

Weather

A week of typical spring weather (far nicer than predicted), with highs into the 60s most days and another perfect Friday capping the work week. A cooler Saturday followed, with sun and clouds doing equal battle and the mercury climbing to the mid-60s. Sunday, clouds won out and kept temperatures below the 60-degree mark. **NOTE:** Borrowed from broadcast meteorologist predictions for the coming week's weather (published for the convenience of downstate residents) have been so wildly inaccurate as to be useless. No further forecasts will appear here. **LAST YEAR:** Weekend temperatures reached the 80s, with good Memorial Day weekend weather promised.

EAST JORDAN, MICHIGAN

DDA boundaries and funding approval

BY DEB SAYGERS HOBBS
Journal Editor

Although a few loud, angry, and at times obscene voices disrupted the proceedings, the East Jordan City Council eventually voted to once again grant the Downtown Development Authority.

The council conducted a hearing May 16 to consider new boundaries, and a plan for funding the DDA. The DDA was established by ordinance in December, 1993. A board was appointed, and developed an action plan presented to council Feb. 7 of this year.

The original boundaries were revised in an effort to appease private residential owners within the district, as well as concerns of some council members, and the Charlevoix County Commission. The boundary revisions were one topic of the hearing.

The second topic was the DDA board's recommendation to incorporate a Tax Increment Financing (TIFA) plan as the primary source of funding for DDA projects.

As a matter of course, when SEV assessments increase, the overage results in more taxes collected from the same millage. The money goes to taxing entities, including the city, county, and schools.

The TIFA will capture these increases for the DDA, but because the other taxing entities will lose the money, they also had to approve this method of funding. Interim city superintendent William Hughes said the DDA can expect to capture \$35,000 from the 1994-1995 TIFA.

A common misconception seems to be that taxes will increase because of the TIFA. Council member Brian Sweet and Hughes both stated several times that this is not the

case.

Arlon Leonard, owner of the Lumberjack Saloon, was particularly outspoken in his desire to be left out of the district. He accused the council of artificially raising SEVs.

"I believe that taxes are going up to pay for this," said Leonard.

"The city has nothing to do with tax assessments," Hughes explained several times. "We're diverting tax dollars to the betterment of our own community. You're going to pay the same taxes either way."

Hughes remained calm during tirades by Leonard and George Werner, owner of Gemini Bowling Lanes, systematically answering questions. He explained that the Lumberjack would probably not be taken out of the DDA, as requested by Leonard.

"It wouldn't be reasonable to take one property out," he said.

Residential property owners along Lakewood Private Drive (near Sunset Hill Cemetery) had more luck with their appeal to be eliminated from the district. The council agreed to consider small revisions to the boundaries to make sure property north of the drive would be kept contiguous with the district.

Hughes said the properties represented about four percent of the district.

"I feel the plan will not suffer without them," said council member Dan McKinnon.

"But there is no way exclusion will change your taxes one way or the other," Sweet told the group.

But Leonard insisted that the district will cost more for property owners. Hughes

Mom of the Year

Art teacher and active community volunteer Pat Tinney was named Mother of the Year at the annual Lions Club Mother-Daughter Banquet, May 13. Pat is the mother of Kayla, 9 (shown with her mom), Dustin, 15, and Morgan, 2. Her husband is pediatrician Rod Tinney, who was also recently honored as Father of the Year by the East Jordan Rotary.

Another step toward natural river designation

BY DEB SAYGERS HOBBS
Journal Editor

A large group of riparian land, business owners, municipal officials, and conservationists gathered together at the East Jordan Civic Center to discuss their common interests. Also on hand at the May 11 meeting were Michigan Department of Natural Resources officials and members of the Friends of the Jordan River Watershed.

The subject was the future of the Jordan River.

"I've learned that people are very passionate about the river," FOJ vice-president John Richter told the group. Richter spearheaded a campaign to extend Wild-Scenic River designation to the lower Jor-

dan River and its tributaries, including Deer Creek.

Richter has conducted a series of discussions on the designation with adjoining municipalities (including the city of East Jordan), and civic organizations.

The Jordan was the first river in the state given the Wild-Scenic designation by the DNR when the Natural Rivers Act was first initiated in 1974. But for a reason no one seems to know, the lower section, from Rogers Road north, was not included in the original designation.

Richter explained that recent developments and continuing threats to the quality of the river have galvanized efforts to complete the designation.

The FOJ's crusade

The discussion was conducted by Dan Pearson, from the MDNR Land and Water Management Division. Pearson serves as the state-wide coordinator of the Natural Rivers Act.

A panel of experts included Doug Carter, chief of the MDNR Lakes and Streams Division; Jan Fenske, Natural Rivers Zoning Administrator; and Antrim County Water and FOJ program director John Hummer. The audience represented five townships, the city of East Jordan, and the East Jordan Chamber of Commerce.

Also in attendance was State Representative Beverly Bodem. She said she came to hear the concerns of her constituents, and is

supportive of efforts to conserve northern Michigan resources.

Pearson said the DNR looked at the lower river and its tributaries, and agrees with the FOJ that the areas have the same qualities that earned the upper river designation — has the same threat of development, and would meet the criteria for qualification.

Pearson emphasized that meeting the criteria does not mean the decision has been made.

"We need to talk to those affected — we're here to get your viewpoint," he said.

Many concerns were addressed, but most of the discussion centered around problems with designating tributaries, especially Deer Creek. Landowners and members of the

Fifth-graders DARE to say no to drug use

BY DEB SAYGERS HOBBS
Journal Editor

East Jordan Elementary School fifth-graders are committed to saying no to drugs.

The youngsters have the skills to do so thanks to Drug Abuse Resistance Education (DARE), a nation-wide problem teaching self-esteem, assertiveness, and peer resistance.

Each child signed a Certificate of Achievement at the end of the course, making a personal commitment to avoid the pressures to begin using drugs. Along with their framed certificate, each received a DARE T-shirt. An awards ceremony commemorated the occasion followed by a cake and punch party, with parents as guests.

The program, presented by Charlevoix County Sheriff's Deputy Rex Behling, is a 17-week curriculum including a DARE booklet, activities and group and individual problem-solving. Behling met with each of the fifth-grade classes for a weekly session, focusing on a different related issue each week.

The kids thought the course was "awesome," in the words of fifth-grader Curt Derenzy. "The program made us believe

using drugs is bad."

Students said they really liked the guests and activities presented by Behling — especially the demonstration by the department's drug-sniffing dog.

The deputy himself was very popular with the students, making himself available as a friend and confidant, and helping them feel secure about police officers in general.

"We're really gonna miss Deputy Behling," said David Dyer, another student.

Behling, who teaches the course in three school systems, finds the time with the youngsters very rewarding. He feels it will have a positive effect on the futures of these children.

Behling is realistic enough to know he will end up arresting a few of them in later years, but is optimistic on the long-term effects of the program on most the students.

"Some will slip through the cracks, but at least we started somewhere, and reached some of them," said Behling.

The program is funded by the Charlevoix County Sheriff Department and through fund-raisers including the annual DARE benefit golf outing.

East Jordan Police Chief Jerry Alward is

EAST JORDAN FIFTH-GRADERS proudly display their certificates received after completing the DARE program, May 3. They are (from left): Kevin Curtin, Jerry Spears, Brent Rake, Matt Arnott, and Mike Bartz.

one of the program's strongest advocates.

"I'm behind this 100 percent," he emphasized. He said he is grateful the sheriff's department is able to present the program, since the police department is unable to afford it.

Hopefully, all the recipients of the program feel as enthusiastic as the chief and young Curt Derenzy.

"I was really impressed with this program," Curt said, while his friends nodded their agreement.

Sax says ...

Memorial Day
by Gayle Saxton

Memorial Day is upon us. As Monday approaches I can't help but reflect on past celebrations of the day.

When I was a kid in East Jordan, we all looked forward to Memorial Day. We were excused from school to march in the parade, and the whole town turned out. Kindergartners through senior students carried flags, the high school band played, and the American Legion color guard marched proudly up front.

Back then there were still a few Civil War and Spanish-American War veterans around and the World War I veterans marched spritely in neatly pressed uniforms.

Although very few school children march anymore, East Jordan has been one of the few small communities carrying on the Memorial Day tradition. If it were not for the American Legion, VFW, Vietnam veterans and the like, patriotism would be at a lower ebb than it is now. Veterans gave up

so much for their country in time of need and they are still proud of the fact that they did.

One thing that puzzles me is the number of American flags that have been pilfered in recent years — little wonder that business places no longer display the flag every day let alone on Memorial Day, the Fourth of July and Armistice Day.

We will display our flag Monday — won't you display yours?

East Jordan native Gayle Saxton has been writing, reporting, and broadcasting sports for many years. Now a retired educator in Houghton Lake, "Sax" will share his memories of East Jordan and his many friends through this column in future issues of the Journal. Today's contribution is a reprint of his column originally published in the Houghton Lake Resorter during the 1980s.

student news

Lilak graduates from MTU

Aaron D. Lilak has graduated with honors from Michigan Technological University in Houghton. He received a Bachelor of Science degree in electrical engineering May 20.

