter, peanut butter, green beans and canned pork. The distribution will be held February 28 throughout the county at the normal distribution sites of the Bovne City Community Services Building, the East Jordan Civic Center and the Charlevoix V.F.W. Hall. The sites will open at 9 a.m. but will close at noon or before if the food is given out.

A pre-kindergarten round-up is underway in Boyne Falls as the school officials are looking at preliminary plans for the next year. Parents with children 5 years old as of December 1990 are asked to call the school so they can plan room and grade assignments for next year. The actual Kindergarten Round-up will be held in

Also in Boyne Falls, Homecoming will be held this Friday evening at the basketball game between Ellsworth and the Loggers. The King and Queen will be crowned during halftime ceremonies. A homecoming dance will be held after the game.

Michigan Department of Transportation (MDOT) announced at a recent board meeting of U.S. 131 Area Development Association that they have overcome the series of problems which have held up the final public hearing in Cadillac concerning the route from the south side of Cadillac to Manton. The action will clear the way for final route selection and then surveying and land acquisition as the promised freeway slowly heads north. As to Charlevoix County, the freeway is still years away according to officials.

# **Obituaries**

#### FLORENCE C. BILLINGTON

Florence C. Billington, 84, of Flint, died Feb. 13, 1990, at Crestmont Medical Care Facility, Fenton.

Funeral was Friday, Feb. 16, at the Stackus Funeral Home, Boyne City. The Rev. Charles Stoppels, retired Presbyterian minister, officiated and burial was in Maple Lawn Cemetery, Boyne City.

The former Florence C. Livingston was born July 16, 1905 in Boyne City, the daughter of Duncan and Ida Cook Livingston. She grew up in Boyne City and on June 28, 1928, she married Ivan Billington. They moved to Flint where Mrs. Billington was employed by Fisher Body for more than 30 years, retiring in 1970.

She was a member of the Order of Eastern Star No. 138 in Flint; the Temple Shrine No. 28, Flint; the Order of the White Shrine of Jerusalem in Flint; First Presbyterian Church of Flint; the Industrial Business Womens Retirees of Flint and the Knight Templar Auxiliary No. 15.

Mr. Billington preceded her in death in May, 1988. She was also preceded in death by a young son, Billy Gene.

Survivors include one daughter, Mrs. Bud (Geraldine) O'Brien of Grand Blanc; two grandchildren; two great-grandchildren; one brother, Don Livingston of Clio; one sister, Virginia Burns of Boyne City.

#### **MYRA L. KURTZ**

Myra L. Kurtz, 81, of Boyne City, died Feb. 15, 1990, at Little Traverse Division of Northern Michigan Hospitals.

Funeral was Saturday, Feb. 17 at Christ Lutheran Church, Boyne City. The Rev. Kenneth Bernthal officiated and burial was in Maple Lawn Cemetery, Boyne City.

The former Myra L. Leist was born Jan. 16, 1909 in Horton Bay, the daughter of John and Hazel Leist and had resided in Northern Michigan her entire life.

She worked at the Boyne City Bakery and Herrick's until her retirement.

She married William F. Kurtz in Boyne City and he preceded her in death in November, 1977. She was also preceded in death by two sons, Floyd and Robert and one brother, Ralph. KURTZ

Mrs. Kurtz was a member of

Christ Lutheran Church, the

Laugh-a-Lot Club and was an avid

bingo player and gardener.
Survivors include four daughters, Mrs. Clifford (Sally)
Lagerman of Traverse City, Mrs.
Jack (Jane) Myers of Pellston, Mrs.
Marvin (Kay) Bixby of Petoskey and Mrs. Robert (Judy) Bryan of Boyne City; 18 grandchildren; 20 great-grandchildren; two sisters, Laura Eggers of Boyne City and Ruby DeNise of Boyne City; two brothers, Charles of Horton Bay and Albert of Texas.

The family suggests memorials to the Renal Dialysis Unit at Little Traverse Division of Northern Michigan Hospitals. Envelopes for that purpose are available at the Stackus Funeral Home.

#### ORVIS L. LYONS

Orvis L. Lyons, 76, of Boyne Falls, died Feb. 18, 1990, at Provincial House, Gaylord.

Funeral was Tuesday, Feb. 20, at Christ Lutheran Church, Boyne City. The Rev. Kenneth Bernthal officiated and burial was in Boyne Valley Township Cemetery.

Mr. Lyons was born Jan. 31, 1914, in Boyne Valley Township, the son of Ernest and Viva Lyons. He has been a lifelong resident of Boyne Valley Township.

During World War II, Mr. Lyons served with the military in the European Theater. He married the former Helen Lick on March 16, 1946.

Mr. Lyons was a lineman for Top O' Michigan for more than 28 years, retiring in 1973.

He is survived by his wife Helen; one daughter, Mrs. Alan (Gisele) Massey of Boyne Falls; five grandchildren. He was preceded in death by one sister and one brother.

The family suggests memorials to Christ Lutheran Church. Envelopes for memorials are available at the Stackus Funeral Home, Boyne City.

### **Planners**

validity of the aesthetic reasons standing up in court.

Continued from Page 1

Arner was then directed to rewrite some of the R-1 classification to allow for lower building beights along the waterfront and view areas of the city and bring that back to the planning board for the next meeting in March.

In other action, the board recommended to the City Commissioners that a 70 foot by 16.5 foot portion of an alley be vacated as per a request of Lance Johnson. Johnson asked that the alley be vacated so that he could possibly add an addition to his home on Grant Street. The alley is located between Pine and Cedar Streets and starts at Gant Street and ends after going down a steep hill at Mud Lake. The property owners

have maintained the alley and have agreed with Johnson that it be closed.

City management also agreed that the alley could be closed and gave their approval. The matter, with the recommendation for closing, will now go in front of the City Commission for final okay.

The planners then accepted a letter of resignation from Leigh Woodbury, Chairman of the Planning Board, as he said in a letter that his position with Wolverine Power is taking him away from the time necessary to do a good job with the planning body.

The planners then asked if there was anyone interested in participating with them to help guide the city development. Those who are interested are asked to contact the city hall.

Century 21 Kowalske welcomes Mark and Paula Selonke to our

business community.

Congratulations on your recent purchase of Barnes Motors Service Center, now known as Selonke's Service (located at 01875 S. M-75.) Bob. Winters and Mark Kowalske would like to thank both the Selonkes and the Barnes families for allowing us to work in your behalf. It's nice to have you with us.

# East Jordan students compete in National Geography Bee

Ryan Hoeksema was the winner of the East Jordan Middle School Geography Bee. The school bee, held on Feb. 7, was sponsored by the National Geographic Society, and was open to all Middle School students.

Ryan, an eighth grade student, then took a written test administered at the middle school. One hundred students throughout

Ryan Hoeksema was the winner the East Jordan Middle School pete at the state level, based on their written test scores.

