

What will become of the Charlevoix county fairgrounds? The 40 acres of unused county property has been the topic of much discussion since the county agricultural society decided to cancel the 1954 county fair. Suggestions have been numerous. The East Jordan Business-

men's Association made a recent effort to have the Michigan 4-H Foundation use the area for a state-wide center. It has been suggested as a possible manufacturing site, fat stock show grounds, hot rod racing area, weekly cattle auction, football field, etc.

A suggestion was made to the Charlevoix council of supervisors to sell the grounds and turn the money over to Grandvue Hospital. Latest report shows that although the county agricultural society decided not to hold a 1954 fair on the grounds, the society itself has not dissolved. Sug-

gestions have been made to hold a northern Michigan industrial progress show on the grounds. About 20 acres of the grounds are wooded and 20 acres level containing the area used for fairs. This area includes the ball diamond, race track and fifteen

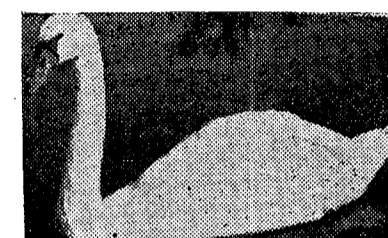

buildings, all in good condition. The fairgrounds area is fenced. There is unlimited electricity available on the grounds and also deep wells for water with city water piped to the grounds. The grounds are one-quarter mile from East Jordan on state highway M-32. Deer creek runs

almost adjacent to the property on the south and Jordan river flows about one-quarter mile directly west from the area. Claude Pearsall and Mike Barnett probably know more about the fairgrounds than any other person in Charlevoix county. Pearsall is president of the agri-

cultural society and Barnett is a member of the county board of supervisors. The county board of supervisors as well as the county agricultural society are open to constructive suggestions for use of the area which would benefit all taxpayers within the county. (Bill Huckle aerial photos)

County Welfare Relief Hits \$1,300 Per Day

OVER THE BACK FENCE

BY MARSHALL

An airplane went over East Jordan the other day and few people took the time to glance up at it. But this wasn't true back in 1920.

Flying machines were causing quite a stir around the town and it was that year that a good many East Jordan residents saw one for the first time.

An East Jordan man E. E. Hartman was mighty interested in the new flying machine. Being an inventor he went to work on a device that was supposed to prevent airplanes from falling rapidly to the earth.

He displayed his invention at a meeting of the East Jordan Board of Trade, January, 1920. The following April there was quite a fuss made over the fact that a plane was flown from Grand Rapids to Petoskey by Rosswit Airplane Company. It was the first plane to make the trip. That was April 24, 1920.

Two years later down in Lansing an East Jordan girl, Miss Adeline Trojanek, made a big headline for herself in state newspapers. She walked around on the wing of a plane as it was flying 3,000 feet from good old mother earth.

Many a mother asked: "What is this younger generation coming to?" That was July, 1922.

She not only walked on the wing, 3,000 feet up, but she was a passenger when Lieut. A. J. Davis, a Michigan State College flier, put the plane in a tail spin, a falling leaf and several loops.

Thousands at Lansing watched the air minded girl from East Jordan.

Time to stop looking back and look ahead.

The day may come when there will be no tower men in the fire towers around East Jordan.

Television may put these men out of work. Conservation men are looking over equipment that may do the job.

A TV research firm has produced a suitcase-sized TV camera which can be mounted atop a forest fire tower to watch for fires around the clock.

The camera can sweep in a circle and scan the entire area around a tower. This picture can be piped into a central headquarters, and thus a man can sit in an office and keep tab on what is going on in the vast Jordan Valley area.

Tests have resulted in a clear view for four miles.

Other uses of the TV cameras might be the pin-pointing of fish (Continued on Page 8)

Top O' Michigan Outboard Boat Race Set For East Jordan, August 29

G. M. Clark's Celebrate Golden Wedding

Mr. and Mrs. George M. Clark of Route One, East Jordan celebrated their Golden Wedding anniversary Saturday, August 14th with open house. Friends and neighbors called on them between the hours of five and seven, and refreshments were served.

Mr. and Mrs. Clark were married in Bluffton, Indiana and moved to this area in 1932. In 1934 they moved to their present location and have been there ever since.

They have three sons: Roland of Fort Worth, Texas; Vestal of Detroit, and Gerald of Eldorado, Arkansas, and three grandchildren.

Those who helped Mr. and Mrs. Clark celebrate their anniversary were Delbert Hale, Mr. and Mrs. Ed Shepard, Mr. and Mrs. Myril Fuller, Mr. and Mrs. Claude Pearsall, Donald Pearsall, Lonnie Adkins, Miss Helen Adkins, Mrs. Alvenia Mason and Mr. and Mrs. Bob Dunson and boys.

Out of town relatives and friends who attended were John Dunn, Mr. and Mrs. Charles Dunn and Kay, Mrs. Doris Perrine and Mr. and Mrs. William Alberson, all of Bluffton, Indiana; Mr. and Mrs. Roland Clark, Roland Jr., and Patsy of Fort Worth, Texas; Mr. and Mrs. Vestal Clark of Detroit; Mrs. R. H. Cunliffe of Monroe, Louisiana; and Mr. and Mrs. Gerald D. Clark and Gerry Faye of El Dorado, Arkansas.

Cement Plant May Be Sold

One of northern Michigan's oldest and best known industries, the Petoskey Cement Plant, may be sold September 15th.

It is expected that Penn-Dixie Cement Corporation, of New York, will purchase the stock at \$20 per share.

The transaction is expected to include the Petoskey Transportation Company, also. The cement company officers are: John Galster, president; Homer Sly, vice president; George John, vice-president and general manager; Henry G. Galster, vice president; and sales and traffic manager; E. O. Nyman, vice president and secretary.