While at Michigan Tech, Lilak was a member of FTA Kappa Nu, Electrical Engineering Honor Society; was an EERC Partner, responsible for monitoring electrical engineering computer labs; was on the

MTU Sunrayce Team; and the Dean's List.

After graduation he will begin graduate work at the University of Florida at Gainesville.

Lilak is the son of Sally and Douglas Lilak, formerly of East Jordan, now of Boca Raton, Fla., and is the grandson of Phyllis Lilak and Hugh and Evelyn Gidley, all of East Jordan.

Rabies alert: vaccinate pets

Due to a rabies epidemic in Texas coyotes, the state of Texas has been placed on a rabies quarantine. This strain of rabies is easily passed on to unvaccinated dogs, and is fatal to other animals including humans. The Michigan Department of Agriculture will be enforcing restrictions on bringing dogs from Texas into Michigan. Owners who want to bring their dogs from Texas must obtain an entry permit from the Agriculture Department and the dogs must have an official interstate health certificate and a rabies vaccination within the past 12 months. Puppies under 12 weeks of age will not be allowed entry because they cannot be vac-

inated. Although Michigan does have rabies, it does not have the specific strain causing the Texas outbreak.

"It may seem silly that people in northern Michigan should be concerned about a rabies epidemic in Texas," Charlevoix County Animal Control Officer Bill Marquardt said. "But we do have a number of migrant worker camps in the area. The area is also a big travel and resort destination. The best way to protect yourself and your pets is to follow Michigan law — get your pets vaccinated for rabies and keep them from running at large."

Police department to house sheriff's sub-station

BY DEB SAYGERS HOBBS
Journal Editor

Law enforcement in East Jordan will receive a major boost as of June 1, with the installation of a Charlevoix County Sheriff Department sub-station at the East Jordan Police Department.

Sheriff George T. Lasater made the announcement at the May 16 meeting of the city council.

Lasater said the new station was made possible by a federal COPS FAST grant, as well as county funding and

the cooperation of East Jordan police chief Jerry Alward.

Lasater said the county commission has given assurance the sub-station will receive full county funding when the three-year grant runs out. East Jordan commissioner Howard Hosler has for some time been actively pressing for the installation.

The purpose of the sub-station is to provide better coverage in Eveline, South Arm and Wilson townships, and to assist the city police department when requested, Lasater explained.

He introduced Deputy Rex Behling as the officer in

charge of the sub-station. Behling is a nine-year veteran of the force, canine officer, and DARE instructor (he works with fifth-graders in three school systems, including East Jordan.) Lasater called Behling a "seasoned, mature officer."

"It's a benefit to us to have someone to call on," Alward told the council.

"We're very pleased to provide this service," said Lasater.

Sheriff extends appreciation

The Charlevoix County Sheriff Department recently bestowed the Sheriff's Appreciation Award on county transit bus driver Eugene Beer of Charlevoix.

Beer was unable to get a response from Clark Lee Washburn of Wilson Township when making a "Meals on Wheels" delivery at the home of the elderly man May 6, 1994.

Concerned about Washburn's safety, Beer contacted the sheriff office. When Deputy Roger Moses entered the Washburn home to investigate, he found the 81-year-old

man dead.

Charlevoix County Sheriff George Lasater said that Beer's timely notification of the department helped expedite the investigation of Washburn's death. Daniel Puroll of Boyne City was arrested, and later convicted, for murdering Washburn.

The Charlevoix County Transit became a branch of the Sheriff's Neighborhood Watch program about one year ago. Lasater noted this incident reflects the value of citizens getting involved to assist law enforcement.

Accidents, injuries reported in area

Separate Wilson Township accidents sent several people to Northern Michigan Hospital in Petoskey for treatment of injuries.

Injured in a one-vehicle accident the afternoon of May 12 were Brian Honeysette and Elizabeth Diehl, both of Charlevoix. Diehl, the driver, was traveling east on Boyne City/East Jordan Road when she lost control and flipped the vehicle.

The Charlevoix County Sheriff Department was assisted at the scene by the Boyne City Ambulance and Fire Department.

On May 14, at about 4 a.m., David Etcher of Kinchloe

was driving on Marshall Road, lost control of the vehicle and struck a group of trees. Etcher and two passengers, Barney Etcher of Petoskey, and Richard Hoag of Rudyard, all received injuries. Boyne City Ambulance assisted the sheriff department at the scene.

Sheriff's deputy Rex Behling reported that speed and alcohol were contributing factors in the May 14 accident, and that none of the three men were wearing seatbelts.

Safe boating celebration planned in Charlevoix

Coast Guard Station Charlevoix and the Coast Guard Auxiliary invite everyone to celebrate National Safe Boating Week at East Park in Charlevoix, Sun., May 28. Festivities begin at 11 a.m., with the opening of an auxiliary information booth.

Courtesy marine examinations will be available from 11 a.m. until 4 p.m. Docking space at the city marina will be provided by the city harbor master for those wishing an inspection. A trained auxiliariast will check your boat's safety equipment and registration. There is no penalty for

failure, but a check now may save your life later.

At 1 p.m., sheriff marine deputy will be on hand to explain marine law pertaining to jet-ski type vessels. Scuba divers will demonstrate a typical dive at 1:30 p.m., and explain the significance of their flag, and laws governing nearby boats in trouble.

Sometimes major accidents occur so far from shore that the Coast Guard sends a helicopter to rescue people in peril. At 1 p.m. a copter from the Traverse City station will put on a demonstration of the method used to retrieve persons in

danger. After the demonstration, both Coast Guard and Auxiliary vessels will be available for boarding at the docks.

The Coast Guard urges you to come and learn more about safe boating, and to practice safe boating procedures year round.

An important reminder: Whenever you go out on the water, wear your lifejacket - it won't work if you don't wear it.

By Hope Tyrrell, Public Affairs Officer
Charlevoix Coast Guard Auxiliary

Unitarian Church hosts guest speaker

"The Courage To Be," an exploration of salvation in the context of Unitarian Universalist faith, will be presented by Rev. Eva Hockgraph.

The guest speaker is an assistant minister with the Unitarian Universalist Church in Ann Arbor and was also

involved with the parliament of World's Religions in Chicago.

The service will be held at 10 a.m. Sun., May 28, in Temple B'nai Israel, at the corner of Waukazoo and Michigan Streets in Petoskey.

Unitarian Universalist Services embrace liberal religious expression and welcome those who are seeking to develop their own religious theology.

For information about meeting times and dates, call (616) 348-3117 or (616) 536-7390.

Reunion planned

The third annual Bolser Reunion is planned for Sat., June 10, from 10 a.m. to 6 p.m., at Whiting Park in Eveline Township, at the large building.

Bring a dish to pass and an article for auction or a donation to pay for the hall. Call 536-3592 for more information.

JRAC presents artists

The Jordan River Arts Council will present a joint exhibition by watercolorist Kathy Leist and drum-maker Dr. Glenn Bell, beginning Fri., May 26 at the art center.

Leist specializes in floral landscapes, while Bell will exhibit his hand made Native American-style drums, multimedia, and a variety of wood sculptures influenced by the many aboriginal tribes from North America to Australia.

The exhibit continues until June 2. For more information, call the JRAC at 536-3385.

Memorial Day activities

Activities and services are planned to celebrate Memorial Day, Mon., May 29, in East Jordan, beginning bright and early with coffee and sweet rolls served by the Ladies Auxiliary at the East Jordan VFW hall.

Services will be held as follows: Calvary Cemetery, 7:30 a.m.; Pesek Cemetery, 8 a.m.; Bohemian Cemetery, 8:15 a.m.; Densmore Cemetery, 8:35 a.m.; Sunset Hill Cemetery, 9 a.m.; and a program at Grandvue, 9:15 a.m.

The morning will continue at 9:30 a.m., at the VFW Hall, where the Auxiliary will serve breakfast to all those participating in the program.

At 10:30 a.m., a line will form at the American Legion Hall for a parade down Main Street, and continuing to Memorial Park. Included in the parade will be the East Jordan High School Band.

A service, with the reading of names of those who gave their lives in service to their country, a rifle salute, and music provided by the band, will conclude with a floral tribute at the bridge.

a word fitly spoken

Memorial Day 1995

May 8 was the 50th anniversary of VE Day. Many Americans returned to Europe to meet with others who fought and survived World War II in the European Theater of Operations.

In 1945, I heard the news while on a streetcar on the Loop in downtown Chicago. All traffic snarled and stopped while hysteria reigned and people shouted, cried, and ran into the streets. Confetti rained down from the skyscrapers. Along with the confetti people dropped money — mostly dollar bills.

Everyone lost track of time, or adhering to their responsibilities. The frenzied crowds were elated the war was over and loved ones would be returning.