Michigan will be selected to compete at the state level, based on their written test scores.

This is the second year the National Geographic Society is sponsoring the National Geography Bee. More than 30,000 schools are expected to participate. The national champion will receive a \$25,000 college scholarship.

### Developmental Screening Clinic

There will be a three year old Developmental Screening Clinic for all children who will be entering kindergarten in the fall of 1991. This clinic is sponsored by the Charlevoix-Emmet Intermediate School District. The purpose of this clinic is to provide parents information regarding normal child development, an opportunity to interact with parents of other three year old children, and to have your child informally screened to identify any potential learning difficulties which may arise during the school years. This is a free service with appointments made on

The clinics are scheduled as follows:

For the Boyne City and Boyne Falls school districts on March 14, at the Presbyterian Church, 401 S. Park Street, Boyne City. For the East Jordan school district on April 11 at a location to be announced.

If you are interested in attending the above clinic, or reside in a district other than the ones listed above, please contact Pat Gauthier, 547-9947, at the Charlevoix-Emmet Intermediate School District for an appointment or for further information.

This clinic is free of charge.

### Casting call for 'Hocus-Pocus'

Auditions for "Hocus-Pocus" will be held from 10 a.m. to 4 p.m., Saturday, February 24 at the Jordan River Arts Council building, 301 Main Street, East Jordan.

a first come, first served basis.

Ages for the seven men and six women case members may range from high schoolers to senior citizens. Characters are:

• Joshua Hope, a flashy, fun-loving hypnotist

Nypnotist
 Vicki Hope, his over-worked receptionist and cousin

# **Neighbors**

Marilyn Thayer and her sister Sinia Burns left on Saturday for Flagler Beach, Florida, for a three week visit with their mother, Mrs. Laraine Robinson. Mother and daughters will be returning home around the first of March.

Sam and Evelyn Chipman accompanied his parents, the Allie Chipmans, for a three week vacation to Tempe, Arizona. All have returned to their homes safely this past Saturday night.

Last Sunday night the Lions and Rotarians and spouses enjoyed a Valentine's Sweetheart dinner dance at One Water Street.

Another Valentine's Day get

Another Valentine's Day get together was held on Saturday night by the Antique Auto Club of America. A great time was had by all.

Last weekend Brian Kelsey of Otisville spent the weekend here visiting his sister and brother-in-law, Janelle and Bob Pawlus. This past weekend, Bob's brother Steve and Pat Pawlus arrived from Westland to spend a few days visiting them in the sunny but cold Northland.

Cal and Mary Rich of Sanford were here visiting his cousins Don and Hope Hayden and to attend a family wedding, that of Richard and Glenda Clark, which was held at the Missionary Church in East Jordan last weekend. Mr. Hayden has recently returned from a trip to Los Angeles, Calif.

Otis Lyons passed away on Sunday morning. At this time funeral arrangements are pending.

The Northern Slopes Farm Bureau met on Saturday night with 16 members present at the home of Arlene and Ed Korthase. The topic for discussion for the evening was "no fault insurance", mainly concerning passing a law for lower rates. Plans were made to invite a Farm Bureau insurance agent for the next meeting. Delicious refreshments were served by the hostess.

Henry and Donna Erber, their daughter Pam and her friend Pat Weeks, Steve and Tammy Ryder, and Penny and Woody Hardy, enjoyed dinner out, in celebration of Henry's birthday on Friday night.

Amii and Mark Husak and son Nikolas were here recently from New Orleans for a two week visit with her parents, Mr. and Mrs. George Lasater.

Many relatives and friends attended the funeral of Myra Kurtz on Saturday and also the luncheon which followed at the Christ Lutheran Church.

On Sunday afternoon Evelyn Dodds and Jean Korthase attended the annual Charlevoix-Emmet Credit Union meeting held at the Edgewater Inn in Charlevoix. Throughout the afternoon, many door prizes were awarded (Jean won \$10!) and delicious refreshments were served.

Don Hull Jr. entered Northern Michigan Hospitals as a surgical patient (appendectomy) on Sunday. The Bergmann Center held its

annual Valentine's Day party on Wednesday. All enjoyed exchanging valentines and other fun. Hoskins Manufacturing supplied a beautifully decorated cake and ten gallons of ice cream for the center. The client/workers of Bergmann Center have cleaned the plastic spools, around which Hoskins wraps its wire, for 15 years. As a special memento of the day, students of the Center's high school class and the Poloroid 600 program, put together a

Valentine card of red hearts and centered it with Polaroid pictures of the beautiful cake and the ladies who delivered it and students who took the pictures of the happy Valentine's day!

A baby shower honoring mother-to-be Jami Nelson was held this past week at the home of Pam Penny. Many relatives, friends, and co-workers enjoyed the evening of the usual baby shower fun and the guest-of-honor received many lovely gifts. Refreshments were served and the evening was co-hosted by Jami's co-workers. Jami and her husband Tim Nelson are awaiting the arrival of their first child.

Scores of this past week's Boyne senior bowlers were: Celo Davis 531, Pros Blanckaert 472, Jean Marcham 458, Jan Krussell! 421, Jack Krussell! 392, Nyle Gould 357, Ardyth Dorgan 313, Norm Kruger (2 games) 219

Bingo winners on Thursday at the mealsite were: 1st regular-Eleanor Adams, 2nd-Jenny Jodway, and 3rd-Leona Griffen. The specials went to Mary Towne and Evelyn Stebbins, respectively. The cover all was won by Mary Towne and all games were called by Lovable Lyle Ross. All those at the center are missing cheerful and kind Goldie Harrelson, who is battling courageously in her illness at the Charlevoix Area Hospital. Yea Goldie!

On Thursday evening, a group of about 12 ladies of the Trinity Fellowship Church and friends honored Tami (Hull) Jensen with a baby shower at the home of Denielle Moose. All enjoyed games, especially one that requested everyone to come up with an unusual name for the baby. Refreshments were served and Tami received many lovely gifts. Tami and Rob Jensen are expecting their new arrival in April.

Thought of the week: February..the winter blahs got you down? Stretch your patience and imagination..visualize beautiful sun rises and sunsets...the earthy smells of spring...chirps of birds...warmth and blue skies, It all will soon be here!

# Boyne Falls woman is raffle winner

A Charlevoix County resident is among seven winners of a Holiday Raffle sponsored by Michigan Home Health Care.

In a drawing Jan. 24, Mary McNamara of Boyne Falls won \$100 in groceries at any Glen's Markets location.