North State Racing Fans Expect 40 Entries To Show

The Top 'O Michigan Outboard Racing Club will bring some 40 boats to a northern Michigan race scheduled for Sunday afternoon in Lake Charlevoix off The American Legion Memorial Park. Progress of the races will be described to visitors over a public address system by Jack Staffen, of Gaylord.

The club will run three heats: A, B, and Open. Prizes will be offered.

The course will be short and confined to the area just north of the bridge. Added entertainment will include a race between Ted Malpass and Ken Diller, local racers who fought it out in an informal go last summer. It is also expected that a water ski show will be held.

The Top O'Michigan racing club is made up of four former boat clubs: Top O' Michigan, Otsego Boat Club, Alpena Boat Club and Topinabee club.

Entries for the race will arrive in East Jordan from all sections of northern Michigan.

Pat Conner, the club's commodore, will be in charge of the race, which starts at 1:30 p.m. Sunday.

Basil Crawford, of East Jordan, reported the results of the club's race at Black Lake north of Onaway last Sunday.

Class A: Lloyd Stanley, of Petoskey; Willie Wilton, of Petoskey and Johnny Ellenberger. Class B: Pat Conner, of Petoskey; Basil Crawford, of East Jordan and Bob Fosdick, of Gaylord. Open: Don Bonsecur, of Cheboygan; Bill Nagel, of Indian River; and Niñ Fleck, Alanson.

Chris Taylor reported on his work in connection with locating a new industrial prospect in East Jordan. He is chairman of a committee to work with the present prospect.

The board voted to sponsor Marian Danforth's entry in the Michigan State Fair queen contest at Detroit, September 8th.

46 Permits
The city clerk's office records show that 12 building permits have been issued East Jordan residents since January 1st.

Last year there were 34 permits issued, making 46 permits allowed in the past 18 months.

These were for new construction both industrial and residential garages and alterations to existing buildings.

\$100 Reward Offered By Railroad

The East Jordan and Southern Railroad Tuesday offered a \$100 reward for information leading to the arrest and conviction of the person or persons who damaged the company's rails between East Jordan and Bellaire.

Using a large jack or a powerful tool someone spread the rails about six miles north of Bellaire at the foot of Hitchcock hill.

The damage was done last weekend.

Railroad executive Howard Porter said no train wreck occurred when a steam locomotive came down the tracks because a section crew happened to be ahead of it and noticed the damaged rails.

High School Band May Be Largest In E. J. History

East Jordan high school may have a 60 piece band when school opens next month. That is if everything goes well in the musical department.

If the hopes of Director Emile Acitelli materialize the school will have the largest band in its history.

Acitelli has been working daily throughout the summer teaching band at the high school. He had 70 students this summer—so many he had to turn some away.

He teaches music all summer at the school since he is under a 50 week contract.

Such a large band this fall will pose at least one problem. There will not be enough uniforms to go around.

Acitelli said the first public appearance of the band will be at the East Jordan-St. Ignace football game here September 18th.

The school band was made up of 38 students last year. And the director feels it was the without doubt the finest band he has produced since coming to East Jordan from Boulder, Colorado back in 1950.

Since the director has headed up the local band the musical unit has established itself as outstanding around northern Michigan.

In the four years he has been here, the band won three first ratings in the District No. 2, Mi-

Total Of \$9,000 Per Week, Highest In Northern Area

Charlevoix county's financial relief cases are costing taxpayers more than \$1,300 a day—\$9,000 per week. This money is paid to the needy by federal, state and county funds.

The county's five forms of relief cost more than \$40,000.00 during the 30 days of June, 1954.

Old age assistance makes up a vast majority of the money; with aid to dependent children second.

Direct relief, of which the county pays half the bill, is in third place.

Schroeder Asked To TV Program

Richard Schroeder, East Jordan's agriculture teacher, has been asked to appear on a television news program at WWTW, Cadillac.

The station requested his appearance on the program following reports that Schroeder would enter into the U. S. Government's foreign operations plan to aid overseas farmers.

The farm teacher will leave for Pakistan soon with his wife and family.

High School Band May Be Largest In E. J. History

Michigan School Band and Orchestra Association for northwestern Michigan.

The first year East Jordan placed with a three rating, but the other three years were number one's for the local musical unit.

East Jordan and Charlevoix high school bands have been on top most often, according to Acitelli. In the northern Michigan eliminations Boyne City has rated two for the last four years.

Charlevoix's first two years brought one ratings; their third year was a two and their fourth year a one.

In downstate eliminations Charlevoix has ranked over East Jordan. Boyne City has never been to the state band festivals since they never won a one rating in the northern Michigan festival.

Both East Jordan and Charlevoix have been in the eliminations at Michigan State College and University of Michigan, for the last three years.

In those three years Charlevoix won top ratings each time; East Jordan placed with a two the first year and with three's the other two years.

East Jordan's band has been steadily improving since Acitelli became director.

Detroit is his hometown where he gained much experience in the musical field.

Next comes aid to the blind and aid to disabled people.

In June the county had 560 cases of old age assistance and 103 of ADC.

Old age help for June amounted to \$27,137.00; and ADC, \$9,947.00.

There were 77 cases of direct relief in June which received \$2,402.27.

The state of Michigan pays half of the money going to direct relief cases for the county; and the federal government and state pay the major portion of all other forms of county relief. The county helps out in some of these cases, also.

Charlevoix county's department of social welfare is headed by Director Roy Gregory, of East Jordan.

Gregory's office handles direct relief only; he has no authority over other forms of county relief.

The department's figures show that Boyne City by far needs the largest amount of direct relief service from the county.

During January of this year nearly half of the county's \$3,226.89 direct relief money was distributed in Boyne City.

