Everyone has the itch to hike themselves to the woods and fields for mushrooms these days. But most of us are rushing the season. All we get is cold.

Trout fishing smelt dipping and mushrooms. So if it doesn't snow, spring has sprung in the Jordan Valley region.

The only thing Albert Einstein and yours truly had in common was the fact that our schooling came mighty hard during the early years. He was slow to learn. We were outright dumb.

In later years they paid Einstein for doing pretty much as he pleased. That's where our lives began to differ.

We have heard good reports about the Jordan Inn. Duncan Hines was told by his right hand man Bud Mahaffie, that the Jordan Inn is "one of the nicest, beautifully furnished, excellent meals by appointment and rea-

Speaking of eating places, we are told that the Weather Vane in Charlevoix will soon be the subject of photographs and a story in Life Magazine. It received a recent write up in the Grand Rapids Herald.

MSC Conference Urges Residents Support Schools

An appeal that all the residents take greater public interest in their schools was voiced by the dean of the Michigan State college School of Education at the Central Michigan "White House Conference on Education." The meeting drew 460 at Kellogg Center.

"The schools belong to our people, and they are as good as the people want them to be," declared Dean Clifford E. Erickson, keynote speaker.

"For too long a time," Dean Erickson said, "our educational workers have been expected to handle the teaching and in addition carry the fight for better support, improved facilities, and desired legislation . . . these are the responsibilities of the entire community."

Mr. Healey died at his home in Wilson Township Thursday, April 21st. Rev. Robert H. Moore, of the East Jordan Methodist Church officiated with burial in Maple Lawn cemetery. Boyne City.

Born June 8 1878 to Anne and William H. Healey, Mr. Healey was a Spanish American War

He operated Healey Tire and Vulcanizing Company on Park Street in Boyne City from 1917 until 1932 and was associated with similar businesses in East Jordan and at Charlevoix.

Red Devil Track Team Train For Regional, State Meets

With a pair of practice meets with Boyne City and Charlevoix under their belts the East Jordan high school track team will buckle down this week as they prepare for the Central Michigan relays, conference, regional and state meets, and Petoskey relays, which lie ahead.

Coach Saxton has entered a quartet of performers in the Central Michigan relays at Mt. Pleasant tomorrow (Friday).

Alan Somerville, Dennis Wilson, Jerry Harrington and Raymond Walker will compete in the mile relay as well as the Central relay and in addition, Somerville will take part in three field events; the high jump broad jump and pole vault.

The Mt. Pleasant event annually draws the outstanding performers in the state. Competition is keen and the interest high. C and D schools compete on Friday starting at 10:00, and A and B schools vie for honors on Saturday beginning at the same hour.

Somerville has been the outstanding Red Devil performer in the practice meets to date this spring. His best marks to date have been 5' 6%" in the high jump, 9' 61/2" in the pole vault and 19' 3" in the broad jump.

Jerry Harrington, a junior, has been clocked at 58.5 seconds in his specialty, the 440 yd. dash. * Night He also topped 5' 11/2" in the

high jump against Boyne here Friday. Other creditable performances

by local trackmen includes Walker's 2:28 in the 880 yd. run, Romback's 18'6" in the broad jump and Johnson's 5' 2" in the high jump.

Jerry Green and Joel Evans, freshmen, and Gareth Thompson, a sophomore, compete in the dashes; all three show future promise.

Woodcock, Noirot and Ingalls are definitely showing improvement in the hurdle events. All three are sophomores and altho they are inexperienced at present they are bound to improve to a point where the Red Devils will be strong in the hurdle events in a year or two.

All distance-men are underclassmen. They are: Fritz Healey, Ralph Shepard and Gene Richards in the mile and Ray Walker Gary Bartlett, and Steenberg in the 880 yd. Lack of experience has been particularly apparent in the re-

lays, dashes and shot put, and only through practice and continued competition will the locals gain stature in such events. Richard Streeter, out with illness the first month, will strengthen the dashes as he returns to

competition this week.