There were many deaths and shattered lives, but after several years away the men could finally prepare to come home. My husband (who left in 1943) returned in January, 1946. Then in 1947 we became part of the exodus of young families moving to the "Sunshine State" of California.

We are all keenly aware of the horrors of war — loss of lives, destruction of property — but our generation believed in God and the principles that our forefa-

thers documented to make us the great nation we are.

Sadly wars are devastating, but some good comes from them — sulfa, penicillin, nylon, aluminum and plastics were all discovered or produced as a result of WWII.

We have the choice to live our daily lives in obedience to God in a democratic country — something unheard of in many nations.

Fifty years later we re-

flect upon it all and see that there are still wars and rumors of wars — nothing new — but we must take heart. Accept Jesus into our lives and live by the Golden Rule, have faith and trust and realize God is in charge.

On this Memorial Day, be respectful to our flag and our veterans who died in all the conflicts to keep us free.

By Anne Messerschmidt
Anne Messerschmidt is a 74-year-old "joyous Christian." Readers can expect to see more of her writings in future issues.

April Students of the Month

East Jordan Elementary School students chosen as Student of the Month for April are: (Grade One) Elizabeth David, Wendy Dunson, Katy Kovel, Amber Lifer, and Stephanie Steuer; (Grade Two) Katie Diller, Jennifer Pfeifle, Carrie Williams, and Ryan Wright; (Grade Three) Michelle Arthur, Elliot Roberts, Amy Schroeder, and Joe Sievertson; (Grade Four) Karianne Bennett, Robert Grover, Santana Humbarger, Heather LaCroix, and Becky Puroll; (Grade Five) Deanna DesRochers, Kari Kraemer, Stephen Kraemer, Brian Montfort, Lori Olson, Paul Teske, and Jessie Tison.

Local Marine honored

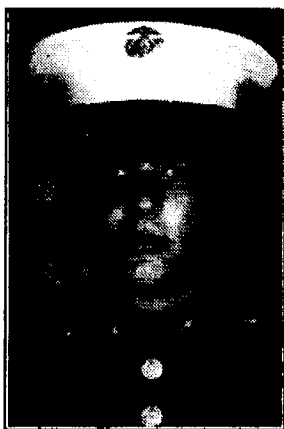

Lance Corporal Keith A. (Miller) Snyder was recently selected for the Third Marine Division Meritorious Marine of the Quarter.

Snyder will be awarded a Meritorious Promotion to Corporal June 2, in recognition of his exemplary performance. Only one Marine from the entire Third Division receives this quarterly honor.

Snyder's selection was

based on proficiency, discipline, loyalty, and devotion to duty. The competition for this coveted award is extremely keen.

Snyder's parents, Jerry and Holly Snyder of East Jordan, were notified of his honor by Brigadier General D.F. Bice, division commander, and personally congratulated for their influence in their son's life.

Keith Snyder

THE ILLUSTRATED BIBLE

Jesus' Mission Continued

"But at night an angel of the Lord opened the prison doors and brought them out and said, 'Go and stand in the temple and speak to the people all the words of this Life'."

— Acts 5: 19-20

The anger of the priests who had mocked Jesus and caused His death on the cross was in time directed against His disciples. It was obvious that their preachings were adding new converts to Christianity. So the apostles were arrested in an attempt to silence them. We must consider how strong was the devotion of those men and their courage when, in the face of their own personal danger, they continued the ministry that Jesus had entrusted to them. It was through those twelve that the words of Jesus were handed down to us and spread to the distant corners of the earth. Jesus' legacy couldn't have been in better hands.

Free fishing weekend

Saturday and Sunday, June 10-11 marks Michigan's tenth annual Free Fishing Weekend. During that weekend, no fishing license or trout/salmon stamp will be required to fish in Michigan. This applies to Michigan residents and non-residents alike. All other fishing regulations still apply.

Free Fishing Weekend offers an important opportunity for thousands of new anglers to get "hooked" on fishing. Free Fishing Weekend in Michigan is also a celebration of the fact that Michigan has some of the finest freshwater fishing in the world, with over 11,000 inland lakes, 36,350 miles of rivers and streams (including 12,600 miles of trout waters,) and 3,000 miles of Great Lakes shoreline.

Free Fishing Weekend is also an important opportunity to "introduce" many who have never had the chance to try fishing, to Michigan's unique and bountiful aquatic resources. This is important because most children who grow up to become anglers have a special appreciation for stewardship of our rivers, streams, lakes and the aquatic life they support.

If you, or your group or organization, would like information on how to sponsor a Free Fishing Clinic, please call the Michigan Department of Natural Resources, Fisheries Division, at 517-373-1280, 8 a.m. to 5 p.m. weekdays, and give your name, address, name of your organization and a daytime phone number.

Motorcycle ed course

For the 10th consecutive year, Central Michigan University will offer motorcycle rider education courses throughout Michigan.

Two levels of courses, one designed to teach riding and street skills, and one for experienced individuals who need a motorcycle endorsement to obtain a license, will be offered. The weekend courses, sponsored by CMU, are partially funded by a \$96,000 Michigan Department of Education grant. State law requires successful completion of a riding and street skills course by all 16 and 17-year-old motorcycle operators before they apply for an original motorcycle endorsement on an operator's license. Course participants must be at least 15 years of age.

The cost is \$25. For registration information, call CMU's College of Extended Learning at (517) 774-7141.

The riding and street skills courses, which are aimed at beginning and minimally experienced riders, are scheduled for East Jordan, Friday through Sunday, June 23-25.

◀ **SAVORING A SWEEPING** view of Sinclair River marshlands opened by the new boardwalk was just one of the Earth Day activities pursued by the group. They also planted over 800 trees and took tours of the other two preserves that form the 86-acre SCL-SML Natural Area.

Educational Boardwalk opens wild stretch of river for viewing

BY MARY FREY
Editorial Director

ELLSWORTH – For the first time since its creation, a wild stretch of Sinclair River marshlands can be viewed in comfort by the general public.

An Earth Day dedication ceremony marked the official opening of a 225-foot Educational Boardwalk on the river's east shore.

The new boardwalk crosses an eight-acre parcel donated to the St. Clair Lake-Six Mile Lake Natural Area by South Arm Township in 1994. It provides visual access to a portion of the natural area's remaining 76 acres across the river along Six Mile Lake Road.

The entire nature area lies in the northernmost section of the Chain of Lakes.

"Our volunteers met Tuesday evenings and sometimes on other days to work on it," said project activist Jo Anne Beemon. "They kept at it over a period of many months,

despite mud, mosquitoes and the occasional downpour."

The results are an impressive demonstration of grassroots determination. A wood chip parking area is connected to the boardwalk by several hundred feet of wood chip trail. The boardwalk itself ends in a 12-by-12-foot viewing platform at the river's edge.

Situated about a half-mile east of the Rowe Inn on Ellsworth Road (C-48) the South Arm Preserve will soon be identified by a seasonal information board. That project is being funded by a \$600 grant from the Charlevoix County Community Foundation.

Money raised by or donated to the SCL-SML Natural Area goes into a land acquisition fund. Already, the project has preserved in perpetuity more than 1,200 feet of St. Clair Lake water frontage and over 2,000 feet along the river that joins it to Six Mile Lake.

Supporters can now also contribute to the natural area by saving Glen's Market grocery receipts. Mail them to SCL-SML, P.O. Box 27, Ellsworth, Mich. 49729.

up north outdoors

By Dan Miller

Here it is mid-May, and we still haven't had three days of consistent good weather. We did need the rain though, and it has provided what could be the best black morel hunting in 15 years. But I would like to see some days in the 70 degree range.

Speaking of mushroom hunting, if you haven't been out to grab your share of the delicious little fungus, you are really missing the boat. I know of several people who have had good luck by the onion sack! Conditions have been just right for the blacks – usually by now the whites have begun and the blacks are finished. Maybe the plentiful blacks are due to the cool weather and just enough sun.

Turkey hunters have also been lucky this spring. The biggest turkey so far this year is a 29-pound tom with an 1 1/4-inch beard shot this May 14 by Marty Ernst. Way to go, Marty!

Several hunters I have spoken with have passed up birds simply because they don't want the season to end. For those of you who feel that way, I would like to remind you that you can still have your turkey and hunt, too. How about bringing along either a still or video camera and recording your experience out in nature.

Now to the sorry part of the outdoor report, the fishing. Several anglers that have stopped in the store have reported good fishing. But the catching – let's just say it has been slow at best, and terrible at worst.

There is some bright news to the fishing report – the water temperature has been coming up slowly. The walleye bite should start to improve this week, unless we get hit

with a nasty cold front that cancels out the progress.

The brown trout have started to move out over deeper water. Concentrate on browns in the 30 to 40-foot range. They will still be suspended high, but will be over deeper depths.

Lakers are being taken right along with the browns or a bit deeper, but still in the 30 to 40-foot range. The best method for lakers has been to long line deep-diving minnow baits such as Rebel Fast-tracs or Deep Thunderstick Juniors on Lake Charlevoix.

