Over the Back Fence

By Marshall

Here are the instructions on how to start a weekly newspaper. First, and most important, you go over to Gidley's Drug Store and buy a bottle of 200 aspirin tablets.

We had a cup of coffee in the White Swan the other day. Price? Five-cents. Most cups of coffee these days have gone the way of the nickle cigar and telephone call.

Last summer a certain East Jordan merchant was stopped on the street by a stranger who was vacationing around the lake. The stranger said, "Pardon me, sir, but can you tell me how to get to Boyne City? I'm going over there to do some shopping."

The merchant paused a moment while he mentally condemned the stranger to the salt mines and he said, "Why, you go down this road and turn to the right. No, that isn't it. You go across the bridge and..." The merchant stopped a minute and looked up at the stranger. "Mr.," he said, "you can't get there from here."

You folks who are going to have pictures framed for holiday gifts—should let Vern Whitford know now. Remember Christmas will be here before you know it.

The Quality Food Market sent a runner out to catch yours truly. They wanted us to understand that just because the door was open between them and Porter's Hardware, that didn't mean that the stores were operated by the same boss. "Oh," we laughed, "you keep the door open to steal heat. But that wasn't the answer at all. Someone said they occasionally made coffee in the back room of the grocery and when that happened the folks in the hardware didn't want to be bothered with any door."

Those basketburgers dished out at the Anchorage restaurant are tops. They are a meal in themselves and reasonable. If we were running the place we'd charge 50c just to sit down and get that wonderful view of the lake.

A fellow called Sherman's the other day and asked George if he'd be so kind as to glance down the street and tell him what was on at the show. George performed the task and reported—"Marlyn Monroe in 'Walk Right In'."

If we were a lady and wanted clothes, we'd take a long look at the Dress & Gift Shoppe ad in this issue. Don't miss it.

When our father was alive he used to say, "All roads lead to East Jordan." And it wasn't until we set up business here and begun driving around this part of the county that we discovered it was true.

We don't know if it's true or not, but we heard that a farmer went into Shedina's Furniture Store a while ago looking for some furniture. "I want something nice for my wife's birthday," he said, "but I'm kind of stumped. I don't know a Duncan Phylfe from a whippie tree."

Everybody in this section of Northern Michigan reads the East Jordan News. For instance, you are reading it right now.

A fellow came in the other day (Continued on Page 3)

City Finishes Sept. Street Improvement

Twelve blocks of city streets have been improved and reconditioned as a result of the city's street program.

Improvement has been completed on Fourth Street, 3 blocks; on Division Street, 3 blocks; on Nicholls, 1 block; on Echo, 4 blocks; and on Second Street, 3 blocks.

Reconditioning of the streets was done by the Charlevoix County Road Commission with the city meeting the expense. Tar and gravel was used in the work.

In addition, the city has installed a sewer main in Division Street and a water main in North Maple Street.

Rainbow City Hunters Take To Wood, Fields

Hunters throughout the Rainbow City area took to the fields Wednesday as the season for duck, quail and other small game opened throughout the state.

Wednesday marked the earliest opening on rabbits and snowshoe hares in this section of Michigan.

Local bow and arrow hunters are in the woods since the law reads that does, fawns and bucks are fair game.

Hunters, however, must keep in mind the legal closing hour. It's 7 p.m.

Unstrung bows may be transported in the same car with unloaded shotguns—but gun ammunition carried must not be bigger than bird-shot size.

Wednesday was the first time Antrim and Otsego counties have been opened to sharp-tail grouse and prairie chickens. The opening season is state-wide only on waterfowl and on deer and bear with bow and arrow.

It is claimed that heavy foliage will be a handicap in the early season. However, hunters with extra special bags of game are urged to report them to the News office.

Legion Auxiliary Honors Past President

The America Legion Auxiliary held their semi-social meeting Tuesday Sept. 23, in the Legion Home. Lillian Bennett, president at the first meeting of the new term with other new officers in their chairs.

Several chairmen were asked to give final reports of the activities of their committee before the new chairmen took over.

Paula Thomas, Community Service, gave an outline of the work she has planned. She will concentrate on work at the Grandvue Hospital, and asked for the support of the members in this program. She is going to work hard to win the award given by the Department each year to the Unit with the most hours devoted to Community Service. Other chairmen also gave brief outlines of their plans.

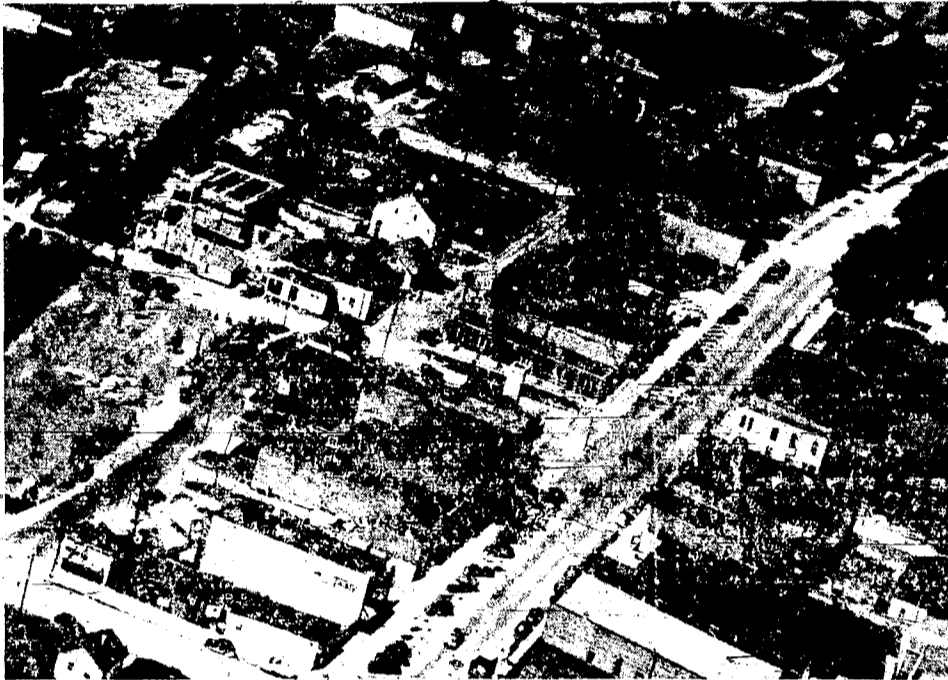

Martha Kamradt, gave a report on the Lower 11th, District meeting held at Petoskey, Sunday Sept. 21. She has been appointed District Poppy Chairman and Florence Stueker, is District Legislative Chairman. Five members from East Jordan attended the meeting.

