(SUBSCRIPTION RATE: \$2.50 PER YEAR)

Over the Back Fence

By Marshall

A fellow came in to say that the East Jordan News "is the best thing that has happened to East Jordan since the Greyhound bus company put a station here."

We don't know what we have in common with the Greyhound line unless its the startling fact that our auto also has wheels.

The Greyhound line goes from here to there and our newspaper only goes from there to there. We already have a subscription going to Chicago and in the near future we hope to be sending papers to other parts of the nation. But right now Greyhound is giving us a run. If we ever find out that our paper beats the Greyhound bus to Chicago we'll really have something to whistle about.

Auctioneer TerAvest was selling a cook book at an auction near here Saturday. The book was of the 1890 vintage. He had worked the price way up to a dime when he noted a picture of the White House on the cover. "Truman wrote the book," he suggested. Then he thumbed through the pages hunting for Margaret's picture. The book sold for a thin dime, however.

Hey, you hunters. Michigan Bell is warning you about over head wires. Serious disruptions in telephone communication can result from careless firing. Come to think of it it was probably some excited gent shooting at random when our phone went on the bum the other day. Drat those hunters.

Saw a couple of fellows betting as to when the lake would freeze over. No use rushing the season. But it did remind us that the Dress Shoppe and Chris Taylor are advertising the "best" in fall and winter footwear.

Over at the West Side service station the other day, we were remarking how dangerous that corner is. . . Bridge and Water. . . But they tell us that for all the danger on the corner there has been few accidents.

To those people who think that the sale of yard goods in retail stores went out with clinker tires, we advise them to stop in and have a look at the fine display at Bradshaw's Dry Goods Store.

Northern Michigan theater owners can stop crying in their beer. Television is still a long way off. . . from here. We are advised by a top rate television engineer at J. L. Hudson's, Detroit, that it cost \$250,000 to install a television transmitter. In addition to that (the last time we heard) the advertiser on TV could spend \$70 while you snapped your finger. However, there is a fellow down Ellsworth way who pushed an aerial up 95 feet and is enjoying good reception. . . at times.

Another fellow down in Ellsworth is enjoying radiant heating in his garage. He told us the other day that he had one half mile of water pipe underneath the cement floor and that his heating system works perfectly.

We tried this one on several people and failed to get a laugh. Now we'll try it on you. A fellow was lying in a hospital bed and he said to a visitor. "Every time you turn around these days you get a shot of penicillin."

Fellow said the other day, "You made some mistakes in your paper last week."

Most errors in a newspaper office are what we call "proof reading errors." You read the copy after it has been set up, checking the type. But when its 3:30 a.m. and you're the kind of a person who has only two eyes, you kinda slip now and then.

A man with more than two eyes might catch all the errors. But then if we had four eyes we'd go on road with Ringling. Then, you wouldn't have any East Jordan News. Just think of that there for a moment.

The general meeting of the Women's Association will meet in the home of Mrs. Evelyn Gidley, Thursday, October 16th at 8:00 p.m. All the women are urged to be present.

Attracting More Tourists

Trailer Park Improvement Now Underway

American Legion Is Set For Membership Drive Increase Area to Hold Fifty Trailers

National advance enrollment for 1953 in the American Legion is now showing an early membership gain of more than 42,000 over the corresponding period of a year ago. Commander Franklin Stucker of the Rebec Sweet Post No. 227 announced today.

"This lusty increase on the national level is reflected in the early membership success of the local American Legion Post," Commander Stucker said.

"Our local enrollment drive promises a record membership here in 1953. Our quota for the ensuing year is 200. Our goal is to enroll every eligible war veteran in this community. We need this strength to accomplish our 1953 objective of a free and secure America, enduring world peace and decent care of all sick and disabled veterans and of the war widows, orphans and other dependents of those who gave their lives that freedom might live."

"If you are a veteran, you belong in the Legion," Commander Stucker said. The American Legion is entering its 35th year of activities. The chairman of the membership drive is First Vice Commander, Vale Gee. The team captains are Bill Bennett and Roman Dubas.

LOCAL OFFICERS

The following is a list of officers and committee chairmen for 1952-53: Franklin Stucker, Commander; Vale Gee, Sr. Vice Commander; T. Kotowich, Jr. Vice Commander; Mr. Hite, Finance; Donald Shepard, Adjutant; and Vern Whiteford, Chaplain. The Executive Committee includes F. Stucker, R. Dubas, V. Gee, B. Bennett, Mr. Hite, Mr. O'Brien, and D. Shepard. Members of the Club Committee are Mr. Hite, Vale Gee, and S. Thomas. The Building and Improvements Committee include Vale Gee, B. Bennett and T. Kotowich.