Other raffle winners and their included Margaret prizes Hildebrandt of Traverse City, a weekend for two at the Grand Hotel on Mackinac Island; Ralph Greive of Traverse City, Sunday brunch and golf for four at Gaylord's Hidden Valley Resort; May Donner of Traverse City a Grand Traverse Get-Away furnished by Days Inn of Traverse City and Manitou Island Transit of Leland; Charles Mosher of Lake City, bed and breakfast at Stafford's Perry Hotel of Petoskey: Pam Wilson of Farwell, \$100 in groceries at Prevo's Family Markets; and Cheryl Talford of Thompsonville, a Manistee fishing excursion with Z-Boat River Guide

Service. All prizes were donated.

The raffle raised nearly \$2,000 for Michigan Home Health Care, a non-profit agency which provides skilled nursing, therapy and home health aide services to residents of 33 Northern Michigan counties.

### Letters

### Willing to risk your child?

At the risk of being accused of beating a dead horse I think a follow-up on my letter dealing with the "Wimp" and the Panamanian invasion is in order.

I received many phone calls, letters and cards and personal comments on this particular letter. Most agreed with it and a few did not. It is this few that I wish to address this letter to and set forth a

No. 1 We now have Noriega in jail. No. 2 He will be tried in our courts of justice.

No. 3 This trial will cost millions and may or may not find him guilty of drug dealing.

No. 4. If found guilty he may or may not go to prison.

No. 5 No matter what happens he will live and probably die of old age after a few years in prison.

No. 6 Anyone who thinks our having him in custody will reduce the use of drugs in this country is a fool. As long as we furnish a demand for drugs some one will find a way to supply them. That is gospel.

No. 7 We sacrificed 23 American lives for this man. We filled nearly 300 hospital beds-some may never recover - for this man. We killed hundreds—some sav

thousands-of innocent Panamanians and filled their hospitals for this man. We spent millions on this invasion. We must spend over two billion more on reconstruction. It will take years for the bitterness and shame to heal. It will take years for all the small Central American countries to really trust us again. There are many more facts and figures that can be cited but space prohibits.

Now I want to challenge the believers of this invasion to answer a few questions-right her in this letter box. Please, let's hear from you.

No. 1 Are you willing to stand up and be counted by saying "Here, take my son's life for Noriega." This question may seem brutally direct and you may want to call it unfair but it needs an answer.

No. 2 If not yours - whose? No. 3 Are you willing to name the other 22 and say take these for Noriega?

No. 4 Are you willing to personally OK the killing of hundreds of innocent Panamanians for Noriega? No. 5 Do you really think that all the sacrifices, all the suffering is worth having one miserable person in custody? If President Bush had offered the bounty hunters 100 million instead of a measly 1, he could have had Noriega's head served up to him right smack dab in the oval office, on a golden plat-

No. 6 Have you got the good old American guts to truthfully answer these questions and put your name on your reply?

All the people that support this invasion seem to think it was all right as long as it didn't affect them personally. They don't want to offer up their own son but won't even raise an eyebrow about the young man on the next street

To all of you who use the old bromide that says "War was ever thus", let me say this. It is time to change the rules and if we don't want our sons sacrificed in a senseless war, stand up and say so. Silence merely condones it.

To meekly accept the sacrifices as being inevitable is to renege on our responsibilities as responsible citizens.

Everett K. Sayles **Boyne City** 582-6683

### Vare-w

Sorority says thanks

Right off I'll admit that I've probably over-reacted a bit to a Detroit News article about the popularity of a feature in fashion, that being a field that I've always taken lightly if I've taken it in. or on, at all. But the favoring of putting puffy pads on women's shoulders bewilders me, even led me to believe that there's something beside fashion involved

Until now, I've noted, but not thought about, this illusory altering of the female structure, getting what clothes I need, or persuade myself I need, from mail order outlets that sell sporty not high fashion or trendy. Plumped up pieces aren't their style.

From this article I've learned that shoulder pads got popularized in the early '80s with designers Claude Montana and Norma Kamali putting them in casual clothes

This isn't the first time this century for pads, though. In the '30s and into the late '40s, they were big, movie star Joan Crawford getting the style going by wearing wide shouldered clothes, which, being beautiful, she looked great in. Millions of women followed her

Catching the end of that era as a teenager, so did I. In s stylish orangy yellow two-piece dress, complete with peplum, a plump Crawford style roll atop my forehead, I even posed for a picture. The picture's long gone, but

### Keep dogs leashed

BY REG SHARKEY

Dogs and deer don't mix!

Once again we are nearing the perennial dog-deer problem. Already, due to the accelerated late winter, early spring weather syndrome, complaints of dogs harassing deer are beginning to

As I write this column Emmet County Animal Control Officer, Jack Balchik, has had two complaints from the Levering-Carp Lake area. And over in the Boyne City area DNR Area Law Supervisor, Sgt. James Genc has also had a couple.

Snow conditions, after thawing and freezing, are made to order for free roaming dogs. The hard frozen surface will support dogs, but once deer get chased into the open, away from packed swamp yarding areas, their sharp hooves break through the crust and they become easy victims for dogs, be they pure breds or mutts.

In the years that I was with the Michigan Dept. of Natural Resources, and since retirement, I have found that mongrels seem to dominate the deer running canines for the simple reason that they don't seem to have the value of a thoroughbred bought with dollars. Most mutts are free dogs, often

manufactured by a free-running bitch, and the pups are given away just to get rid of them. After maturity their irresponsible owners could care less if they don't show up some morning. It's quite simple to acquire another free dog.

But be not mistaken, breeding and size makes no difference when the right opportunity presents itself. Even a fancy coiffed poodle, under the right conditions, will join a pack of deer-chasing dogs. It's the latent hunting instinct that all dogs are born with that must be

controlled by their owners.

It is my firm belief that if dog owners could witness what happens to a deer that has been run down by dogs, the pathetic, revolting scene would leave an indelible impression.

I witnessed just such a sickening scene some years ago when I was still with the DNR.

Driving to work one morning in early spring I came upon two dogs (mongrels) that had a doe down in a watery ditch alongside the road tearing flesh from around her anal area. Braking to a halt I bailed out of the vehicle, and as I did so the dogs took off.

Approaching the living doe, what I saw was heart-rending and sickening. The dogs had torn off

This dog was shot after trailing and killing this deer some years ago. Dogs who are set loose to track down deer are a hazard to the deer herd and good game management.

large chunks of living flesh exposing the rectum and part of the hip joint.

Unable to leave her in her misery I went to my vehicle, got a tire iron from the trunk, went back and administered a merciful coup de grace.

It was hard for me to forget the incident; and to this day every time I hear about dogs running deer I have a flash back to that early spring morning.

Conservation, or any other law enforcement officer, has a legal right to shoot dogs running deer. And they don't relish doing that

But there is a recourse they have that came into being a few years ago that can cause irresponsible dog owners inconvenience and money.

First, however, all dog owners can be fined for letting their dogs roam freely off their property. A leash law accounts for that. All dogs not confined to owners property must be leashed. And if they don't have a valid license that will be another fine. And I believe the mandatory rabies shot is part of the license and fine.