After the business meeting, Lillian Bennett, presented Martha Kamradt, past president with a corsage and gift from the Unit in appreciation for her work over the past year. Edna Wilkins, then presented her with a gift from the girls of the Unit for her assistance to them on their work throughout the year. She thanked the Unit and the girls for their thoughtfulness and said, "It has been a pleasure to work with each and everyone." She pledged her support to the new officers. Glenda Maxwell, had charge of the entertainment and with the

Improvements Under Way at West Side City Recreation Field

Mayor Leo Sommerville revealed plans this week for continued improvement of East Jordan's city recreation field and expressed hope that the area will be completely improved for all-around use by next summer.

"Work is going forward now," Sommerville said, "and Consumers Power Company is setting up eight poles for lights around the field." He said there were no immediate plans for fencing the field.

The city is checking over various types of lighting equipment, but have not yet decided on which kind will be used. The city is buying the poles and the crosses for the lights.

However, Sommerville disclosed plans to solicit funds locally to meet some of the other improvement expense.

COMING EVENTS

- October 21 — Rotary Club lunch at noon.

Teachers Meet Closes Schools Thursday, Friday

No school today or tomorrow. Local teachers will attend the Michigan Educational Association Regional Conference at Petoskey.

Richard Schroeder, East Jordan high school agricultural instructor, will act as chairman of the agricultural section at 9 a.m. tomorrow.

Conference speakers to be heard by the local teachers include: Ethel J. Alpenfels, professor of education, school of education, New York University, who will speak on "The H. R. Factor—Human Relations in Education"; and Carl S. Winters, pastor, First Methodist church, Lak Park III, whose topic will be "What's Right With America."

Other speakers will include: E. C. Beck, president, Michigan Education Association; Mrs. Mary Necker, State N. E. A. director, Kalamazoo; and Dr. Lee M. Tolson, superintendent of public instruction, Lansing.

DUCK INN FOR QUARTER CENTURY

Famous Northern Restaurant Re-opens After Redecoration Job

One of the oldest restaurants in Northern Michigan reopened at the corner of Main and Mill Streets last week following a complete redecoration job.

Andy's Duck Inn, known throughout the northland as a pleasant place to eat, offered free coffee to customers during the grand-reopening Friday. Operated at the same location for nearly 20 years by C. W. (Peggy) Bowman and known as "Peggy's" Duck Inn, the business has since August, 1945 been operated by "Andy" Anderson.

The restaurant was closed September 14th for redecoration and now is offering a good place to

Four More Days To Register For Election

The number of eligible voters within the City of East Jordan jumped 184 over last year, according to City Clerk Thelma M. Hegerberg. With but four days left to register for the November 4th national election, it is believed that nearly all registrations have been recorded.

~Last June's total registration figure for the City of East Jordan was 1,066 as compared to the present total of 1,214.

Largest increase in registered voters was in the 3rd ward which now has 84 more than last year; the first ward, 69 more; and the second ward 5, less than last year.

Current figures by wards are: First ward, 248; Second 297; and Third, 521.

Registrations are being taken at the city building up to and including Monday night. On the last day, the registrations will be received from 8 a.m. until 8 p.m.

The City Council will appoint five or more persons to the election board at its next meeting Tuesday night at the city building.

300 Attend Parent-Teacher Harvest Supper

More than 350 people attending the annual Parent-Teacher Club harvest supper at the high school gym heard Supt. E. E. Wade describe the school's major summer improvements. They were the public address system and the new hot lunch kitchen.

Superintendent Wade was introduced by Maurice Hartung, club president. The supper was held Sept. 24th.

Visitors were entertained with a tap dance given by the pupils of Mrs. Glen Malpass, accompanied at the piano by Mrs. Emile Actelli. Movies were shown the children by Vaughn Ogden, who has charge of the visual-aids program.

The school's new intercommunication system was demonstrated by Principal Keith Annear.

Guest of honor, Mrs. Jessie Hager, was presented a gift from the group by Mrs. Maron Jackson.

Local School Enrollment Above Last Year

Enrollment at the East Jordan public schools topped last year's by 27 students according to Supt. E. E. Wade and Keith Annear, principal.

Current student enrollment hit 8533 as compared to the 826 of students in each grade are as counted last June.

Service Station Offers Free Gifts At Grand Opening

There will be free motor oil and free auto lubrication jobs offered motorists when the West Side Service holds grand opening Saturday.

Owner Chester Hughey, formerly of Mackinac Island, purchased the service station September 1st and delayed the grand opening until the equipment was in condition to offer complete service. The station is located at the corner of Water and Bridge streets.

In addition to fast, courteous service, the station is offering Holden and G & G gift stamps with each purchase. Gifts are on display at the station.

Hughey, who lives at 517 Main street and has had several years of service station experience, reports the business will be open seven day per week.

The remainder of the funds will be spent locally, as in the past, aiding a long list of worthy causes.

Named to the Chest's drive campaign committee Wednesday morning were: Bill Grauel, Jason Snyder, Mrs. Frank Strehl and Mrs. Howard Darby. Chairman of the campaign committee will be chosen later.

FUNDS SPENT LOCALLY

The majority of the funds have always been spent locally with money being raised for city recreation community nurse and health program and for emergencies which included help to other city groups.

Mrs. Porter said Wednesday morning that aid to the recreational program would be increased this year.

In the four years the Chest has been operating in East Jordan, the organization has grown to be a vital part of the city's community life, and the success of the drive reflects the residents' cooperation.

Lutheran Church To Hold Auction Sale For Building Fund

A change in the date of the Luther League auction sale was announced this week by Jason Snyder. New date for the auction is October 11th.

Farm equipment, farm produce and household articles will be put on the auction block at 1:00 p.m. by auctioneer TerAvest. Held for the benefit of the East Jordan Evangelical Lutheran Church, the auction will be held at the Lud wig Larson farm, one and one-half miles south of the Golden Rule Service station on M-66.