Of the \$2,779.87 spent by the county for direct relief during the 30 days of April, 1954, Boyne City requested \$1,094.60; East Jordan, \$364.50; and Charlevoix, \$341. The remainder was used in the various townships.

During June of this year there were 77 cases of direct relief in the county. Boyne City had 29 of these; Charlevoix 13; Boyne Valley township 7; South Arm Township, 6; St. James, 5; East Jordan, 5; Melrose township, 4; Hayes township 3; Wilson township 2; and Bay, Marian, Chandler each one.

June relief cases for the county were listed as follows:

CHARLEVOIX COUNTY	
June 1954	
Old age, 505 cases.....	\$ 27,137.00
ADC, 103 cases.....	9,947.00
Direct relief, 77 cases	2,402.27
Aid Blind, 10 cases	620.00
Aid disabled, 6 cases	338.00
June Total.....	\$ 40,478.27
Charlevoix county pays more in all forms of financial relief (Continued on Page 8)	

City Benches

The city council voted Tuesday night to construct 10 benches to be placed around the city.

The benches will be constructed by Dan Bennett and used by visitors and residents who want to stop and rest in city parks or in the downtown area.

EDITORIAL NEWS

The fact that the Republicans are trying to pare down non-essential expenditures is shown in the decision to lease a building in Gaylord for a first class post office, which has currently outgrown its present quarters.

Our new postoffice will be larger than the present quarters, but the postoffice department refused to pay a large lease although the would-be owners of the building offered to construct a larger building than the postoffice department felt it could afford.

Members of the opposite political party have recognized the Republican's economy drive, and apparently are going to use it as one of their planks. They contend that more money should be put into circulation whether it's wasted or not.

One of their members, Senator Byrd, has more conservative ideas when it comes to spending the taxpayers' money. Byrd is chairman of the committee on reduction of nonessential federal expenditures. He is happy to report that for the twenty-second consecutive month that reductions have been made in the number of federal workers.

We have heard that the federal government, under the hand of C. E. Wilson, is reducing the deplorable waste in the armed services. Summerfield, the postmaster general, has his paring knife out and has increased postal rates to try to get the postoffice department on paying basis.

We are encouraged by a reversal of the thinking in Washington from the spend theory to the recognition that there is plenty of fat to be cut and the real possibility of saving the taxpayers' money.

MICHIGAN FEATURE SERIES prepared by MICHIGAN TOURIST COUNCIL... No. 47

Pedaling Pair Visit Zion National Park

The fourth of a series of articles continuing the bicycle tour of the Pedaling Pair, Parker Seiler of East Jordan and Lyn Neal of Muskegon.

In the heart of the spectacular desert and canyon country is located Zion National Park. Here we enjoyed camping for three nights in the canyon, which is the main feature of the park.

Zion canyon is a fine example of a deep, narrow chasm. Sandstone cliffs rise almost vertically and tower 3 to 4,000 feet above the valley floor. Before the Virgin River established its course, there was nothing but a flat plateau.

The river, although small, still carries away from the park, an average of 180 carloads of ground-up rock a day. One humorist claims that the river is so muddy the fish swim backwards to keep the dust out of their eyes.

Such peaks as West Temple, The Three Patriarchs, Angels Landing and The Great White Throne add interest to the views from the canyon.

The vegetation ranges from cacti to pine trees and there are many varieties of animals in the park. Although mountain lions and bobcats are sometimes seen, we were just as happy to encounter only the mule deer.

Park rangers were concerned about our leaving the canyon via a 1.06 mile long tunnel, but finally gave permission thus, "If you want to risk it, go ahead!" We did. The dark, narrow tunnel climbs abruptly through the

great sandstone canyon wall, while openings about every 1,000 feet provide a ray of light and a view of the canyon below. Fortunately, we met no cars.

Probably our most ambitious undertaking of the trip far was the day's ride of 94 miles. This was from Zion to Bryce Canyon and the stretch includes a climb of over 4,000 feet in altitude.

Bryce Canyon National Park may be small, but most of those who have visited the park will agree that it is one of the most interesting and colorful areas in the United States. The Painted Indians called it, "Unkatimpe-wawince-pock-ich," which means "red rocks standing like men in a bowl-shaped canyon."

Bryce is actually not a canyon but a huge amphitheatre. The chief sculpturing agents have been the rain and snow which fall directly on it, assisted by frost and chemical agencies.

Layers of pink and white marly limestone have been eroded into nearly every shape imaginable. Hundreds of the formations have been named, such as Mormon Temple, Thor's Hammer, Tower Bridge and Organ Grinder's Monkey.

The most popular and life-like of all is the formation in the Queen's Garden called Queen Victoria, which most assuredly resembles a queen.

To get the most from our national parks, one should take advantage of the naturalists illustrated lectures and hike on some of the many trails.

We talked with people who were on a conducted tour from the East. Their main complaint was that they were rushed from one spot to another.

It makes us even more thankful that we had time to enjoy the beauty of these parks.

On our way up the fertile Sevier Valley, we were surprised to see a youngster riding a French bicycle similar to our own. We talked with him and learned that the bike had been given him by a cousin who was on the United States 1948 Olympic Bike Team.

The 14-year old boy asked, "You're not the Pedaling Pair we saw in Yellowstone last summer, are you?" We had to plead "guilty" for we were there at the time.

While traveling through Utah, we have come to appreciate more fully the tremendous part Brigham Young and the Mormons played in the setting of the West.