COMMITTEE CHAIRMAN

The Post Committee Chairmen appointments are: Donald Shepard, Adjutant; J. P. Wilkins, Accident Prevention Committee Chairman; Ray Dubas, Americanism Chairman; Vale Gee, Athletic Chairman; Keith Annear, Child Welfare Chairman; E. E. Wade, Education and Scholarship Chairman; Wm. D. Bennett, Get-Out-The Vote Chairman; Vale Gee, Junior Baseball Chairman; Archie Nemecek, Marksmanship Chairman; Vale Gee, Membership Chairman; Wm. M. Swovoda, National Security Chairman; Cyril Dolezal, Public Relations; David C. Pray, Un-American Activities Chairman; Ted Kotowich, Welfare Chairman; Jason H. Snyder, Wolverine Boys State Chairman.

Five civic minded workers surveyed the spot which will be cleared for additional trailer space in the city-owned tourist park this week. Pointing in the center is Park Commissioner Thomas St. Charles, who explained to the men that space is being provided for 50 trailers in all. From left in the above photo are: Don Clark, Chris Taylor, St. Charles, Mayor Leo Sommerville and Edward Streeter. When the area is cleared tourists will not only have additional space to park trailers, but will enjoy the new building constructed for their convenience. Most work on the building was donated. Streeter was chairman of the job of getting help. See story at left. East Jordan News Photo By Bill Huckle

Hannah Backs 'One Fund' Idea

Speaking in behalf of Michigan's United Health and Welfare Fund recently State Campaign Chairman, Dr. John A. Hannah, Michigan State College president, said:

"To me, the idea of a united campaign came as a welcome relief from the constant solicitation by reputable agencies which I had experienced, as you have experienced, for many years.

"It makes sense to me to have the needs of participating agencies screened and the worth of their projects determined in relationship to each other and to the resources of the state."

The campaign committee of East Jordan's Community Chest fund is working hard to organize a campaign that will duplicate last year's successful efforts. Mrs. John Porter, chest fund president, said Wednesday. Many people in the community will be asked during the coming week to contribute their time and energy to the Chest Drive, which will begin November 5th.

"It makes sense to me," Dr. Hannah continued, "to call upon volunteer workers for a supreme effort once a year rather than ask them to devote their energies to a score or more campaigns scattered throughout the year. To me it makes sense to eliminate the (Continued on Page 4)

Mobile X-Ray Unit to Be Here Oct. 28

East Jordan Children and adults will have an opportunity October 28th and 29th to be checked for tuberculosis. There is no charge for the X-Ray services.

Through cooperation of the Charlevoix County health department, a state tax supported mobile X-Ray unit will be located in East Jordan on the above dates. On October 28th the unit will be at the school building and on Main street the next day.

"To protect children and themselves," School Nurse Betty Robertson said, "it is important for all adults to have a chest X-Ray preferably once a year."

The children who react to tuberculin will be given tickets for free chest X-Rays. All adults are being asked to "have their pictures taken." The process does not call for undressing, it takes less than a minute. Christmas seals are providing free tuberculin patch tests for the students. The test consists of a little strip of tape. No Needle is used.

"Ellsworth Is Growing Up" Merchants Say

Sixteen Ellsworth merchants joined hands this week in a cooperative move to spread the word that, "Ellsworth is growing up."

In a chamber of commerce type promotion appearing elsewhere in this issue of the East Jordan News, the merchants are telling the thousands of residents throughout this section that they live in a community which boasts modern schools, industry, resort and agricultural. . . in a community that thrives with good neighbors and ample churches.

That the people of Ellsworth are proud of their accomplishments is shown in the manner they cooperated wholeheartedly to purchase a full page display to tell the people outside their community that, "Ellsworth is growing up."

FAST WORK

FOR SALE — Dining room suite including buffet, table, and six chairs with host chair. Good condition. Reasonable price.

"... could have sold it six times more, and then some" advertiser said.

LEGION... Auxiliary News

There are other signs that summer has definitely left our community these days other than the rustling of fallen leaves from the trees, the girls of the American Legion Auxiliary Unit 227 are swiftly shaking the lethargy of summer and plunging into work.

A work detail will go out to the Grandvue Hospital this week to start washing woodwork, shining windows and doing whatever they can to assist in making the hospital a more cheerful place for the shut-ins.

Peggy Thomas, Community Service Chairman, has a regular work schedule all planned. She hopes to have all the curtains washed and the cleaning done within the next two weeks. She has asked that if anyone would like to launder some curtains to help in this project just contact her and she will see they are brought to you and picked up. She will also needs a lot of help with the cleaning.

There still is a demand for singers for the mixed chorus being organized, especially Legionnaires. There was a mistake in the time mentioned previously. This group will meet every Wednesday evening at 8:30. Anyone joining should be in for a lot fun and a chance to really "sing out." With Mrs. Alta Drapeau, directing, it should be a really fine chorus. So let us get behind this program and show what we can do in East Jordan. One never knows, we may wind up singing at a National Convention some where?

If you haven't already paid your 1952-53 Auxiliary dues, now is the time, or if you are eligible for membership in the Auxiliary and wish to join this is also the time. All women are eligible if they are mothers, wives, daughters, or sisters of a member of the American Legion. Hilda Bathke, membership chairman, will be glad to accept applications for membership in our Unit, or give any added information regarding eligibility. In order to carry on the work that is expected of our Unit we must have a large active membership.