Those wishing to make donations for the sale may contact Mr. Snyder, Albert Inland, Harold Goebel or Roy Staudemeyer.

Proceeds of the sale will go toward the Church building fund.

THE PRESBYTERIAN CHURCH
This coming Sunday morning we will celebrate the Communion of the Lord's Supper. This is World-Wide Communion, in which the Lord's Supper is celebrated throughout the world on the same day. It is a significant service for the Christians around the world to join in their witness of their oneness in Jesus Christ.

Thursday evening, October 9th, we will hold our First Family Night for this season. We shall have as our guests the teachers and their families of the public schools. A fine program is being arranged and a cordial invitation is extended to all to join us in this happy fellowship. Pot-luck supper will be served at 6:45 p. m. in the church.

LETTERS

A letter to the East Jordan Chamber of Commerce was turned over to the News this week for publishing. The letter follows:
Gentlemen:

A week ago today, September 20th, we had a truck load of various items going up to our cottage at Pine Point, on Lake Charlevoix.

Just about 5 miles the other side of East Jordan, going to Charlevoix a young tornado suddenly blew up and ripped the canvas off the truck and blew things off the truck. We had a box with three pair of heavy green drapes, lined and dit was lost. The man driving the truck didn't know we had the drapes in the box, so didn't miss them until he returned here this week. We are wondering if you can help find them.

FOREIGN TRADE.
United States exports increased \$128,800,000 in May to reach a record high of \$1,461,000,000, according to the Bureau of Census. The previous record was \$1,455,200,000 set in May, 1944. Imports, however, declined \$57,700,000 to \$834,800,000.

IT'S HOT.
Youngstown, Ohio — During the recent heat wave, Ronald Galle, 2, was enjoying a dip in a wash-tub in his "birthday" suit. When he got out of the tub, the pavement on the driveway was so hot, it blistered the soles of his feet, so he sat down. His bottom got blistered, too.

Christmas packages for servicemen overseas should be mailed between Oct. 15 and Nov. 15, the Defense Department has announced.

Overseas boxes must be of double-faced corrugated cardboard, strong wood, metal or fibre-wood should be tied with strong cord, and may lose end flaps sealed with gummed tape.

Air parcel post packages up to two pounds in weight will be accepted on Nov. 5 but after that if not promised either air mail shipment or delivery by Christmas.

AUTO PRODUCTION.
July will probably be the poorest automobile production month since postwar operations were resumed, according to auto manufacturing reports, which estimate that "95 per cent of automotive production in the United States may be 'blacked out' by July 25th" due to the current steel strike.

Northern Michigan interests of industry and business in the tourist and resort trade will be discussed at the 21st annual meeting of the West Michigan Tourist and Resort Association, Grand Rapids, October 9 and 10.

Principal speaker at the two-day session will be Robert W. Budd, president of the Great Lakes Greyhound Lines.

Among other speakers will be Congressman Gerald R. Ford, Jr. of Michigan's 15th district, and Milton P. Adams, executive secretary of the Michigan Water Resources Commission, whose topic will be "High Water and Erosion."

WASHINGTON NOTES. LIFE INSURANCE.
The nation's life insurance business has reached the \$70,000,000,000 mark, representing a total of \$285,000,000,000 of life insurance ownership by millions of American families. This makes the life insurance industry the largest business in the nation.

When dependable electric service is available:

- ★ New equipment appears on farms

Northern Michigan Electric Co-operative, Inc.
BOYNE CITY

comes through cooperation . . . as in the soil all nature cooperates with the growing plants and in the growth of a community cooperation must become the byword and the watchword among its citizens. Strife among men will not lay the foundation for a progressive community.

We have learned as we mature and progress that the grass is never "greener on the other side of the fence." Our neighboring cities have no monopoly on progress. And when we turn our eyes homeward we find the good and the true are always here with us, waiting for us to recognize it and do with it as we will . . . through cooperation among ourselves.

Responsibility for the orderly development of our city rests upon all our shoulders and through a meeting of minds we can reach whatever goal we set. But it is an empty gesture to raise an unlighted torch.

The imagination, the enthusiasm, the positiveness and real intelligence is here . . . among our citizens . . . to carry a lighted torch, high with pride and dignity.

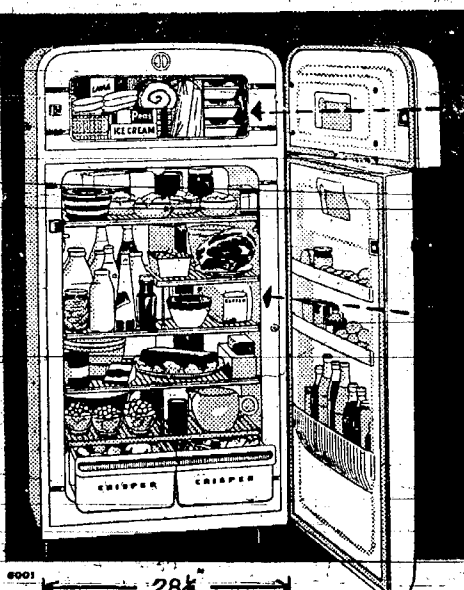

Nothing stands between us and our ultimate goal save all out cooperation to ignite the torch.

A negative force, a combination of personalities cannot retard the successful development and expansion of a community united in its deepest desires.

Red Devils Take Opener 33-7

Coach Gayle Saxton's 1951 conference leading football squad will meet Onaway on the home field October 11th after trouncing Pellston 33-7 in the season opener on the latter's gridiron.

Due to an interrupted schedule which forced the Red Devils to meet Charlevoix here Wednesday, the East Jordan News has been unable to report the game on this page. The tilt was run off while we were going to press.

Red Devil quarterback Keith Evans moved around end for three touchdowns in the Pellston

East Jordan 33 Pellston 7
Charlevoix 13 Boyne City 0
Mancelona 12 Grayling 12
Gaylord 19 Harbor Springs 6
Traverse City 20 Petoskey 19

game and halfback Ray Gee crossed into pay dirt twice via line bucks.