Then, as intimated previously, this is the shot that really hurts. The cost of a deer destroyed by a dog, or dogs, is assessed to owner(s). It can be one grand! That's a thousand (\$1,000) dollars!

So, dog owners be governed ac-

# Boyne area builders enjoyed volunteering time

"It was the greatest experience of our lives" said Woody. Hardy and Nord Schroeder last week after they had returned from a two week trip to Puerto Rico where they helped to reconstruct some of the homes that were damaged by Hurrican Hugo with its 150 mile an hour winds.

The two Boyne City men, along with Bay Township resident Dave Skornia, Tim Leach from East Jordan and Jim Herrington from the Lake Louise Methodist Camp in Hudson Township, joined 23 other contractors and carpenters as part of Project Hope, a program of the Little Traverse and the Grand Traverse Bay Home Builders Associations who volunteered their time and equipment to help the small island nation, leaving January 29th and returning February 12th

About 3600 homes were damaged on the east side of the island, with about 2,800 still untouched or unrepaired said Schroeder.

The volunteers met at Traverse City to leave for the trip and car caravaned to Detroit where they walked onto a plane for the trip south. The all took their own tools and equipment for the two weeks they were to be on the island.

After landing, they were transported to the eastern tip of the island to a community called Ceiba, which covers a territory about the size of half of the county.

Although they came home with nice tans, they didn't get them from lying out in the sun as most tourists do when going to a Caribbean island. The men worked from 8 a.m. to 6 p.m. each day, out in the sun and the heat while they

some sightseeing. A typical day would start with a wake-up call in the school gymnasium where they were sleeping, at 6 a.m. Then the men had what Schroeder called an unusual breakfast, many times a ham and cheese sandwich or a submarine sandwich made with a dry french bread instead of bacon and eggs or pan-After breakfast the men were

repaired the homes.

The men were broken down in-

to small groups, Schroeder and

Hardy and Skornia were in the

same group, and ended up

repairing or reconstructing seven

houses. The entire group fixed up

the exception of Sunday when no

work was allowed. That was when

the men had some leisure time to

do what tourists do and get in

The men worked each day with

20 homes during the two weeks.

transported to a site where they were told what had to be done, like replacing a roof or straightening up the walls for the homeowner. Every two days the work crew was at a different site doing a dif-

The sites were decided upon by special committee of Puerto Ricans and the Mayor's office as well as the availability of Federal **Emergency Management Agency** (FEMA) approvals.

The materials used by the work crews were purchased by the homeowner from local sources after the FEMA officials had decided on the cost and issued checks for the lumber, cement and other

Temperatures daily went up into the 90s and the crews had to cope with sun and other hazards as they worked during the day. When they came back to the gym, they almost all went in to take a cold shower as hot water is a rarity in the islands. All of the meals were taken next to the gym in a community center building.

When the men first arrived in the city, many of the locals had reservations about what they were there for, but after a few days of work, the word spread around and the men were nicely treated throughout the two weeks.

the area of Ceiba, located on the eastern shore of the Members of the first group of northern Michigan carpenters and contractors who volunteered their time to go to Puerto Rico to help rebuild some of the homes in

"They appreciated us coming in to help them," said Schroeder, "and they couldn't believe we were volunteering our efforts.'

The area is not a rich one in terms of money. The average family only has an income of about \$4,000. The mayor of the city with about 16,000 people only earns \$8,000 per year.

The city is located in a valley and is on the eastern tip of the island. Just outside of the city limits is the Roosevelt Woods U.S. Naval Base. The two remarked they were awakened each day by the jets on the base warming up as the airmen took off daily for some

One of the interesting things the men learned was how the homes were constructed on the island. The foundations were just concrete blocks that followed the contour of the terrain and were not necessarily level. When the proper height was gained, a concrete slab was poured to level out the first floor of the home. Other differences included not having a blueprint to work from for the work being done. Another was that the roof trusses were set on varying distances, from 40 inches to 60 inches instead of the 16 inch span used locally.

Although the men worked daily, enjoying what they had accomplished, they had to wait until Sundays to see what the rest of the island was like. One trip they made took them to the rain forest that was about a half hour away from the town of Ceiba. They spent several hours in the forest. looking at the many different varieties of plants. Another trip Sunday took them on a tour of the island. They left at 6 a.m. and were driven around the island, not getting back until nightfall. While on the trip, the group saw some caves that were dug out of the coral stone years ago by the native indians. They saw native indian painting from centuries ago at the bottom of the 70 foot holes

the indians had dug out. They also saw the many plantations for bananas, one of the fruit crops that was really hit by the hurricane, sugar cane plantations as well as pineapple and other fruit

growers' farms. They did get to spend some time on a beach, though, about an hour or two while they waited for a bus to pick them up.

The entire trip is filled with memories for the men. Memories of the people they worked with, or met, to the experiences of recon-

### In Service

Navy Seaman Recruit John P. Browe, son of Tom W. Browe of Charlevoix, has completed recruit training at Recruit Training Command, Great Lakes, Ill.

During Browe's eight-week training cycle, he studied general military subjects designed to prepare him for further academic and on-the-job training in one of the Navy's 85 basic fields.

Browe's studies included seamanship, close order drill, Naval history and first aid. Personnel who complete this course of instruction are eligible for three hours of college credit in Physical Education and Hygiene,

struction and what they did after area service clubs and other working all day.

"It was an experience we will The builders' association plans remember for the rest of our to have two additional trips to the lives," said Schroeder, who last same area, one leaving February took a trip outside of the area in 20th while another in March. When asked if they would like to 1980. The two took 15 rolls of film go back again to help out with the to record their trip so they could reconstruction of the area, both show others planning to go on Schroeder and Hardy answered other trips what to expect. They quickly, "in a minute." will also be showing the pictures to

Woody Hardy watches as one other member of the northern Michigan crew pours out some cement to help firm up a foundation of a new structure that was on the list of homes needing work.

### **PUBLIC NOTICE**

### CITY OF BOYNE CITY

Closing of a portion of Alley
Pursuant to the rules and regulations as described in Ordinance A-42 - Street and Alley Closures, under the authority of Chapter 2, Section 2.3 (f) of the City Charter, notice is hereby given that a petition has been received to vacate a portion of an Alley located between Pine and Cedar Streets, bounded to the west by Grant Street and to the east by Mud Lake, located in the City of Boyne City.

Lance Johnson, 413 Grant Street has formally filed a petition to vacate said Alley. Alley measures 16.5' wide and has approximately 70' of usable length.

The Planning Advisory Board will meet Monday, February 19, 1990 at 5:00 p.m. in the Commission Chambers, City Hall, 319 North Lake Street, Boyne City, MI 49712, to take testimony and formulate a report for the City Commission on whether or not it is advisable to vacate said Alley.