Ellsworth Farm Store To Show Willys Jeep

Announcement was made this week by the Ellsworth Farm Store that the new line of Willys automobiles will be on display there within a few days. Dealers in International farm equipment, Mr. Doctor and Mr. Essenberg, will handle the famous Jeep, and station wagon for Willys buyers in this section.

It's A Boy!

Mr. and Mrs. Floyd Peck of East Jordan announce the birth of a seven pound-ten ounce boy, Larry Duwane. He was born October 6th at Little Traverse Hospital in Petoskey.

St. Charles said that between 28 and 30 trailers were parked there during the summer season; and that when the additional space is developed at least 50 trailers will be able to be located.

East Jordan's trailer park begins filling up right after school ends in June and usually remains full until the end of the summer season. Trailer owners have been paying \$3.50 per week rent, but St. Charles said the fee would be upped next season.

Soon, St. Charles said, the park will display the Trailer Coach Manufacturers Association sign, a badge of modern trailer park approval.

NEW BUILDING FINISHED — Also next summer, those arriving in trailers will have benefit of the new building housing a laundry, showers, rest rooms and facilities to make the visitors' stay more comfortable.

The building was finished through cooperation of the city council, local business and laborers who donated their time and effort toward the work. The structure was completed two weeks ago.

St. Charles said that the tourist park would comprise about six acres when present work is finished. After that, (Continued on Page 4)

Meet Your Red Devils

Robert Romback, No. 44, is a sophomore this year. The Red Devil was a letter winner in football and track last year. He now is playing his second football season. A fullback on offense and tackle on defense, Bob has played in every game this season. He scored two East Jordan touchdowns during the current season.

James Sherman, son of Mr. and Mrs. George Sherman, of East Jordan, is a sophomore and now is in his second football year. He was a letter winner last year. Jim is an offensive tackle and has seen action in all Red Devil contests this year. Last year he saw action on the East Jordan reserve Basketball team.

Leon Bartlett, son of Mr. and Mrs. Norman Bartlett, is a senior and plays offensive end and is a defensive line backer. In his fourth year out for football, Leon has won two letters. He has seen action all this season. He also plays basketball. Photo by Milt Meredith

NEWS FARM PAGE

STRAIGHT FROM THE FIELD

FARM GOSSIP COLUMN

(Compiled and Edited by the News Staff)

East Jordan will be the host city Friday, October 17th when members of the Charlevoix County Farm Bureau hold their annual meeting. It will be held at the high school building.

Don't forget the farm Auction to be held Saturday, Oct. 18th at the Charles Moore farm, 4 miles north East Jordan on M-66 and one half mile west on the old M-66. Another farm auction has been scheduled for the Albert Colter farm, 2 miles west and 2 1/2 miles south of Elmira. It will be held Saturday, November 1st.

You farmers interested in rugged trucks will soon have an opportunity to take a "look see" at the latest model Jeeps to be displayed at the Ellsworth Farm Store.

Executive secretary and treasurer of the Michigan Farm Bureau, C. L. Brody, will make his 32nd and final report to the 1952 convention of the farm organization November 13. An associate J. F. Yaeger will replace Brody.

John Timmer, of Ellsworth turned some excellent turkey photos over to us for publication. We'll try to use them next week. One picture shows 500 five months old broad breasted bronze turkeys raised by Edward Bradford, Route No. 1, Ellsworth. Bradford will ship his birds to Detroit about the tenth of November.

Farmers will be interested in the auction sale to be held at Chestonia Saturday, October 25th. Harold R. Donner, Sr., will sell household equipment and farm machinery and other items. A. E. Wilhelm is the auctioneer. Greg Boswell, of the State Bank of East Jordan is the clerk.

The Ellsworth Rifle Club Range has announced turkey shoots for October 18th and 19th. The range is located on the west side of 6-Mile lake. Just follow the arrows.

Suggests Trimming Bones To Save On Space In Freezer

Why fill your home freezer or food locker with bones and fat and take valuable space away from meat storage? Boning out cuts like lamb shoulder and cutting away excess fat is a good idea, in opinion of Lyman J. Bratzler, Michigan State College meat specialist.

Meat with bones cut out will retain its flavor, Bratzler assures the doubting housewife. In fact, well-wrapped meat that has been boned will be in better shape, he stresses, than some where the bone has poked holes in wrappings.

It also pays to put chops and steaks in family-size packages and cut roasts to family size, according to the MSC meat specialist. Using lesser cuts first and freezing the more valuable is another good idea passed along by Bratzler.

For Good Work Peninsula Grange Honors Farm Leaders

4-H leaders of the Peninsula and the Star 4-H clubs were recognized by the Peninsula Grange recently.

The recognition of these 4-H leaders was held in connection with the Peninsula Grange booster night. About 125 attended.