You might be interested to know that Utah also has a Jordan River. It runs about 50 miles from Utah Lake and empties into the Great Salt Lake. Near its banks are located a small city called West Jordan, and another community known as South Jordan—but no East Jordan! We turned eastward from Provo and again climbed to 8,000 feet to cross the Wasatch Mountains. In Vernal, 26 miles from the Colorado border, we stopped to note a few interesting facts. Vernal, with a population of about 3,000 is the largest city in United States without a railroad. The nearest railway is 120 miles distant. A two story bank building is of interest, for every brick was individually wrapped and mailed here by parcel post back in the days when the horses were delivering the goods. Next week: Colorful Colorado

The Pedaling Pair

Campbell Says State's Banks Biggest Lenders To Farmers

Banks are the biggest money lenders to farmers in Michigan. Last December 31st, Michigan banks had loans of \$105,517,000 outstanding to farmers.

Robert Campbell, executive vice-president, State Bank of East Jordan, reports the local bank is playing a big part in this service to farmers.

"The banks have been encouraging farmers to make better use of present acreage with modern methods, rather than buying additional land," Campbell said. "Especially during this period of high land prices."

"The bulk of farm loans held by banks are production loans rather than real estate," he said. Production loans include credit to finance growing and marketing crops; breeding and raising livestock; and purchasing modern equipment.

Banks held \$63,425,000 of these production loans at the end of 1953, compared with \$8,103,000 held by production Credit Associations and \$8,439,000 held by the Farmers Home Administration.

Thus the American Bankers Association reports that banks are by far the largest lenders to Michigan farmers.

On June 30, 1954, the State Bank of East Jordan, had \$506,116.28 outstanding in loans to farmers which is 22.37% of its total loans, Campbell said.

Campbell reported that 404 of

the 419 insured commercial banks in Michigan served agriculture by making credit available to farmers during 1953.

"In this day of mechanized, highly competitive farming, meeting the credit needs of farmers is one of the most important services of Michigan banks," he said.

Iron Lungs Needed For Polio Patients

Iron lungs and other respiratory equipment have meant the difference between life and death for 1,000 polio patients so far this year and thousands more will need these breathing machines to keep them alive before the end of the year.

This was disclosed today by Dr. Kenneth S. Landauer, assistant medical director of the National Foundation for Infantile Paralysis, in explaining "one of the underlying reasons" behind the current Emergency March of Dimes campaign which will run until August 31.

Dr. Landauer, revealing that the percentage of severely paralyzed patients had been increasing during the last few years, gave these two reasons for the rise:

1. Many critically paralyzed patients, who in former years

Those from East Jordan and vicinity who attend Queen Marian's coronation ball in Cadillac were from left: Mr. and Mrs. Wade Healey, Mr. and Mrs. Marhsall Sayles, Lyle Hausler of Potoskey, Minnie DesJardins, Leon Bartlett, Queen Marian, Mr. and Mrs. Chris Taylor, Mr. and Mrs. Bill Taylor, Mr. and Mrs. Leo Sommerville and Mr. and Mrs. Tom Breaker.

Kneeling are Mrs. Bill Huckle, Larry Chanda, Rachel Webster, Ann Lagerman, of Charlevoix, Jim Shepard and Mrs. Joe Wilkins. (Photo by Bill Huckle)

would have died, now survive because of improved care and treatment.

2. Polio is attacking more adults and a higher percentage of these patients suffer severe paralysis.

"While many of the new polio patients requiring iron lungs and other breathing aids this year will need them only for a few days or weeks, many will become long-term prisoners of their iron lungs. They will join the al-

most 2,000 respirator patients from previous years whose horizons are still limited to their six-by-three-foot machines. These polio prisoners must not waste away their lives dependent on mechanical breathing to keep them alive.

"Fortunately, improved techniques of treatment and rehabilitation have been developed—largely through March of Dimes grants—that now offer real hope of freeing the majority of such

respirator patients. But it is an expensive process and more funds are urgently needed to do the job," Dr. Landauer emphasized. "Soaring treatment costs for such long-term polio patients have done much to exhaust March of Dimes funds this year. This is a major reason why an Emergency March of Dimes must be held August 16-31."

New Blue Sunoco FIRST CHOICE Of Auto Engineers

92% SAY IT EQUALS OR EXCELS ALL OTHER GASOLINES

42% ALREADY BLUE SUNOCO USERS

1,042 automotive engineers tried the New Blue Sunoco in their own cars... compared it with other gasolines.

Of those who had formerly used premium-priced gasolines, 95% report New Blue Sunoco equals or excels those premium-priced gasolines for over-all performance. Yet New Blue Sunoco still sells at regular gas price.

FOLLOWING the introduction of New Blue Sunoco, we invited a large group of automotive engineers to try this new gasoline in their own cars. Of the original 1,384 who tried New Blue Sunoco, we received answers from 1,042.

9 out of 10 say New Blue Sunoco equals or excels "Premiums" for power and pick-up

To us, a very significant group were those who had previously used a premium-priced gasoline. Many of them drive high compression cars. They compared New Blue Sunoco, selling at regular gas price, with premium-priced brands costing up to 3¢ more per gallon. 93% said New Blue Sunoco equals or excels "premiums" for power and pick-up.

8 out of 10 say New Blue Sunoco equals or excels "Premiums" for Anti-Knock Performance

Of those who compared New Blue Sunoco against premium-priced brands, 80% said it was equal or superior to the "premiums" for

anti-knock performance. These engineers are specialists on everything from spark plugs to high compression engines.

42% already users of Blue Sunoco

We were pleased that 42% of the engineers who answered our request for their opinions reported they were already users of Blue Sunoco. This was a far greater number than reported using all other premium gasolines combined.

High-Test at regular gas price

Sun Oil Company produces only one grade of gasoline. This policy saves on storage tanks, trucks, pumps. These savings are invested in research and new, improved refining processes which enable us to produce a gasoline with high anti-knock power especially designed for high compression engines, and sell it at regular gas price.