If the Planning Advisory Board's report is favorable for closure, said matter will be referred to the City Commission to hold a Public Hearing on Tuesday, March 13, 1990 at 7:00 p.m. in the Commission Chambers, City Hall, City of Boyne City, MI, 49712, as to whether or not the alley should be closed. Should the City Commission pass a Resolution in favor of the closure, the matter will be filed with the Circuit Court for formal closure.

Additional details and a location map of the proposed closure will be available for review at the City Clerk's office during regular business

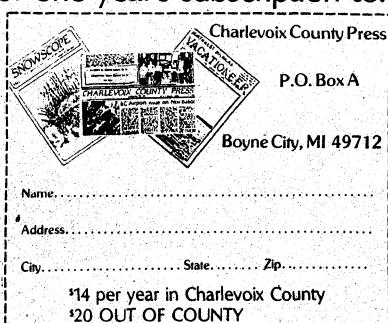

All interested persons are invited to attend the Public Hearing or the Planning Advisory Board meeting on this closure request or make their statements via letters or phone calls to the City Clerk. Phone (616) 582-6597 for more information.

### Boyne ski team doesn't fare well-

Hoyne City's ski team did not fare well in the regional competition held last Thursday after the skiers found themselves facing real World Cup snow conditions, icy and hard. The girls' team finished in sixth place while the boys took the 10th spot out of 17 schools. East Jordan ended up with their girls in 14th place while the boys finished 17th.

For the Boyne City girls, the day started off with two of the best on the team, Kelly Copeland and Christina May, disqualifying themselves by not following the tricky gate combinations, May on the first run and Copeland on the second.

Because of the team finish in the slalom, it was up to the giant slalom in the afternoon for the girls to redeem themselves. The others on the team finishing well in the slalom included Nancy McCullough who ended up in 14th place while April Silbar took the 20th spot. Hilary Bradford finished 30th, Kris Crozier

In the giant slalom held in the afternoon, Copeland came back for redemption and took the eighth spot and in so doing was the only Boyne City skier to advance to the state finals, which will be held at Crystal Mountain in two weeks. She was also the best skier for the team that day as May finished 14th, Mc-Cullough 17, and Bradford 31st. Danelle Baum finished 35th while Silbar rounded out the team finishing 69th after having to climb back up the hill to make a gate.

With the sixth place finish out of

### Loggers lose two last week

BY BECKY HAUSLER

Boyne Falls basketballers took it on the chin last week when they dropped both of the games with Leelanau St. Mary's on Tuesday and Alanson on Friday. The scores of both games

respectively were, 60-71 and 92-58. In the game with Leelanau, the

Loggers trailed by two at the end of the first quarter, fell further behind in the second, slipped even more in the third and finally never were able to catch up in the loss.

Taking high scoring honors for the Loggers were Chad Hanes with 22, followed by Mark Reynolds with 16 and John Burns with 10.

Against Alanson the Loggers got off to a bad start and then watched it get worse as they lost by over 30 points. They could only hit for six points in the first quarter, 21 in the second and had another low 12 after the halftime break. They hit 19 in the fourth quarter, two more than Alanson's production, but still lost the game when

the cumulative score was posted. Rvan Giem took the scoring honors with 18, Reynolds hit for nine while Hanes had eight for the evening.

The junior varsity did just the opposite in their games, taking wins from both Leelanau and Alanson. The jayvee squad is 9-2 in the league and 13-3 overall.

R8W, Charlevoix County.

Telephone: 517-335-4124.

the most powerful region of state for skiing, the girls shouted wait till next year as almost all of the team will be returning for competition.

Copeland was the only City skier to represent Boyne City at the State High

In the boys races, Dennis Moore finished the best for the team, taking 33rd in slalom and a 26th in the giant slalom. Other finishers for Boyne included Derek Baum in 35th and 48th in slalom and GS, Chris McKenny 61st in slalom and 54th in GS; Dan Polleys 70th in slalom and 47th in GS; and Richard Hartwell with a 76th in slalom and a 69th in GS.

·For East Jordan girls, Julie Burnett took the 49th spot for the slalom while Julie Healey in 54th spot finished the best for the GS. For the boys, Damon Bluhme finished in 51st and 73rd spots for the slalom and the GS for their best

Now skiing for Petoskey, Walloon Lake transfer student Trish Fanning took the second place for the girls in the Giant Slalom and finished seventh in the slalom.

East Jordan's Andy Malpass tries to go over Boyne City defender Eric Smith in the game between the two county neighbors. Boyne went on to win keeping their winning record streak going.

### Rusty crayfish not wanted

To protect native Michigan crayfish species from over competition and displacement by spreading populations of rusty crayfish (Orconectes rusticus), Director David Hales of the Department of Natural Resources (DNR) has issued an order prohibiting the sale, possession or taking of rusty crayfish for commercial purposes in Michigan.

Date: February 23, 1990 Permit No. MI0003158

Medusa Cement Co., Charlevoix

**PUBLIC NOTICE** 

The Michigan Water Resources Commission proposed to reissue a

discharge permit to: Medusa Cement Company, P.O. Box 367,

Charlevoix, Michigan 49720, for a facility located at Bells Bay Road,

Charlevoix, Michigan 49720. The applicant is engaged in the manufac-

ture of portland cement and the mining of limestone. The applicant

discharges treated sanitary wastewater, noncontact cooling water,

cooling water from cement coolers, treated quarry dewatering

water, stormwater runoff, raw materials storage area runoff, and

groundwater seepage to Lake Michigan, in Sections 28 and 29, T34N,

previously issued permit: Two new outfalls have been added to the

draft permit. The permittee will monitor contact cooling water from

the cement coolers at internal outfall 00B. North raw materials

storage area sump water and groundwater seepage will be monitored

Comments or objections to the draft permit received by March 28,

1990, will be considered in the final decision to issue the permit. Per-

sons desiring information regarding the draft permit, procedures for

commenting, or requesting a hearing, should contact: Prudy

Wisniewski, Permits Section, Surface Water Quality Division, Depar-

tment of Natural Resources, P.O. Box 30028, Lansing, Michigan 48909,

Copies of the public notice, fact sheet, and draft permit may be ob-

tained at the Surface Water Quality Division District Office located at the Roscommon District Office, P.O. Box 128, 8717 N. Roscommon Rd.,

Roscommon, Michigan 49853, Telephone: 517-275-5151.

The draft permit includes the following modifications to the

This action, which becomes effective immediately and remains in effect for an indefinite period, is expected to significantly slow the spread of rusty crayfish populations throughout the state.

Studies confirm this non-native intruder, which likely was brought into Michigan waters as bait, outcompetes and displaces native crayfish species by its agressive nature and by consuming the more desirable aquatic vegetation native crayfish feed on and use for cover.

While the rusty crayfish has established itself in a number of Michigan's lakes and streams in the last several years, it is of special concern in Upper Michigan waters where aquatic plants are less abundant due to a shorter growing period for vegetation.