George Klooster, of East Jordan, was in charge of the 4-H recognition program. Two movie films shown by K. C. Festerling, district 4-H club agent, started the program. Following the films Festerling gave a short talk on the duties of the local 4-H leaders, some of the hardships they must go through and congratulated them on taking their own time in assisting boys and girls to be 4-H members and to become better citizens.

Attending the recognition program were three Peninsula club leaders—Mrs. Lewis Prebble who leads photography and outdoor meals; Mrs. Albert Chanda leading vegetable garden and Mrs. Alfred Crowell who is leading food preparation.

There were seven leaders from the Star 4-H club present. These were Mrs. Clayton Haley leading food preparation; Mrs. Frank Hayden, leading vegetable garden; Frank Hayden leading rabbits; Mrs. Ken Russell leading flower garden; Mrs. Charles Arnot, who is the food preservation leader; Mrs. Lawrence Elzinga leading food preparation and Lawrence Elzinga leading the dairy project.

Following the recognition to the 4-H leaders the Grange held its regular booster program under the direction of Mrs. George Hardy, lecture of the Grange. This was followed by an evening of square and round dancing under the direction of K. C. Festerling.

With Your COUNTY FARM AGENT

By Ed Reberman

The local housing type of dairy barn-known as a pen barn or pole barn-will serve the farmer well and save his labor time.

The pen barn generally refers to a barn having overhead storage where standard construction is used. The pole barn gets its name from the use of poles for supporting the roof and side walls.

Chore time per dairy animal has been reduced as much as 50 hours per animal per year by an operator changing from the stanchion to the loose housing type of barn, reports Reberman.

The loose housing barn requires a better farm manager than the stanchion type of barn if satisfactory conditions are to prevail, he cautions. The key factors to good pen barn management are correct barn arrangement, enough room for the cows that are to be housed, sufficient bedding and a farm operator who is interested in his dairy herd.

The biggest disadvantage in a loose housing barn is probably the farm operator's habit of working in a warm barn. To operate correctly the pen barn should be cold with at least one door open all the time. Generally the milking parlor is "on the chilly side." If the farm operator can overcome the desire to close the barn doors in cold weather, he will find his animals are frequently outside even when it is snowing hard.

Most swine producers in Charlevoix county should focus their interests on the production of feeder pigs.

A few feeder pigs for home use, a few for sale to the neighbors and other for export to southern Michigan should provide a desirable swine enterprise.

The production of feeder pigs provides a market, through swine, for larger quantities of hay and pasture crops than is provided when hogs are fattened for market. The early spring pigs, sold as feeders, nearly always sell at higher prices than do the later farrowed pigs.

Farmers should examine their litter of pigs now. Mark the gilts that have grown best up to the present time but be sure they are from large litters. Be sure the gilt has at least ten well developed udder sections. Select the gilt with enough age and maturity so that she may be bred in November for a March litter. The pigs are then ready for sale by late April or early May.

Most farmers now have electricity so that early litters are not a great problem where heat lamps or a farrowing crate is used. After weaning the first litter the gilt may be re-bred for an early

ORCHARD NOTES

By C. Fairman

I am delighted to be called upon to write orchard notes for this new progressive weekly, the paper with a modern style.

If I can do as well with this column and not make it too drab and dry I will be O. K.

After all this is a wonderful fruit country. Having a long warm summer with plenty of moisture, late ripening winter apples are in excellent condition. Especially Jonathan, Spy and McIntosh. The cooler weather just lately helps preserve these varieties for long keeping.

I am not the only one that grows apples. Homer Waring of Kewadin on 31 usually takes first prize at all the fruit shows on his splendid McIntosh. Don't forget the large Eveline Orchards. Mr. Darbee always puts up a good pack.

Going from apples to

fall litter or she may be fattened and marketed by early June when pork prices are usually good.

Farmers farrowed fewer litters of pigs this spring and expect smaller numbers farrowed this fall. Couple this with an above average small grain crop plus one of the record corn crops nearly ready for harvest and we have indications of a good year for swine producers in 1953. Good pasture, parasite control, sanitation and balanced rations also contribute to a profitable swine program.

Correct lifting should be practiced until it becomes a habit. Each year thousands of persons are victims of sprains, strains, hernias and other injuries caused by improper lifting.

According to records of Michigan State College safety specialists the most common cause of lifting injuries are: lifting and lowering with the back muscles; insecure grip or footing and unsafe placing of hands or feet; using quick, jerking, twisting or awkward movements of the body; obstructed vision, unstable loads or inadequate control; and insufficient help or failure to use mechanical aids.

One common practice is to bend at the waist when reaching down to grasp an object. Lifting in this position places a severe strain on the sensitive back and abdominal muscles. Always bend your knees and keep your back straight when it becomes necessary to lift.

We advise rearranging work to eliminate or reduce the amount of lifting required. We also suggest exploring the feasibility of using simple and safe mechanical aids, such as rope hoist, wooden skid, hand trucks or inexpensive conveyors.

cherries, our local canning company, The East Jordan Canning Company is reported to put up the best pack of cherries that is canned in Michigan.