Beware, It's Spring!

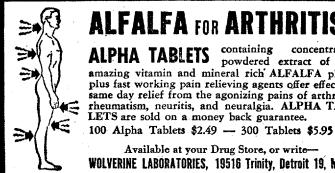

Spring is here and right along with the birds, buds and nice weather come all of the rackets and schemes which usually blossom at this time of year.

So - when the iron in your blood starts turning to lead in your back — beware of the slick schemer; the itinerant photographers, the transient roofers; the floating "black toppers;" the traveling painters; humus peddlers and landscapers, and the chimney repair

Beware, too, of the glib fellow that wants you to join this or advertise in that. You can't join everything and there is no area organization that can do more for you than your own West Michigan Tourist and Resort Association. We are not referring to local groups or Chambers of Commerce that always merit your support.

You may be approached by traveling solicitors with advertising schemes that usually have little value, and no distribution. Pay no money in advance! When in doubt — find out! Consult your local Chamber of Commerce or your West Michigan Tourist Association. You can usually save tidy sums and be best served by dealing with local established firms.

Next week is National Motel Week. It is believed by the Michigan Motor Court Ass'n that more travelers will stay in motels more often this year than ever before.

They are at it again. Bills pending in several states (not Michigan) would change the dates of some national holidays. They want to move holidays to Monday. Instead of observances for Washington, Lincoln and Jefferson, there would one "President's Day" on the third Monday in February. Memorial Day would be the last Monday in May; Independence Day the first Monday in July. Thanksgiving and Labor Day would also fall on Monday. Christmas and New Years, they did not have the nerve to mention.

More power to the man who can move the 4th of July to the first Monday in July! It is a good trick if you can do it.

Looks as though this Monday holiday business is to give us an assured three day vacation—Sat., Sun., and Mon. Slowly, but surely we are approaching the time when there will be no work week and long vacations. What a life!

Two trustees are to be elected to the Board of Education of East Jordan Consolidated Rural Agricultural School, District No. 2, frl., at the annual election to be held June 13th. Nominating petitions must be filed with the Secretary of the Board by 4 p.m., May 16th, 1955.

> Signed: W. G. Boswell, Secretary East Jordan School Board

It's easy to see big things close at hand, but the real test of good vision is being able to see what looks small and far away.

Today, many communities clearly see the immediate problems of overcrowded schools, but only dimly perceive tomorrow, when enrollments will be even larger.

Patchwork plans and stopgap measures won't do. In our community, as in all others, we must face up to tomorrow's school problems today. We must have the vision, energy, and courage to plan and work at least ten years ahead to meet the future needs of all grades, from kindergarten through high school.

Let each of us resolve to do our full part in this effort, gladly giving the time, the taxes, and the work needed to put long-range plans into effect. It's the wise way,

the thrifty way, and - in the long run - the only way! Remember that better schools build better communities. For free booklet, "How Can Citizens Help Their Schools?" write Better Schools, 2 West 45th Street, New York 36, N. Y.

After awhile he began to grow, faster and faster, stronger and stronger. Now the little girl who had loved him from the very first was also proud of him for he was a strong and beautiful young horse.

Red Finds a "Sweet Solution"

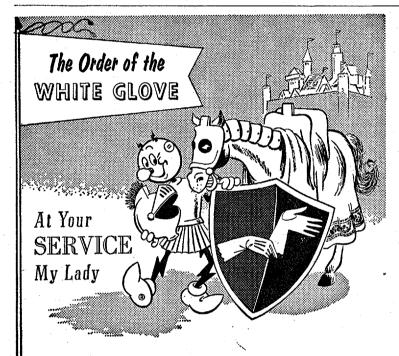

Red Jackson found a slick way to get his cows to eat what's good for them. Seems they were passing up the tall green grass-full of minerals and vitamins - and eating the short grass, which is naturally sweeter.

spraying a solution of corn syrup over the grass that was going begging. The cows sure went at it. Red says it's lucky for himand the cows—that every one of them has a "sweet tooth."