During the second half, when Coach Saxton was using nearly all second stringers, Bob Ruby, fired the ball to end Marshall Hampton who ran 40 yards to score the northern team's lone touchdown. Thirty Red Devils saw play in the opening action.

Loss of fullback Gordon Danforth, who suffered a head injury in early practice, gave Coach Saxton some concern as the season opened. Bob Romback, former tackle, has been shifted to Danforth's position. The injured fullback will be lost to the team for at least a month, coach Saxton reported.

It has been Coach Saxton's policy to leave a player on the bench until he has received a release from the doctor—no matter how well he may appear.

The Onaway-East Jordan game October 11th will be a conference breather for the local squad which meets Boyne City on the following Saturday.

One Acre In Six Of State Lands Open For Hunting

Lansing — More than 6,000,000 acres of Michigan land are open for hunting this fall in state and federal forests, game project and wildlife areas and parks and recreation areas, the conservation department reports.

That means Michigan hunters have a state wide choice of better than one acre in six on which to hunt. The total land area of Michigan is about 36,800,000 acres.

More than six million of these acres open to hunters are in the upper and northern lower peninsulas state and national forests.

OVER THE BACK FENCE

(Continued from Page 1) and said that if we weren't going to have anything but reading and pictures in the paper he wouldn't subscribe for it.

Another fellow told us that we would have to be careful what we put in the paper and make sure that our writing made good reading or people would get sore. That reminds us of the country editor who said in his paper that, "Half the city council members have knots in their heads."

When the council members read the paper they looked down their noses and frowned upon such language and demanded that the editor print a retraction the very next week.

When the paper came out the next week the editor had written: "Half the city council members do not have knots in their heads."

Hey, you guys and gals. Hurry over to Chris's Men's Store and latch onto those pretty little caps with the "E. J." on the

front. They're red and black—just the thing for boosting the town and incidentally, keeping your heads warm.

We're happy to see that our old friend Orval Davis and his wife have taken over Jan's Lunch. We've known Orval for 10... these many years and we wish him the best in his new restaurant.

We have our red face department all sauced and blowed and ready for business in case some one comes in to lower the boom because we spelled their name wrong.

HIDEOUT FITS TOO WELL. — Albany, Cal. — Hiding out from an "atom bomb," little Donna High, 8, climbed into a garbage can and got down as far as she could—and stuck. It took twenty minutes of hack sawing and tin-snipping to free the fugitive of an atomic age.

STRAIGHT FROM THE FIELD

FARM GOSSIP COLUMN

(Compiled and Edited by the News Staff)

It is a little late in the season to sponsor a sunflower contest, but anyone having a good sized pumpkin can brag about it by reporting the size to us. Just phone or drop us a postcard. We'll tell your neighbors about it through these columns.

Do you have a fire extinguisher on your tractor? If you ever look over the list of deaths caused by farm fires each year, you'll get an extinguisher pronto. Put it on your tractor where it's handy at all times.

Northern Michigan residents can look for Valley Lea Brand Cheese before long. Plans are in the hopper for wholesaling cheese through regular channels by the Jordan Valley Cooperative Creamery. The cheese will be in addition to the firm's butter and dried milk output.

Speaking of butter, the cooperative produced nearly two million pounds last year. The organization has 1400 members covering five counties.

A warning comes from MSC regarding milk handling equipment. The equipment will increase bacteria in milk if not kept clean, with surfaces bright and shiny. Dairymen should avoid milkstone . . . gray, chalky film . . . from building up on equipment because of minerals in water and in milk and unsuitable washing powders.

Northern Michigan farmers are being told that grass is the farmer's best paving material for carrying surplus water from the land. A good sod cover for natural drainage ways can save gullying on most farms.

Four-H Club and F.F.A. leaders are welcome to use space in this column from time to time to report meetings and project development. Farm Bureau and Grange members may also call in material about their organizations.

Michigan hens are making their fall moulting shifts, from abundant low-priced eggs to scarce high-priced eggs and the trend continues until the first of the year. That makes the early hatched pullets very important birds on any farm. With egg profits in the last half of the year and pullets the money makers, farmers should take special care that poor management does not cause a drop in egg production.

Northern Michigan farm auctioneers are at liberty to list coming farm auctions in this column.

Anyone know the oldest farm couple? We'd like to publish the names of those living on and operating a farm the longest in this territory.

It has been said of the Charlevoix County Fair that the dates are often too early and that some farm products are not in condition for showing so soon in the fall. Also we often seem to hit the rainy season with the fair dates. However, October is a little too late for a fair and August of course, is too early. Later in September might be better if it didn't stop the school children from participating in the events.

What with Thanksgiving in the offing, we can't help but slow down our car whenever we see turkeys on a farm. And there's a number of turkey raisers in Charlevoix and Antrim counties. Few residents should go without turkey dinners this coming holiday season.

Turkeys in this year's crop are estimated to outnumber last year's by about 15 percent. In poundage the increase over last year may be around 10 percent.

To those folks who will be buying turkeys to put in home freezers, the specialists warn against stuffing the birds before freezing, because of the risk of food poisoning. What may seem like convenient advance-preparation, they say, may be a health hazard. Stuffing inside a turkey takes a long time to reach the freezing point. Meanwhile, bacterial growth may start and continue later as the bird thaws and then as it warms up slowly in the oven.

On our way down to Atwood the other day to have a talk with Conrad Klooster we zigged when we should have zagged and to be sure that we were on the right road we stopped in and asked directions at Fairman Orchards. Claude Fairman told us about his place between waiting on customers at the barn. Claude has 100 acres of trees and knows the fruit business from the roots up. Out of our conversation came the opportunity to publish a weekly column, "Orchard Notes" which will be prepared for the News by Claude.

Listening to a conversation between Howard Stephens, farm implement dealer, and a man who is a member of the Boyne Valley Grange at Boyne Falls, the other day, we learned that the Grange over there has members living as far away as East Jordan. Grange members at Boyne Falls are going all out to put a new stage into their meeting hall.

To illustrate why the Farm Bureau insists upon economy in government, Dr. George S. Benson, Arkansas educator, tells a story about a talk he had with a Utah sheepman. The sheepman said that for the first time in 10 years his herd wasn't mortgaged.

"How many children do you have?" Dr. Benson asked.

The sheepman said he had a family of six himself and wife, and four children.