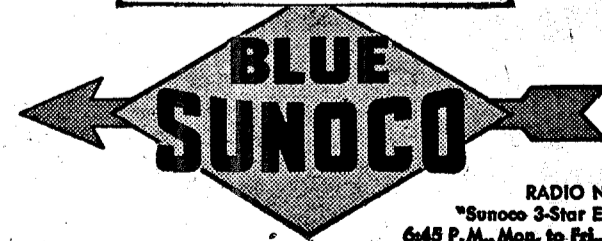

Follow the lead of automotive engineers, the men who know most about cars—use New Blue Sunoco in your car.

COMPARISON CHART	
This is what automotive engineers reported after comparing New Hi-Test Blue Sunoco with premium-priced gasolines in their own cars.	
<p>FOR OVER-ALL PERFORMANCE</p> <p>95% say NEW HI-TEST BLUE SUNOCO EQUALS OR EXCELS "PREMIUMS"</p>	<p>FOR ANTI-KNOCK PERFORMANCE</p> <p>80% say NEW HI-TEST BLUE SUNOCO EQUALS OR EXCELS "PREMIUMS"</p>
<p>FOR POWER AND PICK-UP</p> <p>93% say NEW HI-TEST BLUE SUNOCO EQUALS OR EXCELS "PREMIUMS"</p>	<p>FOR MILES PER GALLON</p> <p>84% say NEW HI-TEST BLUE SUNOCO EQUALS OR EXCELS "PREMIUMS"</p>

East Jordan Church News

UNITED MISSIONARY CHURCH

Rev. C. W. Thompson, Pastor
Rev. Thompson will have charge of the morning meditations Wednesday, August 25th at 10:15 a.m. over Radio Station WMBN Petoskey.

EVANGELICAL LUTHERAN CHURCH

Rev. Dale M. Larson, Pastor
On Friday afternoon, August 20, several ladies of the congregation will leave for the Stony Lake Bible Camp located near New Era, Michigan, for a three-day session of concentration Bible study, congregational leadership instruction, and recreation. There will be delegates and representatives from virtually every Evangelical Lutheran Church congregation in the Michigan Circuit at this Ladies' Retreat.

Beginning Friday afternoon, August 27, and continuing thru Sunday, August 29, a similar retreat is planned for the male populace of E. L. C. congregations throughout the Michigan Circuit. Several men from the congregation in East Jordan will participate in this Men's Retreat. Any men who may be interested in attending this retreat should contact Rev. Larson or Jason Snyder for more particulars.

Your attention is called to the fact that Dr. Fredrick Schlotz, newly elected president of the Evangelical Lutheran Church Synod, will be the guest speaker at a Mission Festival to be held at Suttons Bay, Thursday, September 2nd at 2:30 p.m. Rev. Larson just recently received a communication from Rev. Phillip Frethem urging as many as possible to make use of the opportunity to hear Dr. Schlotz. Please bear this date in mind.

**To Dedicate
New Hospital
At Charlevoix**

Michigan Senator Charles Potter will deliver the dedicatory address at formal dedication of the new Charlevoix hospital 2 p.m. Sunday.

The ceremony will be held on the grounds of the hospital at Charlevoix. It will mark completion of the \$600,000 44-bed hospital constructed with funds raised in the area and by a federal grant.

Master of ceremonies will be Dr. John Rodger, of Bellaire, a member of Michigan Advisory hospital council.

ber 2nd at 2:30 p.m. Rev. Larson just recently received a communication from Rev. Phillip Frethem urging as many as possible to make use of the opportunity to hear Dr. Schlotz. Please bear this date in mind.

"We decided to take your advice about investing in stocks —so now could you lend us some bread and potatoes?"

**Fall Fashion
Show To Be Held
In Charlevoix**

Fall fashions in woolsens and furs will be shown in the autumn style show at the Charlevoix high school auditorium at 8 p.m. Tuesday, August 24, under the sponsorship of St. Martha's Guild of Christ Episcopal church.

Presenting current fashions in the show which will raise funds for the church building fund will be the Cashmere Shop of Charlevoix and Coddington Furs of Traverse City.

Modeling the lovely new fall styles in the fashionable autumn colors and fabrics and the beautiful furs for all occasions will be a group of models under the direction of Mrs. Clyde Roller and Evelyn Malpass of East Jordan.

Mrs. Mary Louise Morse of Central Lake will serve as commentator for the show.

Following the style show, card games will be played and refreshments served. Table prizes as well as a grand door prize, \$10.00 in merchandise at the Cashmere Shop, will be awarded.

Committee chairmen for the event are: seating arrangements Mrs. Archie Rounds; refreshments Mrs. Louis Hamlin and Mrs. Thomas Carey; prizes, Mrs. Clair Stevens and tickets, Mrs. James Gallagher.

In East Jordan tickets may be purchased from Evelyn Malpass.

**Want Special
Deer Season
In North State**

A special deer season in northern Michigan involving hunting quotas and areas will be recommended to the conservation commission this year, game men report.

The recommendations for quotas and areas will be a change from last year, when 100,000 hunters took about 26,000 deer during a general one-day, any-deer season north of M-55.

However, the conservation department's game division will recommend no change from last year in the archery or regular seasons.

Field investigations show that south of highway M-55, the herd may be "bumping the ceiling," but so long as no top-heavy surplus is evident, no special season is being recommended.

In northern Michigan, however, game men say the surplus of deer justifies taking bucks, does and fawns in limited numbers and in locations where deer populations are evidently high.

**LIBRARY
NOTES**

Summer Schedule.
Mornings: 10:00 to 11:30
Tuesdays and Fridays only.
Afternoons: 2:00 to 5:00 except Sundays and Holidays.
Evenings: 7:00 to 8:30 Wednesdays and Saturdays only.

Watch the paper for notice of change to winter schedule when school starts, Sept. 7th.