Some anglers are fishing over 60 feet of water and getting lake trout on Cowbell rigs with P-Nuts, Flatfish, or Spin-N-Glows. Don't forget other standby lures such as Stingers, or Northern Kings. Stingers' new Scorpion Spoon should be good now, as it is smaller in size. It should work very well at this time of year.

If you are planning to go after walleye this week, look for them in shallow water, to as deep as 12 feet. For the past three years the eyes have been caught in the 6 to 12-foot range, starting the third week in May. The South Arm and out to the Boyne River have been good for numbers, while the bigger fish have been in the main body of Lake Charlevoix.

Still having trouble finding walleyes on Lake Charlevoix? I suggest you get one of the new Fishing Hot Spots maps of Lake Charlevoix. These new maps aren't just a contour map of the lake. They actually have shaded hot spots for several areas of the lake and explain what the area holds and how to fish there. They are one of the best \$8 investments

that you can make in your fishing.

Get out and enjoy the outdoors. See you on the water. Dan Miller is an avid outdoorsman who enjoys hunting, fishing, and sharing his perspective on the outdoor world with our readers.

All area China, Burma, and India Vets & their wives are invited to a reunion Wednesday, June 14, 1995, at the Elk River Inn Restaurant in Elk Rapids at 7:00 pm.

Karl Holt and Jack Miller are survivors of the "Bataan Death March". They will relate some of their experiences as P.O.W.'s of the Japs, and they are both Elk Rapids natives.

Who knows, this could be the last reunion for some of us, so come enjoy the evening. For reservations call or write

Wally Zupin

Artist helps paint blitz

Working with pen and pencil, artist Jodie Adams is well-known nationally for her black and white drawing of wildlife. What is not so well-known is her fondness for cartoon drawings featuring horses performing human activities.

"Volunteers to the 1995 Charlevoix-Emmet Housing Coalition *Paint Blitz* will soon be wearing an original Jodie Adams T-shirt," announced Vicki Morgan, executive director for the coalition.

All volunteers to the Paint Blitz will receive one of the T-shirts featuring the Adams cartoon drawing. Adams, better known for her drawings of birds, zebras, cattle and other wildlife, has had several national exhibits including some in Washington, D.C., Texas, Wisconsin, and a solo exhibit at the Dow Chemical headquarters in Midland. Her art work has also won awards throughout the country and her original wildlife art work commands prices from \$500 to \$5,000.

"When I was asked about designing a shirt for the Paint Blitz, I was happy to agree. I haven't done too many of my horses lately and it was kind of fun to do them again," said Adams. "The Paint Blitz is a good project and I'm happy to be a part of it."

"We are really excited to offer this T-shirt to our volunteers," said Kathy Johnson, co-chair for the event. "Everyone works so hard on this event. But it is a fun event, too, and this year's T-shirt reflects that spirit of fun." Johnson and her husband and co-chair Hal Johnson are still looking for volunteers to assist with this year's event.

Hal Johnson said the coalition already has applications from 19 homeowners and there are currently two additional applications pending.

"If we have paint and volunteers to do all

them, we would nearly double the number of houses we did during the first two years," he noted.

Eleven homes were painted during the first Paint Blitz in 1993, and an additional 13 homes were painted in 1994.

"While our requests from families has continued to grow, the response from the communities is also growing," Hal Johnson said. "We've gotten more calls this year from individuals and groups wanting to help."

Kathy added that she feels people are beginning to understand the project doesn't just benefit low-income elderly or disabled who own the homes painted, it benefits their neighbors and the entire community.

"Last year we painted two homes side by side and the difference in the neighborhood was tremendous," she said. "This year we are going back to some of those neighborhoods."

The Johnsons said help is still needed in a variety of ways, including painting, meal donations, preparations for painting, home sponsors, and paint and supply donations.

Sponsors cover the cost of purchasing paint and supplies, doing power washes where needed, and providing the T-shirts for volunteers are still needed. Sponsors are listed in the annual report, follow-up publicity and on a sign in front of the homes.

All donations for the Paint Blitz are tax deductible and anyone who would like to have a T-shirt but is unable to paint, can receive one for a donation of \$15 or more.

Anyone interested in assisting with the Paint Blitz in any way should contact either Kathy or Hal Johnson at 582-2715. Donations to the Paint Blitz should be made out to the Charlevoix-Emmet Housing Coalition and may be mailed to 202 South Lake, Suite A, Boyne City, MI 49712.

VOLUNTEERS
FOR the 1995 Paint Blitz will receive a designer original T-shirt by nationally known artist Jodie Adams. Showing off the shirt are (from left): Char-Em Housing Coalition director Vicki Morgan, coalition chair Thelma Behling, and artist Jodie Adams.

jordan memories

Baseball

It would be difficult to point out a baseball team during the season of 1921 that could rank individually and collectively as high as that of East Jordan's.

In the final game with Traverse City, our team walked away with the Northern State Championship and we can rightfully say it was one of the best teams that has represented East Jordan for several years.

Success was due largely to the excellent coaching done by Mr. Speltz and Mr. Keyworth. Much praise was also due John Gunderson, star pitcher and athlete of our school. In fact, the whole team worked like machinery and each man was a steady consistent player. The success of the season was marked by a host of victories and the team is to be congratulated for winning every game played.

Liskum	Catcher
Gunderson	Pitcher
Hockstad	First base
Pumphrey	Second base
Streeter	Third base
Swafford	Shortstop
Bowen	Right field
Johnson	Center field
Little	Left field
White	Substitute
Malpass	Substitute

East Jordan is starting the season of 1922 with good prospects. Though several of last year's players are missing, it is hoped that with our new recruits, we will have a team fully as able to win the championship as that of last year's.

From the East Jordan High School Year Book, 1921

Outstanding musicians

Eight students from East Jordan Middle School Band played their instruments at the Junior High Solo and Ensemble Festival, April 22 in Gaylord, receiving top ratings for all their performances. Each student played a solo piece, and clarinetists Beth Purvis and Jenny MacEachern also played a duet, with their performance receiving the highest possible rating. All the students are eighth graders.

WOODWIND INSTRUMENTALISTS are (from left): Bryan Banfield, saxophone; Beth Purvis, clarinet; and Mellisa Kowalske, flute. Missing is Jenny MacEachern, clarinet.

BRASS INSTRUMENTALISTS are (from back, left): Holly Petkewicz, French horn; Rebeca Scott, trombone; Paul Slough, baritone; (front) Catey Moses, trumpet; and Autumn Dodge, trumpet.

DNR urges: leave babies alone

With the arrival of the spring, people enjoying the out-of-doors may encounter young birds or animals that appear to have been abandoned. However, wildlife young usually have a "parent" hiding nearby and, unless obviously injured, should not be removed from their natural environment.

The collective experiences of state, federal and local wildlife experts attest to a variety of problems when people take wild creatures home in what they consider an act of mercy. Wildlife young can be the carriers of serious diseases such as distemper and rabies. It is also extremely difficult for these animals to survive on their own if they are released back into the wild after being

raised by humans. Wild animals do not make good pets.

Giving first aid to injured birds and animals requires great expertise. In Michigan, some people are authorized by agencies such as the Department of Natural Resources to provide wildlife rehabilitation services because they have demonstrated proficiency in that kind of work. Under all other circumstances, it is unlawful to pick up or retrieve any protected wild animal.

Please try to remember that in almost all situations, wildlife belongs in its natural environment. If you encounter an obviously injured animal, contact your local animal control agency or DNR office.

Artrain returns to Traverse City for a weekend

Artrain, the nation's only traveling art museum in a train, returns to Traverse City during Memorial Day Weekend, commemorating its first stop 25 years ago. Featuring an exhibition entitled, *The Romance of Transportation: Vehicle and Voyage in North American Art*, this unique

museum will be open Sat., May 27 from 10 a.m. to 5 p.m., May 28 from 1 p.m. to 5 p.m. and Mon., May 29 (Memorial Day) from 10 a.m. to 5 p.m.

Admission is \$3 for adults and \$1 for children and seniors; tickets include free admission to the Denno's Museum Center

on Saturday or Sunday. Artrain will be located at The Old Depot, just south of the intersection of Eighth and Woodmere.

Founded by Helen Milliken in 1971, Artrain has visited over 500 communities in 33 states and has welcomed over 2.5

million visitors on board.

Its converted railcars include three gallery cars and an artist's studio.

For more information call Artrain at (313) 747-8300 or the Denno's Museum Center at (616) 922-1055.

Jordan Township officials issue recall responses

Three Jordan Township officials facing a June 29 recall election have issued written responses to the allegations against them.

The responses from township supervisor Joseph Haney, Sr., clerk Leona Stanek and trustee Lucille Lercel were received by Antrim County Clerk Laura Sexton. They will be printed on the ballot along with the recall question on each individual.

■ Haney's ballot response reads: "I have been on the Jordan Township Board for 23 years. In that time we have improved and paved a lot of roads. We have started the clean-up day. We work for low wages, so we can use your tax money for the benefit of the township."