Knowing something about the cost of the government's farm program, Dr. Benson said, "Then your part of the national debt is more than \$10,000. All you've done is transfer the debt (your mortgage) from your sheep to your children."

A ten million dollar irrigation pipeline constructed in the west by the Federal Bureau of Reclamation developed 184 leaks in one day, according to a report in the Omaha Sunday World-Herald.

Northern Michigan cherry growers and canners will be interested in the October 8th meeting of a committee representing the Michigan Association of Cherry Producers in Grand Rapids.

The committee will study proposals to increase the tolerance for off grade fruits in salable load from 12 to 15 per cent, to stop the dockage taken for lug-sealed fruits and stem cherries and to ease the color requirements.

Many growers in the northwest section of the state have urged the 3 per cent tolerance change.

It is believed that the committee's views will be presented to the Michigan Canners' Association—with a request that the canners name representatives to a joint grower-canner study committee. From this it is hoped to work out a unified policy toward the regulation to present to the state department of agriculture.

Rainbow area farmers will be interested in Saturday's farm auction sale scheduled to be held at the Ludwig Larson farm on M-66 one and one-half miles south of M-32.

Dairymen Should Breed Cows For Fall Freshening

There are several advantages to the dairymen which should encourage the practice of breeding cows for fall freshening. Ed Reberman county agent, said today. A summary of DHIA records of cows in Michigan during 1951 showed those cows freshening during September, October, and November produced more milk and butterfat than cows freshening during other months of the year. The income over feed cost was \$232 per cow for those freshening during these fall months as compared to \$212 per cow for those freshening during March, April and May.

The feed cost was slightly higher for cows freshening in the fall than those in the spring but the increase in production and higher price for milk and butterfat still provided about \$20 more per cow in favor of fall freshening.

Cows freshening during the fall months make possible a more even distribution of labor throughout the year. During the late fall, winter, and early spring there is more time to spend with the dairy herd that will help to obtain maximum production.

Calves born in the fall will usually make better growth since they are in the barn for the first six or eight months when they will receive better care and then be of such age and size by the following spring that they will be able to make good use of pasture.

Fall freshening is of particular importance to those dairymen selling whole milk for most fluid milk markets since these are the months in which milk base is established.

It is not always easy to breed cows so they will freshen during the fall months. However, a greater percentage of cows would freshen in the fall if the herd was managed with this goal in mind.

COST-OF-LIVING

Prices may climb to an all-time peak during the next six to twelve months, according to a staff report to the Senate-House Economic Committee, whose job is to keep an eye on economic trends for Congress. The price increase may be from one to three per cent, due to an expected rise in rents and services, a recovery in clothing prices and a slight upturn in consumer durable goods.

SCHOOL BUILDING.

At least ten billion dollars will have to be spent in the next ten years on new school buildings to meet the "tremendous influx" of children into the public schools, according to Dr. Henry H. Linn, of Teachers College, Columbia University.

RECLUSE LEAVES MILLION

Kansas City—When the will of Ralph George Baldwin, 80-year-old bachelor, was filed, it was disclosed that he left an estate of over a million dollars. Baldwin had one patched suit and cooked his own men over a gas hot plate.

3 MATES CLAIM BODY.

Alhambra, Cal.—Shortly after a 60-year-old woman died in a hospital of heart disease, three men showed up and each said he was her husband. One of the three later committed suicide according to police. There was no record of a divorce from any of the three men.

Local Farmers Warned Against Fires

Expert Warns Of Yard Accidents In Fall Season

If monsters and boogeyman lurked in your own backyard it probably couldn't be any less safe than it is!

Few realize that the yard is second only to the kitchen as the scene of home accidents, says Olivia Meyer of the Michigan State College home management department. The yard ranks first in injuries for men and boys.

So, in this fall season, Miss Meyer suggests extra precaution when you are raking and burning leaves and getting flowerbeds "winterized".

Never allow rakes and hoes to lie in the grass or leaves with teeth and sharp edges turned up—keep them in a storage place when not in use. Handle scythes and grass-cutting equipment with care. Provide closed containers

for broken glass and other discarded sharp objects, Miss Meyer instructs.

Fires, of course, must be carefully controlled in yards so it is wise to have a metal container for burning. A fire extinguisher in the garage would be a wise investment, but remember to keep it filled and in good working order. Become safety-conscious about not throwing lighted matches and cigarettes in grass and leaves, too.

Falls rank high as the cause of home injuries and often prove fatal for persons over 65. Miss Meyer suggests keeping steps, walk and porches in good repair at all times. Provide a sturdy handrail for all steps and be careful that snow and ice are removed in the wintertime. As inside the house, toys and trash on the ground can be a menace. For night time, rig up good lights on driveway, walks, steps and porches. Such a light should be controlled by switches in both house and garage, she suggested.

County Agent Lists Many Precautions

Smoking and gasoline, lightning and electricity and overheated stoves and haymows cause many thousands of dollars of farm fire losses, Ed Rebman, county agricultural agent, said as National Fire Prevention Week started.

The real villain in farm fires, however, according to the agent, is negligence on the part of farmers.

Soil Can Earn Dollars With Proper Care

Soils need a proper diet just as animals do if they are to be top producers and dollar earners.

Properly-fed soils save both in the short and long runs, farmers are being reminded by Ed Rebman, county agricultural agent. The only way to take the guessing out of the soil ration is by soil testing, he noted, adding that now is the time to do it.

Late summer is the time for soil testing because sampling is easier and the fertilization program can be planned on time. Lime can be applied to same fields as needed and worked into the soil before spring seeding of legumes.

One Michigan farmer saved \$100 in lime costs by tests that showed that particular plot needed no liming to sweeten the soil. In some series of tests, four out of five samples showed no lime needed, and the farmers could put the money they planned to spend on lime into fertilizer. Soils need phosphorus, potash, nitrogen and other things besides lime, Rebman stresses and any farmer in doubt should have soil tested before wasting money.

The county agent is available to guide farmers in their testing and fertilizing problems. When a major problem arises, he can call on specialists from Michigan State College.

Legion Auxiliary

(Continued from Page 1)

help of Edna Wilkins and Thora Kotowich, directed a program fashioned after the popular radio show "Queen For a Day" which was fun for both contestants and audience. Martha Kamrad, was chosen queen, by popular vote. A lunch of dainty open-faced sandwiches, cake and coffee was served.