Recent gifts at the Library were from Mrs. Frank Woodcock 3 pocketbooks, one a mystery; Mrs. Robert Carson, a mystery pocketbook and another miscellaneous one; Roy Ellsworth, a Civil War Story pocketbook; Mr. C. Gould Murdick, 7 pocketbooks, one a mystery and six westerns, also a 1951 Gun Catalog, and Forty years of Scotland Yard, by Wensley; Mrs. Gene Teichman, two mystery books, a Shot in the Dark, by Richard Powell, and Death Has Deep Roots, by Michael Gilbert. Mrs. R. G. Watson sent ten copies of the Organic Gardening Magazine, which should be of special interest to our flower lovers as well as to those who like a nice vegetable garden. Mr. Earl Clark brought in a copy of Story Parade for May. On the inside back cover are three excellent pictures of East Jordan's swans taken by Mr. Clark and an article on the life of the swans, which is very informative.

**Nan Drapeau
And Ted Scott
At Interlochen**

Nan Drapeau and Ted Scott participated in their first Interlochen Music Concert last Sunday at 1:00 p.m. They sang in the Interlochen All-State Girl's Chorus and the All-State Boy's Chorus, respectively. Both have been at the music camp since the 9th and are spending busy days which include 5 hours per day of Chorus rehearsal, theory classes, two private lessons a week and planned recreation.

The All-state Girl's and Boy's Chorus will join the regular all-summer students, the Nationals, in presenting the "Requiem" next Saturday.

Orchard Notes

By C. Fairman

Thursday, August 19, 1954 * East Jordan News-Herald * Page 7

Speaking about orchard cover crops, one prominent college horticulturist told me that weeds were the best. Only growers like to do more and that it was more advisable to mention other materials. Where manure has been spread, weeds will start early and make a good growth.

We are still friends of the sweet clover between rows, especially where trees are well mulched and the clover does not grow under the tree. Sweet clover is a fast soil builder that enriches the centers in advance of tree and root spread. It is a good soil builder in advance of planting young orchards. Sweet clover produces lots of honey for the bees.

We still like Artichokes where we have them in cultivated orchards. They are easy to keep down during spring. They also grow fast and smother out quack grass and make easy cultivating at spring time.

School Board Meeting

Regular meeting of the board of education held at the high school offices on Monday evening, August 9, 1954 at 9:00 o'clock.

All members present.

Minutes of last meeting read and approved as read.

Motion made by Alderman Rebec and supported by Alderman Meredith that building permits be granted to Kenneth W. Gagnon, Theodore D. Malpass, David Pray and East Jordan Iron Works. Motion carried all ayes.

Motion made by Alderman Malpass and supported by Alderman Sturgell that the City purchase a Civil Docket for Charles P. Murphy, Justice of the Peace.

Motion made by Alderman Rebec and supported by Alderman Malpass that the meeting be adjourned. Motion carried all ayes.

Alberta Nowland, City Clerk

Don't Pay Big Price For Seed

There's no point in paying exorbitant prices for seed wheat, or getting inferior seed.

Ed Reberman, Charlevoix county agricultural agent, points out the Michigan certified seed wheat is "unsurpassed in quality." And, he says, the good seed costs less than \$1 per acre more to plant than non-certified seed that is of "doubtful quality." Some wheat seed is being sold in Michigan at exorbitant prices.

Reberman insists that the certified seed pays for itself in higher yields.

All Michigan certified seeds must pass a rigid field inspection and seed examination by the Michigan Crop Improvement Association. Otherwise it can't be sold as certified.

In addition to being a pure variety, the certified seed wheat must meet high standards on germination, be free from weed seeds and other crop seeds and free from disease.

Only varieties that have demonstrated their superiority under Michigan conditions are certified. At present the Michigan Crop Improvement Association is certifying these varieties: Yorkwin, Cornell 595 and Genesee—soft, white winter wheats—and Seneca and Vigo—soft red winter wheats.

Jr. Farm Group Names Officers

The newly organized Jordan Junior Farm Bureau met at the home of George Nelson recently.

The following officers were elected for the coming year: George Nelson, president; Tom Sheridan, vice president; and Carol Klopster, secretary-treasurer.

Roger Stokes is publicity chairman. Lyle Howard is camp chairman and Kay Klooster is recreation chairman.

Money making projects were discussed and Mrs. Nelson served refreshments. Next meeting will be at Sheridan's September 7th.

New Elmira Catholic Church Holds Dedication Service

A small parish of 35 Catholic families in the little town of Elmira southeast of East Jordan looked with pride at their new church, and parish house (which they themselves completed in a little over a year) at the dedication and laying of the cornerstone ceremonies Saturday.

Following dedication they held a banquet with some 30 visiting Clergymen and Monsignors from Michigan and Wisconsin.

Bishop Allen T. Babcock, former auxiliary in Detroit, gave his blessing. Fr. Chester Klimowicz, who came from Traverse City in November, 1953, is priest.

In the front entrance to the church hangs a framed Apostolic blessing sent by Pope Pius the twelfth of Rome, the Vatican City.

Practically all the furnishings in the church are second-hand materials which have been sanded and refinished, or carefully purchased from closing out businesses or at bargain prices.

Marble which once served as counters in a cafeteria in Grand Rapids, has been cut and polished to form an altar. The communion rail was a gift, as were the pews and many of the statues which have been sanded and patched, repaired and glazed until they are like new.

Centering the main altar is a roughly-hewn crucifix from which hangs a life-like statue of Jesus, at his crucifixion, with a blessed in Jerusalem on the tomb of Christ.

The stained glass windows, made from an original design by a Dutch artist, were all donated and are inscribed with the name of the donor.

PARISHONERS WORK

An old hand organ located in the balcony is being converted into an electric organ, with the use of a motor.