Next week we will look after those little devils called mice. The lush growth of grass and weeds this year will encourage the mice to injure fruit trees this winter.

Peninsula 4-H Meeting

The Peninsula Community 4-H Club was called to order by its president, Ruth Ann Crowell October 4th at Kay and Marol Klooster's home. The opening was followed by singing the 4-H club song and saying the flag salute and club pledge.

The motion to have a Halloween party was rejected because of the numerous amount of parties this time of year.

New business included the nomination and election of officers for the coming year. They were elected as follows: Louise Ostrom, pres.; Donald Peters, vice-president; Genevieve Palmeter, secretary; Jerome Chanda, treasurer; Carol Klooster, reporter; Robert Crowell, recreation leader and Marjorie Chanda, Health Leader. These officers will take over at the November 4th meeting at Tom Sheridan's home. A recreation period followed the business meeting, and refreshments were served. Twenty-three were present.

Expert Suggests A Better Method Of Washing Blankets

Save yourself and your blankets this fall when you do household laundry. Mrs. Alice Thorpe of Michigan State College home management department recommends the new soaking method, developed at Ohio State University.

Essence of this new method is don't agitate the soil out of the blanket, soak it out. To begin with, use a synthetic detergent and operate the machine long enough to dissolve the detergent in luke warm water. Put in the blanket and soak 15 to 20 minutes without operating the machine at all. While it's soaking, turn the blanket by hand once or twice.

For the rinsing process, remove the soapy water and allow the blanket to soak four or five minutes in clear tepid water. Repeat, so the blanket gets two rinsings and during each one turn the blanket twice by hand.

After the last rinse, stretch the blanket to original size and dry, Mrs. Thorpe instructs.

Beef cattle will use low-value roughage better than other livestock.

District Health Unit Plans Clinics

Dr. A. F. Litzemberger, director of the Michigan Department of Health No. 3, studies a map of northern Michigan while conferring with Miss Elaine Abbott of the Michigan Tuberculosis Association while planning the route the mobile X-ray unit will take during its stay in northern Michigan Oct. 28 to Nov. 22. Pictured with them are seated: Mrs. Marian Rice (left) Charlevoix county nurse and Mrs. Elizabeth Robertson, East Jordan community nurse. Standing are Mrs. Helen Goodwin, Boyne City school nurse, James Scott, sanitarian and Mrs. Margaret Davenport, Charlevoix community nurse. The mobile X-ray unit will visit Charlevoix Oct. 30-31 and Nov. 1.

At the annual meeting of the Michigan Department of Health No. 3 which includes Antrim, Charlevoix, Emmet and Otsego counties, tentative plans were made for the free chest x-ray survey being conducted in all but Antrim county Oct. 28 through November 22.

Miss Elaine Abbott, case finding representative of the Michigan Tuberculosis Association, met with Dr. A. F. Litzemberger, director of the district health department and his entire staff recently, to make arrangements for the mobile x-ray unit which will enter the area at East Jordan Oct. 28 and visit all major communities in the three-county area during the following month. The unit visited Antrim county earlier this year.

The schedule set up by the group and which is subject to change has the mobile x-ray unit at East Jordan Oct. 28-29; Charlevoix Oct. 30-31 and Nov. 1; Boyne City Nov. 4-6; Walloon Lake and Boyne Fall Nov. 7; Gaylord, Nov. 10-12; Harbor Springs, Nov. 13-14; Pellston, Nov. 17; Alanson, Nov. 18 and Petoskey, Nov. 19-22.

It is the aim of the department to have the entire adult population of the three-county area starting with the 15-year-old group x-rayed while the unit is here. Special hours will be arranged for those who cannot visit the unit during the day-time hours. The hours and the location of the unit will be announced at a later date.

"Tuberculosis is a threat to all age groups, Dr. Litzemberger stresses but it is most dangerous to women in their child-bearing years and to older men. In these times few people consider it a threat to the community but most people would be surprised to know that 17 new cases in the four-county area were admitted to sanatoria for treatment during 1951. As long as there are active cases in the area, there is a need for the mobile x-ray unit, Dr. Litzemberger said.

Free x-rays taken at the Charlevoix and Emmet county fairs last year plus the patch tests given the younger school children by the community and county nurses were instrumental in finding the 17 cases which were later hospitalized.

At the same meeting at which the mass chest x-ray project was planned, several other special clinics were discussed. Among them were a special hearing program for adults sponsored by the Michigan Association of Better Hearing scheduled for next month; Diabetes Detection week, Nov. 16-22; a hearing program for school children to be held early next year; and an orthopedic clinic to be held at Gaylord next June.

"The Michigan Department of Health No. 3 like all health groups, does its job with one idea in mind," Dr. Litzemberger said in giving a report on the various

phases of the department. "It is our job to make the communities in which we serve a better and healthier place in which to live. Through our cooperation with private physicians, school and local authorities, we try to accomplish this goal."

The health department through its staff has several outstanding programs which are discussed briefly in the following paragraphs.