# Ramblers continue win streak by adding two more

Boyne continued its winning ways last week, marking up their eighth and ninth wins in a row, and increasing their season record to 15-2. Tuesday, Boyne visited their neighbors, the East Jordan Red Devils, and took home a 67-41 victory. Friday the Ramblers moved to Northport for their first meeting ever against the '88 class D state champs, and after a rough start blew open the game in the fourth quarter, winning 77-60.

Tuesday evening the Red Devils were looking to avenge a loss to the Ramblers that occurred earlier in the season. East Jordan held close for the first quarter, trailing

New sportsperson license

available until end of month

only 16-12 after eight minutes. But Boyne went on a defensive tear in the second period, giving up only six points, and taking a 27-18 lead into the locker room.

Both teams shot well in the third quarter, but the Ramblers continued to open their lead, maintaining a 48-33 dominance after three quarters. A strong defensive effort in the fourth iced the game for the Ramblers as they notched up their 14th win of the season, 67-

The Ramblers hardly knew what to expect going into Northport, and found themselves up

against some stiff competition. Although they jumped out to a quick lead, 20-16 after the first eight minutes, the Wildcats pulled ahead at the half, 32-33, leaving Boyne a bit bewildered. The Ramblers couldn't stifle the Wildcats surge, as they fell behind 45-50. Boyne was hardly playing with the same self-confident style they had been earlier in the season, but looking a loss in the face ignited something inside the players. Kevin Smith started out the fourth quarter with a basket and a foul, which he converted for the threepoint play. Other shots started falling, and the ones that didn't go in were collected for second shot attempts by Rambler players. The defense picked up and so did the intensity. Northport scored 10 points in the quarter, the Ramblers 32, giving them their ninth victory in a row, 77-60.

For the Ramblers Eric Smith provided some solid offense, scoring 24 points. Scott Knipe followed with 19, and Wayne Avery and Kevin Smith each contributed 11 points, Scott Hammontree found time to score 6 in between his many assists, Joe Jankowski added 4, and Shawn Vondra had 2.

Friday night the Ramblers host Northport in a rematch of last

#### Proceeds from the sale of the lifetime licenses are placed in a Game and Fish Lifetime License Trust fund. For every license sold,

an amount equal to the current

price of the corresponding annual

license will be transferred annually

from the trust fund to the Game

and Fish Protection fund to sup-

port wildlife and fisheries projects.

the DNR Administrative Services

Division, License Control, P.O. Box

For further information, contact

tsperson License, recently approved by the Michigan Legislature and signed into law by Governor Blanchard, is available for purchase through Feb. 28. This new license adds the resident bear license, resident waterfowl hunting stamp and

A new Comprehensive Spor-

resident fur harvester license to the existing Lifetime Sportsperson License, which includes the resident small game license, resident firearm deer license, resident bow and arrow deer license, resident fishing license and resident trout and salmon stamp.

The new comprehensive license will cost \$1025. Persons who currently have a Lifetime Sportsperson License may purchase the Comprehensive Lifetime Sportsperson License for \$25.

Individual lifetime licenses may still be purchased through Feb. 28. The fees for these licneses are: Fishing - \$220; Combined Fishing & Trout/Salmon Stamp - \$440; Small Game - \$220; Firearm Deer \$285; and Archery Deer - \$285. The Lifetime Sportsperson Licnese may still be purchased at a cost of \$1,000.

A lifetime license is valid for the remainder of the holder's life, and its status will not be affected by subsequent license fee increases if the licensee moves out of Michigan.

A passbook licnese will be mailed to the licensee prior to the beginning of the license year, which begins April 1. Game tags also will be mailed annually to the licensee. The license for a minor becomes valid when the licensee becomes of lawful age to use it.

Natural Resources Commission Countersigned: David F. Hales, Director Department of Natural Resources, Box 30028, Lansing, MI 48909

### Commission Order - CFI-112.90

(Under the authority of Act 230 of the Public Acts of 1925, as amended) OPEN SEASONS AND CATCH LIMITS ON PIKE, WALLEYE, SAUGER AND MUSKELLUNGE

Under the authority of Act 230 of the Public Acts of 1925, as amended, being sections 300.1 through 300.5 of the Michigan Compiled Laws, the Natural Resources: Commission at its October 4, 1989, meeting ordered that for a period of five years it shall be unlawful to take the following named species except within the open seasons and daily limits as prescribed below:

Open season: On walleye, sauger northern pike and muskellunge (including tiger

Region I: All Upper Peninsula waters, including the surrounding Great Lakes and connecting waters not otherwise closed to fishing shall be from May 15 through

Regions II and III: All Lower Peninsula waters <u>except</u> the Great Lakes and connecting waters not otherwise closed to fishing shall be from the last Saturday in April though March 15.

Regions if and ill: The Great Lakes and connecting waters shall be open year around; axcept that muskellungs in Lake St. Clair, and the St. Clair and Detroit rivers may be taken only from the first Saturday in June through December 15 of each

For the purposes of this order, all drowned river mouth lakes such as Manistee Lake, Lake Macatawa and Muskegon Lake are considered as inland waters and are sub-ject to inland water regulations.

Daily Catch Limits: Statewide limits shall be five (5) singly or in combination for largemouth and smallmouth bass, walleye and sauger and northern pike; the daily catch limit on muskellunge is one (1) (including figer muskellunge) axcept that the daily catch limit on Lakes St. Clair and Erie and the Detroit and St. Clair rivers shall be six singly or in combination for largemouth and smallmouth bass, walleye, sauger, and northern pike when the catch includes at least one walleye or sauger.

This order supersedes the Commission Order entitled "Open Seasons and Catch Limits on Pike, Walleye, Sauger and Muskellunge", effective April 1, 1987 and as-signed number CFI-112.67.

This order shall take effect on April 1, 1990, and shall remain effective through March 31, 1995.

#### FIDDLER'S JAMBOREE

The Original Michigan Fiddlers' Ass'n. cordially invites everyone to come and enjoy their annual Fid-Jamboree and Old Fashioned Square Dance on Saturday, March 3 at the East Jordan Civic Center. The jamboree will take place between 1-5 p.m. and a dance will follow between 7-10 p.m. Bring your fiddle or other non-electric instruments. Callers are welcomed. Contact Bill Stevens at 547-9153 for more information.

The Charlevoix County Senior-Center at East Jordan will be open to the public on the day of the Jamboree. A bake sale will be held starting at 9:30 a.m. Also, a continental breakfast will be available between 9-11:30 a.m. Lunch and dinner will be provided after 11:30 a.m. Salisbury steak, Polish sausage and sauerkraut and sandwiches will be on the menu.

