There are lamps, musical gifts, tiny presents and mighty unusual glass wear figures. There are several shelves of gifts from which to choose.

We spoke a while back about E. J. and Boyne coming right out actively to bury the hatchet and lo! Several serious minded suggestions have been presented to us on how it should be done. One suggestion is to have a twincity ceremony haif way between the two communities and actually bury a large hatchet in a hopped up program that would really show the world how to bury the hatchet. This feller says to erect a large stone with a sign telling of the buried hatchet. Other ideas will be welcome.

Lady Deer Leaves Deer Park Here

Oh, Dear,

West Side residents have been having quite a time trying to eatch the doe that escaped from the sportsmen's deer park. It was said that one person get so close to it she could feed it. It has been reported in various are eas of the west side the last few

days.

If the deer can be captured it will be returned to the park, but Conservation Officer Julius O'Brien said it will be a hard

job.
The conservation department expects to give the sportsmen two more deer next fall.

Breaking Barriers . . .

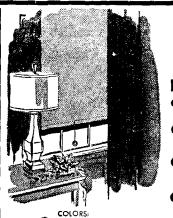

For decade upon decade before May 6, 1954, men tried to get their feet to cover a mile in less than four minutes. In a score of nations athletes trained for years and failed one after another to "break" the four-minute mile. It came to be regarded as an impassable barrier. Then suddenly two years ago Roger Bannister of Oxford ran a mile in 3 minutes, 59 and 4-10 seconds.

Since then the four-minute mark has been broken a dozen times and by men from Hungary to Austrailia. Why? No new race of superrunners appeared. These men ran on the same tracks with the same equipment. A very large part of the answer appears to be that they ran with the knowledge it had been done. And by a man less well equipped physically than some who had failed. But he had a new approach which broke the mental barrier—the belief that it couldn't be done.

Then others found the "impossible" four-minute mile quite possible. May this not be equally true of other barriers raised by the human mind against its own advancement? Are there not gains in harmonious labor and race relations, in health, education, and government not yet attained only because we still believe them impossible? Will they not yield quickly once the first steps are taken by pioneers with confidence in man's God-given capacities?

Junior Gets "Pinned" Down

Junior Baker and friends are all set for their circus. Look for their advertisements on neighborhood trees.

The kids have had problems in staging the event. The biggest was the admission fee. Junior wanted to charge five cents, Mrs. Baker thought it would be much nicer if they charged five pins.

So Junior held a meeting with his Directors—then told his mother they'd taken her advice. The ads now read: Giant Circus in Baker's Backyard. ADMISSION FIVE PINS PLUS FIVE CENTS TAX.

From where I sit, that's a cute example of a mighty important point-if you want things to turn out your way, then you had better let the other fellow have his choice, too. For instance, if your taste should happen to run to, say, iced tea...then you owe it to yourself to see that those who prefer beer, buttermilk or whathave-you get to enjoy their favorite beverages, too. After all, turn about's fair play.

A FREEZER-REFRIGERATOR IS LIKE A SUPERMARKET AT YOUR FINGERTIPS

Convenience is the keynote of a modern electric Refrigerator-Freezer, it's just like having a food store that's never closed, right in your home. An old-fashioned refrigerator just wasn't designed to give you such convenience. With a combination Refrigerator-Freezer you can prepare for guests before they come... bake or cook when the weather is cool... freeze school and picnic lunches ahead. Food you have prepared at your leisure can be stared in the freezer section,

ready to relieve the pressure of busy days.

A two-zone Freezer-Refrigerator is economical too, because you can buy food in season, in quantity, when the price is right. Refrigerator-Freezers come in many popular sizes. Failed to Impress

The pride of Paw Paw, who was born in Lawton and attended high school there before going to Western Michigan Colege, evidently does not show too well in early spring.

After tenures with Roanoke, Scranton, Wellsville, Birmingham and Louisville, all in the Red Sox farm system at one time or another, Charlie came up to the parent club but failed to impress anybody.

Curiously, Maxwell served under Pinky Higgins on three of the clubs when both were working their way up to the majors, Higgins to manage the Sox, Maxwell to play for them.

Charlie credits Higgins with

Perhaps foremost is the coach-Perhaps foremost is the coaching of Joe Gordon and Billy Hitchcock, who still holler at him to chop the ball as a reminder every time he comes to the plate. Charlie has a tendency to uppercut the ball, which leads to disastrous results and Gordon and Hitchcock had him substitute the chopping swing. Then there's the early training by Higgins and, finally, the opportunity to play more or less

Wins Women

It seems that as far as women are concerned, another wonder has appeared on the scene to be added to the traditional "7 wonders of the world" Figures testifying to its feminine following have reached astronomical heights cal heights.

Strangely enough, this "won-der" has to do with such basic things as walking and the feet. It's a comfort shoe . . . carrying the trade name of Glovett . . . and to remove any doubts about the astronomical figures, a Min-neapolis department store re-cently celebrated the selling of more than a million pairs of Glov-etts.

Comes vacation time, as now Glov-Etts are "putting their best foot forward," we might say. They are as popular at this time of year as air conditioning in a foundry. Vacation to most wo-men means activity in the great neen means activity in the great outdoors . . . hiking, fishing, ex-ploring lakeshores or woodland paths, playing tennis or just plain strolling around. To put it in a nutshell, it is on such oc-casions that Glov-ett shoes are "walking wonders"

Approved Places

Even the usually serious voice of the state health department sounds a light note over vacation prospects in Michigan, coming up with this calypso chant:

water. The department said that ma-

The department said that many approved resorts and motels now put miniature reproductions of the HDA in their advertisements and brochures and, in some areas, the HDA signs are even being used in restaurant sanitation programs. "Although you may not thin's particularly about health and safety as you start out on your vacation," the department said, "staying where scritation standards are high may mean the difference between having a good vacation, or having one marred by sickness, injuries and disappointment.
"If you want to have fun, and want to play—

out here in fine snape. No trouble and a very nice trip. Ask Resorters

This is a big camp and a small town. We live 'n town at a trailer park. If there is anyone from East Jordan here or who

comes here, I would like to see them. I work at the Post. Ord. Insp. section.

We have been here for almost two months now. We both like it fine.