One of its major programs is active immunization which is the ideal control measure in the acute communicable childhood disease control program. At immunization clinics children are vaccinated against small-pox and immunized against diphtheria, whooping cough and tetanus.

Despite the advances made in the control of these diseases, 291 cases were admitted to service during 1951 and reporting was far from complete.

There are also about six typhoid carriers in the district who are under the supervision of the department.

The maternal and child health program showed a decrease as more expectant mothers visited their own physicians, which is always encouraged by the department. However, postpartum visits remained about the same. The latter includes visits to young mothers to discuss their child care problems and also to see that the children are given proper immunization protection and prompt treatment of congenital dripping conditions or ailments.

Through the cooperation of school administrators and teachers a fine school health program is possible in the entire area and needs little mention here.

Special case finding programs are conducted periodically such as vision, hearing and speech. Children, through the Children's Fund of Michigan and local organizations, are given glasses and special treatment for their defects.

The Children's Fund of Michigan, cooperating with the department, also makes it possible for the area to have a full-time dentist, Dr. C. O. Whitten and a dental hygienist, Miss Cora Dunn.

In two new programs, 296 calls were made on 185 adults in the adult health service and 147 children taken to the Child Guidance Clinic in Petoskey.

The sanitation and engineering division, headed by James Scott, endeavors to make the health of the people more safe by controlling various factors in its environment that influence the health of the people. The sanitation program includes a consideration of the various parts of water supply, sewage disposal systems and methods of rubbish and sewage disposal. Of primary importance also, is the program relating to milk and milk products used as food. Other activities are concerned with sanitation in food establishments where food is prepared and/or

Hold Rural School Board Meeting

The Boards of Education of the rural schools in Charlevoix county met last Tuesday with Mrs. Catherine C. Bergeon, at the high school building in Charlevoix.

A demonstration of teaching with film strips was given and after some discussion the districts represented agreed to continue their support of visual aid and music programs in the rural

schools. James Scott, sanitarian of the Michigan Department of Health No. 3, was present and discussed improvements in buildings in various districts.

This is no time to buy a farm on a "shoestring," Michigan State College farm economists advise. In any farm purchase, be sure of the title before you close the deal, they also caution.

Editorial

East Jordan's civic improvements now under way hold much interest not only for our own residents, but also for the neighboring communities surrounding us.

Improvement of our city athletic field, our tourist park, the street lighting program and our coming sewage disposal plant, point up the fact that East Jordan residents are rapidly developing their own community.

Listing our current civic improvements and noting the local cooperation behind these things, it can rightfully be said that, "East Jordan is on the march." The march toward a more modern city, toward better community living.

Being able to present our summer visitors with up to date vacation land comforts is a very worthwhile goal for which to work; and to be able to look with pride to our community when visitors arrive, any time of the year, gives one a very comfortable feeling.

And yet it is to be remembered that other eyes are upon us. Other cities near and far are taking note of our progress... judging us by that which we do as well as by how we appraise our selves.

Outside our own city limits a "knock" from others is often a boost, for it might well stem from jealousy. But a "knock" from within strikes deep at the very soul of our fine city, crippling honest attempts at progress.

For without pride in our own community there is little hope for the continued advancement of the men, women and children who make East Jordan their home.

So the job of the future is here at home and consists mostly of continued civic, business and industrial development... progress... which may be enjoyed by ourselves and all those who come to visit us.

Sound planning, cooperation and pride without hint of selfish or individual gain among men, will let all who ask know that "East Jordan is on the March."

—Marshall Sayles, Editor.

Services Held for Sam Coulter, First Mason Member Here

Funeral services were held Monday for Samuel Coulter, 87, first member of the Masonic Lodge in East Jordan. He died at the home of his niece and nephew Mr. and Mrs. Clarence Boyman, where he had been ill for several weeks.

Mr. Coulter came to East Jordan when two years old in 1867. His wife, Mary, preceded him in death last March. The couple lived on their farm south and west of East Jordan until ill health forced them to give up farming.

The services were held at the Methodist Church with Rev. Robert Moore officiating. Masonic services were held at Sunset Hill cemetery where burial took place.

Robt. V. Richardson, Former Resident, Dies Suddenly

Robert Vern Richardson, 59, passed away suddenly at the home of his son, Robert L. of Grand Rapids. Mr. Richardson was a former resident of East Jordan until a few years ago when he moved to Grand Rapids.

Surviving are two sons, Robert and Eldon, both of Grand Rapids; a daughter, Mrs. Marshall Swally of Detroit, his mother, Mrs. Etta Lamerson and a half brother Oscar Lamerson of East Jordan, and four grandchildren.

Funeral services were held at the Watson Funeral Home Sunday October 12th. Rev. C. W. Thompson officiating. Burial was at Sunset Hill Cemetery, East Jordan.

Age forms no block to popularity of hunting. Conservation department records show 37,228 youngsters under 16 years of age and 12,456 older than 70 and over purchased small game licenses in 1951.