The Auxiliary will continue to hold their meetings on the second and fourth Tuesday of each month in the Legion Home 8 o'clock. Next meeting will be Oct. 14.

Machinery for inaugurating the next President of the United States has been started by President Truman, who has signed a series of special bills that would assure television coverage of the event next January, set aside \$55,100 for police and fire protection, provide for the loan of tents, flags and flagpoles and protest inaugural crowds from pickpockets.

Elect Barnard Farm Bureau Officers At A Recent Meeting

The Barnard Farm Bureau met Sept 18 at the home of Frank Matchett. The following officers were elected for one year: discussion leader, John Wieland; minute man, Sanford Matchett; chairman, Mrs. John L. Boss; vice chairman, John L. Boss; member county women's committee, Mrs. John Wieland; recreation leader, Mrs. Sanford Matchett; publicity chairman, Mrs. Arthur Stoel; song leader, Mrs. John Wieland.

The Farm Bureau is co-operating with the Barnard Grange in having Ed Rebman show his soil conservation pictures Oct. 10 at the Grange hall.

The October meeting of the Farm Bureau will be at the John Rosquist home. The date will be announced later.

Every home in East Jordan, East Jordan rural routes, and Ellsworth should receive a copy of the East Jordan News. If you do not receive one in your Thursday mail, call LE 6-7188.

New, Easy Way to Farm

One Minute TO PUT ON IMPLEMENTS

NEW EAGLE HITCH

EASIEST 3-POINT HOOK-UP YOU EVER SAW

See it...
Try it...

The new Eagle Hitch on the 1950 Case "VAC" tractor takes hold of the new latch-on implements and picks them up—fast and easy. Without getting off the seat you just latch on, slip in a pin, and get 'er on to the field quicker, finish sooner. Work is done better because the Eagle Hitch keeps implements working at a steady depth in spite of

hard-spots and uneven ground. Come in and see it! Try the new low-pressure hydraulic implement control. You'll like the way it works with both latch-on and front-mounted implements. This isn't push-button farming but it's the nearest thing to it. And you'll be amazed at the eager power wrapped up in this low-cost 2-plow tractor.

READIN' WRITIN' and 'RITHMATIC

1st GRADE — MRS. STOKES
We are all nicely started in first grade. There are thirty-four children in our room. We are busy learning to read. We read from "Our Big Book" and "We Look and See," all about Dick, Jane and Sally.
We have found pretty leaves and drawn leaves, colored them and cut them out. We have learned which is maple, poplar,

1st GRADE — MRS. BROOKS
Our room is filled with seventeen girls and fifteen boys. We have already started to read, and like it very much.
Eddie Williamson has gone with his folks on their vacation. It does not come during school vacation, so Eddie has two. Shirley Crawford visited the Detroit Zoo while she was down

there with her folks to attend the baseball game and visit relatives.

SECOND GRADE
Agnes Johnston
After a nice long summer vacation, it is nice to be back in school with all of our friends.
We are enjoying our room in the new building. Mrs. Johnston took us on a tour so we would know where to go for our different school activities.
Our room has been decorated with pretty flowers and autumn leaves.
We are learning how to write. Now that we are older it is fun to write our names and our spelling words instead of printing them.
We have new number work books this year. We think it is fun to work the problems that are in the book.
We welcomed Marjorie Wood as a new member in our class. Last year, Marjorie attended school in Detroit.
Last Wednesday some of us enjoyed Harvest PTA supper. We enjoyed the movies which we saw after supper.
Monday we helped Charlene Sweet celebrate her seventh birthday. Charlene's mother sent us a nice treat of camp. We all made a birthday picture for Charlene.

THIRD GRADE
Mrs. Bowerman
We have 36 boys and girls in our room. This is three years that most of us have worked together in the same room, with the same teacher and the same friends.
Louise Bader gave us a very interesting report on her trip to St. Paul, Minn. last week. We followed her trip on a map. She saw the Taquamenon Falls, Porcupine Mountains, Copper Harbor and the Mississippi River.
Marvin Crawford spent Friday and the week end in Detroit. He told us about his visit to the Zoo and about the ball game between the Tigers and Cleveland Indians.

Metcalf and Edward Campau report that their corn is about ready to harvest.

FOURTH GRADE
Mrs. Galmore
This year we have twenty-nine pupils in our room, which is the one Mrs. Jessie Hager used to have. We have new seats and are being very careful with them.
In Science we did experiments with magnets. We also studied about rocks, toads, frogs and spiders. We have a rock collection.
In Geography we are learning about maps and globes. We made a map of the room. Harold Murray brought a globe on a stand. We are going to show how the sun's rays strike the earth.
Mark Peter's brother, Albert and Yvonne Elzinga's sister, Geneya, are in Munso Hospital. We made cards for them.

FOURTH GRADE
Mrs. Strehl
We have 29 boys and girls in our fourth grade this year. Everyone is happy to be together again after the long summer vacation.
During the past weeks we have been talking about Safety in our room, on the playground, at home and on the streets. Safety, we have found, is very important to children.
In Science we have been studying the sun and other constellations. The boys and girls put up a stick outside to measure the sun's shadows and the direction of the sun. They watched the sun paths very carefully, and made a chart of their findings.
Friday in Art class the children made a mural of Autumn. It is very colorful and tells some of the many signs of fall we have been talking about.
In Language class we learned two new poems. They are "Little Charlie Chimpunk" and "Indian Children."
This month we celebrated two birthdays: John Neuman and Larry Shepherd.

SIXTH GRADE
Mr. Malone
We have a club organized in our room. We elect a new President every week and he appoints someone to perform the various duties in the room. Duffy Cihak, Perry Bennett, Laren Wycoff, and Jerome Chanda have been our presidents so far. No person can have a second term so every one in the room will have a chance to be president before the year is out.
In our fourth week of school, we are still reviewing addition, subtraction, multiplication and division before going into the study of fractions.
In English we are learning the parts of a sentence and about nouns and adjectives. We have also tried our hands at talking before the class. Some of us have no trouble and some of us need practice.
In Science we have been studying the early history of the world.