Tile flooring throughout and soft cove lighting was also installed by the parishoners.

In the priest's sacristy is a ceiling-high vestment, which was sanded and refinished in natural white oak.

Grade school boys contributed their part by way of large banquet tables for the basement. Kitchen equip-

Assistant Coach Leaves East Jordan

Plant Grass Seed Now, Agent Says

Get that grass seed in the ground now. Don't worry about the dry weather, the seed will say dormant until it rains.

That's the advice of Ed Reberman, Charlevoix county agricultural agent. Many lawn growers hesitate to put in their expensive lawn seed without moisture.

But, Agent Reberman points out, after it does rain—if the seed is not in the ground—you will have to wait until it is dry before you can work the soil anyway.

Carter M. Harrison, Michigan State College farm cropsman, reminds that August 15 to September 1 is lawn seeding time, with the earlier date the better.

This is also the time to fill in those ugly bald spots in the turf, says Harrison. Just work up the soil where there is no grass and plant those patches, too.

He advises using one to two pounds of good, quality seed for every 1000 square feet. He also suggests using a good nitrogen fertilizer, something like 10-10-10 or 12-6-6.

Agent Reberman can give you advice on the best grass seed for this area and your particular soil and location.

New Study Started For Rural People

City-employed people and part time farmers are moving into rural sections at increasing rates. How to help these people in their new rural role will be investigated at the American Country Life Association meeting at MSC 14-16.

Once a year the Country Life group brings together leaders of all groups that work in the rural field, from pastors to parents. The meetings are open to the public.

Chairman of the Michigan Country Life committee is Paul

East Jordan's assistant football coach for the last eight years, John Downing, left with his family Saturday for a similar position at Coatesville high school in Pennsylvania, about 35 miles west of Philadelphia.

Downing came to East Jordan in 1946 from North Carolina with East Jordan being first teaching assignment.

While here he received further education during summers at Northern Michigan College of Education, Marquette; Central Michigan College, Mt. Pleasant; and also Michigan State College.

In addition to his teaching and coaching in East Jordan, Downing worked the summer of 1950 as night patrolman for the city; he also worked at the East Jordan Iron Works and Eveline orchards.

As assistant coach here Downing worked under Max Damoth, Dan Devine and Gayle Saxton.

He taught English, college preparatory English and dramatics here. At Coatesville he will also teach english and social studies.

He received his A.B. from Guilford College in North Carolina and studied at West Chester State Teacher's College in Pennsylvania.

He spent four years in Europe in the 3rd infantry division during World War II.

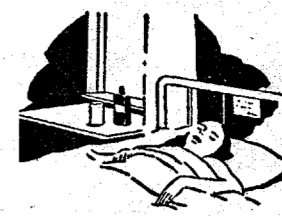

A. Miller, extension rural sociologist at MSC. Paul C. Johnson, Chicago, editor of the Prairie Farmer, is this year's president.

G. I. NEWS

Page 8 * East Jordan News-Herald * Thursday, August 19, 1954

HI FELLAS:

I suppose I should put an article in the "Help Wanted" section of some newspaper. That's the usual way of recruiting a worker for a specific job isn't it? Some time ago I informed the powers that be that I would be quitting this job as of September 1st of this year. So far there have been no takers for replacing me. Do any of you servicemen or ex-servicemen have any ideas? Don't worry about getting your paper regularly. Mrs. Sayles has stated that she would take care of the changes of address and would print all letters that were sent in. But, if we do not have a volunteer by the 30th of this month, then the Servicemen Letter, written as such, will come to an end.

Here's a letter from Earl Bowers who just about now should be setting in port in New York harbor. "I'll drop a few lines to let you know I'll be heading back to the States. We expect to be in New York the 10th through the 16th. Then we head for Boston for about three weeks or more before going to the Med. for 6 months. We just finished our six weeks training down here at Guantanamo Bay, Cuba and will be glad to get back and away from this hot weather climate for a few weeks.

Last weekend we were over to the Virgin Island at St. Thomas. A lot of Americans and French people spend the winter months there." Earl F. Bowers, FA, A-Div, USS Columbus, CA-74, c-o FPO, New York, N. Y.

If any of you servicemen are in the vicinity of New York or Boston up to the second week in September you want to try to look Earl up aboard the USS Columbus.

Pete Lundy writes from Korea—"Well, I've finally found my pen so I'll drop you a few lines before I lose it again.

Last week I was in Yokohama and ran into Larry Huckle. It

was the first time I had seen him since I was home in April of '53.

"Well, Jake, this is the reason for my writing. I want to thank the many people who have made it possible for me and the rest of the GIs to receive the paper from home. I would like the paper to be stopped as in about 5 or 6 weeks I'll be coming your way, Yes back home.

"I'll say Bye for now and one of these days soon I'll be walking in on you and the rest of good old EJ. So Long, Richard Lundy."

Vale Keller and Earl Bennett descended upon me out in front of the PO last week. These two men both agreed that it was far better here in EJ than it was in Japan or Korea. For some reason or other they didn't object to being sent home for 30 days at all. They both have 18 more months service ahead of them and then good old freedom.

Don Cutler has a change of address. His address is now: Pfc Donald Cutler, Hq Btry, 690th FA Bn, APO 751, c-o PM, New York, N. Y.