HERE AND THERE

AROUND RAINBOW CITY

Mr. and Mrs. George Klooster attended the Stock Auction Sale at Traverse City Monday.

Mr. and Mrs. Adam Skroeski were Sunday evening guests of Mr. and Mrs. Charles Wiesler at Central Lake.

Mr. and Mrs. Ferle Thompson left Saturday on a two week vacation. They will spend a week at Sunderland, Ontario and will spend the rest of their vacation visiting relatives in lower Michigan.

Rev. Edward O. DeHaven is attending the National Mission meeting of the Presbyterian Church at Detroit this week.

Charles Dennis, Jr. of Plymouth spent the week end with his family here.

Mr. and Mrs. John Saganeck and daughter, Regina, spent Sunday at Mackinaw City.

Mr. and Mrs. Howard Porter, Sr. spent Sunday in Grand Rapids with their son and daughter-in-law, Dr. and Mrs. Howard Porter, Jr.

Mrs. Frank King, Mrs. Benjamin, and Mrs. Vanstienbergen of Grand Rapids are visiting their friend, Mrs. Isabelle Sidebotham.

Mr. and Mrs. Robert Campbell returned Sunday from Atlantic City where they had attended the Banker's Convention.

Pvt. Roger Benson who is stationed at Fort Riley received his orders last week to report November 4th at Aberdeen Proving Grounds, Maryland. His assignment is Ordinance Army Officer Candidate.

Mrs. Julia Ruda went to Big Rapids Saturday where her daughter Elaine is attending Ferris institute. They then went to Muskegon to spend the week end with her daughter and son-in-law Mr. and Mrs. Elmer, Poole and family.

Mrs. Edward Wilson and Mrs. Alice Richardson were hostesses at the Wilson home Tuesday evening at a miscellaneous shower in honor of Mrs. Jack Wilson. Mrs. Wilson received many lovely gifts from her friends. Refreshments were served.

A Tea Buffet and apron sale sponsored by the Altar Society will be held at the St. Joseph's school on Wednesday, December 3rd.

Mrs. Helen Klooster, Mrs. Nina French, Mrs. Joyce Nelson and Mrs. Walter Fowler attended the Ladies County Farm Bureau near Charlevoix Friday p. m.

Mr. and Mrs. Archie LaLonde of Detroit spent the week end with their parents, Mr. and Mrs. Jack LaLonde.

Mr. and Mrs. George Klooster and family spent Sunday with their parents, Mr. and Mrs. Ira Springstead at Central Lake.

Mr. and Mrs. Arthur Gerard and children of Lansing spent a

week visiting friends and relatives in East Jordan, and northern Michigan.

Mr. and Mrs. Leon Peterson and two children of Bronson spent from Thursday to Sunday with their parents, Mr. and Mrs. Charles Dennis, Sr. and Mr. and Mrs. Louis Peterson.

MSC Scientists Develop New Dye

East Lansing — Development of new dyes which increase the water repellency of wool 60 times and cotton 12 times has been revealed by Dr. C. C. DeWitt, director of the Michigan State College Agricultural Experiment Station.

Dr. DeWitt revealed his new dye-making process before the annual meeting of the American Chemical Society in Atlantic City, N. J.

The M.S.C. scientist said the dyes... which contain some of the properties of mineral oil... have possible immediate application in the manufacture of such items as tents, awnings and umbrellas, although their use in clothing may take a little more time.

Dr. DeWitt said that the dyes can make cotton and wool clothes water-repellent and more durable without any change in the texture or composition of the materials.

One of the greatest advantages of the new dyes is their permanency. Dr. DeWitt said that the water-repellent qualities will remain in the material as long as the dye. This is a definite improvement over most of the present waterproofing methods by which cleaning with any liquid removes the waterproofing and it must be replaced after each cleaning.

It may be necessary, Dr. DeWitt added, to change the composition of present dry cleaning liquids in order to clean fabrics colored by these dyes in a satisfactory manner.

READIN' WRITIN' and 'RITHMATIC

FIRST GRADE
Mrs. Brooks
Shirley Crawford's mother and little brother Rex visited our room on Shirley's birthday bringing candy suckers to pass around.

Lutella Thompson has gone to New York with her parents for a couple of weeks vacation.

Jack Barnes, from Muskegon, entered our school Monday. We have 33 in our room.

Our little turtle has dug a hole in the mud where he sleeps most of the time. But the tree toad is still hopping around.

Some of us are reading in the second primer and have already learned many words.

SECOND GRADE
Agnes Johnston
During our discussion periods we have been talking about the many signs of fall. We are making a collection of fruit, vegetables, leaves, nuts and other things to put on one of our library tables. They tell us fall is here.

We have a "Bring and Tell" day every week. Several children brought things to tell about. Peter Zoulek brought a peanut plant; Donald Bowerman brought a bird's nest and a branch of thorn apples; Carol Bowen and Marilyn Hughes brought some unusual looking gourds and Patsy Murphy brought some broom corn.