■ Stanek's reply states: "For 18.5 years I have represented Jordan Township residents and helped make the township a place we are proud to live in. We have voted to build and repair roads, had spring clean-ups, acquired voting machines free, put in a bathroom, well and septic and a new stove in the township hall. We have been financially responsible and ensured the town-

ship was always operating within our budget."

■ Lercel's ballot statement is: "As a trustee of Jordan Township, I have always voted to use our limited budget for the best interest of all township residents."

The recall question states each of the board members "does not have the township's best interests in mind by:

- Reappointing two members to the township Tax Board of Review whose actions caused an unfair distribution of the tax burden;

- Repeated disregard of the wishes and opinions of the township citizens;

- Dereliction of duty to inform the board and the public of correspondence from the State Tax Commission and the resignation letter from the township treasurer."

Jim Galbraith, head of the Jordan Township citizen committee seeking to remove the three board members from office, said the recall responses did not address the central points of contention in the township.

"The question isn't whether they've paved roads or had clean-up days, it's whether they functioned in the best interests of township residents when they reappointed the board of review members," he said.

"They ran the risk of having the entire tax

roll redone by the state. That would have been a tragic expense. They could have appointed other people to the review board in November - there were volunteers. We could have avoided all of these problems and expense. I don't call that responsible government."

CHIROPRACTIC DOCTORS Dan Kullman (left) and Dan Thomas (right) worked with more than 80 athletes, including former East Jordan resident Rene Spence Gerritson, during the recent mountain bike competition at Boyne Mountain. As members of the Chiropractic Council's Chiropractic for Athletes Clinic, the doctors performed adjustments and treated two dislocated shoulders and a head injury at the competition.

Economic help for seniors

Michigan's senior citizens are ensured economic protection under two measures approved recently by the Michigan House.

State Rep. Beverly A. Bodem, R-Alpena, hailed House Bills 4328 and 4278 as victories for older residents. Approval of the legislation on May 10 coincided with the observance of the 21st annual Senior Power Day at the state capitol.

HB 4328 creates the Michigan Long-Term Care Partnership. HB 4278 increases penalties for violation of the Michigan Consumer Protection Act against seniors.

HB 4328 establishes a partnership between private insurance and Medicaid to finance nursing-home care and home health services for seniors.

Michigan residents are eligible for the program if they purchase and maintain a partnership policy providing coverage for at least three years. Benefits allotted under the partnership policy must be exhausted before individuals are considered for Medicaid coverage. To determine Medicaid eligibility, the Department of Social Services will first disregard exemptible financial assets. DSS then deducts an additional sum of assets equal to the coverage amount under the partnership policy. The program also exempts policyholders from future estate recovery.

"People would be able to plan for their needs by securing coverage without jeopardizing their total estate," Bodem said. "This is a sound alternative to reducing assets as currently is the practice for becoming eligible for Medicaid. Most important, however, is the ability to empower individuals so that they can provide for their golden years."

HB 4278 provides those 60 and older with further protection from fraudulent consumer activities, including those who engage in the sale of financial securities and instruments. Violators of the Michigan Consumer Protection Act would face a maximum fine of \$10,000.

Money from fines would be credited to a newly created Older Victims Fund for educational programs implemented by the Office of Services to the Aged. The program would include a toll-free telephone number, information on consumer crimes against older people and the remedies available.

"Consumer fraud is devastating to all victims and especially damaging to seniors," Bodem said. "Those involved with illegal scams deserve to be penalized to the fullest extent of the law."

Both bills now go to the Senate for consideration.

Chiropractors team with cyclists

Amidst the speed, sweat and gut-wrenching determination by the athletes April 22 in Boyne Falls, Dr. Dan Thomas and Dr. Dan Kullman, local chiropractors, provided a sports clinic to help the 400 participants ride the mountains of northern Michigan at their peak performance.

Thomas and Kullman were chosen to adjust patients at the event because of an interest in mountain biking and its participants.

"I love everything about mountain bike racing, but I also understand how much stress and abuse these athletes put on their bodies," Thomas said. "I wanted to utilize my knowledge and experience of chiropractic to best serve the participants."

Thomas and Kullman are both members of the Michigan Chiropractic Council's (MCC) Chiropractic for Athletes Clinic, a clinic committed to serving professional and amateur athletes.

Chiropractors have great respect for the body's natural ability to heal itself. They

use their knowledge to naturally enhance the healing and overall ability of their patient's bodies, without the use of drugs and other means of modern medicine.

Thomas and Kullman worked many long and diligent hours in the heart of the event, while performing chiropractic on athletes before and after competition.

The two area physicians are both new to northern Michigan. Dr. Thomas recently opened an office in East Jordan after 12 years of practice in a rural area

near Flint. Dr. Kullman recently opened his first office in Petoskey.

The clinic also participates at the LPGA Oldsmobile Classic, The U.S. Open golf tournament, the World Longhorn Rodeo, several Gus Macker basketball tournaments, and the Detroit Free Press/Mazda International Marathon. The clinic is made up of more than 70 Michigan chiropractors who provide free chiropractic care at more than 50 events across the state.

Overflowing mailboxes send message

When your mailbox is overflowing with mail, it is a sure sign that no one is home, and an open invitation to burglars.

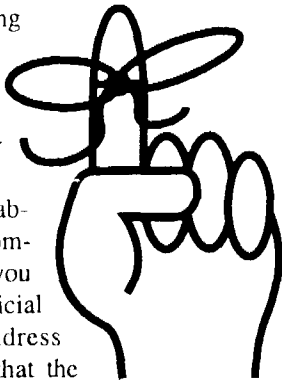

Before you pack your bags and leave for a trip to Grandma's house, or that anxiously anticipated tropical vacation, stop by your local post office to file a temporary hold order to suspend deliver of your mail. Or, if you prefer, arrange for a neighbor to collect your mail daily while you are gone.

Temporary hold orders can last for up to 30 days and are initiated by filling out an official hold order form, available at all post offices. If a trip to the post office is not possible, a signed slip of paper clearly not-

ing the beginning and ending dates of the hold can be given to your letter carrier.

For longer absences it is recommended that you fill out an official Change-of-Address Form, noting that the forwarding order is temporary, and providing the beginning and ending dates.

Mail delivery resumes the next working day after the ending date of temporary hold requests. If you return earlier than expected, notify the post office to resume delivery, or if the date of your return will be later (within the 30 day limit), have the hold extended. The Postal Service offers these services to protect its customers' mail from theft, vandalism, animals, and hazardous weather conditions. In addition, delivery efficiency is increased.

death notice

Glen Sutton

Glen V. Sutton, 66, of Boyne City, died May 8, 1995, in Eveline Township.

Funeral was May 12, at New Beginnings Chapel in Boyne City. Burial was in Mt. Bliss Cemetery in Jordan Township.

Foes wreak havoc on Red Devils

BY S.F. PUCKETT
Sports Writer

The opportunity for the Red Devils to take command in the Lake Michigan races was there, but so were some well-prepared and unforgiving foes.

The May 8 contests began with East Jordan scoring two in the first, only to see Boyne City score four, six and two, rolling to the 12-7 win.

Dawn Meads took the loss for the Devils, Kim Albro provided support with a double and triple, Amelia Fleming added a pair of hits and Kelly Woodard a triple.

Seven of the Rambler runs were unearned.

Game two was a duel. The Ramblers leading early 2-0, the Red Devils tying the game in the fourth, 2-2. Boyne scored solo runs in the fourth and fifth, holding back the Devils and sweeping the set with a 4-2 nightcap win.

Meads allowed just five hits but was tagged with the defeat. She added two hits to the cause, Kim Albro had a hit, Cathy King contributing a double.

"We played much better in game two, with much more determination." Coach

Meg Fowler concluded, "Our bats didn't show up at all today."

May 11 brought Traverse City St. Francis to the East Jordan facility, and with it a tough pitcher. The Glads got wins of 4-1 and 10-1, allowing East Jordan just one hit on the day.

Kelly Woodard walked in the first inning of game one, scoring on a Dawn Meads sac fly for the lone Devil highlight, other than Kyle Krause getting the only hit, a single.

"We played great. Our girls would have beaten a lot of good teams with their effort," said a proud coach Fowler.

Softball stats

Mon., May 15

• Game one

Grayling (h) 0-0-1-0-0-0=1
East Jordan (v) 0-0-4-3-3-6=16

Winning pitcher - Dawn Meads

Up-and-down week for Lady Devils

BY S.F. PUCKETT
Sports Writer

The Red Devil softball entourage went traveling to Grayling May 15, hooking up with the Vikings for some furious action.

The Devils struck first, scoring four in the third and never stopping after that, putting up runs every inning to the end, including a six-run sixth to complete the 16-1 romp.

Dawn Meads tossed a two-hit, seven-strikeout gem for the Devils, ably helped by JoDee Cam and her four singles, Meads

herself with three hits, Kyle Krause and Angie Reid each with three hits, and Cathy King's two singles.