SIXTH GRADE
Mrs. Alma Larsen
We have 36 pupils in our room; 19 boys and 17 girls.
We organized a Good Citizenship Club with the following officers: Pres. Gary Cihak; Vice Pres. Anita Petrie; Secretary Janet DeHaven. It is the duty of the president to appoint a housekeeper and engineer who in turn choose various people for jobs in taking care of our rooms.
We have been stressing "Safety" in our health work. We are making "Safety" booklets and singing "Safety" songs.
In English we have been having discussions. Some of our topics were: How to Get Rid of the Flies.

Flies, How to Take Care of Ourselves so We Can Have a Quiet Room During Work Periods.
We are planning to have a discussion about the Roman; Paul Bowen is chairman.

Mrs. Bertha Berger, of Lansing, is a guest at the home of Mrs. George Bechtold.
Mrs. Harold Goebel and Miss Ann Wagbo will be hostesses at

the Luther League cooperative dinner on Sunday, October 12th. The dinner will be held at the church at 1:00 p.m.

THRIFTIEST distance

between two points . . .

is by all odds the uncongested steel highway of your American railroads!

You, yourself, may never send or receive railroad freight — but nevertheless almost everything you eat, wear and use moves long distances on steel rails. That holds true, too, for the raw materials and fuels that are needed to make the goods you use every day.

Vital rail service hauls more tons of freight more miles than all other forms of transportation combined — and does it at an average charge lower than that of any other form of general transportation.

It makes a lot of thrifty sense, therefore, to ship freight by rail. And the more use that is made of these steel highways — maintained and built with the railroads' own money — the less will be the wear and tear on public highways, the less you as a taxpayer will have to pay for building and maintaining them.

STUDENT ACTIVITIES

East Jordan High School News

(Gathered and Edited at the High School)

Mrs. Clara Brown, home economics teacher, attended a conference of State Curriculum Committees, held at the Michigan Education Association, camp, St. Mary's Lake near Battle Creek, September 17 and 18.

The committees were appointed by Dr. Lee Thurston, superintendent of public instruction, to work on various phases of curriculum improvement in both public schools and colleges.

Outstanding speakers at the conference included Dr. Thurston and Dean Willard Olson of the University of Michigan.

CLASS MEETINGS

Class meetings were held in the upper six grades September 17th for the purpose of electing officers, advisors and students council members.

Following are the results: Seventh Grade — President, Gene Richards; Vice-president, Rhea Zitka; Secretary, Elmer Compo; Treasurer, Charles Karnrad; Student Council, Rodney Steenberg and Betty McRoberts; Advisor, Mr. John Downing. Eighth grade — President, Alva Noiro; Vice President, Gerald Carney; Secretary, Gareth Thompson; Treasurer, Larry Woodcock; Student Council, Jack Ingalls, Judy Lick; Advisor, Prin. Keith Anear.

Freshman Class — President, Martha Galmore; Vice President, Fred Clark; Secretary, Darleen McRoberts; Treasurer, Everette Beishlag; Student Council, Jerry O'Brien, Deanna Lahrhass; Advisor, Mr. Harry Jankoviak.

Sophomore Class — President, John Zoulek; Vice President, Mary Ann Farmer; Secretary, Marjorie Chanda; Treasurer, Marian Danforth; Student Council, Robert Romback, Susan Perrie; Advisor, Mrs. Mildred Karr. Junior Class — President, Steve Hayden; Vice President, Ray Gee; Secretary, Beverly Whiteford; Treasurer, Eric Golke; Student Council, Ted Scott, Louise Ostrom; Advisor, Mrs. Leatha Larsen.

Senior Class — President, Floyd Detloff; Vice President, Sam Milstein; Secretary, Judy Malpass; Treasurer, Sally Swafford; Student Council, Floyd Detloff, Bonnie O'Brien; Advisor, Mr. Jack Richardson.

Four cheerleaders and two substitutes were chosen for this school year at the first pep-meeting held, September 19th.

The student council and two representatives from each of the upper six grades acted as judges. Points considered when judging were: Character, Personality, Ability, Gracefulness, and "C" average in school work.

Following are the results: Four regular leaders: Sally Swafford, Captain; Bonnie O'Brien, Bethany Whiteford, Shirley Murphy. Substitutes: Shirley Rose, Chonnie Summerville.

Two new teachers were added to the faculty of the high school this fall.

Willard C. Nelson is in the commercial department taking the place of Earl Leatherman, who is now in Liberty Center, Ohio.

Mr. Nelson has a B. A. Degree from the University of Minnesota. Before coming to East Jordan he served in the United States Navy four years where he taught shorthand. He also did substitute teaching at Virginia, Minnesota.

Albert Nesman is returning to our science department after an absence of several years. He is replacing Mr. Ortnier, who is attending college at the University of Michigan.

M. Nesman has a B. S. Degree from Michigan State and a M. A. Degree from the University of Michigan. The last four years he has taught in the Veterans' Institute at Traverse City high school.

F. F. A. NEWS

The East Jordan F. F. A. Chapter 115 elected the following officers for the year 1952-53: President, Lester Howard; vice president, Jim Shepard; secretary, Kenneth Shepard; Treasurer, Steve Hayden; reporter, Jack Zoulek and sentinel, Elmer Ostrom.

Reporter—Jack Zoulek

The leader of our program of work for this year is Jim Shepard. The various committees necessary to carry out our program have been formed and their chairmen chosen. These program of work chairmen are as follows: Supervised Farming Comm., Jack Zoulek; cooperation, Kenneth Shepard; community service, George Nelson; leadership, Jim Shepard; den; conduct of meetings, Elmer

earnings and savings, Steve Hay-Olstrom; scholarship, Leonard Lick and recreation, Warren Frank.

Reporter—Jack Zoulek

FRESHMAN PARTY

The Freshman Class held the first party of the year September 25th, in the high school gymnasium, beginning at 7:30 p.m. Entertainment included round and square dancing and games.

Lunch was served in the Home Economics Room. Each member paid 15¢ to be deposited in the class treasury.

Chaperones included: Mrs. Mildred Karr, Miss JoAnn Nachazel, and their advisor, Mr. Harry Jankoviak.

JUNIOR CLASS NEWS

The Junior Class is busy getting orders for personalized stationery. All orders taken before November 5th will be ready to deliver before Christmas.