#### LEARNING FAIR

On March 10th, the Grand Traverse Area 4C Council will hold its Annual Learning Fair at the Petoskey High School from 8:45 a.m. to 3:30 p.m. The Learning Fair is a day long conference for child care providers, early childhood educators, parents and others interested in supporting the growth and development of young children. A pre-registration fee is required by March 4. Registration at the door will be a larger amount. For more information call the 4C Council at 1-800-678-4951.

#### SNOWFLAKE LUNCHEON

The 20th Annual Snowflake Luncheon will be held on Thursday, February 22 at 1:00 p.m. in the Day Ski Center of Boyne Highlands in Harbor Springs. "Mechanized Madness", featuring the Matinee Idols and the Friendship Center Chorus will provide the entertainment. One price includes dinner and entertainment. Tickets must be purchased in advance. Call your local senior centers for further information: 582-6682, 536-7831 or 547-5361. Transportation is available, but a fee will be charged. Bus pick-up is scheduled at the East Jordan Senior Center at 9:30 a.m., at the Boyne City Senior Center at 10:00 a.m. and at the Charlevoix Senior Center at 10:30 a.m.

#### FRIENDSHIP CLUB.

The Boyne City Friendship Club will meet Monday, Feb. 26, at city hall auditorium at 12:00 noon for monthly meeting and potluck. Bring a dish to share and your own table service. Anyone over 50 is welcome to attend.

#### NEEDED

The sewing room at Grandvue Medical Care Facility is in need of clean, snagged nylons (all colors),

old broken jewelry, beads and sequins. These supplies will be used by the patients in up-coming projects.

#### ALCOHOLICS ANONYMOUS

If you or a loved one has a problem with alcohol, we urge you to attend a local A.A. meeting for support. Boyne Valley Group meets at the Knights of Columbus Hall on M-75 South, Boyne City, every Monday at 8 p.m. (closed met.), Wednesday at 6:30 p.m. (step study closed meeting followed by a regular closed mtg.), Thursday at noon (closed mtg.), Friday at 8 p.m. (closed mtg.).

The Boyne City Group meets every Sunday at the Presbyterian Church on Park St. at 8 p.m. for a closed meeting.

The last Sunday of each month a potluck open meeting is held at 7 p.m. in the Presbyterian Church.

#### **SOUP & SALAD LUNCHEON**

The Women's Association of the First Presbyterian Church in East Jordan will hold a Soup and Salad Luncheon on February 23, 1990 from 11:00 a.m. until 1:30 p.m. in the basement of the church, located at 207 Williams Street. Reduced price for children under 5. The menu will be soup, salad and

Barb Lercel and Renee Ruhlman help to time how long it takes Scott Beal to climb the balcony stairs as part of a Physics demonstration to determine the amount of power a person exerts during this activity. Keeping track of the stats is Jennifer Ford. Afterwards, the entire class calculated how "POWER"-ful each one of them was. (By the way, Scott turned out to be the most powerful, with the power he produced by running up the stairs being equal to that of a 100-watt light bulb burning for approximately 22 seconds.)

### Two townships agree to collect El summer taxes

East Jordan will be collecting summer school taxes from two townships after a contract was agreed upon between the two governmental bodies last week.

The townships Echo and Jordan, in Antrim County, agreed to collect the taxes for the fee of \$2.50 per parcel. Other townships, South Arm and Eveline, proposals were rejected by the board because they asked for \$5.00 per parcel.

The board also approved the spending of \$4,940 from the Building and Site Fund for the purchase and installation of two Smoke Eater" ventilation units for the high school metal shop. The two units will help draw off the fumes created by the students learning how to weld and will help provide essential ventilation for the students.

The board also heard a report on the process used to annually evaluate the school administrators. Superintendent Chip Hansen explained that the process involves goal setting, self assessment and final narrative components as part of the

They then reviewed a formal, written update on the status of accomplishment of their 1990 goals. The reports are given monthly at the board meetings giving the board an update on the progress the school system is making towards reaching the goals.

The board then went into a closed session to discuss the negotiations with the school administrators' contract.

### Big Rock

Consumers Power Company's Big Rock Point nuclear plant generated 50,850 megawatt-hours of electricity during January, its second-best monthly total in more than two decades. The plant's output was two percent higher than its rated capacity.

This demonstrates that Big Rock Point remains a strong generator of electricity," said William J. Beckman, Big Rock plant manager. "The plant is run-

The January production success comes on the heels of a very strong year for the plant. During 1989, Big Rock Point produced a total of 416,754 megawatt-hours of electricity, the seventh-best production year in its history. The plant ran continuously at full power throughout January and, during 1989, was only out of service for scheduled refueling and for two brief maintenance outages.

### 2nd annual recycling workshop at NCMC

North Cental Michigan College will be the site for the second annual day-long symposium on recycling and the environment in Michigan. Northern workshop, "Recycling and the Earth in the 1990's", will be held Saturday, March 10, in the Library Conference Room and is sponsored by the Recyclers Support Group, Recycle North and WATCH, Inc. (Water and Air Team for Charlevoix).

Speakers will include representatives from The Sierra Club. Lullabye League Diaper Service, Tire Shredders, Inc., and Clean Tech, Inc., a plastics recycling company in Dundee, Michigan. Steven Kopacki, of the Northern Michigan Environmental Action Committee, will speak about solid waste and energy use reduction for businesses. Gordon Zoulek, Superintendent of Streets and Waste Collection in Traverse City and Dave Siegel, Gaylord City Manager, will discuss composting programs in their communities. Elisa Seltzer, Emmet County Solid

discuss new developments in the area and Anne Hiles, Michigan State University District Extension Service Agent, will talk about household and business hazardous waste and what should be done with it for safe collection. Other issues to be discussed are recycling used motor oil, household batteries, separating recyclables in your home, how to become a better informed environmental shopper as well as plans for Earth Day 1990, April 22.

Waste Management Director, will

Sign-in will be at 8:00 a.m., at the Conference Center and the program will run until 4:30 p.m. There will be a one hour break for lunch, which is included in the price of the workshop. The cost is \$12/\$10 for seniors and students. Registration is required and is due by March 3. Checks should be made payable to Recycle North. North Central Michigan College, Room 109, Petoskey, Michigan, 49770. For additional information call Nancy Hunter, Executive Director, at (616)347-0314.

completed. The payments were authorized so that when the members of the committee are satisfied, they can release the funds.

The school administration also recommended the school system stay with using the Traverse Bay Intermediate School District as a purchasing agent for school supplies. The method of using the ISD will save the school system considerable sums of money, said school superintendent Chuck Smith. The purchasing power of the ISD allows for the lowest cost of supplies like paper and pencils for the school.

The school board authorized a new quarterly transfer of funds from the general fund into the hot lunch program. The action is a little different than last year when the school system waited until almost the end of the year to make a large transfer of funds. Smith said the hot lunch program is running much better this year with a larger number of students staying and eating the hot lunch. He attributed the increase to the cook for the school, saying he was doing a great job.