Game two was closer in score, East Jordan vaulting to a 10-4 lead before settling on a 14-12 win. Meads got another win, this time in relief of Angie Snyder and Krause. Amelia Fleming and Cam each had two-hit games, with Snyder walking five times.

The Red Rayders of Charlevoix came calling May 18, the ladies from the west with an agenda all their own. East Jordan battled mightily, but the Liz Grunch-led

Rayders smashed their way to victory, 17-5, tagging Dawn Meads with the loss.

Amelia Fleming managed to lead the Devils with three hits, Cathy King added two and JoDee Cam matched Meads with one hit each.

The Rayders proved successful in the nightcap as well, pounding out a 13-3 win over the Devils, Angie Snyder getting the loss. Meads and Cam paired up once more, this time with two hits apiece. Kyle Krause and Cathy King each had one hit as the Devils slipped to 12-8, 6-4 overall.

Regional Track: Class C at EJ

BY S.F. PUCKETT, Sports Writer

Mancelona's 4x100 relay team of Amy and Anne Duerksen, Jessica Avery and Mande Alexander won their race in 51.96 May 20, earning them a trip to the State Finals June 3. Second place finishers Steve Wiltfong (high jump), and Mike Newkirk (1600) of East Jordan, Dan Thumm (200) of Mancelona, Amy Duerksen (400) and Joanna Tschudy (high jump) of Elk Rapids all qualify for state as well.

Team scores placed East Jordan and Mancelona tied for eighth overall with 27 apiece, Elk Rapids scoring eight. Lake City won the girls title.

The boys, won by Charlevoix, saw East Jordan finish fourth with 44.5, Mancelona ninth at 25.5, and Elk Rapids 16th with six points.

Class C regional track meet results

Pole vault, Josiah Middaugh (4), 10-10.
High jump, Steve Wiltfong (2), 6-2; Jim Malpass (5), 5-10.
110 hurdles, Steve Burks (4), 15.75.
300 hurdles, Steve Wiltfong (4), 43.03; Steve Burks (6), 43.58.
1600 meters, Mike Newkirk (2), 4:26.41.
3200 meters, Mike Newkirk (3), 10:01.95. Josiah Middaugh (5), 10:10.13.
Relays: 4x100, East Jordan third, 46.0.
Girls high jump, Jenny Goebel (4), 4-10.
Long jump, Amanda Pepin (3), 14-11.5.
100 hurdles, Amanda Pepin (4), 17.35.
100 meters, Callie Ransom (3), 13.06.
200 meters, Callie Ransom (4), 27.85.
Relays: 4x100, East Jordan fifth, 53.40; 4x400, East Jordan sixth in 4:26.63.

book nook

Dinosaur Bob
By William Joyce

Attention dinosaur fans! *Dinosaur Bob* is at the Jordan Valley District Library.

This Reading Rainbow book is geared toward children ages four to eight. It features a dinosaur that is found in Africa by the Lizardo family. They decide to bring him back to their home in Pimlico Hills.

Bob's many talents include playing the trumpet and dancing, but he is most noted for baseball. While in

Pimlico Hills, Bob has many triumphs and tribulations, but all's well that ends well!

Come check out *Dinosaur Bob* and the many other dinosaur tales at the library.

Devils dump Rayders

BY S.F. PUCKETT, Sports Writer

East Jordan took advantage of conference rival Charlevoix May 18, sweeping away a pair of baseball wins.

Tom Worgess struck out 11 to stifle the Red Rayders in game one, 6-3. Matt Sherman boosted the Devils with a two-hit game.

Sherman marched farther into the offense with three hits in game two, including a double.

Winning pitcher Ken Teeple slammed two hits, including a home run, en route to a 7-1 victory.

Teeple allowed two hits while striking out 11.

CHARLEVOIX COUNTY UNIFORM NUMBERING ORDINANCE

ARTICLE 1

TITLE, PURPOSE AND LEGAL CLAUSES

Section 1.1: Title

THERE IS HEREBY CREATED the "Charlevoix County Uniform Numbering Ordinance" and further shall be known in the short form as the "Numbering Ordinance", hereinafter referred to as the "Ordinance".

Section 1.2: Purpose

In order to uniformly assign and maintain house numbers and provide for easy identification of those numbers for the various purposes and to promote the health, safety and welfare of the citizens of the County of Charlevoix, the County of Charlevoix enacts its Uniform Numbering Ordinance.

Section 1.3: Authority and Scope

The address system created and administered by the county pursuant to this ordinance shall be the only address system created, authorized, recognized, administered or used within the unincorporated portions of Charlevoix County. It is the intent of this ordinance and the finding of the County Board of Commissioners that:

1. It is contrary to the pursuit of health, safety or welfare of the county to have more than one address system administered or in use in Charlevoix County.

2. For purposes of efficiency and consistency of the operation and administration of an address system, it is contrary to the pursuit of the health, safety or welfare of the county to have more than one supervisory agency, as provided in Section 5 of this ordinance, be the authority to name roads in the unincorporated portions of the county; and to have more than one supervisory agency be the administrative, coordinative, and address numbering authority.

3. To have a single county-wide address system, and the administration thereof, is necessary to maintain and pursue the health, safety and welfare of the county and this ordinance does not contravene the general laws of this state and does not interfere with the local affairs of a township, city or village within the limits of Charlevoix County.

Section 1.4: Legal Basis

This Ordinance is enacted pursuant to Section 11 of Michigan Public Act 156 of 1851, as amended, being Michigan Compiled Law 46.11 (County Board of Commissioners).

ARTICLE 2 DEFINITIONS

Section 2.1: Purpose

The purpose of Article 2 is to set forth the definitions of certain terms used in the ordinance. When not inconsistent with the context, the present tense includes the future, words used in the singular number include the plural number. The word "shall" is always mandatory and not merely permissive. The word "person" includes a firm, association, organization, partnership, trust, company or corporation, as well as an individual.

Section 2.2: Undefined Words

Any word not defined herein shall be interpreted within its common and approved usage.

Section 2.3: Definitions

ADDRESS means a set of numbers, and a compass designation, if applicable, and a road name used in combination as one statement of location.

ADDRESS NUMBER means a five-digit number assigned to consecutive intervals along a street or road pursuant to the Charlevoix County Grid. (Attachment A)

DIAGONAL ROADS as used herein, are roads whose course does not run in either an approximate North-South or East-West direction.

DISPLAY as used herein means the manner the house number is affixed to a structure, (or otherwise displayed when affixed to a structure is not adequate visibly) so that it is readily identifiable pursuant to provisions of this Ordinance.

INTERVAL means a distance along a roadway covered by this Ordinance of 5.28 feet, there being 1000 intervals per mile (5,280 feet). Intervals of greater or lesser length than 5.28 feet may be determined by dividing the actual distance of the mile section by 1000.

NUMBER ASSIGNMENT FORMULA is defined as follows:

Beginning from the point of origin a house number shall be assigned for each interval, with each interval on the South and East side of the roadway as one leaves the point of origin being assigned an even number, and each interval on the North and West side as one leaves the point of origin being assigned an odd number. The numbers assigned shall increase consecutively by an increment of two (2) for each interval. Intervals shall run North, South, East and West or diagonally from the point of origin.

OWNER means the person(s), corporation, partnership, or other legal entity having an interest in the structure as land contract purchaser, life estate interest, or fee simple interest, individually or jointly, unless said interest is subject to a recorded land contract.

PLAT means a map of and other information about a subdivision of land, which is drawn and information compiled, approved, and recorded in conformity with Michigan Public Act 288 of 1967, as amended, being Michigan Compiled Laws 560.101 et. sq., the Subdivision Control Act.

POINT OF ORIGIN as used herein means the intersection of an East-West base line and a North-South base line from where all intervals begin. The North-South, East-West intersection in Charlevoix County shall be where the line between T32N and

T33N intersects the line between R5W and R6W.

RESIDENT or OCCUPANT means the person(s), corporation, partnership, or other legal entity occupying the structure or property upon which the structure is situated pursuant to a tenancy at will, written lease agreement, option to purchase, or other agreement giving the resident or occupant the right to use the structure individually or jointly with others.

ROAD means any road, street, highway, lane, drive, avenue, boulevard, two-track, court, cul-de-sac, circle, way, route, track, artery, and so on which affords a means of travel and ingress or egress to abutting property, whether public or private.

ROAD NAME means that part of an address which is the proper name of a road.

STRUCTURE shall include anything constructed, erected or placed with a fixed location on the ground and includes, but is not limited to: residential building, mobile home, commercial building, industrial building, office building, public building, well, field pump, utility, lighted billboard, lighted outdoor display and storage facility.

SUBDIVISION means an area of land which has been divided by means of filing a plat.

ARTICLE 3 ROAD NAMES

Section 3.1: Not Duplicative

A road shall not be given a road name which duplicates the name of any other road anywhere in the county.

Section 3.2: Subdivision Plats

A road which is constructed within the boundaries of a recorded subdivision shall have the name shown for the dedicated right-of-way on the recorded plat.