Next week, according to Red, he's going to have his cows clean up all the weedy grass along his fences-after he sprays them with more corn syrup, of course.

From where I sit, some folks, like Red. are always trying out new tricks—and others stick with the old tried and true methods. Red solved the problem by Just a question of preference, I guess. Like the way you may enjoy coffee with meals, while I prefer a cold glass of beer. So let's not allow any bad feelings to "crop up" by thinking ours is the only choice.

House Committees rushing to beat the April 29 deadline for reporting all House Bills, other than tax and appropriation bills, from House committees, are working feverishly to get out all bills that are to be passed in this current session, with the inevitable result that the daily calendars are growing larger. Although the sessions are longer, and efforts are put forth each day to dispose of as many bills as possible, progress in clearing the calendar is rather slow inasmuch as so many of the bills under consideration are highly controversial in nature, and a lot of time is taken up in debating the merits of the bills.

Members who are planning on attending the district meeting at Harbor Springs on Friday, April 29 are asked to contact either K. Braman or E. Saganek.

To a pitcher, baseball sometimes is a screwy game. A pitcher can have all the stuff in the world on any given day and still lose the contest.

Although he may have the ball really hopping and breaking, the hurler's control may be off only a hair, the ball just missing the corners of the plate. Or the umpire's decision may be against

him on the close ones. Then again ,the batter accidentally hits the ball off his fist and it pops over the infield just out of reach. Or a grounder takes a bad hop at the moment it's about to be fielded.

I've been knocked out of games where my pitches were going for me but the breaks weren't. That's one of the reasons it is so difficult to achieve a low earned run average or even to hurl .500 ball in the major leagues.

When I came up to the Tigers in 1937, Mickey Cochrane, then in his last year as manager, told me, "Diz, if you can hold the opposition to four runs per game you'll be a big winner."

In 14 years in the American League, my earned run average was something less than 3.45 and I won 173 games as against 161 defeats.

liveries. Among them are the overhand, three-quarter side arm, side arm and the underhand, the latter being extremely rare although Elden Auker used it successfully for the Tigers during the 1930's.

A good, live fast ball, such as those thrown by our own Bill Hoeft or Mike Garcia of Cleveland or Bob Porterfield of Washington, can come over the plate in varying fashions. One ball rises. Another shoots into the right hand batter's fist. Still another sinks and yet another may sail out four or six inches.

by the Tigers' Ned Garver, Cleveland's Bob Lemon and Boston's Mel Parnell, are thrown three ways. The overhand breaks straight down. The three-quarter side arm goes out and down. The side arm is usually a flat curve. TOUGH PITCH

Curve balls, like those thrown

Some batters see the spin of the fast ball and the curve and set themselvse for it, but against the slider they are often helpless.

The slider usually is thrown fast and has a bullet spin. This spin the batters are unable to see and so can't adjust themselves to the pitch.

Knuckle balls, those sinking pitches thrown by Willard Nixon of Boston and Early Wynn of Cleveland, are not used often.

Although the batters have a tough time hitting them, pitchers have more trouble controlling them, catchers experience difficulty holding them and umpires have headaches calling them in the Hickory and Horsehide game.

Dear Sir: I want to thank the people of East Jordan and the News-Herald for the paper. It sure is nice to hear about everyone back home. I'll be getting out in April so you can discontinue my paper.

I am looking forward to getting out of Texas because the hot summer is coming. It isn't very hot now, though, and maybe I can bring a little warm weather with me.

I want to say thanks again and I'll be seeing you soon.

Sincerely, Donald Danforth

Pvt. Arthur Prevo, who has been in Camp Chaffee, Arkansas, is on his way overseas. We have an order to hold his paper until further notice.

Bill Shaw wrote five pages to his folks dyescribing life in the barracks in France. It's pretty rugged, he says with only tar paper shacks and pot bellied stoves to keep them warm.