The Juniors will hold a home-made candy sale Wednesday noon. The committee in charge of this activity includes: Ruth Haft, Eldava Craft, Jacklyn Wright, Catherine Antoine, Betty Snyder and Eleanor Raymond.

The music groups are getting off to a good start this fall. In addition to the senior high groups, vocal music classes for junior high children have been organized to meet once a week. From the large junior high group a chorus of thirty voices will be chosen the second semester.

The senior high chorus numbers 67 as of this date. It is hoped that from this number and from those who because of class conflicts, cannot be in chorus, there can be organized an A cappella choir of no more than 35. The latter group would rehearse at noon.

Central Michigan College Extension Service is offering Speech and Sociology at Charlevoix, Friday evenings, with Mr. Pfister and Mrs. Beatty, instructors.

Those from East Jordan attending are: Jean Strehl, Alta Drapeau, Agnes Johnston, Helen Witte, and Frances Benson.

The hot lunch program for this year will start Monday, October sixth, in our remodeled lunch room. Prices will be: 20¢ per meal for elementary grades and 25¢ per meal for the high school pupils. Mrs. Weldy and Mrs. Cole will again be in charge of the kitchen.

SENIOR CLASS

At the first Senior Class meeting of this year it was decided that Mr. Richardson would be our Class Advisor. It was also agreed that we should keep the same Class Officers that we had when we were Juniors.

We have started taking orders for Christmas cards, wrappings, and stationery. We have set October 31 as the deadline so we can assure everyone that they will have their orders back at least three weeks before Christmas.

We will begin to take orders for magazines as soon as we finish the previous project.

Other money-making projects which are now underway are: selling cupcakes and homemade candy during noon hour and selling candy, pop, coffee, and popcorn at all home football games.

Senior pictures were taken the first week of school. We were all pretty excited when our proofs came back. The Studio's photographer and a representative were here again last Wednesday to take orders and retakes for those who wanted them. Our orders should be filled and returned to us before Christmas.

The Senior Class has permission to hold dances after home football games, the first one being this Wednesday. We are now setting up a list of rules to be followed at all dances from now on. The purpose of these are to eliminate previous practices which have not been in keeping with good conduct.

New Collection Of Maps Is Available

Lansing — The conservation department's new edition of county maps, with special features of interest to hunters and anglers, now is available to the public.

Containing individual maps of all 83 counties, the revised book shows new state game and recreation area land, forest additions, public fishing sites, trails, airplane landing fields and many other features of prime interest to the recreation seeker.

Complete books are offered at cost by the department's lands division here. There is no charge for reasonable requests of individual county maps.

Ethel Murphy Weds Pvt. Jack Wilson

Ethel Murphy, daughter of Mr. and Mrs. Ervin Murphy, 111 South Maple Street and Private Jack Wilson, son of Mr. and Mrs. Denzil Wilson, Echo Township were joined in marriage at 8:00 p.m. Monday, September 29th by Rev. Robert H. Moore at the Methodist parsonage. The couple were attended by Shirley Murphy, sister of the bride, and Edward Wilson, brother of the groom. A reception attended by relatives and friends was held at the home of the bride's parents after the wedding.

Private Wilson is a member of the Armed Forces and leaves for camp in California Thursday. He is due to go overseas soon. Mrs. Wilson will remain at home with her parents.

Soils Need Proper Diet To Give The Highest Production

Soils need a proper diet just as animals do if they are to be top producers and dollar earners. Properly fed soils save both in the short and long runs, farmers are being reminded by Ed Rebbman, county agricultural agent. The only way to take the guessing out of the soil ration is by soil testing, he noted adding that now is the time to do it.

Late summer is the time for soil testing because sampling is easier and the fertilization program can be planned on time. Lime can be applied to sod fields as needed and worked into the soil before spring seeding of legumes.

YOUR ONE BATTERY INVESTMENT for years to come

The Great New **U.S. SUPER POWERLIFE** More Power 3 Times Longer

You Get **MORE POWER 3 TIMES LONGER** Here's why...

- ★ 10% MORE STARTING POWER. Quicker, more certain, sub-zero starts due to extra built-in power reserve, super-insulating all-rubber separators.

Slightly More Land Reverts To State This Year

Slightly more land reverted to the state this year due to tax delinquency but the number of counties with no reversions dropped, the conservation department reveals.

Lands division report shows 3,554 acres and 3,952 lots passed into state title as compared to 2,767 acres and 3,824 lots in 1951. In 14 counties there were reversions, 21 with none in 1951.

The 1952 land is the annual tax-delinquent residue not sold at last year's county tax sales or redeemed within the "normal" grace period.

However, the former owner still can take steps to recover the land under Act 167, passed by the 1951 legislature. He should go to his municipal government unit on or before November 4 and request a resolution that the land be withheld from state sale. With the resolution, the county treasurer is authorized to collect the back taxes, with interest, and make a report to the state auditor general. Once the tax record has been cleared, the lands division will execute a deed to the applicant which will reinstate the owner's interests as previously existed.

This year there were no lands reverting to the state in Alger, Bay, Benzie, Calhoun, Clinton, Iosco, Kent, Mason, Missaukee, Ogemaw, Oscoda, Ottawa, St. Joseph and Tuscola counties. In six other counties—Alpena, Huron, Isabella, Keweenaw, Luce and Ontonagon—reversion was limited to one lot each.

As last year, most acreage passing to the state was in Gogebic county, 1,000 acres. Most lots again were in Wayne county, 634.

Total state-owned land now amounts to 4,212,726 acres and 116,822 lots as compared to 4,171,652 acres and 117,312 lots before.

Ten Wolves Caught For August Bounty

Lansing — Ten wolves, most since April of 1949, were included in the 1,050 animals turned into the conservation department for a total of \$10,470 in August bounty payments.

Same number of wolves were bountied in April, 1949. Most wolves taken in any month in recent years were the 11 bountied in September, 1946.

Latest state monthly tally shows 531 foxes, 411 coyotes and 98 bobcats in addition to the upper peninsula wolves, five of which were from Gogebic county. In August last year, \$14,015 was paid for 1,250 foxes, 414 coyotes, 101 bobcats and one wolf.