A plat shall not be approved by the Road Commission or Plat Board with a road name or road right-of-way name which does not comply with the provisions of this ordinance.

Section 3.3: Highway and Route Numbers

A road shall not be named, for address purposes, by use of both a highway number and county route (road) number such as U.S. 31 or County Road 624. Nothing in this section shall prohibit the use of highway or county routes (road) number to designate county primary routes, or state and federal highway routes.

Section 3.4: Authority to Name Roads

The Township Boards shall have the authority to name roads in the unincorporated areas of the county. It shall be the policy of this ordinance to discourage the practice of changing existing road names.

Section 3.5: Changing existing Road Names

The existing road name, or the name applied to a right-of-way as shown on an approved preliminary plat, shall not be changed except as provided herein:

A. Only at the Township's option, when road construction has resulted in the extension of a road to another road so that both roads are joined in such a manner that both roads may be considered one road instead of two separate roads. Two roads shall not be considered one road unless both roads have address numbering in a north-south direction or both roads have address numbering in an east-west direction.

1. In the instance of changing a road name, a third name shall not be used. One of the two existing road names shall be applied to the entire road and the other road name shall be discontinued.

2. The Township shall determine which road name is to be used for the entire length of both roads so the road name change results in modification to the fewest number of addresses. In the event the system of modifying the fewest addresses is not applicable, then the road name which is oldest and already applies to the portion of the road which has existed the longest shall be the road name used.

Section 3.6: Notification of Road Names

The Township shall notify the Equalization Department, by providing a copy of the Township Board's resolution, whenever a road is named for the first time and whenever the existing name is changed to another, as provided below.

A. In the case of naming roads or road right-of-ways as part of the process of approving a preliminary plat or final plat, the recording of said plat in the Charlevoix County Register of Deeds Office shall be sufficient notice to all interested parties.

B. In all other cases of naming roads for the first time, the Township Board shall, by resolution, notify the Equalization Department of the road name and the location and extent of the road the road name is applied to.

C. The Equalization Department shall notify the following interested parties, within 30 days, by first class mail or personal delivery, of any new or changed road names:

1. The Road Commission
2. The respective fire department.
3. The respective ambulance service provider.
4. The Charlevoix County Sheriff's Dept.
5. The U.S. Post Office serving that area.
6. The 9-1-1 Central Dispatch agency.
7. The abutting property owners.

Section 3.7: Master File

The Road Commission and Equalization Department, or its designee, shall jointly keep a master index of the proper names of each road in Charlevoix County. The proper names, as much as possible, shall be reflected on the certified set of maps filed by the Road Commission with the Michigan Department of Transportation, pursuant to Michigan Public Act 51 of 1951, as amended, being Michigan Compiled Laws 217.651 et. sq. Motor Vehicle Highway Fund Act. If a discrepancy exists between the certified maps and the master index as to the name of a road, its spelling, or punctuation, the master index shall rule. The master index shall be updated from time to time as necessary.

ARTICLE 4 HOUSE NUMBER DISPLAY

Section 4.1: Display

Each primary structure shall display a house number. A house number shall not be displayed containing numbers less than 3 inches (7.62 centimeters) in height. It shall be visible from the roadway named in the address, and all house numbers shall be in Arabic numerals (i.e. Block or Script).

A. The resident, occupant, or owner of a structure shall cause the assigned address number to be displayed on the front of the structure and shall be displayed in such manner as to be plainly visible from road traffic lanes in either direction of approach.

B. Where the numbers on the front of the structure cannot be read from the road, the resident, occupant, or owner of a structure shall cause the assigned address number to be displayed upon a post of suitable strength and construction, adjacent to the driveway or access of the premises. The height of the post shall be not less than six (6) feet above the level of the adjacent road and the assigned address number shall be placed on both sides of the post so as to be plainly visible from road traffic lanes in either direction of approach.

C. Where the display post is located on a road other than the road of the premises as numbered, the display post shall show both the assigned address number and the proper road name of the premises.

Section 4.2: Use

The resident, occupant, owner, utility company, other utility service providers, county offices, municipal governments, police, emergency services and any other persons or entities, shall use the assigned address for purposes of delivery, locating a structure, and legal or recorded address of record to facilitate the use of the same system of identifying a location of a structure by all respective entities in a coordinated and uniform manner.

Section 4.3: Stricter Regulations

Nothing in this ordinance shall prohibit a municipality or the postal service from requiring stricter, more visible display of addresses or address numbers.

ARTICLE 5 HOUSE NUMBERING ADMINISTRATION

Section 5.1: Equalization Department

The Equalization Department shall be an agency with exclusive overall administrative and coordinative responsibility to administer the operation and application of this ordinance.

The Equalization Department shall have the authority to draft rules and regulations for the operation of the House-Numbering System. Said rules and regulations shall be approved by the Charlevoix County Board of Commissioners before they take effect.

Section 5.2: City or Village Borders

The County numbering system may be used to number properties along the portions of the roads that border a City or Village regardless of whether the property being numbered is located within the City's or Village's boundaries or within a Township's boundaries. The Equalization Department will coordinate the use of the most feasible grid system for the area and work with the governmental unit involved.

Section 5.3: Maps

The Equalization Department shall cause to be created and maintained accurate maps of all roads within Charlevoix County and shall make a 5-digit whole number available for each interval along the roadway.

Section 5.4: Approved Road Name

House numbers shall not be assigned along any public road, unplatted private road or access easement of record where the name of said public road, unplatted private road or access easement has not been approved by the Township Board and the Equalization Department.

Section 5.5: Assigning House Numbers

The Equalization Department shall be responsible for the assignment and display of house numbers for all intervals along roadways emanating from the point of origin, including diagonal roads, pursuant to this Ordinance.

Section 5.6: Changing Address Numbers

Existing house numbers which do not comply with the Charlevoix County House Numbering System may be changed either at the request of the property owner or his or her agent upon approval of the Equalization Department; or such change may be initiated by the County. When a change is initiated by the County, the property owner shall be notified, in writing of the change in address and said change shall become effective 30 days from the date of notice.

ARTICLE 6 BUILDING PERMITS

Section 6.1: Building Permits

A construction code (building) inspector operating and authorized to issue building permits under Michigan Public Act 230 of 1972, as amended, being Michigan Compiled Laws 125.1501 et. sq. State Construction Code Act - regardless which nationally recognized construction code is being enforced - shall not issue a building permit until after an address number has been issued for the proposed structure.

In some instances, it will not be possible for an address to be issued until after the location of the building is clearly marked on the ground. When it is not practical to mark a building location on the ground until after a building permit has been issued, the construction code inspector shall not issue a building permit until after: (1) a written application for an address has been received and (2) approved with a notation the address will be issued at a later date by the Equalization Department.

ARTICLE 7 ENFORCEMENT, PENALTIES, SAVING CLAUSE

continued on page 12

**PROCEEDINGS OF
EAST JORDAN CITY COUNCIL**

The East Jordan City Council met in Regular Session, Tuesday, May 16, 1995 at 7:50 p.m. in the East Jordan Civic Center, Mayor Peck presiding with all members of Council present. Minutes were approved and authorization was given to pay \$56,210.33 in bills as presented.

Further Council Action: Donated railroad rails to Raven Hill; proclaimed the week of May 20, 1995 as National Safety Boating Week in East Jordan; were informed by Sheriff Lasater that a County Sheriff's Sub-station will be placed in East Jordan; extended current appointments to various boards and commissions until the first City Commission organizational meeting to be held in November; levied tax mills for 1995; amended the DDA boundaries and adopted the DDA Financial and Development Plans.

A copy of the minutes of the above meeting is posted in City Hall for review and copying during normal office hours.

Kathy O'Rear, CMC
City Clerk

34-1tc

continued from page 11

Section 7.1: Enforcement

A. A construction code (building) inspector operating and authorized to issue construction permits under Michigan Public Act 230 of 1972, as amended, being Michigan Compiled Laws 125.1501 et. sq., State Construction Code Act - regardless which nationally recognized construction code is being enforced - may not approve a final inspection of a structure or issue an occupancy permit if the address number is not displayed as required in this ordinance.

B. Anyone may file a complaint with the Charlevoix County Sheriff's Department concerning an alleged violation of the requirements of this ordinance. Upon receipt of a complaint, the following procedure for enforcement shall be used:

1. A sheriff's deputy, or the individual designated by the Equalization Department to assign address numbers, shall determine if a violation exists or not, in his or her judgment. If it is found a violation does not exist, the matter shall be dropped.

2. If a violation is thought to exist, the sheriff's deputy, or the individual designated by the Equalization Department to assign address numbers, shall contact the resident, occupant, business or owner of the structure in an attempt to obtain voluntary compliance with this ordinance. If the violation is corrected, the matter shall be dropped.