### Loggers

The amount of funds that will be transferred is less than what was spent at this time last year because of the increased lunches being purchased. The program normally runs in the red and the school general fund helps it break

The school board then heard a report about a possible change in the way school attendance is monitored. Possibly next year the policy will be changed so that when someone calls in saying the student will be absent, a return call will be made to check on the student and to verify the first call.

In other action, the board set a resolution for the annual school election in June, hired election inspectors for the upcoming special election of the Intermediate School Board, and gave permission to the junior class to hold a father-son basketball game shortly after the district championships are played. They also gave approval to the junior prom committee to hold a dance for the 5th through 8th graders and to hold a candy sale.

### Noon

labor costs proved to be cheaper by working through a different contractor who included the material costs in his price.

In other business before the commission, a report was heard on the possibility of fixing potholes differently. In the past, work crews from the city have applied a compound to the hole, only to see it pop out within a short time. The new method of fixing the holes will be to straighten up the sides of the hole, add heat to present asphalt, and then apply the compound CP1 to the hole.

The city is also investigating other new compounds that are coming on to the market. One, which would add about three times the cost, has a different consistency that helps it adhere to the sides of the hole better. It is thought that this may save money and materials as the hole will need to be filled less often as it can last longer within the hole.

The problem with the new material is that it is not being stocked by the asphalt companies as yet. The city has indicated they are working with other communities so that enough material could be utilized by all which would make it worthwhile for the asphalt company to make up a bat-

Presently only Gaylord is using the new material, and trucking it up north from downstate. It is hoped that the city will be able to get some along with Gaylord when they order again.

### in service

Pvt. Scott M. Crain has graduated from the U.S. Army armor cavalry scout course at Fort Knox, Ky.

Known as the "eyes and ears" of the unit, scouts observe and learn as much as they can about a tactical situation and then report their findings to their commander.

Crain is the son of Michael G. and Anna F. Crain of 09578 Smith Road, Charlevoix.

The soldier is a 1989 graduate of Charlevoix High School.

POTLUCK DISHES

I suppose that there have been potluck suppers since the first club was organized or the first church was founded, even before then, I can imagine our ancestors. the cave men, around their fires feasting after the hunt.

There is something special and very friendly about a group of people gathered to share their food and visit together. Even in modern day "posh" restaurants people like to communicate. Just have the waiter bring a birthday candle to the table and some neighbors will surround you with best wishes. I recall one time when my Mother was with us on such an occasion. 'Just like a Methodist potluck," she smiled. A potluck gives those of us who cook in small amounts the chance to make a full-sized dish of our favorite foods like this BEEF CASSEROLE

FOR A CROWD

11/2 lbs. ground beef 1 cup chopped onion 1 lb. can whole kernel corn

1 can cream of chicken soup 1 can cream of mushroom soup

1½ teaspoons salt 1/2 teaspoon pepper

1 cup sour cream 10 oz. pkg. noodles, cooked 1 cup buttered bread crumbs

Brown meat and onions until meat is light and onions are tender. Add other ingredients, except crumbs and put in a 21/2 quart casserole. Top with crumbs and bake at 350 degrees for 30 to 40 minutes. This makes 8 to 10 servings.

Fay Howard brought this next dinner-in-a-dish to our last Geneology Society potluck.

SEVEN LAYER DINNER Use your own amounts for the ingredients considering the size of your hungry crowd and the size of your casserole. The combination is delicious any way you

In your favorite casserole layer:

Potatoes, (sliced) on the bottom Then onions, sliced Green beans, canned or frozen

Macaroni (you can cook this first, though it is not necessary)

Small hamburger patties.

Pour tomato juice over top, add salt and pepper according to taste. Bake in a moderate oven 350 to 375 degrees until everything is tender. This will take an hour or one and a half hours.

For our dessert at this same potluck we enjoyed Nancy Fulkerson's

APPLE SAUCE CAKE 1/2 cup butter or margarine 1 cup sugar

1 egg 1 cup dates, cut fine 11/2 cups apple sauce 1 cup nut meats, coarsely chop-

ped 1 cup raisins, chopped 1/2 teaspoon cinnamon

1/4 teaspoon cloves

1 teaspoon vanilla 2 cups flour 2 teaspoons soda

Cream butter, sugar and wellbeaten egg, beat well with vanilla. Add the applesauce, nutmeats and raisins, then the remaining dry ingredients which have been thoroughly mixed.

Bake in a well-buttered bundt pan or large loaf pan for one hour at 350 degrees or until tester comes out clean.

Don't forget to take a jar of your own special pickles or relishes. They are always welcomed at potlucks.

We also always have a bowl of nunch and vegetable chips with a dip; this potluck has become an annual affair and everyone comes!

Fourth grader Ryan Hocquard helped out Fred Gondzar with some experiments done before Linda McGeorge's fourth grade class last week. The experiments helped show the students some of the tricks of physics that had apple seeds bobbing up and down in water, the center of gravity and balance, and the cause and effect of air pressure.

### Ellsworth clean-up to begin

Director David Hales of the Department of Natural Resources today announced that major investigation and cleanup efforts will begin immediately on a contaminated site in the Village of Ellsworth, Antrim County.

The property, formerly owned by International Disc Corporation (IDC), tax-reverted Jan. 26 to state ownership.

from Protecting Funds Michigan's Future Bond, the \$800 million bond issue approved by Michigan residents in 1988, and other sources will be used to determine the extent of soil, groundwater and lake sediment contamination on and off site.

A least seven corporations have operated steel fabricating and metal plating operations which have an extensive history of unpermitted discharges to the ground and to Ellsworth Lake. These discharges consisted of heavy metals, petroleum fuel, solvents, oils and corrosive liquids. Asbestos is present on the site and poses a health hazard.

Efforts by the DNR to gain voluntary cooperation from the ever-changing corporations were unsuccessful. In January 1986, the Michigan Department of Public Health issued an order to IDC which included fencing and removing all physical and chemical

hazards from the site.

When IDC failed to respond to these orders, the DNR unsuccessfully attempted to gain access to the site through the Attorney General's office to conduct emergency removal of the chemical hazards.

The U.S. Environmental Protection Agency (EPA), at the DNR's request, sent in an emergency response unit to conduct the removal, which was completed in 1987.

The site has since been placed on the priority list for evaluation and interim response at sites of environmental contamination under the Michigan Environmental Response Act (MERA), Public Act

307 of 1982. "Currently, the DNR lacks the authority to properly enforce environmental regulations when companies refuse to allow us access to the site," Hales said. "Passage of Senate Bill 375, introduced by Senator Lana Pollack (D-Ann Arbor), will insure that in the future those responsible for pollution pay the bill for cleanup

and heavy penalties as well." The DNR's Environmental Response Division will be overseeing the site cleanup which will include fencing the property and removing any remaining physical and environmental hazards.