We all enjoy reading from our Weekly Readers. We like to work "The Fiddle Box" each week. Tuesday we took our first Weekly Reader test. Most of us did very well.

We have a new October calendar in our room. We marked off important dates that we want to remember during the month. We found that Reva Hart, Peter Zoulek, Thomas Breakey, Jerry Cihak and Michael Bennett have birthdays in October.

For Hallowe'en we are going to have a dress-up parade.

We think waxing leaves is

fun. Thursday we all waxed one leaf each.

Mrs. Robertson, our school nurse, came to our room Friday and gave us a talk on health. She showed us what we should eat for breakfast. After her talk we all went to her office to be weighed.

Betsy Bell's Grandmother, from New York, visited our room Monday morning. We were pleased to have her come and see us at work.

Two beautiful plants were brought to our room by Carol Bowen. They help make our room look bright and cheerful.

Larry Eichler told us all about his trip to Chicago. It was interesting to learn that Larry had a ride on the sub-way and elevated train. We thank Mrs. Hughes for letting Larry come over to tell us all about his trip.

THIRD GRADE
Adeline Bowerman
Several classmates and friends of Ward Cole helped him celebrate his ninth birthday with a lovely party at his home. A treasure hunt was especially enjoyed.

After a three months vacation many of us found that the arithmetic combinations had gotten away from us. We are working hard to have accuracy as well as speed in getting the answers.

We are learning two choral readings, "Signs of Hallowe'en" and "Sounds in October."

In social studies, we are enjoying a little reader, "America, Land I Love." For National Fire Prevention Week, we had a fine discussion on what we can do to help keep America beautiful. In Art, we each made a poster to illustrate some part of the discussion.

We are making a panel frieze to illustrate various things pertaining to Pioneer life. This week we are working on their ways of transportation, learning to locate on the map the three main routes of travel. We are learning geographical terms such as Great Lakes, Ohio River, Appalachian Mountains, Cumberland Gap and Great Plains.

Glenn Pinney brought a large jar containing about a dozen pol-wogs to school Monday morning. We are always glad to have such

Questions & Answers
By
Bill Huckle

Q. Could you make some copies for me of an old browntone print? I thought they might make nice Christmas gifts for members of my family this year.

A. You bet we can.

Q. Will it harm the picture? It's the only one we have.

A. Not at all, it will be returned to you just as it is.

Q. Will the copies be as good as the original photo?

A. Just as clear. Sometimes, with the use of our special equipment, we can produce even better prints than you have in the original.

Q. How about a stain? Will it show in the copies?

A. No, it won't be in the copy prints.

Q. How long will it take?

A. Delivery within a week now, a little longer as we approach the Christmas season.

Q. How much will it cost for the copy work?

A. That depends a lot on the condition of the print you have. If it's in good condition the copying charge is \$2.00. Extra restoration work, stain removal etc. costs a little more. We give you a price on every job before you place your order. Being the photo in next time you're in town and we'll tell you what those Christmas gifts would cost you.

interesting thing to observe. Betty Masley brought leaves, clipped and opened burrs and the nuts of a sweet chestnut tree. Not one in our room had seen nor tasted nuts like these.

Patrick Groszman's mother and two little brothers visited our room. We are always happy to have our parents visit us.

THIRD GRADE
Marie Hughes

Our room has 39 boys and girls. They have been very happy making collections of leaves, of seeds and of rocks. We have watched a caterpillar making a cocoon. We have found many of our animal friends hibernate for the winter. Some of us have noticed big flocks of birds getting ready to go south. All of us have enjoyed the many colors of the fall leaves.

We have become food minded. We try to eat some of each of the basic seven every day so that we will have healthy bodies.

We are learning to use the new spelling workbooks.

FOURTH GRADE
Joan Strohl

Last week the boys and girls in our room observed "Fire Safety Week." Several reports were given on the ways we as children might help prevent fires. Some of the children made pictures to illustrate their reports.

In geography class we have been working on maps. We are putting the continents and oceans on the map of our world. We saw a movie "Southern Highlanders" which helped us to see the land formations we have been studying. Everyone in our class was happy to receive a new geography book this week.

The children have decorated our room with many colorful leaves. We have started the study of leaves. Autumn leaves and Come Little Leaves are the we are learning this week.

SAWDUST IS OUT!

Sawdust has virtually no fertilizing value. Fresh sawdust contains about 10 pounds unavailable plant nutrients per ton of air-dry materials. However, its use as a much or adding to the soil is recommended—but a fertilizer strong in nitrogen should be mixed with it.

3 Great Symbols
of America

That Spell
Freedom!

The G.O.P. Elephant
the Democratic Donkey
and the famous Red Feather
of the Community Chest
are all emblematic of our
free way of life. For free
elections and private phil-
anthropy are two sides of
the very same coin. Our two
great parties keep up in-
dependent of political dic-
tatorship. And private giv-
ing through the Commu-
nity Chest keeps us
free of Socialism and its
tax-supported, government-
administered dole. Give to
the Community Chest
it's as important as voting