3. If a violation continues to exist and voluntary compliance is not likely, the sheriff's deputy, or the individual designated by the Equalization Department to assign address numbers, shall notify the owner of the structure, as shown on the latest assessment roll maintained by the Charlevoix County Equalization Department, that a violation exists. Said notice shall explain the violation and cite the appropriate section of this ordinance which is being violated and shall explain how the violation may be corrected. Said notice shall provide for a period of sixty (60) days time in which the violation shall be corrected. Said notice shall be delivered to the owner by first class certified mail, with a return receipt, or by personal delivery by a sheriff's deputy with an affidavit of service.

4. If the violation is still thought to exist, the owner shall be responsible to reimburse the county for all costs incurred by the county or their agents to properly post the property; and, the owner shall be responsible for a civil infraction.

5. A municipal civil infraction citation may be served on the resident, owner or occupant by a sheriff's deputy, building inspector, or individual designated by the Equalization Department to assign address numbers, by personal service, certified mail with return receipt, or by posting a copy of the citation on the structure and mailing a copy by first class mail to the resident, owner or occupant.

c. Nothing in this section shall prevent the sheriff's deputy or construction code building inspector or the individual designated by the Equalization Department to assign address numbers from seeking the assistance or counsel of the Prosecuting Attorney or his designee(s) in pursuit of a remedy to the violation and for the determination if a violation exists.

d. Nothing in this section shall prohibit the United States Postal Service from terminating mail delivery in the case of a violation of this ordinance, or imposing other sanctions allowed under law.

Section 7.2 Penalty

Any violation of this ordinance shall constitute a municipal civil infraction.

Any person violating the provisions of this ordinance shall be responsible for a civil infraction and be ordered by the court to pay a fine of not less than one hundred (\$100) dollars or more than (\$500) dollars, plus court costs, costs of prosecution and the county's cost to install an address number.

In addition to the imposition of the foregoing fines, penalties and other legal remedies, the Charlevoix County Board of Commissioners may designate an agency of the county to cause the proper posting of numbers, and the cost thereof assessed against the owner of such premises.

Section 7.3: Fees

It shall be the policy of the county to provide the service of issuing addresses without cost except that the County Board of Commissioners may adopt a fee schedule from time to time if they deem it necessary.

Section 7.4: Saving Clause

The provisions of this ordinance are hereby declared to be severable and if any clause, sentence, word, section or provision is declared void or unenforceable, for any reason, by a court of competent jurisdiction, the remaining portions of said ordinance shall remain in force.

Section 7.5: Effective Date

This ordinance shall take effect sixty days after adoption by Charlevoix County and publication as required by law. All ordinance or parts of ordinances in conflict with any of the provisions of this ordinance are hereby repealed.

THANK YOU

WE WOULD LIKE to thank Grand Traverse Area Hospice - North Hospice Volunteers, Dr. Jim and Jackie Lawrence and their staff, Rev. Ray Sundell for his words of comfort, Covell Funeral Chapel, Elk Rapids Personnel, all our relatives and many friends for their loving and dedicated support during Alex's long and final illness. Thank you all for your expression of sympathy, what ever it may have been, they are all deeply appreciated by the family of Alex Campbell. c/122-23-40-1tp

HELP ME! My name is Slayter Chachi Lady, I am a playful 4 1/2 month old female black lab/mix puppy, my humans have very little time to spend with me and I am getting very lonely. I am house broke, although I may have an accident. I love to play with little humans and be outside in nice weather. I do have a tie out stake and chain, my own dish, and toys, and a leash. I'll bring with me any of my food I have left. Can you give me a good home so I can get out of here? My owner changed her mind last time I ran this ad but this time she is serious! If you can help me please call (616) 533-8135 between 6 and 10 pm weekdays, anytime before 10 pm weekends. Thank you. ct22,24,40-1tnc

Another step toward natural river designation

continued from front

business community expressed concerns about limitations on expansion.

Pearson said the discussion was meant to reveal such concerns and assured the group that the designation could contain special provisions for specific areas, such as Lake Patricia, which has a number of industrial properties along the south side.

However, Pearson defended the concept of protecting the tributaries.

"The tributaries are the building blocks of the river," he told the group. "Loss of vegetation and erosion are concerns even in the little tributaries because their water

quality is critical to the whole river."

He emphasized that the designation could be whatever best serves the river and the people along the river.

"It wouldn't make sense to set ourselves up to hear immediate needs variances."

Pearson outlined benefits of the designation for property owners.

"You can be sure your neighbor won't clear-cut to the bank of the creek," he said. He noted owners of undeveloped property along the protected banks may qualify for a tax credit.

"The designation ensures everything is managed and enforced in the same way in

all areas of the system," added Carter. "It actually protects owners."

Pearson noted that public agencies and utilities must also abide by Natural Rivers zoning, while they are exempt from municipal zoning.

"This is the only zoning that controls gas and oil development," he emphasized.

One of the concerns expressed by audience members was that the new zoning would add to the layers of regulations involving permits.

Carter pointed out that no extra fees are involved and permits are processed concurrently with DNR consideration.

Fenske added that variances do take longer in any case, but the process time for simple permits in her jurisdiction will not change — it is presently about two weeks.

"People are looking to rivers for development because the lakes are developed and priced out of their range," said Pearson. "Development pressures are really increasing."

"We know now that general development can wreak the dynamics of the river system," said Richter. "Sooner or later it will be developed."

The process of declaring the lower Jordan and its tributaries will continue with Carter's office considering the concerns expressed. Carter said that once a specific proposal is formulated, the DNR may conduct another informal discussion.

A public hearing is required before the formal proposal can be adopted. Carter expects the hearing to take place sometime this fall.

Protection through zoning

What the designation of the lower Jordan River and its tributaries will mean to waterfront owners:

- All new development is limited to where 200-foot setbacks for buildings are possible (100 feet on the tributaries). Setbacks are from the river bank, not the flood line.
- New commercial and industrial structures and uses, except campgrounds, are completely prohibited within the management area.
- Land fills or buildings are not allowed within the 400-foot management area where the ground water is within six

feet of the surface.

- No damming, dredging, filling, or channelization is permitted on the protected part of the river.
- Docks, signage, grazing and logging have some restrictions.
- Only underground utility lines can be placed within the management area and other utility or pipeline use is generally prohibited.
- Mineral, oil and gas development is banned within the zoned area.
- No new public roads or highways can be constructed within the zone.

DDA boundaries, funding approval

continued from front

assured that no plans for a levy or assessment exist.

"We're not asking for approval of, or proposing special assessments or a levy."

Hughes and members of the DDA board also spoke in defense of the concept of the DDA, although Hughes reminded that issue was already decided.

Council member Mike Dionne raised another issue. He said he was uncomfortable with what he called a vague plan — he wanted to see more engineering details before granting his approval.

"The development plan is not required by law to address specifics," said Hughes. "The purpose is to set forth goals for city development." He added it would take many thousands of dollars to get the engineering schematics Dionne was requesting.

"That takes place after the plan is approved," said Hughes.

Concerns about control were also raised. Hughes said the council will have control at several levels:

- The DDA cannot dictate, but only recommends projects. The details are totally subject to council approval.
- Council approves the DDA annual budget.
- The DDA board is serv-

ing at will of the council. The council has the authority to appoint the executive director of the board and approve all board appointees.

"You couldn't ask for more control," said Hughes.

There were positive voices present in support of the DDA. Scott Harper, of Jordan Valley Canoe,

spoke:

"As a tax-paying business

owner, I am in favor of the DDA," he said. "You have to be very short-sighted not to look at the benefits for the whole community."

At the final roll call, all council members approved both the boundaries and the TIFA. At Dionne's suggestion, each approval included a resolution to refrain from special assessments or levies, except by petition of those assessed.

Outstanding salesmen

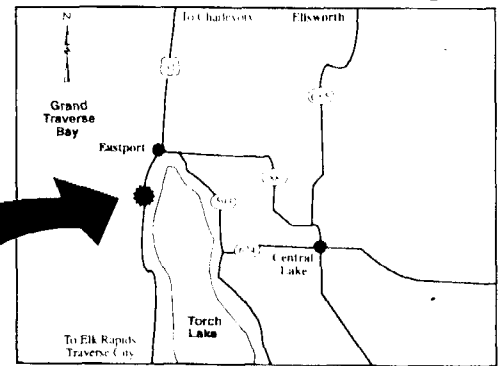

The collective effort by students at East Jordan Middle School to sell Spartan coupon books will benefit students now and in the future. Students sold \$3,410 of the books, enough to purchase a number of new software packages for the school computer lab — some of the top student salesmen show off the new software. They are (from left): James Hynds, seventh grade; Melissa McKenzie, sixth grade; and Joni Wood, eighth grade. Jessica Murphy and Dustin Tinney, both eighth graders, also qualified in the top five. The five students sold a total of \$500 worth of the books.

Big Giant Huge Used Boat Sale

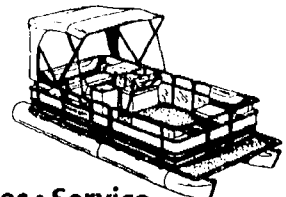

Sunday, May 28
Monday, May 29

(616) 599-2813
