One ton of government sur-plus food has been sent to Hun-gary through CARE by the State Bank of East Jordan, it was lear-ned this week. Bank executive Robert Camp-bell said that in a project of their own, the bank provided \$100 for a ton of food. Bank officials are lending their enthusiasm and support to the CARE project now underway by East Jordan residents with William Downs as chairman.

All residents and businessmen vishing to contribute are asked o contact Downs before this weekend.

Most residents are offering one and two dollars, but larger amounts are welcome, he said.

Those writing checks for the city-wide fund may make them out to "William Downs — for the CARE fund."

Residents wishing to send mo-rey direct to the CARE organi-zation outside the city fund may get further information at the State Bank of East Jordan.

THE FOOD purchased by the city fund will be marked "From East Jordan, Michigan." Downs said the fund is \$37 short of the \$100 needed for the ton of food.

East Jordan's attempt to aid the Hungarians is receiving ma-ny favorable comments through-out the north and the project is becoming highly publicized. Saturday of this week is the deadline. \$1.00, 2.00, \$5.00, \$10 —any amount you may wish to contribute is needed quickly for the completion of the project in the next few days.

### **Driver Education**

Teaching and learning "professional" driver attitudes becomes teaching and learning new ways of thinking and acting behind-the-wheel. Indeed, the highest order of driver education develops driver behavior that symbolizes democracy as a way of life.

We believe that supreme individual worth is expressed in the deep concern the expert driver shows for his fellow men of the road. His actions spell safety and respect for others and himself. We believe liberty is expressed in freedom on the road. The ex-pert limits his freedom to the degree that safety and equal freedom for others is essued.

for others is assured.

We believe equality is expressed in the expert's respect for the equal rights of all other drivers. It is expressed by a concern for all drivers to share responsibilities for safe traffic patterns.

We believe fraternity is expressed in the expert's cooperation with fellow drivers in the pursuit of a common goal — safe, happy motoring. Helping to establish common understandings leading to common goals is real brotherhood.