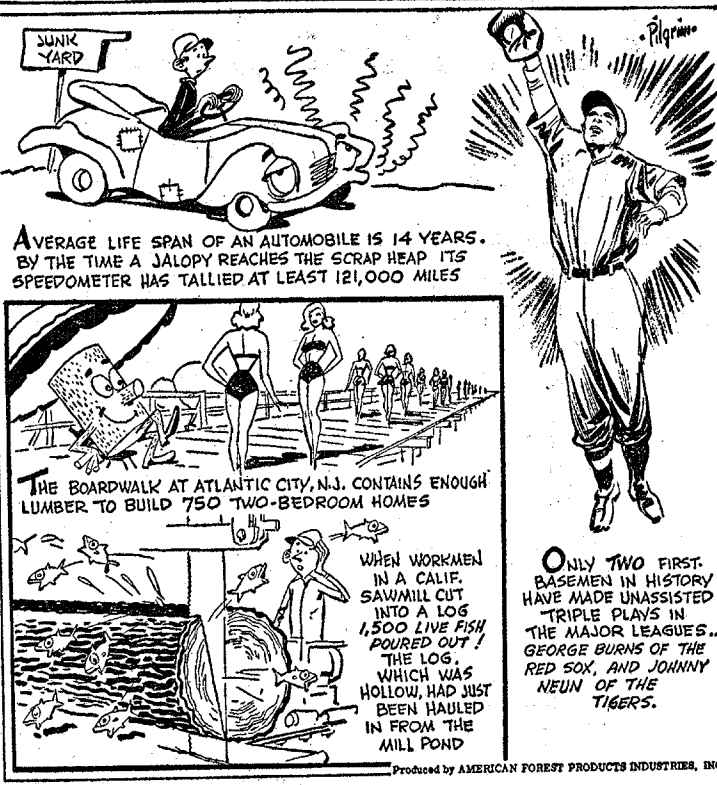

Congratulations are in order for Johnny Bussing. His sister just informed me that Johnny just made Cpl.

Warren Frank, Jr. has been assigned overseas and sends us the following address: A-3c Warren H. Frank, Jr., 511 A. C. & W. Gp, APO 919, c-o PM, San Francisco, California. How about letting the gang know where you are, Warren.

Floyd Detloff finished his basic at Camp Chaffee and arrived home on leave on August 7th. He will be here for 13 days and then is due back with the Hq & Hq & Sv Co, 85th Recon, 5th Armd Div, Camp Chaffee, Arkansas. Floyd told me this morning that he hasn't succeeded in catching any of those big fish out of the river as yet.

Bill Snyder has sent home his address from Fort Devens. It is:

Our Great America by Woody

Produced by AMERICAN FOREST PRODUCTS INDUSTRIES, INC.

Back Fence . . .

(Continued from page 1) and game law violators and locating lost hunters.

Talk about this push button age. It looks as though the day is coming when you won't be able to walk down the street without some guy in an office tracing your every move on a TV screen.

What, may we ask, is coming next? Back in October 1922, the East Jordan high school held a football game with Harbor Springs at 10 o'clock in the morning on the local field. That was so the team and fans could travel to Boyne City and see that school play off the northern Michigan final tilt with Cadillac for the north state crown. The previous week Boyne had whipped E. J. 50 to 0. But times have changed.

Friend John Bos has noted that Petunias around the business district need watering. They need it every day instead of just sprinkling, he says. If you say neigh, take a look at those in front of his store. They are watered daily.

Pfc Wilbur E. Snyder, 359 C-R Co, Fort Devens, Mass. How are things out there, Bill? All hush, hush?

Tommy Dressel joined up with the Air Force recently and his address is: A-B Thomas K. Dressel, Ft 3527, BMTS 3655, Sampson AFB, Geneva, New York. Can you find any footprints of other EJ GIs out there Tom? So Long until next week. "Jake" Snyder

Jordan School Joins Local District

The East Jordan Rural Agricultural School District No. 2 fractional now has been enlarged area wise to include the Jordan School District, No. 2 in Antrim County.

Students have been coming to the local school from the Jordan District, but they were paying tuition. The recent action eliminates this tuition and taxpayers in the district will pay school taxes to the East Jordan district.

The voters of the Jordan District elected to join the East Jordan district and the move was approved by the local school board.

This action dissolved the school board of Jordan District No. 2.

Relief

(Continued from page 1) to its residents than any other county in this area. It topped Emmet county by \$5,000 for the month of June; and Emmet's population is several thousand more than Charlevoix county's.

Finkton News

Mr. and Mrs. George Huddy of Detroit spent last week at the Minnie Beal home.

Mr. and Mrs. Van DerGriff and Mr. and Mrs. Asa Beal had dinner together last Monday in honor of both of their wedding anniversaries.

Mr. and Mrs. George Spence were dinner guest Saturday night at the home of Mr. and Mrs. Clifford Spence of East Jordan.

Misses Neva Wilson and Merilyn Lewis made a business trip to Traverse City Saturday afternoon.

Scenic Trails Council Hold Annual Meet

Clair Martin, President of the Scenic Trails Council, Boy Scouts of America announces that the Annual Summertime Board Meeting of the Council, will be held at the Park Place Hotel on Tuesday evening August 24, beginning at 7:00 p.m. Members of the Board will consider the new camping report as well as setting up the program for the next fiscal year. Finances of the Council will be given a thorough study because of the shortage of funds this time of the year. Art Huey, President elect as of October 1, will appoint operating committee heads for the coming year. Paul Kammeyer and Tommie Thomas both of Gaylord will show pictures of and render reports of the Philmont, New Mexico Scout Ranch. All Board members, representatives, Scouters and friends are invited to attend.

"You can always tell when a man's well informed. His views are pretty much like your own!"

NOTICE!

Some time between Friday evening August 13th and Monday morning, August 16th, some party used a jack or powerful tool to spread the rails of the East Jordan & Southern Railroad about six miles north of Bellaire at the foot of the Hitchcock hill.

Fortunately the section crew preceded the steam locomotive and saw the bent rail so no wreck occurred.

The Railroad will pay:

\$100.00 Reward

for information leading to the arrest and conviction of the guilty party or parties.
